Dr. Kempt, of Lindsay, has purchased the residence of the late Dr. Yelland and will remove his family in a short time. The doctor has re commenced the practice of his profession and may be consulted at the office, corner of George and Murray streets, at any hour. Dr. Kempt is a graduate of McGill University and has carried on a successful practice of his profession in Lindsay for many years. He has occupied the position of surgeon to the Grand Trunk Railway, and also that of town physician. Dr. Kempt is welcomed as an important addition to the citizenship of Peterborough.

A DANGEROUS TUMBLE.

A Baby Carriage and its Occupant Falls off a Sidewalk.

Yesterday afternoon a number of spectators were horrified to see a tiny tot of a girl trundling a baby in a perambulator down the Park street hill which descends from the Boundary Road.

Just at the foot of the hill the sidewalk is quite high and crosses a deep ditch.

As the ditch was reached the carriage left the sidewalk and with its occupant was thrown violently down amongst the stones. The baby was old enough to have sufficient strength to hold on to the carriage and never left the seat until it was picked up, although the carriage was turned completely over. The little one was fortunately unhurt though a trifle dazed by the fall.

Mothers cannot be too careful in trusting their babies out in carriages unless some one competent to look after the occupant is close by. Yesterday's incident might easily have resulted fatally.

RUNAWAY ACCIDENT.

Mr. William Robson Badly Injured Yesterday Afternoon.

Yesterday afternoon as Mr. William Robson, son of the late Walter Robson, who is living on the Stothart farm, was driving down George street his horse took fright at the raising of the buggy cover, and ran away.

The animal was soon beyond the control of its driver and the vehicle was overturned just opposite the residence of Mr. F. J. Rogers, of the Bank of Montreal.

Young Robson was thrown violently out and received severe bruises as well as being badly cut about the head. He was carried into the residence of Mr. William Thompson, where the injuries were dressed by a local physician, after which he was able to be removed to his home.

A TEAM RUNS AWAY.

Mr. and Mrs. George Fife Severely Cut and Bruised.

A team of horses belonging to Mr. Geo. Fife, of Otonabee, became frightened this morning, whilst being driven through Ashburnham, and getting beyond the control of their owner ran away, throwing both Mr. and Mrs. Fife out and bruising them considerably. The democrat to which the team was attached was badly smashed up before the horses were caught.

THE INSPECTOR'S REPORT

was received as follows:

GENTLEMEN,—In view of the fact that the annual report to be submitted at the next regular meeting in July will contain full information upon the condition of each department and the standing and success of the teachers it will, I trust, be unnecessary at present to enter into details. With the exception of three rooms in which the work has been broken by the temporary illness of the teachers, steady progress has been made during the month. Some six cases of truancy have been reported. In four of these cases a visit from the Truant Officer has proved effectual in restoring the absentees to the school, but in the cases of the remaining two, both in one family, resort to prosecution was necessary and the matter is now in the hands of the Police Magistrate. The accompanying statement shows that the overcrowded state of some of the departments still continues.

All of which is respectfully submitted.

ALEX WHERRY, Inspector.

THE PROPERTY COMMITTEE,

through its Chairman, Mr. Peter Hamilton, reported as follows:—

1. Increased School Accommodation.—We have examined several rooms and have accepted, subject to the approval of the Board, two rooms from the Toronto Savings and Loan Company, the Board to place in the rooms their own desks and remove them when the rooms are vacated by the Board. These rooms are situated over the Bank of Commerce and will accommodate about forty pupils in each room and are the most suitable we could find. We would recommend an acceptance of their offer and a proper lease prepared, including the different advantages as mentioned and duly signed, rent term to commence 1st September next.

In reference to the title of the Central Park, with a view of acquiring it as a site for the erection of a Collegiate Institute, we have been advised by our solicitors that the title is vested jointly in the town and county councils of Peterborough, and that it will be necessary to secure consent from both—which will have to be legalized by legislation. They also added "As the County Council meets in June for the last time as at present constituted, it might be well to make application forthwith, especially as the next session will be too close to the session of the Legislature."

Accordingly we made application to the town council at their meeting last night and the request was referred to a committee of the council to confer with the Property Committee with a view of making a full inquiry into the advisability of joining the Board in making the application to the county council. We would ask the Board to confirm what we have already done and instruct us to proceed to a successful issue, if possible, in taking any necessary steps to secure as a site for a Collegiate Institute the land known as the Central Park.

Adopted.

On motion the names of Messrs. Hill and Hayes were added to the Property Committee as a deputation to consult with the town council and wait on the county council in reference to the securing of the Central Park site.

THE SUPERVISION COMMITTEE,

through its chairman, Dr. Caldwell, reported:

"That they ordered and have procured the eight maps for the Central school to replace the ones destroyed by fire. They have also ordered the wooden models which were required for the four schools at a cost of ten dollars. The consideration of books for supplementary reading have been postponed till after the holidays."

Adopted.

THE FINANCE COMMITTEE,

through its chairman, Mr. W. G. Ferguson, recommended the payment of the following accounts:

A H Stratton & Co	$112 51
W Blackwell	85 00
James Stevenson Coal Co	17 50
Peterborough Water Co	13 11
J Davidson	17 50

Adopted.

REGARDING MR. DROPE,

After several members of the Board had expressed their regret at losing Mr. Drope, on motion of trustee Hill and McKee, the following resolution was unanimously carried:

"That in accepting the resignation of Mr. W. J. Drope, B. A., for six years Commercial Master in the Peterborough Collegiate Institute, this Board desire to place on record its appreciation of the services rendered by Mr. Drope in every department of his work. As a successful and thoroughly qualified master, he has repeatedly received commendation from the High School Inspector; and as a leader in all athletic sports, he has greatly assisted in the moral and physical development of the pupils under his charge. This Board accepts his resignation with regret, and expresses the hope that he may meet with success and encouragement in his future undertaking."

On motion of Mr. W. W. H. Hill, it was resolved that "The Inspector be instructed to exercise greater vigilance in enforcing an observance of the regulations contained in clause "60" of the by-laws of the board, and that he be further instructed to embody in his monthly report upon the standing of the teachers, a detailed statement showing the number of occasions upon which each teacher has been late and the number of days each has been absent from duty—together with the cause of such absence.

An agent of Scarfe's new method of teaching history, through the medium of charts, was then allowed to address the board, and gave a most comprehensive explanation of the system. The matter of purchasing a set of charts was referred to a committee, after which the board adjourned.

THE VILLAGE COUNCIL.

It Held its Regular Monthly Meeting on Monday Evening.

At the meeting of the Ashburnham council Monday evening the chair was taken by Councillor Calcutt in the absence of Reeve Burnham. The other members present were Councillors Craig, Rutherford and Johnston.

On motion of Messrs. Rutherford and Johnston the following accounts were paid:

J C Sullivan	$ 3 50
T B Manley	1 00
Pay sheet No 8	15 25
" " 9	16 67
" " 10	19 50

L Spry (dog tags)	4 00

It was moved by Councillor Craig, seconded by Councillor Johnston, that the crossing on corner of Mark and Elizabeth streets be repaired and crossings on Douro and Robinson street be repaired and walk on south side of Robinson street be relaid.—Carried.

After discussing the street watering question at length, the council adjourned without taking any action in reference to the matter.

THE PROPOSED NEW COLLEGIATE INSTITUTE.

To the Editor of the Examiner:

DEAR SIR,—I notice that the members of the Board of Education are endeavouring to secure the Central Park as a site for a new Collegiate Institute. As to its suitability for such a purpose, there can hardly be a question, but I think that the council should hesitate before acquiescing in the plans of the Board.

This town is growing, and will doubtless before many years, be a place of several times its present population. The Central Park—as its name implies—will, with the exception of Court House Park, be the only breathing place centrally located. Anyone who has been in our large cities will know how these little oases of green are appreciated, and how they are cared for and tended. Though the Central Park, at present, has a neglected and uncared for appearance, yet likely some day it will be placed under the care of some person or society, who will make it, what it should be, a thing of beauty; but we dare hardly look for improvement while it is under the charge of our unæsthetic Street Inspector.

Those in attendance at the Collegiate Institute have invariably passed childhood, and a reasonable walk, therefore, will not injure them. As to the masters, it is well known that they all, from the worthy principal down, ride a bicycle, and it is immaterial to them whether the Institute is located centrally or at the outskirts.

For these and other reasons that I might mention, I think that a suitable site could be obtained for the proposed new Institute other than the Central Park. What say others?

YEARLY
JUNE SALE

Progress never pauses here. June 1st is the great date in our business year. June is the month when we obliterate regular selling figures and make prices dance downwards for the benefit of consumers.

We start off the First Week of our Big Annual June Clearing Sale with the positive announcement of a Sweeping Reduction on the whole of our $30,000 stock of **Fashionable Dress Goods, Seasonable Dry Goods, and Elegant Millinery, Jackets and Capes.**

JUNE SHALL BLOOM WITH BARGAINS.

Cost to import and produce will play no part in our Reduced Prices. They are fixed for selling—not because we want to destroy values altogether, but because we always have, always will, and MUST NOW dispose of the great bulk of our Summer Stocks before July.

Wise folks will buy largely now for the future. No scanty or trivial lots only laid out for this occasion—but actually the entire stock. Great lots of seasonable New Goods at Retail below the wholesaler's cost.

TO-DAY we offer 25 Pattern Dresses, worth $4.50 to $10 each, for just **ONE-HALF PRICE.**

R. H. KELLS & Co
365 George Street, Peterborough.

COME EVERY DAY

And you'll find special attractions every time you visit the store, with the verdict unanimously in your favour, without costs. Every day our June Sale will be Red-Letter days for June buyers.

A NEW SYSTEM

Along with this June Sale we inaugurate a new system of Registering Sales. At considerable outlay we have brought into requisition two complete self-adding National Cash Registers, so perfect in mechanism that they systematize into divisions all the transactions which occur between clerk and customer. They register who makes the sale, the date of sale, number of sale, whether for cash or credit, amount of cash received and cash paid out, the amount of sales made by each salesman, adds the amounts together, and keep a complete register of the total sales of the day. In fact, these wonderful machines do everything but talk.

They also print and issue with each sale a small check ticket to be given to each and every purchaser. Customers keep these tickets until they amount to $10, in exchange for which we give free a pair of Ventilated Summer Corsets, or a pair of our best quality Silk Gloves, or any other goods of equal value.

WHEN they put a man in jail, he cannot follow his natural inclinations. His enjoyment of life is limited. He cannot eat what he wants to—he is limited to a very frugal diet. He is alive to be sure, but life doesn't possess very many advantages.

Are not all these things equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor as much of it as he would like. If he transgresses any of the rules of his diet, he is punished for it. He suffers much, gets little sympathy.

Dyspepsia starts with indigestion, and may lead to almost anything. Indigestion means a variety of things—it shows itself in many ways. At first, perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn. Headaches begin to come pretty soon after that, and biliousness and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and it is probably the most serious trouble that ever takes hold of a man. Its seeming simplicity is the thing that makes it most dangerous, because it leads to neglect. Constipation means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being reabsorbed into the blood and the whole body is being filled with it. Impurity in the blood may lead to almost any disease. There is no telling what may come of it. Constipation is the start of it all. And yet people are careless about it. It is the most serious thing in the world, and the easiest to cure if you go about it right. Dr. Pierce's Pleasant Pellets cure constipation. Cure it positively, certainly, infallibly. Cure it so it stays cured. Cure it so you can stop taking medicine.

And that is something that no other remedy in the world will do.

THE CZARINA IS ILL.

Almost Prostrated by the Catastrophe at Moscow in Which So Many Lives Were Lost.

Berlin, June 2.—A private despatch says that the Czarina, who has been dangerously ill since the catastrophe, keeps up only by the strongest effort of will power.

She is determined to finish the entire program of fetes, as any show of weakness on her part would work mischief politically. Official Moscow is, therefore, gayer than ever.

The Czar and Czarina have decided not to pay visits to the Berlin and Vienna courts this winter.

Cholera Riots in Cairo.

Cairo, June 2.—There were on Monday 35 deaths from cholera here and five at Alexandria.

The leaders of the riot here yesterday growing out of the scare occasioned by the cholera were killed when the police fired on the mob.

Spain Feels Sore.

London, June 2.—The Morning Post will to-morrow publish a despatch from Madrid saying that Senor De Lome, the Spanish Minister, has protested to the American Government against the parading of the Cuban flag in a procession in New York on May 31.

GREAT ARE THE KANGAROOS.

London, June 2.—The Australian team finished their first innings with a score of 308. Oxford then began their second innings, making 80 runs for two wickets. Oxford's first innings produced 237.

Most coughs may be cured in a few hours or at any rate in a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months. Keep this remedy in your house.

THE MARKETS.

Flour—Business is very quiet and prices nominal at $3.20 to $3.30, Toronto freights, for straight rollers.

Bran—The market is dull, with cars quoted at $9.25 to $9.50 west, and shorts at $10 to $11.

Wheat—The market is quiet, with lower cables, having an unsettled effect. Offerings fair, but millers holding off. White is quoted on the Northern at 69c, and red at 67c to 68c. No. 1 Manitoba hard 69c to 69c Fort William, and the same grade is quoted at 68c Midland.

CATTLE EMBARGO

Reaffirmed by the British House of Commons.

PROPOSED AMENDMENTS KILLED

The Government Persists in Accepting the Testimony of British Experts That Canadian Cattle are Tainted With Pleuro-Pneumonia—General News by Cable.

London, June 2.—In the Imperial House to-day Right Hon. George N. Curzon, Under Secretary for the Foreign Office, in answer to questions, said that none of the British Consular offices in Venezuela were held by Americans. In the selection of such of ficers, he said, preference was always given to British subjects if they possessed the necessary qualifications.

The Diseases of Animals Bill was then taken up and several amendments were offered to the measure, their aim being to except colonial and especially Canadian cattle, from the regulations requiring imported animals to be slaughtered at their ports of landing. These amendments were successively opposed by the Government and finally rejected.

Right Hon. Walter Long, President of the Board of Agriculture, maintained that all of the evidence at the disposal of the Board of Agriculture had proved that Canadian cattle were tainted with pleuro-pneumonia. Although this was disputed in Canada, he said the opinion of the English experts that pleuro-pneumonia was present in Canadian cattle remained unaltered.

TEMPERANCE IN BRITAIN.

Twentieth Annual Council of the British W.T.A.—A Steady Growth Reported.

London, June 2.—Queen's Hall, London, was crowded last evening with an enthusiastic audience upon the occasion of the opening of the twentieth annual council of the British Woman's Temperance Association.

Agnes Weston presided, and in a short address extended a hearty welcome to Miss Frances Willard, President of the World's W.C.T.U., who was loudly cheered when she appeared upon the platform. Miss Willard delivered a brief address, in which she declared that the growth of temperance and the Christian gospel were concurrent.

Lady Henry Somerset, President of the British Woman's Temperance Association, delivered the presidential message, which was received with prolonged cheers. Canon Wilberforce of Westminster also spoke.

Lady Somerset, in the course of her address, said: The total admissions for the year to the London Temperance Hospital have been 1066, the best record made during the 22 years since the hospital was founded. The outpatient department is attended by more than 5000 persons annually. The best result is that the alcoholic consumption has decreased as much as 60 per cent. In some of the London hospitals. In dealing with Sunday closing, I cannot believe that we have done wisely in closing every place that could be in any way an offset to the attractions set out by the publican. That every temperance refreshment house, coffee house and eating house should be closed in London as soon as Sunday dawns seems to be playing into the hands of the enemy in a way that is not in accord with the spirit of religion. One hundred and eight branches have been organized in England and South Wales, by means of which over 3000 have this year been added to them. Scotland has organized 30 branches and North Wales 36. Total additions, 134.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Ross and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

The Bermuda's Papers Withdrawn

Philadelphia, June 1.—British Consul Clipperton to-day revoked the registration of papers of the filibustering steamer Bermuda. Captain Clipperton gave as his reasons for revoking the steamer's papers that she was not owned by British subjects, but it is not hard to believe that the owner's activity in the Cuban cause brought about the consul's action. The Bermuda will now be unable to leave port until she is registered by some other government.

U.S. Cutters on the Lakes.

Washington, June 1.—The conferees upon the Sundry Civil Appropriation Bill have agreed upon retaining in the bill the following amendments made by the Senate: To build two revenue cutters for service on the great lakes, to cost $400,000.

THE RUNAWAY WAS FATAL.

Mr. William Reading Died From the Injuries He Received on Sunday.

Clifford, Ont., June 1.—A fatal accident happened here yesterday. As Peter Donaldson of Drew was driving to Clifford to church the horse took fright at a pile of lumber on the road, and becoming unmanageable, ran away. The rig, containing Mr. and Mrs. Donaldson, Mr. and Mrs. William Reading, was upset, throwing the occupants into the creek; there was a small dam in the creek and Mrs. Donaldson and Mr. Reading were thrown against this. The former had her thigh bone badly fractured, and other injuries, but is expected to recover. The latter received internal injuries, which resulted in his death to day.

NOT A SICK DAY

For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually—as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. THEY CHEERED FOR KRUGER.

All the Pretoria Prisoners, Except the Four Leaders, Have Been Released From Prison—A Better Feeling Now.

London, May 31.—The Johannesburg Standard telegraphs that the release of all the members of the Reform Committee with the exception of Messrs. Rhodes, Hammond, Farrar and Phillips, the four leaders who were originally condemned to death, has caused widespread rejoicing in the Transvaal and elsewhere in South Africa. When the fact became known, President Kruger, to whom the release is due, was enthusiastically cheered. The members of the Johannesburg Exchange sent a telegram to President Kruger expressing to him their warmest thanks for his generous action, which, they declared, would have a beneficial effect throughout South Africa. The despatch adds that confidence is felt that the president will extend his generosity to the four leaders who are still in jail under a sentence of 15 years' imprisonment.

Another despatch says that Mrs. Hammond, wife of the American prisoner, is dying.

A BLAZE AT OSHAWA.

The Cedardale Hotel Goes Up in Smoke—Supposed to Have Been Started by a Tramp in the Stable.

Oshawa, Ont., May 31.—About 4.30 this morning the Cedardale Hotel, occupied by Mr. F. Mallett, was totally destroyed by fire, which broke out in the adjoining stable, burning two horses and a dog. The real cause as to its origin is unknown. It is supposed to have been set on fire by a tramp sleeping in the stable. The fire brigade was soon on the scene, but were too late to save any of the property. Loss about $2500. Partly covered by insurance.

VOLUNTEERS FLOURISHING.

Ballington Booth Says They Have Sixty-Eight Organized Posts.

Philadelphia, June 1.—Ballington Booth spoke here to-day before a large audience. In the course of his address he said:

"Mrs. Booth and myself had intended to retire into private life for a much needed rest twelve weeks ago, but, backed by assurances from all over the country, we started the movement of to-day.

"It has been asserted that the Volunteers had but five posts, and that two of those posts had intended to go back to the Salvation Army. The Volunteers have not lost two posts. On the contrary, the posts at Napenville, Ill., and Cedar Rapids, Mich., are stronger than ever. We have 68 officered, organized posts, and a number more waiting for staff officers in order to organize. In our war office 48 officers are employed, and we have a paper with a paid circulation of 19,000 per week.

"I am not out of the Salvation Army of my own seeking. I loved the old movement, and both Mrs. Booth and myself worked for it with untiring devotion. I was driven from the old movement for expressing an opinion as to its government in this country. I have come to the conclusion that any organization that is to benefit this nation must be separated from the jurisdiction of a foreign government. I should have been in the Salvation Army to-day if the Salvation Army were American. We must have rules and organizations formed by those who recognize the laws and institutions of our country."

THE GREAT MILWAUKEE STRIKE.

A Scheme Now on Foot to Organize a Municipal System of Lines.

Milwaukee, June 1.—The striking street railway men and electricians held a monster picnic and parade yesterday. W. D. Mahon, National President of the Men's Street Railway Union, in a speech, said the fight against the railway company had only begun. The organization of a street railway, in which the citizens of Milwaukee shall own a majority of the stock, was urged as a means of bringing the electric railway and light company to terms. A committee appointed for the purpose has prepared articles for such a company, to be known as the Municipal Street Railway and Light Co., and it is claimed by the strikers that the project will receive the endorsement of a majority of the council.

CAMPAIGN NOTES.

The Tories in a Quandary About the Premier Visiting Toronto.

The Conservative leaders are not sure whether or not it is wise to bring Sir Charles Tupper to Toronto at all during the campaign. They are afraid that on account of the anti-coercion feeling, which is so strong in the city, a visit may result in more harm than good. They are now considering whether it is better to bring him on or not, and if it is decided in the affirmative, what form the reception shall take.

Sir Mackenzie Bowell, who is in England, does not appear to be any too sanguine of the success of the party which he lately led, if he can be judged by interviews reported in the newspapers. He seems to fear the effect of the school question on the electors and that his party may be defeated by it.

During his flying visit to Manitoba, Mr. McCarthy held twelve meetings. If energy and perseverance can accomplish anything, the Third Party should make their influence felt in the elections.

Hon. Mr. Costigan is to meet with vigorous opposition. La Forest is the standard-bearer of the Liberals, and has a good prospect of success. Hon. Mr. Laurier visited the constituency on Saturday.

A barefaced attempt has been made to buy up Queen's and Shelburne, in the interest of Sir Charles Hibbert Tupper. Letters have been sent to prominent Liberals, stating that if they will throw Dr. Forbes, the Liberal candidate, overboard, and work for Sir Hibbert, the coast line railway through their constituency will be liberally bonused. The attempt did not succeed.

The story that Dr. Wilson had retired in East Elgin is a barefaced lie. He has no intention of retiring, and will be the next M.P. for the riding.

A number of changes are announced in the Manitoba candidates. The Patron is to retire in Lisgar, leaving it a straight party fight. Mr. Macdonell, the Liberal candidate in Selkirk, who wished to withdraw, has been urged to remain in the field, and has consented to do so. Mr. McDonald, the Conservative nominee in East Assiniboia, insists on retiring. Mr. Martin's majority in Winnipeg is estimated at from 500 to 1000. No one seems seriously to doubt that he will be elected.

There was a meeting of East Toronto Liberals last night and it was decided not to bring out a candidate, but to leave the field to Messrs. Coatsworth and Robertson.

The East York campaign is now getting lively. Mr. W. F. Maclean held a meeting last night in Yorkville, at which there was a large attendance. Mr. Maclean reiterated his opposition to the coercion of Manitoba and his adhesion to a protective policy.

A large meeting of West York electors took place in Northwest Toronto last night in the interest of Mr. N. Clarke Wallace. Dr. R. B. Orr criticised Mr. Wallace and accused him of having broken his pledge to the electors. Mr. Wallace defended himself amid great cheering, and challenged any party to bring out an opponent. A resolution was passed endorsing Mr. Wallace's course.

Fifty Horses Burned

New York, June 1.—Fire last night at Nos. 319 and 321 East 53rd-street, in Bohleman's boarding stables, caused a loss of $75,000. There were 75 horses in the stables, 50 of which were burned.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

Pulled Bread.

There is no nicer dessert for a luncheon or a family dinner than a piece of pulled bread, a bit of good cheese and a cuff of coffee. Besides, it is "so English, you know." To make the pulled bread, take a loaf of freshly baked bread, while it is still warm and rather underdone, and pull the inside out of it in irregular shaped pieces, about the size of an egg. Put these in a good oven and bake a delicate brown. They are crisp and full of flavor, and make a delightful combination with cheese and tender stalks of celery or the white inner leaves of lettuce, in which case the bread may be served with the salad.

Chile Sauce.

Eighteen large, ripe tomatoes, six onions, six large red peppers, ten tablespoonfuls of sugar, three tablespoonfuls of salt, five cupfuls of vinegar. Chop fine and cook one hour.—New York Recorder.

DOAN'S

BATTALION NOTES.

Items of Interest for the Boys in Red —The Belleville Trip.

Belleville council has granted $200 towards entertaining the 57th in that city on the first of July. When speaking before the council in reference to the matter, Lt.-Col. Ponton said it was expected that a celebration like that held in Picton and Peterborough would be held in Belleville. He said that there would be a military celebration there on the 1st of July that would far surpass any other of its kind that has ever been held there. The 57th of Peterborough would be in Belleville for two days and two nights. The Picton Cavalry Corps would also be in attendance. Peterborough each year gave $400 to their military band, and the officers of the 15th thought that Belleville might give $300 in order to give the visitors a pleasant time. Col. Ponton said the money would be spent to as great an advantage as was possible, as the 15th were citizens as well as soldiers.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

THE WHEEL.

It is rumoured that the Canadian Pacific Railway line may withdraw the special rate named for the wheelmen to Quebec on account of the Chairman of Transportation, Dr. Doolittle, advertising a boat rate from Toronto.

Tom Cooper, the man who is expected to clip the wings of Bald this year, has this to say of high gears:—"I thought I was riding too easy a gear once and increased it. For about a month I did not notice any particular difficulty. Then I found that my speed was decreasing. My muscles got knotty and for a time I did not know what to make of it. Then I changed back to the gear I was previously riding and found that was where the trouble lay. I would not advise any man who wants to be speedy to ride a high gear." Many riders make the mistake of switching off at a moment from a 68 to a 76 or even to an 84 inch gear. The results in the majority of cases are disastrous, both to the muscles and ease of mind of the riders so doing.

The rider who will subject a light track racing wheel to a severe pounding over good, bad and indifferent roads will sooner or later come to grief, no matter how high the grade of wheel he bestrides. Racing machines are built for speed and to secure that essential strength has to be sacrificed. A case in point is that of Harry Parkin, the rough-and-ready road rider of the Royal Canadians. Though of stout build and great strength he rode a light racing machine for two years in all sorts of weather and over all kinds and conditions of road. He participated in road races galore, but his mount never failed him until his late accident, when the crown of his bicycle succumbed to the strain and precipitated him on the road.

BASEBALL.

A Chicago paper dishes up a recent ball game in the following original manner:—"Grand Rapids came up in the sixth smiling, but groggy. Ryan punted to the boundary for 360 feet. Truby turned a jack; McBride dominoed. Anson went through guard, and tackled for 90 feet. The school furniture men braced, and got the ball on Erevett's high punt to Gilks. Score 12 to 0. Lange sent the ball into the tee at the first attempt in the eighth round. Ryan sent him through the third arch by lobbing one down toward the bowler. Gettinger secured a half-nelson and downed two flies. No more scores. In the ninth, Walters bowled one into McBride's legs. Anson caught a round one on the point of the jaw, and sailed over three tacks with spinnaker set, but was caught trying to come home. Reffley pegged one for last card, and the Colts won on the show down—14 to 0.

FOOTBALL.

The Otonabee football club have been negotiating with Manager Neil for a space on his programme of sports to be run off on the Jubilee ball grounds on June 11th the at Farmers' Institute annual picnic. Manager Neil has complied with their wishes, as two other teams have already entered. The Otonabees can try conclusions with the winners of the first game.

ROUNDHOUSE STAFFS REDUCED.

An Order to Stop Heavy Repair Work by Local Sets of Fitters.

A very important order has just been issued from the headquarters of the Grand Trunk Railway. In future all heavy repair work on locomotives will be done at Stratford and Montreal, instead of at the various roundhouses along the line. The whole fitting staffs at some of the roundhouses have been dismissed already.

The superintendents have found that too much work of the heavier kind is being done along the line by jacking up locomotives and refitting them. All this work could be done at a much less expense if the engines were taken to Stratford or Montreal.

BELMONT.

From Our Own Correspondent.

Mr. Lang, the Liberal candidate for East Peterborough for the Dominion House of Commons, held a very successful meeting at Rockdale on the 1st inst. There was a large number present who were apparently unanimously in favour of Mr. Lang. The majority present were old Conservatives.

It was moved and unanimously carried that John Brown, Esq., ex-Warden of the County of Peterborough, be chairman. He made a few remarks, saying that he had always, heretofore, supported the National Policy, but he had found that it was ruinous to the country and he was going to support Mr. Lang.

The first speaker was Mr. Lang. He never had expected to again come out as a candidate, but as he had been solicited by so many he had again decided to come out. He had come to the conclusion that there was too much partyism in Canada. No matter how corrupt the party was their supporters would follow them. The speaker said he came forward as an Independent Liberal and that we have got to give up the sectarian and party strife. He proceeded to give an account of the extravagance of the Government. He said that he opposed the Government pension system and that no public officer had a right to receive a public pension. Mr. Lang spoke against the waste of the immigration system, that there was a large sum of money paid out with poor results that had better been spent in giving the poor of our own towns and cities a chance to work. He then brought up the tariff question, showing how the necessaries of life were taxed high, and articles such as diamonds were allowed to come into the country free. He claimed that the Senate should be elected by the people, and that we had not representative government till it was so made. Mr. Lang then made a few remarks on the school question, saying that he was in favour of provincial rights. He said if he was elected he could vote for the farmer and the labourer as well as a lawyer could. The speaker then thanked the audience for their respectful hearing, and took his seat.

The chairman then invited any one present who wished to speak for Mr. Burnham to take the platform, but no one accepted the invitation, and Mr. McWilliams spoke in the interests of Mr. Lang, and gave an earnest, forcible speech. He went over the great political questions of the day, showing the degrading state into which the Conservative party had got, and in conclusion the speaker asked the electors to support Mr. Lang.

A vote of thanks was moved to the chairman and carried, and three hearty cheers were given for the Queen and Mr. Lang.

LEADERS AT LONDON

Greatest Demonstration Ever Held in Western Ontario.

LAURIER, MOWAT AND VICTORY

The Coming Premier Made One of the Ablest Speeches of His Life—Sir Oliver Spoke But Briefly and Showed Up Government Corruption.

London, June 3.—The reception tendered the Hon. Mr. Laurier and Sir Oliver Mowat here this evening and the public meeting addressed by them and Messrs. William Paterson and C. S. Hyman have turned loose all the unmeasured floods of London Liberal enthusiasm. The city is in the possession of the Young Liberals, and it would not be difficult to believe that there are no people within the corporation who are not taking part in the demonstration in one way or another.

The Liberals of London have the reputation of success in all their political undertakings, so that it was a foregone conclusion that the affair would be a splendid opening of the Ontario tour of the Hon. Mr. Laurier; but that it would be so magnificent an expression of the personal popularity of the Liberal leader, as well as of confidence in his policy in this centre of manufacturing, was beyond even the sanguine expectations of its promoters. It drew to the city representative Liberals from all over Western Ontario and attracted large numbers from Westminster and other townships of Middlesex. The demonstration consisted of a street procession and then a public meeting in the Princess rink. The procession was a record-breaker for this part of Canada, and the gathering at the rink the largest that has ever come together in London to listen to political speakers. Judging by the enthusiasm which he evoked, Mr. Laurier has taken that hold upon the popular mind which only Sir John Macdonald, of all Canada's public men, had exercised. He tells the Liberals of London that he expects that there will be liberal-minded men enough in Quebec to give him a majority of 25 members from that province on June 23. Even such an expression as that on the part of his native province will, taking to-night as an indication, be rivalled by the attachment and admiration which will be expressed by Ontario, which has adopted him, as the type of all that is best, truest and most tolerant in Canadian public life. His speech this evening was a strong and skilful presentation of the issues of the campaign. His handling of Sir Charles Tupper gave an opportunity for the display of his keen, polished sarcasm. When he replied to Sir Charles' religious appeals against him he reached the sense of fair play and justice of every mind in his audience, and they cheered him to the echo. He defined the Liberal tariff policy, and dealt with the new idea of preferential trade. His was the principal speech of the evening. The speeches by Sir Oliver Mowat and Messrs. Paterson and Hyman, although short, were forceful and listened to with the closest attention by the 6000 people who had jammed themselves within the four walls of the large building, and who waited patiently until the end of the meeting, after 11 o'clock. Dr. George C. Davis, President of the Young Liberal Club, presided, and made a model chairman.

The procession was by far the most imposing which has ever been seen in London, and this city is ordinarily more demonstrative during elections than any other in Canada. The hour was too early for a torchlight procession, but all the other features of a street demonstration were called into requisition. First there were 300 bicyclists, many of whose wheels were fantastically decorated with the Liberal colors. Then came six Highland pipers skirling the most screaming air. The mounted young farmers of Westminster and other adjacent townships followed abreast to the number of 100, the Indian band from Oneida playing a sprightly tune. The carriage containing the Liberal leaders was immediately preceded by the London mounted escort of Young Liberals, resplendent in silk top hats. In the leading carriages were Mr. Laurier, Sir Oliver Mowat, Mr. V. Cronyn, President of the Liberal Association, and Dr. Davis, President of the Young Liberal Club. After the line of carriages came the London Musical Society Band, the uniformed London Young Liberal Fleet with their drum corps, marching in seven companies according to the wards of the city, or, in the terminology if the fleet, according to the crews of H.M.S. Hyman, Hobbs, Purdom, Reid, Clarke, Davis and Macbeth. They formed the most taking feature of the procession and were liberally cheered as they marched in their trim uniforms and steady ranks. The Ingersoll Young Liberal band with a contingent of Young Liberals from that town followed, and the Forest City Band (colored), brought up the rear of the long and splendid public demonstration.

Before the procession reached the rink such a mass of people had gathered there that it was impossible to get near the doors. It was computed that there were either in the rink or jammed outside against its walls 12,000 people. When the Liberal leaders arrived their difficult progress through the good-natured crowd to the platform was an ovation of cheers until the moment they appeared in view of the vast audience, where the scene in its enthusiasm could be described only with superlatives. The thousands rose to their feet, and with waving hats and handkerchiefs cheered until their throats were hoarse with their welcoming. The rink was splendidly, and even lavishly, decorated with flags and abundance of maple boughs, whose luxuriant foliage was emblematic of the Canadian spirit which characterized the whole demonstration. The walls were covered with mottoes, speaking words of welcome, admiration and respect to the evening's distinguished visitors, and displaying in bold, terse phraseology some of the battle cries of the Liberal party in this contest. The mottoes were: "Vote for Hyman and honest government," "Laurier and Mowat, Canada's most gifted sons," "Welcome, Canada's coming Premier" (with a picture of Mr. Laurier), "Laurier, the hope of Canada," "Conciliation, not coercion," "Tupper is rich enough; give him a rest and let the country have a chance," "Canada's Gladstone" (with a picture of Sir Oliver Mowat), "I have ever regarded Mr. Laurier as a well-intentioned statesman—Sir Donald Smith," "No nest of traitors with us," "Down with monopoly," "Long life to Ontario's Grand Old Man," "Vote for country before party," "Has the N.P. made you rich?" "The public treasury should be as sacred as the private purse," "Honesty, economy, efficiency, the three planks of the Laurier-Mowat Government."

The ovation to Mr. Laurier, when he arose to speak was one of the greatest ever accorded to a political leader in Canada, and his speech was of the eloquent and convincing kind, which he is so well able to deliver.

Sir Oliver Mowat's reception was also of the warmest kind. The Ontario Premier defended Mr. Tarte and, passing over the great issues dealt with by Mr. Laurier, alluded in scathing terms to the jobbery and waste of the Government. He admitted that he was canny and cautious, and said he would bring the same quality to bear in his public duties.

Mr. Paterson's speech was an able deliverance also.

After rousing cheers for the Queen and the Liberal leaders the meeting closed and a torchlight procession, with bands, conducted Mr. Laurier and Sir Oliver Mowat from the rink.

OPPENHEIM IS HERE.

The Sacramento Man Who is Said to Have Taken His Mother's Fortune is at the Grand Union.

Toronto, June 4.

The party to whom the following despatch refers arrived in Toronto Sunday last, and registered at the Grand Union as Philip Oppenheim, Chicago. At the same time he stated that his home was in Sacramento, Cal. He is about 37 years of age, plain and unassuming in his manner. The only evidence of possessing the fortune he is supposed to have got away with is a large diamond he wears. When he arrived here he made no effort to conceal his identity, nor did he discuss his affairs with anybody.

This is the despatch: "Philip Oppenheim, who had been ordered by Judge Prewitt of the Sacramento Superior Court to turn over yesterday to T. M. Yates, as receiver, some $70,000 which he held as trustee for his mother, has disappeared, and is supposed to be in Toronto, Canada. The defaulting trustee is the son of Raphael O. Oppenheim, a Sacramento capitalist, who died in 1890, leaving an estate valued at $70,000. By his will he left everything to his wife, with whom he has not got along well for years, on condition that in whatever she did for the three children, Philip, Manuel and California, she should treat all alike. Philip, however, persuaded his mother to turn over everything to him by a trust deed, by the terms of which Philip was to have control of all the property during his mother's life. Mrs. Oppenheim says she signed the deed in ignorance of its true significance. When she realised, however, what unlimited power she had given to Philip, she endeavored in vain to regain possession of the property. Finally she instituted a suit, in which she was joined by her son Manuel, and when the case came to trial Judge Prewitt made an order directing Philip to turn over all the property in his possession to Receiver Yates."

WAS SHE MURDERED?

The Mysterious Death of a Young Canadian Woman, a Bicyclist, at Springfield, Mass.

Springfield, Mass., June 3.—Miss Sophronia Beauregard, a young Canadian woman, who has been visiting Mrs. Frank P. Clair in this city, went out for a bicycle ride with Eugene Barnatchez on Sunday evening. The pair registered at Chandler Hotel as John M. Smith and wife, Boston, and were assigned to a room. When a night-watchman was making his rounds at midnight he noticed the room door open, and looking in saw the young woman lying dead on the bed. Her companion had vanished.

"We are, I believe, at one with respect to the tariff. I think, with you, that the introduction of the protective system was a mistake on the part of our people. So, you, like myself, are a Reformer and not a revolutionist, and you recognize the necessity of legislation on the tariff being gradual and cautious. Adopting that policy, I am glad that you see your way meantime to changes which will be a relief to our farmers and at the same time will not injuriously affect but rather benefit manufacturers and their workmen. A Government owes a duty to all classes of the people."—SIR OLIVER MOWAT.

THE TRUE BLUES

Are Emphatically Against the Government

ON THE QUESTION OF COERCION

With Grief and Shame They Notice the Action of the Dominion Government in Regard to the Remedial Bill.—Messrs. Wallace and McCarthy Thanked.

Cobourg, June 3.—The Grand Lodge of Loyal True Blues resumed business at 9 this morning. Most of the delegates were in their places at the opening. The largest attendance was when the Committee on Resolutions entered. The committee was presenting its report, when the council, headed by the Mayor, was received. The Mayor read an address of welcome.

Grand Master Fitzgerald and Grand Chaplain Rev. J. Coburn replied.

Addresses were also made by the councilmen. After exchanging greetings with the council, the members of the Grand Lodge took up the report of the Committee on Resolutions. Members from all parts expressed themselves in hearty sympathy with all the clauses, which were as follows:

1—That this Grand Lodge affirms its strong adherence to the principle of non-sectarian schools, believeing that a dual system, especially when one section of that system is under the control of the hierarchy of Rome, is detrimental to the peace and progress of any people. We strongly endorse the patriotic course pursued by the Government of Manitoba in the establishment of a National school system, and we rejoice that the people of that province have united at the polls and by a practically unanimous vote have sustained their legislators in the matter.

2—That we cannot close our eyes to the fact that the Romish Church, by secret and Jesuitical methods, is rapidly gaining control of the Government of Canada, and it is our opinion that if our country is to be saved from becoming a vassal of Rome the free people of this Dominion must arise and determine to resist and frustrate the aggression of any ecclesiastical system.

3—That it is in grief and shame we are compelled to notice that the Dominion Government, under the influence of the hierarchy, first issued the arrogant and insulting Remedial order, and subsequently introduced into Parliament the so-called Remedial Bill, which we believe to be one of the most infamous measures ever proposed in the legislative halls of any country, and we feel that we cannot too strongly condemn the Government for its action and the Protestants of the House of Commons who so far forgot their solemn obligation to their country as to join hands with the minions of Rome and assist in the coercion of their brethren in Manitoba.

4—That while we hold strong doubts as to the validity of the claim made by Major Sam Hughes, M.P., in his paper, The Lindsay Warder, that he had received a letter from a member of his order desiring him to assist the Government in passing the Remedial Bill, we utterly repudiate any such action, it being directly opposed to the principles of our loyal order.

5—That we express our great satisfaction with the noble stand taken by a few men in the House of Commons, who, in spite of threats and entreaties, remained true to their principles and defied to their very face the powers of Rome. We feel that our heartiest thanks are due to Hon. N. Clarke Wallace, M.P., and D'Alton McCarthy, M.P., who bravely and ably led the forces in the defence of Manitoba. The course of Mr. Wallace in refusing to remain a member of a Rome-ridden Government, in resigning a lucrative position therein, rather than assist in the coercion of Manitoba, is one that should call for the admiration of every Canadian, and we congratulate him on his re-election to the position of Most Worshipful Grand Master of the Loyal Orange Association of British America. We strongly urge upon the members of our association the dire necessity of strenuously opposing all candidates for Parliamentary honors at the coming election who refuse to pledge themselves to vote want of confidence in any Government upon a motion making for Remedial legislation.

The lodge showing the largest increase for the year and winning the prize banner was Enniskillen Lodge, Picton. Toronto still retains the largest lodge, Lady Erne Lodge carrying off the banner.

Bracebridge, Ottawa, Picton and Buffalo are bidding for the Grand Lodge to meet in their respective towns next year.

In the evening a complimentary concert was tendered the delegates by the local members. Half the business has not yet been accomplished. At midnight the lodge was still in session, having resumed business at the close of the concert.

Bracebridge and Picton are offering inducements to have the orphanage erected in their town. Free sites and thousands of dollars are being offered.

Hardisty, John Dunlop, Q.C.; Jesse Joseph, M. Burke, Wm. H. Benyon, W. A. Miller, Alex. Mitchell, W. G. Murray and others.

On the motion of Mr. John Crawford, which was carried by acclamation, Senator Drummond, the Vice-President, was voted to the chair in the absence of the President, Sir Donald Smith.

On the motion of Senator James O'Brien, seconded by Mr. Hector Mackenzie, it was agreed:—"That the following gentlemen be appointed to act as scrutineers:—Messrs. F. S. Lyman, Q.C., and A. W. Hooper, and that Mr. James Aird be the Secretary of this meeting.

The Directors' Report.

At the call of the Chair, Mr. E. S. Clouston, General Manager, then read the annual report of the directors as follows:

The Directors have pleasure in presenting the 78th annual report, showing the result of the Bank's business of the year ended 30th April, 1896:

Balance of Profit and Loss Account, 30th April, 1895		$ 15,153 10
Profits for the year ended 30th April, 1896, after deducting charges of management and making full provision for all bad and doubtful debts		1,241,196 09
		$2,056,349 19
Dividend 5 per cent. paid 1st December, 1895	$600,000	
Dividend 5 per cent. payable 1st June, 1896	600,000	
		$1,200,000 00
Balance of Profit and Loss Account Carried forward		$ 856,349 19

A Branch of the Bank has been opened at Amherst, N. S., and also at Rossland, B. C.

The Directors having in remembrance the eminent services rendered to the Bank by the late Mr. E. H. King during his long connection with it, for the period extending from the year 1857 to the year 1873, in the various and successive capacities of Inspector, Manager, General Manager and, ultimately, President, and also as Chairman of the London Board from June, 1879, to November, 1893, desire to place on record their regret at his death, and their opinion that the shareholders reaped very large and substantial benefits from his sole administration.

All the Offices of the Bank, including the Head Office, have been inspected during the past year.

E. S. CLOUSTON,
General Manager.

Bank of Montreal, Montreal, 30th April, 1896.

The Chairman's Address.

The chairman moved, seconded by Mr. A. T. Paterson, that the report of the Directors now read be adopted and printed for distribution among the Shareholders.

Before the motion was put, the Chairman rose and addressed the meeting as follows:—

The Directors regret the absence on the present occasion of the President, Sir Donald A. Smith, G.C.M.G., who has accepted the office of High Commissioner for Canada in London, and has gone there on matters of Imperial interest.

It has been the practice for many years that the business of the annual meetings should be introduced by a review by the chairman of the more noteworthy events in the financial and commercial world—more especially those having a bearing on the widespread interests of the Bank—and in accordance with these precedents I shall venture to offer a few remarks.

The Report of the Directors, printed and laid before you, places you in possession of the essential facts of the year's business and its results, and the General Manager will be prepared to give further explanations, if necessary.

I feel assured that this statement must be as satisfactory to you as it is gratifying to the Directors, and creditable to the management. Profits have been maintained and the usual Dividend earned—in face of a continued and intensified decline in the value of money and of many staple productions of the country.

A REVIEW OF THE SITUATION.

The world-wide and long continued depression in every branch of business, due primarily to want of confidence, has been less felt in Canada than in most countries. Our banking system and financial institutions have stood the test well—such disasters as have recently occurred being relatively of no considerable bulk, and not due to the general causes above referred to. But it is not to be concealed that such a prolonged strain as has been endured must weaken the ultimate power of resistance in many quarters, and it becomes the earnest wish of every one to see disturbing elements speedily removed and confidence restored.

An illustration of the foregoing facts—more or less trustworthy—is to be found in the record of failures for the twelve months ending April last, which number 2,076, as against 1871 in the preceding twelve months, and show a total for last year of $16,512,000, as against $15,469,000 in 1894-5.

Turning to the general trade of the country, in the production of its great staple—wheat—the crop of last year is estimated at 56,850,000 bushels, and that for 1893 at 42,500,000 bushels, an increase of 14,350,000 bushels, or over 33 per cent., notwithstanding a decrease in Ontario of over 2½ millions of bushels due the drought.

The increase of the wheat crop in Manitoba and the territories, we learn from official figures to have been no less than 82.30 per cent. over the crop of 1894, or a total increase of 16,602,000 bushels, and has proved of inestimable value to that portion of the Dominion, and to the railways and transportation companies serving it.

No better proof of the consequent prosperity can be given than the records of the Loan and Insurance Companies doing business in Manitoba. From a statement I hold in my hand it is shown that up to December 31st, 1895, the arrears of interest and of capital of the total loans in the Province of Manitoba were only 1.7 per cent. at that date.

The crops in Manitoba and the Territories, in 1895, are variously given for wheat from 32,775,000 bushels to 36,775,000 bushels; other grain crops figure at 31,482,000 bushels, while of live stock the exports for the same period were, from Manitoba and the Territories:—Cattle 40,080 head; sheep, 13,036 head; hogs, 4,022 head; horses, 235 head.

In the Province of Quebec the crop of hay yielded a very important return to the farmers. It has been estimated that between 500,000 and 600,000 tons were disposed of to the United States and Ontario at a valuation of about five millions of dollars, this in addition to the supply of the local markets.

PROSPECTS ARE HOPEFUL.

It is not to be concealed that the decline in all purchasing markets in the world in the value of our staple products, such as wheat, cattle, pork and lumber, has been most disappointing—not only to farmers and producers—but also to all who dealt in these commodities—but the hope of better times is largely based on the extreme improbability of any further decline, and indications in favour of enhanced values are not wanting.

The general trade returns show very decided improvement.

Shipping out of this port is fully employed. The tonnage available for grain, it is stated, has been taken up for several weeks ahead at fairly average rates, and the exports since the opening of navigation have been considerably larger than they were in 1895, but inward cargoes have been light.

The Government returns for ten months ending April 30th last, show an increase in the whole trade of the country.

In exports of home products	$3,333,476
In exports of foreign products	2,420,446
Or a total of	$5,853,922
Imports for consumption have increased	$4,708,110

And the following details show how largely the raw materials for manufacture figure in the foregoing increase:—

Imports, Dyes and Chemicals, increase	$141,708
Imports, Hides and Skins	245,056
Imports, India Rubber and Gutta Percha	326,690
Imports, Sisal—Manilla and Hemp	220,165
Imports, Metals on free list	812,290

The foreign trade is again expanding. From 1890 to 1894 there was a steadyincrease in exports from $96,749,000 to $117,524,000. In 1895 they dropped to $113,638,000, but in the ten months of the fiscal year ending with April they reached $91,250,000—an increase over the same period in the previous year of $5,650,000. If this ratio is kept up during the following two months the export trade will be one of the largest in the history of Canada.

There is a gratifying increase in the traffic returns of our railways. The Canadian Pacific Railway Company from January 1st to the end of April shows an increase of $1,156,000, and the Grand Trunk returns for April show an increase of $40,000 as compared with the same month in 1895.

Since we last met, no new legislation has been passed affecting the banking interest or calling for remark, and the chief distracting element in domestic politics now in view is the impending election of a new House of Commons.

THE SILVER QUESTION IN THE UNITED STATES.

If we turn to foreign politics and their influence on our progress and prosperity, we encounter events of the first magnitude and importance. The continued agitation of the silver question in the United States is a menace to almost every interest, and postpones any anticipation of better times. It seems about equally useless to discuss seriously its demerits as a policy as to estimate its chances of success.

Many recent political conventions there have proved that its thorough-going supporters will tolerate no half measures; "unrestricted coinage," "a ratio of 16 to 1," and the prompt voting down of every suggestion towards making the ratio represent the commercial value of the metals show the danger of such views. A ratio of 16 to 1, when the commercial values are about 31 to 1, means repudiation — neither more nor less. Its advocates, nominally bi-metalists, would in practice, I fear, prove strict mono-metalists, and show a decided preference for discharging their obligations with a fifty-cent silver dollar. The mere possibility of such a measure becoming law, is beyond doubt the cause of great distrust in every quarter, and of low prices for American securities, and the immediate occasion of the practice, now so common, of inserting a provision in all forms of securities calling specifically for repayment in gold. I confess to the heresy of thinking the clause generally adopted insufficient, unless the specific quantity of gold in the dollars is also stipulated.

The world appears to have entered on a period of general political unrest. Many international questions have suddenly been raised to the foremost importance, which in ordinary times would have attracted little attention and excited neither heated discussion nor disquietude.

We have had a severe lesson on the disastrous consequences of the manifestation of this spirit even without any overt act, and it is to be trusted that the better judgment of the people will appreciate its dangers and discountenance in the future such a fruitful source of panic and disaster.

Generally speaking, I think we may more hopefully regard the future. The suspense now existing must end. We have survived without serious scathe and unexampled reign of distrust and low prices over all civilized countries; and our resources are comparatively unimpaired. The savings of the labouring classes go on accumulating. With more settled political conditions we may confidently look for returning prosperity. (Applause.)

The General Manager.

Mr. E. S. Clouston, was then called upon by the Chairman and spoke as follows:

The business year just closed has been one of the most disappointing in my experience as General Manager of the Bank of Montreal.

For although the outlook when I last met you was not at all reassuring, yet as the year went on prospects gradually brightened. There was a good crop in the Northwest which helped matters, and the commercial community grew more hopeful and more disposed to expand their business; and it seemed as if we had at last turned the corner of a series of dull depressing years.

In the United States the improvement was probably more marked than in Canada, because the depression there had been greater.

The Government of the United States through the syndicate operations had shown its ability to maintain the gold standard (a fact seriously questioned by many persons at the beginning of the year 1895). The iron industry was almost booming. Railroads were showing improved earnings, and with improved earnings restoring the wages of their employes, spending more money in betterments and aiding the recovery in business in all directions.

THE VENEZUELAN INCIDENT.

Upon the 17th December last, however, all was changed by the Venezuelan incident. A general disorganisation was the result; a drain on the United States Treasury ensued; foreign Bankers withdrew their money from the United States money markets; American securities in the United States and Europe were thrown on the market. All this rapidly produced a panic on the Stock Exchange, money advanced to high rates, and in all cases was not procurable.

It was one of the worst panics, if not the worst, of the century, and not only in the United States but in Canada, also, ruin apparently stared everyone in the face. And he would have been a rash man who would have undertaken to value the assets of the Banks of the United States and Canada during the first few days of that crisis. But the very violence of the panic worked its own cure, as it made it apparent to the more conservative element how closely the two great English speaking nations were bound by their commercial relations. Cool heads and better councils prevailed and the danger gradually passed away. And probably the result is that we understand each other better now than before the trouble and are better friends in consequence. The shock to commerce, however, was so violent that it has done infinite damage, and the evil consequences time alone can cure.

ITS EFFECT IN CANADA.

With the hopeful feeling which had been steadily growing in Canada up to the end of the year, our merchants had been tempted to increase their importations, and our manufacturers were enlarging their out-put, and, as a consequence, they now find themselves with heavy stocks and a dull market. Many, losing hope, gave up the struggle, and failures became numerous; and many, being only too glad to take advantage of the opportunity, made profitable compromises.

The United States lumber market, which especially affects Canada, has been so dull that the lumberman who manufacture for that market have a much heavier load than usual to carry.

FINANCIAL POSITION OF THE UNITED STATES.

Added to this unfortunate condition is the disturbing state of financial affairs in the United States, where some of the legislators have been untiring in their efforts to discredit the financial standing of their country. A presidental year there, and a general election here, with all their attendant uncertainties—the fear of tariff changes in one country, and in the other the silver question, all tend to make this a year of unrest and one to be looked forward to with anxiety. But if we could only feel assured that a strong gold plank would form part of the platform of the victorious party of the United States we could look forward far more hopefully to the future prosperity of the American continent. And that, after all, is the keynote of the future.

SIGNS OF IMPROVEMENT.

There are not wanting signs of improvement, chief among which is the increasing earnings of the Railroads, which must be accepted as an indication of a better state of affairs. Probably not in many years have Railroads been on such a healthy basis as at present. Doubtful Roads have passed, and are passing, through the crucible of reorganization, and necessity has forced greater economy in operating; consequently their finances are in better shape and there is a considerable amount of future traffic in sight. This cannot fail to have a good effect on business generally.

There is another factor in the general situation that must not be overlooked. Not for many years have the labourers, the artizans, the mechanics, and the rest of the people experienced such cheap living. Bread, meats, butter, cheese, eggs, milk, tea, coffee, sugar, clothing of all descriptions, in fact, all the necessaries of life, are obtainable at a lower basis of cost than ever before known in the history of the Dominion.

In Canada it is too early to speak of crop prospects. The prices of farm products are unfortunately low, but there is a good demand for timber for the English markets at an advanced price. In portions of Ontario the blighting effects of real estate speculation have not yet been entirely removed. Reports are satisfactory from the Maritime Provinces. Business in this Province is fair, and the position in Manitoba is sound. The demand for cattle on the ranches in the Northwest Provinces is good and all eyes are turned expectantly, and hopefully also, toward

BRITISH COLUMBIA.

That province has suffered severely from the prevailing depression, but there can be no doubt that with its immense resources it has a bright future before it. Its important salmon canneries—its inexhaustible deep sea fisheries barely touched—its lumber trade, now showing signs of emerging from its depression—and last, but not least, its immense mineral deposits now being rapidly developed—all point in that direction. The ball is at its feet and it only requires wise and economical handling of its finances by the Government, together with a firm resolve to discredit all bogus companies and to use honestly the foreign capital which will pour into it, to make it one of the wealthiest and most prosperous Provinces of the Dominion. It is unfortunate that much of the business of the mining district does not benefit the country generally, but with better railroad communication, we will, no doubt, before long obtain our fair share.

The finances of Canada have been judiciously administered and its credit never stood higher, and taking it altogether, as I said before, although this year must necessarily be one of anxiety, because another such year as we have passed through would mean ruin to many and consequent heavy losses to the Banks, yet there is much for the hopeful mind to feed on.

THE GENERAL STATEMENT EXPLAINED.

Speaking more particularly with reference to the statement laid before you, I will now explain the position of the different items. I may say that at the request of one of the shareholders we tried the experiment of placing last year's figures in parallel columns, but it made such a clumsy looking statement that we gave up the idea, and have given, as required by our by-laws, the statement, in the usual way, of the year's working. We felt also that such a comparative statement as was suggested might in certain cases convey a wrong impression, and that it was better that the General Manager should give an explanation of any changes.

The following are the more important, as compared with last year:

In the liabilities the circulation has increased $294,000, the free deposits have decreased $1,408,000, nearly altogether in the Government Account. The interest deposits have apparently decreased $365,000, although in reality the deposits by the public have increased $1,135,000, the Government having withdrawn an interest bearing deposit of $1,500,000. In the assets we have $723,000 more cash on hand. Our foreign balances have been drawn on to the extent of $3,208,000 to provide for the above withdrawal of Government deposits—for an increase of $1,036,000 in our loans—and for the purchase of $365,000 additional securities. The overdue debts secured and unsecured are $112,762 less.

With reference to the profits, though only slightly larger than last year, they must, under the exceptional circumstances attending our operations of the year just closed, be considered highly satisfactory. We had to contend during the first eight months of our fiscal year with exceptionally low rates in New York and Chicago, and, when the crisis enhanced the value of money, were obliged, from motives of prudence, to hold large sums in gold, and could not take full advantage of the chances to make profits. We have succeeded in making our dividend after having, as we believe, made full appropriations for all bad debts and doubtful accounts. It remains to be seen, however, whether we have yet fully appreciated the consequences of the great shock given to the commercial stability of the country by the events of the year, and it is possible that unless the tide has actually turned, the tale of business embarrassments is not yet ended.

Even if the general business of the country should improve, the outlook for profits in the year we have just entered upon is not promising, as the rates for our Foreign Call money are nominal.

We have purchased the premises formerly occupied by the Bank of British Columbia in the City of Victoria, and it is our intention to build a new and suitable bank building there during the coming year. (Applause.)

The Discussion.

Mr. John Morrison asked if the amount paid for the purchase of bank premises in Victoria, B. C., had been put down to current expenses, or had been otherwise carried forward.

The Chairman—It has not been otherwise carried forward.

Mr. John Crawford — Was the profit upon the loan of two millions which you negotiated for the city a short time ago, included in the financial year ending the 30th of April?

The Chairman—Only partially.

Mr. Clouston—It was not included except to a very small extent, because the operation was not completed.

Mr. John Crawford—That is a good feature, I think, because I understood it was a very successful venture and very profitable to the Bank, so that the probability is that it will appear to the credit of the profit and loss account for the next year. I would like to have just a word or two from the Chairman as to the position which this Bank holds in Newfoundland, where we recently established an agency. It is an important island, and when the branch was established there, it was thought there were going to be very great advantages accruing from it. I think it would be of interest to the shareholders generally to hear a few remarks from the Chairman as to the result of that extension. I would also like to hear some general remarks upon the position of our money in the United States of America, as well as in our branches in London, Chicago, and so forth. I should also like the Directors to consider a small request I made at the last meeting, that the general statement should be printed in parallel columns with the results for the previous year.

The Chairman—Mr. Crawford is quite right in describing his request that the figures should be given in parallel columns as a very small and moderate request. I remember him making it last year. It was referred by the Board of Directors to the General Manager, and he took the trouble of explaining just now the reason why it was not adopted. I am sure he had no desire to ignore the request made by Mr. Crawford at the last meeting, but the matter will once more be considered by the Board of Directors, I am sure; and if it can be accomplished without departing very largely from the practice of the Bank, I think it will be done. As to the other enquiries, I think they can be more properly answered by the General Manager than by myself. Those also were very proper questions. One was as to whether the agency in Newfoundland had proved satisfactory, and in a general way I may say that it has fully answered the expectations and anticipations of the Board. It did good service on the Island in time of panic and distress, and it has done so with good results to the Bank.

Mr. John Crawford—You don't feel disposed to withdraw it?

The Chairman—No, certainly not. If there was any other point which I failed to note, I shall be glad to be reminded of it. I will now ask the General Manager to give more specific details.

Mr. Clouston—I should like to disabuse Mr. Crawford's mind of the idea that we made large profits out of the loan we negotiated for the city. We simply act with several financial houses, taking a participation in the loan, and receiving a small commission for making the issue. We do not get the difference between what we pay the city and what we issue in London, not by any manner of means. Our business at St John's, Newfoundland, has been satisfactory. As Mr. Drummond says, when we went there we were of very great use to the Island in establishing the finances of the country, which were very much disorganised. Since then the loans made at that have been paid off, and we have a large amount of deposits, showing that the Island is not at all in the impoverished condition which has been sometimes represented. It has turned out a very valuable branch, indeed. With regard to the money in the United States Mr. Crawford asked about, you will understand that we put it there in order to have a reserve fund to draw upon in case of necessity. There are two classes of reserves—one is the call loans payable in the currency of the country, which may be called in a very few hours, so that we can bring in money to this country, at very short notice. Beyond that we have time loans, which are made payable at longer periods, and are payable in gold; these are chiefly in Chicago. These are spread over certain periods, but I have no doubt that in case of necessity we could get them in 30 days, so that it makes a very valuable second reserve.

Mr. John Crawford—Have you time loans to any considerable extent? I see there is no mention of them in the statement. Banks in England generally place the time loans in their statement—the number at three months, the number at four months, and so on. I simply submit that as a suggestion which would be appreciated by the shareholders, who will be glad to know that there is provision made in case of an unexpected contingency arising.

Mr. Clouston—We practically have no call loans in Canada. When we make a call loan, it is practically not a call loan, because if we called it, it would disturb the market, so we keep all our call money in the United States.

The motion for the adoption of the report of the directors was then carried unanimously.

Mr. John Crawford—I think the shareholders might have said that they thoroughly appreciated the remarks which our Chairman made about the late Mr. King, formerly chairman of the Board in London. I think the eulogium passed upon his great character was fully endorsed by every person at this meeting.

The Chairman—I might say that a resolution of condolence with the widow, Mrs. King, was passed by the Board here and forwarded to her at the time of her husband's death.

Votes of Thanks.

Mrs. G. F. C. Smith moved:

That the thanks of the meeting be presented to the President, Vice-President and Directors for their attention to the interests of the Bank.

In making the motion, Mr. Smith said that such a resolution was looked upon by many as being merely formal, and yet it should not be so, when there was taken into consideration the interests that were placed in the hands of the Board, and the management of which involved the comfort or discomfort of the shareholders. The word "thanks" was hardly enough, though it was the term generally used.

The motion was seconded by Mr. Alex. Mitchell, and unanimously concurred in.

The Chairman—I have to acknowledge on behalf of the Directors and myself the kindly terms in which the motion just passed by you has been prefaced, and in doing so I can say that the Board has been distinguished above most boards with which I have anything to do by its close attention to the interests of the Bank.

Mr. Hugh McClennan moved:—

That the thanks of the meeting be given to the General Manager, the Inspector, the Managers and other officers of the Bank for their services during the past year.

In supplementing the motion, Mr. McLennan said:—"As one of the Directors, I can say that so far as our regular weekly supervision of the business of the Bank was concerned, I might emphasize the resolution, on behalf of the Board by adding that the duties have been very efficiently discharged by the officers of the Bank during the past year.

The motion, which was seconded by Mr. R. B. Angus, was unanimously agreed to.

The General Manager—I have to thank you, on behalf of myself and the other officers of the Bank, for the motion just passed, and for the words of appreciation which have been spoken.

Capt. W. H. Benyon moved:—

That the ballot now open for the election of Directors be kept open until 3 o'clock, unless fifteen minutes elapse without a vote being cast, when it shall be closed, and until that time, and for that purpose only, this meeting be continued.

This was seconded by Mr. Jesse Joseph, and unanimously carried.

Mr. John Morrison proposed a vote of thanks to the Chairman for the able manner in which he had conducted the business of the meeting, a compliment that was most heartily accorded.

The Directors.

The ballot resulted in the re-election of the old Directors as follows:—Mr. R. B. Angus, Hon. George A. Drummond, Mr. A. F. Gault, Mr. Edward B. Greenshields, Mr. W. C. McDonald, Mr. Hugh McLennan, Mr. W. W. Ogilvie, Mr. A. T. Paterson and Sir Donald Smith, G.C.M.G.

LATEST CABLE NEWS

Further Efforts on Behalf of Canadian Cattle.

BUT THEY PROVED OF NO AVAIL

Sir Donald Smith Has a Lengthy Interview With Mr. Joseph Chamberlain—The Earl of Selborne Chosen as President of the Cable Commission.

London, June 3.—In discussing the Diseases of Animals bill in the House of Commons to-day, Mr. J. M. White, Liberal member for Forfarshire and a merchant of New York, moved an amendment leaving the exclusion of live cattle at the discretion of the Privy Council.

Mr. H. Broadhurst, Liberal member for Leicester, supported the motion, declaring the bill to be injurious to Canada and of no assistance to British farmers.

Mr. Walter Long, President of the Board of Agriculture, opposed the motion, claiming that it only complicated the working of the bill.

Mr. White's amendment was rejected by a vote of 202 to 90.

Mr. Sydney Buxton, Liberal member for the Poplar division of the Tower Hamlets, who was under secretary for the Colonies in the late Government, moved to exempt the colonies from the operation of the bill where it was shown that they were free from diseases.

Sir Donald and Mr. Chamberlain.

London, June 3.—Sir Donald Smith, recently appointed High Commissioner for the Dominion of Canada in Great Britain, had a long interview to day with Mr. Joseph Chamberlain, Colonial Secretary, on the subject of Canadian affairs.

The Earl of Selborne and George M. Murray, C.B., one of the principal clerks to the Permanent Secretary of Treasury, have been appointed members of the Pacific Cable Commission. The Earl of Selborne was afterwards chosen as president of the conference.

CHINESE DON'T LIKE GERMANS.

Army Officers in China Have Been Grossly Insulted and One Was Killed.

London, June 3.—The Globe publishes a despatch from Shanghai which says that since the return of the Viceroy Liu Kun Yih to Nankin the German officers who were lent to China by Germany to drill the Chinese troops have been repeatedly insulted, hope being entertained that they would resent the insults by resigning. This practice not having the desired effect, the Chinese have resorted to violence, ending in the murder of a German officer named Krause by the Hunan Body Guard of the Viceroy, and the German squadron has been ordered to proceed to Nankin forthwith.

Leyds is Very Unpopular.

London, June 3.—The Times to-morrow will print a despatch from its Pretoria correspondent, saying that the trouble in the Executive Council of the Transvaal is becoming acute. Dr. W. J. "ALL I DID WAS JUST TO MOPE AROUND"
"SCOTT'S SARSAPARILLA CURED ME."

The chilly weather of late fall and early winter finds them unprepared to stand the change and hence they suffer. This fact is plainly proved by the following opinions of some who speak from practical experience:

"I felt like a man that could commit suicide. I caught a cold while camping on damp ground, had twinges of awful muscular pains, couldn't eat and couldn't sleep. All I did was to mope around and make all in the house as miserable as myself. Scott's Sarsaparilla put new life in me, braced me up thoroughly, and since its use pain is a stranger to me." Alex Grant, Toronto.

J. T. McGraw, a mining prospector, writing from Minden: Express me three bottles Scott's Sarsaparilla here before Saturday. Have been a martyr to rheumatism and indigestion brought on by exposure. Scott's Sarsaparilla is rapidly curing me."

Nothing has ever equalled Scott's Sarsaparilla for building up the system, putting the blood in healthful circulation and invigorating the body. Thousands testify to its splendid effects in extreme weakness and all debilitating diseases. On this account no imitation of Scott's should be accepted. NOTES FROM OTTAWA.

The Plans of Yankee Fish Poachers Frustrated by the Good Work of the Cruisers.

Ottawa, June 3.—(Special.)—According to reports received at the Fisheries Department the two Dominion cruisers on the great lakes are doing effective work in preventing poaching by United States fishery boats. It is ascertained that the United States fishermen on Lake Erie are this year adopting new methods of buoying their gangs of nets by using invisible buoys or floats rendering it necessary for the cruiser Petrel, which is patrolling that lake, to use grappling gear. For two or three weeks past the Petrel's men have been laboriously grappling for nets which it is alleged have been illegally placed in the Canadian waters of Lake Erie, but the United States poachers have taken warning. Early in May, before the Petrel arrived on the fishing grounds, some poaching appears to have been done in our waters, a tug from Erie City, Penn., taking from the Canadian side seven or eight tons of herring. For some weeks past the United States tugs have been laid up, doing nothing, as when their operations are confined to the American portions of the lake their catches are so small that it does not pay. United States fishermen openly state that unless they can take fish on the Canadian side it is no use fishing, as they lose money. The Fisheries Department with its cruisers is thus rendering good service to our fishermen in thus effectually preventing the depletion of fish in Canadian waters by United States poachers.

The Brotherhood of Locomotive Engineers to-day elected officers and selected the next place of meeting. St. Louis, Mo., was chosen by a good majority.

As anticipated, Mr. P. M. Arthur was re-elected Grand Chief Engineer for another term, four years. Mr. Arthur received 356 votes out of a total of 488 on the first ballot. The only other paid officer whose term of office expired this year was Mr. C. H. Salmons, Second Grand Engineer. He also was re-elected, receiving 318 out of 420 votes.

The honorary officers retire every year. Those elected for the ensuing year are: First Grand Assistant Engineer, George A. Kell, Montreal; Second Grand Assistant Engineer, J. C. Curry, Jersey, N.J.; Third Grand Assistant Engineer, H. A. Walters, St. Louis, Mo.; Grand Chaplain, George A. Dority, Boston, Mass.; Grand Guide, J. D. Collins, Atlanta, Ga. Only one of the honorary officers, Grand Chaplain Dority, was elected by acclamation.

The principal candidates for the position of First Grand Assistant Engineer were C. Lawse of St. Thomas, the retiring incumbent and Mr. Kell. It was thought wise to give the office to Eastern Canada. Mr. W. C. Hayes of Indianapolis opposed Mr. Curry for the position of Second Grand Assistant Engineer. The final vote stood: Curry, 232; Hayes, 206. Grand Guide Collins was re-elected over Mr. H. Evans of Albany. He received 201 votes to 200 for his opponent. Mr. Watters was elected Third Grand Assistant Engineer after St. Louis had been selected as the next place of meeting. The office goes with the convention. The Brotherhood to-day showed their appreciation of the courtesies extended them by Mayor Borthwick and citizens generally by presenting His Worship with a beautiful silver tea set.

Mr. Laurier will address a meeting in Ottawa on the evening of the 17th.

Capt. J. L. Weller, 59th Battalion, was in the city to-day. Capt. Weller says the Cornwall rifle team will do as good, if not better, than their much-disputed league score before the season is over.

A report was current this morning that Catellier, late Under Secretary of State, was dead, but a telegram from Quebec contradicts the story.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinching touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalid's Hotel and Surgical Institute, of Buffalo, N.Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favourite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.

Diphtheritic Diseases of Fowls.

Domestic fowls have two diseases of a diphtheritic nature, according to a report of M. Galles to the Belgian Academy of Medicine. One is a contagious catarrh, called also morve, or fowl glanders, which is very contagious and fatal to hens and may give diphtheria to human beings. The other, though called fowl diphtheria, has nothing save the name in common with human diphtheria.

THE HORSES RAN AWAY

And Mr. and Mrs J. D Edgar Were Thrown Out of the Omnibus at Stouffville Yesterday.

Stouffville, June 2.—Mr. and Mrs J D. Edgar met with a slight accident here this evening, which may be the means of laying Mr. Edgar up for a few days, although, fortunately, Mrs. Edgar escaped with but a slight shaking up. While they were being conveyed to the Queen's Hotel in Mr. Oliver Forsyth's bus, the tongue became detached from the axle, letting it down onto the horses' heels. They became unmanageable, and ran away, throwing Mr. and Mrs. Edgar out. Dr. Rowan has examined Mr. Edgar and found that the wounds are of a comparatively slight nature. With a few days' soreness he will be able to attend to all his engagements. Mrs. Edgar escaped with a slightly sprained ankle.

In the midst of a political campaign and business uncertainty a rattling business has been done at

ROBT HALL'S RETIRING SALE.

May was a busy month; June will be busier, for we have set the liveliest pace for the "blooming" month of the year. Such buying opportunities as we will offer are only made possible from our haste to get out of business. We are anxious to make the time as short as posible, and are ruthlessly

CUTTING THE HEART OUT OF PRICES

to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sal s may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure, less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. They consist of Remnants in Dress Goods, Cotton Stuffs, Flannels, Flannelettes, Shirtings, Table Linen, White Cottons, Art Muslins, and single pairs of Lace Curtains.

Mr. J. R. McCrea, of Campbellford, is in town to-day.

Mr. Lionel King is home from Toronto for to spend his holidays.

Miss Maggie Watt, who has been spending the last few days in Fraserville, returned home last night.

Mr. George H. Johnston, formerly of Peterborough, has removed from Riverside, California, to Lethbridge, Alberta District, N.W.T.

Mr. James O'Connor, of the Dead Letter Department, Ottawa, and formerly a resident of Peterborough, is in town renewing old acquaintances.

Mr. J. H. Delemere, of Minden, the Independent candidate for North Victoria, is in town and will give an address at Mr. Newman's meeting to-night.

There are several Americans (Mr. Bryson and party, of Rochester, N.Y.,) renewing their trip to the back lakes, and are the guests of Mr. Fobert, Chemong.

Miss L. Jackson went to Campbellford last Saturday to sing at the confirmation services in the Roman Catholic church. She will return Saturday, June 6th.

Mr. D. Anderson, formerly of Apsley, has been rather seriously ill in Toronto. It is a pleasure to be able to state that, though still confined to his bed, he is gradually regaining strength. Mr. Anderson was overcome by the intense heat in Peterborough about a month ago, and on reaching Toronto his condition was so serious that for some time his recovery was despaired of.

THE DR. MONTAGUE MASS MEETING.

A GREAT GATHERING IN THE OPERA HOUSE.

Addresses by Mr. Kendry and Dr. Montague—The Farmer Minister's Easy Flow of Speech—An Eloquent Trimming on Public Questions.

In point of attendance there is no questioning the success of the campaign meeting in the Conservative interests held in the Opera House last night. The hall was crowded, and on the whole the speakers were given an attentive hearing, though Dr. Montague's careful and deliberate wading amongst wonderfully manipulated figures became at times so palpably tiring that he more than once apologised for his prolixity; and there was an economy in the expenditure of enthusiasm which, unfortunately, does not always characterize Conservative methods of expending the public funds.

The Opera House was profusely and beautifully decorated with flags, the work of Messrs. J. J. Turner & Son. Upon the walls hung the old mottoes that did duty in other campaigns—"The Old Policy, the Old Flag," "A United Empire," "The National Policy," "Canada for Her Sons," "The Trent Valley Canal," "Protection alike to Farmer and Manufacturer," with a new edition consisting of "Sir Charles Tupper our Leader." The motto, "The Maple Leaf Forever," was extended across the front of the boxes, which, as was the gallery were, filled with ladies. Assurance even reached the height of displaying in cruel irony the motto "Protection for our Workingmen."

Mr. W. H. Moore, President of the West Peterborough Conservative Association, was pleased to see so large a meeting to do honour to Hon Dr. Montague, Minister of Agriculture. He was glad to see ladies present and hoped for the day when they would be able to express a more substantial interest in political affairs. He predicted a victory for Mr. Kendry on June 23rd. (cheers.) He had no fear that Conservative West Peterborough would go back on its record.

Mr. Kendry, who was warmly received, in rising to speak, was interrupted by Mr. P. McNamara, who requested the chairman to ask Mr. Kendry what he was going to do for the workingman. While the manufacturers on the platform were well fed and sleek, the workingman was squeezed as dry as herring. The working man wanted an 8 hour a day system. Mr. Kendry in answering, after considerable confusion, replied that he was always in favour of the working and would be in favour of an 8 hour system for "outside" labour. He went on to say that he was in favour of the old man (Sir Charles Tupper), the old flag and the old policy." The Conservatives had a good policy which he would support, while the Liberals had no policy. To prove that the country was progressing he quoted figures to show the great growth of manufactures. There were 43,722 industries in 1881 and in 1891 75,788; in 1881 there were 164 millions invested; 354 millions in 1891, and so on. He claimed that Canada was in a better position than any other country and especially the United States, which had a reformed tariff. Speaking of the public debt Mr. Kendry said that we had good value—our railways and canals.—Voices—Oh! oh!

Mr. Kendry, after the laugh the interjection had provoked, proceeded to say that so far as the Trent Valley Canal is concerned, the persons who had interrupted him would not laugh when they saw the boats running through the canal.—(Cheers.)

He claimed that the public money had been well spent. Mr. Kendry was in favour of meeting the alien labour law of the United States with similar legislation in Canada. He was in favour of protecting labour, as he asserted that so long as the country was not developing, he did not believe in spending much money on immigration, in order that our native labour might be protected.

As Dr. Montague came forward to address the audience, little Helen Mason, daughter of Mr. Frank Mason, presented him with a beautiful bouquet of flowers, which he merely accepted and laid on the table, without the graceful osculatory recognition a similar gift would have received from the gallant Mr. Laurier.

DR. MONTAGUE

was introduced by the chairman and was well received. During the course of his remarks, his finely rounded sentences in reference to the Mother Country and to Canada's great resources, called forth applause from the audience, but his remarks on the trade question and the Remedial Bill were not productive of the same marks of approval.

In opening his address he referred to Mr. Kendry as one who was too well known to need any endorsement from him. If elected, the interests of the riding would be well looked after by Mr. Kendry. The doctor prophesied from

HIS INNER KNOWLEDGE

of the campaign that victory would crown the Conservative banner in every Province in the Dominion for the reason that the people of Canada had faith in the policy of the Conservative party, which had remained consistently the same for many years.

He did not attempt to deny that the Conservative party had made mistakes. In fact he freely admitted the corn, but held that the party was still, notwithstanding, the Canadian party—the party which had built up Canada. While being too cautious to go into the enormous and uncalled for expense attached to this development, he claimed the support of the electors for Mr. Kendry on this ground.

The scheme of Confederation he stated had been carried through by the strong hand of

SIR CHARLES TUPPER,

assisting Sir John A. Macdonald. The National Policy had been introduced for the purpose of diversifying trade and and creating an interdependence amongst the provinces. Recognising that a foreign trade should be opened up the Conservative Government had established various steamship lines, amongst which was the one to Australia. He knew that there opposition to the opening of trade in this direction, but from returns showed that bananas, pineapples and oranges were amongst the imports, which he averred could not possibly injure the Canadian agriculturalist. Incidentally he mentioned that over $7,000 worth of mutton had also been imported, stating that it was a mere drop in the bucket and could not be objected to by the farmers.

The proposed fast Atlantic Service was spoken of as something which would reflect credit on Canada, but the practical usefulness of the scheme was not dilated upon, nor was the fact that it would

COST CANADA $750,000 A YEAR

for the glory of having it.

Sir John A. McDonald was spoken of incidentally in connection with the development of Canada, but through it all he averred, could be seen the strong guiding hand of Sir Charles Tupper.

The speaker then dwelt to some extent on the fact that the press of the United States was in favour of the Liberals in the present campaign. The extravagant statement to the effect that every paper in the United States was against the Conservatives was

RECEIVED WITH LAUGHTER,

as was his solemn warning that if the country across the border was in favour of the Liberal policy would react against the interests of Canadians.

The American press, he further stated, was incensed against the Conservative Government on account of its interference in the Venezuela question, in proposing to raise an armed force in Canada. On the head of this statement he made a strong appeal to the volunteer element, but the reception of the response was not as hearty by any means as it would otherwise have been, as the volunteers still remember the fact that this selfsame Conservative Government is still withholding a one-third of their last year's pay.

When the banks were collapsing on the other side, Dr. Montague argued that Canadians

"FELT MIGHTY COMFORTABLE"

that they had not voted unrestricted reciprocity in 1891. In the course of his remarks he saddled the Liberals with a free trade policy and stated that once in power that party would throw Canada open to the United States and get nothing in return. Naturally such a statement was taken for what it was worth by the audience, whose knowledge the speaker certainly insulted by paying such a poor compliment to their intelligence as to imagine that they were so poorly posted on current events, as to entertain such ideas regarding the proproposed tariff modifications.

Dr. Montague then went into an explanation of the awkward matter of Canada's national debt. He gave a detailed statement of the various public works which had been constructed in the contraction of the debt but entirely forgot to go into the scandals which were connected with the construction of each and every one of these works. When dilating upon the

BENEFIT TO THE COUNTRY

of the C.P.R. and the Sault canal, he curiously enough skipped mention of Hon. John Haggart's far-famed Tay canal, the expense of the keeping up of which twenty times exceeds its revenue.

The Doctor must be congratulated on the clever manner in which he juggled the figures on the question of the annual expenditure in order to justify the enormous increase of over fifteen millions since 1878. An instance of this juggling may be given in the matter of his statement concerning the Post Office department, concerning which he acknowledged that the expense attached to it was greater, but went on to say that the earnings were greater also—so much greater in fact that this department was a source of revenue instead of expense. Naturally such a a statement was received with surprise.

The responsibility of the last session of parliament, which was so expensive to the country, was saddled on the shoulders of the Liberals with the easy assurance which characterizes Dr. Montague's addresses, but the audience laughed when he blamed this on the so called obstructionists.

The speaker's attempt to speak slightly concerning Sir Oliver Mowat's entry into Dominion politics had to be abandoned, as the mention of the Ontario leader's name evoked such cheers as to

DROWN HIS VOICE ENTIRELY.

In his own department (agriculture) the speaker stated that he had done his best to advance the interests of the farmers. He had tried to obtain permission to purchase five hundred head of cattle per week from the Canadian farmers, to kill and ship to the English markets, in cold storage, as a government enterprise, but the Liberals had put their foot down and had prevented him carrying his scheme into execution. The speaker did not stop to explain away the rather obscure point of how the Liberals, though in the minority had been able to quash his philantropic scheme so conclusively.

In taking up the Remedial Bill question the speaker remarked that it was always a matter of regret when a religious discussion was introduced into politics. The responsibility of this, too, was laid on the shoulders of the Opposition. It was not a question, he declared, of Separate schools or no Separate schools. What the Conservative party believed was that

A CERTAIN AGREEMENT

was made at the time of Confederation for the protection of the Protestants of Quebec in regard to their schools, and this same promise had been made later, in the Manitoba Act, for the minority in Manitoba, whoever they might happen to be. The Conservative party considered that this agreement had been broken, and in this opinion they were endorsed by the highest court in the land. In remedying the injustice simply a duty was being performed, and it devolved upon the Dominion Government to settle the matter. The Roman Catholics had taken the matter to the Courts. They had failed at first but succeeded finally under subsection 22 of section 2. The electorate of this riding having been addressed so often on the Remedial Bill were fully en rapport with the situation and when the claim of "being forced to perform a duty" was calmly proclaimed a strong dissent was heard through the hall, whereupon the speaker expressed surprise at such feeling being shown regarding the decision of the Privy Council of England. The doctor, however, knew full well that it was the Conservative party's construction of the decision which was decried and not the decision.

The meeting closed with cheers for the Queen and the candidate.

THE STRIKING TEAMSTERS STILL REFUSE TO WORK FOR $2 A DAY.

CANAL WORK IN A SLOW WAY.

Since the Strike No Other Teamsters Have Applied for Work.

WHAT THE N.P. HAS DONE FOR THE CANADIAN WORINGMAN.

The Labourers on the Canal Complain of Being Driven Like Slaves for Starvation Wages—Two Men Look After All the Scrapers—Where Generally There Are Two Men on Each Scraper—An Indignation Meeting for Saturday Night.

The teamsters at the Nassau-Little Lake section of the Canal are still on strike and it is impossible to obtain from the foreman any positive information as to whether "starvation wages" will be offered or whether a man will be permitted to earn enough to keep house and home together. All that can be learned in this respect is that it will be useless for the striking teamsters to again apply for work, as they have been assured by the foremen that their action in throwing up their work will be remembered against them.

The publicity, however, which is being given the affair and the amount of feeling which is being stirred up by the friends of the teamsters, who all live in this vicinity, will doubtless have the effect of inducing the Government heelers to take fright and heal the breach which is causing such general comment already throughout the district.

Some concessions on the line of well known precedent to the contractor would doubtless have the desired effect.

The foremen deny all knowledge of any promise of an increase of wages, though one of them permitted it to leak out that when the teamsters began to use their own waggons it had been understood that more wages would be paid. The teamsters know nothing of this part of the bargain, but the foreman decidedly "put his foot in it" when he conceded that no arrangement whatever had been made in respect to the promised raise.

The foremen also deny knowing that the men were dissatisfied until yesterday, although a number of teamsters dropped their job on Saturday night when they received their pay checks.

Although Mr. Corry was not away from town all the time, still, it is stated, he could never be found with his superintendent, and each always placed the responsibility on the shoulders of the other. When matters approached a crisis Mr. Corry left for Toronto.

A visit to the scene of operations on this section of the canal will convince even the uninitiated that the construction of it will be no boon to the workingman. There are seven of the company's teams at work with scrapers. Of course each one needs a teamster, but each does not have a man to handle the big scraper as well. On the contrary, two men look after the seven scrapers, running back from one team to another as soon as they take it through. The workmen residing in the vicinity were never driven in a like manner before, and the complaint against the harsh treatment accorded them, is continually heard. When the men refused to work longer, a foreman approached the crowd and inquired into the object of the strike.

"We cannot support our wives and families and keep the teams, on two dollars a day, was the answer."

"What have I to do with your wives and families," was the harsh rejoinder?

"How much are you striking for?

"We can't live on less than $2.50 per day."

"Oh! you can't, eh? Well, I'll remember all you men for this. There's no more work for you on this canal."

The foremen think the contractor perfectly justified in keeping down the wages as they state that he can get all the men he wants at the low figure.

So much for the National Policy!

Plenty of men willing to work for $2.00 a day with their teams!

It is said that an indignation mass meeting will probably be held in the opera house on Saturday evening, unless the contractor comes to terms in the meantime.

The contractor as a business man can hardly be blamed for procuring labour as cheaply as he can, but the situation is a startling commentary on the claims of the the government party to the votes and support of the electors on the ground that the government's building of the canal would be a great boon to the town in the way of giving profitable employment to labourers and workingmen for whom the the N. P. failed to find a job: it is also a striking commentary on the absurd claims of the National Policy advocates that that political expedient would give constant employment to the workingmen at high wages. In connection with the wage trouble on the canal works, it is said that the management give it to be understood that if the elections were only over the Peterborough workingmen and labourers would be given a lesson, and that after the 23rd of June it would be possible to bring in foreign labour at a rate of five and six dollars a week. It would not, however, do to imperil the chances of Mr. Kendry and Mr. Burnham, who expect so much support on the head of the benefit canal construction would be to unemployed labour by precipitate action now. But after the 23rd of June something will drop—it cannot be the rate wages, which are so low that they cannot drop much farther. Look out for the importation of foreign labour after the election, if the work progresses this summer at all. Some say that it will stop as soon as the elections are decided, if Tupper is sustained. Workingmen, vote for Laurier. He will see you receive justice. He will finish the canal contracts as Hon. Alex. Mackenzie carried out the canal contracts left unfinished by his Conservative predecessors.

MR. RICHARD HALL'S NINTH MEETING.

A FINE MEETING AT SPRINGVILLE.

Addresses by Messrs. Hall, Stone and Rogers—A Very Satisfactory Meeting.

A well attended meeting, in Mr. Hall's interests, was held at Springville, last night.

Mr. T. M. Hunter occupied the chair, and excellent addresses, dealing with almost every public topic engaging public attention, were delivered by Messrs. Roger, Hall and Stone. The hall was comfortably filled and great attention was paid to the addresses. The meeting closed with the usual cheers.

At the conclusion of the meeting, two electors, hitherto Conservatives, expressed themselves as having had enough of the Home market and the "National Policy."

THE FLOUR THAT BAKES THE CAKE AND "TAKES THE CAKE."

What an Expert Teacher of Baking Said About the Consolidated Milling Company's "Marvel" Brand of Flour.

During a very interesting talk to ladies on Wednesday afternoon in the baking school, which is being conducted by Miss Christina V. McLean, in the Y. W. C. A. parlours, a strong preference was shown for the Consolidated Milling Co's. brand of flour known as "Marvel."

Miss McLean, as the ladies already know, is an expert teacher of English and American cookery, engaged in travelling through Canada in the interests of the well known extensive firm who manufacture Fleischman's Yeast, now so much used in Peterborough as well as elsewhere. So high an opinion from an authority like Miss McLean, as was expressed in regard to our local "Marvel" brand of flour manufactured by the Consolidated Milling Company of this town, is entitled to considerable weight, more especially as it was given voluntarily and as Miss McLean declared, without her having been asked to say anything about it. Here are her own words as near verbatim as possible, addressed to the ladies in the course of her talk on biscuit and pastry baking:

Miss McLean said: "I am using a beautiful flour known as 'Marvel,' manufactured in your own town by the Consolidated Milling Company, and I can frankly say I never used better. Some of the ladies here who may have heard me speak of another brand of flour since I came here—the 'Mikado'—may wonder why I now use such strong language in speaking of the 'Marvel brand. I can only explain by stating that I had not then had an opportunity of testing the 'Marvel' flour when I spoke of the 'Mikado' brand, which is an excellent flour, with qualities superior to many other brands I have tried for bread baking. But for baking cakes, buns and pastry the Consolidated Milling Coy. have got the nearest to the top of the ladder, with their choice brand, so well named by the name of "Marvel." It will pay every house wife to keep a bag or a barrel of this flour on hand to use for their fine baking. If you don't you will have to use more baking powder and lard. And as it is to be got in your own town, right at your own doors, you should use it in preference to all others, if you want to make a success of your pastry. The same flour that makes good enough bread will not make good cakes and pastry. I have had excellent results with the 'Calla Lilly,' flour made by the the same company, and consider it the very finest flour made in Canada for bread and biscuits—equal to the Canadian Ogilvy flour, but finer and better in colour than the Ogilvies, because whiter, without any of the strength being wasted. I am always glad to say a good word for the miller, without being asked to do so. I am not suprised, however, and you will not be suprised to find in your town such superior brands of flour, as the 'Calla Lilly' and the 'Marvel,' because I am informed that the man who has a guiding hand in their manufacture, has spent almost a lifetime with the great Ogilvies. It is easy to see how he can excel."

A Mouthful of Pearls.

The teeth, perhaps more than any other feature, enhance or destroy that intangible, because complex, thing we call beauty. What more repellent than ill-kept teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficiently does it render the breath sweet and fragrant. Ivorine is simply incomparable as a toilet requisite, which accounts for its recommendation and use by leading dentists.

THE BANK OF MONTREAL.

On our second page we print the report of the 78th annual meeting of that venerable and stable leading financial institution of the continent, the Bank of Montreal. Its stability and the careful and skilful management the affairs of the Bank receive, are shown by the fact that the statment of the present year reveals the same gratifying features of former years. And this in the face of a business depression that has greatly affected the standing and success of other financial concerns. It must be extremely gratifying to the shareholders that in spite of such conditions, the profits of the present year have increased, and that the deposits also show an increase of over a million and a quarter. Canada, with her almost illimitable resources, and by virtue of the energy of her people, possesses a high standard of credit, and no small factor in the creation of that credit is the presence in Canada of an institution of such stability and careful conservatism of management, which even amidst conditions that shake to their foundations, in other parts of the continent, other banking concerns, not only stands firm but sturdily advances. The Bank of Montreal stands the central figure of a banking system that has probably no superior in civilized countries. It's stability, steadiness and uniform sure growth in influence and importance are a source of pride to all connected with it, as well as to every Canadian citizen.

YEARLY JUNE SALE

Progress never pauses here. June 1st is the great date in our business year. June is the month when we obliterate regular selling figures and make prices dance downwards for the benefit of consumers.

We start off the First Week of our Big Annual June Clearing Sale with the positive announcement of a Sweeping Reduction on the whole of our $30,000 stock of **Fashionable Dress Goods, Seasonable Dry Goods, and Elegant Millinery, Jackets and Capes.**

JUNE SHALL BLOOM WITH BARGAINS.

Cost to import and produce will play no part in our Reduced Prices. They are fixed for selling—not because we want to destroy values altogether, but because we always have, always will, and MUST NOW dispose of the great bulk of our Summer Stocks before July.

Wise folks will buy largely now for the future. No scanty or trivial lots only laid out for this occasion—but actually the entire stock. Great lots of seasonable New Goods at Retail below the wholesaler's cost.

TO-DAY we offer 25 Pattern Dresses, worth $4.50 to $10 each, for just **ONE-HALF PRICE.**

R. H. KELLS & Co

365 George Street, Peterborough.

COME EVERY DAY

And you'll find special attractions every time you visit the store, with the verdict unanimously in your favour, without costs. Every day our June Sale will be Red-Letter days for June buyers.

A NEW SYSTEM

Along with this June Sale we inaugurate a new system of Registering Sales. At considerable outlay we have brought into requisition two complete self-adding National Cash Registers, so perfect in mechanism that they systematize into divisions all the transactions which occur between clerk and customer. They register who makes the sale, the date of sale, number of sale, whether for cash or credit, amount of cash received and cash paid out, the amount of sales made by each salesman, adds the amounts together, and keep a complete register of the total sales of the day. In fact, these wonderful machines do everything but talk.

They also print and issue with each sale a small check ticket to be given to each and every purchaser. Customers keep these tickets until they amount to $10, in exchange for which we give free a pair of Ventilated Summer Corsets, or a pair of our best quality 50c Gloves, or any other goods of equal value.

The old story of Prometheus is a parable, an allegory. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined? Yes, and realized.

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures. The sufferings from as outside, visible hurt, are a mere pin-scratch to the torments of a diseased liver.

But, moderns are ahead of the ancients. There is a sequel to the old story. Dr. Pierce is the author. His "Golden Medical Discovery" is more than equal to the vultures of dyspepsia and its kindred diseases. Every atom of the "Discovery" is an active agent against disease. It flies like a ferret, wherever it is sent. It is as sure as the needle of the compass. There is no more need of suffering from dyspepsia than there is of hanging one's self.

Mr. W. Rogers, of *507 Grayson St., Louisville, Ky.* has this to say for himself and the "Golden Medical Discovery": "I was a dyspeptic. I had not had a comfortable night in six years. I have taken three bottles of Dr. Pierce's Golden Medical Discovery. I am now fifty years old. I feel thirty years younger." Yours truly.

SWAM OUT TO DEATH.

Evangelist Andrew Paul Drowned While Taking His Morning Plunge.

Lanark, Ont., June 3.—For the last week or so two evangelists named Andrew Paul and Mr. Randall have been holding meetings here. It seems that Andrew Paul had been in the habit of going to bathe early in the morning in the Clyde, near Affleck's planing mill. He left the place where he and Mr. Randall had been stopping about 2 o'clock this morning, and, not having returned at 6 o'clock, Mr. Randall became alarmed, and went to look for him, and acquainted David Moir with the circumstances. Paul's clothes were found on the river bank by Harry, son of Mr. A. Affleck. The body was soon afterwards found by David Moir, lying in about eight or ten feet of water. Paul was about 30 years of age, and leaves a widow and three or four children, the youngest being an infant a few months old. Mrs. Paul was here with her baby visiting her husband yesterday, and left for home, near Innisville, in the Township of Drummond, late last night.

THE ELEVATOR FELL.

A Terrible Accident in a Printing House at Baltimore—Thirteen Employes seriously Injured.

Baltimore, June 3.—The passenger elevator of the Friedenwald Printing Co. fell from the fourth floor to the basement with an awful crash this morning. Fourteen men and women were in the car as it went down the shaft. The elevator conductor had a miraculous escape, coming out uninjured. The other 13 persons were terribly injured, broken legs and arms being the fate of many. Two of the injured are in a dying condition. Thomas Knapp, aged 68, had a rib broken and both feet crushed; Mary Jackson, aged 46, had both legs broken and spine injured. They will probably die. The victims were conveyed to the Maryland University Hospital, many of them being unconscious; others shrieked like mad. The injured were all employes of the printing company, and were going to their workrooms on the top floor to begin their day's labor.

Nervous Prostration

Is a deplorable condition of body, to which the mind in some degree responds; the sufferer becomes a victim to a legion of disagreeable sensations, arising from the impairment or exhaustion of vital or nerve force. Sleeplessness, too, comes to rob the sufferer of nature's sweetest solace and restorer and a disordered digestive function contributes its quota to the already full cup of misery. Cure is possible in one way only—the nervous system must be strengthened; the digestive and assimilative function must be restored.

Maltine with Coca Wine, more than any other preparation known to medical science, combines the two essentials required in these cases. Maltine with Coca Wine poses tonic properties that are directed in a very special way to the nerve centres, giving them tone, vigor and the staying power most needed, while just as efficacious does it aid and strengthen all the processes of digestion. Thus we have the production of all the elements of adequate nutrition, which, inevitably, is certain to give health, strength and vigor. Maltine with Coca Wine is sold by all druggists.

The Minorca's Mission.

The mission of the Minorca hen is to keep the egg basket filled, and she is faithful to her trust; she is as near an approach to an egg machine as can be imagined; beginning to lay quite young, they will, under all favorable conditions, continue laying steadily all through the winter and spring. Their eggs are said to be larger than those of any other variety.

Out of weakness comes strength when the blood has been purified, enriched and vitalized by Hood's Sarsaparilla.

Dr. Low's Pleasant Worm Syrup removes worms of all kinds from children or adults.

As a blood maker, blood purifier, health giver and system renovator **Manley's** Celery-Nerve Compound is unrivalled.

"The eruptions on the face particularly have been removed, and the trouble in my back as well, and I feel like a new man. I consider Manley's Celery Compound better than doctor's medicine for blood and liver troubles, as it has proved so in my case." Isaiah Leffler. Waterford, Ont.

RACING AT HAMILTON.

Good Fields and Good Sport at the Jockey Club Meeting—Favorites Won.

Hamilton, June 3.—The Hamilton Jockey Club meeting opened to-day under favorable circumstances. The weather was fine, the attendance fair and the racing good. Society was well represented, both locally and from Toronto. The crowd, however, was rather slim until the Toronto train arrived. It was a good day for the public, as four favorites succeeded in finishing in front, and a second choice, Edna D., being the only outsider to land the money. The track was in good condition, though very slow. Starter Fitzpatrick was in excellent form with the flag, with the exception of the last race, when he had a field of 12; Crimea, who was well played by her stable, being left at the post. The card was a good one and furnished the best racing yet seen on the H.J.C. track while aside from the Prince of Wales' Plate, there were but three horses scratched in the five events.

Of the five colored on the card for the opening event, four went to the post, Crimea being the only absentee. Sun Up looked like a good thing, notwithstanding his heavy impost, though a strong tip on Mussulman sent his price from 4 to 5 up to 6 to 5 at the post, Mussulman being backed from 2 to 1 down to 8 to 5.

Six two-year-olds went to the post for the second race, with Truxillo the hottest kind of a tip. Maud Lyles and Cardinal were next in demand, while Edna D was nibbled at by a few.

The Wellington Handicap proved a capital race, though Havoc, admirably ridden by McGlone, won cleverly at the finish. One of America's crack jockeys, Monk Overton, made his first appearance on a Canadian track, having the mount on Subito. The Schoenfeld colt appeared very sore in his warming-up gallop, and in consequence his price went back from 2 to 2 1-2 to 1. The talent could see nothing in the race but Havoc, who was backed from 6 to 5 to 7 to 10, while a few fancied Basso and Booze.

Springal and Melcha were the only two to put in an appearance for the Prince of Wales' Plate, and Mr. Seagram's horse was such a warm favorite that there was little or no speculation.

The Trouble Steeplechase had eight starters, and promised to be one of the best jumping races seen in Canada in some time. Somersault was made a hot favorite. His stable backed him and many of the racetrack following went down on him. Notwithstanding Lion Heart's good race at Woodbine Park last week, and with Mara up, as good as 2 1-2 to 1 could be had against him. His old jockey, Gus Hamilton, sat up in the grand stand with his arm in a sling, and, thought he could not lose. Red Pat, too, who would no doubt have been the contending horse had he not fallen, was quoted at a surprisingly long price, 3 to 1. The others had little support, though a tip was out on Alfonsina, and many played her for a place and to show.

The last race, a selling affair at seven furlongs, had twelve starters. After some delay, they were sent away to a straggling start, with Crimea left entirely. Stonemason, the favorite, soon worked his way to the front, and won with something to spare. Alamo, coming very fast in the stretch, secured the place, and Miss Celestine managed to beat Mr. Sass for third.

THE BASEBALL RECORD.

Buffalo batters failed to hit McPartlin over the Don yesterday, and as the Torontos bunched theirs, the visitors were easily beaten. Both teams fielded well. The crowd guyed Jim Fluid when the long first-baseman struck out twice. A base on balls, three singles and an error gave the locals a lead at the outset that the visitors failed to overcome. Score:

Toronto	4 2 0 0 0 4 0 0 *—10
Buffalo	0 1 0 0 1 0 0 0 0— 2

Earned runs—Toronto 8, Buffalo 1. First base by errors—Buffalo 1. Left on bases—Toronto 5, Buffalo 7. First base on balls—Off McPartlin 3, off Gannon 2. Struck out—By McPartlin 7, by Gannon 5. ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

NOTES FROM HAMILTON.

Seriously Injured by the Explosion of a Small Cannon—An Alleged Pickpocket.

Hamilton, June 3.—(Special)—Fred Wall, Rebecca-street, was arrested to-night on a charge of stealing a coat from George Vanderlip of the Royal Hotel.

Mrs. Tilley Fonger was arrested on a charge of stealing $1 from an aged gentleman at the Queen's Hotel.

James Smith, Peter-street, was seriously burned and injured this afternoon, while exploding a small cannon.

Detectives Reid and Campbell arrested Robert Gordon, alias Sheeny Harry, as a pickpocket suspect at the race track to-day.

Most coughs may be cured in a few hours or at any rate in a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months. Keep this remedy in your house.

Our Manufacturing Interests.

What a Hamilton Manufacturer Has to Say.

Mr. James Brayley speaks for the public good.

THE PROPER POLICY.

Our representative interviewed Mr. James Brayley, of Hamilton, at his office, 28 King William Street. Mr. Brayley is an enterprising business man, and one of Hamilton's foremost manufacturers. His goods, Saddlery hardware, punches, dies, etc., are known from Halifax to Vancouver, and stand very high in the estimation of the trade.

Mr. Brayley said: "For years I have been troubled with gravel and weakness of the kidneys. I had to stand up and clench my teeth when urinating, so intense was the pain. The pains around my loins where almost intolerable, and I felt as though a cat were being pulled down my back by the hind legs.

"I went from bad to worse till at last I could not urinate at all, and had to be operated on. I had no confidence in anything, and made up my mind to suffer torture to my dying day. Reading the testimony published by the Doan Kidney Pills Co., I saw a similar case to my own, and, being in constant agony, decided to give them a trial, and got a box of the pills from Spackman's drug store, at the corner of Market Square.

"It did me no good, so I got another, and another, until I had taken four boxes, and was about giving up when relief came. I continued to take them till the pain left my back, and I am now as limber as an eel. Instead of getting up a dozen times a night I never get up more than once now. The urine is now perfectly clear and has no sediment of any kind.

"I am delighted to testify in behalf of Doan's Kidney Pills, as they cured me after the last ray of hope had fled."

B FOR THE BLOOD — Turns — B FOR THE BLOOD

Bad Blood Into Rich Red Blood.

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,571 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 19.5 and assuring you of very best wishes, I remain,

Yours Sincerely,

(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

HOUSEHOLD WORLD

POTATOES FOR A WEEK.

A Roster Which Gives One Mealy Murphies Seven Different Ways.

Sunday—Have them mashed—not pounded into a sodden mass, but whisked to a creamy substance. To do this they should be peeled, steamed, broken with a potato whip, moistened with milk and butter and seasoned with salt and pepper and beaten like a batter until very light.

Monday—Bake them in their skins. They should be washed clean, baked in a good oven and served hot.

Tuesday—They may be peeled and baked with a roast. When the meat is within half an hour of being ready put them in the gravy and bake until they are covered with a crisp, brown skin.

Wednesday—Serve them in Kentucky style, sliced thin as for frying, soaked in cold water for one-half hour; put in a pudding dish with salt, pepper and milk, and bake for an hour.

Thursday—Serve them fried whole. Peel and boil them. Roll in beaten egg, then in cracker crumbs and fry in butter.

Friday—Have potatoes a la Parisienne. Wash and rub them with a coarse towel until they are skinned, dip into boiling water until tender. Have ready in a saucepan some hot cream and butter, a little green parsley, pepper and salt. Pour the water off the boiled potatoes, cover with this and let it stand.

Saturday—Boil them in their skins and serve with butter.

Beef a la Mode.

Take three pounds of beef, one calf's foot, one large onion, one carrot, about two ounces; two cloves, two tablespoons of butter, one tablespoon of flour, one generous tablespoon of salt, one-fourth of a teaspoon of pepper, one pint and a half of water. Have the beef in one solid piece, if it can be larded so much the better, but this is not essential. Clean the calf's foot carefully and cut into several pieces. Have a rather shallow graniteware or iron pan, which can be covered closely. Put the butter in the pan and place over the fire. When the butter is hot put in the beef and cook on one side until brown; then turn and brown the other side. Now take out the beef and add the flour. Stir until the mixture is a dark brown, then gradually add the water, stirring all the time. When this sauce boils add the beef, the calf's foot, sliced carrot, the onion, in which are stuck the cloves, and the salt and pepper. Cover the saucepan and place where the contents will boil for six hours. The sauce must not more than bubble faintly in that time. The cooking can be done on the oven or on top of the range. Turn the beef several times during the time it is cooking. Serve on a hot dish. Garnish with the calf's foot and strain the sauce over all.

A Woman's Hour.

"Please state to the court exactly what you did between 8 and 9 o'clock on Wednesday morning," said a lawyer to a delicate-looking little woman on the witness stand.

"Well," she said, after a moment's reflection, "I washed my two children and got them ready for school and sewed a button on Johnny's coat and mended a rent in Nellie's dress. Then I tidied up my sitting room and made two beds and watered my house plants and glanced over the morning paper. Then I dusted my parlor and set things to rights in it and washed some lamp chimneys and combed my baby's hair and sewed a button on one of her little shoes, and then I swept out my front entry and brushed and put away the children's Sunday clothes and wrote a note to Johnny's teacher asking her to excuse him for not being at school on Friday. Then I fed my canary bird and cleared off the breakfast table and gave the grocery man an order and swept off the back porch and then I sat down and rested a few minutes before the clock struck nine. That's all."

"All!" said the dazed lawyer. "Excuse me, judge, I must get my breath before I call the next witness."—Rochester Express.

The Discipline of Children.

About the worst thing parents can do is to discuss the failings of children before them. The next worst thing is for one parent to attempt to punish the child and the other parent protest against it. Either action will damage the respect of the child for one or the other of its parents, and if there is one thing more than another that parents want to preserve it is their dignity before their children. A child who gets the idea that one parent is at variance with the other on the question of discipline will make both unhappy and render itself decidedly objectionable by playing off one parent against the other. If you want to have any harmony in the family get together on the question of disciplining the children—at least in their presence—and if you want to quarrel on methods do it in the privacy of your own apartments, where you can have it out without lowering yourselves in the eyes of the children.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

TORONTO DEFEATS BUFFALO.

The Score Was 6 to 5—Some Great Work on Both Sides

Toronto, June 3

It was a great game over the Hoa yesterday, when the Buffalos made their first appearance here, and suffered defeat by 6—5. Both pitchers were hit freely at times, though the visitors were more fortunate in placing theirs. In the sixth innings, with O'Brien on second and Casey at third, Padden and Wright got up a disturbance in the centre of the diamond with Field, Wise, Leewe and Wadsworth, the pitcher, saving the ball. In the midst of their wrangling Casey stole home, amid great excitement.

Buffalo scored three runs in the second on Smith's error, two bases on balls, wild pitch, Field's three-bagger and slow one by Smith and Wadsworth. Clymer's double and Greenlager's single gave them another in the fifth, and the last run was made in the ninth on Wadsworth's hit, Smith's base on balls, Goodenough's grounder to Dunn, and Clymer's long fly to left field. O'Brien secured the first run for Toronto in the fifth, when Leewe fumbled his grounder, being advanced on Casey's single and scoring on Delehanty's long drive to centre field. Wright's base on balls, hits by Lutenburg, O'Brien and Casey, and Casey's steal home, netted four in the sixth, and Wright's hit, a wild pitch and Lutenburg's double ended the scoring for the home team in the seventh. Score:

Buffalo	0 3 0 0 1 0 0 0 1—5
Toronto	0 0 0 0 1 4 1 0 *—6

Earned runs—Buffalo 2, Toronto 3. First base by errors—Buffalo 1, Toronto 1. Left on bases—Buffalo 8, Toronto 6. First base on balls—Off Wadsworth 3, off Dunn 3. Three-base hit—Field. Hastings Beat Handspring.

Morris Park Race Track, June 2.—The very successful spring meeting of the West Chester Racing Association was brought to a close here this afternoon before a crowd of 10,000 persons.

The interest of the day centred in the fourth event, for the Belmont Cup, in which the cracks, Hastings and Handspring, were to meet. Handspring went to the post the favorite, his odds being 6 to 10, while those of Hastings were 7 to 5. Both candidates had thousands of backers.

The start was not a good one. Sims took the lead with Handspring and made the running. Hastings was within easy distance of him when they began the descent of the hill, and closed up on the favorite a couple of furlongs from home, but in doing so Hastings was carried nearly to the outer rail. Sims steadied Handspring and forced him to the front again under severe punishment. Griffin rode a cool, patient race. Hastings gradually wore down his rival's lead, and by one mighty effort beat him out by a head, amid the wildest kind of excitement. The time, 2.24½, is the best ever made for the distance over this course. Hamilton II. was third, two lengths away.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

MRS. BARNES FREE TO MARRY.

The Former Edith Riddell of Parkdale Has Attracted Much Attention.

Wichita, Kan., June 1.—Mrs. Barnes of Trenton, N.J., has secured a divorce at Oklahoma City from her husband, who was foreman of ex-Mayor Magowan's factory interests at Trenton, and who recently instituted suit against Magowan for alienating his wife's affections.

Mrs. Barnes was a native of Toronto, nee Miss Edith Riddell, daughter of Dr. Riddell of Parkdale. She married Mr. Barnes in Toronto, when she was a telegraph operator, and he was the foreman of a rubber company. They subsequently moved to Trenton, N.J., where Barnes went into the service of Magowan. Magowan fell in love with the beautiful Mrs. Barnes and a scandal ensued. Barnes sued Magowan for damages, and Magowan in turn secured a divorce from his wife, in order that he might be free to marry Edith Barnes.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favourite cathartic with all who use them. All druggists. 25 cents.

M. H. Cudney, Port Burwell, Ont., says: "I was afflicted with rheumatism and tried all cures. I did not get relief until I tried Miller's Compound Iron Pills and before I had finished two boxes I was completely cured." Sold in Peterborough by Wm. Madill, druggist.

MORE MEAT AND LESS BONE.

Some cattle weighing say 1200 lbs. live weight, will only dress 530 lbs. when killed and hung upon the butchers' hooks. That's the kind we DON'T keep—because the proportion of bone is too great for the amount of beef.

Prime cattle of a similar weight will dress 720 lbs, instead of 530 lbs—the difference being all in good meat—not bone. That's the kind we DO keep, because the proportion of bone is small, compared with the weight of beef. If you order say a 10 lb. Roast, you can easy figure on what you gain.

Which will you buy? Quantity and more bone, or quality and more meat? We only keep the latter.

Conditions such as recently existed in a small town in New Jersey, 12 miles from Philadelphia, form a fitting object lesson of the profit in good roads. In consequence of the bad roads the waggon makers thereabout constructed four-horse vehicles to carry 55 bushel baskets as a maximum load, which was regarded as heavy hauling. Real estate had gone a-begging, for there was no possible market for it. It had been impossible to settle up estates because no buyer could be found for the land. But a few years ago the people of the community woke up. The town issued $40,000 worth of bonds and applied the proceeds to better roadways. As a result, New Jersey wagon makers of the vicinity of Philadelphia are making two-horse vehicles to carry, not 55 bushel baskets, but loads made up from 90 to 125 bushel baskets, and still the loads are not regarded as heavy. Two horses are able to do more work than four horses, and with much more ease.

On the old roads, two men with four horses, with a waggon weighing 1,900 pounds, could take two and a half tons of produce to market and bring back an equal weight of fertilizer, making one trip a day. Now, on the good roads, one man with two horses and a waggon weighing 2,300 pounds, takes four tons to market, bringing back an equal weight, and making four trips a day.

When Col. Pope, the apostle of good roads in America, made such predictions as these early in his crusade, they were received with little enthusiasm, but he has been borne out in his statements time and again, until the vast road improvement going on all over the country is a monument to the energy and persistence of the man.

One of the features of the sudden growth of the cycle industry and the present popularity of the bicycle is the opportunity it gives for the display of the inventive genius in connection with the details of equipment. Curiously enough, the saddle seems to be the favourite point of attack by those who think there is plenty of room for improvement, with the result that the market is flooded with many wonderful creations in saddles. Some of them have their good points, it is true, but usually at the sacrifice of too many other requisites.

The idea seems to be somewhat prevalent that bicycle manufacturers while bringing the machine itself up to its present state of perfection have entirely ignored this important feature. As a matter of fact, the makers of long experience have given this subject as great attention as any other detail of equipment, with the additional advantage of having back of them years of experience on which to base their calculations. The result is that, with the regular equipment of standard machines, is furnished a light, easy saddle that adjusts itself to the rider and from which he secures comfort without carrying around any unnecessary weight or having it interfere with his movement in the slightest degree. One feature that is lost sight of almost entirely is that there must be a certain rigidity to the saddle to make it of any value, for with a soft, yielding saddle the rider cannot obtain sufficient purchase to operate his machine without unnecessarily tiring himself.

Impoverished blood causes that tired feeling. Hood's Sarsparilla purifies, enriches and vitalizes the blood and gives vigor and vitality.

Economy is the order of the day, with the chances largely in favour of Gough Bros. doing the biggest business in town on Satuday. Cost in many cases won't matter on Saturday.

Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

"The whole round world is every way
Bound by gold chains about the feet of God."

Subject of prayer for June:—"For our teachers—for all teachers of the young in Sunday Schools, day schools and colleges, that they may see their opportunity and responsibility, and that they may help their pupils to a higher plane of living."

CHARLOTTE STREET SOCIETY.

Monday evening last was our regular consecration service, and was, without doubt, one of much spiritual blessing to all present. The session opened with a song and praise service, followed by the roll call, to which there was a hearty response in the form of personal testimony. The topic, "Ready for Death," was then beautifully taken up by the Misses Sherlock and DeLand; the necessity of a continual watching being most forcibly impressed. Our spirituality is increasing as well as our attendance. Thank God. Strangers welcome.

GEORGE STREET SOCIETY.

The George street society held their monthly consecration service last evening. This term they intend explaining the pledge thoroughly, taking it in clauses. Mr. Alf. Mitchell took the first clause, "Taking Christ for My Example," and gave a very profitable address, after which the Secretary called the roll. Next Monday evening will be in charge of the Literary Committee.

The officers for this term are:—
President—Mr. O. R. Dayman.
1st Vice President (C. E. Department)—Mr. Wattam.
2nd Vice President (Missionary Department)—Miss Shortly.
3rd Vice President (Literary Department)—Miss R. Finley.
4th Vice President (Social Department)—Miss M. Mason.
Recording Secretary—Mr. Percy Might.
Corresponding Secretary—Miss E. R. Shortly.
Treasurer—Miss Lillie Pascoe.
Organist—Miss Ida Melrose.

ST. ANDREW'S SOCIETY

Have dropped the Monday evening meetings and are conducting the mid-week prayer meeting during the vacancy of the pulpit of the church. Last Wednesday evening they had a large turnout, the meeting being conducted without a leader. After the opening exercises the topic "How does God reward those who do his will," was taken up by Mr. Anderson, who showed that God's rewards are present and future, that he does not let the most menial service to go unrewarded, that the rewards in sins are always large and in eternity abundant. I Cor. 2 9 says, "Eye hath not seen, nor ear heard, neither has it entered into the heart of man what God has prepared for those who love Him." The meeting was then thrown open and was lively and interesting, there being often two on the floor to speak at once.

ST. PAUL'S SOCIETY.

The general information committee propose taking up at least five minutes of each meeting hereafter, to present items of interest pertaining to the C. E. movement throughout the world. The consecration service on Monday night was of a true character. Rev Dr. Torrance brought the meeting to a close by a few pointed remarks on Consecration. The attendance was good, a number of strangers being present.

BETHEL—KEENE CIRCUIT.

Death has again visited our society and taken from our midst our beloved brother, Herman Porter. Although a gloom hung over our meeting, held May 20th, it is one that will be long remembered. The topic "How God rewards those who do His will" was taken by Oliver Fife. He made plain the fact, that each one present will receive the reward of the faithful or the unfaithful, and urged the members to so live that they will receive God's promised reward to all who do His will. Many earnest prayers were offered for the bereaved family.

We will miss his voice in our prayer-meeting and at roll call, but will go forward with our work, trusting to meet him at the roll call in heaven. May God help us all to so live that when we are called, we may be prepared to meet our dear brother who has gone but a short time before.

SALEM E. L. OF C. E.

The meeting this week was led by Miss Cleghorn, the topic being taken by the president, Mr. Thos. E. Sargent. We realized as we seldom have had occasion to that the Master is present, when our number is down to almost two or three and that to bless. We have been trying very hard to make our meetings interesting and beneficial and those whose attend have felt that it was good to be there. We have gone away feeling refreshed, but we have also gone away feeling discouraged and sad when we think of those whom we would be so glad to welcome, but cannot, because we seldom see them. We feel like appealing to your best nature and ask you to come and help us. We have the same port in view, then why not travel together and help one another. You don't know who needs the help and encouragement that you could give even by your presence. It is a good opportunity to work for the Master, which we ought to consider a privilege.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. Box 388, London, Ont.

HARVEY.

Council Meeting.

(From Our Own Correspondent.)

The Harvey Council met at the Town Hall, June 1st, 1896, as Court of Revision. Only one appeal—James Campbell, as overcharged on lot east half 26, con. 16. The assessors valuation was confirmed, the roll passed by the court, and the members resumed in council.

Minutes of the last meeting read and confirmed. Communications read from Gilmour Co'y, re right of way for a new road. Municipal World, re blank books for Registrar's use in registering births, marriages and deaths. Cockshutt Co., re road scrapers. Accounts passed and orders drawn for payment, amounting to $88.80. The treasurer was instructed to deposit in bank the sum of $100 in favour of the Commissioner of Crown Lands, for North Harvey Road.

The clerk was instructed to procure the books required by the amended Act of the Ontario Legislature for registering births, deaths and marriages, and to notify the Gilmour Coy. that the council accepted the proposition for new road between lots 29 and 30, concession 17, in lieu of the old road, refencing same. The clerk was instructed to request the County Treasurer to remove from his books all taxes charged against lot east half of 12, concession 13, Harvey. Messrs. Shaw and Flynn were appointed to repair the crossways at Burleigh Bridge, also to examine the road from S. Purser's land to lake shore. On motion T. Nicholls was requested to furnish three steel road scrapers. A grant of $230 was made for roads and bridges in Harvey, $100 to be expended in North, $100 in South, and $60 in East Harvey. The council adjourned to meet at the clerk's office on Monday, June 29th.

MR. LAURIER'S TOUR

The Liberal Leader Addresses 15,000 People.

A MOST ENTHUSIASTIC WELCOME

Great Crowds at Glencoe and Chatham—No Buildings Could Hold the Multitudes and Meetings Were Held in the Open Air—A Notable Day.

Chatham, Jnue 4.—Two such demonstrations as those with which the Liberal leader was honored to-day show that in western Ontario the people are thoroughly aroused to the realization of their responsibilities in the present crisis. In the two places at which he stopped to-day, Mr. Laurier was wildly cheered by over 15,000 people, whose enthusiasm was absolutely without limit.

Accompanying Mr. Laurier was Hon. G. W. Ross, who shared the honors bestowed by his own constituents. The distinguished visitors were received with cheers by the waiting crowd, and soon the bands were making merry music in the procession that was formed. At the McKellar House Mr. Laurier had the opportunity of meeting many of the prominent Liberals of the Middlesexes. East Lambton and West Elgin. Mr. Geo. E. Casey, who has so long and so well represented West Elgin in Parliament, went over from his home with several hundred of his constituents, to meet his leader and to show him the sort of men who fight for Liberal principles in Elgin. From Petrolea came Mr. John Fraser and a host of the electors who will mark their ballots for him in East Lambton on June 23. Mr. Archibald Campbell was there, but he did not have the men of Kent with him. They remained at home to prepare a welcome for the leader, and such a riot of enthusiasm Chatham has never seen before.

It was decided to have the meeting in the open, and immediately a wild rush of men, women and children was made for the Agricuutural grounds. The more active of the men leaped over fences and took a short cut through the fields that they might secure places near enough to the platform to enable them to hear the speakers. It was with difficulty that Mr. Laurier could make his way through the crowd to the judges' stand, the only available rostrum on the grounds. Two sweet little children were lifted up to him. Each handed him a beautiful bouquet of flowers and each received a kiss for her kindness. They were Helen Stuart, daughter of Mr Alex. Stuart, and Effie Macfarlane, daughter of Mr. G. C. Macfarlane.

PROMINENT LIBERALS.

The chairman of the meeting was Mr. John Waterworth, ex-M.P.P. Prominent among those who surrounded him were Messrs. W. S. Calvert, who is opposing Dr. Roome in West Middlesex with every prospect of success; Mr. John Fraser, who will give Mr. Moncrieff a hard tussle in East Lambton; Mr. James Peat, President of the East Lambton Liberal Association; Mr. A Shaughnessy, President of the Petrolea Liberal Association; Mr. A. P. McDougall, President of the West Middlesex Liberal Association; Messrs. Alex. Stuart, Hector Macfarlane, Geo. C. Elliott, Malcolm Campbell, W. H. Sutherland, J. M. Tait, President of the Glencoe organization; W. D. Moss, Charles Mackenzie, ex-M.P.P., Sarnia; L. H. Smith, Dr. Whitehead and Jas. Healy, Strathroy; Robert Boston, ex-M.P., Rev. Mr. Sinclair, Lobo; Malcolm McGuigan, Liberal candidate in South Middlesex; Geo. E. Casey, ex-M.P.; Hon. James Young, Arch. Campbell, ex-M.P.

Mr. Calvert was the first of the speakers to be called upon, and his effort was such as to prove him to be well able to take his part in the Parliamentary debates to which he will soon be introduced. He presented a clear, forcible and dispassionate argument in favor of the policy which he espoused, and won much applause from his hearers.

The demonstration was tremendous when the leader was presented to the crowd. It was participated in not only by the men, but by the women as well. The great gift of eloquence possessed by Mr. Laurier and the power of logical argument were employed in the discussion of the issues with good effect. His speech was punctuated with cheers from the sympathetic crowd, and at its conclusion the people sent up a mighty shout of endorsation. In his criticism of the expenditure of the Government he mentioned the fact that, despite the payment of $16,000 a year in salaries to the Minister of Justice, his deputy and the Solicitor-General, the country pays $160,000 a year for legal services, and he alluded to the Conservative reply that his law firm got $500 of that money. It was true, he said, that his firm had received $500. One day a man maned P. C. Bourke was prosecuted by a man named Fortier for having put sawdust in his stream. The man was convicted and sent to jail for 30 days. He came to his (Mr. Laurier's) firm, which found that the prosecutor was an employe of the Government, that the Government had no authority over the stream, and that therefore there was no evidence. The prosecutor took the case to the Court of Appeals and then to the Court of Review. The firm sent its bill of costs to the counsel of the prosecutor, and a few days afterwards it received its money from the Government. The Government had come to the rescue of a delinquent officer, who had been too zealous, and who had acted without authority. This was the way his name appeared in the public accounts as having received $500.

Mr. Ross was never more effective than to-day, when he spoke upon public questions to men who have been for many years marking their ballots for him. He was given a particularly cordial reception, and he reciprocated the favor of the crowd by making an excellent speech.

CHATHAM'S WELCOME.

A great throng of people awaited the arrival of the train at this place, and a tremendous ovation was accorded the leader. Previous to his arrival an Erie & Huron train of sixteen cars full of people had come down from Sarnia and intermediate points. Large delegations were in the city from North and South Essex, Kent, Bothwell, Lambton and West Elgin. On the arrival of the Sarnia host a procession was formed, and the people marched over to the Grand Trunk depot to meet the leader. In the procession that escorted him to the Garner House were five bands—the Weaver Cornet Band (colored), Excelsior Brass Band, Chatham City Band, 27th Battalion Band of Sarnia and the Ridgetown Band. Thousands of people lined the streets and the cheering was continuous from the station to the hotel. The progress of the procession was several times interrupted by the impatience of the people to greet Mr. Laurier. They surrounded his carriage and as many as possible shook hands with him and bade him welcome. The streets were profusely decorated with bunting and flags, appropriate mottoes and portraits of Laurier and Mowat. When Mr. Laurier had been shown to his room in the hotel the popular demand for a sight of him and a word from him obliged him to make a short speech from the balcony. Two meetings had been arranged, one for the French electors and one for the English electors.

THE FRENCH MEETING.

The meeting of the French electors was held in the Opera House, an auditorium capable of accommodating about 1000 people. The building was packed with the compatriots of the Liberal leader, to whom they gave a reception the warmth of which could not have been exceeded.

The Chairman was Mr. Hugh Malcolmson, the well known manufacturer of Chatham. In his opening address he explained that Mr. Laurier was engaged at the Opera House and that he would make his bow before this "immense sea of faces" about 9 o'clock.

The first of the speakers was Mr. Casey, and he never appeared to better advantage than while addressing that great multitude. His remarks were brief, but they were full of good points which brought salvos of applause from his hearers.

"Fighting James Lister," as Chairman Malcolmson called him, was given a hearty reception. Mr. Lister spoke with his usual vigor, and he introduced a spice of humor that raised more than one good laugh. He began by paying a tribute to his leader, who, he said, was the most distinguished man and the purest politician in Canada to-day. Sir Charles Tupper he described as the gamester of all gamesters, the man who was spoken of in 1891 by The Mail as the most corrupt of all public men. He had, Mr. Lister said, come back to Canada after ten years of expatriation. He had stabbed an old and faithful servant of the people that he might rise to power upon the corpse. He had not been appealing to the people upon his public record, but he had been endeavoring to bribe provinces from one end of the country to the other with public money. He had invoked the cry of race and religion, and posterity would curse him for it. He was always a political fraud, and he had shown that he had not forgotten his old ways. Mr. Lister asserted that the Manitoba school question would be satisfactorily settled by Mr. Laurier. Who is this man Tupper? asked Mr. Lister. "He is the old stretcher," cried a man in the audience. "He is the great I am," shouted another. "He is the man who made Canada," said Mr. Lister, with a smile, giving an answer to his own question. Mr. Lister went on to say that Sir Charles Tupper was the man who had made Canada responsible for three hundred and eighty million dollars. The most terrible Waterloo that Sir Charles said his friends had ever heard of would overtake them on election night. It was not the Conservatives that the Liberals were fighting, it was the Tupperites.

Hon. David Mills, who occupies a high place in the estimation of the people of Western Ontario, was loudly cheered when he was presented. He regarded the assembling of such a great multitude of people as a spontaneous expression of the political feelings of the people of Kent, Lambton and Bothwell. He observed that two or three thousand of those present were from the constituency that he represented. He regarded their presence as an indication of their sympathy with the principles represented by the leader of the Liberal party. He did not believe the Conservative party was in sympathy with the conduct and policy of the present Administration. That Administration was outside of both political parties. He was not going to say anything harsh of this Administration. It was an old maxim to say nothing ill of the dead. It was true the Administration was not yet interred, but it would be interred on June 23.

Hon. James Young was cordially received, and was appreciatively listened to as he discussed the political issues with characteristic ability.

Mr. Arch. Campbell, the future member for Kent, was given a rousing reception by those who have supported him in the past, as well as those who will mark their ballots for him on election day. Mr. Campbell eulogized his leader, and called upon the people to support him as being one of the most distinguished and able Canadians of his time. Mr. Campbell pointed out the advantage that would result to Canadian farmers from a fair reciprocity treaty with the United States.

THE LEADER'S SPEECH.

Cheer after cheer and a tiger greeted the announcement by the chairman that the leader would now address the audience. Mr. Laurier surveyed the immense crowd, and then said that this was the greatest, the largest and the most enthusiastic reception which it ever was his privilege to witness in any part of Canada, and as he proceeded from day to day he was bound to say that each demonstraton excelled the one of the previous day. Mr. Laurier instituted a comparison between his receptions in Western Ontario and the Bohmer Park demonstration which was in favor of the west. He said that when he went back to his own Province of Quebec it would be his privilege and pleasure and duty to say to his co-religionists and compatriots that they had been in Ontario far kinder to him than they could ever suspect. (Cheers.) The Province of Quebec on the 23rd of June would give to the Liberal party a larger majority than it had ever given to any p rty w hin the history of the country. It was very true that the Government and their supporters were getting desperate. There were prejudices in the Province of Quebec, as there were prejudices in all parts of Canada, and an appeal was being made in Quebec in the name of religion (thus prostituting religion) to vote against the Liberal party, but he was glad to be able to tell his hearers that all these appeals would be unavailing and that the Liberal party would carry victory before it. (Cheers.) The Liberal party would stand by the rights of the people, by the constitutional rights which had been acquired for them by their ancestors in times gone by. When Mr. Laurier declared that just as sure as the sun would rise to-morrow there would be a change in the Administration at Ottawa a tremendous cheer went up. A storm of hisses greeted the reading of Sir Charles Tupper's base appeal to race and creed when he asked the people of Winnipeg if they were going to vote for a French-Canadian Roman Catholic Premier.

There was much cheering when he concluded.

EAST LAMBTON'S TURNOUT.

Alvinston, June 4.—Among the thousands who attended the great Liberal demonstration at Glencoe to-day were 500 East Lambton electors, who went by special train from here, headed by the Alvinston band. Mr. Laurier's meetings in the west are being attended by hundreds of Lambton electors, who are determined on June 23 to place this county again in its former proud position as a banner Liberal stronghold. Messrs. Lister and Fraser will represent Lambton during the next five years.

"I do not believe it is possible or desirable to have free trade in Canada as it is in England. In Mackenzie's time we had a tariff of 17½ per cent. Since 1878 the debt of the Dominion has been increased $113,000,000 and the yearly expenditure is now $15,000,000 more than it was then. The requirements of the Government are now so great that in framing a tariff for revenue it must of necessity mean a substantial increase over the general tariff in Mackenzie's time."—MR. GEORGE H. BERTRAM, Toronto.

SECOND DAY AT HAMILTON.

Lord Nelson, Thorn Bush, Thorncliffe, Maurice and Rosamar Win.

Fine weather again favored the Hamilton Jockey Club for the second day of its meeting, and the attendance in consequence was good, though the majority of the spectators were Torontonians. The fields were large with one exception, and no less than four of the five races were productive of close and exciting finishes. It was a bad day for the public, as three of the favorites were bowled over, and the two, Lord Nelson and Maurice, that did win were at prohibitive odds. The track, though dry, was only fair, but a shade faster than the opening day. Starter Fitzpatrick's work with the flag was most satisfactory.

With Lord Nelson at a prohibitive price in the first race, many played Bounding Cecil both ways and Joco to show. Lord Nelson and Bounding Cecil raced together into the stretch, where the favorite drew away and won easily by a length and a half from Bounding Cecil, who was fifteen lengths in front of Prize.

Again the Boyle stable finished the favorite for the second race, in Looram, who was looked upon as a good thing. The best price laid against him was even money, and he finally went to the post a 7 to 10 favorite. A strong tip was out on Thorn Bush, and as Overton was posted as her rider the Schoenfeld stable representative was well suported. Ras Burgess thought his filly Zeal had an excellent chance, and she, too, had many friends, while of the others Gwen received the most support, and that was principally to "show." After some delay the ten were sent away to a good start. Looram quickly outran his horses and showed the way into the stretch, where he died away to nothing, allowing Thorn Bush and Zeal, who came fast at the finish, to fight it out. Thorn Bush securing the verdict, though many thought that Zeal had won. Disturbance finished third several lengths back.

The Cocktail Steeplechase furnished another close finish, and again saw the favorite suffer defeat. All Blue was selected to carry the talent's money, and 6 to 5 was the best price offered, while Thorncliffe was next in demand and received considerable support owing to the fact that he had the benefit of Jimmy Mara's skilful hands to guide him and to whom is due the credit of Thorncliffe's victory. All Blue and Ebbs went off together, and through their riders jostling each other the greater part of the journey lost considerable ground. Mara waited with Thorncliffe until the stretch was reached, when he set sail for All Blue, who had by this time shaken off Ebbs. Thorncliffe caught the favorite at the hurdle in the stretch, and in an exciting finish beat him a neck.

The Haddo Purse dwindled down to a two-horse race, Maurice and W. B. being the only starters. Maurice was such a favorite that little business was done on the race. The pair ran like a team the entire distance, Maurice winning cleverly by a head.

WHAT IS LOST ON THE BANANA IS MADE UP ON THE PEANUT.

A good business man looks close to his profit and loss account, and there is no use trying to avoid the fact that there is in every commercial enterprise a depreciation in value of their wares.

To reduce this shortage to a minimum the shrewd Merchant will see to it that the Bananas are closed out 'ere they become unsalable. June may be considered the last month the Clothiers have in which to close out Summer Goods. No energy will be spared to accomplish our ends.

WAGES AND WORKINGMEN.

On Wednesday reference was made in these columns to the strike of teamsters against the absurd wages of $2 a day for man and team on the local Trent Valley canal works, and it was pointed out how that condition of affairs conflicted with the claim of the Government: and their friends that the Government should be supported on the grounds of its pushing the work on the Trent Valley Canal, and thus furnishing local men with the employmen the N. P. promised to provide for them regularly and at high wages. While the Government are not directly to blame for the starvation wages of $2 a day for a man and team at unconscionably hard work—a high pressure rate at low pressure wages—yet the Government should disavow its claim to the votes of the electors on the ground that the canal construction would furnish local employment at good wages. At his nomination Mr. Kendry, with a boldness and effrontery which lead to the impression that Conservative politicians of a certain class think and believe that public works carried on with the money of both parties, is legitimate spoil, stated that the canal should give him a "pull" that would be a big factor in securing his election. Why should an elector be expected to sell his vote, in support of a rotten government against his conscientious convictions, for the sake of a chance of work in which he neither gives nor receives a favour?—his work is worth his wage, or in the case of the Trent Valley Canal, worth a good deal more. The Government claims that it is not to blame for the low wages paid on the Nassau-Little Lake section. Of course not. The Government is not to blame when a wrong is committed. Hon. John Haggart, the head of the Department of Railways and Canals, disclaimed all responsibility in connection with the Curran Bridge steal, in which work that was estimated to cost $160,000, actually cost $490,225. How this excess was reached was largely due to excessive wages, paid in the name of the Government, under whose direct supervision the work was done. The matter of this steal was brought up in Parliament, a commission was appointed to report on this contract, and some of the facts stated in their special report as samples of the wages paid by the Dominion Government, are given below:

$4 a day for foreman.

$6 a day for foreman for night or overtime.

$8 a day for foreman on Sunday.

$12 a day for foreman on Sunday, overtime.

$5 a day for team.

$10 a day for team on Sunday.

$2.50 a day for derrick.

$3.75 a day for derrick for over-time.

$7.50 a day for derrick for over-time on Sunday.

St. Louis puts on all the men he wishes and gets paid for them.

2,000 men on the works at one time.

Large numbers idle.

No Government time-keeper.

No regular count.

No Government foreman.

No Government supervision.

No Government record of men and materials.

No Government classification of labour.

Unskilled labour paid for as skilled labour.

Here is a sample of the way the government squanders the money of the people. It would seem by the above list that the Government were very liberal in the interests of the workingman in paying wages, —in the matter of teams more then twice what is paid on the Trent Valley Canal. But this is only on the surface. The government didn't care a fig for the workingmen—for they got only ordinary wages, the surplus over the above figures, going into the contractor's pocket, and the Government winked at the stealing. In this case the Government was responsible for high wages that did not go into the pockets of the workmen but were absolutely stolen, and now they claim that they are not responsible for the starvation wages the contractor pays on the Nassau-Little Lake section of the T. V. C.

ONE LAW FOR THE RICH, ANOTHER FOR THE POOR.

In November, 1892, Thomas McGreevy and N. K. Connolly were convicted at the Assizes in Ottawa of conspiracy to defraud the public in connection with the Quebec Harbour Works under contract from the Dominion Government, and sentenced by Mr. Justice Rose to one year's imprisonment. The judge said he made the sentence very light. At the expiration of about three months the Government released them on the plea that confinement was injuring their health. As a matter of fact they never looked better in their life, never missed a meal nor lost any weight. They missed their usual exercise in the open air, and the confinement was no doubt irksome to them. Any physician could give a certificate that confinement in goal was prejudicial to a prisoner's health, and so the Government did not want for medical certificates when they asked for them. Mr Justice Rose, in his charge to the jury, referred to those in high places who might be equally guilty with McGreevy and Connolly, and told the jury that they could only deal with the two defendants before them, no matter whether it was true or not that other persons in high places were equally guilty. The electors of Canada now form the jury to pronounce on all these things. Would a poor woman, convicted of stealing bread for starving children be liberated before expiry of her sentence?

In connection with the above it may not be unwise to call attention to Mr. Kendry's position upon the 8-hour a day system. At the meeting on Wednesday night he said he was in favour of an 8-hour system for "outside" workmen. Why not inside workmen who more greatly need shorter hours from the effects of confinement in stuffy mills and workshops? The ways of Conservative politicians and the Conservative candidate are past finding out.

MR. DENNISTOUN—we speak of him as a public character—a speaker at campaign meetings—should get a new version of his favourite banquet song, "Drill, ye Tarriers Drill." The sentiment "Work and slave for a dollar a day" might be varied to suit the case of teamsters on the T. V. C. who "work and slave," with their horses for $2 a day.

Mr. W. M. Graham is in Brantford this week, attending the annual audit of the Canadian Order of Foresters.

Mr. Abel Hendren has secured a number of contracts for cottages at Stony Lake this summer. He is now making a large addition to Vlamede Cottage, at Mount Julian, which is being enlarged to accommodate summer boarders.

Messrs. J. E. Kelly, R. Q. Desch, A. Jory, C. J. Burgis, A. Wood, William Edwards, John Waldon, George Bickell, W. H. Dunford, Robert Jory and J. W. Ridpath, of Exeter Lodge S.O.E., were in Peterborough on Sunday, attending the church parade of the Sons of England.

The Messrs. Fitzgerald, of the Trent Valley Canal works, spent Sunday in the village.

There was no service in the Baptist church on Sunday, owing to the pastor Rev. A. R. McDonald, being in Montreal, attending the Baptist convention.

Rev. J. McEwen is in the village.

Mr. J. H. Sherin was in Port Hope last week.

Mr. John Barnham, last Tuesday evening of last week, addressed a small meeting on the political questions of the day.

For a lady's or gent's bicycle at lowest possible price, before purchasing consult Mr. W. M. Graham, as he is prepared to offer you extra inducements.

The semi-annual meeting of the County Orange Lodge will be held at the Orange Hall, Lakefield, on Tuesday evening, June 9th, at 8 o'clock. There will likely be a large attendance.

The semi-annual meeting of Lakefield District L.O.L. will take place on Monday, June 15th, at 2 o'clock p.m., at Wesley Lodge, 16th con. of Smith.

The centre line of the canal is now clear on the Lakefield section. The last two houses, Mr. J. H. Davis' and Mrs. Crowe's, having been moved off during the past week. It is expected that a gang of men will be put on the work here to remove the top soil at once. A car load of iron has arrived and was placed in the blacksmith shop at once.

Court Lakefield, No. 43, C.O.F., will hold their regular meeting on Thursday evening of this week.

BENSFORT.

(From Our Own Correspondent.

Mr. Wm. Kerr, in the employ of the T. Eaton Co., Toronto, spent the 24th at home. He speaks well of the Queen City.

W. H. S. Martin's store on wheels is again on the road with a new stock of goods for the summer trade.

Mr. John Emberson sold a horse last week to the buyers in town. According to report he received a good price for it, as it was a good animal. John knows how to drive horses and feed them too.

Several of the leading firms in neighboring towns seem to recognize Bensfort as a profitable advertising medium by the signs and placards on the fences and buildings.

The thunder storm of last Monday night did quite a bit of damage in the neighbourhood. Several sheep belonging to Mr. Robert Nurse were killed, besides burning a lot of stump fence for different parties, and burning telegraph poles along the boundary. Several parties visting friends were detained by the storm —perhaps it was quite agreeable on both sides.

It is very seldom that people have the pleasure of a sleigh ride in the latter end of May. However, we had the pleasure of seeing a certain person driving around the fields one day last week, but whether he was enjoying himself or not is hard to say.

Why not have a daily mail to Bensfort? Nearly every other post office has a daily mail, and for a flourishing place like Bensfort a mail three times a week is not sufficient for the needs of the business men and the people generally. Talk about election schemes, but we would like to hear that talked about at the coming elections.

One of the leading features of the S. S. excursion next Friday will be a game of football between the Wild Cats of Lake View and the Gore's Landing team. The Wild Cats are again organized and are open for engagements. They will play any other team for fun, money or marbles. If they are as formidable as their name implies the Gore's Landing boys will have to handle themselves mighty canny, or they may be like Paddy's cow, 'come home a missin'.

Some person or persons known seem to be very liberal with their fertilizer. Would it not be more beneficial to deposit it on their own root ground or summer fallow, and not on John Fletcher's milk stand on the corner?

Sour Stomach

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. THE MILITIA ORDERS

An Important Announcement From the Capital,

RELATIVE RANK NOW ABOLISHED

Promotions for Distinguished or Useful Service Will Hereafter be Provided for by the Governor-General in Council—General News From Ottawa.

Ottawa, June 4.—(Special.)—An important batch of militia general orders was issued to-day. They provide, among other things, that:

1. The rank of medical and veterinary officers is substantive or honorary.
2. Relative rank has been abolished.
3. Medical officers heretofore ranking as surgeons will rank as substantive surgeons-major. Those heretofore ranking as assistant surgeons will rank as substantive surgeons-lieutenants.
4. Medical officers who have been granted a step of rank, without pay, will hold honorary rank as follows:

Surgeon-major—Surgeon lieutenant-colonel.

Surgeon—Surgeon-major.

Assistant surgeon, after five years' service—Surgeon-captain.

5. Veterinary officers heretofore ranking as veterinary surgeons will rank as substantive veterinary lieutenants. Those veterinary surgeons heretofore assigned the relative rank of captain will hold the honorary rank of veterinary captain.

Paragraphs 89, 90 and 91, regulations and orders for the militia, 1887, are cancelled, and the following substituted in lieu thereof:

89—Promotion for distinguished service in the field or for useful service to the country, will be specially provided for by the Governor in Council.

90—Duly qualified officers recommended to headquarters by commanding officers of units, through officers commanding districts, will be granted brevet rank as follows:

Service qualification, after ten years as major commanding field battery of artillery—Brevet rank, lieutenant-colonel.

After 15 years as major or brevet-major of cavalry, garrison artillery, engineers and infantry, ten years holding substantive rank of major—Lieutenant-colonel.

After ten years with substantive rank of captain in a unit of the active militia—Major.

After seven years' continuous service as a substantive captain in a unit of the active militia, and in possession of diploma of graduation from the Royal Military College of Canada—Major.

After five years' continuous service as a lieutenant in a unit of the active militia and in possession of diploma of graduation from the Royal Military College of Canada—Captan.

Honorary rank—Paragraphs 94 and 95, regulations and orders for the militia, 1887, are cancelled and the following substituted in lieu thereof:

94—Officers recommended to headquarters by commanding officers of units, through officers commanding districts, will be granted honorary rank as follows:

Service qualification on appointment, substantive rank paymaster; quartermaster, honorary rank, captain.

On appointment — Riding master, lieutenant.

After five years' commissioned service—Surgeon-lieutenant, veterinary-lieutenant, riding master.

After ten years' commissioned service—Paymaster quartermaster-major.

After 15 years' commissioned service—Surgeon-lieutenant, surgeon-major; veterinary-lieutenant, veterinary-major.

After 20 years' service with present substantive rank—Surgeon-major, surgeon-lieutenant-colonel.

95—The rank will be purely honorary and will not confer the right of any command other than that to which the holder may be entitled by virtue of his substantive commission: (1) The service qualification under which officers are recommended for honorary rank must be continuous. (2) Antedates will not be granted in the case of honorary rank.

Paymasters have been restored to list of regimental establishments.

Imperial cavalry drill of '96 will supersede drill of '85, hitherto in use.

The duties of inspectors of cavalry and infantry are defined under to-day's orders.

British Columbia and Halifax Artillery will each send two men to England with the Shoeburyness team.

The Baroness Macdonald of Earnscliffe leaves for Kingston to-morrow morning to be present at the anniversary service at Cataraqui Cemetery on Saturday, that being the 5th anniversary of Sir John Macdonald's death. Then she will proceed to Toronto, Winnipeg and Banff.

The funeral of Madame Taschereau, wife of Mr. Justice Taschereau, took place to the Canada Atlantic Station to-day, whence the remains were conveyed to Vaudreuil for interment.

Joseph Dupont, a young man 19 years of age, was drowned in the Ottawa River this morning through the upsetting of a canoe.

Engineer Mountain, who returned yesterday from a trip over the Parry Sound line, states that about 2000 men are at work on the construction of the railway and everything is moving satisfactorily.

Mr. Moorhouse, Superintendent of the new Dominion Creamery at Moose Jaw, reports that 4000 pounds of butter is being turned out at the creamery every week, indicating a growing interest in dairying in the Territories.

To-morrow's Cabinet meeting in Montreal will likely be attended by all the Ministers, except Messrs. Prior, Macdonald and Ferguson. The Premier will likely spend Sunday in Ottawa.

The Department of Railways and Canals to-day had on exhibition the plans of the proposed enlargement of the eastern or Iroquois division of the Galops Canal. The estimated cost of the work is a million and three-quarters.

DROPPED DEAD!

Suddenly Stricken Down by Heart Disease.

"A sad and sudden death occurred to a well-known citizen on one of the leading streets this morning."

Nearly every large city paper contains daily some such heading. The number of deaths from heart failure is very large, but it is only when they occur in some public and sensational manner that general attention is drawn to them.

Palpitation and fluttering of the heart are common complaints. With the heart itself there is nothing radically wrong. But the system is disorganized, the kidneys and liver are out of order, and the stomach is not in condition to do its work porperly. Between them all, they throw too much responsibility on the heart, and the latter is unable to stand the strain.

A box of Dr. Chase's Kidney-Liver Pills at a cost of 25 cents will regulate the system, purify the blood and make a new person of every sickly man, woman or child.

Dr. Chase's Liver-Kidney Pills may be had from any dealer or from the manufacturers, Edmanson, Bates & Co., Toronto. One pill a dose, one cent a dose.

Dr. Chase's Linseed and Turpentine is and colds. Largest bottle on the market; only 25 cents.

LOYAL TRUE BLUES.

William M. Fitzgerald of Toronto Re-elected Grand Master—Next Meeting to be Held at Bracebridge.

Cobourg, June 4.—The Grand Lodge of the Royal True Blues continued in session Wednesday night until 1 o'clock the next morning. Reports of officers and consideration of bylaws, followed by the election of officers and presentation of prize banners, took up part of the night. The Orphanage Board presented a most encouraging report, showing the total number of children rescued to be 65. The Committee on Correspondence recommended the erection of an orphanage, and the Grand Lodge referred the undertaking to the Executive Committee.

Grand officers elect: William M. Fitzgerald, Toronto, grand master; W. B. Rutledge, Buffalo, deputy grand master; Rev. J. Coburn, Toronto, grand chaplain; R. Bunting, Lindsay, grand treasurer; N. Ingram, Port Perry, grand secretary; H. A. Thompson, Belleville, grand D. of C.; lecturers, Mrs. Wakeman (Hamilton), Mrs. Hunter (Oshawa; Mrs. F. B. Rouse, Belleview, O., associate grand mistress; Mrs. T. L. Hinchliff, Montreal, associate grand chaplain; Mrs. George Burnett, Toronto, associate grand secretary; Miss Hammond, St. Catharines, associate D. of C.; tylers, J. F. McGil. (Pontypool), W. A. Ringer (Picton); George Sloan, Peteboro, grand organizer; associate G. L., Mrs. G. Sloan (Peterboro), T. R. J. Mutton (Cobourg); Mrs. J. Farley, Toronto, president orphanage; Miss S. J. Latimer, Toronto, secretary-treasurer orphanage.

Amid cheers, Grand Master Fitzgerald was installed by Past Grand Master Newman, who, in turn installed the remaining officers. The following resolution was carried, amid cheers: "That, in view of the fact that Bro. R. Newman has retired from office in this Grand Lodge against the unanimous wish of all its members, and recognizing, as we do, the service rendered by him to our society for the past 18 years of unbroken connection therewith, occupying at one time the highest office in the gift of our members, that of Grand Master; therefore, be it resolved, that this grand body make our worthy brother a life member of this society, so long as he maintains, as in the past, the principles of our society."

Immediately after dinner the Grand Lodge went into secret session.

The meeting adjourned in the afternoon, after a continuous session of three days, to meet in Bracebridge next June. The citizens and delegates parted with the desire to meet soon again in Cobourg.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinching touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalid's Hotel and Surgical Institute, of Buffalo, N.Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favourite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.

LONDON METHODIST CONFERENCE.

Rev. George Jackson of Exeter Elected President on a Second Ballot.

Stratford, June 4.—The general sessions of the annual meeting of the Methodist Church opened in the Central Church here this morning at 10 o'clock, Rev. Dr. Williams presiding. The election of a president was first taken up, and on the second ballot Rev. George Jackson of Exeter, was elected by a handsome majority. Rev. Charles Smith of London was chosen secretary on the first ballot. The report of the committee on the re-arrangement of districts recommended a division of the conference into 13 districts, instead of 15, as heretofore. The second ballot for the election of a president showed an attendance of 236 delegates.

At the afternoon session the new president, on assuming the chair, expressed thanks for his elevation. Rev. Dr. Burns, president of the Ladies' College, Hamilton, was introduced, and spoke of what Methodism had done for education, and made reference to the particular institution with which he is connected.

Vacancies in district chairmanships were filled by the election of Rev. John Holmes, Blenheim, for Chatham district, and Rev. W. G. H. McAllister, Bowmanville, for Aylmer district. A motion to the effect that the final draft of the Stationing Committee be presented on Tuesday afternoon was carried. A vote of thanks to the retiring president, Dr. Williams, was passed with enthusiasm.

This evening the educational anniversary was celebrated in the Central Church.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

HARPER'S ARTIST IN QUOD.

General Weyler, the Spanish Butcher, Trumps Up Charges Against Him.

Havana, June 3.—Gen. Fitzhugh Lee, who was a few weeks ago appointed U. S. Consul-General here to succeed Mr. Ramon O. Williams, whose resignation was tendered and accepted some time ago, arrived here early this morning on board the steamer Mascotte. Gen. Lee was accompanied by his son and his private secretary, Mr. Jones.

Thomas Dawley, an artist in the employ of Harper's Weekly of New York, was arrested at the Trocha to-day and brought a prisoner to Havana, where he was locked up at the police headquarters. Mr. Dawley is charged with having been in communication with the rebels. The insurgents have destroyed the railway bridge between the Duran and Guara stations in the province of Havana.

Health and happiness are relative conditions; at any rate, there can be little happiness without health. To give the body its full measure of strength and energy the blood should be kept pure and vigorous, by the use of Ayer's Sarsaparilla.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

AUTHENTIC, AND NOT EXAGGERATED.

In the midst of a political campaign and business uncertainty a rattling business has been done at

ROBT HALL'S RETIRING SALE.

May was a busy month; June will be busier, for we have set the liveliest pace for the "blooming" month of the year. Such buying opportunities as we will offer are only made possible from our haste to get out of business. We are anxious to make the time as short as posible, and are ruthlessly

CUTTING THE HEART OUT OF PRICES

to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sal s may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure, less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. They consist of Remnants in Dress Goods, Cotton Stuffs, Flannels, Flannelettes, Shirtings, Table Linen, White Cottons, Art Muslins, and single pairs of Lace Curtains.

Two Fine Portraits.

In the show window of Ford's Groundfloor Photograph Gallery, Charlotte street, are to be seen two fine photographic portraits, those of the late Dr. Yelland and Miss Katie White. The portraits, which are excellent likenesses, are finished in oil by Mr. Thomas Workman, the photographic work being that of Mr. Ford's. The pictures are not only capital likenesses, but in every way very creditable works of art and as the style of work is as permanent as an oil painting, they will be for years a pleasure to their possessors. These pictures give a practical illustration of the complete equipment and superior capacities of Mr. Ford's photographic studio for turning out every style of photographic work in a manner to give the greatest satisfaction to its numerous and constantly increasing patrons.

Installation of Officers, the New Lodge, "Loyal Peterborough," No. 164.

Last night in Foresters Hall, Simcoe street, the adjourned meeting of Loyal Peterborough Lodge, No. 164, Canadian Order of Oddfellows, in affiliation with the Manchester Unity of England, was held. Notwithstanding the political attractions of a public meeting, there was a large attendance of the charter petitioners. The Grand Organizer, Bro. J. Arthur McMurtry, Toronto, assisted by the D.D.G.M. Bro. W. McWatters, and the N. G. Bro. Soanes of Lily of the Valley Lodge, Lindsay, with his officers, installed the following officers for the current year:

Bro. S W English.....N G
" John Craig.....V G
" A F Lane.....P N G
" B Cunningham.....Secretary
" M A Turner.....Treasurer
" J D Dinny.....L M
" H M Moore.....R S S
" G H Comstock.....L S S
" R H Adams.....R S N G
" Geo E Dies.....L S N G
" M H Sabin.....R S V G
" J H Heal.....L S V G
" A Moore.....W
" W Creamer.....C
" A Armstrong.....I G
" A Thorndyke.....O G
" Dr W A Brown.....Medical Examiner
" A P Poumette, Q.C.....Solicitor
" W H Robertson.....Organist
" A F Lane.....Official Organizer

The following new members were proposed by the official organizer, Bro. A. F. Lane:—Thos. Bullen, W. Creamer, J. D. Denny, J. C. A. Walker, E. H. Sabin, A. Thorndyke, Jos. Stewart, T. F. Palmer, Jno. Craig, E. Roadhouse, Allan Huffman, J. H. Heal and T. E. Kendry. After the large number of new candidates had been duly received and instructed in the mysteries of Ancient Odd Fellowship, a degree lodge was opened by the D.D.G.M., Bro. McWatters, when he conferred the White, Blue, Scarlet and Golden degrees upon fourteen of the brethren, after which, on the invitation of the N. G., the brethren adjourned to a banquet given in honour of the distinguished visiting brethren at Caterer Bro. John Craig's. After the inner man had been well provided for by mine host, speeches and songs were the order. A pleasant and decidedly profitable hour or so was spent, the evening's work closing in the small wee hour of three o'clock in the morning, all being well pleased—happy to meet, sorry to part and happy to meet again. On motion the charter list stands open till the next regular meeting of the lodge, on Friday evening, the 18th inst., the official organizer, Bro. Lane, being requested to continue on the canvass for charter members. This lodge has made a phenomenal record, now having on charter petition 53 names, and expects before closing charter list to have a round hundred.

PERSONAL.

Mrs. Wm. Pym, of Haliburton, is visiting in town.

Mrs. Brignall and her daughter, Miss Irene, are spending a few days in town as the guest of Mrs. Brignall's sister, Mrs. Alex. Elliott, Park street.

Capt. R. Tivey to-day received the appointment of timber inspector for the Lakefield-Peterborough section of the Trent Valley Canal. Mr. Tivey is an experienced man, as he in former years was bridge inspector on the Midland division of the Grand Trunk Railway. No doubt he will fill the bill most satisfactorily.

Death of an Old Navy Man.

The funeral of the late Thomas Cocks, whose death was noticed in the EXAMINER, took place yesterday. The funeral, which was private, was from the residence of the brother of deceased, Mr. W. S. Cocks, 116 Aylmer street. The service was conducted by Rev. H. Symonds, rector of St. Luke's. Mr. Cocks was for many years a member of the Royal Navy, and saw service in every part of the world. He was with H. M. S. Conqueror during the Japanese war. He was for some time a resident of Peterborough, and at the time of his death, steward of Upper Canada College.

THE OLYMPIC EXCURSION.

A most Enjoyable Day on the Back Lakes.

The annual excursion of the Olympics took place yesterday, and in consequence the business section of the town was almost entirely deserted, as this is the outing of the year, which it is incumbent on every business man to take advantage of, provided he is lucky enough to get an invitation.

The trip this year had Burleigh Falls as an objective point and included a trip to Buckhorn also.

At nine o'clock in the morning the excursionists to the number of about fifty, accompanied by the orchestra, boarded the the Lakefield train with Conductor Fred Haskill in charge and on arriving at the thriving little village a rush was made for the Mary Ellen, when, after greetings had had been exchanged with

GENIAL CAPT. SCOLLARD

and jolly Ed. Young, his mate, a most beautiful sail was enjoyed through the islands to Burleigh.

The cottages are all looking well after the winter and already the painters and carpenters are busy on some of them making preparations for their summer occupancy. Stony Lake is at its best at this season of the year, as the grass and foliage on the islands is as green and bright as could be wished.

Arriving at Burleigh mine host John Holmes was on the verandah of his hotel to receive his numerous guests and as it was just twelve o'clock these provided with tickets for the first table were able to fall to without delay, and glad enough were they to do it as the keen ozone of the lakes had created an appetite of the sharpest variety.

The menu was one of the choicest which the Olympics have ever had presented to them on their trip and was as appended:

The Menu.

SOUP.
Turtle.
FISH.
White Fish. Trout.
BOILED.
Tongue. Ham.
ROASTS.
Sirloin of Beef and Brown Gravy.
Stuffed Fillet of Veal. Spring Lamb and Mint Sauce.
Turkey with Cranberry Sauce.
RELISHES.
Lettuce Salad. Mixed Pickles. Radishes.
Vegetables. Potatoes. Tomatoes.
Green Peas. Sweet Corn. Beans.
DESSERT.
Trifle with Whipped Cream.
Cranberry Tart. Lemon Pie.
Rhubarb Pie. Apple Pie.
Crackers and Cheese.
Tea. Coffee. Milk.
Oranges. Apples. Bananas.

For desert of course every one called for Mrs. Holme's far famed lemon pie, and those who were introduced to it for the first time will swear by it hereafter.

Immediately after dinner the Mary Ellen took those so inclined for a trip up around Buckhorn, whilst a number remained at the Falls to enjoy on Mr. Holme's verandahs the cool air of the lake.

A CAPITAL SUPPER

was served at six o'clock by which time the Mary Ellen had returned from Buckhorn, and after the appetites of the excursionists had been satisfied the little steamer started on its return trip, making Lakefield in time to allow a special train to whirl the passengers home by ten o'clock.

The day was even more enjoyably spent than was that upon which the trip took place last year and a debt of gratitude is certainly owing Mr. Will Lech for the trouble and responsibility which he assumed in bringing the affair to so successful an issue.

Messrs. Horkins and Terrill rode down to town from Burleigh in an hour and twenty-eight minutes, leaving there immediately after supper.

SEPARATE SCHOOL BOARD.

Regular Monthly Meeting—Increase of Salaries.

The regular monthly meeting of the Separate School Board was held last evening. There were present Messrs. Quinlan, chairman, Doris, Gosselin, Hickey and McGrath.

The Rev. Archdeacon Casey, local superintendent of Separate schools, was also in attendance.

The minutes of the last regular meeting were read and confirmed.

On motion of Mr. Doris, seconded by Mr. Hickey, the report was adopted.

The caretaker of the Central school was voted a grant of $3.50 for the purpose of providing supplies for cleaning school during the holidays. On motion of Mr. McGrath, seconded by Mr. Hickey, the motion was carried.

Moved by Mr. Gosselin, seconded by Mr. McGrath, that the wood at Lake street school be placed in the shed at a cost of not more than $2.—Carried.

The report of the committee appointed to consider the question of salaries reported, recommending the salary of Mr. Keogh be $550. That the salary of Miss Deanard be $285.

The Board then adjourned.

Mr. Goodwin explained the system to the members, which was then referred to the Committee on Supplies.

The teachers of Lake street school and the Central school asked for supplies.

Received and referred to the Committee on Supplies.

Handsome Features.

Sometimes unsightly blotches, pimples or sallow opaque skin, destroys the attractiveness of handsome features. In all such cases Scott's Emulsion will build up the skin and impart freshness and beauty.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

Slashing Saturday Bargains will be in full swing in every department of Gough Bros. mammoth stores. Their mill stones of reduction are grinding prices to finest powder for the day.

GRAND MASTER AND CANDIDATE NEWMAN.

GRAND RECEPTION TO HON. N. CLARKE WALLACE.

A Rousing Rally at the Opera House—Addresses by Rev. Wm. Grant, J. E. Delamere and Mr. Robert C. Newman—Hon. N. Clarke Wallace Makes a Vigourous Speech—Mr. Newman Says He is in the Field to Stay.

Last night's big meeting in the interests of Mr. Robert C. Newman, the Independent candidate, took on additional interest from the fact that Hon. Clarke Wallace, M. W. Grand Master of the Orange Order of British North America, was to address the meeting. Mr. Wallace arrived at the C. P. R. station on the local and was met and enthusiastically welcomed by a large gathering of Orangemen from town and country. Mr. Joseph Jones read the following address:

To the Hon. N. Clarke Wallace, Most Worshipful Grand Master and Sovereign of the Supreme Grand Lodge of the L. O. Association of British North America:

DEAR SIR AND BRO.—We, the Orangemen of the Town and County of Peterborough, desire to extend to you a most cordial and fraternal welcome on this, your first, visit to Peterborough. We would most heartily congratulate you upon the honour of unopposed election as Grand Master for the eighth term. This we regard as a practical tribute to the eminent services you have rendered our noble association since first you became a member thereof, but especially in the various official capacities in which you have acted. We further regard it as a special endorsation of the course you have taken in respect to a burning public question, in which you have shown a lofty practical disregard of personal and political considerations. You took your noble and patriotic stand on principle, and in so doing carried out the principles of our order, which are to be regarded as the bulwark of civil and religious liberty, the foundation stone of true national integrity, national enlightenment and national progress.

We congratulate yourself, we congratulate our order, and the country at large upon the noble stand you took in reference to the attempt to coerce a sister province, a stand by which you sacrificed the honours and emoluments of office, but gained far more in the honours which all true men will pay to a high official who stands true to his great responsibilities, who places mighty principles before petty political expediency and who took a stand that will render him an example of distinguished loyalty and pure patriotism to the youth and manhood of this country and embalm his name in our history long after the names of truckling partisans that betrayed their principles for personal or party gain, have passed into the oblivion their treachery deserves.

We congratulate you again on the eminent services you have rendered our Association, and through it our country, and give you the assurance of our sympathy with you, and our support in the stand you have taken, and trust that you may long be spared to fight as manfully as you have done in the past the battle of right, and to be a living example of how a true and loyal Orangeman has done his duty at a time of grave crisis in the history of our country and to exemplify the undying nobility of the principles of Orangeism as a factor in preserving, to a dependency of the great British Empire, the civil and religious liberties it won at the price of the blood of like noble men.

Again permit us to extend a most cordial and loyal welcome to to the good town and county of Peterborough.

Signed on beaalf of the Orangemen of Peterborough.

Mr. Wallace made a fitting reply in recognition of the honour of such a warmly worded address and his warm welcome.

A procession was then formed and headed by the Fire Brigade Band, the Grand Master and the reception committee occupying seats in carriages. Up the line of march the walks were lined with spectators who often greeted the Grand Master with hearty cheers which rose to a roar as the procession merged with the crowd that surrounded the Opera House entrance, and when the party entered the Opera House and advanced upon the platform the audience rose and cheered the Grand Master to the echo. The audience was divided in composition, though there was a great rally of Orange stalwarts.

The Opera House was resplendent with the same decorations that did duty for the Conservative rally Wednesday night, but the many flags that flapped lazily to and fro in the sultry air looked down on a far different spirit than that which animated the audience of Wednesday night. The mottoes, however, were not all in evidence, the legendray tribute to Sir Charles Tupper had been removed and other non-committal mottoes suffered to remain. The opera house was well filled, standing room being at a premium, and it is said many were turned away. Upon the stage were seated the prominent supporters of Mr. Newman, and anxious auditors crowded the wings.

Mr. J. A. Davidson, Smith, occupied the chair.

Rev. Mr. Grant was the first speaker. He referred to the present condition of the country, and the necessity of wise action, in the interests of the future of the country, and the necessity of true men. His tribute to the noble stand taken by Mr. Clarke Wallace was received with hearty cheers.

Mr. J. H. Delamere, Past Grand Master of the Orange Order, and the Independent candidate for North Victoria, was the next speaker. Referring to his candidature, he said he had been in the field a year against Mr. Sam Hughes—not against his Conservative principles, if he had them yet, but when Conservatives departed from principle and honest government he certainly could no longer act with that party, as he had done in the past. The speaker closed with a hope for Mr. Newman's election, which sentiment was received with enthusiastic applause.

Mr. Newman, the independent candidate, was heartily received. He regretted that no representatives of either Mr. Hall or Mr. Kendry were present. The speaker indignantly denounced the rumour that he would retire before polling day. He repelled the sneer that he was only a mechanic. He also declared that he was not an enemy to protection, but while we built up industries we must also protect our mechanics and workingmen against importation of foreign labour. He would support any measure that would supply the least particle of protection in the encouragement of industries. The speaker declared that the only true issue at this election was remedial legislation. Any variation of trade or policy could be remedied, but the passage of the Remedial Bill would mean the everlasting destruction of the autonomy of Manitoba.

A voice—What about the canal?

Mr. Newman, continuing, said that no matter what government was in power the canal would be built, but what they needed was a representative that would see that foreigners and Italians were not brought in to push out Canadian workmen. (Tremendous cheers.) As to the Remedial Bill, the speaker said the party which was now clamouring for Separate schools were stumping the country at recent provincial elections in a crusade against Separate schools. This inconsistency was vigorously denounced. Referring to the taunt against Laurier, that he was a Frenchman and a Catholic, the speaker said that Mr. Laurier had taken his political life in his own hands by repudiating the dictation of the clergy, something that no Protestant in the House had the courage to do. But he did not intend to go to Parliament to support Mr. Laurier or any other leader. He would act independently. Sir John Thompson and Sir John Macdonald were quoted to show that the Federal Parliament had no right to interfere with provincial legislation in matters theological. If the Government was correct then, the present Government was wrong in the matter of the Remedial Bill, for their policy was the re-establishment of Separate schools in Manitoba, which that province had by law abolished. The speaker said his candidature was a protest against any ecclesiastical authority usurping the functions of popular government. "Hands Off Manitoba!" was his platform. Mr. Newman concluded his address by appealing to the electorate to do their duty and he would be the independent representative for West Peterborough. (Cheers.)

HON. CLARKE WALLACE.

When Hon. N. Clarke Wallace was introduced he was greeted with applause, which increased in volume when a grand daughter of Mr. J. H. Cobb stepped forward and presented him with a beautiful boquet of flowers. The hon. gentleman's cleverness at repartee was evidenced in the first few words he uttered, for as he stepped to the front of the platform a voice from the audience inquired "Why don't you comb your hair?"

"I'll comb somebody else's before I'm through," came the answer, amidst a roar of laughter.

Mr. Wallace then went on to state that in his trip to Peterborough he felt, on looking out over the fertile country, that, notwithstanding the present depression, Canadians should be proud of their heritage.

The speaker then went into the Remedial Bill question and occupied over an

HOUR IN ITS DISCUSSION.

He opened by arraigning the Conservative party for endeavouring to thrust upon Manitoba, against the will of the people, a system of Separate Schools which had nothing whatever to recommend it. It had never been known to educate the people whom it had undertaken to do.

The speaker then cited Italy as a country in which the Roman Catholic clergy had undertaken to educate the people and as an evidence of their failure in this respect stated that only seven per cent. of the inhabitants could read or write. In Spain it was even worse, he stated, for there only five per cent. could read or write, thus showing 95 per cent. of the entire population to be uneducated. The clergy, said he, utterly and ignomoniously fail when they undertake duties outside those required of them in their calling as purely religious instructors. Take Germany and Austria and every other country, said he, in which they have tried it and you will see that they always fail and they always will fail.

Come across the Atlantic, continued the speaker, and what do we see? Glance at the Commissioner's report of the condition of the people of Quebec. He deplores the

LAMENTABLE STATE

of their ignorance. Across the border, in the United States, there is not one separate school.

A voice—"How about England?"

In England, answered Mr. Wallace, the system has been largely abolished, and in Ireland the national school system is entirely unsectarian, and wonderful results are being accomplished. It is not a part of the duty of any state to teach religious doctrines. There are other agencies for this purpose—the Sunday school, the church and the home.

In Mexico and Central America the state suddenly awoke to the fact that their school system under the direction of the clergy had been a mistake, and new these countries were going forward in leaps and bounds in educational as well as other matters. And yet, continued the speaker, we were asked in Parliament to thrust that antiquated system, which has been abolished by even half civilised nations, down the throats of the Manitoba people. Manitoba is an offshot of our own province and how can we tell such people that they do not

KNOW THEIR OWN BUSINESS

and that we will have to legislate for them.

As other reasons against the establishment of Separate Schools system, Mr. Wallace dwelt on the greater expense and the fact that if two schools were established in a small settlement both would be inferior, whereas one good one could otherwise be conducted. It would mean, too, he said, dividing the people into two hostile camps instead of endeavouring to have them grow up united.

No country, continued Mr. Wallace, became great where the sentiments of loyalty were not instilled in the public schools and loyalty is not taught in the Separate Schools. The scholars have a different history and cannot learn of the glorious triumph of old England. These are only taught under a public school system.

The clergy say that the conscience of the Roman Catholic child requires the Separate school system, but the public school system in Manitoba does not interfere with the freedom of any child. The Privy Council has already declared that the system is

STRICTLY NON SECTARIAN.

The clergy say if they are not permitted to teach the doctrines of their church in the schools it will interfere with the consciences of the children, but how is it in New Brunswick, Nova Scotia, Prince Edward Island and British Columbia? Are not, queried he, the consciences of the children as tender there as in Manitoba? Yet in those provinces they had no Separate Schools.

This cannot therefore be the reason for the stand being made in connection with Manitoba.

The clergy knew well that if the system obtained a foothold in Manitoba that when the new provinces were formed in the great Northwest, the same privileges could not in reason be refused them there. This then was the reason.

Hon. Mr. Foster in travelling through the country, said the speaker, states that that there was a compact and a bargain, and that we would be unworthy of the name of British subjects if we failed to ratify the terms of an agreement.

"I deny that bargain," emphatically declared Mr. Wallace.

THEY CANNOT PROVE IT,

show us a document or name the parties who were concerned in it or show us in any manner that there was ever a compact to establish Separate Schools in Manitoba?"

In all of the three Bills of Rights drawn up by the people of Manitoba there is not a line about it. It is true that it was mentioned in a fourth Bill, but when evidence was produced to show that this bill was a forgery it was withdrawn and was never considered. In the years following when Manitoba passed the necessary legislation on all subjects, including education, the Bill touched the public school system and no other, but within two days of the dissolution along comes Archbishop Tache and in its dying hours, after half the members had gone home, he got the government of the day to insert a clause effecting Separate Schools. This, declared Mr. Wallace, was not binding and in repudiating it the Legislature of Manitoba was acting perfectly within its rights.

THE SPEAKER DENIED

that the constitution required what the Roman Catholics were demanding and affirmed that the decision of the Privy Council showed quite the contrary. The Privy Council had stated, he alleged, that not only were the Separate Schools not required but were not desirable. Sir Charles Hibbert Tupper had said the Government was not bound but was free as air in the matter. Hon. Mr. Dickie had, as a lawyer, stated that it was in the power of the Government to act or not to act as it saw fit. There was no obligation.

The best way out of the matter, Mr. Wallace declared, was to let the Province manage its own affairs. He had said to the members from Quebec that their time would be much better occupied in improving the condition of educational matters in their own Province, instead of trying to thrust an obnoxious system on Manitoba.

The question, he stated, was often asked how could the Government refuse to the minority in Manitoba what they granted the minority in Quebec. He explained that there was no similarity whatever between the two situations. The schools in Manitoba had been declared by the Privy Council to be

ENTIRELY NON-SECTARIAN,

while in Quebec the catechism was taught in the schools of the Catholic majority, which were not, in reality, the public schools, as the public schools were non-sectarian and could be attended by scholars of any creed whatever, whilst a Protestant could not attend a Separate School.

Mr. Wallace denounced the action of the Bishops in framing a bill for Parliament to pass and asked if parliamentary legislation was not becoming a farce when the hierarchy could draw up a bill and order it passed on pain of withdrawing the privileges of the church from every Catholic who voted against it. If such tactics could prevail he thought the country was going to a useless expense in holding elections, as the government might as well be turned over to the Bishops at once.

In conclusion he warned the electors that once Canada legislated on this question, and the bill was passed, it could never be withdrawn, and each of its 111 clauses would stand forever, securing to the Roman Catholics the privileges which they sought. A provision was, however, made in the bill that these privileges could be extended at any time by Act of Parliament. He asked the votes of the electors for Mr. Newman on the ground that Mr. Kendry was openly in favour of the passage of the Bill, and Mr. Hall was non-committal sufficiently pronounced against it.

The meeting closed with cheers for the Queen, Mr. Wallace and Mr. Newman.

A Mouthful of Pearls.

The teeth, perhaps more than any other feature, enhance or destroy that intangible, because complex, thing we call beauty. What more repellant than ill-kept teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficiently does it render the breath sweet and fragrant. Ivorine is simply incomparable as a toilet requisite, which accounts for its recommendation and use by leading dentists.

A Harvest Time for Shoppers.

There certainly does exist at the present season a strong temptation for ladies to make heavy purchases of dry goods and millinery. The inducements that we offered in so many lines are almost beyond the will-power of the most prudent to resist. In much that is offered the advertised bargains are real barrains—so that it is small wonder that economical women leave their homes and remain out shopping until the shops are closed, returning tired, but triumphant. The Misses Cahill & Hoolihan's dissolution sale promises to be an additional opportunity for buying millinery goods at marked-down prices. This firm have arranged to wind up their present partnership about the first week in July and insist on making a general clearance of their stock in order to convert it into cash for the purpose of effecting an easy settlement of their affairs. Of course, no sale of this kind can be a success without a determination to stand a sacrifice, and to accomplish their object the Misses Cahill & Hoolihan have made up their minds that the whole stock must go—lose or no loss.

A CORRECTION.

To the Editor of the Examiner;

DEAR SIR,—With the permission of a small space in your paper I would like to direct the attention of the Review to the fact that the Prof. Burwash who favours the Government's policy on the Manitoba School Question is not the Rev. Chancellor Burwash, as stated by the Review in Tuesday night's issue.

Professor John Burwash is a strong Conservative, and is only one of many Professors in the University, in fact his political leanings are so pronounced that he was the only clergyman who was on the platform at the peaceful (?) Coatsworth meeting in the Auditorium, Toronto, a little over a week ago.

On the other hand, Rev. Chancellor Burwash, who is the head of Victoria University, and a man occupying a prominent position, not only in Methodist circles, but among educationalists, is against the Government's policy of coercion, and his position is already outlined in a letter to the Globe, in which he contradicted the statement that he was a supporter of the Government on the School Question. The Chancellor believes in allowing Manitoba to settle the question.

The Review should not deceive its readers.

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? But there is a cause. It is to be found by the intelligent physician in some derangement of the complicated and delicate feminine organs of generation. The woman who half understands herself, feels that she cannot always be complaining; she cannot always have the doctor in the house. The young girl suffers, bodily and mentally, in silence. The trouble usually comes so gradually it is attributed to some outside cause. There is undue weariness, unexpected pain, unreasonable tears and fits of temper. All these symptoms are simply protests of the silent, long-suffering nerves. The trouble shows in dark circles below the eyes, a downward curve of the mouth, a sallow, brownish-yellow neck.

Unregarded, the trouble grows. A few years of tortured invalidism, probably insanity, before merciful death comes. Dr. Pierce's Favorite Prescription is the fruit of years of study. It is the product of an investigating mind united with a generous nature. When an intelligent person gives years of study to a subject there must be some good result. The "Favorite Prescription" is a compound of extracts of herbs that makes a strengthening, soothing medicine. It acts directly upon the distinctly feminine organs. It stops drains from lining membranes by healing diseased parts, thereby curing also the inflammation that is always present.

"I was in a critical condition. Often I was in despair. I experienced a great improvement by taking one bottle of Dr. Pierce's Favorite Prescription. I have taken six bottles, and I am sure that it will not only cure ulceration but all diseases of females." Yours truly,

(Mrs.) R. T. Rudd

BROWN DIDN'T SAIL.

An Ottawa Merchant Arrested in New York, But the Authorities Would Have Nothing to Do With the Case.

New York, June 3.—Michael Brown has conducted a retail store in Ottawa, Canada, during the last four years. He purchased, some time ago, a bill of goods amounting to $920 from Seybold & Co., of Ottawa, on 90-days credit. Subsequently he sold a portion of these goods at retail and the remainder in bulk to a man named Barrish. Brown came to this city to-day, and was to have left for Europe on the White Star Line steamer Majestic, but was arrested at the pier on complaint of an employe of Seybold & Co., who is said to have followed him from Canada.

Brown was taken before Magistrate Flammer in the Centre-street Court, who refused to hold him, as no official information regarding the case had been received. Then Brown was taken before U.S. Commissioner Shields, who refused to have anything to do with the case, for the reason that it had not been brought before him as an extradition case in the proper official manner.

The British Consul was notified, but in the absence of any official notice from Canada he refused to appear against Brown. When Central Office Detectives Madden and Netherside were informed of this, they took Brown, still a prisoner, away from the postoffice building. The charge against Brown is larceny and the man who preferred the charge showed what purported to be a warrant issued by a Canadian Police Magistrate. Brown says that the 90 days' credit upon which he had bought the goods has not expired and that his notes will be paid when they fall due, as he was simply going to England on a business trip.

Where the detectives proposed to take Brown from the postoffice building they could not say, and what right they had to hold him after both the state and United States authorities had refused to entertain a complaint against him is a matter of conjecture.

Nervous Prostration

Is a deplorable condition of body, to which the mind in some degree responds; the sufferer becomes a victim to a legion of disagreeable sensations, arising from the impairment or exhaustion of vital or nerve force. Sleeplessness, too, comes to rob the sufferer of nature's sweetest solace and restorer and a disordered digestive function contributes its quota to the already full cup of misery. Cure is possible in one way only—the nervous system must be strengthened; the digestive and assimilative function must be restored.

Maltine with Coca Wine, more than any other preparation known to medical science, combines the two essentials required in these cases. Maltine with Coca Wine posses tonic properties that are directed in a very special way to the nerve centres, giving them tone, vigor and the staying power most needed, while just as efficacious does it aid and strengthen all the processes of digestion. Thus we have the production of all the elements of adequate nutrition, which, inevitably, is certain to give health, strength and vigor. Maltine with Coca Wine is sold by all druggists.

Farrar and Lionel Phillips, the four leaders of the Johannesburg Reform Committee, whose sentence to death was commuted to 15 years' imprisonment, will be released from custody to-morrow.

Wants to Catch the Big One.

A despatch to The Times from Cape Town says that President Kruger, replying to the thanks of the released reformers, made this characteristic statement: "If my little dogs are naughty, I must whip them; but I am always sorry to do so. The next time I must get hold of a big dog. My little dogs bark, but a big one bites."

This reference to Cecil Rhodes and the reformers shows accurately, The Times correspondent says, the feeling of the Boers on the subject.

DINED BY BRITAIN.

The Czar and Czarina Guests of the British Ambassador at Moscow.

Moscow, June 4.—A dinner was given to-night by Sir Nicholas O'Connor, the British Ambassador, in connection with the coronation festivities. The guests of honor were the Czar and Czarina, who, upon arriving at the Embassy, were welcomed with the Russian National Hymn, played by a military band. The Czarina was taken into the banqueting room by the Duke of Connaught, the special representatie of his mother, Queen Victoria, while the Duchess of Connaught was escorted by the Czar. Fifty covers were laid.

KILLED 200 BANDITS.

French Troops, Protecting Norwegian Missionaries in Madagascar, Have to Fight for Their Lives.

Paris, June 4.—An official despatch from Antananarivo, Island of Madagascar, dated Ma 30, says that 1500 bandits have burned Antrirabe. For three days the bandits blockaded a house in which a detachment of French troops was protecting Norwegian missionaries. The French Resident, with a party of Hovas, eventually raised the blockade, after sharp fighting, during which 200 bandits were killed.

TO COURTMARTIAL THE GENERAL.

Baratieri Will Stand His Trial at Asmara To-Day—He Did Not Retreat.

Massowah, June 4.—The trial of General Baratieri, late commander-in-chief of the Italian forces in Erythrea, who is charged with being responsible for the disaster that befell the Italian army at Adowa, will begin at Asmara to-morrow. Six generals will compose the court. Much interest is taken in the trial. The friends of Gen. Baratieri claim that if political considerations are left out of the proceedings he will have no difficulty in proving that his action in attacking the Abyssinians was justified by the circumstances, there being no more food for the troops, nor possibility of providing for them, while to retreat would have been morally disadvantageous to the soldiers and would have given the Abyssinians an opportunity to attack separately the Italian columns. They also deny that he retreated precipitately from the battle field.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

A RENEGADE APACHE KILLED.

The Terror to the Inhabitants of New Mexico Has Been Slain.

Denver, Col., June 3.—Gen. Wheaton has been informed that Massia, the renegade Apache chief, has been slain in Southern Arizona by Indian scouts. Massia killed three scouts before he gave up the ghost. The passing away of Massia will be heard with delight by all of the inhabitants of Southern Arizona and New Mexico, for he was a red-handed murderer, treacherous and powerful, with the disorderly elemen of San Carlos redskins. He was one of Geronimo's braves, and succeeded to that chief's authority among the renegades. Massia's specialty was attacking remote ranches, slaughtering the white men and women and driving cattle over the Mexican bordes.

THE CHIEF ENGINEER.

The "Empress of India's" Chief Engineer Tells an Interesting Story.

Mr. Francis Somerville, one of the best known men in the steamboat traffic on the rivers and lakes of Ontario, having been engaged in this business for fifty years, and who resides at No. 195 Upper Colborne Street, Kingston, speaks as follows of his recovery from the sickness which has affected him for some time.

Said Mr. Somerville: "The grip left me with kidney troubles and gravel. I had severe pain over the kidneys and in the small of my back, also between the shoulders and in the bladder.

"The urine was very dark-colored with a great deal of muddy sediment. I went to Mr. McLeod's drug store and bought two boxes of Doan's Kidney Pills. I have taken them with what people tell me is the usual good result.

"They have cleared the urine, removed the sediment, relieved me of distressing pain in the back and between the shoulders, and have built me up in a surprising manner. In fact, I am entirely free from the troubles which affected me before taking these remarkable pills, and I recommend them as a certain cure for all troubles arising from kidney disorders." —*Whig*, Kingston.

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

The Latest Humor.

AN UNFORTUNATE MAN.

This was Dalliby's great failing, and he fell a victim to it early in life. He came into the world just eight seconds after his twin brother, and consequently had to rub along on an inadequate allowance instead of succeeding to the snug little independence that awaited the elder son, says the New York Mercury.

The habit, thus early acquired, clung to him through his career. Fate seemed to have selected him as a high-class exponent of consistent unpunctuality. I firmly believe that the man struggled hard against the infliction that was upon him, but he struggled in vain.

Circumstances were always too strong for him. It was remarkable that he never offended in any great degree. He was always "just too late," that's all.

As a boy at school he suffered from the consequences of his failing. His companions escaped when they robbed an apple orchard; Dalliby lingered a moment too long up the tree, and was "just too late."

At college it was the same. Other men who had taken part in the same spree would dodge the proctors with ease; Dalliby was bound to be caught. He pulled a good oar, and in a weak moment once backed himself to win against an inferior opponent. He could have done so, of course, but he waited too long, and was just too late to get up.

His tutor spoke to him about his unpunctuality at lectures, the dean did the same regarding his attendance at chapel, and finally nominated a certain hour for Dalliby to call upon him and promise reformation. Dalliby sat up all night to be in time for that appointment, but something delayed him at the last minute, and he was just too late again. The dean was annoyed, and Dalliby "came down."

But it was not a lesson to him. He went into society, and his habit proved as strong as ever.

People asked him to dinner and he would come in with the dessert; he would go to a theatre or concert to hear some special song, and arrive just as the last bars died away. He would make endless appointments in perfectly good faith, and turn up breathless about a minute after the other man had left in disgust.

He fell in love and here again his unhappy failing proved his undoing. The girl was rich and beautiful, and liked him very well, but he wearied her with his broken pledges. She got tired of saving dances for him, which he was always just too late to claim.

If he took her anywhere, they were never in time to see the fun. One day he made up his mind to test his fate. He attired himself with becoming splendor, and sought the stately mansion she dwelt in. A man he knew was coming down the steps wearing an expression of treble-distilled happiness. He asked Dalliby's congratulations. The heiress had accepted him half an hour ago.

Dalliby was supposed to be his wealthy uncle's heir. That uncle fell mortally sick, and telegraphed for his nephew to go to him. Dalliby started, but having to wait an hour or so at a junction for a branch train went for a stroll to while away the time. He got back just in time to see the last car gliding out of the platform. His uncle died that night; but he cut Dalliby out of his will first.

The end came soon after this. He appears to have been strolling absently along a railway line, and not to have noticed the approach of an express until it was close upon him. Even then he might have saved himself; another second and he could have sprung clear.

But even seconds are of vital importance in affairs of this kind, and from the fact that a coroner and twelve good men and true subsequently held an inquest upon what remained of him, we may safely assume that Dalliby was again "just too late."

Such an Accident.

Dainty Delia—You know how thin Ethel Perkins is?

Sweetest Susie—Isn't she, though? Dainty Delia—Well, somebody sent her one of those new ankle bangles and while she was talking to Chawlie Litewate she accidently got her other foot through it and had one bangle hoop on both ankles. Of course, she forgot all about it—it wasn't the least bit tight, you know—and when she stood up and tried to walk she fell right over on to Chawlie and scared him most to death. He is engaged to Pet Plummer, you know. And everybody thought she had paralysis or something, and they sent for two doctors and a trained nurse, and then after they had put ice o her head and put her to bed they found the bangle. —Cleveland Plain Dealer.

A Browning in Prose.

"Henry?"

"Yes, your excellency."

"My letter to Mr. Parker of Birmingham, on the occasion of the Shakespeare commemoration, seems to be interesting the critics."

"Of course, sire."

"One phrase upon which they ask for light is 'the impulse of an exalted international mission.' Now, Henry, I am not prepared to make that any clearer. I don't know exactly what it means myself, but I am satisfied that it will repay study. The fact is, Henry, I am a Browning in prose."—Pittsburg Chronicle-Telegraph.

THE SNUG SWEATER.

A Garment Not Any Longer to be Monopolized by the Athletic.

No longer may the athletic girl monopolize the sweater. That useful garment this season is being sought by every type of woman, from the most advanced new woman to the most fluffy of summer girls. Not only do the bicycle, golf and tennis girls wear it, but for ocean voyages, yachting and overland traveling, it is much in demand.

For genuine comfort the sweater is unequalled. Its soft collar and pliable texture are much in its favor, and when ocean breezes blow it is just warm enough to be hygienically a success. The new sweaters are made much shorter than those of last season. Some of them reach only to the waist line. The sleeves above the elbow are large and generously puffed. All the most desirable sweaters button on the shoulders. The collar is generally straight, turned over slightly at the top, but in a few of this season's sweaters the deep sailor collar is in evidence.

The best looking sweaters, as well as the newest and most expensive, are in a fancy design showing two colors. For example, the foundation color will be dark blue, with a design woven over it in white, but so arranged that the dark blue is visible here and there. The effect is exceedingly pretty. Though the main part of the sweater will be in this two-toned design, the sleeves will be white, woven with parallel stripes in dark blue; that is for the puff, the lower part of the sleeve being all in white. A pure white band also encircles the waist. These sweaters come in a variety of dark and light colors, and are selling for $8 in Toronto.

Fashionable women, whose bank accounts are in a condition pleasant to contemplate, have their sweaters made to order.

Samples of materials for sweaters may now be obtained. Among the newest are those in the heavier mixtures. Soft browns and violets are woven together effectively and browns mingled with green and red. Some show a soft blending of five or six Scotch colors.

A sweater just made to order for

THE UNIVERSAL SWEATER.

steamer wear is one of the heather mixtures—dark blue, with an indistinct blending of dull green. It is made with a straight collar and full sleeves, and fastens on the shoulders, with small smoke pearl buttons. The skirt to be worn with it is a dark green cheviot.

The sweaters with a plaid design are generally in black or dark blue. The lines crossing to form the plaid appear on the sleeves and over the front of the sweater. These sweaters come in silk and wool, and cost about $5.

A Question.

How can we raise more corn to the acher? Why, of course, by using Putnam's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is sure, safe and painless. Like every article of real merit it has a host of imitators and we would specially warn the public to guard against those dangerous substitutes offered for the genuine Putnam's Extractor. N. C. Polson & Co., proprietors. Kingston.

A Mistaken Diagnosis.

A song with the title, "There's a Sigh in the Heart," was sent by a young man to his sweetheart, but the paper fell into the hands of the girl's father, a very unsentimental physician, who exclaimed

"What wretched, unscientific rubbish is this? Who ever heard of a such a case?"

He wrote on the outside:

"Mistaken diagnosis; no sigh in the heart possible. Sighs relate almost entirely to the lungs and diaphragm."—Larks.

It was a shooting star.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

THE CONFERENCE IS NOW IN SESSION.

BAY OF QUINTE DISTRICT REPRESENTATIVES AT TRENTON.

Rev. J. Rae and Rev. W. R. Young, B. A., Both Allowed to Come Back to Peterborough for Another Year—The Sessions.

The Bay of Quinte Conference is now in session at Trenton. The report of the Statistical Committee, anticipating Conference, will show a membership of about 40,000, an increase of about 600. The funds generally are slightly deficient, but, what remarkable, most of the missions show a decided increase in missionary givings. The front charges seemed to have suffered most from the drouth of last year. There are some five young men entering the ministry this year: last year there were 25. The higher standard of entrance examination will account for this. Trenton has its first conference, but is ably billeting and entertaining the delegates.

THE FIRST DRAFT

of the Stationing Committee effects the local districts as follows, there being very few changes:

Keene—Jas. Liddy.
Blairton—E. A. Sanderson.

THURSDAY.

The ministerial session of the Bay of Quinte Conference was continued this morning at 10 o'clock. Several members that were under way last night were settled to-day. A young man, a probationer of two years, was charged with having made statements that reflected on the experiences of ministers and of the Methodist Church. He is gifted, and has been useful on his charges. As a young man he lacks judgment and seemingly admires Homerism. It was found that he had been very injudicious, and the President was instructed to write to him accordingly. He was then continued as other probationers.

The Conference felt that as some of its borders had been entered by a force of its own and now turned against it (a similar state of things to that in the Montreal Conference), it took the position of John Wesley, who said: "The reproach of Christ I am willing to bear, but not the reproach of enthusiasm."

The Conference was startled by the reception of the resignation of Rev. R. D. Mallett, who has served the church for twenty-four years. A committee waited upon him, but could not prevail upon him to withdraw his request. He stated that it was a matter of conscience, and gave as his reasons that he was out of harmony with the methods of the Methodist church. He was in conflict with the form of question relative to ministerial character as asked in the District meeting, also with the allowing of entertainments, socials and readings, as these seem to lessen the attendance at class meetings and other gatherings in the church. His resignation was finally accepted with many regrets. He will hand in his parchments received at ordination while carrying with him the legal certification of his long work in the Conference.

Rev. M. J. Bates was continued as Conference evangelist.

Rev. R. M. Pope was allowed one year more of service than appeared in the minutes. This affects his claim for superannuation, and the error (for so it proved) was not discerned until this year. Mr. Pope was restored to the active work, after having retired for a year on account of ill-health.

The report of the Committee on Conference Relations was adopted. It recommended the superannuation of Revs. R. W. Marsh, S. F. Depew, Geo. Brown, R. Hazzard and Geo. Dunkley. Rev. J. S. Clarke, though better in health, is still unable to do full ministerial work, and was therefore superannuated for another year.

AFTERNOON SESSION.

At two o'clock this afternoon the church was full. The Conference proper was opened by the retiring president, Rev. F. B. Stratton. A very fitting and graceful action had been taken at the ministerial session. The three senior brethren took a seat on the platform. The past President to-day sat beside the president with the "sable silvered" fathers as a background. On the first ballot Rev. T. M. Campbell was elected president. The cane of office made from the first Methodist church building in Canada was gracefully presented to the President-elect. Rev. W. J. Young was elected secretary. The life of the secretary was largely connected with the town of Trenton and with the church where the conference met. Mayor Morrison, of Trenton, and Councillor Phillips were introduced. The former read an address of full welcome and Christian wishes. It hoped that the modest police force would not need reinforcement during the stay of the ministers. Six ladies of the Women's Christian Temperance Union were introduced and asked that a public temperance meeting be arranged for. A resolution of last year made it impossible to appoint evening meetings, but the request will no doubt be met. A most able and earnest address was made by Dr. Gardner, who preached in a wagon on the spot where Trenton is built 57 years ago. He was the first graduate who was ordained in this conference. He never failed to answer the roll call at conference for 43 years, nor ever had a blue Monday.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. COLDSPRINGS—OTONABEE.

From an Occasional Correspondent.

The anniversary services and tea in connection with the Cold Spring's union Sunday School, were held on Sunday and Monday, May 30th and 31st, and proved to be a decided success. In fact, they were pronounced to be one of the best, that has been held since the re-organization of the school 8 years ago.

In spite of the threatening weather, the Sunday afternoon service was attended by a large gathering of both parents and scholars. After the opening exercises, Mr. H. P. Kennedy, the energetic Superintendent, gave a most encouraging report of the school during the past year.

Mr. E. A. Stanley, Superintendent of Murray street Baptist Sunday School, then gave an excellent address on "The aim of Bible Schools" and emphasized strongly the fact, that teachers, officers and scholars should set a high ideal and be satisfied with nothing less than reaching this standard. He showed clearly how a model school should be conducted.

Mr. W. W. Matchett made a few pointed and well chosen remarks, on the words "Search the Scriptures," which we feel confident will not soon be forgotten by those who heard them.

On Monday evening, a first class tea was served in the mammoth tent provided by Mr. J. J. Turner.

After tea, Mr. H. P. Kennedy took the chair, and the following choice programme was rendered:

Opening chorus	
Prayer	Mr E A Stanley
Chairman's address	
Solo	Mr G W Mulligan
Reading	Mr M W Matchett
Recitation	Mr G Munro
Solo	Mr Mulligan
Address	Mr E A Stanley
Recitation	Miss H Hamilton
Choice selection	Mr Mulligan
Address	Rev H Symonds
Solo	Mr Mulligan
Closing remarks	Mr H P Kennedy
Closing chorus	School
Prayer	Rev H Symonds

NOTES.

Mr. Kennedy in his remarks showed how the encouraging state of the school could chiefly be credited to the fidelity of the teachers and officers. The average attendance of the five teachers was four.

Mr. Stanley's brief but excellent remarks on "Loyalty to our School," were much appreciated.

It was quite apparent in what high esteem Rev. Mr. Symonds is held by the people in this section, by the hearty reception he received and also by the excellent attention that was given his scholarly address on "The Formation of Character." He gave food for a great deal of thought when he emphasized strongly the power of example.

Mr. Mulligan will always be a welcome visitor in our midst. His selections were well received, as also were the recitations by Miss Hamilton and Mr. Munro and the reading by Mr. Matchett.

The ladies well deserved the hearty vote of thanks that was tendered them for so well and faithfully doing their part to make this one of the best entertainments ever held in the neighbourhood.

BARBARITY IN CUBA.

Spanish Guerillas Guilty of Horrible Cruelty.

A MOTHER AND HER BABE SHOT

Men Beheaded for Complaining of Bad Treatment—A Man's Eyes Were Plucked Out With a Bayonet Because He Could Not Give Information Asked For.

Macagua, near Colon, Province of Matanzas, Cuba, June 1.—Reports have reached here of a number of recent unwarranted murders and outrages by bands of Col. Louis Molina de Olivera's Spanish guerillas.

Belisario Nodarse of this town relates the particulars of a fiendish attack upon a Cuban woman.

"The guerillas of Colon," Mr. Nodarse says, "while on their way to Calimete, stopped at the house of Mateo Martinez, a native of the Canary Islands, who had been forced to enlist in a body of insurgents under the command of Juan Pablo Jabio.

"The Spaniards stopped at his house and the officer in command inquired from Senora Martinez the whereabouts of her husband. 'Indeed, I can't tell,' she replied.

"'I'll make you,' said the Spaniard, and he proceeded to tear off her clothing. He then questioned her anew, and, receiving no answer from the woman, who was crying hysterically, he unsheathed his sword and fell to cutting and slashing his victim, until her blood covered the floor and she fainted in a corner. Her shrieks and entreaties only served to provoke the brutal laughter of the soldiery."

Mr. Nodarse says he had the facts in writing before Col. Molina. The chief replied by sending a squad to arrest and shoot the complainant. His brother, Bruno, a tobacconist, heard of the order in time to inform Belisario. The brothers fled and joined the rebel force of Clotilde Garcia.

Col. Molina left his headquarters a few days after the attack on Senora Martinez and marched his troops south to effect a junction with Gen. Melguizo's corps. The Spaniards were attacked and forced to retreat by a Cuban band. In making a detour to avoid the Cubans, Col. Molina's command arrived at a shanty occupied by an old farmer, his two sons, a daughter-in-law and three grandchildren. An eye-witness of the tragedy says:

'At the approach of the soldiers the men took refuge in the jungle, carrying off the two oldest children, and only the daughter with her baby remained in charge of the house. She hoped her sex and the sight of a child but six months old would protect them from harm and spare the house.

'Col. Molina halted his command by the roadside and dismounting, walked into the house.

"'Where are the men?' he demanded. 'I have been fired upon by your people at Arroyito, and I intend to send a detachment to surprise them at camp to-night, so I need guides. Where are the rascals that live here?'

"'They are out sir,' was the trembling response.

"'Are they? Well, you will guide a squad of my men to their hiding-place and bring them quick. No trifling.'

"'I have not the least idea where they can be,' sobbed the woman.

"'Haven't you? Very well. Ho, there! a corporal and four men.'

"As the platoon entered the cabin Molina pointed to her and said:

"'Pull out that rebel hag and shoot her.' The mother and child were dragged some twenty-five feet from the hut and the squad moved away a few paces.

"'Will you speak now?' the Colonel demanded.

"'For God's sake, I don't know!' cried the woman, who was nearly dead with terror.

"'Then fire!' ordered Molina.

"With a convulsive movement the woman tried to shield the child with her own body, but the merciless bullets did their work.

"The baby was not killed outright, and one of the soldiers, moved by a sort of barbarous pity, crushed the little one's skull with the butt of his rifle. The bugle sounded 'Fall in.' Molina, after setting fire to the hut, coolly mounted his horse and gave the word 'March!'

"The three men returned after a while, looked silently on the dismal scene, and walked off in the direction of Arenas. After intrusting the two remaining children to a relative, they joined the insurgents, and Fabio, the Cuban commander, says they fight more like demons than like men.'

In one of the outskirts of San Jose de los Ramos, and about three miles from the village, there is a small place called Barrio de Oliva. It consists of a schoolhouse, a grocery store owned by Mr. Oliva, the dwelling of the Hernandes family, cane-planters of that neighborhood, three or four palm-thatched huts and a small house occupied by Frederico Fuentes. Fuentes had two large cane fields.

One corresponds to the "Espana" sugar plantations, owned by Senora Fulueta, wife of the Spanish Minister, Romero Robledo. The other field is attached to the state "Alava," belonging to Herederos de Fulueta. Fuente's family consisted of himself, a married daughter named Arcadia and his son-in-law.

Fuentes had had a dispute with the lieutenant detached by Col. Molina to garrison San Jose. The particulars, according to a friend of Fuentes, were as follows:

As he went around one of the cane fields he found an immense quantity of cane trampled down and spoiled. Next day while out at his other field (that of the State Alava), he saw a foraging party enter and proceed to cut fodder for their horses. Perhaps he would have submitted to the intrusion, but he soon perceived that the soldiers instead of cutting off the top stalks, which is the part eaten by cattle, proceeded to destroy the cane just for the fun of the thing.

He approached and remonstrated, but the sergeant ordered him to "shut up," adding that almost anything was too good for a cursed rebel.

Fuentes went to the town and complained to the lieutenant in command of the garrison. The officer flew into a rage and ordered him out of his presence, threatening to use a horse whip. Fuentes told him he intended calling on Col. Molina and reporting what had happened.

The command was a few days later ordered to advance and protect the plantation "Espana," which the insurgents had announced they would burn.

As they approached Barrio de Oliva the guerillas sacked a tavern known as the Noy, indulging freely in spirits. On entering the place the lieutenant marched directly to Fuentes' home and made the two men walk out. He accused them of harboring an insurgent chief named Masa. Fuentes, knowing the cause of the accusation, thought it useless to defend himself. The officer then bade the soldiers punish them as they deserved.

A score of machetes flashed and in a few moments the prisoners were a mass of blood and rags. A drunken fancy seized the murderers. Cutting off the heads of the victims they hung them to the key of the grocer's door, while the horror-stricken neighbors looked on without daring to interfere. Only under cover of night were the ghastly remains removed and buried.

A resident of the town Cascajal says one of Molina's guerilla bands recently left Barrio de Mostacilla and was marching to "Reglita," the sugar plantation of Senor Sardinas, for the purpose of escorting a train of pack mules. As the guerillas approached the town of Cascajal they passed the farm of a Cuban named Garcia, whose two brothers were in the insurgent force under Dimas, which was operating in the district between Recreo and Roque.

A portion of this force occasionally camped near Garcia's house and he was then visited by his brothers. When the guerilla band arrived, however, the insurgents were not in the neighborhood. Garcia was alone in his house, his brother-in-law, who lived with him, having gone to San Jose de Ramos.

The lieutenant commanding the guerillas rapped loudly upon Garcia's door and then entered, followed by a sergeant and two privates.

"Where are the insurgents encamped?" the lieutenant demanded of Garcia.

"I really don't know," the man replied.

"Tie him to that chair!" the officer commanded and the soldiers lashed Garcia securely.

"Now will you tell me where your brothers are?" angrily enquired the lieutenant.

"I can't say. I have not seen them," Garcia tremblingly replied.

"Ha! I know they slept here last night, but since your eyes seem to be useless, I will relieve you of them. Pull them out," the officer cried, turning to his soldiers.

The sergeant thrust the point of his bayonet under each of the unfortunate man's eyes and burst them out, despite the agonizing screams of the victim.

As they left the house the lieutenant jokingly remarked that the next time Garcia would be able to say truthfully that he "had not seen the insurgents."

Short Sketches of Great Men—Bacon No. 2.

"The man who is growing great and happy by electrifying a bottle," says Dr. Johnson, "wonders to see the world engaged in the prattle about peace and war." Bacon impressed upon the world for good, with every resource of subtle observation and forcible statement, that "the man who is growing great by electrifying a bottle," is as important a person in the world's affairs as the arbiter of peace and war."—*Dean Church.*

"No books prior to those of Lord Bacon carried mankind so far on the road to truth; none have obtained so thorough a triumph over arrogant usurpation without seeking to substitute another, and he may be compared to those liberators of nations, who have given them laws by which they might govern themselves, and retained no homage but their gratitude."—*Hallam.*

The character of Lord Bacon has, as is natural, been the subject of very various estimates. There has been exaggeration on both sides, for he has been on the one hand described as a charlatan and on the other as the wisest and best of men. For our part we believe that the fairest and most impartial description of what Bacon was, is to be found in the excellent biography by Dean Church, in the series of "English Men of Letters." The life of Bacon, says the Dean, "is the life of a man endowed with as rare a combination of noble gifts as ever was bestowed on a human intellect; the life of one with whom the whole purpose of living and of every day's work was to do great things to enlighten and elevate his race, to enrich it with new powers to lay up in store for all ages to come a source of blessings which should never fail or dry up; it was the life of a man who had high thoughts of the ends and methods of law and and government, and with whom the general and public good was regarded as the standard by which the use of public power was to be measured." "All his life long his first and never-sleeping passion was the romantic and splendid ambition after knowledge, for the conquest of nature and for the service of man; gathering up in himself the spirit and longings and efforts of all discoverers and inventors of the arts as they are symbolized in the mythical Prometheus." "And yet it was not only an unhappy life; it was a poor life. We expect that such an overwhelming weight of glory should be borne up by a character corresponding to it in strength and nobleness. But that is not what we find. No one ever had a greater idea of what he was made for, or was fired with a greater desire to deserve himself to it. And yet seeing deep into man's worth, his capacity, his weakness, his sins, he was not true to what he knew. He cringed to such a man as Buckingham. He sold himself to the corrupt and ignominious government of James I. With his eyes open he gave himself up without resistance to a system unworthy of him; he would not see what was evil in it, and chose to call it evil good, and he was its first and most signal victim."

* * *

There is in Mr. Froude's life of Lord Beaconsfield, an admirable discussion of what constitutes real greatness, and entitles a man to the name of great. The whole passage is a noble one and some day we shall publish it in these columns. Mr. Froude, and most men will agree with him, will not allow the title of great in its highest sense, to the most gifted of men, apart from his moral worth. "Men," it has been said, "are made up of professions, gifts and talents; and also of themselves." Tried by this standard Bacon cannot be called great. But there is a lesser kind of greatness which belongs to men who have achieved distinction in some one or other of the various walks of life. Who can deny that Napoleon was a great man, or Machiavelli. The character of Goethe has been violently assailed, but even though he was the most selfish of men, there is surely a sense in which he was great. Tried by Mr. Froude's standard the great men of the world are indeed few. Despite the fatal weakness of Bacon's character, we hold that not only on account of his splendid genius, and his laborious life, but also because he was full of a passionate desire to be the benefactor of his kind, he is entitled to be called a great man, albiet we may not rank him in the highest class.

* * *

"But what did Bacon do?" it will be asked. In the ordinary sense he was not a man of science. He made no discoveries, nor does he seem to have been greatly interested in the great scientific discoveries of his day. As a practical man Bacon is inferior to several men of his generation — Descartes, Galileo, Harvey and others. We are amazed to read that he was not a mathematician, and that he did not see the indispensable necessity of mathematics in the great "renewal" or "restoration" which he projected, and that he was impatient of the subtleties of astronomical calculations.

What Bacon achieved was the explanation of the method by which alone man can make real progress in the knowledge of the world. He succeeded in persuading men that the intelligent, patient, persevering, cross-examination of things was the only real road to knowledge. By observation, by experience, by collection of facts and their arrangement, knowledge is acquired, the laws of nature are discovered, and scientific invention is rendered possible.

* * *

There is nothing more difficult than to inspire others with enthusiasm for an idea. Truths which to a later generation seem to be self-evident, when first announced appear to be strange, dubious, eccentric. One of Bacon's contemporaries, a man of great ability, declared that the *Novum Organum* entitled its author to a place in the company of the "Ship of Fools," and James I, a man of no mean talents for most things, except ruling, irreverently said that it reminded him of the peace of God, because it passed all understanding. Nevertheless Bacon succeeded in impressing his idea on the mind of others, the idea that there was a "new unexplored kingdom of knowledge within the reach and grasp of man, if he will be humble enough, and patient enough and truthful enough to occupy it."

* * *

Bacon was not convinced that master nature was man's business. His work had heretofore a religious aspect. He considered that he was furthering the work of God in the world, and it was this idea that gives warmth and enthusiasm to his writings. "If," he writes, "there be any humility towards the Creator, any reverence for or disposition to magnify His works, any charity for man and anxiety to relieve his sorrows and necessities, any love of truth in nature, any hatred of darkness, any desire for the justification of the understanding, we must entreat men again and again to discard or at least set apart for a while, those volatile and preposterous philosophies which have preferred theses to hypotheses, led experience captive and triumphed over the works of God. And to approach with humility and veneration to unroll the volume of creation, to linger and meditate therein, and with minds washed clean from opinions to study it in purity and integrity." "The volume of creation," he concludes, "should man study to be perfect in, and becoming as little children condescend to take the alphabet of it into their own hands, and spare no pains to search and unravel the interpretation thereof, but pursue it strenuously and persevere even unto death."

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Tender Beef Needed Now.

Be careful what kind of beef you eat this kind of weather. Who wouldn't give a few cents more to be able to enjoy a delicious beefsteak or roast from Kennedy's Meat Market, rather than run the risk of dyspepsia by chewing at unchewable meat? You have had to eat tough beef long enough, and if you had to now you could do it still. But will you? Take home something nice to-night from Kennedy's Meat Market for Sunday's breakfast and dinner.

MAKING UNNECESSARY ANY PAINFUL OPERATION.

How South American Kidney Cure Removes Pain and Stems Periods of Distress.

It was chronicled in the local press a few days ago that one of Toronto's best known physicians was leaving for a leading United States hospital, there to undergo an operation for a hard formation of the kidneys. Everyone will hope that the experiment will be successful. But is not prevention better than cure, and where the first symptoms of kidney disease assert themselves let that wonderful specific, South American Kidney Cure, be taken, and the trouble is speedily banished. What is just as encouraging is that where the disease has taken hold of the system, even in extreme cases, relief and cure are quickly secured by the use of this medicine. Sold by H. S. Macdonald.

SATURDAY, JUNE 6, 1896.

INCREASE OF DEBT AND EXPENDITURE.

Hon. Dr. Montague said many remarkable things in his Opera House address, and showed himself a master hand at dusting the electoral optics. The airy way in which he swept away a debt of 253 millions was worthy of admiration, as an example unadulterated "gall," and the manner in which he converted the burden of debt into a positive enjoyment was, in the language of Mr. Speers, "richness indeed." In regard to the increase of taxation—if the trifle he made of it justifies the use of the word, increase—Dr. Montague, by means of a veritable nightmare of figures purported to show that the rate of taxation per head only increased from $1.59 per head in 1879 to $1.79 in 1895, though in that time the taxation had increased from seventeen and three quarter millions to twenty-seven and a half millions an increase of about sixty per cent., while the population, on which the per capita taxation can only be reckoned, had increased about 23 per cent. This is peculiar arithmetic, and Dr. Montague must have a very poor opinion of an audience which he would expect to be deluded by such absurdities. Now a little more in this same line to afford a contrast between Liberal and Conservative rule. When Mr. Mackenzie assumed the responsibilities of government in 1873, the expenditure of the country was for the year 1873 4, $23,816,000. When he retired in 1878, the figures for the current fiscal year were $23,703,000, an actual decrease in five years. The increases of expenditure under the successive Conservative ministeries that have followed from 1878 to date have been alarming. The figures of expenditure for the fourteen years from 1878 to 1894 were $14,629,000 in excess of the last year of the Mackenzie regime. This shows an increase in public expenditure of 62 per cent. against an increase in population of 23 per cent., and yet speakers in support of the Tupper candidates, like Dr. Montague, assure us that the country is prosperous. And in further evidence of the reckless extravagance of the Conservative Government that has piled up our debt so rapidly, it may be pointed out that the increase in the public net debt from 1878, when it stood at $140,362,000, to June 30th, 1895, was $112,712,000, the figures on the latter date being $253,074,000. This shows an increase of 80 per cent. in the debt against 23 per cent. in the population.

In connection with the shameless jobbery that has marked the vast increase of our public debt, till it takes about a third of our annual revenue to pay interest on the debt, does the fact of that huge debt itself, show that we have been wisely and economically governed? Is it not time to make a change?

OPPOSING PLANKS.

Mr. Chamberlain says that imperial Preferential Trade must be based upon a revenue tariff for all countries within the Empire; that it cannot be brought about unless protective tariffs of colonies against colonies and against the United Kingdom are done away with. Will Mr. Kendry, under these circumstances, tell which of the two entirely opposed planks of the Conservative platform he swears by, the Protective tariff or Preferential trade. To get preferential trade Mr. Chamberlain says that "protection must disappear"—as the price of preferential trade. The latter policy, must draw closer the bonds of union between the different members of the Empire, and the protection policy of discrimination against England must be maintained at whatever cost, even though, as the Mail said (when it was the Conservative organ, too,) that if it imperilled imperial union, "so much the worse for British connection." It takes expert wobblers to stand on two such opposing planks as take the front place in the Conservative platform.:—

1. National Policy.
2. Preferential Trade within the bounds of the Empire.

Will these political alchemists tell us the secret of mixing oil and water?

THE SWEEP OF VICTORY.

The Hon. Mr. Laurier and Sir Oliver Mowat are now holding meetings in Ontario, and their progress is nothing short of a triumphal tour. The reports show that they are everywhere received with an enthusiasm almost unparalleled in the political history of the country, and Liberals and many Conservatives appear to be vieing with each other in their efforts to do honour to the two distinguished leaders. If any proof was required of the tremendous upheaval of public opinion these meetings would supply it. Liberal victory is, of course, assured in Ontario, but all the signs go to indicate that it will be more than a victory; it will prove a Government Waterloo.

GOOD EVIDENCE.

The Sherbrooke Gazette, of the 22nd ult., contained an advertisement by Bishop's College, Lennoxville, to the following effect: "Money to lend on improved property, other than farms."

Now what does this mean except that the value of farm lands has fallen so greatly in value under the operation of the N. P. that they are not considered safe pledges in monetary transactions. Time was when improved farm property was considered gilt edge security for loans—as safe as the rock of Gibraltar. If the country enjoyed the great prosperity, the government party, pile up figures to prove—our prosperity is not so apparent but that it has to be argued out—farm values would be high.

The Conservatives will say that the government is not responsible for this, any more than they are responsible for "starvation wages" on the Trent Valley Canal. But it is self-evident, a policy that will not prevent such terrible depreciation of the best property in the country, is a bad policy and we want no more of it.

TUPPER IN FRENCH.

The average French-speaking Canadian who only knows the name of Tupper by seeing it in print—and there are such—pronounce it Toupa. Herein lies a parable, for he not only names the man when he uses the word, but he most aptly describes his character; a most admirable result. There is a word "Toupet," which, when spoken, is toupa, and means brazen-faced! Was there ever a more happy meeting of sounds and meanings? The old saw descriptive of effrontry of the bull that overturns everything in his eager rush for what he longs for, is commended to the earnest consideration of the Tupperites. "Il a du toupet comme un boeuf maigre"—he has a "cheek" like a lean ox.—Montreal Herald.

Dr. Montague and the other ducklings in the "nest of traitors" can bear the reproach with a smile—the nest is well feathered with down plucked from the taxpayer. He laughs best whose pocket laughs.

The Toronto Evening News, the evening annex of the Mail and Empire, is ostensibly independent in the interval, but it becomes "straight goods" in an election campaign. The Mail wobbles from head to foot.

In a local shop window one may see a statuette of Sir Charles Tupper with this rather equivocal price ticket—"The Cumberland War Horse"—for sale cheap. The sale should be pushed promptly—the people will have no use for war horses after June 23rd.

At the rate of the past weeks of the campaign, if the Cumberland war horse, to wit, Sir Charles Tupper, keeps up the pace, he will have promised as bribes at least a hundred million dollars of the public money. In a financial sense as well as every other, Sir Charles Tupper is not a safe man—he is indeed a very dangerous man—to have at the head of our affairs. To gain office he is willing not only to smash the constitution but to rifle the treasury.

When Dr. Montague, at the opera house, was plucking the flowers of eloquence from his oratorical conservatory, he mentioned the name of Hon. Joseph Chamberlain which was received with cheers by the loyal Conservatives present. Yet Mr. Joseph Chamberlain says "protection must disappear" and protection is the first plank in the Conservative platform. Why these cheers?

Mr. Kendry is perfectly willing that Peterborough working men should have the "outside edge" in the race for a living, but he is careful to reserve the "inside track" for himself and other manufacturers specially favoured by the high tariff. He and others of his kind must be protected whether the working man gets any relief from competition from imported labour. How generous these politicians are—to themselves.

ONE HONEST MAN.

Dear Editor: Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak, shrunken parts.

I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address, JAS. A. HARRIS, Box 239, Delray, Mich.

A MONTH OF DISASTERS.

The month of May, 1896, will be noted as one of the most "fatal" on record. An American contemporary points out that, at the opening of the month, there was a fatal explosion at Cincinnati and that from the fifteenth of the month until the recent terrible event at St. Louis there was nothing but a long succession of cyclones, cloudbursts and floods, all of more or less death dealing character. We in Canada, though free to a great extent, have suffered in the bridge horror at Victoria, which is made the worse since it has been made evident it was due to human negligence. And the month closes with the hideous event at Moscow.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." Mrs. Addie Peck, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." Cora Peck, Amsterdam, N. Y.

Dr. Godbout M. P., Beauce, Que., Speaks in Highest Terms of Dr. Agnew's Catarrhal Powder

When a member of the medical profession, hedged in as he is by a large measure of conservatism, expresses an opinion of a proprietary medicine it means a good deal. Dr. Godbout, the popular member in the the House of Commons, of Beauce, Quebec, speaks in highly terms of Dr. Agnew's Catarrhal Powder, not alone as a professional man, knowing the nature of this remedy, but from personal experience. He had used the medicine for catarrh, and freely lets the public know of the remarkable, speedy and effective nature of the medicine in all cases of the kind. One puff of the Powder gives relief in 10 minutes.

and all wasting diseases, should write to me for advice.

I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians, I investigated the subject deeply and discovered a simple but most remarkably successful Remedy that completely cured me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. I take a personal interest in such cases, and no one need hesitate to write me, as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off, but write me fully at once, you will always bless the day you did so. Address,

The Bottle!

Paine's Celery Componnd

Observe the Name and Trade Mark.

The Bottle You Buy is One-Half Larger than this Picture.

Beware of SOMETHING JUST AS GOOD Offered by the Substituter.

That wonderful and popular medicine of the age, Paine's Celery Compound, has a record of cures far surpassing all the combined records of other medicines.

Year after year the reputation of Paine's Celery Compound increases, and fresh lustre and brightness is added to its fame. To-day its sales are enormous in every section of the continent. The rich and poor use it with a faith and confidence that can never be bestowed upon any other prescription; in short, it is truly a Canadian-American family medicine.

In many places adventurers and unscrupulous dealers are endeavouring to deceive people by putting up preparations, using the word "celery" as a magnet of attraction to beguile and draw the unsuspecting, whose very lives depend upon Paine's Celery Compound and its health-giving virtues.

All such imitations and deceptions should be guarded against. The genuine Paine's Celery Compound, such as is pictured above, does not cost the sick one any more than the worthless imitations, and its use means a sure and certain cure and restoration to health. The use of the poor preparations means an aggravation of your troubles and very often loss of life.

If you are seeking health and strength ask for, and be sure you get, Paine's Celery Compound, the medicine that never disappoints the sick and helpless sufferer.

CHRONIC HEADACHE.

The change in my Mother's condition marvellous.

Scott's Sarsaparilla is a Boon.

MONTREAL, August 29th, 1895.

GENTLEMEN:—There is such a change in my mother's health that I cannot restrain myself from writing you. She suffered for years past with a chronic headache, accompanied with a disordered stomach. She was weak and irritable, and we thought she was going into a decline. For three weeks she has been taking a course of Scott's Sarsaparilla, which was recommended to her by Mr. McGale, Druggist, Montreal. Her headache is now but a memory, her appetite is good, and she has gained five pounds in weight in twelve days. She is a different woman, and I feel that you, in God's hands, have been the means of restoring her to health. I shall always recommend Scott's Sarsaparilla to sufferers from head or digestive troubles. Thanking you again, I close.

Yours sincerely,
Hortense Gavfliere.

Scott's Sarsaparilla is a concentrated extract, pleasant to the taste, and is taken in small doses. It is the finest remedy for disorders of the stomach and liver, palpitation, scrofulous sores, eczema and skin diseases arising from impurities of the blood. It builds up the weak, the strong it maintains in health. $1 of all druggists.

MURDER OF JOE MARTIN.

Matthew Fraser Arrested as an Accessory Before the Fact.

Toronto, June 6.

Matthew Fraser was locked up at Police Headquarters last night, the charge against him being that he was an accessory before the fact of the murder of Joe Martin at the Woodbine racetrack on Tuesday night, April 28. In the opinion of the Crown authorities the evidence brought out at last night's session of the inquest warranted the arrest of Fraser, who has been under surveillance for some time.

The prisoner is a son of the murdered man's cousin, Mrs. Fraser, who resides in Trinity-place, where Martin stayed for some time, and regularly visited while in the city. Fraser was employed by Martin for a few days just prior to the murder, and the evidence showed that he knew Martin had money and had at one time suggested that it would pay to hold him up. Fraser is only about 21 years of age. He is of slight stature and does not appear to be a very intellectual fellow. He took his arrest very calmly, but his mother, who was present, was much affected. She claims that it will be easy to prove that her boy is entirely innocent.

When Coroner Powell reopened the inquest last night a number of friends of Fraser and the witnesses were present in the court room. Detective Cuddy and Crown Attorney Dewart were there in the interest of the Crown, while Barrister Robinette was watching the interests of Terry and Graham, two of the witnesses who are being watched by the detectives.

After a session of three hours the inquest was again adjourned. It will be concluded on Thursday, June 11.

Patrick Clarke Terry, who owns a cigar store at 436 Queen-street east, gave some very important evidence. Fraser was a frequent visitor at his establishment and on Saturday, April 25, asked Terry to lend him a club, as he and another fellow had a job to hold up a pedlar. The job did not take place, however, as Fraser said they were too late getting to the stable. Fraser was continually at Terry's store, and in bad company, with a man named Harry Harper, who is now in jail serving a term for larceny. On the night Martin was assaulted Fraser and Harper went to Terry's place at about midnight and stayed for the rest of the night. Fraser left early in the morning and did not say where he had been the night before.

Witness Terry had met Joe Martin a year ago and Fraser had told him that Martin would be worth "holding up," as he had seen him count out $2550 in cash. Asked by Mr. Dewart as to his own whereabouts on the night of the assault, Terry explained in an amusing manner that the day on which Martin was assaulted had been his birthday and he got "quite a jag on." Consequently his mind failed him in some connections.

John Fleming, 84 St. David-street, had a conversation with Fraser after the Martin assault. Fraser said that Martin had $3060 when he came to Toronto, so he had been robbed of $1000. Fraser also said that Martin carried a gun under his pillow at the stable.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinching touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalid's Hotel and Surgical Institute, of Buffalo, N.Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favourite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.

THE CYCLISTS' RIGHTS.

They Have Made an Example of a Tollgate Keeper Near Kingston—He Must Pay the Costs.

Kingston, June 5.—Tollgate Keeper Gallanger, cited before D. J. Walker, J.P., for barring the public highway, had a preliminary hearing at Portsmouth this afternoon. Messrs. Kirkpatrick and Rogers acted in the interests of the Canadian Wheelmen's Association. The toll man was convicted. He was not fined, but must pay the costs of court. In daytime the bar must be lifted and at night raised seven feet from the level at the point nearest the house. This will permit cyclists to ride through and bar carriages.

Montreal, June 5.—(Special.)—A well-dressed gentleman, with plenty of baggage, arrived at Windsor Hotel to-day and after registering as "H. B. Cartwright, England," took a carter and drove to Mountain Park. He then left the driver, telling him to wait, and, going into a bush, shot himself dead.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

Undergarments.

The up-to-date woman, whether fat or lean, has reduced her undergarments to the smallest possible number; over a pair of Lole Fullers, a silk vest and a silk petticoat she wears a light-weight corset, and as the bodice is put on directly over the stays there is no danger of marring wrinkles to spoil the fit of the waist.

Letters Come.

Letters come day by day telling us that this person has been cured of dyspepsia, that person of Bad Blood, and another of Headache, still another of Biliousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 334 Colborne Street, Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sales may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure, less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. A NEW WAY OF MAKING MONEY.

One Half the World Doesn't Know How the Other Half Lives.

A certain benevolent young man living in the neighbourhood of Murray street, was suddenly awakened from his dreams about half-past four yesterday morning by a trifling disturbance created by an indignant old hen.

Dressing hurriedly and scantily, he rushed from his room to the street, where he found a Bramah hen and a little terrier dog (no particular breed) in what seemed a deadly conflict. The dog, horrified by the apparition which suddenly came upon the scene, made a bee line for his master's residence. The young man followed the dog, probably to examine if the dog had been much damaged in the conflict.

Just about this time the owner of the dog put in an appearance, when the young man, enquiring kindly after the dog's health, asked if he was the owner. When informed in the affirmative, he promptly demanded the sum of one dollar, the price of the hen, which he stated had been killed by the dog. Well —— that dog, said the owner, as he went down into his pants' pockets and handed the supposed owner of the alleged dead hen a one dollar bill, expressing at the same time his most sincere regret at the loss and annoyance the young man had been subjected to.

"Thank you, and please keep an eye on the dog, as I have 8 or 10 more hens."

"I will, good morning!"

The young man who had for a few minutes been fingering the one dollar bill placed it in his pocket and went off saying in an audible whisper, "and be gosh! the hen ain't mine nor she ain't dead yet."

ROBBERY OF THE MAILS AT THE C. P. R. STATION.

THE SUSPECT SHADOWED FOR ALMOST TWO YEARS.

Robert Hamilton and His Wife Arrested on a Very Grave Charge—An Account of the Robbery.

Robert Hamilton, formerly of Peterborough, has been arrested at Brockville and his wife at Toronto, charged with being implicated in the robbery of a mail bag at the local C. P. R. station, a year ago last September.

It will be remembered at the time mentioned a fire occurred in the oil warehouse at the C. P. R. bridge and that while everyone's attention was concentrated at this point, the baggage room at the C. P. R. station was entered and the mail bag abstracted.

THE EXAMINER of Monday, September 24th, 1894, contains the following

ACCOUNT OF THE ROBBERY:

A bold and successful attempt was made Sunday morning to rob the mails at the C. P. R. station. A pouch containing five registered letters and various other matter was extracted from the mail bag, which was brought here by the midnight express from Toronto on Saturday night and left in charge of the baggage-master as usual.

The bag was thrown off the train and wheeled into the baggageroom on a truck. It was then taken by Baggagemaster Armstrong and placed by him, he states, in the strong box, which is kept at the station for the reception and safe-keeping of mail matter. This was the last he remembers about it. In the morning, when the mail cart came to the station for the mail, there was only one bag instead of two, the one from the west being missing. On enquiry being made for the bag, Armstrong is alleged to have stated that if it wasn't in the box, most likely it had been carried on through by mistake on the train. This theory was accepted by the postoffice authorities and nothing further was thought of the matter until yesterday afternoon, when Messrs. Rupert Irwin, Thos. Campbell, Ernest Carveth and George Cairns found a couple of the small mail pouches, which come in the larger mail bags, lying in the alley between Mr. B. F. Ackerman's harness shop and the office of the Central Bridge Works. The pouches were carried to police headquarters, where, upon investigation, they proved to contain a quantity of the missing mail matter. Shortly afterwards Mr. J. F. Brown ran across the bag itself—slit open and with some of its contents lying beside it on the ground near Mr. W. H. Wrighton's warehouse, just behind the C. P. R. station. It was plain that a robbery had been committed, and upon further examination it was ascertained that one pouch of registered matter from Toronto had been abstracted, but all other registered letters and other contents of the bag left unmolested.

"Just what was contained in this special bag, besides five registered letters, is unknown by the local post office authorities. . . . Baggagemaster Armstrong is of the opinion that the strong box in the baggage room was opened by a duplicate key and the mail bag removed while he was at the fire at about 3 o'clock, but this theory is confuted by the fact that if he placed the mail from the east in the box when it arrived at 4.30 a.m., he surely would have noticed the absence of the western mail bag. As the rear door of the baggage room, which is always kept locked, was found open this morning by the day baggagemaster when he came on duty, it is evident that the entry was made by the opening of this door by means of a duplicate key, and as the baggagemaster does not spend all his time in the room, the theft could have been committed at almost any time after the arrival of the mail. One theory which gained currency on the streets this morning was to the effect that probably the warehouse of the Petrolia Oil Company was set on fire by the mail robbers with the object of drawing the baggagemaster from his post in order to facilitate the attaining of their object, but this could hardly be the case, when they were in possession of a key which almost always gave them freedom of the baggage room. No clue whatever is yet in the hands of the police, but it is understood great efforts will be made to detect the culprits. The post office inspectors from Kingston and Smith's Falls will arrive in town this evening, to investigate the robbery and make their report thereon."

SINCE THE DATE

of the robbery Inspector Macarow, of the Postoffice Department, it seems, has almost continually shadowed Hamilton, as it seems suspicion fell upon him from the first.

That he at last secured the clue for which he was searching is surmised from the fact that yesterday afternoon he called upon Chief Rossel and swore out the necessary warrants for the arrest of Hamilton, who is in Brockville, and of his wife, who has been living in Toronto since separating from her husband some time ago.

Robert R. Hamilton is the adopted son of Mr. Robert Hamilton, shipping agent of the Peter Hamilton M'f'g Co., and for some time conducted the C. P. R. restaurant, afterwards fitting up the refreshment rooms at the Grand Trunk station. He left town about six months after the robbery was committed and was thought to be in the States, but apparently he was never beyond the ken of Inspector Macarow, who, when he wanted him, knew where to find his man.

Just how Mrs. Hamilton is connected with the robbery is not known, and the police are, of course, very chary about saying anything about the evidence which they propose bringing against the husband and wife.

Constable Stewart went to Toronto this morning for Mrs. Hamilton, and the Chief left at noon for Brockville to bring up the male prisoner.

Both Mr. and Mrs. Hamilton are most respectably connected, and if the charge is proven against them it will be a great blow to their relatives and friends.

IT IS REPORTED

that the arrest of Hamilton and his wife was brought about through ex-Baggagemaster Armstrong of the C. P. R., who, it will be remembered, was dismissed shortly after the robbery—presumably for not looking after the mail with sufficient care. It is alleged that while in Rochester some time ago, Hamilton boasted of his exploit in robbing the mails to a friend. The man to whom he confided the story afterwards came to Toronto, and obtained employment with the Toronto Street Railway, and by a most singular coincidence is said to have fallen in with Armstrong, and by a chance repeated the story to him.

Since his dismissal Mr. Armstrong has been under a cloud on account of the mystery attending the disappearance of the mail bag, and in order to clear himself, at once communicated with Inspector Burnham of the Post Office Department. Inspector Macarow was placed in possession of the facts enumerated above, and since then Hamilton has been under surveillance.

It is also said that one of the missing registered letters was found in an old trunk belonging to Mrs. Hamilton, when the police searched her effects after her somewhat hasty departure from town.

A MILLBROOK CHURCH DESTROYED BY FIRE.

The Presbyterians of the Town Without a Place in Which to Worship.

The Presbyterian church in Millbrook was completely destroyed by fire between one and two o'clock Friday morning.

So great was the headway the fire had got before it was noticed that the building was entirely gutted before the firemen arrived on the scene. None of the contents were saved.

A good organ and a library were among the things consumed.

The cause of the fire is a mystery. There was choir practice the night before, but the caretaker is satisfied that the lights were carefully put out and there was no fire in the furnaces for weeks.

There was $2,000 insurance on the church, but nothing on the contents.

A FRIGHTENED HORSE.

Capt. Mason's Fine Young Animal Narrowly Escapes Injury.

Yesterday afternoon a fine young horse belonging to Capt. Mason took fright at the big covered gospel carriage which was passing up George street, and plunged so violently as to throw itself.

As it was tied to the telegraph pole in front of the store it could not break loose, and when it fell against the high sidewalk there were grave fears entertained that the valuable animal had hurt itself, but fortunately after being released from the shafts of the road cart to which it was attached, it sprang to its feet as sound as ever.

Nervous Prostration

Is a deplorable condition of body, to which the mind in some degree responds; the sufferer becomes a victim to a legion of disagreeable sensations, arising from the impairment or exhaustion of vital or nerve force. Sleeplessness, too, comes to rob the sufferer of nature's sweetest solace and restorer and a disordered digestive function contributes its quota to the already full cup of misery. Cure is possible in one way only—the nervous system must be strengthened; the digestive and assimilative function must be restored.

Maltine with Coca Wine, more than any other preparation known to medical science, combines the two essentials required in these cases. Maltine with Coca Wine posses tonic properties that are directed in a very special way to the nerve centres, giving them tone, vigor and the staying power most needed, while just as efficacious does it aid and strengthen all the processes of digestion. Thus we have the production of all the elements of adequate nutrition, which, inevitably, is certain to give health, strength and vigor. Maltine with Coca Wine is sold by all druggists.

That hacking, persistent cough can be quickly cured by using Dr. Wood's Norway Pine Syrup. It cures all throat and and lung troubles.

A Mouthful of Pearls.

The teeth, perhaps more than any other feature, enhance or destroy that intangible, because complex, thing we call beauty. What more repellant than ill-kept teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficiently does it render the breath sweet and fragrant. Ivorine is simply incomparable as a toilet requisite, which accounts for its recommendation and use by leading dentists.

A Stampede for Hats.

There has been a regular stampede for hats all day at Fairweather & Co, and there will be a bigger one to-night. This firm is pushing the hat trade with vigour. Their display, both inside and out, is unusually attractive, while their handsome show windows command the eager attention of pedestrians. Your appearance never suffers by being a customer at Fairweather's. Just now prices in straw hats seem to have taken a tumble. The picayune prices at Fairweather's are the result of the snapping bargains picked up by the practical head of the firm, who is a believer in small profits. The stock is the pick of the market—embracing the newest and nobbiest blacks of the favourite makers. Sunday hats and election hats are here, as well as week day-torrid-weather-antidotes for sweating and swell heads.

A MEMORIAL SERVICE.

Rev. Mr. Symonds' Remarks on the Late Hon. Robert Hamilton.

The memorial to the late Hon. Robert Hamilton which has been recently erected by Mrs. Hamilton in St. Luke's church, was fittingly dedicated to the sacred purpose for which it is designed by a special service last night

The design of the memorial, which is only partially completed, includes a carved oak Communion table, reredos of carved oak extending round the walls of the sanctuary, with bishop's chair on the north and two clergy stalls on the south wall, altar rail with brass standards, and choir seats. The plans, which were prepared from English designs, are gothic in character and were supervised by Eden Smith, E-q., of Toronto. A very elegant frieze of vine leaves and grapes running round the holy table was executed by Miss Tully. The remainder of the work was done in Mr. J. Z. Roger's canoe factory, under the superintendency of Mr. Rohrbach, formerly of the Crossen Pullman Car Works of Cobourg, and certainly reflects

THE GREATEST CREDIT

upon all who have been engaged in it. The quality of the wood, which is all of quartered oak, and the finish of the workmanship is of the highest excellence.

The service was very hearty and the singing was well rendered by the choir. The clergy present were The Ven. Archdeacon of Peterborough, Revs. J. C. Davidson, E. V. Stevenson, and Carl Smith, of St. John's church; John Gibson, Norwood; G. Warren, Lakefield; Baynes Reed, Otonabee, and the rector.

The following are the special dedicatory prayers:

"O, Eternal God, mighty in power, of majesty incomprehensible, whom the heaven of heavens cannot contain, much less the walls of temples made with hands, and who yet has been pleased to promise Thy special presence wheresoever two or three are gathered together in Thy name, vouchsafe, O Lord, to be present with us who are now gathered together, to dedicate this Holy Table to Thy glory and the beautifying of Thy House. Accept, O Lord, this memorial and offering at our hands, and bless it that it may tend to Thy honour and glory, through Jesus Christ, our Blessed Lord and Saviour. Amen.

O, God, without whom nothing is strong, nothing is holy, sanctify and build up these walls to Thy honour and glory. Let the light of Thy holy presence ever shine upon them, and may Thy holy church, built upon the foundation of the Apostles and Prophets, Jesus Christ Himself being the chief corner stone, fitly framed together and compacted by that which every joint supplieth, grow into an Holy Temple in the Lord. Amen.

BEFORE THE SINGING

of the second hymn the Rector called upon the Archdeacon to address a few words to the congregation. The venerable gentleman, who is so well-known and well-beloved throughout his Archdeaconry, said that it gave him great pleasure to be present on this occasion. He had from its foundation taken a great interest in the congregation of St. Luke's. They were assembled together to dedicate, by the liberality of his widow, a memorial to a former highly esteemed member of the church. He had only had the pleasure of meeting Hon. Robert Hamilton once, and St. Luke's had then been the subject of their conversation. This beautiful memorial should promote reverence. Piety and reverence should go over hand in hand. Dr. Johnson always lifted his hat when he passed a place of worship. "Lord" said the Psalmist, 'I have loved the habitation of Thine house, and the place where Thine honour dwelleth." The Archdeacon went on to speak of the symbolism of the externals of worship, which should ever be accordant with the teaching of God's word.

The sermon was preached by the rector from I Kings viii, 10 11, and Isaiah lxvi, 1, 2, and the benediction was pronounced by the Archdeacon.

At the close of the service many remained behind to more closely examine the work. The special music will be repeated to-morrow evening.

Dr. Agnew's Triumphs in Medicine.

Heart Disease Exiled—Over Fifty Members of the House of Commons Tell of the Virtues of Dr. Agnew's Catarrhal Powder.

The name of Dr. Agnew is one that deserves to rank with Jenner, Pasteur and Roetgen in the good done humanity. Dreaded as it is by everyone heart disease has no terrors where Dr. Agnew's Cure has become known. Mrs. Roadhouse, of Willscroft, Ont., has said—"Cold sweat would stand out in great beads upon my face so intense were the attacks of heart disease. I tried many remedies but my life seem fated until Dr. Agnew's Cure for the heart became known to me and to-day I know nothing of the terrors of this trouble." It relieves instantly, and saves many lives daily.

It has been said that everyone in Canada suffers, to some extent, from catarrh. Whether the trouble is in the air, or where, it is a satisfaction to know that in Dr. Agnew's Catarrhal Powder is the medicine that gives relief in ten minutes, and has cured some of the worst cases, where deafness and other troubles have followed the disease. Geo. E. Casey, Michael Adams, Donald W. Davis, A. Fairbairn, C. F. Ferguson, W. H. Bennett, and all told some fifty members of the House of Commons have borne testimony to the effectiveness of this remedy.

Ask your druggists for Agnew's remedies, and see that you get them and not worthless imitations.

MR. KENDRY AND THE WORKING MAN.

When Mr. Kendry, in the Opera House, formulated his policy of "protection" to the workingman, he said he was willing to support an eight-hour system for "outside" workmen, and he laid a good deal of stress on the word "outside." What does this mean but that Mr. Kendry, while taking the "outside" workingman to his bosom, is looking out pretty sharply for himself. It will make no difference to Mr. Kendry to have eight hours a day's work on "outside" work, he is not interested in that. But it would be a terrible thing thing to have operatives or employees in cotton mills, woolen mills, etc., working eight hours a day.

What great philanthropists those highly protected manufacturers are!—they want protection themselves and argue that the workingman must be contented with a chance to work—long hours too, for Mr. Kendry does not believe in giving short hours to inside employees—because it would not pay—the employer. The workingman must be content with the crumbs, in the shape of long hours and short pay, that fall from his master's table. The high tariff permits the manufacturers to combine or close down when output overtakes consumption and a glut threatens lower prices; and in case of a shut down the operative is the first to suffer—in fact he is the only one to suffer, for the manufacturer is making money by the simple process of standing still. While his fires are banked, production ceases, and the operation of consumption reduces the stock on the market, and thus enhances the price on stock in the factory or at least prevents it from falling. The manufacturer is thus protected on every flank but the workingman has to suffer under circumstances of closing down when the employer is actually making money. The most iniquitous injustice the Canadian workingman has to suffer is the effects of the United States alien labour law, which prevents a Canadian labourer from setting foot in the United States to earn one cent, while the labour of foreign lands can flood our shores and compete with Canadian labour—if not putting him out of a job, at least reducing wages by virtue of a surplus of labour. Mr. Kendry professes to be willing to support a similar law in Canada, but his individual promise amounts to nothing. One man, if elected by a million majority, can't pass such a law; and the present Dominion Government and party is opposed to it. Years ago Mr. George Taylor, Conservative whip, introduced a bill into Parliament to meet the American Alien Act. But it never became law; the Government smothered the bill and nothing more was heard of it. So much for this evidence of Mr. Kendry's interest in the "outside" workingman. He and other highly protected manufacturers have the "inside" track, and the inside workingman must lookout for himself. Mr. Kendry supports a party that holds the working classes slightly. The Dominion Government have been in power eighteen years, and all the legislation they have passed in the interests of the workingman could almost be printed on a postage stamp. We don't expect to gather grapes from thorns or figs from thistles.

THE TWO CONSERVATIVE CANDIDATES.

The Conservatives, with two candidates in the field—Mr. Kendry, the machine candidate, and Mr. Newman, the candidate of the Independent Conservatives—have a choice rarely afforded—of still voting and exercising the preferences that represent the differences in the party. One candidate stands for the National Policy, National Schools and honest government; the other for the National Policy, Sectarian Schools and government—by the party for the party.

In such a condition of affairs would it not be well for the electors who can't certainly vote for both men and endorse the mixed planks of their platform, to settle the question by voting for Mr. Hall, who represents the rational policy—tariff reform in the direction of bringing the burdens of taxation to bear as evenly as may be on all classes, that will help the manufacturer with his raw material, and consequently enable him to give better wages to his employees, and honest, economical government for the people. Both, certainly, can't be elected neither, probably, will be elected. The platforms of both are so similar, only with differences that a large number of the Conservatives have shown a happy facility of swallowing, that the fact of both opening fire on the electors of West Peterborough seems like a waste of ammunition. One of the two Conservative candidates had better drop out, to save the electors the trouble of "firing" both, yet it makes little difference, as Mr. Hall is sure of being elected anyway.

MR. HALL'S CAMPAIGN.

Mr. Richard Hall, the Liberal candidate, will give an address at the Liberal Committee rooms this evening, giving an account of the prospects of the situation as developed by his recent canvass and and tour in the country. Addresses will also be made by those gentlemen who have assisted Mr. Hall at his meetings and by other prominent Liberals. Mr. Hall has held a most successful series of meetings in different parts of the riding and has received encouragement that warrants him in most confidently expecting a decided victory on June 23rd. Still there is only one way of connecting Mr. Hall's hopes into certainty, that is by energetic and persistent work. And there is a greater incentive to work from the fact that the Liberals present a solid front, unbroken by dissensions and are assured of the support of many Conservatives who are old-fashioned enough to have a weakness for honest government. It is hoped to see a good rally of Liberals at the committee rooms to-night.

In both the East and West Ridings, the Liberal campaign goes merrily on, both Mr. Hall and Mr. Lang receiving evidences of support that warrant the prediction that on the 23rd of June, East and West Peterborough will unite in celebrating a double victory.

SEEMS sometimes as if the world were all wrong. Seems as if all the things we like disagree with us, and all the things we don't like, agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course, it isn't Nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. *Dr. Pierce's Pleasant Pellets* are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are quick and easy in their action. They are in perfect harmony with Nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten something that disagrees with you. They are not violent in their effect, do not derange the system at all, and may be taken just as freely as you would take water or any other necessity of life. Once used they are always in favor. You can get the "Pellets" at any drug store. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well.

CURED OF SCIATICA.

THE EXPERIENCE OF A BRUCE CO. FARMER.

Suffered so Severely That He Became Almost a Helpless Cripple—Is Again Able to be About His Work as Well as Ever.

From the Walkerton Telescope.

During the past few years the Telescope has published many statements giving the particulars of cures from the use of Dr. Williams' Pink Pills. They were all so well authenticated as to leave no doubt as to their complete truthfulness, but had any doubt remained its last vestige would have been removed by a cure which has recently come under our personal observation. It is the case of Mr. John Allen, a prominent farmer of the township of Greenock. Mr. Allen is so well known in Walkerton and the vicinity adjoining it, that a brief account of his really remarkable recovery from what seemed an incurable disease will be of interest to our readers. During the early part of the summer of 1895, while working in the

bush, Mr. Allan was seized with what appeared to him to be rheumatic pains in the back and shoulders. At first he regarded it as but a passing attack, and thought that it would disappear in a day or two. On the contrary, however, he daily continued to grow worse, and it was not long before he had to give up work altogether. From the back the pains shifted to his right leg and hip, where they finally settled, and so completely helpless did he become, that he was unable to more than walk across the room, and then only with the aid of crutches. Of course he consulted the doctors, but none of them seemed able to do him any good. People in speaking of his case always spoke pityingly, it being generally thought that he had passed from the world of activity, and that he was doomed to live and die a cripple. We are free to confess that this was our own view of the matter, and our surprise, therefore, can be readily imagined when some few weeks ago we saw this self-same John Allen driving through the town on the top of a large load of grain. Great, however, as was our surprise at first, it became still greater when on arriving at the grist mill, he proceeded to jump nimbly from the load and then with the greatest apparent ease began to unload the heavy bags of grain. Curious to know what it was that had brought this wonderful change, we took the first convenient opportunity to ask him. "Well," said he in reply, "I am as well a man as I ever was, and I attribute my cure to Dr. Williams' Pink Pills, and to nothing else." Mr. Allen then gave us in a very frank manner, the whole story of his sickness and his cure, the chief points of which we have set forth above. After consulting two physicians and finding no relief, he settled down to the conviction that his case was a hopeless one. He lost confidence in medicines, and when it was suggested that he should give Pink Pills a trial, he at first absolutely refused. However, his friends persisted and finally he agreed to give them a trial. The effect was beyond his most sanguine expectations, as the Pink Pills have driven away every trace of his pains and he is able to go about his work as usual. As might be expected Mr. Allen is loud in his praise of Pink Pills, and was quite willing that the facts of his case should be given publicity, hoping that it might catch the eye of someone who was similarly afflicted.

Dr. Williams Pink Pills act directly upon the blood and nerves, building them anew and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other remedies had failed. Ask for Dr. Williams' Pink Pills and take nothing else. The genuine are always enclosed in boxes, the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." May be had from all dealers, or sent post paid on receipt of 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

NEWS FROM OTTAWA

Incorporation Sought for a New Religious Sect.

EVANGELIST HORNER THE MOVER

It is to be Called "The Wesleyan Methodist Connection of Canada"—The Country's Finances—Railway Matters—A Distinguished Visitor—General Notes.

Ottawa, June 5.—(Special.)—An application for Federal legislation was filed to-day which will likely receive the careful attention of the authorities of the Methodist Church of Canada. Some years ago all the different Wesleyan bodies—the Canada Methodists, Bible Christians, Methodist Episcopals, Methodist New Connexion, the Primitive Methodists, etc.—united, and since then the united church has prospered greatly. Now a cloud, although little bigger than a man's hand, but which may grow, appears on the horizon. Messrs. Bradley and Wyld, barristers of Ottawa, give notice of application to Parliament to incorporate a religious body to be known as the Wesleyan Methodist Connection of Canada.

The prime mover in the new denomination is an Ottawa evangelist, Rev. Mr. Horner. This gentleman was engaged in evangelistic work in the Montreal Conference for some years, but owing to his peculiar methods the conference withdrew him from evangelistic work and assigned him to a pastoral charge. This he refused to accept, and since then has been considered out of the Methodist body. The peculiarity of his meetings consisted in the extraordinary actions of his followers, some working up into a perfect frenzy, and it was not unusual to see a dozen lying on the floor at a time utterly prostrated.

Mr. Horner has a good many adherents in Eastern Ontario. He now wants to get Parliamentary sanction for his new sect, but it is questionable whether he will be successful, seeing that he is taking the name of one of the component parts of the Methodist Church.

The revenue for the month of May is $60,000 less than for the corresponding *period last year*, while the expenditure is augmented by half a million dollars.

The Minister of Railways and Canals issues a notice under his own hand in The Canada Gazette, certifying that he is satisfied from the evidence submitted to him that the Toronto, Hamilton & Buffalo Railway has discharged certain indebtedness incurred for railway construction on their line between Hamilton and Cainsville. Accordingly the act of last session has been declared in force.

The Toronto, Hamilton & Buffalo Railway Company gives notice of its intention to apply to the Governor-in-Council for an order extending for 50 years the agreement made by this road with the Michigan Central, the Canada Southern, New York Central and the C.P.R. in reference to the interchange of traffic and also in connection with the lease by the C.P.R. of running powers over the tracks of the T., H. & B. R. to and from Garth-street, Hamilton, to a junction with the G.T.R. near Desjardins Canal.

Prof. D. W. Thompson of Dundee was in town to-day and called upon the Commissioner of Fisheries. Mr. Thompson has been appointed by the Imperial Government to proceed to Behring Sea in company with Mr. Macoun of the Canadian Geological Survey to investigate the habits of seals in connection with the application of the United States for a revision of the Behring Sea regulations.

He Made a Mistake.

Two business men were talking so loudly at lunch the other day that no one within ten feet could help hearing them.

"X— called on you a week or two ago, didn't he?"

"Yes."

"You didn't hire him?"

"No."

"Why not?"

"Because he asked me for a job. My idea is that if a man is as good a salesman as he claims to be he doesn't need to hunt for a job. Plenty of jobs will hunt him."

"I'm glad you didn't hire him."

"Why?"

"Because I did."

"You did?"

"Yes."

"What do you pay him?"

"What he asked."

"Does he earn it?"

"Bet your life! The fact is, he is working like a *tiger*. He is making a big drive for your customers. He says you insulted him just because he was poor and out of a job, and that he will work nights and Sundays to get even. I think he will. You made a mighty bad break."—Brockton Times.

PROSTRATED FOR WANT OF BREATH.

Extreme Case of Heart Disease Cured Dr. Agnew's Cure for the Heart.

There is comfort in the thought that Dr. Agnew's Cure for the Heart is seldom unsuccessful. One of many illustrations is found in the case of James Allen, of St. Stephen, N. B., who says: "In 1894 I was troubled very much with severe palpitation of the heart, and with pain in my side. My breath was very short and with the least extra exertion I became fully prostrated for want of breath. I was attended by a physician for a long time. When in considerable distress I visited the local drug store, and my attention was drawn to Dr. Agnew's Cure for the Heart. I obtained a bottle and before I took half of it I felt ever so much better, and to-day I am a sound man, owing to the use only of this remedy." Sold by H. S. Macdonald.

M. H. Cudney, Port Burwell, Ont., says: "I was afflicted with rheumatism and tried all cures. I did not get relief until I tried Miller's Compound Iron Pills and before I had finished two boxes I was completely cured." Sold in Peterborough by Wm. Madill, druggist.

Most coughs may be cured in a few hours or at any rate in a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months. Keep this remedy in your house.

UNTOLD MISERY FROM RHEUMATISM

C. E. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $300 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

SIR WALTER'S VICTORY.

The Game Son of Midlothian Defeats Clifford in the Brooklyn Handicap

New York, June 4.—The first of the blue ribbon races of the turf season of 1896 was won to-day by the Oneck stables' game horse Sir Walter, who defeated the favorite, Clifford, by a short head after a desperate and exciting finish.

Notwithstanding that Sir Walter was not the popular favorite and that most of the public money was lavished on Clifford and St. Maxim, there was not one of the 20,000 persons present who refrained from cheering the gallant son of Midlothian and La Reala when Taral brought him under the wire in front of the favorite. The wildest excitement prevailed and a rush for the weighing stand was made when Taral returned to the scales. The cheering was renewed when the fortunate jockey was put into a floral chair and lifted off the shoulders of the attendants.

There was a tiresome delay of 40 minutes at the post, caused by the fractiousness of Counter Tenor, who was almost unmanageable. After four or five breaks the flag dropped. Lake Shore immediately rushed to the front, and passing the grand stand the order was: Lake Shore, Sir Walter, Hornpipe, St. Maxim, Nanki Pooh, Clifford, Keenan and Counter Tenor. As they rounded the bend into the back stretch, Clayton moved up with Clifford. At the half Lake Shore was a head in front of Sir Walter, who was two lengths in front of Hornpipe, with St. Maxim fourth, Nanki Pooh fifth, Clifford sixth and Keenan and Counter Tenor bringing up the rear. At the fifth furlong pole Taral took Sir Walter in front of Lake Shore, while St. Maxim took third place from Hornpipe. The favorite was half a length behind Nanki Pooh, who was running fifth.

Rounding the far turn, Sir Walter raced away from the rest, and there was an immediate scurry after the son of Midlothian, St. Maxim leading the bunch. Clayton brought the favorite away at a fast clip and, passing St. Maxim, on whom Sims was hard at work, set sail for the purple and gold jacket in front. Taral saw the mighty son of Bramble coming fast, and went to work with catgut and steel. Clifford was overhauling Sir Walter at every stride and Taral was working desperately. There was the wildest excitement at the last few strides. Clifford was almost level with the Knight, but Clayton's efforts should have been made sooner. Taral kept his horse's nose in front, and despite Clifford's gallant struggle Sir Walter passed under the wire a short head in front of the favorite. A length and a half behind, St. Maxim, ridden out, was third, five lengths in front of Hornpipe. Nanki Pooh was fifth, Keenan sixth, Lake Shore seventh and Counter Tenor last. The time was 2.03¾ for the full distance, and 1.42 for the mile. The betting was: Clifford, even and 1 to 3; St. Maxim, 3½ to 1 and 9 to 10; Sir Walter, 6 to 1 and 6 to 4; Counter Tenor, 12 to 1 and 4 to 1; Nanki Pooh, 12 to 1 and 5 to 1; Keenan, 15 to 1 and 5 to 1; Hornpipe, 15 to 1 and 6 to 1; Lake Shore, 40 to 1 and 10 to 1.

METEOR A FAST BOAT.

The German Emperor's New Yacht Outsails a Fleet of Big Boats Off Gravesend.

London, June 4.—The regatta of the Royal London Yacht Club was sailed to-day over the course from the Lower Hope around the Mouse lightship and back to Gravesend. The German Emperor's new yacht Meteor, recently launched from the Hendersons' yards, Satanita, Britannia, Hester, Ailsa, Isolde, Corsair and Carena were the contestants in the race for the big boats, and crossed the starting line in the order named at 12.15 p.m.

The wind was light and variable, but always southerly. The Britannia, as the boats got well clear of the Lower Hope, had a nice lead over the Meteor, and the Ailsa was last in the fleet. The Meteor won the first prize, £60, and the Britannia the second, £25. The times of the yachts crossing the finish line were: Meteor 6.53.50, Britannia 6.47.07, Ailsa 7.01.07, Satanita 7.04.15.

THE CANADIAN REGATTA.

Brockville, June 4.—At a public meeting of citizens last evening organization was perfected for carrying out the proposed annual regatta of the C.A.A.O., to be held here next August. The following committee was appointed: President, ex-Mayor Booth; Secretary-Treasurer, Frank P. Ritchie; Executive Committee, Mayor Culbert, Ald. Harrison, W. A. Gilmour, J. E. Chrysler, J. Jones, J. McCaw C. P. Greene, Mr. Booth, who has been the chief pusher in the movement, is sanguine of the success of the event. He has already over $400 subscribed, and will have no difficulty getting $400 more, which will meet all the expenses asked by the association, and at the same time enable the committee to offer liberal prizes for events apart from the association races. A chart of the course, 1½ miles, has been made and forwarded to Mr. Littlejohn, the secretary.

FOR CENTRE TORONTO.

An Enthusiastic Meeting in the Interest of Mr. Lount

Toronto, June 5.—Last night a meeting to kplace in the Auditorium in the interest of Mr. Lount, the Liberal candidate for Centre Toronto. There was a large attendance.

After remarks by Dr. John S. King and Mr. George H. Bertam, the candidate was called upon:

Mr. Lount met with an enthusiastic reception. He predicted a great sweep of victory for Laurier on the 23rd of June, and that the electors would proclaim the death knell of swindling and corruption and of the High Priest of Corruption. He had not the advantage of Parliamentary experience, but if elected he would carry out his pledges without any "wobbling." If it was fair in 1878 to put out Alexander Mackenzie because of the hard times, was it not equally fair under similar circumstances to-day to turn out the present Government in the hope that the change would be beneficial? The Conservative leaders proclaim from the house tops that Mr. Laurier is a free trader. He charged that at the recent meeting in the Pavilion Hon. Mr. Foster had deliberately misled the audience by reading only a portion of a sentence in Mr. Laurier's speech, thereby wilfully misrepresenting him as saying that he was a free trader.

With Sir Oliver Mowat associated with Mr. Laurier, they would have a Conservative Liberal Government, for though Liberal at heart Sir Oliver was Conservative in action. With these two associated, they had every prospect of freeing this country from the thraldom of extravagance and corruption. (Cheers.) In order to meet the annual requirements of the country for debt charges, the customs duty must necessarily be heavy enough, even if regulated upon a revenue basis, to give a fair measure of protection. In reply to a question, "What about Manitoba," he declared that Separate schools were not an established right in Manitoba prior to the entry of that province into the union—that the legislation upon the question was subsequent to the union, and that the judgment of the Privy Council did not compel the restoration of Separate schools, but left it to the discretion of the people of the Dominion, as a question of policy, to restore or not, as they deemed fit. The mandate of the Dominion Government to Manitoba to restore Separate schools was denounced as an aggressive, hostile, improper proceeding, and contrary to the sense of justice between man and man, and equally so between Government and Government. If the bill is passed, how can it be enforced? Can it be enforced by the bayonet? In the past history of the Empire one King, Charles, lost his head, and another was forced into exile through attempting to coerce the people, and it was an Oliver that was the executioner. If the attempt is made to force Separate schools on Manitoba there will be two Charles lose their heads, and an "Oliver will again be the executioner." (Loud laughter.) He would defend the principle of responsible government, and would never be a party to taking from any province any of its rights and privileges, and Manitoba had undoubtedly the right to pass the bill abolishing Separate schools. "I am opposed to a coercion bill. I shall oppose it if introduced by Tupper," said the speaker. "I shall oppose it if introduced by any other government." (Cheers.)

Three Great Remedies.

Sure Specifics for Kidney, Rheumatic and Stomach Diseases.

These remedies are not a cure-all for all the ills that flesh is heir to. The great South American remedies each have their particular purposes. South American Kidney Cure does not cure rheumatism, nor is it a specific for Indigestion, but no remedy, pills or powders, will give relief in the most distressing cases of kidney trouble as will South American Kidney Cure. Mr. D. J. Locke, of Sherbrooke, Que., suffered for three years from kidney trouble, expending in that time $100 on doctor's medicines. He got no relief until he used South American Kidney Cure, and four bottles he says, effected a permanent cure.

When a remedy is needed for rheumatism, it is very much needed—and quickly. William Peeg, of Norwood, Ont., was nearly doubled up with rheumatism and suffered intensely. This was in 1893. He took three bottles of South American Rheumatic Cure, and now says:—I have had neither aches nor pains from rheumatism since that time."

When disease effects the digestive organs and general debility takes hold of the system, these cannot be removed unless the medicine taken gets at the root of the trouble. South American Nervine owes its success to the fact that it works directly on the nerve centres, and removing the trouble there it rids the system of disease. Banker John Boyer, of Kincardine, who suffered from indigestion for years, was permanently cured by the use of South American Nervine. He says:—"I have no hesitation in proclaiming the virtues of this great remedy."

DR. SPROULE'S OPPONENT.

Liberals Decide to Leave Patron Bowes to Fight the Battle

Flesherton, June 5.—A well attended meeting of the Executive Committee of the East Grey Reform Association was held here to-day to consider the situation and to determine what course should be adopted in the coming election. Mr. J. J. Bell of Toronto was present and addressed the meeting. After full consideration, it was determined not to place a candidate in the field. The contest will, therefore, be between Mr. Bowes, the Patron, and Dr. Sproule, ex-M.P., Conservative. Resolutions were passed expressing confidence in the Liberal policy and in Hon. Wilfrid Laurier.

A Question.

How can we raise more corn to the acher? Why, of course, by using Putnam's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is sure, safe and painless. Like every article of real merit it has a host of imitators and we would specially warn the public to guard against those dangerous substitutes offered for the genuine Putnam's Extractor. N. C. Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence to cure the disease the cause must be removed, and in no other way can a cure ever be effected. Warner's SAFE Cure is established on just this principle. It realizes that

95 Per Cent.

of all diseases arise from deranged Kidneys and Liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drive disease and pain from the system.

For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing disorders of Women; for all Nervous Affections, and physical derangements generally, this great remedy has no equal. Its past record is a guarantee for the future.

BAPTISTS CONVENE DOWN IN MONTREAL.

TWO LOCAL REPRESENTATIVES ELECTED TO OFFICE.

Some Interesting Details of the Convention for the Provinces of Ontario and Quebec, Which is Just Concluded.

Rev. J. E. Trotter, of the Murray street Baptist church; Rev. C. F. McLeod, of the Gilmour Memorial church; Rev. Mr. McDonald, of Lakefield; Mr. E. B. Edwards and Mr. Lewis Croly, of town, have just returned from attending the Baptist Convention for the Provinces of Ontario and Quebec in Montreal.

AN INTERESTING REPORT

which was read was that of the Manitoba and Northwest missions as follows:

The result of the first meeting held by the committee had been an appeal to the churches asking each of them to appoint a live man to collect funds, and that each church contribute at least twenty-five cents per member. The replies from many points had been very satisfactory, but the majority of the churches in the two provinces paid no attention to the request. Mr. Mellick, superintendent of the Northwest work, had sent in a hopeful report to the committee. The population of the country is increasing rapidly, and the good harvests of last year have increased the faith of the people in the country. Few changes had taken place in the pastorate of the mission churches; nine new pastors had settled in the country and all the old ones were still at work. The total working force now in the field is thirty-three pastors, eight students and the superintendent. While only five of the churches are self-sustaining the the gospel is preached regularly in over a hundred neighbourhoods. Thirty-six circuit riders, each one having a circuit of fifteen miles, are supported by the funds of the society. During the past decade the population of Manitoba had increased a hundred and thirty percent., and that of the Northwest had increased seventy percent. Northwest Baptists in the same time have increased four hundred percent, or more than four times as fast as the growth of the population. The work among the Indians had been very successful. Indians had been found in heathenism and had been regenerated and Christianized, so that now there are Indian Baptist churches. The seven German Baptist churches of the Northwest were a very hopeful portion of the work. There are now forty thousand Germans in the Northwest, but with the one system of national schools there will be no German spoken in the country after this generation. The treasurer's report showed the following receipt's: Cash on hand, $73 20; Ontario and Quebec, $4,604.78; Women's Baptist Home Missionary Society, $350; Nova Scotia, $725.53; New Brunswick and Prince Edward Island, $180.30; Women's Baptist Missionary Union, $650.00; Women's Baptist Missionary Union (for Indians), $100.00; Manitoba, $1,478.98; sundry sources, $89 05; Northwest Baptist, $79.35; Standard Publishing Company, $75.05; total, $9,306.09. The disbursements amounted to $8,280 67.

The delegates attending the convention spent a very pleasant afternoon on Saturday. A special train of five cars carried the delegates and their friends out of the G. T. R. station and after a ride through smiling fields and shady woods deposited them at the old fashioned station of Grande Ligne. Besides being famed as the centre of a great branch of the work of French evangelization, Grande Ligne is a pretty, quiet country place. The people of Grande Ligne are hospitable. They were effusively glad to see the excursionists on Saturday and bundled them into spring-wagons, hay carts, buggies and nondescript vehicles for a half-mile ride to the Feller Institute. The first object of interest beside the usual country scenes, was a small log house among the trees, which was famous as the spot where Madame Feller, the founder of the institute, had begun her work. The party stopped here and sang a hymn and then passed on to where the handsome buildings of the Feller Institute stood to show what God had wrought through the efforts of some faithful servants. Little by little during the afternoon the party were made acquainted with the interesting details of the work of Madame Feller and her associates since the year 1835.

SOME OF THE STORIES

were sad and some merry, but all showed the indomitable purpose and faith of a few people in grappling with a work which the Protestant churches of Canada have been almost afraid to undertake. The Feller Institute, growing from a little school in a log house, has come to be a well recognized centre of education. It occupies fine buildings in which are accommodated French Protestants while they are prepared to enter such institutions as McMaster University.

The church is a brightly painted wooden building, large enough to accommodate a couple of hundred. In the cemetery the delegates lingered a long time. There were the tombstones and monuments of Madame Feller, Mr. Roussy and several other noted persons who had worked in the cause. The party then re-assembled at the institute at four o'clock and partook of some refreshment. Then a meeting of half an hour's duration was held in one of the lecture halls. Mr. A. A. Ayer, occupied the chair. During the meeting he announced that a collection was to be taken up. The visit of the party was to be commemorated in a fitting way. Madame Feller's first residence at Grande Ligne was now for sale and just such a building was needed for the institute, to be used as a hospital. The house, though covered with rickety boards, was constructed of solid logs and was strong and serviceable. For two hundred dollars it could be moved to the institute grounds, renovated and fixed up as a hospital. A large amount was collected. Besides this the ladies of the convention and their friends presented Mrs. Masse with a dishful of money with which to purchase a set of dishes for the teachers' table. This presentation was made by Mr. Wallace, chancellor of McMaster University, and Mrs. Masse made a fitting response. Principal Masse welcomed all the delegates to Grande Linge. He spoke with gratitude of the blessings he had received through the Feller Institute and thanked those present for their prayers and support. The Rev. James Green was the patriarch of the day. He had assisted in the early work of the institute and had several interesting stories to tell of incidents which occurred before most of those present were born. The Rev. Mr. Campbell, Mr. J. Richards and several others spoke in a happy but feeling manner.

THE CLOSING HOURS

of the convention were devoted mainly to the young. The sixth annual report of the Sunday school committee was presented by Mr. R. D. Warren, of Georgetown, to the convention. The report was a good one in every respect, the Sunday school roll was 27,266, an increase over last year of 2,743. The scholars who are church members number 7,004, an increase of 990. Ninety-two more scholars had joined the church than in the previous year, while all the collections for missions and other purposes show an increase; the total amount collected being $17,891 an increase of $821 over 1894. This progress spoke well for the zeal of the teachers and officers. The committee thought that more general interest in Sunday school work might be taken by church members; that pastors should make this work more prominent in their ministrations; that Sunday school committees should be formed in every school to call upon those children who go to none at all and persuade them to go, and also that the convention should appoint a superintendent of

SUNDAY SCHOOL WORK

for Ontario and Quebec. This should be done at the earliest possible moment and a man should be chosen who would superintend both the work of Sunday schools and young people's societies.

The Rev. J. E. Trotter, of Peterborough, moved and the Rev. P. K. Dayfoot, of Port Hope, seconded the adoption of the report, both gentlemen reviewing it favourably and referring to the suggestions made by the committee as likely to answer their objects. After some discussion, the report was finally adopted unanimously.

The Rev. C. F. McLeod, of Peterborough, read an interesting address on "What are our Churches doing for the Salvation of the Young?" Mr. McLeod began by pointing out the need of salvation for the young who were more naturally inclined to be children of Adam rather than of God. However unpalatable it may be to some, it is none the less a fact that children need regeneration quite as much as the elder ones. Jesus had made special reference to children on several occasions; for instance, when He bade them come to Him, and also when He strictly enjoined Peter to feed His lambs. More care was taken in regard to the young than formerly, the Sunday schools were more efficient, the teachers better and so was the literature, which facts have resulted in more church members. Mr. McLeod concluded his short but deeply interesting address by pleading in touching terms for more spiritual attention for the little ones. The best flowers should not be kept outside the garden fence

The president, in a few well chosen words, referred to the convention as being the most successful in the range of his experience. Much had been done and the attendance had been good. He touched upon the warmth of their reception in Montreal, and promised a hearty one for the convention next year at London.

The following officers for the Baptist Young People's Union were appointed for the coming year:

President—Rev. C. E. McLeod, of Peterborough.

First Vice-President—Rev. A. E. Matthews, of Ottawa.

Second Vice-President—Mr. F. McDiarmid, of Ingersoll.

Third Vice-President—Mr. B. Stewart, of Owen Sound.

Corresponding Secretary—Mr. Louis Croly, of Peterborough.

Recording Secretary—Mr. J. E. Hounson, of Toronto.

A Vancouver Fruiter.

In British Columbia rheumatism is very prevalent, and very hard to cure owing to dampness of the atmosphere. Mr. W. F. Beggs, the well known fruiter of Vancouver, B. C., says:—"I suffered intense pain for over four years from rheumatism of the ankles and feet. I doctored with everyone, even employing a Toronto specialist to treat me but could not get cured and had almost given up in despair. A friend told me how South American Rheumatic Cure had acted in his case and advised me to try it. The very first bottle gave me immediate relief and I am now on my second bottle and almost entirely cured. I consider it the only cure for rheumatism." Sold by H. S. Macdonald.

It is the best cough cure I have ever used says G. Fred Anderson, of T. S. Simms & Co., in speaking of Norway Pine Syrup.

The Quick Cure for COUGHS, COLDS, CROUP, BRONCHITIS, HOARSENESS, etc.

Mrs. Joseph Norwick, of 68 Sorauren Ave., Toronto, writes: "Pyny-Pectoral has never failed to cure my children of croup after a few doses. It cured myself of a long-standing cough after several other remedies had failed. It has also proved an excellent cough cure for my family. I prefer it to any other medicine for coughs, croup or hoarseness."

H. O. Barbour, of Little Rocher, N.B., writes: "As a cure for coughs Pyny-Pectoral is the best selling medicine I have. My customers will have no other."

A SON IN QUEST OF HIS MOTHER.

Charles Mark, of Burnt River, Writes to the Mayor.

Mayor Yelland has received a letter from Mr. Charles Mark, of Burnt River, near Lindsay, inquiring as to the whereabouts of his mother.

Mr. Mark states that his father and mother separated about thirty years ago, and he has never seen his mother since that time. The family lived in Mariposa at the time. The father's name was Elijah Mark, but the son thinks that his mother took her maiden name of Silvia Ann Stopham, after the separation.

He states further that he has just heard that his mother advertised for him last winter and he is in hopes that he may yet hear from her.

A TRIUMPHAL MARCH

Is Mr. Laurier's Tour in Western Ontario.

ESSEX CENTRE AND AMHERSTBURG

Welcome the Liberal Leader and Cheer His Words—Speaker Balfour Presides Over the Meetings—The Province of Ontario is With the Liberals.

Amherstburg, June 6.—Before the Liberal leader came up from his native Province to speak to the people of Western Ontario his friends expected that he would be received in a manner befitting a Canadian of his lofty character and patriotic aspirations, but even his warmest admirers were not prepared for the enthusiasm that has accompanied his progress from London to Amherstburg.s

The tour up to this point has been a series of ovations such as no public man in Csanada, not excepting Sir John Macdonald, has ever before received.

When Mr. Laurier, accompanied by Mr. William McGregor and others, reached Essex Centre on his way from Windsor to Amherstburg to day he was greeted by an immense throng of people, who gave him a most enthusiastic reception. The first spontaneous cheer was not a sufficient welcome for so great a man, and cheer after cheer went up until the people had made it abundantly clear that they were right glad to see the leader. Mr. Henry Allen, who so well represented South Essex in the last Parliament; Mr. M. K. Cowan, who beyond doubt will succeed Mr. Allen as the member; Mayor Dewar of Essex Centre and Dr. Brien, ex-M.P., were among those who received Mr. Laurier. People surged forward in their eagerness to greet their leader, and the few minutes that were spent at the station were almost entirely given up to handshaking. A heavily-laden excursion train was about to start for Amherstburg, but the people that remained behind, and their number was not great, demanded a speech.

Mr. Laurier stood on the platform of the last car, and with characteristic gracefulness of language acknowledged the cordiality of the reception that had been accorded him. He remarked that the town, in addition to being Essex Centre, was a Grit centre, and that he would expect to have Mr. Cowan in Parliament as a supporter of Liberal principles.

AMHERSTBURG'S RECEPTION.

The leader was enthusiastically received upon the arrival of the train at Amherstburg, and a procession, with the Essex Band at its head, escorted him to the Lake View Hotel, and thence to the town park, where a monster meeting was held.

Speaker Balfour was called upon to preside, and he did not require any sergeant at arms to enforce order.

The chairman, in his introductory, regarded the visit of Mr. Laurier as a good augury of success. He reminded the audience that exactly two years ago Sir Oliver Mowat had visited Amherstburg, and that he (Mr. Balfour) was elected by a majority of nearly 500. He would not be a bit disappointed if, as a result of Mr. Laurier's visit, a majority of twice the dimensions was rolled up for Mr. Cowan.

Mr. Cowan got an ovation when he arose to address the audience. He described Mr. Laurier as the most gifted, the most eloquent and the most distinguished French-Canadian in public life to-day. He showed that the Dominion Government had imposed a great hardship upon the fishermen in placing them under restrictions on the Canadian side of the international waters which were not enforced against the fishermen of the United States. As a result of the policy of the Government, the expense of the Marine and Fisheries Department had increased 400 per cent., while the catch of fish had increased seven per cent. While he believed in the protection of fish, he demanded that the Canadian fishermen should be afforded facilities for the pursuit of their avocation as good as those provided for the American fishermen. Mr. Cowan condemned the corrupt methods of the Government, and proclaimed to the people that when Mr. Laurier becomes Premier of Canada, public affairs will be honestly and efficiently conducted.

Before presenting the leader, Mr. Balfour said that the Conservatives were trying to make a point of the fact that Mr. Mackenzie had complained that he had been obliged to stand guard over the treasury night and day to keep his friends and opponents from robbing it. Mr. Laurier would not do as Sir Charles Tupper had done. Tupper had run his arm into the treasury up to the shoulder, and when he had got his fill he had sent word out of the gang to come and get their fill. The people would have a man of Mr. Mackenzie's vigilance and integrity when they had Mr. Laurier at the head of the Government. He would if necessary sleep night and day on the chest, and see that neither friend nor foe should rob it.

THE LIBERAL LEADER.

A great ovation was acorded Mr Laurier when he was presented to the audience. Though fatigued by much hard work, Mr. Laurier was in splendid form, and made a magnificent presentation of the arguments why a change should be made in the government of the country. He reviewed the administrative record of the Government, and showed with what dishonesty the people's money had been misapplied and with what prodigality it had been wasted. Mr. Laurier was obliged to give expression to his disagreement with a remark of Mr. Balfour. The chairman had stated that Sir Charles Tupper had said that he had his fill and had then invited everybody to come along and help himself. Sir Charles Tupper, Mr. Laurier declared, amid applause, had never said that he had his fill. He ought to be pretty full by this time, but nobody had ever heard him say that he had his fill. It was always "More, more," for him and his followers. Nobody had ever accused Sir Charles Tupper of having stood guard over the treasury.

The leader explained to his hearers the circumstances under which the public debt has been brought up to $255,000,000 by the present Government. He devoted some time to a criticism of the superannuation system, and concluded his reference to the subject by pledging himself to abolish the act which permits such an unjustifiable waste of the people's money.

The unjust franchise act was also condemned, and the promise was given to wipe it out of existence after the Liberals attain power.

Mr. Laurier with great clearness and force discussed the Manitoba school question and exposed the double-faced policy of Sir Charles Tupper in regard to it. He concluded a brilliant speech by commending Mr. Cowan to the electors of South Essex, Mr. McGregor to those of North Essex and predicting a victory for the Liberal party all over the Dominion.

ST. JOHN PEOPLE SORE.

Hon. Mr. Foster Had a Hard Time Getting a Hearing.

St. John, N.B., June 7.—The Foster meeting here Saturday night was quite a noisy affair and ot times the Minister of Finance had much difficulty in getting a hearing. The institute was crowded, but many were not by any means satisfied with the Government's policy and hisses and interruptions were frequent.

Forest Takes a Holiday.

Forest, June 6.—Monday from 12 o'clock has been proclaimed a public holiday to enable citizens to hear Mr. Laurier in Alisa Craig. It is estimated that from four to five hundred people from here will visit Alisa Craig on that day.

CAMPAIGN NOTES.

Sir Charles Tupper's Premature Chuckle —The Growing National Debt

The Conservatives find comfort in a statement by Mr. Birmingham, the organizer, that Ontario will send 54 Government supporters after the election. The organizer evidently forgets the warning given by his former chief, Sir John A. Macdonald, as to the uncertainty of an election. If popular feeling means anything, the prophecy is likely to be very far astray. Notwithstanding that it was badly gerrymandered, Ontario is likely to return a majority of members opposed to the Government. Sir Charles Tupper's rejoicing is a little premature.

Sir Charles Tupper characterizes the alleged agreement between Liberals, Patrons and McCarthyites as the "Most corrupt and disgraceful alliance ever made in Canada." Doubtless he considers any plan to turn himself and his hangers-on out of office worthy of condemnation, but the people of Canada will regard it in a very different light.

The national debt goes on growing apace. It has been increased $11,000,000 during the past two years, and there will be a very considerable deficit at the close of the current year, which ends on June 30, inst. Mr. Foster promised a balance, or a small surplus for the year, but instead of that he will have a deficit of a million and a quarter. These figures are from the returns of Mr. Foster's own department, and can therefore be relied on.

The Conservative candidate for New Westminster, B.C., has retired, after being three weeks in the field. A young man named McBride has been put up in his place, but that is only to prevent the election going by acclamation. It looks as if British Columbia might be the banner province in this election.

Sir Charles Tupper and a number of his colleagues held a Cabinet Council in Montreal on Friday. It may, therefore, be expected that within a few days we will hear of some new scheme for buying up the electors.

It is announced that the Government has determined to buy up all the branch railways which are feeders to the Intercolonial. It is generally considered good policy for a government to act as common carriers, and although they have almost been obliged to retain the Intercolonial in their own hands, the purchase of a number of branches at this particular time can only be regarded as a means whereby to purchase support. The celebrated Bay of Chaleurs road is one of those which comes into their hands. It would be better for the country if they sold the Intercolonial, instead of buying the branches, but doubtless some of their friends want to get rid of unprofitable property, and think it well to do so before a change of government takes place.

The position taken by the foremen of the Massey-Harris works, Toronto, comes like a bombshell to the Conservative camp. The working men of the country are rapidly coming to see that the true policy for them as well as for the employers is that promulgated by the Liberal party, in the direction of tariff reduction.

Elections June 23rd.

OUR LEADERS:—LAURIER AND MOWAT.

OUR CANDIDATES; FOR

West Peterborough.....RICHARD HALL
East Peterborough.....JOHN LANG
Nominations.....Tuesday, June 16.
Polling.....Tuesday, June 23.

To Lord Aberdeen, Governor-General of Canada:

MAY IT PLEASE YOUR EXCELLENCY,—

The candidates and agents of the Tupper Government are hawking about the country an order in Council granting over twelve millions of dollars to 50 or 60 railway projects. Is this a genuine document? Have you signed this order in Council? Parliament is dissolved, and the country has a right to ask you that the Treasury shall not be looted to provide campaign funds for a political party. You are well paid for the work you do in Canada and it is not unreasonable that the people should hold you to your duties and responsibilities. Are you protecting the treasury, or are you allowing the public credit to be pledged to the service of a league of desperate political gamesters? You are, under existing circumstances, the natural guardian of the rights and interests of the Canadian people, and they want to know if this order in Council bears your signature, and if this method of despoiling the Treasury has your approval. An answer is respectfully requested.

IS IT ASIATIC CHOLERA?

Report of a Fierce Outbreak of the Disease in the French Military Camp at Chalons.

New York, June 7.—A London special says: There are stories to-day of a fierce outbreak of a choleraic disease in the French military camp at Chalons on Thursday, which closely resembles the Asiatic reality, and at least not up to the present has it been decided to be something else. There is still some cholera in South Russia, but otherwise June finds Europe free from the epidemic for the first time, practically, in a dozen years. The disease is much worse than usual in Egypt, however, and the English officials are finding the task of forcing the population to take the most rudimentary precautions against its spread more arduous than all their other hard jobs in the Nile Valley put together.

RHODES AND BARNATO

Have an Agent at Rossland Spying Out the British Columbia Gold Fields.

Montreal, June 7.—(Special.)—Cecil Rhodes and Barney Barnato, always on the lookout for new worlds to conquer, are turning their attention to the mining regions of British Columbia and have now an expert at Rossland, who says that there is ten times more wealth in the Trail district than South Africa ever saw.

Barney Barnato alone has expended $15,000,000 in developing mines in the Transvaal and if he comes to Canada a big boom may be looked for.

BRIGHTER ERA FOR HEBREWS.

Czar's Recent Acts Give Them Hope of Better Times in Russia.

London, June 7.—Much interest has been created in Jewish circles here by the honors and decorations bestowed by the Czar of Russia on Jewish rabbis in connection with the coronation and especially by the unusual consideration shown to Jewish susceptibilities.

These marks of consideration are believed to indicate an era of greater tolerance of the Jews in Russia.

DEATH IN THE SQUALL.

The First Drowning of the Season in Hamilton Bay—John Pfeifer the Victim.

Hamilton, June 7.—The first drowning accident of the season occurred to-day, when John Pfeifer, the 17-year-old son of John G. Pfeifer, 94 Melbourne-street, lost his life near the centre of the bay in a squall that blew up suddenly about 5 o'clock this afternoon. With W. Connors and Albert Alderman, both 17 years old, living at 84 Merrick-street, and George Riger, the son of Charles Riger, 59 Caroline-street north, Pfeifer was sailing from the other side of the bay in a small boat. The squall came up in a minute, and the waves dashed over the boat, which sank with the occupants. Pfeifer went under the boat, and when he came to the surface was 25 feet from the boat. He came to it and climbed on, but was washed off, sank and never came up. The others clung to the boat for half an hour, although it turned over a dozen times, and were heroically rescued by Messrs. Doyle, Kavanagh and Roach, who risked their lives in the storm. The three were unconscious when picked up. Pfeifer's body has not been recovered.

Fired at His Wife.

Chicago, June 7.—Mr. and Mrs. Fessel separated some time ago owing to Mr. Fessel's jealousy. Last night the couple met on a street corner. She tried to get away from her husband, when he drew a revolver and shot her five times, all of the bullets taking effect. Her chances for recovery are very slight.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

BUTTER BONUSES AND BRITISH STABILITY.

The government organs are now devoting a large amount of space to advertise the fact that Hon. Dr. Montague is indirectly bonusing butter and cheese in order to capture the English market, and the farmers' votes. This bonusing system is supposed by the advocates of protection to keep the money in the country that pays the bonus, and away from the country that buys the home fed goods. For this petty purpose all protected countries have, during the last two or three decades, taxed themselves thousands of millions of dollars to enable some of their people to compete successfully in the British market. Protectionists claim that this system enriches the country adopting it and at the same time impoverishes the country that places no obstacles in the way of their people buying these bonus fed goods. The advocates of a "tariff for revenue only" claim that this system of bonusing not only impoverishes the country adopting it, but that it enriches the country whose people are allowed to buy these bonus fed goods.

Now if we keep in mind the well known fact that nearly all countries have, during the twenty odd years, tried with more or less success to capture the British market, by means of nigh protective duties and the bonus, the following figures become significant. In 1840, two years before Great Britain began to allow herself to be flooded with the cheap bonus fed goods of protectionist countries, her total wealth was $15,000,000,000. In 1896, fifty four years after this flood began, her total wealth amounts to $60,000,000,000 odd. In 1840 she had lent to her colonies and foreign countries $825,000,000. According to some authorities this asset amounted to $14,000,000,000 in 1896, a sum almost equal her total wealth when she began to be flooded with the cheap bonus fed goods of the world.

When we consider that the total amount of gold and silver (coin and bullion) in the world in 1840 was $6,980,000,000, and in 1890 was $12,240,000,000, and that Great Britain has been able out of her rapidly accumulating wealth, to lend to protectionist and bonus paying countries a sum more than equal to the total amount of the world's stock of the precious metals, the question as to whether the bonus paying countries of the world, or the country that buys the bonus fed goods, gets the money, becomes apparent. It is obvious that had the bonus paying countries not been able to borrow money from Great Britain, whose trade they are supposed to be injuring, they could never have paid the immense sums in bonuses we know they have paid.

As a Canadian it is humiliating, but as a citizen of the Empire it makes the blood tingle pleasantly to think that the measures born of the meanest spirit of the petty jealousy of Great Britain, and advocated so successfully by the McKinleys, Tuppers and Montagues of the world, have resulted in giving the people of that country, who are supposed to be injured by these measures, control of the currency of the world; for the currency of the world is redeemable in gold and silver, the world's debt to great Britain is redeemable in the same metals, and there is not enough coin and bullion in the world to pay the debt. This explains why all the great monetary transactions of the world take place in England. Russia makes a loan to China, France guarantees it, but England pays it, as we saw but lately. With the colonies in line with the motherland in their trade policy, as New South Wales already is, thus placing ourselves in a position to share the advantages, that the childish notions of the McKinleys and Montagues of the world crystalized into laws, are forcing on Great Britain, the increase in population and wealth within the Empire would be such, that in a very few years, with the wonderful start the motherland has already obtained, we would as an Empire be able to guarantee the peace of the world single-handed.

BROKEN PROMISES.

The following is the "birth notice" of the "National" Policy—a resolution proposed in the House of Commons in 1879:—

"That this House is of opinion that the welfare of Canada demands the adoption of a National Policy, which by a judicious adjustment of the tariff, will benefit and promote the interests of farmers, miners, manufacturers and others of Canada, that this policy will retain in Canada the thousands of our citizens who are now compelled to leave their own country to look for the employment they cannot find at home."

That same year, Hon. Mr. Haggart in the course of his speech on the Budget, promised that the farmers should benefit by the adoption of a protective system, which would result in an increase in the price of their products, and it will be noticed that in the resolution that formed the text of the National Policy prophecy, the farmers are put first and the manufacturers last, a position that has been completely reversed in practice; the manufacturer has had all the benefits that have arisen, for a protective policy, while the farmers have had to bear the burdens without any benefits. We all know how the N. P. has increased the price of their products which are to-day at almost the lowest notch known in history, And we all know that the N. P. has not arrested the exodus as shown by the fact that there are now a million and a half of Canadians in the United States, and the flow outward still continues—as the President of the Conservative Club, Toronto, says: "This country (Canada) is being annexed to the United States in "job lots." There you are. We see what the promises made in the name of the N. P. have amounted to, and we are getting similar promises from the party of discredited prophets to-day. Have they not shown themselves unworthy of trust? And will the people in the face of what they see give these people a renewal of confidence? Better send them to the right about and substitute for the bogus "National" Policy the true National Policy, the National Policy of tariff reform—reasonable taxation that will benefit the manufacturer by affording him free or lightly tared raw material, and will not injure any other calling.

This is a time when electors need to be patriots and not partisans.

N. P. AND LAND VALUES.

The Pioneer Express, published at Pembina, North Dakota, in its issue of May 29th, says:—

"Will Graham, John Beshtel and 'father-in-law' Wagner took a trip to Morris, Man., and the latter bought a half section, three miles from a station, for $2.50 per acre. Will some one rise and explain why it is that north of the boundary real estate values are so low, while to south farming lands command prices ranging from four to six and eight times the amount, which can be realised for similar farms; in fact, Manitobans claim they have better land."

This is only another instance, says the Montreal Herald, of what the stupid Government policy has done for the Manitoba farmer. It might perhaps interest the Pioneer Express to know that the price mentioned is really a high one, and it was not so very long ago that a large quantity of Manitoba land brought but 15 cents an acre.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

A FIEND LIKE HOLMES.

This Salt Lake Fugitive, Hermann, Has Many Murders to Answer for—Where is This Woman?

Minneapolis, June 7.—Mrs. Clara Crowley of this city has informed the police that Rev. Francis Hermann the Salt Lake fugitive, is responsible for the death of one of her sisters and the disappearance and probable death of another.

Bertha Wangen was his first wife, and she died of the grippe, her malady being aggravated by Hermann's effort to have her declared insane. He then attempted to marry Caroline, her sister, and had great influence over her, although utterly repugnant to her. She has not been seen since the spring of 1892, and Mrs. Crowley believes her to have been murdered by Hermann.

St. Louis, Mo., June 7.—Chief of Police Harrigan and Chief of Detectives Desmond have located Hermann in a city not over 12 hours' ride from St. Louis, and those who are in a position to know say that he is in either Cincinnati or a small town six miles from Indianapolis, where he is under disguise as a florist.

$300,000 Damage and Three Lives Lost in Minnesota on Saturday Night—Cyclone Comes Handy.

St. Paul, June 7.—Reports received in St. Paul up to 11 o'clock at night indicate that the damage done by the great storm of yesterday will reach $300,000. Three people are known to have perished. These were C. W. Castleton of Ash Lake, E. W. Hunter of Adrian and Moses Chadwick of Noble's County. There were at least 1000 cattle, sheep, hogs and horses drowned in Southwestern Minnesota. The greatest casualties were at Luverne and on the Rock River. Two cloudbursts struck the latter in three hours and the river overflowed the country for miles.

With the blood full of humors, the heated term is all the more oppresive. Give the system a thorough cleansing with Ayer's Sarsaparilla, and a dose or two of Ayer's Pills, and you will enjoy summer as never before in your life. Just try this for once, and you'll not repent it.

St. John, N.B., June 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after three boxes of the remedy he was entirely restored to health.

ROSEBERY A WRECK.

So a Writer is Assured on "Excellent Authority."

OFFERS TO RESIGN THE LEADERSHIP

Signs of Improvement in the South African Market — Barney Barnato's Long Head Lord Dufferin's Retirement—English Politics Very Dull—Other News by Cable.

London, June 7.—The rumor of Rosebery's forthcoming resignation of the leadership of the Liberal party, which appeared in all the papers last evening, doubtless has foundation in fact. The writer was assured to-night on excellent authority that Rosebery is more or less a mental wreck. This is the true meaning of his recent abstention from active politics. His resignation has been offered to the party leaders more than once, and only declined through the influence of a strong faction hostile to Harcourt. Preferring King Log to King Stork they have done their best to keep Rosebery in so as to keep Harcourt out. But the attempt to bolster up so self-confessed a failure as Rosebery cannot be longer persisted in even if, as they say, he is not a prey to nervous prostration in its worst form.

There are signs of improvement in the South African market, where dealers are straggling back to get under the tent of the Kaffir circus. The recovery in prices is not yet decided, but there is a great increase in speculative activity. This is due to the clemency shown to the Rand prisoners and to the expectation that the sentences of the four Reform leaders will speedily be commuted and President Kruger induced to come to England to recruit his health. "Barney" Barnato, whether he deserves it or not, gets more credit than Mr. Chamberlain for the improvement in South African affairs. He warned President Kruger that the lucrative industries of the Rand were paralyzed by political uncertainty, and that clemency and amnesty were necessary for business reasons. The fines will be settled up by Barnato and other millionaires, and another Kaffir boom will soon be in order.

Cecil Rhodes is in Buluwayo planning railways and exciting the enthusiasm of his supporters. He is "The big dog that bites," but President Kruger has not caught him yet, and if he gives up his four millionaire prisoners he will never catch him. With the prisoners released, it is now probable that the Jameson trial will speedily be wound up and that the accused will escape on technical pleadings. As for the Chartered Company, its directors are rich and powerful, and several beautiful leaders of fashion are working strenuously for it in a social way. Barnato is a practical diplomatist; he believes in paying up all forfeited stakes, shuffling the cards well and having a new deal all around.

Apart from Crete, where the situation is increasing in seriousness, and also Russia, where the brightness of the coronation festivities was dimmed by the catastrophe of the stampede for cups, handkerchiefs and sausages, the week's history of Europe is remarkably uneventful. Perhaps the most impressive incident is the retirement of Lord Dufferin from Paris, where he has made wonderfully felicitous speeches, characterized by his usual tact and literary skill.

English politics are exceptionally dull. Work in the House of Commons is dragging badly, and Mr. Balfour is hardly justifying his reputation as an energetic leader. The Liberal gain of two seats in the bye-elections is not unexpected; the present Unionist majority in the Commons does not represent the true relations of the great parties of the country. Many seats which were naturally and logically Liberal were carried by the Unionists last summer under exceptional conditions. Whenever bye-elections come on, the Liberals are likely to regain what naturally belongs to them. The debate on the Soudan policy was chiefly remarkable for the ingenuity with which Mr. Labouchere brought it on.

Mr. Gladstone's letter to the Pope has been received with consternation by Non-conformists and with apathy by English Churchmen, who assume that it will be an ineffective appeal for the re-union of Christendom, since the only substantial effect of his proposals will be the submission of a considerable number of the Anglican clergy to Rome.

The woman suffrage cause has not triumphed at Westminster, but waitresses have been substituted for waiters for serving tea on the terrace of the House of Commons. They are all dressed alike in black gowns, white aprons and lace caps, and honorable members seem to like the change.

A FAMOUS MAN!

What His Researches Have Done for the World.

All successful and distinguished men have imitators, and Dr. Chase, the well-known author of Chase's Recipe Book, proved no exception to the rule. Dr. Chase's discoveries have many pretended rivals, but no equals.

DR. CHASE.

Long scientific researches produced Chase's Kidney-Liver Pills and Chase's Ointment, the first a certain cure for all kidney, liver, stomach, bladder and rheumatic troubles; the latter an absolute specific for chronic and offensive skin diseases. Among his other discoveries were Chase's Catarrh Cure and Chase's Liniment and Turpentine for colds and bronchitis.

During 1895 the Canadian manufacturers, Edmanson, Bates & Co., 45 Lombard street, Toronto, gave away free 500,000 samples of Chase's Kidney-Liver Pills and 100,000 samples of Chase's Ointment. The return they brought proved how much they were appreciated. The same free distribution of samples will be continued during 1896. Those at a distance should enclose a 5-cent stamp and also receive a sheet of the latest music in return.

IS IT A REIGN OF TERROR?

Anarchists Resume Operations at Barcelona—several Persons Were Killed Last Night Great Excitement.

Barcelona, June 7.—The Anarchists have resumed their activity in this city and much fear is entertained that they will inaugurate another reign of terror similar to that which prevailed in 1892 and 1893, when there were many explosions here, in Madrid and other Spanish cities. At 9 o'clock to-night a bomb was exploded while a religious procession was taking place and several persons were killed. The outrage has caused great excitement. The authorities held a meeting subsequent to the explosion and resolved to take energetic measures to discover the authors of the crime and to prevent further outrages. This is the second outrage or attempted outrage within a few days. During a religious procession on the Feast of Corpus Christi a bomb was found in a dust heap near the Cathedral. It was evidently the intention of those who placed the bomb where it was found to kill or maim some of those taking part in the procession. A number of Anarchists have been arrested, but as yet there is no positive proof that any of them caused the explosion.

Later.—Six persons were killed by the explosion and 24 wounded. It is not known what explosive the bomb contained. The Captain-General of the Province of Barcelona acted as standard-bearer in the procession, while the Civil Governor and the City Alcalde held the streamers of the banner. It is thought that the designers of the outrage contemplated killing these officials. At a late hour to-night the police had not discovered any clue to the actual authors of the crime.

Two More Cartridges.

Maurid, June 7.—Two dynamite cartridges exploded outside of a house occupied by a priest at Orendain, near St. Sebastian, Province of Guipuzcoa. The house and other buildings in the vicinity were badly damaged, but nobody was hurt.

SIR HERCULES ARRIVES.

The Governor of Cape Colony in England—Kruger's Grandson a Witness Against Jameson.

London, June 7.—The British steamer Tartar, from Table Bay, etc., arrived at Plymouth to-day. Among her passengers were Sir Hercules Robinson, Governor of Cape Colony and British High Commissioner in South Africa, who was recently summoned to London by Joseph Chamberlain, Secretary of State for the Colonies, and Sir Graham John Bower, Imperial Secretary at Cape Town, who returns for further instructions from the Government in regard to the South African difficulties. There were also on board the Tartar many officials of the Transvaal, including President Kruger's grandson, Lieut. Eloff, who will appear as witnesses against Dr. Jameson and the other officers who took part in the raid into the Transvaal.

CZAR REVIEWS HIS TROOPS.

Fifty Thousand Men Were Under Arms—The Czarina Was Also in Attendance on Hodynsky Plain.

Moscow, June 7.—The Czar to-day reviewed 50,000 troops on the Hoydynsky Plain. His Majesty wore the uniform of the Preobrajensky regiment, in which he was attired when he crowned himself. In going to the plain he rode a brown horse alongside of an open carriage in which were the Czarina and Grand Duchess Maria Paulovna. This carriage was drawn by four cream colored ponies. A great crowd assembled to witness the review, and Their Majesties were enthusiastically greeted when they appeared. The Czar first rode slowly around the troops who were drawn up in lines and then went around them on a canter. The Czar and Czarina, accompanied by a brilliant suite and the visiting foreign princes, then went to the Imperial Pavilion, where the Czarina took a position in the top balcony. The Czar, still on horseback, stood a little in advance of his suite and witnessed the march-past of the troops. The interest of His Majesty did not flag throughout the ceremony, which ended at 1.15 p.m. The weather was extremely warm.

ROUTED THE ENEMY.

Sir Herbert Kitchener Cables His Victory at Firket—Seized Their Camp and All Supplies.

London, June 7.—The Marquis of Lansdowne, Secretary of State for War, has received a telegram dated Akasheh, June 7, evening, from Sir Herbert Kitchener, Sirdar of the Egyptian army, saying: "We surprised the enemy at dawn at Firket. They resisted gallantly, holding the hills and the village, but were completely defeated and their retreat cut off. We captured their camp and all their camels, horses and provisions. Our casualties were slight. The troops behaved excellently."

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Ross and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

BUILT UP THE SYSTEM IN A WONDERFUL MANNER.

James A. Bell, of Beaverton, Ont., brother of the Rev. John Wesley Bell, B.D., prostrated by nervous headaches

A victim of the trouble for several years.

South American Nervine effected a complete cure.

In their own particular field few men are beter known than the Rev. John Wesley Bell, B.D., and his brother Mr. James A. Bell. The former will be recognized by his thousands of friends all over the country as the popular and able missionary superintendent of the Royal Templars of Temperance. Among the 20,000 members of this order in Ontario his counsel is sought on all sorts of occasions. On the public platform he is one of the strong men of the day, battling against the evils of intemperance. Equally well known is Mr. Bell in other provinces of the Dominion, having been for years a member of the Manitoba Methodist Conference and part of this time was stationed in Winnipeg. His brother, Mr. James A. Bell, is a highly respected resident of Beaverton, where his influence, though perhaps more circumscribed than that of his eminent brother, is none the less effective and productive of good. Of recent years, however, the working ability of Mr. James A. Bell has been sadly marred by severe attacks of nervous headache, accompanied by indigestion. Who can do fit work when this trouble takes hold of them and especially when it becomes chronic, as was, seemingly, the case with Mr. Bell? The trouble reached such intensity that last June he was completely prostrated. In this condition a friend recommended South American Nervine. Ready to try anything and everything, though he thought he had covered the list of proprietary medicines, he secured a bottle of this great discovery. A second bottle of the medicine was taken and the work was done. Employing his own language: "Two bottles of South American Nervine immediately relieved my headaches and have built up my system in a wonderful manner." Let us not deprecate the good our clergymen and social reformers are doing in the world, but how ill-fitted they would be for their work were it not the relief that South American Nervine brings to them when physical ills overtake them, and when the system, as a result of hard, earnest and continuous work, breaks down. Nervine treats the system as the wise reformer treats the evils he is battling against. It strikes at the root of the trouble. All disease comes from disorganization of the nerve centers. This is a scientific fact. Nervine at once works on these nerve centers; gives to them health and vigor; and then there courses through the system strong, healthy, life-maintaining blood, and nervous troubles of every variety are things of the past.

THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 13,571 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

In the midst of a political campaign and business uncertainty a rattling business has been done at

ROBT HALL'S RETIRING SALE.

May was a busy month; June will be busier, for we have set the liveliest pace for the "blooming" month of the year. Such buying opportunities as we will offer are only made possible from our haste to get out of business. We are anxious to make the time as short as posible, and are ruthlessly

CUTTING THE HEART OUT OF PRICES

to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sal s may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure; less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. They consist of Remnants in Dress Goods, Cotton Stuffs, Flannels, Flannelettes, Shirtings, Table Linen, White Cottons, Art Muslins, and single pairs of Lace Curtains.

LIGHTNING'S WORK.

A Horse Killed on Saturday Night—Numerous People Severely Shocked.

The electrical display on Saturday evening was grand, but considerable damage was wrought by the lightning.

At about nine o'clock a particularly sharp thunder clap followed a pyrotechnical display, in which the sky was illuminated for several minutes by the play of forked and chain lightning, which seemed to fairly rend the clouds assunder in their vivid play.

The flashes played about on the telephone and electric light wires in a most alarming manner. The electric light service was so damaged that the southern circuit was cut off for the rest of the night. A large number of transformers were burned out, and the loss to the company will be considerable.

At the corner of Aylmer and McDonel streets the lightning ran along the wires until it reached a pole just in front of the residence of Mr. A. Lockhart, where it ran down a supporting cable to a tree close by, sprang from it into a outhouse, the interior of which it splintered up and then passed into the shed attached to the butcher shop of Mr. Lee on the corner, where it struck his horse full on the breast, killing it instantly.

The horse had been brought into the shed out of the storm and at the time it was struck, Ross Payne, the driver, and a couple of his companions were sitting around on benches, one of them being in the delivery cart. Two of the boys were knocked insensible by the shock and continued unconscious for about five minutes.

As the lighting ran down the cable it passed in front of Mr. Lockahrt's windows just as his wife was lowering the sash and she received a shock in the arms which numbed them for the rest of the night, whilst a little son, who was playing on the sofa with his feet against the wall, was thrown to the floor and everyone in the house felt the effects of the concussion.

A singular coincidence in connection with the death of the horse is that Mr. George Walton's horse was in the shed about an hour before the accident and Mrs. Walton became uneasy about it and took it down town to a stable. Otherwise Mr. Walton would probably have lost his horse.

The lightning also struck a pole on Homewood avenue and the shock threw several members of the families of Mr. Knowles and Mr. A. Macfarlane from their beds.

As the electricity played along the C. P. R. rails in front of the station a small boy who was passing along the platform suddenly dropped on the boards unconscious, but was soon revived.

A ball of fire dropped in front of Cox & Davis' office, only about twenty feet from Mr. John McClelland, who was considerably jarred by the concussion. Similar experiences to these are related all over the town to-day, but other than the death of the horse no serious accident is reported as having occurred.

Just Received—

At A. Clegg's, a line of extension tables, oak finish, at $5, $6.50, $8 and $9.50, exceptional value. Also a lot of ball racks and medium bedroom suites, cheaper than ever. Sideboards and all other lines, a full assortment now in stock. A. CLEGG, 427 George street.

After the Bees.

An Ashburnham lady on going to the kitchen door on Saturday afternoon was surprised to see a skunk—he of the odoriferous reputation—endeavouring to obtain an entrance to the hen house. Contrary to his supposed nocturnal habits, he was after his prey in broad daylight. Needless to say, the animal was not unnecessarily alarmed, but was allowed to quietly take his departure.

SATURDAY NIGHT'S BIG LIBERAL RALLY.

MR. HALL REVIEWS THE REFORM FIGHTING FORCES.

Splendid Prospects from Every Part of the Riding—The Scouts Report Successful Assaults on the Enemy's Position—The Town will Give a Good Account of itself—The Country in Line for Hall and Reform—Mr. Hall Flatly Contradicts the Rumour of his Resignation—He is "in the Field to Stay and to Win"—The Base Device of Desperate Men

There was a rousing rally of Liberal workers in the committee rooms on Saturday evening. Not only was there a large attendance, but the spirit that animated them was full of confident enthusiasm, and what was better, one of the causes of that confidence, a spirit of earnest, untiring and aggressive work. The reports brought in by the several committees from the different wards were full of information and full of encouragement, and these being supported by the reports of those who had been doing effective platform work in the country, formed a solid ground work for the confidence engendered and the spirit of enthusiasm arising from it. The addresses made were pointed, practical, and not marked by one faltering note, and were to the effect that the prospects from every quarter from any point of view was that the 23rd of June would close on a great victory for Liberalism and the Liberal candidate.

Dr. Bell, the president of the West Riding Reform Association, presided during the evening. He made a brief address in which he outlined the situation in the riding and the country, and said that with earnest, energetic work, as had marked the past of the campaign, continued to its close would be sure to result in a triumph at the polls.

Mr. George Rose gave a brief account of the work in his ward, and gave great encouragement to the other workers present. He gave valuable practical advice as to the work needed to be done, and showed that with earnest action and systematic work there was no doubt of ultimate success.

Mr. E. B. Stone was the next to address the meeting. He has spoken for Mr. Hall at many of his meetings and represented him at Conservative meetings, forms a most hopeful opinion of the prospects of Liberal success. He urged the party to strong and active work, in which event there could be no doubt of a Liberal victory in West Peterborough on June 23rd.

Mr. J. W. Fitzgerald said it was the first Liberal committee, meeting for Dominion purposes that he ever attended in town. All his life-time in Canada he voted with the Conservative party, the party of Sir John A. Macdonald, but at his death he had transferred his allegiance to the flag of Wilfred Laurier—to the other side of politics—and he was there to remain. He was never pleased with the inner workings of the local Tory machine, and especially was he dissatisfied and disgusted with the pretensions and airs of our modern manikin Conservative politicians of Peterborough. From the happy union of Sir Oliver Mowat with Hon. Mr. Laurier, in Dominion affairs, he augured the best possible results. Already peace and harmony are being felt by the people throughout the land, and hope and confidence and security are being inspired by the calm, just and firm statesmanship of Ontario's grand old man, united with the broad patriotism, the eloquence and charm of Hon. Wilfred Laurier. Their platform is the people's platform. Mr. Fitzgerald referred to Sir Charles Tupper's speech at Winnipeg, wherein he asked "If the people were going to turn him out, and put a French Canadian Catholic in his place, and to Hugh John Macdonald's statement, on the same platform, that "he would only give the majority the smallest possible relief." He also referred to Sir Charles Tupper's declaration in the House of Commons, towards the close of last session, that "he was ready to die to save the minority in Manitoba. "Yes," said Mr. F., with nice irony, "Sir Charles is ready to die to save the Catholic minority in Manitoba," and at the same time ready to die to kill the Catholic minority in South Victoria, whose able candidate, Mr. McHugh, he is using every base effort to defeat. Mr. Fitzgerald concluded by asking every man to work, and on the night of 23rd June Tories, Traitors and Tuppers would be buried in one grave, without a chance of political resurrection.

Mr. Hall, the Liberal candidate, who was received with hearty cheers, made a most inspiring speech. He was pleased to be present and see so many, especially young men actively at work promoting his candidature. He heartily expressed his entire confidence in the result of the election. He had no fears of the result.—(Cheers.) In his personal canvass he had received assurances of support from scores of persons who have heretofore acted in opposition to the Liberal party, but were now going to give it their first vote. He had the same thing to tell of the country. At every meeting he had received warm assurances of support from those who, on party lines, could not have been expected to support him. His country meetings had been in every way satisfactory and at every meeting there, several hitherto opponents declared themselves on his side.

Mr. Hall considered the Liberal prospects so encouraging that the Conservatives were becoming desperate and in their desperation they were taking a course that was their only hope. He referred particularly to the base action of circulating the false report that he was about to resign the candidature. Nothing could be farther from the truth; he was in the field to stay (cheers) and would stay till the last vote was polled that returned him as their representative for West Peterborough. (Cheers.) Business interests with which he was concerned might demand extra attention, but he told those present that they could tell everybody that he was in the field to stay and to win. (cheers.) He would do his best to win and if his friends stood by him as they had done he would win without fail.

Mr. G. M. Rogers corroborated the statements made by Mr. Hall, as to the state of the feeling in the country. He had attended many meetings and he could say without prejudice of feeling that in every case the majority present, and in many cases the large majority were in favour of Mr. Hall. His policy and that of the party he supported commended itself to the farmers.

Mr. A. C. McCallum made a rattling speech, especially from the industrial and workingman's standpoint. He had no fear that Mr. Laurier's policy of Tariff Reform would injuriously affect manufacturers. He believed that with free raw material—not to speak of the incidental protection afforded by a tariff necessary to raise a revenue—that Canada's manufacturers could compete with the United States. He showed that the Canadian workingman was as skilful, industrious, and intelligent as the American, and could compete with him under equal conditions with success. He had exceptional chances of knowing the feeling of workingmen, and he felt sure that scores of them who had been deluded into voting for the Conservative party by promises that had never been fulfilled, would vote against that party now; and he gave instances in support of his remark.

Mr. Wm. Yelland made a vigorous little speech. He had not been able to be with them as often as he would like, but he could assure them that he was with them in spirit and sympathy, and was heartily in favour of Mr. Hall. He was with them and would stay with them. As far as he was concerned could flatly contradict the rumour that Mr. Hall was going to retire in Mr. Yelland's favour. He had not the slightest intention of entering the field but would stand by Mr. Hall, who with active support of his friends would be elected.

Mr. John Kincaid, in a forcible little speech, confirmed the encouraging reports of the Liberal prospects, which would with the energetic work to which he urged the meeting, be converted into realities on the 23rd of June. Brief remarks were made by others.

The meeting was not all talk by any means. A great deal of effective work was done and arrangements made for still more active and energetic work.

Saturday night's rally shows that the Liberals of West Peterborough are fighting a winning battle and the encouragement they have received will only act as a stimulus and incentive to still more energetic work. The victory is in sight.

EAST PETERBOROUGH.

A Successful Series of Meetings.

Mr. Lang, the Liberal candidate, concluded at Warsaw on Saturday evening one of the most successful series of meetings ever held in East Peterborough.

Meetings during the week were addressed at Rockdale, Round Lake, Oak Lake, Lasswade, Caldwell's and Cheddar, addressed by Mr. Lang and Mr. McWilliams; and at Deer Lake, Apsley and Haultain, addressed by Mr. Lang, Mr. Blezard and Mr. McWilliams, and at Warsaw on Saturday, by Mr. Lang, Mr. Stratton and Mr. R. R. Hall.

Wherever Mr. Lang visits he finds invariably that the people are anxiously awaiting the opportunity of assisting in bringing about a change of government. He finds the people crying out against the disabilities arising from a restricted market. Mr. Lang is greatly encouraged by the results of his meetings so far and does not entertain any doubt of a victory on the 23rd of June.

Mr. S. H. Blake and Mr. Peter Ryan, of Toronto, will address the electors of Norwood to-night.

ANSTRUTHER.

Mr. Wm. Tucker, of Anstruther, who has been a resident of that township for the past twenty-five years, passed away on Thursday last at the age of 85 years. Mr. Tucker was one of the most prosperous farmers of Anstruther, and highly respected by all his neighbours and acquaintances in the community where he lived so long. He was in religion a Presbyterian and in politics a Liberal. He leaves a wife and family to mourn his loss. His twin brother died about two weeks ago. In the death of Mr. Tucker Anstruther loses a highly respected citizen.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condem it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

A Mirage.

Yesterday afternoon, says the Port Hope Guide, a rather strange sight could be seen from the harbour; the Cobourg wharf, lighthouse and waterworks pumping station, which is hidden from our dock by the point east of Gull lighthouse loomed up so as to be plainly seen. There were two representations of the port of Cobourg, one directly above the one first mentioned, though inverted. The North King also appeared in this double position when some two or three hours out. The smoke-stacks of the upright and inverted representations apparently almost meeting each other and smoke issuing from the space between and spreading out into waves some twenty feet wide.

SUDDEN DEATH OF MRS. ADAM HALL, IN HAMILTON.

Struck Down by Apoplexy Whilst Visiting Her Neice in the West.

The sad news reached town on Saturday of the sudden death of Mrs. Adam Hall, at Hamilton, to which city she had gone on Thursday for the purpose of visiting her neice, Mrs. Kingsley.

The particulars as far as can be learned concerning Mrs. Hell's sudden demise are that whilst sitting at the dinner table on Saturday she complained of a peculiar feeling in her head, and the next moment she swooned and was carried to her room. A physician, upon examination, stated that Mrs. Hall was the victim of an attack of apoplexy and that there was no hope of her recovery. At a consultation several other physicians coincided with this diagnosis of the case, and a telegram was instantly sent to Mr. Hall apprising him of his wife's critical illness. He left for Hamilton on the afternoon train, but another telegram was handed to him whilst en route, stating that Mrs. Hall had passed away at a quarter to six o'clock.

Mr. Hall went on to Hamilton and returned with the remains at midnight last night. The funeral will take place from the family residence, No. 300 London street, at half past two to-morrow afternoon. Mrs. Hall's virtues as a loving mother, a faithful wife and a true Christian member of the community are too well known to need enlarging upon. Her husband and four children—William, Kate, Aggie and Llewellyn—survive to mourn her sudden demise.

THE MAIL ROBBERY.

Mrs. Hamilton Released on Bail on Saturday Last.

Mrs. Hamilton was brought to town by a constable on Saturday afternoon, after having been arrested in Toronto by Detective Porter at No. 43½ Markham street, Toronto, where she was residing.

Arrangements were immediately made for her release on bail, which was furnished by Councillor White and Mr. R. B. McKee in the sum of $500 each. She will be given a preliminary hearing on Thursday.

The Chief is expected in town to-night with Hamilton, who, it will be remembered, was placed under arrest at Brockville.

CANADIAN FORESTERS ATTENDED SERVICE.

REV. J. E. TROTTER, OF THE MURRAY STREET BAPTIST CHURCH SPEAKS TO THEM.

The Members of the Order Turn out in a Body to Hear Their Annual Sermon—A Message From the Scriptures Instead of a History of the Progress of the Order.

Although the rain was pouring down in torrents at seven o'clock, last evening, yet a large number of the members of the Canadian Order of Foresters assembled in the Simcoe street rooms and marched in a body to the Murray street Baptist church, where a most interesting and appropriate sermon was preached to them by Rev. J. E. Trotter, the pastor.

On behalf of himself and the officers of the church, Mr. Trotter extended a cordial welcome to the Foresters, and stated that in speaking to them he would not enter into a history of the order, as he judged that could be best done by a member of the organization. Instead, he would try and deliver a message to them from on High.

As the text of his discourse he took the words: "Bear ye one another's burdens and so fulfil the law of Christ.—Galatians, vi chap., 2nd verse.

THE PRIMARY APPLICATION

of the text, stated the speaker, was to moral and spiritual burdens. If a man was overwhelmed by a gust of temptation, and had fallen, the text implied that those who were able to give him succor should gather round and do their best to restore him. This, says the apostle, is Christ like.

The words of the text embody a principle which applies to all circumstances. Whenever you can make a burden less heavy be ready with your help. Every philanthropic institution in the country is to-day giving illustration of this divine injunction. All such service is akin to the gospel and must be credited to the gospel as it is certainly not a characteristic of unregenerate man. It is a principle not of the world, not originating in the heart of man.

Where do you find examples of it?

You will go far to find any efforts being put forth which are truly benevolent that are not associated with the gospel of the Lord Jesus Christ.

THE HUMAN HEART

dissociated utterly from the Gospel of Jesus Christ has nothing but selfishness in it.

In countries where the gospel is unknown when a man had outlived his usefulness he was quickly put out of the way. Deformed children were not allowed to live and the aged were often knocked on the head. There was no charity or burden-bearing for others shown there.

Go through the world as you will, continued Mr. Trotter, and upon inquiring, the roots of all such service as called for in the text can be traced to christianity.

Where, queried the speaker, do you find refuges established for the orphans, the aged, the maimed, the halt and the blind—for those who are downtrodden and the suffering? It is where the Gospel of Jesus Christ has worked it leaven and no where else.

Christ's life was one long life of burden-bearing—thousads were by him relieved of their burdens. He took upon Himself the world's infirmities and sorrows and when he went to the cross He took upon Himself the iniquity of the world's sin. Then, too,

IT WAS VOLUNTARY

and does not this add to the value of the sacrifice made, asked the speaker.

How different it is to have a service rendered for love than to have it done for payment.

He came of his own accord and never gave up His toilsome ministrations until He succeeded in lifting the burden from human hearts. Ye were not saved therefore through silver and gold or things corruptible, but through His precious life.

Deity could do no more—He gave Himself. Not merely to give us an example, but to die for us and it was for His enemies He did this.

When we are trying to do anyone a service and are repaid by sneers and continuously we feel like letting them go their own way, but not so with Christ. He laboured patiently until the end and does this not add value to this ministrations? He was not recognized as a burdenbearer, but hounded to death and reviled as He died upon the cross and yet these were the ones for whom He made the sacrifice and shed His precious blood and at the end when dying at their hands had still the love for them to say, "Father, forgive them for they know not what they do." This, the speaker thought, was burden-bearing of a nature to inspire the world.

In closing he referred to the grand work of burden bearing assumed by the Foresters and besought them in endeavouring to carry out the principle of the text to take Christ as their example.

If you would always be healthy, keep your blood pure with Hood's Sarsaparilla, the One True Blood Purifier.

THE REVOLT AGAINST TUPPER AND HIS PARTY

WORKINGMEN FOR THEMSELVES.

GREAT REVOLUTION IN INDUSTRIAL SENTIMENT

Solidly Against Tupperism—Massey-Harris Employees Almost Solid Against an Anti-Labour Government—Workingmen Working for Themselves—They Will Vote for a Fair Play Tariff.

We find that in Toronto the change of sentiment in the workingmen of the Massey-Harris Company is but a repetition of the sentiment felt throughout the country and that while the proprietors may, in their own interests, feel it their duty to support a policy of high taxation, yet the workingmen are beginning to feel that it is time for them to look after their own interests, which nobody, either in politics or industrial enterprises, seem to look after. They feel that while certain favoured manufacturers have been benefitted by the policy of high taxation the workingman has not had any share in the benefits. They see under a policy that promised high wages to the workmen and steady employment, that wages are not higher and that employment has not been and is by no means constant. They have been compelled to work at short hours with frequent stoppages of the works, so that in the course of the year they have been working scores of days short of the full number of working days. They do not blame the employers entirely, but they are death on the fiscal system that produces such results, and are on political strike—striking against the domination of a weak and corrupt Government that neither directly nor indirectly promotes or cares for the interests of the workingman. All over the land the workingmen are in revolt. Hoping against hope they have trusted and supported the Government, but they have concluded that there must be a change. And the workingmen will help very largely to bring about that change. Thousands who have voted with the Government, sometimes because they were virtually compelled against their better judgment to do so, will vote thus no longer. The intimidation of employees will no longer avail. The workingmen are aroused, and neither intimidation or any form of coercion will avail to prevent them from voting the present incompetent and corrupt Government out of power. The great Massey-Harris Company of Toronto, employs hundreds of workingmen, who will in this election present a very formidable front against Tupperism, and will vote almost solidly for the Liberal candidate. Hertofore these votes have decided elections—in favour of the Government—this time these votes will decide the elections the other way.

Below is given a list of the foremen in the Massey Harris Works, who are "again the government" for the first time, and it may be pointed out that the feeling of the foremen of the several departments is a good index of the feelings of the men working under their supervision:

Mr. J. C. Love, superintendent of the Toronto Massey Harris factory, an N. P. Reformer, will vote against the government.

Mr. John Orr, head inspector in the new bicycle works, and a strong Conservative, is another voter against the government.

Mr. Robt. Orr, his brother, also a strong Conservative, has no use for Tupper and will vote accordingly.

Mr. Wm. Brown, for 15 years foreman of the construction department, will cast his first Liberal vote at this election.

Mr. Wm. Stilton, foreman in the saw shop, a strong Conservative, 20 years with the Massey firm, is working for and will vote for the Liberal candidate.

Mr. Harry Fields, head engineer, will not under any circumstances vote to put Tupper into power.

Mr. Geo. M. Kennedy, foreman in the blacksmith shop, is a Reformer, and will vote against Tupperism, and the same can be said of Mr. James Gray, foreman in the knife department.

Mr. Henry Jones, foreman in the bar department, who never cast a Liberal vote, will vote against Tupper.

Mr. W. Wolfe, foreman in the shipping room, will cast his vote against the Government.

Mr. J. H. Feeny, foreman in the wood work department, an old-time Conservative worker, will do all he can to return a candidate pledged to tariff reform.

Mr. John Meehan, foreman in the extras department, will vote against the Government.

To these opponents of the Government are to be added the names of Mr. John Clokey, foreman experimental department; Mr. Gorman Powers, foreman in the paint shop; Mr. Neil McNeil, foreman in the lumber yard, and Mr. W. F. Johnston, general superintendent of the Brantford and Toronto factories. There are only three of the heads of departments in the Massey-Harris works who were not interviewed as to their intentions, and other foremen say that these are all opposed to the Tupper Government.

And a similar upheaval has taken place in many of the establishments in Peterborough. The workingmen are awakening, and it will take better arguments than intimidation to make them vote against their better judgment and against their own interests. They will vote for a fair play fiscal policy—in which workmen will be considered as well as the employer.

KILLED ON THE TRACK.

A Man Named Callahan of Pontypool is Struck by No. 5.

As Express No. 5 was pulling out of Pontypool this morning a man was observed walking on the track. The train was running under a full head of steam and was going at the rate of about forty-five miles an hour, when, on rounding a curve, a man was observed walking on the track.

The warning whistle of the engineer was shrilly sounded, but had no effect. The engine was reversed, but the rate of speed at which the train was travelling precluded the possibility of a quick stoppage and the man was struck with such force as to kill him instantly.

It was ascertained that his name was Callahan and that he is a very eccentric old man living at Pontypool. Early each morning he gets up and goes for a long walk on the track, which habit was undoubtedly responsible for his death.

H. LeBrun & Co.

WOMEN are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. A man doesn't like to get old at all. But worse than getting old, is the appearance of age. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs wherever they may be and forces them out of the body. It promotes the copious secretion of the digestive fluids, and assists in throwing off refuse matter. It makes the appetite good and the digestion strong. It isn't a violent medicine. It isn't strong medicine. It does nothing but good to every portion of the body. It doesn't do harm in one place while it is helping another place. It is meant to help the whole body and it does help it. Whenever a man feels himself failing in health, when he feels that he is getting old too fast, that his vitality is low, and that he is losing flesh, he should waste no time in getting the "Golden Medical Discovery." It will build up quicker than anything else in the world. It will give him rich blood and solid flesh. It will make him feel half as old and twice as strong Druggists sell it.

Dr. Pierce's 1008 page book, the "People's Common Sense Medical Adviser," in Plain Language, tells all about the "Golden Medical Discovery," and is a complete family doctor book, profusely illustrated. It will be sent free on receipt of thirty-one (31) one-cent stamps to cover cost of customs and mailing *only*. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.

THE DEBT INCREASE.

Eleven Million Dollars in Two Years.

ANOTHER DEFICIT THIS YEAR

The Finance Minister is a Million and a Quarter Short—Mr. Laurier Continues His Triumphal Tour of Western Ontario—Other Campaign Items.

Ottawa, June 5.—The deficit for the current fiscal year, which ends on the 30th of this month, will be in the neighborhood of $1,250,000, notwithstanding that Mr. Foster promised a smal surplus, or at all events assured Parliament that the equilibrium between revenue and expenditure would be maintained. The net debt during the year will have increased by three million and a half dollars, making an increase for the two past years of about eleven million dollars. The figures are those supplied by the Finance Department, and the public may rely upon it that the very best possible showing has been made of them, considering that the country is now in the throes of a general election. Last month the organs of the Government were jubilating over the prospects of a surplus when the figures for April were made known, but the statement for May, which has just been prepared by the Finance Department, completely destroys whatever hopes were then entertained in that direction. There was a drop in the revenue from $3,057,240 for May, 1895, to $2,977,412 for May, 1896. The principal decrease was in excise. There was an increase in the expenditure for the month of $458,719 as compared with May, 1895.

The expenditure for the eleven months ending May last was $23,596,864, against $29,302,832 for the same time ending May, 1895, or a saving of $995,988. This would only leave $2,351,198 to meet the heavy expenditures which always fall due towards the end of the year.

MR. LAURIER'S TOUR.

Wildly Cheered at Belle River and Windsor Yesterday.

Windsor, June 5.—The attention of the municipal authorities in Western Ontario is called to the fact that in cities, towns and villages under their jurisdiction there is not to be found a public or any other kind of a building capable of accommodating people who want to see and hear Hon. Wilfrid Laurier.

The leader was to have appeared in the Opera House here to-night, but that thing was out of the question, and the meeting was taken to an open square where there was room for everybody. A great wave of Liberal sentiment has swept over this end of the province, and the appearance of the chieftain among the people has imparted additional force to it.

AT BELLE RIVER.

Mr. Laurier, accompanied by Mr. Wm. McGregor and Hon. Jas. Young, was met at the station at Belle Rive, on the arrival of the Grand Trunk midday express by an immense crowd of people, who cheered the visitors with much enthusiasm. A large proportion of those in the assemblage were French-Canadians, who led in the demonstration to their distinguished compatriot. A procession, headed by the Belle River band, escorted the leader to Stover's Grove, where, under the branching and leafy elms, the people gathered to get Liberal doctrine from its most eloquent exponent.

The meeting was opened with the singing of "The Maple Leaf Forever" by the Laurier Male Quartet of London. The fame of the quartette has spread abroad, and it is much in demand for the meetings yet to be held.

The Chairman was ex-Warden Bouteiller, who extended a very cordial welcome to the Liberal chieftain.

Mr. McGregor, who has during his Parliamentary career well represented the people of North Essex, was given a spirited reception by his constituents. Among them were many Conservatives, who are in this election found within the ranks of the Liberal party. Mr. McGregor paid an eloquent tribute to his leader and to Sir Oliver Mowat, under whom, he said, there would be capable and honest government. He demanded such a change in the fiscal system of the country as would enable the farmers of Canada to buy in the cheapest market and sell in the dearest.

When Mr. Gaspard Pacaud, ex-M.P.P., of Windsor, had made a stirring speech in the French language Mr. J. D. A. Deziel, Reeve of Rochester, presented to Mr. Laurier an address from the French-Canadian people of the constituency. On behalf of the County of Essex an address was presented to Mr. Laurier by a delegation composed of Reeve Mather, Tilbury North; Reeve Menard, Belle River; Reeve Corbett, Maidstone; Reeve Derocher of Sandwich West, and Reeve Deziel of Rochester. It was read by Mr. Mather.

THE LEADER'S SPEECH.

Mr. Laurier, who was given an ovation, first spoke to the people in the French language. Soon they were cheering wildly, and their enthusiasm became more intense as the leader proceeded. He also spoke in English, paying particular attention to the Manitoba school question.

Mr. Young was most effective in the brief address that he delivered.

Amid much cheering the meeting was brought to a conclusion, and then the people formed into a line of march and accompanied Mr. Laurier to the station. He was sped on his way by a volley of farewell cheers.

WINDSOR'S WELCOME.

His welcome in Windsor could not have been more enthusiastic than it was. Everybody was out to see him and to cheer him. Men, women and children, Grits and Tories, came to participate in the demonstration. When mutual greetings had been exchanged between the distinguished visitor and prominent local Liberals a procession was formed, with the 21st Fusilier band at its head and a host of people in its train. In the carriages that were in line were Mr. Laurier, Mr. McGregor, Mr. Francis Cleary, President of the North Essex Liberal Association, and the other officers of that organization. The streets of Windsor were lined by an enthusiastic crowd, who received the leader with thunderous cheers of welcome. Arrangements had been made to hold the meeting in the Opera House, and, large as the building is, it was totally inadequate to accommodate the vast throng that was determined to hear the principles of Canadian Liberalism enunciated by their most eminent advocate. A platform was hastily hammered together on Ouellette Square, and when the time arrived for the opening of the meeting a bigger crowd was collected there than ever before had been got together in Windsor. President Cleary was in the chair, and he proved himself to be the man for the place. The meeting was agreeably and appropriately opened with an excellent rendering of Alex. Muir's patriotic song.

Mr. McGregor was the first to address the immense audience, and he spoke most effectively.

Hon. Mr. Young was next introduced, and a few minutes sufficed for him to present an able and convincing argument in support of the revenue tariff policy of the Liberal party.

MR. LAURIER.

The shout was raised again when the Chairman presented Mr. Laurier as the coming Premier of the Dominion of Canada.

Speaking of the prospects in Ontario and Quebec he said: "It is stated that the great banner province of Ontario is to give to the Liberal cause a sweeping majority this year. But you are told also by our friends of the Conservative persuasion, publicly and privately, with still more glee, that in Quebec the Liberal party are to be swept out of existence. Let me tell you this, that if there is to be any sweeping in the province of Quebec during these present elections, I beg to say, and to repeat, that the handle of the broom will be in the hand of the Liberal party. I make no boast, but I speak whereof I know. I know, also, and you know, too, from the echoes of the contests that come to me from far and near, that the Government and their supporters are getting desperate, and they are resorting to desperate means in order to influence public opinion. The prejudices of race and religion are resorted to by the Government and their supporters in order to influence public opinion, and the epithet that is daily hurled at my head is that I am a traitor to my race and a traitor to my religion. I have only this to say: I am true to Canada, and, being true to Canada, I am true to my race. I do not admit that the race to which I belong has any distinct interest from any other race in this country. I am a Canadian first, last and all the time. It is upon this ground that I am engaging in this contest, and upon this ground I shall win or fall forever." Mr. Laurier directed his speech mainly to the presentation of the Manitoba school question. He exposed the halting, vacillating, two-faced course of the Tupper Government, and obtained every manifestation from the audience of satisfaction with his own policy of conciliation.

While the leader was speaking rain began to fall and it was moved to adjourn to the Opera House, and a rush was made for that building. When as many people as could get in had gained admittance the meeting was resumed, and, amid enthusiasm, Mr. Laurier concluded his speech.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill, druggist.

A Laughable Task.

Miss Lillian Debanham, the owner of the English comic weekly Judy, is to make a new departure for a woman by undertaking to edit this paper. A woman as editor of an intentionally humorous periodical occupies an almost unique position.

CONCLUSIVE PROOF.

From a Well Known Citizen.

"My daughter Polly, has for more than a year been troubled with severe symptoms of kidney disease. She had constant and acute pains in her back. The pain in her head was fearful and almost unendurable. It frequently prevented her from attending school, and she found study at home practically impossible. She had no appetite, and did not sleep well. The pain was very severe around her heart and she was much troubled with fluttering and palpitation. She was completely worn out in body and was tired and drowsy all the time. Her mother and myself became seriously alarmed as she was constantly getting worse.

"Last July my daughter Sarah, a teacher in the Public School at Kingsville, Ont., came home to spend her vacation, and finding her sister in such a distressing and dangerous condition, said, I am taking Doan's Kidney Pills and they are doing me much good, I have a box with me and will divide with Polly, which she did. By the time Polly had finished the half box her improvement in health was so marked, that I procured more from Mr. Fraleigh's drug store.

Her full restoration to health and spirits was rapid and continuous. She has now none of her former dangerous, painful and distressing kidney troubles. She eats and sleeps well, and for more than a month has enjoyed the most vigorous health. She has not lost a day at school since she commenced taking the pills, and has so much faith in them since they restored her to full health that she wants me to keep six boxes in the house all the time, in case they should be needed and not available. Her cure has been so wonderful she thinks they will cure any complaint. If the pills had cost $10.00 a box, I would not have begrudged the money. The restoration of my daughter to full health and strong girlhood, from her former serious sickness, etc., has made her mother, myself and daughter a happy family.

"I make this sworn statement with the full approbation of my wife and daughter, voluntarily and without any urging or inducement whatever, to show the gratitude my daughter, wife and myself feel for the wonderful cure wrought by the Doan Kidney Pills. We have not the least doubt that her trying the pills just at the time she did saved us a large doctor's bill, as she was all but sick abed at the time. I am sixty-two years of age, a carpenter by trade, have been a resident of St. Mary's for forty years, and county constable for thirty years and am well known, and I make this solemn declaration believing the same to be true, and knowing the same to have the same effect as an oath, and according to the Act respecting extra Judical Oaths 1893.

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $500 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only nine-twenty-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

HAMILTON RACES.

Some Very Exciting Finishes in the Events of Yesterday.

The Hamilton Jockey Club furnished another capital day's sport yesterday, and three close finishes resulted. In fact, the racing was away above the average, and one of the largest fields ever seen in Canada went to the post for the last race. The weather was all that could be desired, and the attendance, though not up to the previous days, was good, while the track showed great improvement, and was fast, the racing of two days over it having a good effect. The public had rather the best of the game, as three favorites were successful, and Maguire was also well played, so that the only race that the public fared badly in was the 2-year-old event, in which starter Fitzpatrick made a very bad send off. Joe McGlone, Mr. C. Boyle's stable jockey, who is riding in exceptionally good form, shared the honors with Mr. Seagram's rider Lewis, each capturing two races, while that good horseman Jimmy Mara pulled off the jumping race.

Game little Stonemason, who is at his best just now, was made an odds-on favorite for the opening event, and was well played by the big bettors at 3 to 5 and 1 to 2, while Alamo, the Kapuna colt and Bounding Cecil were mostly fancied for the place. Alamo was first away, but soon gave place to Bounding Cecil, who showed the way to the stretch a head in front of Stonemason, who was lapped by Alamo. Bounding Cecil died away, allowing Stonemason and Alamo to fight it out to the end, Stonemason securing the verdict, though McGlone thought he had won with Alamo.

Only three put in an appearance for the Wentworth Plate, in which the Seagram stable again furnished the favorite in Springal, whose best price was 1 to 2. Mr. Boyle, who was represented by Maguire, was confident that his horse would win, and owing to this fact many played the son of Favordale at 2½ to 1, while Royal Oak, the other starter, was friendless. Maguire showed the way until entering the back stretch, where Lewis moved up with Springal, and the pair ran lapped to within a hundred yards of the finish, when Maguire forged ahead and won by half a length, Royal Oak being beaten off.

The Cradle Handicap, for 2-year-olds, furnished another close finish, though marred by a bad start. Maud Lyles, who shared the honors in the betting with Sleepy Belle, was practically left at the post, allowing Sleepy Belle and Edna D., the only other starter, to have the race to themselves. Edna D., cleverly ridden by McGlone, went to the front at flag fall, but McGlone very wisely "waited" with the filly, who led Sleepy Belle a length into the stretch. Here Newmeyer moved up with the Belle, but Edna D. had something left, and Newmeyer went to the whip, riding a very poor finish, and Edna D., thanks to McGlone, won by a head. Maud Lyles closed up a lot of ground, but could never overtake the leaders, and was pulled up in the stretch.

The Walker Cup Steeplechase had six starters, with Lion Heart an even-money favorite, which appeared a very good price against the big horse. Mr. Allie Gates thought that Vicar of Wakefield had a royal chance, and so told his friends, which was no doubt the reason for the price keeping up on Lion Heart. Notwithstanding Alfonsina's good race on the opening day, as good as 6 and 8 to 1 was laid against the mare for a place, at which price there were many takers, though the bulk of the money went on Lion Heart and Vicar of Wakefield. What chance the latter had was soon put an end to, as he cut his "quarter" badly early in the race, which was evidently not noticed by his rider until he came to grief in the double on the second turn of the field. Lion Heart, as on Wednesday, opened up a big gap as soon as the first jump was reached, and the race was never afterwards in doubt, the big son of Lepanto, admirably ridden by Mara, winning, pulled up, by half a dozen lengths from his stable companion, Alfonsina, who beat the greatly overrated Red Pat for the place.

No less than 14 went to the post for the last race, with Musselman the favorite, Crimea and Miss Celestine being next in demand. They were sent away to a fairly good start, considering the number of horses on such a narrow track. It was not till well into the stretch that Lewis was able to get through with Musselman, but as soon as he found an opening he ran over his horses, winning handily by several lengths, Crimea beating Maximum in a drive for the place.

Even Judge Armour Laughed.

In the Belcher-Levy case the other day considerable amusement was afforded by witnesses to the court and those present at the trial in Toronto.

Apparently His Lordship, Chief Justice Armour, knew a good thing when he saw it, and he leisurely permitted defendant's lawyer all the time desired.

One of the witnesses was the celebrated Sam Jones, the artist.

It was to the interest of the defendant to show that the witness was a super-sensitive critter.

"Now, Mr. Jones," began the lawyer for the defence, "If you were to see a badly painted picture would not your aesthetic taste be violated and outraged?"

"Well," drawled Sam, in his inimitably languid manner, "not more than a badly constructed sentence of special pleading!"

Even His Lordship was convulsed.

Professional Point of View.

Doctor—Well, between you and me, I think we can make a couple of hundred at least.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

NO FEMALE BARRISTERS.

Law Society Benchers Decide Women Cannot Plead in Ontario Courts—Clara Brett Martin's Case.

Toronto, June 6.

Despite the efforts of woman to supplant man in every walk of life, she meets with a set-back now and again. In conservative Canada, at least, she does not have things all her own way.

Woman has succeeded in making considerable headway in medicine, but in the other two professions, the ministry and the law, she does not find such easy sailing.

Yesterday the benchers of the Law Society of Ontario decided not to admit women to practice at the bar. Five years ago Miss Clara Brett Martin, a young lady of strong mind, set out to open up the legal profession for herself and her sisters. She articled in an office and took up the Law School course, with the result that she passed her final examination a couple of weeks ago.

In anticipation of thus concluding her studies, she, two sessions since, got her friends in the Ontario Legislature to pass an act allowing women to be called to the bar on condition that the Law Society Benchers gave their consent.

This important proviso in the act the Benchers yesterday took advantage of, voting down Miss Martin's application by a division of 9 to 6.

Miss Martin cannot, therefore, plead in the courts of Ontario, but she may practice as a solicitor, that is to say, she may conduct such legal business as will not call her into a court room.

The following were called to the bar yesterday: Messrs. F. W. Tiffin, A. B. Pottinger, D. A. McDonald, J.W. Payne, E. J. Deacon, G. H. Thompson, J. E. McMullen, O. A. Langley, C. B. Pratt, J. E. McPherson, M. J. O'Reilly, G. L. Smith, T. B. German, E. J. Buttler, E. F. Lezier, Otto E. Klein and M. A. Secord.

BAY OF QUINTE CONFERENCE.

The Result of the Election for Officers for the Ensuing Year.

At Friday's session of the Bay of Quinte Conference Rev. M. J. Bates was continued as conference evangelist.

Rev. R. M. Pope was allowed one year more of service than appeared in the minutes. This effects his claim for superannuation, and the error (for so it proved) was not discerned until this year. Mr. Pope was restored to the active work after having retired for a year on account of ill-health.

The report of the Committee on Conference Relations was adopted. It recommended the superannuation of Revs. R. W. Marsh, S. F. Depaw, Geo. Brown, R. Hazzard and Geo. Dunkley. Rev. J. S. Clarke, though better in health, is still unable to do full ministerial work and was therefore superannuated for another year.

The retiring president, Rev. F. B. Stratton, said he was glad to see so many spared to attend this conference. He referred feelingly to the late Dr. Curts, and thanked his colleagues for their support during his term of office. He also spoke of the subjects which would be taken up. Of one subject he said that when it was asked by the Church of Rome that the free people lay their liberties at the feet of the Pope, he believed that some action should be taken.

Ballots were then distributed for the election of a president. The names receiving votes were those of W. J. Crothers, T. M. Campbell, N. A. McDiarmid, W. R. Young, T. W. Jolliffe, R. Hill, C. W. Watch, C. Parker, Geo. Copeland, J. W. Margin, A. R. Campbell, J. J. Rice, E. A. Sanderson, Dr. Cade, D. S. Houck, J. C. Wilson.

Rev. T. M. Campbell was elected with 138 votes, there being only 121 required for an election.

When called to the chair, the new president thanked the brethren for their esteem and support.

The next ballot was for secretary. The names before the conference were: J. McFarlane, W. J. Young, J. C. Wilson, J. A. McCamus, R. Taylor, Dr. Margin, D. Balfour, T. W. Jolliffe, W. R. Young, W. J. Saunders, W. J. Jolliffe, W. Hill, J. Thorn, T. W. Leggett, J. P. Wilson, W. J. Crothers, D. M. McCamus, T. J. Edmison, M. A. McDiarmid, S. T. Barclay, W. J. Wetherell, J. J. Rae, G. H. Copeland, T. Manning, W. G. Hudgins, C. Parker, R. W. Clarke, H. Y. Mounteer, R. Duke, A. J. Strike.

W. J. Young was elected with a total of 190 votes.

CRICKET

The first cricket match of the season took place on Saturday afternoon on the P. A. A. A. grounds between the first team of the Trinity College School and the local eleven. Owing to the fact that the Peterboroughs have altogether neglected practice they were easily beaten by nine wickets, and unless the members intend getting out on the field and getting into shape it would be as well if the cricket club dissolved, as by making such an exhibition as made on Saturday they certainly reflected no credit on the town. Of the entire eleven Ray, Horkins and Rogers were the only men who played in any kind of form.

In the first innings the local men made 43. As will be seen the start was a good one, and 34 runs had been piled up at the fall of the third wicket. After that, however, the whole of the rest of the team could only make four runs amongst them.

That there is good material in the local team cannot be denied, but when the members refuse to turn out to practice the public is justified in losing all patience with them. The grounds are in splendid shape and easy of access, so that no excuse for non-attendance at practice can be considered.

It is to be hoped that the defeat of Saturday will have a salutary effect on the Peterborough eleven and that hereafter the practices will be regularly attended in order that the score may be reversed in the return match with the School.

BASEBALL.

A most exciting baseball match was played on the Jubilee ball grounds on Wednesday between the "Mud Pouts" and "Chubs" of Keene. The game was played on time, being one and a half hour, and was won by the "Mudpouts" by a score of 7 to 6. An extra minute or two overtime decided the game. The players lined up as follows:

Mudpouts,	*Chubs.*
Capt D Moore.....pitcher	Dinsdale
H Howard.....catcher	C Beal
W Newton.....1st b	J Howard
D Cruickshanks....2nd b	W Garnet

Jubilee Point.

The steamer Beaver has an excursion to Jubilee from the front this week as well as the North Star from Port Hope, Bewdley and other points. Evidently the point is becoming famous as a summer resort. A number of other excursions are filed, and by all appearances things will be most brisk this season. Mr. Archie Fulton, who has charge of the ball grounds, has on hand the necessary for all sports. The grass on the ball grounds has been cut with a lawn mower, and is in A 1 shape.

THE WHEEL.

Bicyclists should accustom themselves to "riding the pedals" as much as possible, allowing only part of the weight to rest on the saddle. Practice has shown that the best position on the saddle is in front of the post, so that a plumb line dropped from the nose of the seat to the ground would intersect the crank when in a horizontal position on the upward turn, about two and one-half inches back of the shaft. This puts the rider well over his work and allows him to exert more power with less fatigue than would be possible with the seat placed behind the saddle post. The elevation of the saddle should be such that the rider may easily reach the pedal with his heel while it is at the lowest point. If the country to be ridden over is rough it is well to place the saddle lower than this; but a saddle placed too low is not adapted to fast riding. The ends of the handle bars should be higher for road riding than for track use, and should be placed nearer the body. Narrow handle bars are much more comfortable for any kind of riding than the very wide ones which were in use a few years ago. A bar seventeen inches from tip to tip, in a straight line, will be found about right for any but very stout men. Women should use a nineteen-inch bar.

LAST DAY AT HAMILTON.

Some of the Best Racing Ever Seen in Canada—Baseball Record.

Saturday marked the close of the Hamilton Jockey Club meeting, and a most successful wind-up it was. The crowd was the largest during the four days' sport, and the racing, though [illegible]tive of no close finishes, was good, [illegible]nished a new Canadian record for [illegible]se and a half, when Basso galloped home in front for the Hamilton Cup in 2.35¾.

The weather was intensely warm, and though uncomfortable for the spectators was most suitable for fast racing, as the times of the various events will show. The track was in excellent condition, while Starter Fitzpatrick was in good form with his flag, though he came very nearly making a mess of it in the last race by sending the favorite, Lord Nelson, off lengths behind. Had Mr. Boyle's horse not outclassed his field he never could have won.

Though four favorites were successful, the public fared rather badly, as three of them, Parbuckle, All Blue and Lord Nelson, being held at such short prices that only the big bettors secured any of the bookies' money and not much of it at that, for outside of Cartwright there was hardly a book in the ring that would take a hundred-dollar bet, and the majority of them would "rub" for fifty, even on an odds-on favorite.

The time between the races was made pleasant for those not interested in the "ring" by the 13th Batt. band of Hamilton, which rendered all the popular airs on the lawn in front of the stand. Altogether it was a most enjoyable ending to the most successful meeting ever held in Hamilton, and much credit is due to Mr. Frank Nelson and Judge R. R. Pringle for the manner in which many things were conducted.

Halfling and Sun Up shared the honors in the betting for the opening event, though at the close Mr. Seagram's horse had the call. Miss Young and Petrolene were both well supported, especially for the place. To a good start Halfling was not long in outrunning his horses, and won easily by two lengths. Miss Young and Petrolene fought it out for the place, Miss Young beating her stable companion a head. Sun Up being fourth, a length away.

The Knowsley Plate for 2-year-olds had but two starters, with Parbuckle a prohibitive favorite, while as good as 3 and 4 to 1 could be had against Fiddle. The pair ran together till near the finish, where Lewis drew away with Parbuckle and won easily by three lengths.

The Red Coat Steeplechase, notwithstanding that All Blue won easily at the end, furnished a capital race. All Blue was made a hot favorite, the best price being 4 to 5 and very little of that, he going to the post at 1 to 2. Thorncliffe, though he had beaten All Blue two days before, was not considered dangerous, as he had to pack up 180 pounds, which weight it was thought he could not handle. However, he was fairly well played at two's, while Prince Charlie, Ebbs and Laddie had little support at 6, 8 and 10 to 1 respectively. All Blue, after negotiating the first jump, went to the front and was never afterwards headed, winning easily by a dozen lengths, Thorncliffe, well ridden by Mr. George Carruthers, finishing second, with Prince Charlie third.

The Hamilton Cup furnished the surprise of the day and a new Canadian record for the distance. It had but three starters, but was one of the best betting races of the meeting. Maurice, notwithstanding his heavy impost, was made the favorite, and heavily backed by his owner. Havoc, too, was greatly fancied by his stable, while Basso's owner thought that his horse also had a chance, and played him, though mostly for a place, the books laying 7 to 5 that both horses would beat him. Contrary to his previous races, Basso was sent to the front at flag fall, while McGlone on Havoc was evidently given orders to lay with Maurice. When the flag went down Burt Flint moved off with Basso, and passing the stand was from 20 to 30 lengths to the good. McGlone and Blake then began to realize that they had allowed Basso to get too far away, and at once commenced to close up, but Basso had secured too great a command, and though Havoc and Maurice closed up *somewhat* on the leader, they could never overtake him, and he finally won pulled up by four lengths, Havoc beating Maurice a length and a half for the place.

The Gore Steeplechase resulted in another surprise, and the downfall of the favorite Alfonsina, who could only finish second to Red Pat. Alfonsina, on her two seconds to Lion Heart, and besides having Jimmy Mara on her back, was made a warm favorite. Many shrewd judges, however, played Red Pat, as he would not have Lion Heart to carry him so fast. This proved right, for Red Pat went to the front at the start, and not having anyone to carry him along, made his own pace, and going well within himself won cleverly by half a dozen lengths, Alfonsina finishing second a dozen in front of Somergault third. The race clearly demonstrated that Red Pat is not the high class horse he was represented to be. If given his time through the field and allowed to make his own pace he will run a cracking good race, but tiptoe him and a dog can beat him.

Lord Nelson, as in Toronto, brought the meeting to an end by a victory for the Boyle stable. He was an odds-on favorite, but his backers can thank McGlone for his success for not rushing him off his feet when he got away so badly. Though Lord Nelson appeared beaten when the flag went down, McGlone took things easily and, closing up gradually, finally won nicely and snugly by a length and a half, Alamo being the same distance in front of Mr. Sass.

ALL FOR LAURIER.

The Leader in North Middlesex and South Perth.

TEN THOUSAND PEOPLE TURN OUT

To Welcome the Coming Premier and Listen to His Eloquence—Great Demonstrations of Enthusiasm at Alisa Craig, Lucan and St. Mary's.

St. Mary's, June 8.—The second week of Mr. Laurier's Ontario tour opened auspiciously to-day with two magnificent meetings, which combined, brought more than 10,000 people within range of his eloquence. Alisa Craig, in North Middlesex, and St. Mary's, in South Perth, two constituencies that must surely be redeemed to Liberalism on election day, were the stopping places of the chieftain, who was the chief attraction of the demonstration. At both the popular enthusiasm was absolutely without limit. The greatest political gathering in the history of these places took place to-day, and if they do not make their mark upon the ballots all the present indications are misleading. The unbroken record of successes that has crowned the efforts of the leader to convert the people of western Ontario to the Liberal view of public questions promises to yield good results. In no constituencies are the prospects brighter than in North Middlesex and South Perth.

A crowd of citizens awaited the arrival of the leader at Alisa Craig station and raised a shout of welcome when he appeared before them. Mr. Laurier was escorted to the Queen's Hotel, over the doorway of which was the motto, "Welcome, Canada's coming Premier." Here Mr. Laurier met a great many of the prominent Liberals of the district, all of whom were enthusiastic over their determination to do everything possible to secure by fair means the election of Mr. Valentine Ratz, the popular Liberal candidate in North Middlesex. Upon all roads leading to Alisa Craig there was an uninterrupted procession of conveyances laden with the good people of the whole countryside. From the west came a special train bringing a thousand more people from Sarnia, Forest, Camlachie, Thedford and Parkhill, with the Excelsior Band of Forest. Business at Forest was entirely suspended, the Mayor, Mr. Isaac Pickering, having issued a proclamation declaring a half holiday that the citizens might have an opportunity of hearing the address of the Liberal leader and participating in the demonstration in his honor. One member of the Forest Liberal Club marched under a huge sunshade bearing the legend, "Laurier, Lister, Fraser and victory."

A monster procession in honor of the leader was one of the features of the demonstration. There were in line many hundred people, while the gaily decorated streets through which they passed were thronged.

A crowd of 5000 people surrounded the platform that had been erected in the agricultural grounds,and in thunderous tones cheered the leader., his principles and the candidate, Mr.Ratz. When Mr. Laurier kissed pretty little Mildred Giles in acknowledgment of the dainty bouquet that she presented to him, the cheers began,and continued at intervals throughout the whole meeting.

The chairman was Mr. Collins, who is the most worthy President of the North Middlesex Liberal Association, and on the platform beside the distinguished visitors were many well-known citizens.

The cheering was simply tremendous when the chairman mentioned the name of the leader in his capital introductory speech.

Mr. Hyman led off in the speaking, and his effort was an able one.

Mr. Ratz, who as a citizen, enjoys the repect and confidence of all who know him, was given a reception characterized by genuine enthusiasm. Mr. Ratz, in the speech that he made, showed an extensive acquaintance with public questions,and a thorough appreciation of the present needs of the people.

It would be impossible to convey an adequate idea of the ovation that was accorded the Liberal leader when he was presented to the great sea of humanity before him.

Mr.Laurier began his speech in this way: I wish that umbrella could be spread all over Canada so as to keep the Tories in the shade for some five years or more. These ringing cheers with which you have been kind enough to greet me here, this vast and numerous attendance, this sea of upturned faces is evidence that here, as elsewhere in this western peninsula of Ontario, the people are determined that on June 23 the cause of reform, the cause of progress, the cause of peace and harmony shall triumph. Let me tell you this—I think I can say it with more truth than many perhaps in Canada—that though it may seem somewhat pretentious in me to say so, I believe there is not a man in Canada who can speak with greater authority than myself on this matter, because it has been my privilege during the last three or four years to cover almost every inch of ground of our common country, and the reports from all sections give the same effect, that the people of Canada are determined to have a change. It is manifest to every one who wants to see in the eastern part of the province. It is the same thing in Manitoba and the Northwest Territories and British Columbia. It is the same thing in the Maritime Provinces. It is also the same thing in Quebec, the good old province of Quebec. Let me tell you this, my fellow-countrymen: On the 23rd of June Quebec will not be far behind you,if it is at all behind you. We know that the Government and their supporters are becoming desperate. They have resorted to all the means and all the methods whereby they hope to influence the electors of my native province. They have appealed to the cries of race and creed, and the epithets hurled at my head by the supporters of the Government that Mr. Hutchins is supporting in this province is that I am a traitor to my race and religion. (Cries of "Never, never,") I am true to Canada, and if true to Canada I am true to myself and to all races. (Cheers.) I do not claim for that race any special privileges—equal rights, equal justice for all, that is the method upon which we shall triumph in this country. (Cheers.) Mr. Laurier devoted his speech to an exposure and condemnation of the scandals which have disgraced the Conservative Administration and to a statement of the position of the Government and of the Liberal party in regard to the Manitoba school question.

While he was speaking black clouds overspread the sky, and soon rain began to fall. Mr. Laurier proposed to break off the speech before its natural conclusion, but the people would not hear of it. ("Go on; go on," they cried, "we don't mind the rain.") The rain came pouring down more heavily every minute, and Mr. Laurier closed amid great cheering.

The other speakers were Mr. W. C. Moscrip of St. Mary's, Mr. M. Y. McLean, M.L.A., South Huron, and Mr. George C. Gibbons of London.

LUCAN AND ST. MARY'S.

A crowd was at the station at Lucan to see the leader and to give him a cheer. The train just stopped long enough to enable him to exchange greetings with a few of the prominent citizens of the place.

When the train reached St. Mary's an immense crowd of people was at the station to give the leader a cheer of welcome, and the demonstration was of a character so hearty as to make Mr. Laurier feel at once that he was among friends. The St. Mary's Band and two four-in-hands were among the features of the procession that escorted him to the rink, in which was held the largest meeting that St. Mary's has ever known.

When the leader entered the building a cheer went up from the six thousand throats owned by the six thousand people who were assembled there. The meeting had already begun, and Mr. James Grieve, ex-M.P., the Liberal standardbearer in North Perth, was in the middle of his speech. All eyes were immediately directed towards the leader, and a mighty wave of enthusiasm swept over the multitude. Great as was the crowd when the rink was reached, it did not include all who desired to hear Mr. Laurier. About a thousand people were unable to get inside, but the spirit of the audience extended beyond the limits of the building and fired with enthusiasm those who were without.

The chairman of the meeting was Mr. E. W. Harding, president of the South Perth Liberal Association.

When quiet was restored Mr. Grieve proceeded to the end of an exceedingly able address.

Mr. Erb was loudly cheered by the electors of South Perth,who will mark their ballots for him on election day. Mr. Erb spoke briefly and well,and the audience gave him its undivided and appreciative attention.

Mr. Thomas Ballantyne, than whom there is no more highly respected or more popular man in South Perth, was cordially received by the audience. Mr. Balantyne compared the tour of Mr. Laurier in the west with the famous campaign of Mr. Gladstone in Midlothian, and he predicted a like successful result.

The presentation of Mr. Laurer to the audience produced such an outburst of enthusiasm as almost lifted the roof from the building.

Finally Mr. Laurier was able to make himself heard. Though much fatigued by the labors of the past few days, the leader discussed the one subject that he took up, the Manitoba school question, with characteristic ability.

The meeting was brought to an end by the kind of enthusiasm that must be regarded as the presage of victory.

To Lord Aberdeen, Governor-General of Canada:

MAY IT PLEASE YOUR EXCELLENCY,—

The candidates and agents of the Tupper Government are hawking about the country an order in Council granting over twelve millions of dollars to 50 or 60 railway projects. Is this a genuine document? Have you signed this order in Council? Parliament is dissolved, and the country has a right to ask you that the Treasury shall not be looted to provide campaign funds for a political party. You are well paid for the work you do in Canada and it is not unreasonable that the people should hold you to your duties and responsibilities. Are you protecting the treasury, or are you allowing the public credit to be pledged to the service of a league of desperate political gamesters? You are, under existing circumstances, the natural guardian of the rights and interests of the Canadian people, and they want to know if this order in Council bears your signature, and if this method of despoiling the Treasury has your approval. An answer is respectfully requested.

MOVE LOOKING TO PEACE IN CRETE

Motion for the Second Reading of the Irish Land Bill—The Barcelona Bomb Killed Eleven People—Daring Brigandage in Turkey, Near Constantinople.

London, June 8.—In the House of Commons to-day Rt. Hon. George N. Curzon, Parliamentary Secretary to the Foreign Office, stated that the British Consul in the Island of Crete had been directed by the Government to act conjointly with the other foreign representatives in negotiations with the Turkish authorities toward the conclusion of a peaceful settlement of the differences between the Cretan rebels and the Turks. Mr. Curzon added that repeated representations had been made to the Porte, impressing upon the Turkish Government a sense of danger of serious trouble in Crete unless efforts were made to pacify the Cretans at once.

Rt. Hon. Gerald Balfour, Chief Secretary for Ireland, moved the second reading of the Irish Land Bill.

Timothy M. Healy, in the course of the debate on the bill, approved part of the measure. The bill, Mr. Healy said, might be made beneficial, but it did not bear the stamp of finality. If the bill was intended to get rid of the land question in the future, he continued, the Government was greatly mistaken.

John Morley said that there was not the slightest chance that the bill would pass this session unless it were sent to a grand committee to be amended.

John Redmond demanded that the Government declare whether or not they intended to pass the bill. The Ministry, he said, admitted the great importance of the bill, and promised to carry it through speedily, yet they had placed trivial measures in front of it to obstruct its passage.

A Powerful Search Light Being Erected to Control Halifax Harbor.

Halifax, June 8.—A powerful electric plant is being installed by the Imperial Government at Fort Clarence on the Dartmouth shore of the harbor. A dynamo of great capacity is being built for the purpose. The building in which the electric plant will be located will be situated on the south side of the Fort, and will be built into an excavation dug for the purpose. The building will be entirely concealed beneath the mound and protected by earth and masonry. The object of the installation of the plant is to obtain a revolving search light. The light will be of great power and will control the entrances by the eastern passage and Drakes' Passages, and also all the western entrances north of York Redoubt.

LAURIER

The Liberal Leader's Triumphal Tour.

ONTARIO'S GREAT OVATION

Met and Warmly Welcomed by Multitudes.

Heard With Unexampled Enthusiasm--He Will Close his Triumphal Progress at Peterborough.

Before the Liberal leader came up from his native Province to speak to the people of western Ontario his friends expected that he would be received in a manner befitting a Canadian of his lofty character and patriotic aspirations, but even his warmest admirers were not prepared for the enthusiasm that has accompanied his progress from London to Amherstburg.

A SERIES OF OVATIONS.

The tour up to this point has been a series of ovations such as no public man in Canada, not excepting Sir John Macdonald, has ever before received. Like a victorious General carrying everything before him, he has passed from place to place enrolling the people under the standard of good government so ably borne by himself.

Mr. Laurier is confident, despite the methods resorted to by his opponents, that the Liberals will carry Quebec by a handsome majority. He will go back to Quebec at the end of this week not with the promise but with the assurance that Ontario will not be outdone by her sister Province, but that she will send a strong delegation to Parliament to support the new Administration of which he will be the head. At every place at which Mr. Laurier has spoken this week the meetings have been larger and the

ENTHUSIASM MORE PRONOUNCED

than, according to the statements of residents, they have ever known before. London, the arena of many a bitter fight, and where, as a consequence, political feeling is intense, has had demonstrations of great magnitude in the past, but none has equalled the affair of Wednesday night, despite the fact that the most commodious building in the city was not sufficient to accommodate one-half of the people who desired to hear the leader. The meeting at Glencoe was unparalleled in its proportions, in its enthusiasm and in the area of country represented. People who are not in earnest do not as a rule travel 30, 40 and 50 miles to listen to a political address, no matter how eminent the speaker may be, yet at Glencoe there were amongst the thousands who threw up their caps for the Liberal leader men from distances as great as these.

THE CHATHAM MEETINGS.

The fact that the committee had arranged to hold the meeting in the drill hall of Chatham shows that the good Liberals who composed it were completely taken by surprise when the people began to assemble. Previously a drill hall full of people was regarded as a large crowd and one before which it would have been a compliment to any public man to appear. When, a year ago last January, the Ministers visited Chatham they thought they had done well in partially filling the opera house. On Thursday night Mr. Laurier spoke in French to an audience of his compatriots that packed the opera house, and afterwards addressed a multitude of 10,000 people in Tecumseh Park.

Friday

WAS THE GREATEST DAY

in the history of the Village of Belle River, for never before had so many people been seen there at one time. The French Canadian portion of the population attended the demonstration in great numbers, and none more heartily than they cheered the leader's declarations of policy on the Manitoba school question. Unlike Sir Charles Tupper, Mr. Laurier was not under the necessity of adapting his speech to the racial and religious prejudices of the particular audience before which he happened to be. To the French-Canadian Catholics of Essex he appealed on the same broad and patriotic ground as he had advanced before his English and Protestant audiences at London, Glencoe and Chatham.

A MULTITUDE AT WINDSOR.

The gentlemen who had the arrangements in hand vainly imagined that they had a building in Windsor big enough to hold the people who would attend the Laurier demonstration there. The opera house was secured and made ready for the event. But the physical impossibility of getting the crowd into the building soon became apparent, and the committee hastily erected a platform on Ouiette square. In the middle of Mr. Laurier's speech rain began to fall. Under ordinary circumstances this would have been sufficient to cool the ardour of the most enthusiastic crowd. But this was no ordinary occasion. The people kept their places until Mr. Laurier broke off his speech and Mr. McGregor announced that an adjournment would be made to the opera house. A wild rush was made for that building, and, although only a fraction of the original crowd got in, there was soon not even standing room.

Hon. Mr. Laurier will close his tour in Western Ontario on Friday evening, and en route east he will take in Peterborough on Saturday afternoon next. Fuller details of the occasion are given elsewhere in this issue.

A DISCRIMINATING TARIFF.

A correspondent sends the following letter:—

To the Editor of the Examiner:

SIR,—You say in your editorial columns that the Conservative Governmen levies a discriminating tariff on British goods, as compared with goods from the United States, to the extent of 10 per cent. Now, I have read the Customs Act through and through, and I can see no discrimination whatever in favour of any country—they are all treated alike. On what paragraph of the Act do you base your argument?

Yours,
S.

A burglar in the practice of his "profession" shoots a citizen who resists robbery. Our correspondent might read the catalogue of a manufacturer of fire-arms "through and through" and fail to see where any weapon on that list is specified as intended to kill a man. The pistol becomes a murderous weapon only by its use for that specific purpose. Our correspondent may not find a specified discriminating paragraph set forth in the tariff list. It's the effect of the operation of the tariff that discloses the discrimination. The was the discrimination arises is this:—A duty to a certain amount is collected from a certain amount of British goods imported, while a smaller amount of duty is collected upon a larger amount of American imported goods. For instance, say the average percentage of duty on the British imports is 22 per cent., and the average percentage of duty on American goods is 12 per cent., the difference is then ten per cent. of a discrimination against British goods. This is just as practical discrimination and more so than if the discrimination was specified in the tariff. An official book was printed by the Ottawa Government to show how much higher the tariff was on British goods than on goods imported from the United States. That statement prepared for private information of the Government fell into the hands of its opponents, and it gave the ad valorem rate paid on woollen, cotton and iron goods imported into Canada during the year 1892. This list contains thirty-two articles, with parallel list of the duty on goods imported respectively from Great Britain and the United States. According to this list the average duty on the American imports was 37½ per cent. and on the British goods the average duty was 49 cents, a discrimination in this case of about 11 per cent. Of course the difference in duty would vary from 8 to 11 per cent. upon the articles selected for comparison. It is fair to state that many of the duties were changed in the revision of the tariff, but the fact remains that even the revised tariff discriminates in operation against British goods, though such a fact may not be specifically stated in the tariff list.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

BOTH WENT TO DEATH.

A Thamesville Man Takes Cramps While in Bathing, and a Companion Dies in Attempting a Rescue.

Hamilton, June 8.—(Special.)—Word was received this afternoon that P. Finn, section foreman of the T., H. and B., and A. Lamb, were drowned in the Grand River at Thamesville at noon to-day. Finn was in bathing, when he was seized with a cramp. Lamb jumped in after him, but the former struggled so hard and interfered with his rescuer to such an extent that both sank before help came.

With the blood full of humors, the heated term is all the more oppressive. Give the system a thorough cleansing with Ayer's Sarsaparilla, and a dose or two of Ayer's Pills, and you will enjoy summer as never before in your life. Just try this for once, and you'll not repent it.

General Gascoigne Tells of His Visit to Toronto and London—General News From Ottawa.

Ottawa, June 8.—(Special.)—Gen. Gascoigne has returned to the city after a visit of inspection of permanent corps at Toronto and London. The General, speaking to your correspondent to-day, said he was greatly pleased with everything he had seen on his Western trip. The barracks at London were the best that he had seen in the country and the arrangements were most excellent. He was delighted with the state of efficiency in which the corps at Toronto are and with the care which seems to be taken by the commanding officers. The Military Tournament was remarkably good, and to one coming out straight from England and familiar with the tournaments which have been given at Islington for some years the Toronto authorities had no reason to be ashamed of their efforts. The General goes to Kingston on June 23 to attend the closing exercises of the Royal Military College, and at the same time will inspect the permanent corps there.

A squall, accompanied by terrific lightning and a heavy downpour of rain, struck the vicinity of Quyon on the Ottawa River Saturday evening. Fifty men were at work on the boom in the river. Two were killed by lightning and five seriously injured. The dead are: Frank Ferrier, Ottawa, and Nat McNeil, Bristol, Que.

The Fisheries Department has been advised that mackerel in large quantities are schooling within the three-mile limit and that the Nova Scotia fishermen are making great catches. There is a big fleet of United States vessels ten miles off the Nova Scotia coast and seemingly luck has been against them, as the fish are not plentiful beyond the territorial waters of Canada.

It is expected that one of the first things Parliament will be asked to do on reassembling will be to pass an interim appropriation to provide for the holding of the annual military camps of exercise. Gen. Gascoigne said to-day that he had every hope that the camps would be held this year as in previous years.

The Government cruiser Dolphin has seized three large trap nets in Long Bay and Pickerel River on the Georgian Bay. The department is determined to put down illegal fishing.

Peter Menard and wife were each fined $100 and costs for selling liquor without a license.

A Million Cigars

Is'nt bad selling for a small store like

Alive C. LeGros

The man that can handle a million Cigars must have a pull on the trade, and be on the inside to know how to buy and sell them right.

And Still They Come!

Just received another special shipment of Choice Smokers, just like this.

"The clouds I form are fleecy blue,
And the sweetest smoke of all;
If you try me once you'll think so, too,
I'm the lovely Cigar.

"I am made of the finest, purest leaf,
I'm cured in the Golden Sun;
For care and worry I bring relief
To my good friends every one.

Come in for a quarte'rs worth, and see how many you get. The Flavour's right. If you prefer smoke to smudge get your Cigars right here from the undersigned Cigar King,

The Little Ones at Home.

Are They Frail, Restless and Nervous?

PAINE'S CELERY COMPOUND WILL MAKE THEM BRIGHT AND HAPPY AS LARKS.

As a rule, parents are to blame if their children are puny, weak, nervous and irritable. The little ones may be well clothed and amply fed, and yet sadly neglected.

It should be remembered that the children inherit many of the troubles that parents suffer from. Thousands of little ones suffer from weakened nerves—a legacy from father or mother. This nervous condition begets irritableness, bad temper, headache, indigestion, stomach troubles and impure blood.

If your dear ones are afflicted with any of the troubles mentioned above, how can you expect them to be bright, happy and healthy? They need your best and most intelligent care, or they will grow up in disease and utter wretchedness.

Give the children Paine's Celery Compound; it is the medicine that is particularly adapted for fortifying the nervous system, for building flesh, bone and muscle, and for producing pure, clean blood. Paine's Celery Compound is pleasant to take, it is entirely vegetable, and cannot harm the most delicate organism. It will banish every trace of sickness and disease in a very short time; it will give natural appetite, sweet sleep, and will make the little ones as happy as larks.

A mighty chorus of gratitude has gone up all over the Dominion from glad fathers and mothers who have had their dear ones perfectly restored to health by Paine's Celery Compound.

Mrs. Powell, of Palace street, Montreal, writes:—

"I have used Paine's Celery Compound with most gratifying results at different times when I found myself run down to a nervous condition. I have also found the Compound to be an excellent preparation for my children.

"In the early part of the past summer my children seemed to be frail, nervous and restless and had no appetite for their meals. Fully convinced from personal experience, of the great value of Paine's Celery Compound, I resolved to have my little ones use it. The results are so pleasing and satisfactory, that I am prompted to advise you, for the benefit of parents who are anxious regarding the condition of their dear ones who are frail or nervous."

M'KENDRY'S DEPARTMENTAL STORE

Completely Gutted by the Flames—Narrow Escape of the T. Eaton Company's Establishment—Guinanes' Shoe Store Threatened A Lively Time for the Firemen.

Toronto, June 9.

For 15 months Toronto has had an immunity from the big conflagrations which wrought destruction to The Globe office, the Osgoodby Building, and Simpson's mammoth store. Smaller fires have occurred, but until last evening no disaster involving hundreds of thousands of dollars damage and the throwing out of employment of large numbers of people had taken place in this city.

The other big fires which wrought such destruction occurred in the winter time, between January and March of 1895, and each after the midnight hour. The conflagration last evening was just as the tired employes had left the store and when Yonge-street, so busy at every other hour of the day, was well nigh deserted. The clouds of rolling smoke had scarcely darkened the sky ere the brigades were on the scene in response to the general alarm. At first it was believed that the great departmental store of Timothy Eaton & Co., the largest in Canada, was on fire, and thousands of people flocked to the scene, running as it for dear life. When the flames shot aloft the excitement of the crowds in Yonge street was intense and it was at one time feared that the adjoining premises would not escape the fiery contagion. To the spectators whose nerves were highly strung, it appeared as if the firemen were dilatory in discharging the streams of water on the burning building, but this feeling soon passed off, as quickly there were 20 streams of water playing on the burning store. The steam fire engines did good execution and the utility of the expensive water tower in fighting such a fire in the upper stories was very apparent. Owners of adjacent premises were soon on the scene, and with commendable alacrity the apparatus of T. Eaton was playing on the roof of his extensive premises. Even Robert Simpson's departmental store, separated from the block by Queen street, was drenched over the roof by his own apparatus as a precautionary measure of protection from flying embers.

After over an hour's vigorous work the fire was subdued, but not before a quarter of a million's worth of damage had been done, one of Toronto's fine stores completely destroyed and hundreds of hands deprived of the means of earning their daily bread. Fortunately in this fire there were no catastrophes involving danger to life and limb, as was the case in the big predecessors in Toronto's scorching.

It was near 8 o'clock before the assurance that the fire was checked could be given, and by that time all that was left of the immense stock of drygoods and general merchandise lay in a heterogeneous mass in the pools of water that lay on the floors and in the basement, which was filled with water. The building was almost completely gutted.

Mr. J. N. McKendry left the store at 5.30, and was at his home when apprised by telephone that his property was in danger. Five minutes later he was on the spot, but in that short time the fire had gained such headway the almost broken-hearted owner of the store saw the stock must be a total loss. Mr. McKendry, who was seen during the progress of the fire, said the stock was valued at $200,000, but was only insured he thought, for about $75,000. He criticized severely the manner in which the fire had been dealt with. "When I went into the annex," he said, "there was almost no pressure. The stream in use there went scarcely 10 feet from the nozzle. It's disgraceful that such a condition of affairs should exist. I cannot imagine how the fire could have gained such proportions had it been properly dealt with."

Insurance on the McKendry stock was, in the aggregate, $130,000, distributed as follows: Lancashire, $2500; Sun, $15,000; Insurance Company of North America, $5000; National, $5000; Union, $7000; Norwich Union, $5000; Royal, $10,000; Commercial Union, $5000; Phoenix of Hartford, $5000; Connecticut, $5000; Scottish Union and National, $9000; London and Lancashire, $5000; Manchester, $9000; Alliance, $10,000; Northern, $7500; London Assurance, $5000; North British and Mercantile, $10,000; Queen, $5000; Mercantile, $5000. On the building, which was owned by Mr. Charles Page, the insurance was $27,000, divided among these companies: Liverpool, London and Globe, $10,000; Western, $10,000; Lancashire, $4000; Norwich Union, $3000. The figures are official, being obtained from Messrs. Love & Hamilton and Mr. J. B. Reed.

The origin of the fire is a mystery. Strange to say, there is no theory advanced that accounts for it. However, it seems to be the general opinion that the fire started in the southwest corner of the store.

To the efforts of the firemen were added those of Mr. Eaton's private brigade. This is composed of some 40 employes, who have at their service about 300 feet of hose. Their familiarity with the building enabled them to be of the greatest service in quenching the flames, and, in fact, it would be no exaggregation to say it is to them that their employers owe in no small degree their thanks for preventing the total destruction of the big store and contents. Two streams of water were kept playing from the two hydraulic pumps on to McKendry's roof, and thus the danger to adjacent buildings from flying sparks was prevented. Mr. Wilson Phillips is their chief, and deserves every commendation for the state of efficiency to which he has brought them.

About 250 employes will be thrown out of work by the fire.

Mr. McKendry was very much broken up. He was around the scene of the disaster for some time, until friends persuaded him to go home, as he could do no good.

The amount of water thrown into the building cannot be estimated. The water tower, which, in this fire alone has paid for itself, was throwing a stream at a pressure of 285 pounds. the two steamers did excellent work. Water rushed out of the doorway of the first floor in a regular river. The basement contained two feet of water at the finish.

The Eaton Company suffered some slight damage from the water leaking through into their basement. It was necessary for a short time to use one of the steamers to pump the water out of the cellar.

Part of the stock in the top floor of Guinane Bros.' store was damaged by water to the extent of $5000, a member of the firm informed the reporter. The loss is fully covered by insurance.

An insurance adjuster of experience expressed the opinion that the damage to the building, exclusive of fixtures, would not exceed $10,000.

Another firm suffering was the Clapp Shoe Company. Their damages were caused chiefly by smoke and water, and will total well up into the thousands. This is covered by insurance. The main floor has not been disturbed and business will go on as usual today.

Racked with Rheumatism

Unable to Walk, owing to excruciating pain.

After ten years' terrible torture, Cured by Scott's Sarsaparilla.

A. H. Christiansen, writing from the Clifton House, Niagara Falls, says: "I owe you more than I can ever pay. For ten years I suffered the tortures of the damned with rheumatism. Father had it before me, and I believe it is an hereditary disease. My knee joints would get inflamed and if I was out in any "weather" I was sure to be laid up, which to a travelling man is a calamity. In a score of Canadian towns local doctors treated me, some giving relief, others none. I read that Sarsaparilla was a rheumatic cure, and I asked a druggist for "a bottle of the best Sarsaparilla on the market." He gave me Scott's, remarking that it was an improvement on all others, and that he could honestly recommend it. I have taken four bottles, and am as free from pain as a man can hope to be. I was out in a rainstorm two days ago and never felt a twinge. As I said before, to Scott's Sarsaparilla I owe more than I can ever repay."

The best remedy for rheumatism, sciatica, and neuralgic pains—all arising from the presence of poison in the blood—is Scott's Sarsaparilla, a modern concentrated medicine, prompt in its curative effects. Doses from one half to one teaspoonful. At $1 per bottle of your druggist.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

DOWN TO DEATH.

An Unknown Man Grabbed for His Hat, Slipped and Went Over the Falls at Niagara.

Niagara Falls, N.Y., June 8.—An unknown man, who is described as being about 30 years old, medium size, and dressed in light clothes, and who is thought to be from Buffalo, lost his life here to-night in a very peculiar manner. While standing on Luna Island at the brink of the Cave of the Winds, his hat blew off and, in making a sudden attempt to catch it, the unfortunate man lost his footing, slipped into the water and on to the slimy rock, and in an instant was swept over the falls before the eyes of several spectators. A companion of the man, who was standing near him when the accident occurred, rushed off like mad and has not since been seen. The body has not yet been found.

He Hired a Horse and Buggy From a Liveryman at Comber and Skipped.

Comber, June 8.—A stranger hired a horse and rig of Elliott's livery Saturday for the purpose of driving to Tilbury and return. The rig not being returned as agreed, Mr. Elliott became alarmed and started to locate the outfit. The man was seen driving across the plains towards Chatham, but no further trace can be found of the rig. The buggy is a new one, just out of the shops of Gray & Co., Chatham. The horse is a small black, with white left hind foot.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

In this warm weather, when the body is losing so much moisture in perspiration, the natural demand that this loss shall be made good creates what is known as an "exquisite thirst." to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sal s may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure, less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. They consist of Remnants in Dress Goods, Cotton Stuffs, Flannels, Flannelettes, Shirtings, Table Linen, White Cottons, Art Muslins, and single pairs of Lace Curtains.

This certifies that having been duly notified of the sudden death at the Lakehurst Sanitarium, in this town, of one Enos Dunford, a patient in the said sanitarium, and having been forcibly urged by Dr. McBride, the medical superintendent of sanitarium, to hold an inquest on the body of the said Enos Dunford, we, the undersigned, Coroners of the County of County of Halton Ontario, this morning, viewed the body of the said Enos Dunford, carefully inquired into the history of the case and the treatment of the same. We are fully convinced that the said Enos Dunsford's death was the result of natural causes arising from his former excesses and that there is nothing connected with the case to justify us in taking the necessary oath for the conducting of an inquest.

HAMILTON IN THE TOILS.

The Chief Brought His Prisoner From Brockville Last Night.

Chief Roszel came home from Brockville yesterday with Hamilton, who was immediately brought before the Magistrate and the date of his preliminary hearing set for Tuesday, June 16th. No bail was offered for his release and he was therefore committed to gaol.

The Brockville Times says in regard to the matter:—"Chief Roszel of Peterborough arrived in town yesterday morning and returned last night with the prisoner, Robert Rogers, (the name Rogers was dropped in his adoption, and consequently he was known in Peterbrough as R. R. Hamilton), arrested here on a charge of mail robbery in Peterborough two years ago. A bag was missed one night when Rogers carried the mails. No trace as to the guilty party could be obtained at that time. Since then developments have come to light which warranted Rogers' arrest. It seems the stolen bag contained registered letters and jewelry. Rogers' wife was placed under arrest in Toronto on Saturday and on her person was found some of the stolen jewelry. She was taken to Peterborough and will be held as a witness against her husband. Chief Roszel was driven around town yesterday by Chief Rose and expressed himself delighted with the beautiful location of the Island City."

WEDDED AT NEWCASTLE.

An Old Peterborough Boy Joins the Benedicts.

On Saturday Mr. C. E. Clarke, of the firm of A. R. Clarke & Co., was married in St. George's church, Newcastle, to Miss Florence Allen, only daughter of Mr. J. K. Allen, of "Elmhirst," Newcastle.

The groomsman was Mr. F. F. Peard, of Baltimore, U.S.

The pleasant duties of bridesmaid were most ably and prettily performed by Miss Gertrude Kirkpatrick, while Dorothy Farnecomb and Isabel Louise Clarke acted as maids of honour. The ushers were Messrs. Hy. Mason, R. Wallbridge, Allen and Walter Denison.

After a reception held at the spacious residence of the bride's father, the happy couple left by the 7.30 p.m. train for New York en route for Europe.

Mr. C. E. Clarke was a former resident of Peterborough, and is a brother of Dr. Clarke, who has just returned from being present at the ceremony.

The Clunan House.

Mr. P. J. Clunan, who recently purchased the Queen's Hotel on the corner of Charlotte and Aylmer streets, has changed the name of the hotel to the Clunan House and completely remodelled and refurnished the whole premises. The new addition built on to the east wing has been added to the hotel proper, the verandah running along the ground floor on the south side has been removed and a new balcony erected on the second floor instead. These important improvements alone produce a marked change in the building, but the improvements do not stop there. The whole brick exterior of the block has been tuck-pointed and the doors, windows, Mansard roof and other woodwork all repainted. The interior of the premises has been very much improved. A new and attractive bar has been fitted up on the opposite side of the bar room, with two private sample rooms, one at each end of the bar. The walls have been decorated with artistic wall paper effects, and the ceiling finished with a suitable design in wood. The dining room has been turned round from back to front and considerably enlarged, giving a much more cheerful effect; while handsome new dining room furniture, oil cloths, wall paper and paint, all contribute to the effective furnishings of a well-appointed dining room. Off the bar, a new wash room, with closet and urinal has been opened out with marble and silver-plated fittings complete. The halls and rooms up-stairs have received new oil cloths and carpets, and are also repapered and repainted. The house has also been wired and fitted with electric light and other modern appliances introduced—everything in an up-to date style. Mr. Clunan has thoroughly remodelled the whole premises, and is receiving substantial returns for his enterprise in the shape of a rapidly increasing patronage for his new Clunan House.

MR. RICHARD HALL'S ELEVENTH MEETING.

A VERY LARGE MEETING AT BRIDGENORTH.

Addresses by Messrs. Roger, Hall, Carnegie and Stratton—Mr. Carnegie Swears by the Remedial Bill—Mr. Stratton Shows up his Inconsistency.

A very largely attended meeting of the electors of Smith was held in the Town Hall, Bridgenorth, on Monday night.

Mr. Thomas Young occupied the chair.

Mr. Geo. M. Roger opened the meeting and, in connection with other topics, dealt with the question of Remedial legislation, giving a clear and concise exposition of the question.

Mr. Carnegie, the former candidate of the Conservative party, who appealed to the electors on the anti-separate school platform, appeared on behalf of Mr. Kendry. He advocated the coercion of Manitoba, and unequivocally justified the Remedial Bill and claimed that its passage was demanded by the Queen and constitution.

Mr. Hall followed in a brief address, setting forth his policy of equal justice in tariff taxation—the readjustment of the tariff so that it should fall as nearly equal as possible, and that whilst the interests of the manufacturers were not injured, that the interests of those far larger classes, the workingman and the farmer, should not be neglected as they had been. He stood for honest and economical government, and pledged himself to support only such measures as were in the interest of the people at large. In regard to the school question, he was in favour of the application to it of the doctrine of provincial rights—and the practice of a policy of conciliation and investigation.

Mr. Stratton in the course of his remarks dealt with the effects of the National Policy, and showed how it had not protected the interests nor promoted the prosperity of the farmers; how it had fostered combines of several industries and that these combines had the power and had exercised it to keep up prices at the expense of the interests of the farmers. He also dealt with the tremendous increase of the national debt and the shocking corruption that had marked the lavish public expenditure by which that debt had been created. He also emphasized the alarming increase in the annual expenditure represented by enormous taxation. How personal bribery had been rampant and how Sir Charles Tupper was bribing the country by provinces at a stroke by exploiting orders in Council promising ten or twelve millions of dollars to railways with the hope that on the strength of the money would be advanced to find its way into the corruption fund of the party. Mr. Stratton also dealt with Mr. Carnegie's address on the Manitoba school question and showed that the position he had assumed was untenable, that the findings of the Privy Council did not order the restoration of Separate Schools, but that the matter was left to the sense of justice and fair play of the people of Canada to remedy any grievance that might exist, and that with reasonable concessions on both sides the matter could be amicably settled, and in a manner that would be satisfactory to both sides, and without the exciting of the hostile feelings of race and creed which were being engendered by the campaign of force which Mr. Carnegie and his party were forcing upon the country. He also pointed out that it very illy became Mr. Carnegie to occupy the position he now was occupying. Only a few years ago Mr. Carnegie was heading a campaign in this riding to destroy Separate Schools, which he was now anxious to force upon the Province of Manitoba. The Separate School system of Ontario was undoubtedly guaranteed by the constitution, and yet Mr. Carnegie met the efforts of the Liberal government, to make these schools effective—to get the best educational results and to make the best possible citizens of the pupils of the Separate schools, by an attempt, bitter and energetic, to destroy these schools, which no power on this continent could destroy, and no power affect this side of the Imperial Parliament. Then the race and creed cry seemed to be his stock of trade; then he attacked Separate schools, to curry favour with the Orange and ultra-Protestant elements of the electorate; now he was advocating, upholding and promoting the establishment of Separate schools in Manitoba, which neither "Queen nor constitution," demanded for the sake of currying favour with the religious class whom he was denouncing and hounding down a few years ago, for the sake of carrying the election, and replacing in power one of the most corrupt politicians the country ever knew, who one of his own political colleagues had pronounced the "high priest of corruption." Mr. Stratton denounced such political treachery—shameless beyond the power of words to express—in the strongest terms, and appealed to the people not to be blinded or led astray by such transparent tactics, which were after all chiefly employed for the sake of gaining power, and for the purpose of drawing away attention from a record of corrupt and ineffective management that had only to be discussed to be condemned by every honest elector.

MEETING IN MIDDLETON'S SCHOOL HOUSE.

Mr. Graham Asks Mr. Kendry Some Questions on the Remedial Bill and Coercion.

A meeting in the interests of the candidature of Mr. Kendry was held in Middleton's School House last night. It was opened by Mr. W. H. Moore, and the chair was occupied by Mr. Reid.

Mr. E. B. Edwards spoke on behalf of Mr. Richard Hall, and was followed by Messrs. Dennistoun and Kendry. During the evening Mr. Graham, on behalf of Mr. Newman, asked some pertinent questions of Mr. Kendry in regard to his stand on the Remedial Bill and Coercion. The answers which were given did not appear to meet with the approval of the electors present.

Mr. Hall's prospects in Smith seem to be of the highest.

COUNTY COUNCIL JUNE SESSION.

THE LAST SITTING UNDER THE OLD REGIME.

The Warden's Address—Referred to a Special Committee.

June, 9th, 1896.

The June session of the County Council began at the Council Chamber here to-day.

All the members were present except Messrs. Burnham, Mansfield, Joyce and Peoples. Mr. Warden Middleton delivered his address, which will be printed to-morrow.

On motion of Mr. Finlay, seconded by Mr. Casement, the Warden's address was referred to a committee composed of Messrs. Anderson, Moloney, Buck, Hawthorne, Wm. Anderson and the mover and seconder.

A FIVE THOUSAND DOLLAR WRIT.

William Quinn Against the Two Johns, John O'Shaughnessy and John Conroy.

Mr. E. B. Stone has issued at the instruction of Wm. Quinn, a writ against John O'Shaughnessy and John Conroy, claiming $5,000 damages for libel and slander alleged to have been committed by them in connection with Mr. Quinn's candidature in the Provincial elections in East Peterborough in 1894. Our readers will remember that Messrs. Shaughnessy and Conroy entered suit to recover $200 from Mr. Quinn, such sum being alleged by them to be due them in respect of money advanced in that campaign, and in this statement of claim the libellous remarks are claimed to have been made. The plaintiff alleges that similar statements were made personally by defendants throughout the country.

BITTEN BY A SAVAGE DOG.

A Young Lady Attacked and Severely Injured in Monaghan.

One evening recently, Miss Lillico, daughter of Mr. Richard Lillico, of North Monaghan, whilst visiting at the residence of her cousin, Mr. Robert Dobbin, also of Monaghan, was attacked and severely bitten by a large dog belonging to the house. The animal it appears rushed at her and seized her by the thigh before it could be driven off. The flesh was badly torn, and the young lady is still confined to her room, and under medical treatment. The dog has been killed.

Cures, absolute, permanent cures have given Hood's Sarsaparilla the largest sales in the world and the first place among medicines.

A SHANTYMAN LOSES $75.

His Pocket is cut out Whilst he is Asleep in the C.P.R. Hotel.

A shantyman from the Howry limits, named Robertson, was relieved of $75.00 yesterday afternoon whilst asleep in his room at the C. P. R. hotel. Robertson locked the door and threw himself down on the bed with his clothes on. The thief entered the room by the fanlight, and as Robertson slept with his hand in the pocket where he had the money, the trousers were opened in front and the pocket slit open with a knife, when the money was abstracted.

Suspicion of being the perpetrator of the theft has fallen upon another Howry man named Burns, who, earlier in the day, when given charge of the pocket-book when Robertson was in swimming, took out half the money. When this was discovered he handed it back.

Still further suspicion is throw upon him by the fact that when search was made for him it was found that he had "skipped the town." Officer McGinty by diligent enquiry ascertained that Burns had left town with one of Wolstenholm's livery rigs.

Chief Douglas of Port Hope on receipt of a message from Chief Rowzel, ascertained that the rig had already reached that town and been abandoned by Burns, who had again left the town, presumably on one of the boats.

The police are hot on the trail of the fugitive.

Simply wonderful the Bargains advertised for Tuesday, at Gough Bros. Crops never looked better and money to move them is bound to come.

PERSONAL.

Miss Belle Mercer is home after a pleasant ten days spent in Toronto.

Mr. and Mrs. Robt. Neill left yesterday for a trip to Quebec and the Saguenay.

The Port Hope Times says: Col. W. R. Macdonald, of Peterborough, is in town to-day.

Mr. W. F. Nelson, formerly of the Ontario Bank, has left on a business trip to England.

Mr. R. H. Bradburn of Peterborough, spent a portion of yesterday in town.—Lindsay Post.

R. J. Wilson, of Kingston, chairman of the C.W. A. Racing Board for the district, was in town on Saturday.

Mr. F. Pope, of the Bowmanville branch of the Ontario Bank, has been transferred to Peterborough.

Mr. Hollingshead, of Newmarket, has been transferred from the branch of the Ontario Bank there to Peterborough.

Mr. and Mrs. W. Graham, of Kingston, are visiting the latter's parents, Mr. and Mrs. Henry Denne, George street.

The Port Hope lacrossists are inveighing against the Cobourg's for playing ringers. This sounds odd coming from Port Hope.

Mr. J. J. Turner, of Turner & Sons, of Petereorough, the well known tent and awning dealers, was in town on Saturday. —Port Hope Guide.

Miss Emma L. Graham, of Floral Park, New York, is spending a few weeks in town as a guest of the family of Mr. Daniel Menzies.

Mrs. Cooney, of Ashburnham, allowed a large number of callers to view a beautiful night blooming cereus Sunday evening at her residence.

The Lindsay Post says: Messrs. Louis Best and Hugo McBain, of Peterborough, wheeled in to-day, warm and dusty, and said that it was impossible to make fast time.

Mr. C. H. Bradburn of Trinity University, wheeled to Port Hope last Saturday and spent Sunday there, as the guest of Mr. Charles and Mrs. Wilmot. Mr. Bradburn continued his journey by wheel to Peterborough.—Toronto Globe.

His Lordship Bishop O'Connor arrived in town this morning from Victoria Road, where he confirmed a number of children prepared by the parish priest, Father Sweeney. This afternoon his Lordship drove out to Downeyville with Monsignor Laurent to visit Father Bretherton.—Lindsay Post.

The Lindsay Warder says:—"Mr. Chas. Davidson, of Peterborough, has accepted a position with Blair & Sons, the Kent street tailors. Mr. Davidson came to town last Monday morning and assisted the citizens' band in the evening. That Mr. Davidson is a player of no mean ability was fully demonstrated after listening to the band for a short time."

The names of Mr. R. F. McWilliams, son of Mr. J. B. McWilliams of town, and Mr. W. A. P. Wood of Ashburnham, and that of Mr. J. F. VanEvery, appear in the list of those who have successfully passed their fourth year examinations in Arts, (B.A.) at the Toronto University. Mr. G. T. Stenson, and Mr. Geo. Edmison, jr., have passed their examinations entitling them to the degree Phm. D. Congratulations.

THE LIBERAL LEADER.

HON. WILFRID LAURIER, the honoured leader of the Liberal party, will address the electors of East and West Peterborough and the town at the skating rink, Charlotte street, on Saturday afternoon at 1.30 o'clock.

Mr. Laurier, accompanied by Hon. G.W. Ross, will arrive on the 11.20 C. P. R. express and will be received by prominent Liberals, at the station, and a procession of electors, headed by the Fire Brigade Band, will escort him to the residence of Mr. Richard Hall, the Liberal candidate, where luncheon will be served. At 1.30 o'clock Mr. Laurier will address the multitudes, which his rare eloquence and high statesmanship will attract. As will be seen by reports in another column Mr. Laurier's meetings have been attended by vast crowds, so far beyond the capacity of the largest enclosed structures that it became imperative to have the meetings addressed in the open air, and we do not expect that Peterborough will be outdone by any other portion of the province. Mr. Laurier is beyond all doubt the central figure in Canadian politics to-day. He is this, not only by virtue of his lofty statesmanship, unblemished record, and broad patriotic spirit, but because he is the centre of the hope of the country for good government, efficient and honest administration and a fiscal policy that will be framed on the lines of equal justice to all classes interested. The future premier of Canada will, no doubt, have a splendid welcome in Peterborough. He will be assisted by Hon. G. W. Ross, one of the ablest platform speakers in Canada to-day, who catches and keeps the public ear by presenting truth in a plain, forcible and incisive manner. Conjoined with Mr. Laurier's unequalled eloquence, the addresses to be delivered on Saturday afternoon will be an era in political campaigns in Ontario. Mr. Laurier's services are in such urgent demand that it was with the greatest difficulty that he could arrange his engagements so as to be present in Peterborough.

It is to be hoped that the electors will take advantage of the opportunity presented of assisting at what promises to be the grandest political demonstration ever held in Peterborough, and of hearing two orators, who have no equals in their respective spheres and styles, in Canada, and who will speak upon the issues of the day from the lofty standpoint of broad statesmanship.

THE JUNIOR CONSERVATIVE CANDIDATE.

We have before called attention to the fact that there are two Conservative candidates in the field in West Peterborough and poluted out that the object of bringing in the second Conservative candidate was in order to gain the votes of those discontented Conservatives who could not conscientiously vote for the platform and policy of the straight Conservative candidate, pledged to enforce coercion of Manitoba. If there was not an acceptable second candidate, these discontented Conservatives would have to vote for Mr. Hall if they exercised their franchise. But anything rather than drive this vote to the Opposition, therefore the discontented Conservatives brought out Mr. Newman, who has adopted the policy of many of the Government candidates in other ridings. He is pledged to oppose Remedial legislation, like scores of the straight Conservative candidates, but he is with the Government in their policy of protection, which is the other main plank of their platform. Therefore, Mr. Newman, the junior Conservative candidate, will pull in a large number of Conservatives whom Mr. Hall would otherwise secure, in this way weakening the support of that gentleman as well as gaining the support of as many conscientious Liberals as can be deluded into supporting the junior Conservative candidate. With Mr. Kendry taking the straight vote of the old liners, and Mr. Newman of the disgruntled, and thus depriving Mr. Hall of their support as well as a few Liberals they think they can count upon, it is hoped to so weaken Mr. Hall that his defeat will be certain, and though Mr. Kendry's majority may be small it will afford the satisfaction of a moral as well as actual victory over Mr. Hall who expected to redeem West Peterborough by virtue of the reaction of Conservatives who are discontented with the policy and practice of the government they have supported at previous contests. Under the circumstances cited above every vote polled for Newman is one less for Hall, and the electors who desire a change in the present administration of affairs should consider well before casting their votes on the 23rd.

It may seem inconsistent that Conservatives should take such a course. But it's not consistency the Conservative party is after. They are after votes and if they can't get them one way, or at least rob an opponent of them, which amounts to the same thing, they must get them another. They have shown no consistency in their course on the Remedial question. They have used it as an expedient for the past five years to catch votes and they are not going to stop at trifles now. Hence the bringing of Mr. Newman to Peterborough by the Conservatives to take votes which Mr. Hall would otherwise get.

JUSTICE TO MAJORITIES.

One of the articles in the Conservative creed is "justice to minorities"—something which everyone will subscribe to. This is all very nice for a clap trap campaign cry, but what about justice to majorities? The workingman and the farmer are largely in the majority and we don't see government supporters falling over each other in their anxiety to rush to their rescue. Farmers and workingmen are compelled to bear the burden and the combine manufacturer,—who is a special minority is specially provided with "justice to the minority" from the government tap. The Liberal policy and practice are justice to all, minority and majority alike. They favour the minority and the majority in Manitoba settling the difficulty amicably and in a manner by which justice will be done to both. They favour a tariff that will mete out fiscal justice as nearly as is humanly possible, equally to manufacturer, artisan and agriculturalist. The minority, in the same sense meant by the Conservative platform, will get even handed justice from Mr. Laurier and the majority in the broader sense, the toiler and tiller of the soil, will get justice from a Liberal Government headed by Mr. Laurier.

Our Singing Birds.

Prof. Goldwin Smith says that Canada has no singing birds, but Rev. Mr. Symonds, who had occasion to rise very early the other morning states that the air was full of music and that scores of little feathered songsters were trilling as though their hearts would burst with gladness.

Banana Skins.

Bananas are now in season, and there ought to be a penalty of $10 or, in default of payment, a month in jail, inflicted on every person who drops pieces of their skins upon the sidewalks. They are as slippery as ice and very dangerous, and might just as well be thrown into the road, where they are not likely to do any harm.

Drop in Beef

In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling fully 30 per cent. less than the prices of six months ago. As my policy will always be TO SELL AND BUY I will commence ON SATURDAY NEXT to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—

Best Porter House and Rib Roasts 9c.

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

WOMEN are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. A man doesn't like to get old at all. But worse than getting old, is the appearance of age. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs wherever they may be and forces them out of the body. It promotes the copious secretion of the digestive fluids, and assists in throwing off refuse matter. It makes the appetite good and the digestion strong. It isn't a violent medicine. It isn't strong medicine. It does nothing but good to every portion of the body. It doesn't do harm in one place while it is helping another place. It is meant to help the whole body and it does help it. Whenever a man feels himself failing in health, when he feels that he is getting old too fast, that his vitality is low, and that he is losing flesh, he should waste no time in getting the "Golden Medical Discovery." It will build up quicker than anything else in the world. It will give him rich blood and solid flesh. It will make him feel half as old and twice as strong Druggists sell it.

Dr. Pierce's 1008 page book, the "People's Common Sense Medical Adviser," in Plain Language, tells all about the "Golden Medical Discovery," and is a complete family doctor book, profusely illustrated. It will be sent free on receipt of thirty-one (31) one-cent stamps to cover cost of customs and mailing *only*. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.

MADE TO SUIT ALL.

Mr. Turk's Resolution on the School Question

MODIFIED BY THE CONFERENCE.

As Passed It is Simply a Protest Against Special Privileges Being Granted to Roman Catholics—Twenty-One Buildings Burned at Selkirk Saturday Night.

Winnipeg, June 7.—(Special.)—On Saturday the *Methodist Conference* of Manitoba and the Northwest put itself on record regarding the school question. Resolutions as introduced by Pastor Turk of Grace Church had been materially altered by the committee and modified with the idea of meeting objections, so that all could accept it on common grounds.

The resolutions as altered were as follows, and were *unanimously* adopted without debate:

"Resolved, That this Manitoba and Northwest Conference of the Methodist Church reaffirms its former expressions touching the school question, and again endorses the deliverance of the general conference touching the question of civil and religious liberty.

"That we desire to place on record our belief that the interests of this province will be best served by the maintaining in our midst of a uniform system of non-denominational public schools.

"That, while we deprecate any legislation by this province or by the Dominion which will have the effect of restoring any such denominational school system as existed before the passing of the present Public School Act, we are in favor of such amendment of our school law by our provincial authorities as will remove any just cause of complaint on the part of our Roman Catholic fellow-citizens, to whom we are most willing to accord every right and privilege in relation to education which we now or may from time to time enjoy, but whose claim to any special privileges beyond those we as Protestants are entitled to possess we distinctly deny."

The little town of Selkirk had a serious fire on Saturday night, 21 buildings being destroyed, with a loss of $40,000.

Hon. Hugh John Macdonald has gone west to address meetings in the Conservative interests. He will be away a week or ten days.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill, druggist.

It is the best cough cure I have ever used says G. Fred Anderson, of T. S. Simms & Co., in speaking of Norway Pine Syrup.

Big ads. are needed to bad medicines. **Manley's** Celery-Nerve Compound has merit alone to commend it.

Dear Sirs: I cannot praise Manley's Celery-Nerve Compound too highly, and I think its tonic and restorative qualities cannot be surpassed. I was failing poorly for some time through overwork and before I had taken one bottle of your medicine, I felt completely better. Yours truly,

TOWN RUN BY WOMEN

PETTICOAT RULE WORKS VERY WELL IN GAYLORD, KANSAS.

A Thriving Town That Elected Ladies for Mayor, Council and Police Judge—Result: The People Are Well Satisfied.

Gaylord, Kan., is the only town in the world where petticoat government is supreme and where the people are, as a natural consequence, perfectly happy. The city government of Gaylord and the absolute content of the people form a complete refutation of the theories offered by the Poet Tennyson in his "Medley." Gaylord has a lady Mayor and women officials, and the offices of the municipality are governed with honesty, ability, integrity, economy, and for the public good. There is no corruption, jobbery, sandbagging or looting of the people in Gaylord. The streets are clean and smoth, the sidewalks are wide and its public works are equal to those of any town in the western country. But, while many of the neighbors have no inconsiderable indebtedness, Gaylord owes not a single dollar.

At its last election the town returned to office a ticket composed entirely of women. The women voters surrounded the polls on election day and everything was carried on in a gentlemanly and ladylike manner. The noticeable lack of profanity and vulgarity was a clear evidence of the desirability of suffrage. The election more resembled some social affair at a private home than the slum-like affair furnished by the usual polling place on voting day.

The head of the government of this little city for the past year has been a lady, and to find a people who are more contented and pleased with her administration would be hard to do. She has presided at the meetings of the council and her rulings display a knowledge of city affairs that would be a great credit to any man. Her appointments have been of the best, and every move she has made has been for the best welfare of the city.

TYPES OF WOMAN.

A Hottentot Belle Dressed in Her Most Fashionable Togs.

Are Your Lips Pretty?

Pretty lips add so much to the pleasure with which we regard a pretty face that one often wonders why some women seem to neglect the care of theirs entirely. They never seem to mind if they are cracked, or dry, or swollen, whether they are attractive, or the very reverse.

Lips to be perfection must be soft and healthy looking, with a pretty red color in them. Deep red lips have something startling about them, and only look well when seen on very young children.

The lips should also never be rubbed with strong scent, such as eau de cologne, or vinegar or lemon. Some women have a stupid way of "biting the color into their lips." Not only does this unwise practice make the skin very sensitive, but it also thickens and swells the lips till they lose all charm.

The best way of keeping the lips smooth and in health is to see that they are always perfectly dry. If they are allowed to get moist, especially in frosty weather, they will crack and chap and be most unsightly.

The Best Dressed Woman.

Maxine Elliott is declared to be the best-dressed woman on the American stage. This fact was mentioned to her by a friend one day, who begged her to tell her how it was she always looked so well. "Whatever you do," she said, "dress becomingly. That is my rule. See that what you wear suits you—your person, your individuality. Make your costume to suit you, not yourself to suit your costume. It does not take long for a good costumer to see and learn just what you need, but if you cling to him monotonously you will always bear the same stamp, like the Goddess of Liberty on the American dollar."

A healthy appetite, with perfect digestion and assimilation, may be secured by the use of Ayer's Pills. They cleanse and strengthen the whole alimentary canal and remove all obstructions to the natural functions of either sex, without any unpleasant effects.

Building a Home.

Mrs. Annie Jenness Miller is building a lovely home in Washington and will retire into private life from her arduous duties as lecturer and prominent W.C.T.U. worker. The magazine which bears her name is owned by a stock company. She has chosen for her future work the writing of books along the same lines that have occupied her attention in the past.

An Excellent Letter Writer.

Jane Welsh Carlyle was one of the best letter writers of the women of her time. She kept her husband informed of her domestic affairs with a humor so delightful and a wit so sparkling that the gruff philosopher was wont to declare that she deserved to rank with De Sevigne.

A Country Boy's Wit.

Any one who has ever been rash enough to attempt to make sport of the street gamin of a large city knows only too well what a fatal mistake it is, says the Youth's Companion, but one is not so well prepared to be made the victim of his own joke by an apparently unsophisticated country boy.

A lad of 15 was driving along a country road, taking a load of calves to market when he chanced to meet a company of young folk who were evidently out for a pleasure excursion. The young men of the party, thinking to amuse themselves and their companions at the boy's expense, began to imitate the bleating of the calves.

But their merriment was of short duration, for without a moment's hesitation he called out to his would-be tormenters, as the vehicles were passing: "Oh, I knew what you were before!"

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

GEMS OF PRICELESS VALUE.

Jewels of an Egyptian Queen Taken from Her Tomb at Dahshur.

One of the most remarkable archaeological discoveries of recent years is that of M. J. de Morgan, director general of the service of antiquities of Egypt, who has recovered from one of the royal tombs at Dashur a large quantity of gold and jewels once belonging to a house that reigned in the Nile country 4200 years ago. Among these splendid relics of a distant age is a golden crown which rested on the head of the mummy of Queen Khnemit in the hidden rock chambers at Dahshur.

This discovery is of inestimable value to Egyptologists, from the fact that it throws a flood of new light upon the burial customs of the twelfth dynasty, in addition to furnishing new and wonderful testimony to the advanced stage of art in jewel work, to which the gold and silversmiths of that forgotten age had attained.

Soon after work was began at Dahshur fragments of inscription of Kings of the Twelfth Dynasty, about B. C. 2500, were found, and these served to indicate the age of the monuments found thereabouts.

Further excavations resulted in the discovery of a pit and a gallery in which were a number of tombs that showed plainly the marks of the professional robber. From the remains found there it was clear that they had been tenanted by the bodies of Princesses of the Twelfth Dynasty. Close by a box filled with handsome gold and silver jewelry was found.

The work at the northern brick pyramid at Dahshur having come to an end, M. de Morgan next attacked the southern pyramid, the upper part of which had, however, been removed by the natives, who built the bricks into their houses. A wall ran round the pyramid, and between it and the pyramid were buried the royal children. At the northeast corner a tomb of very considerable importance was found, for it proved to be that of a royal personage call Au-ab-Ra, whose existence was hitherto unsuspected. Of the circumstances under which he lived and died nothing is known, but it is probably right to assume that he was a contemporary of Amenemhat III., and that he either reigned with him or after him, but before Amenemhat ascended the throne.

For a man who was at one time "King of Upper and Lower Egypt" his tomb was unusually mean. Having cleared out all the mastaba tombs on the north and northeast side of the pyramid of Amenemhat III., M. de Morgan began work on the west side, and here, as elsewhere, success crowned his labors.

JEWELS OF AN EGYPTIAN QUEEN.

On February 15, 1895, M. de Morgan came upon an opening which led by an inclined plane to a gallery, and believing, for several reasons, that the tomb there had not been rifled, he removed the covering and laid bare the gallery to the light of day. On the following day, when room had been made to open the sarcophagi which had been placed there, the cover of one was lifted, and, to the great joy of all concerned it was found to be tenanted by the mummy of the Princess Ha, which was ornamented with most beautiful golden jewelry, inlaid with cornelian, turquois and lapis-lazuli. The fastenings of the collar and some of the smaller portions of the ornaments had become loose, and had dropped by the side of the mummy into the coffin, but they had been wonderfully preserved by the dry stone chamber in which they were buried, notwithstanding the 4000 years which had passed since they were laid on the dead Princess.

In a small vaulted chamber the funeral offerings were found, together with the vases of unguents, etc., with which the double of the Princess was intended to delight itself. When the second sarcophagus was opened it was found to contain the mummy of the Queen Khnemit, who had been buried with most valuable articles of jewelry. Those who looked on at the removal of the jewelry from a great queen who had died more than 4000 years ago, saw a sight which they will probably never forget. But although the articles of jewelry in the coffin were numerous, and of every sort and kind which are characteristic of the epoch, the "find" which was made in a chamber close by is of greater importance, for here we have examples of the finest possible work of the ancient Egyptian goldsmith. The fine gold of which the crowns, pendants, beads, stars, etc., was made, had been drawn out and worked into cunning patterns and devices, which would not, we think be easy to imitiate. The most beautiful effects are obtained by the inlaying of cornelian, lapis-lazuli and turquois and the patterns, though simple, show a mastery of the ancient craft of ornament which is almost incredible.

Our picture affords an idea of the patterns, but only a sight of the objects themselves can enable the reader fully to realize the harmony and quiet beauty of the colors. Many visitors to the Egyptian Museums of Europe and Egypt complain that expert knowledge is required to enable the visitor to appreciate the objects displayed, but in the case of the jewelry of the royal ladies who were buried at Dahshur the ordinary mortal needs no knowledge to tell him that what he is looking at is beautiful. Apart from the aesthetic value of M. de Morgan's labors at Dahshur, the historian and Egyptologist have need to be grateful to him; for he has not only explained the mystery which has hung over these half forgotten and wholly forsaken burial places of the members of the families of Kings of the Twelfth Dynasty, but he has produced another royal name which must in future be added to the Dynasty of Usertsens and Amenemhats.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof :—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

A Portable Search Light.

A new portable search light has been put upon the market. It weighs less than fifteen pounds, which permits of its being carried without fatigue, or it can be suspended by a chain and operated by the officer of the watch. With fifteen ampheres of current at 45 volts pressure, small objects, such as spar buoys, three-fourths of a mile distant, can be easily made out, while sails have been seen three miles away.—Philadelphia Record.

Horse Power of a Cannon.

A recent issue of La Nature contains a short note in which the horse power of a cannon is calculated. An Italian cannon of 100 tons, with a charge of 550 pouds of powder and a shot weighing about 2,000 pounds, will give an initial velocity of 1,600 yards per second; the length of time during which the power acts is less than one-hundredth of a second, from which it follows that the horse power developed is about 17,000,000.

Here in Ottawa

Irresistible Proof That There is a Cure for Diabetes.

The following sworn statement is the best proof that diabetes is not incurable, and that there is a remedy which will cure it.

Ontario, County of Carleton, to wit:

I, Charles Moss, of the City of Ottawa, in the County of Carleton, Blacksmith, do hereby solemnly declare as follows:

1. I reside at 180 Bell Street, in the said City of Ottawa.

2. For the past fifteen years I have been a great sufferer from kidney disease; among the prominent symptoms of which were severe pains in my back, hot flashes extending from the base of the spine up between my shoulders, dizziness, headaches, etc. I was in a bad state generally and suffered great agony at times. The intense pain prevented my sleeping, and I seemed to get worse continually. The doctors who were called in pronounced my disease diabetes, but their treatment did no good, and they held out but slight hope of my recovery. I was then so far gone with the disease that I could not turn in bed without help. My urine was of a dark wine color, and full of sediment.

3. I took all kinds of medicine, but without permanent relief.

4. Hearing of Doan's Kidney Pills I got a box at H. P. MacCarthy's drug store, but having been so often disappointed I had no faith in them. However, I started taking them, and they struck the right spot at once, and I commenced to get better. From that time on improvement was continuous until I am now, after five weeks use of Doan's Kidney Pills, entirely free from pain of any kind. The urine is natural, and I am now working right along every day in my shop.

5. It is a great source of pleasure for me to testify to the world of the curative powers of Doan's Kidney Pills, and I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act.

NOT A HORSE THIEF.

Charles W. Murdoff, of Bowmanville, is not Britz the Man With the Blonde Wife.

(Port Hope Times)

Mr. Charles W. Murdoff, musical director of Bowmanville, and Britz, the piano man with the pretty blonde wife, who stole a horse in Peterborough, are not one and the same man, although the police of Peterborough evidently thought so.

Mr. Murdoff is a respected citizen of Bowmanville, while Britz is a horse thief. In some mysterious manner the intelligent police of Peterborough thought Mr. Murdoff was Britz, and while he was at Kirkfield conducting a sacred concert at some church function he was confronted with a warrant charging him with stealing a horse, and was placed under arrest.

Mr. Murdoff was astounded, but submitted gracefully. The news of his arrest was telephoned to Peterborough and in due course of time Chief Rossel arrived at Kirkfield to conduct the prisoner to Peterborough. As soon as he saw Mr. Murdoff he knew that the wrong man had been nabbed. "Your not Britz," said the crestfallen chief. "No," replied Mr. Murdoff, "but I'm Murdoff, and I would like to know by whose authority I am arrested here."

Mr. Murdoff got no satisfactioe and returned to Bowmanville, only to find that the news of his arrest had preceded him and that his wife and friends were greatly distressed.

Mr. Murdoff was in town to day with blood in both eyes. He was en route to Peterborough to find out, if possible, who issued the warrant against him, and if he is successful something will assuredly drop.

Good News for the Ladies of Canada.

Less Deception Than Formerly.

The ladies will be pleased to learn that the efforts made with the view of protecting them against fraud perpetrated by some merchants and dealers, have been successful beyond anticipation.

The substituting of worthless and adulterated package dyes for the reliable Diamond Dyes is now stopped in many places, and merchants are finding out it does not pay to sell a custemer what is not asked for.

In the past, ladies have suffered much trouble, inconvenience, loss of material and money, by having poorly prepared dyestuffs foisted on them when they asked for the Diamond Dyes. In order to insure continued safety and success in dyeing work at home, ladies should examine each package of dyes offered them, so that they may take nothing home but the genuine Diamond Dyes.

CLYDESDALE.

(From Our Own Correspondent.)

Last Wednesday evening a large and enthusiastic meeting was held in the school house in the interests of Mr. Lang. The candidate was accompanied by Mr. J. B. McWilliams, and speeches were also delivered by Mr. Blezard, M.P.P., and Mr. Crowe. The chair was occupied by Mr. David Campbell, who fulfilled his duties very creditably. Mr. Burnham or his representative had been invited to attend the meeting, but apparently had not the necessary courage. The meeting was a long one, and all the points of interest in the present campaign were covered. The corruption and incompetency of the Dominion Government, and the failure of the N.P. to accomplish what had been promised from it, were fully discussed, and proofs that could not be gainsaid were advanced to show that the farmer and the labourer have been steadily growing poorer since 1878. Mr. Lang also explained his position on the school question, and showed that the Conservative party had never been in earnest with the Remedial Bill, but had frittered away their time and wasted the people's money on a measure they never intended to pass. He guaranteed that if Mr. Laurier is returned to power he will settle the question to the satisfaction of all parties, doing full justice to the minority, and at the same time avoiding all harsh or coercive measures. Mr. Burnham's chances here are very slim, as every one has been converted to the Liberal cause except one person, and he has friends working under the Government.

During the winter several Plymouth Brethren preachers, or Evangelists, as they are called here, have been holding meetings around Clydesdale, and on Sunday, May 31st, about 24 persons were baptized by Mr. Gilchrist in Paudash creek. Such an event had never taken place before in Chandos, and consequently the whole country assembled to see the ceremony, over two hundred people being present.

During the last few weeks our cheesemaker, Mr. James Hogan, has been telling wonderful stories of a wild cat which he heard and saw several times on his way home. The other night, however, Mr. Thos. J. Dwyer, the school teacher, had occasion to pass that way, and discovered Mr. Hogan's "wild cat," which turned out to be nothing but a poor harmless little porcupine, which any schoolboy might kill with a stick.

BENGFORT.

(From Our Own Correspondent.)

Miss McMartin, of Peterborough, is the guest of Mr. and Mrs. Pierre Powers.

Miss Edith Waterman is visiting friends in Peterborough.

Mr. George Nurse left Saturday for Michigan, to fill a position recently occupied by Mr. Wm. McLelland, who came home to manage the firm in the absence of his brother Andrew, who has gone on an extended tour to different parts of the country.

Mr. Geo. McLelland left recently to engage in the fur business with his brother Thomas, who has been teaching school at Edmonton, N.W.T., for several years. We wish them success.

Mrs. and Miss Patterson, of Norwood, are visiting friends in Monaghan.

The fall wheat is shot out and the prospects are that it will be a very good crop. Other crops are doing remarkably well and will be greatly benefitted by the rain of Sunday evening.

Another small army of men were at work on the road at the new bridge on Wednesday last. The different beats at the eastern part of the township were well represented and added greatly to amount of work done.

The S.S. excursion was a decided success. Everybody enjoyed themselves and were well pleased with the day's outing. The football match between the Wild Cats of Lakeview and Gore's Landing teams was a complete walk over in favour of the Gore's Landing boys. The score was 7 goals to nil in favour of Gore's Landing. The Wild Cats may be well practiced on jumping over stumps and climbing rail fences but when it comes to playing football they are not in it at all.

Most people reached home about 9 o'clock but several were seen wandering home as late as 11, whether it was the distance they had to travel, we don't know, but their feet seemed very heavy as they passed through the village on their way home.

The coming election seems to create quite an excitement in the village. Every group of men you is are talking election and chaffing one another on the different stands they have taken in past elections.

A cow tied to a stump while its owner called for his mail matter created quite an amusing incident in our village on Saturday evening by the animal running away a distance of about half a mile, hauling the stump behind, while the owner stood in amazement watching the incident.

Economy is the order of the day, with the chances largely in favour of Gough Bros. doing the biggest business in town on Tuesday. Cost in many cases won't matter on Tuesday.

Men are getting a better gait on, and are spurting to pull up for lost time. In consequence greater interest is taken over the balloting for H. LeBrun & Co's $60.00 Prizes, for which 2000 Men and Women have a chance to vote. The supporters of

Hall

Are, of course, flushed with enthusiasm over the good start which they gained by being first in the field and early at our Ballot Box. It's hard work, however, guessing the majorities, especially with

Newman

in the race as the third candidate. Some think Mr. Newman may be the "Dark Horse" in this election; but just now its the toss of a copper whether the Grits will be out or the Tories will be in! But you can

Guess

all you like, and win some of LeBRUN & CO'S Handsome Prizes. The person estimating the correct or nearest to the correct majorities of each of the successful candidates in East as well as West Peterborough, will receive the

Prizes.

Our Fine Clothing and Furnishings are the best by a large majority that can at any time be obtained, but during this Election Campaign everything will be GREATLY REDUCED in price to make Sales pile up a Rousing Majority for the CITY CLOTHING STORE.

See our All Wool Tweed Suits at $4, $4.50, $5.00, $6.50. These snaps have just recently been bought, the $6 Suits being well worth $8.00.

See our Worsted Suits at $6, $9 and $10—no better in the land.

See our Black Worsted Coat and Vest Suits at $6, $7, $8, just in fit for any member of Parliament.

See our working Pants at 75c. $1.00, $1.25. Good Tweed Pants, all wool, $1.25, $1.50, $2.00, $2.25, $2.50.

1000 Boy's Suits, going fast, at sweeping reductions. Every lady purchasing a Boy's Suit is entitled to ballot for our Prizes.

ORDERED CLOTHING will also be similarly reduced. Suits made to order during the election will be cheaper than ever.

Fine Tweed Suits, made-to-order, for $12, $14, $16—fit for the Premier.

Fine Coloured Worsted Suits, made-to-order for $15, nearly worth $18.

Black Worsted Suits, made-to-order, $15, $18, $20—for swell dressers.

Ordered Pants, only $3.00, $3.50, $4.00.

THE TWO LEADERS.

Mr. Laurier Continues His Triumphal Tour.

TWO GRAND MEETINGS YESTERDAY

Stratford and Listowel Honor the Coming Premier—Sir Charles Tupper Has a Stormy Time at Kingston—Mr. Osler as a Critic—Campaign Notes.

Stratford, June 9.—Hon. Wilfrid Laurier arrived here this morning from St. Mary's and left at noon for Listowel. He reached Stratford again about 7 o'clock this evening and was driven to the residence of G. G. McPherson for dinner. Four bands of music, lady and gentleman bicyclers, mounted yeomanry and citizens, the Dunraven minstrels, a local organization in costume, and a large number of citizens in carriages followed the large procession, which escorted the Liberal leader to the skating rink. The streets were lined with spectators, who cheered as Mr. Laurier's carriage came along. The rink, large as it is, was crowded. Speeches were there delivered by Mr. James Grieve and Mr. D. K. Erb, Liberal nominees for North and South Perth, respectively; Mr. James Sutherland, Mr. Laurier and others.

Mr Laurier at Listowel.

Listowel, Ont., June 9.—Hon. Wilfrid Laurier and his party, on arriving here this afternoon, were met at the station by an immense crowd of people. A procession was formed, headed by 50 young men on bicycles, followed by 50 young men on horseback, representing the yeomanry of Elma, followed by the Listowel and Harriston bands. Mr. Laurier being escorted to a carriage drawn by four horses, the procession moved down Main-street, where the carriage was stopped by a band of young girls, who literally covered him with flowers. They then took their position ahead of the carriage, each carrying a broom. The party proceeded to the rink, which was crowded to overflowing, some 4000 people being present. The gallery was occupied by about 500 ladies. The chair was occupied by Mayor J. W. Scott, who introduced the speakers. Mr. Grieve, the first speaker, dealt with the trade and Manitoba school questions. He was followed by Mr. James MacMullen, ex-M.P. for North Wellington. The chairman then introduced Mr. Laurier, who was received with shouts and cheers, lasting for several minutes. Mr. Laurier then delivered a speech on about the same lines as those delivered in other places, where he has previously spoken. All the speakers were vigorously applauded.

DISORDER AT KINGSTON.

The Premier Appears to have met with a Rather Torrid Reception.

Kingston, June 9.—Very noisy was the gathering in the City Hall to-night addressed by Sir Charles Tupper and D. McIntyre. The Premier arrived at 7.30 o'clock from Brockville, and after the reception at the station and a serenade by the 14th P.W.O. Rifles' band he was conducted to the City Hall, which was densely crowded. He was cordially received. Mr. James Swift, President of the Conservative Association, presided.

After a band selection Mr. Donald McIntyre, Conservative candidate, made the opening address, occupying an hour in reviewing the Manitoba school question, and giving his reasons for maintaining and supporting the action of the late Government. He declared for the upholding of the constitution and the restoration of rights ruthlessly taken away from the Catholic minority in Manitoba. He called upon Liberal-Conservatives not to be turned aside by a side wind, as the question undoubtedly was, but to recall the other momentous question and maintain Conservative principles and policy. If the party was united victory was assured.

During Mr. McIntyre's address the fire alarm rang. Mr. McIntyre said it was a trick of the enemy, and asked the citizens to remain. Several times as he spoke the name of "Liberals" applause followed.

Sir Charles Tupper was warmly received, and from the start suffered severe heckling. He began with expressing his tired condition, when a voice roared out, "It will be worse on the 23rd of June." Cheers and counter cheers followed as Sir Charles questioned the prophecy and told his friend not to boast until he had laid off his armor. He lauded Sir John Macdonald, regretted his absence from the recent decoration of his grave, and credited him with gigantic achievements during his career, and this he claimed, too, in face of opposition from the Liberal party. Not one single stone had they reared in the structure.

Then came a term of noisy opposition, and words were bandied about the hall. The speaker charged that it was a rotten cause that could not be shown the light by public discussion. He was asked to tell about the boodling, and he proceeded to give us it history, in which he claimed the Liberal party had shown its capabilities, sinking and wasting in one county $1,500,000 of public money. He declared the Liberals had no policy.

Again the disturbance began, while Mr. Simmons Chandler declared the Liberals' policy was to have honest government. Then Sir Charles retorted that the Liberals had one policy, in fact a policy in each province, and all with the same end in view, "How to get into power." The cheers and jeers were maintained, and when Sir Charles made use of the pronoun "I" the noisy ones repeated it after him.

Hisses, cheers, hot words, cries of "Put them out!" followed.

The chairman pounded for order. Laurier's name was cheered, and Sir Charles said: "Those cheers of the juveniles may be of use to him in about 15 years." He said Mr. Laurier rivalled him in making I's. He had found twenty-three in a short paragraph of three inches.

Sir Charles proceeded to discuss Laurier's attitude on many questions and declared that in 1891 he (Sir Charles) had stood in Kingston and prophesied that the unrestricted reciprocity plank of the Liberals would fail. Edward Blake in a letter said the same thing after the election. Sir John Macdonald said he (Sir Charles) had increased the late Premier's majority in Kingston enormously in 1891.

The gathering broke up with cheers for the Queen, McIntyre, Tupper and Laurier.

There were derisive cries and a general pandemonium reigned. Mr. Simmons rose to speak, but was hissed and cheered, and a chorus in unison of "Grease, grease," was heard.

Chairman Swift told Mr. Simmons to sit down or go out. Finally the elector sat down. Sir Charles said that it might be that the disturbers would go a little too far. He concluded by referring briefly to the Manitoba school question, charged that the excitement and heat were due to Liberal machinations, that the Greenway Government had brought it up to strengthen its hands. "Thank God," he concluded, "that the independent intelligence of Canadian electors will not stand this desperate effort to trample under foot constitutional rights, that the action of such persons will receive such a condemnation as will prevent any repetition in the future and prevent any party from endeavoring to struggle into power by such unholy means."

HE HIT BOTH PARTIES.

Mr. B. B. Osler as a Critic of Politics in General.

Dunnville, Ont., June 9.—Mr. B. B. Osler, Q.C., of Toronto, spoke here to-night to a very large and representative audience from all parts of the county, and, notwithstanding the rain, which comenced to fall about 7 o'clock, the house was filled to overflowing. Mr. John Parry, ex-President of the Conservative Association, acted as chairman, to the entire satisfaction of all parties. On the platform were: Senator McCallum, John Brown, ex-M.P., Dr. G. A. McCallum, Dr. Brown, President of the Conservative Association; Dr. Thompson of Cayuga, President of the Reform Association; John Scholfield, County Master of the Orange Lodge; Father Crinion, Rev. Mr. Casson, Rev. Mr. McLennan, Rev. Mr Quinn, Rev. J. V. Wilson, Chaplain of the County Orange Lodge; T. J. Galbraith, Reeve of Mouton; John W. Holmes, Town Clerk; W. F. Haskins, and many other prominent men.

Mr. Osler said he did not wish to criticize any candidate, but as he could not come himself as a candidate, as he had been requested to do; he wished to place before the audience his views on the public questions of the day, let it hit what party it might. He condemned the Government who made religious strife on this question on the country as an election dodge. After reviewing the case, he went on to say that the Government who made religious strife on this question should not receive the Catholic vote of the country. The matter should have been settled by compromise and conciliation, and not setting the majority against the minority by rushing the matter forward on the eve of an election. Mr. Osler called the N. P. a high tariff with incidental protection, and to-day was a revenue tariff. He said what was wanted to-day to build up Canada was closer connection with Great Britain. The building up of the dead meat trade meant more to the farmers of Canada than they dreamed. He said we must shut down on useless expense and instanced the Tay Canal and the Trent Valley Canal, which was run as an election buying machine for half a dozen constituencies. Mr. Osler went on to say Canada could not afford to buy a Province with a useless railway.

Among other reforms, he said all votes of public money should be placed before Parliament in the first 20 days of a session. Contractors should not receive extras except by the voice of Parliament or by the courts. Fraudulent tenderers should lose their deposits. The speaker eulogized Hon. Mr. Haggart for his conduct of the Intercolonial and characterized commercial union as looking to Washington for a policy. Throughout the whole discourse, Mr. Osler was listened to with rapt attention, and the frequent outbursts of applause evinced the hearty sympathy of his hearers.

Mr. A. W. Wright followed in a short address, and was followed by Hon. Senator McCallum, who said he was as much a Conservative as he ever was, but he wished to have candor enough to tell his friends their faults.

To Lord Aberdeen, Governor-General of Canada:

MAY IT PLEASE YOUR EXCELLENCY,—

The candidates and agents of the Tupper Government are hawking about the country an order in Council granting over twelve millions of dollars to 50 or 60 railway projects. Is this a genuine document? Have you signed this order in Council? Parliament is dissolved, and the country has a right to ask you that the Treasury shall not be looted to provide campaign funds for a political party. You are well paid for the work you do in Canada and it is not unreasonable that the people should hold you to your duties and responsibilities. Are you protecting the treasury, or are you allowing the public credit to be pledged to the service of a league of desperate political gamesters? You are, under existing circumstances, the natural guardian of the rights and interests of the Canadian people, and they want to know if this order in Council bears your signature, and if this method of despoiling the Treasury has your approval. An answer is respectfully requested.

IT LOOKS BAD FOR SAM.

Clarke Wallace and Hughes on the Same Platform at Fenelon Falls in North Victoria.

Fenelon Falls, June 9.—If the big meeting here to-day is any criterion the chances of Mr. J. H. Delamere to carry North Victoria on the Independent-Conservative ticket are more than good.

The meeting was not widely announced nor long pre heralded, but although the time for it was definitely set only two days before, the gathering was such as has never been seen in this constituency or any of the many hard-fought election campaigns of days gone by.

The meeting was to have been held in Dixon's Hall, but the crowd was so great that they adjourned to the skating rink, and some two thousand persons gathered to listen to the discussion of the questions that make the basis of the campaign.

Major Sam Hughes was out in great force. The faithful were summoned from every corner of the riding to see the Tupper banner safely through. Hughesite enthusiasm even overflowed into the southern constituency, and from the town of Lindsay a specially chartered steamer brought up a cargo of men to load the meeting.

The gallant Major expected to have it all his own way, and—he didn't. He had an hour to talk, and all that he said of the political questions was upon the six months' hoist.

Hon. N. Clarke Wallace followed Major Hughes and spoke for 55 minutes. He attacked the Major's arguments upon the six months' hoist, and was several times interrupted by him until the argument became decidedly heated. Major Hughes finally tried to take the floor and make another interruption and relied on the strength of his following to secure him a hearing. Ten minutes of trying satisfied him and he obeyed the mandate of the larger part of his audience and sat down.

The ex-Controller of Customs said that the House of Commons at the last session was divided on the school question into three parties: Those who supported the bill, those who opposed it, and those who were so indifferent that they did not attend the all-night sessions. Surely no one could say Mr. Hughes was one of the opponents of the bill, and inasmuch as he attended the all night sessions very regularly, he might reasonably be called a supporter of the measure.

Mr. Wallace drew the conclusion that Mr. Hughes need not try to impose on his constituency by telling them that his views were what his actions had shown them not to be.

The meeting received Mr. Wallace with loud cheers and was enthusiastic in favor of Mr. Delamere. The chairman was Mr. John D. Naylor, who was returning officer for Major Hughes at the last election, but is now an ardent supporter of Mr. Delamere.

SHE KNEW HER RIGHTS.

Got Fresh Air, in a Car by Breaking a Window with an Umbrella.

Syracuse, June 9.—Catherine Anderson of Lyons was arrested at the New York Central Station last night. The conductor of a train from the West had telegraphed for a policeman, and she was taken into custody and locked up. The woman would give no name of any information of herself. It was supposed she was insane.

Justice Thompson to-day came to a different conclusion as to her mental make-up. The woman declared she had done only what she had a perfect right to do. She had bought a seat and had the right to have the window raised. Thereupon, she says, in her desire to get fresh air, she thrust her umbrella through the window, and got it.

Justice Thompson thought the woman knew her rights and discharged her.

WENT OVER THE FALLS.

The Awful Death of George Iback at Niagara—I Was Accidental, a Traveler Says.

Buffalo, June 9.—E. B. Henderson, a commercial traveler at present in Hamilton, Ont., says of the accident, suicide or murder at Niagara Falls last evening: "While leaning over the railing on Luna Island, Mr. George Iback, a commercial traveler for the Indianapolis Hotel Register Co., lost his balance and fell over the Falls. The accident happened about 7 p.m. and was witnessed by quite a number of people, but happened so suddenly that assistance was impossible. He was leaning over the railing, lost his hat, and in an endeavor to recover it lost his hold on the railing. The police at the Falls think the man was shoved over the railing by the man that was near him. I was about 20 feet from them and know it was an accident. I saw the man that was with the one that fell and he gave me the enclosed card that Iback gave to him in Syracuse three weeks ago. Iback lost his balance, as I tell you, and Kessel was at least eight feet from him. Others saw the accident."

The card referred to is the business card of the Indianapolis Hotel Register Co., with the name of "Geo. Iback, manager," written in ink.

MR. LAURIER, THE LIBERAL LEADER.

If proof were wanting of Mr. Laurier's paramount position in the public life of Canada the campaign has furnished it in abundance. He has won a place in the respect, the admiration, the esteem and the love of the Canadian people that no other political leader has ever attained. With all the lovable qualities that distinguish him, with his untiring and self-sacrificing labour for his country's welfare, with his broad-minded patriotism and statesmanlike insight, there is blended no sombre shade nor inharmonious characteristic. His public life, the Globe thinks, compels respect and admiration, feelings that grow stronger the more his course is studied and his character known. His admirers have no apologies to make. There are no chapters in his public record that they would like to change or omit. Their eulogies have free rein without the reluctant, qualifying acknowledgments which must be made regarding the public careers of so many great men. There is no passage in his political history that an abundant charity would write in ambiguous terms, no great event to be minimized, no fall to be condoned. Admiration for his distinguished statesmanship and true patriotism grows unceasingly, with no interrupting cloud or eclipse. His French lineage and the slight, almost delicate, accent that marks his pure, classical English diction are added charms in the distinctly English-speaking Provinces, for his broad Canadianism is now thoroughly understood and appreciated. He seems a personification of that broad liberality which can blend two separate races into one harmonious nation. His tour in western Ontario has been a grand series of ovations, surprising in enthusiasm even to his warmest admirers. His reception by the City of London was the grandest political demonstration ever witnessed in that city of strong political sentiments. The Tupper party recognized its portent and began to discuss feebly the size of the city and the ease of organizing a great demonstration there. But no attempt was made to explain away the gathering at Glencoe. At that demonstration there were men who had travelled 30, 40 and 50 miles to hear and honour the gifted Liberal Leader. The demonstration at Chatham was a surprise to the men in charge of the arrangement. They were forced to abandon the the intention of using the great drill hall, and assembled the crowd in the open air. There Mr. Laurier addressed a most enthusiastic audience of 10,000 people. At the village of Belle River there was a most enthusiastic demonstration, in which men from the farthest corners of Essex County took part. Windsor had an experience similar to that of Chatham. When the Opera House was found hopelessly inadequate to the accommodation of the crowd, an adjournment was had to the open air. At Amherstburg another triumphal ovation greeted the Liberal leader.

The enthusiasm of the people in western Ontario was shown not only in this series of grand demonstrations, but in the spontaneous gatherings along his route, and especially at stations where the train was expected to halt. Ontario's reception of the gifted Liberal statesman is but a repetition of the tributes freely paid him from the Maritime Provinces to the west. Everywhere the people seem to vie with one another in doing him honour. His opponents have denounced him in Quebec as a traitor to his race and religion, and in Manitoba as a French Roman Catholic. An echo of the Manitoba cry has been used in Ontario and the far west, but all to no purpose. The Canadian people appreciate the liberality of a statesman who can hold the scales of even-handed justice in the midst of racial and religious controversies. Those who have the good fortune to enjoy the personal friendship of the Liberal leader find in him all the winning and inspiring qualities that mark the leaders of men. Not only does the personal magnetism of his nature grow stronger with friendly intimacy, but the sterling integrity of his character becomes more admirable the more intimately he is known. It is indeed fortunate that such a leader is here to arouse the people to a sense of their danger and to win them from false political idols. A discredited Ministry have been detected in a desperate raid on the public treasury. Led by a "prince of politicl cracksmen," they are seeking to appropriate from $10,000,000 to $12,000,000 for their own uses, and have already asked money from railway-promoting accomplices in anticipation of a division of the spoils. Publicly arraigned, they have not the courage to plead "not guilty," nor the trace of honesty that would prompt them to give back their takings. They go on in blind desperation, hoping that the subterfuges that have warded off punishment for other offences against the nation will again serve their purposes. The extent of this haul and the possibility of even greater national calamities have thoroughly alarmed the Canadian people, and it is a cause for congratulation that there is a great leader in public life in every way worthy the confidence of the nation and willing to devote his distinguished talents to repairing the injury wrought by long-tolerated corruption and mis-government.

IN THE MATTER OF DEFICITS.

The Liberal party is often taunted with having had deficits during the period when Mr. Mackenzie was in office. From the tone adopted when the charge is made the listener is led to infer that deficits have never troubled Conservative Ministers of Finance. During the period when Mr. Mackenzie held office a severe commercial depression wrought havoc with business interests in all parts of the commercial world. Under the effects of this depression the revenue of Canada was insufficient to meet the requirements of the treasury under the most economical management. The Government refused to increase the rate of taxation by customs duties, believing that when the depression passed away the revenue would be sufficient for the country's needs without increase of the duties. Our tariff was changed too soon to permit the test of the accuracy of this theory from being applied, but the experience of the United States, where no change in the tariff rates was made, renders it more than probable that the expectation was well founded. In that country the revenue from customs was, in 1877, $130,956,000; in 1878, $130,170,000; in 1879, $137,250,000; and in 1880, $186,522,000. A corresponding increase in Canada would have given the Mackenzie Government a handsome surplus in 1880 had it continued in power.

In making a statement of deficits the one for 1878 9 is not charged to the account of either party. The Liberal Government held office but little more than three months of that fiscal year. Its supply bill for the year was $22,669,000. In none of the previous years of its term of office had its supply bill been found insufficient. It is asserted with confidence that the amount would have been sufficient for the year 1878 9 had the party remained in power. The expenditure for that year was $24,455,381, or $786,000 more than the supply bill. Under the circumstances it is assumed that the deficit was largely increased by the Conservatives, and consequently it is set aside as one for which the two parties were jointly responsible. With this elimination the respective deficit accounts of the two parties will stand as follows:

Deficits under Liberal administration:

1875-6	$1,900,785 06
1876-7	1,460,027 66
1877 8	1,128,146 37
	$4,488,959 09

Deficits under Conservative administration:

1879-80	$1,543,227 76
1884-5	2,240,068 90
1885-6	5,876,571 87
1887-8	610,061 26
1893-4	1,210,332 45
1894-5	4,153,875 58
	$15,792,097 82

With the deficit of 1895-96 to be added.

A CONTRAST.

While Mr. Laurier is meeting with a triumph on his campaign tour, Sir Charles Tupper is striking the rocks of opposition. Hon Mr. Laurier is heard with the deepest attention, and his utterances are cheered to the echo, showing how warm a place he has in the popular heart. When addressing an open air meeting in the pelting rain, and he wishes to stop out of consideration for his hearers, he is enthusiastically urged to "go on," go on." On the other hand Sir Charles cannot get a hearing even in a Conservative stronghold like Ottawa. Here the party taking their cue from the ministers are fighting amongst themselves. And it can't be laid to the charge of the "wicked Grits" this time. It was the supporters of the Conservative candidate that refused to hear Sir Charles Tupper—that after he had spoken for some time shouted "Rats," "we're tired," etc. This is a fitting commentary on the prospects of Sir Charles carrying the country by storm. When even the members of his own party refuse to hear him, how can he expect the country to endorse him. What a contrast to the solid feeling that exists in the Liberal party, every man united, from the humblest to the highest, and united in a manner that presages a tremendous victory on June 23rd. United we stand; divided they fall.

We wish to see the present Government put out of power for one reason, because of its extravagance, not only in public works, with attendant gross corruption, but in the matter of administration. In 1874 the Mackenzie Government spent $5,505,592.15 to collect $20,129,000; at the end of their term of office the expense of collecting was $5,332,837.40. In 1895 the cost of collection under the Conservative government was $9,070,810.56. Of course it will be said in excuse that the collections in 1895 were greater by some seventeen million, but that should not make the cost of collection very much greater. It doesn't cost a farmer any more to collect a cheque for $100 than one of $30 for a load of wheat. In either case the Government is doubly convicted—of increasing the cost of collecting almost a hundred per cent., and of increasing the taxation over 75 per cent.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

THE THIRD CONGRESS

Of the Chambers of Commerce of the Empire.

FIRST SITTING HELD YESTERDAY

Speech by the Colonial Secretary—Mr. E. B. Osler of Toronto Makes a Motion—Castell Hopkins Called to Order—Sir Mackenzie Bowell Speaks.

London, June 9.—The third Congress of the Chambers of Commerce of the Empire began its first sitting in Grocers' Hall this morning. The Chambers of Commerce of all of the British colonies were represented in the Congress. Lords Loch and Knutsford, Sydney Buxton, M.P.; Sir John Lubbock, M. P., and Sir George Baden-Powell, M.P., were among those present.

Hon. Joseph Chamberlain, Secretary of State for the Colonies, and Honorary President of the Congress, delivered a speech, welcoming the delegates, in which he promised the representatives of Canada that their proposal of bringing into closer union the various portions of the British Empire by the creation of a commercial zollverein would not be met by a blank refusal from the people of Great Britain. Mr. Chamberlain, in the course of his remarks, also spoke of the paramount necessity for the commercial union of the Empire, which, he said, was at the root of all the problems with which they had to deal. It was his opinion that a customs union was the most feasible of any of the proposals which aimed at commercial union, and it was an essential condition that Great Britain should consent to replace the import duties upon certain articles of large production in the colonies, such as corn, meat, wool, sugar, etc.; but he thought the proposal to replace such duties should emanate from the colonies and not from the United Kingdom.

At the conclusion of Mr. Chamberlain's remarks, Mr. E. B. Osler of Toronto, Ont., moved, on behalf of the Board of Trade of that city, that it was the opinion of the Congress that the advantages arising from a closer union of the Empire would justify an arrangement as nearly as possible in the nature of a Zollverein, based upon principles of the freest exchange of commodities within the Empire consistent with tariff requirements, incident to the maintenance of the local government of each kingdom, dominion, province and colony now forming a part of the British family of nations.

Delegate Maher of Wolverhampton seconded the resolution of Mr. Osler.

Sir Donald Alexander Smith of Montreal moved an amendment, reciting that the Congress records its belief in the advisability and practicability of a customs arrangement between Great Britain and her colonies and India on the basis of preferential treatment, and recommending that Her Majesty's Government take steps to bring about an interchange of opinion on the subject between the Mother Country and the other governments of the Empire.

Speaking in support of his amendment, Sir Donald Smith said that if the Imperial Government grasped the matter boldly their action would lead to another great colonial conference held in London, at which the details of a measure which would be satisfactory to the colonies and the United Kingdom could be arranged. A moderate scheme of preferential treatment, Sir Donald said, need not lead to measures of retaliation. He expressed doubt, in the face of a commercial union of the component communities of the British Empire, whether other countries would initiate a policy of retaliation. Germany and the United States surely could not object inasmuch as they had adopted a policy of preferential treatment themselves.

Mr. Twigge of Vancouver seconded the resolution.

Mr. Reid of Victoria said that he was not willing to accept either the resolution or the amendment. He pointed out a number of obstacles and advised that the subject be relegated to the consideration of a conference of experts.

Messrs. McCarthy of Liverpool, Holland of Manchester, and Burnie of Swansea supported the present free trade policy of Great Britain.

Mr. J. Castell Hopkins of Toronto referred to the Americans as looking forward to the time when the whole of America would be united under the McKinley tariff and the Monroe doctrine. The American men of letters, he said, might not favor war, but the American people——

Here the chairman interrupted the speaker and called him to order.

Mr. Hopkins, resuming his remarks, said that financial and commercial men must guard against the possibility of war and should support the policy which guaranteed that their food would come from their own people.

Mr. Colmer moved to adjourn the debate on the resolution until to-morrow.

Sir Mackenzie Talks.

Sir Mackenzie Bowell, in an interview on the subject of the work of the congress, said that its object was to bring the Empire together at the proper time, which was not far distant, when much closer trade relations between the colonies would be arrived at. He added that, while he was not a free trader, he was not so hidebound for protection as not to believe that the time was fast coming when the colonies would be quite prepared to make concessions, provided Great Britain would make some trifling concessions.

At the luncheon, Sir Mackenzie Bowell replied to the toast of "The British Empire." In so doing, he said that the British Empire was second to none in the world. Americans, he added, were usually accused of spread-eagleism, and if he boasted of living, as he did, alongside the United States, he hoped for forgiveness. The ex-Premier of Canada then lauded the loyalty of Canada, and, referring to the possibility of war with the United States, said that the people of Canada would rather die to-morrow than be brought under the Stars and Stripes. Canada to-day, the speaker said, was willing to surrender a portion of her fiscal policy in order to meet the sentiments of the Mother Country, and the Canadians wished to make Canada the highway to the East.

London, June 9.—The Times will say: "Until the colonies make a specific offer we fear that nothing can be done in the direction of zollverein. It would rest afterward with the people of the United Kingdom whether the offer would be accepted. Until the trading and industrial centres of Great Britain decidedly favor a change the existing policy will undoubtedly be maintained."

The Standard to-morrow, commenting on the proceedings of the Congress of the Chambers of Commerce, will express its sympathy with a closer Imperial union, but will urge the discussion of other expedients than such a bold reconstruction of the financial system as would be involved in a zollverein. The paper thinks that Mr. Chamberlain unduly narrowed the range of possible alternatives.

The Daily News will say that a zollverein would immensely advance the progress and stability of the Empire. It adds that the real question is what amount of compromise with the principle of free trade would the colonies require, and the Mother Country admits the price of the advantages to be received by her.

The Chronicle opposes a zollverein and accuses Mr. Chamberlain of dallying with protection. Nothing, it adds, would justify Great Britain in altering her free trade policy.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

Won't Break the Agreement

Toronto, June 10.

Rev. Elliott S. Rowe, one of the McCarthyite nominees in West Toronto, announces that he will not run. This leaves A. T. Hunter the sole McCarthyite in the field. Although Mr. Rowe's reasons for retiring are partially due to his unwillingness to leave the ministry, it is no doubt the case that his failure to stand is really owing to a Grit McCarthyite agreement to put only one man each in the field.

Variety in Feed.

Good results are secured by a mixture of grain when the use of one kind may not be satisfactory. Variety in feed, especially in the summer season, enables the farmer to produce meat, milk and butter at the lowest cost, because the condition of the animals is always better when they receive a variety. It is not advisable to change from one kind of food to another, but to reduce the one and add something else. During the summer it is more essential to supply a full ration of green food than to allow grain, as concentrated food is heating and may cause disease in the flock or herd.

A Mild State of Affairs in Cuba.

Madrid, June 9.—A despatch to The Imparcial from Havana says that the Cuban harvest this year will be only one-eighth that of 1896. The authorities are concerned regarding the condition of the laborers in the island, and are trying to prevent them from joining the insurgents. Four months' pay is owing to the army. The despatch adds that the forces of Maceo are overrunning the province of Pinar del Rio.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1898.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

HAD INDIGESTION!

For a Matter of Some Forty Years or More.

Joseph Gardner, stove dealer, of Bath, Ontario, is a great believer in Dr. Chase's Kidney-Liver Pills for indigestion, constipation, dyspepsia, Bright's disease, rheumatism, and kidney, liver and stomach troubles generally.

"I was troubled for over forty years with indigestion and constipation," he writes. "At intervals I suffered from severe headache. I spent dollars and dollars without result until Mr. Ball, our druggist, advised me to try Chase's Kidney-Liver Pills. I did so, and must say that they are the only remedy that gave me relief. I would not be without them for anything."

Many people suffer from rheumatism. Bad blood and diseased kidneys bring it on. Dr. Chase's Kidney-Liver Pills will remedy all this and cure rheumatism, sciatica and all kindred complaints. Here is a sample case:

"My boy was all crippled up and suffered awfully with rheumatism," writes Mrs. H. Wills, of Chesley, Ont. "He also had a touch of diabetes. The doctors could do him no good, but Dr. Chase's Kidney-Liver Pills completely cured him."

Sold by all dealers and Edmanson, Bates & Co., Toronto. 25c.

When all other remedies fail Dr. Chase's Linseed and Turpentine will cure the worst chronic cold. 25 cents.

to hurry out the goods. This genuine Closing-out Sale must proceed—not for a temporary reduction of the stock, but until every vestige is sold.

We intend that every statement we make during this sale will continue to be authentic and not exaggerated—no matter how other sal s may be boomed. Alleged cheapness is often secured at the expense of Quality, and the slap dash style of promising bargains is simply an affront to intelligent buyers.

Remnants! Odd Ends!

Our rapid selling has accumulated many odd lengths and Remnants which we have collected and placed on a table ticked with a plain low figure, less than the Reduced Sale Prices. While the whole stock is going at cost these Remnants will possess special value, and are not likely to be overlooked. They consist of Remnants in Dress Goods, Cotton Stuffs, Flannels, Flannelettes, Shirtings, Table Linen, White Cottons, Art Muslins, and single pairs of Lace Curtains.

PATRICK FINN DROWNED.

He Plunges Into the Water to Rescue a Comrade, But is Drowned Himself.

Mr. Patrick Finn, aged 25, formerly of of Peterborough, met a tragic death on Monday last. When endeavouring to save the life of a comrade he himself was drowned.

Mr. Finn has been for some time a section foreman on the T. H. & B. R. R. at Brantford, and on the date mentioned he and two comrades went for a swim at noon hour. One of the men was suddenly taken with cramps and Finn went to the rescue with the result that the drowning man clenched him and both went to the bottom together. When the bodies were recovered the men had been under water too long for resuscitation.

The deceased was a brother of Messrs. John and James Finn, both of town, and the funeral will take place from the latter's residence, Lake street, at nine o'clock to-morrow morning.

The Publisher of the Review Under Such a Charge, Preferred by the Solicitor of Mr. J. B. McWilliams.

To-day Mr. A. P. Poussette, solicitor for Mr. J. B. McWilliams, laid an information before Police Magistrate Dumble, charging the publisher of the Review newspaper with criminal libel, in respect of charges made in that journal to the effect that Mr. McWilliams brought Mr. Newman of Toronto to Peterborough, as the candidate of the third party, and for other alleged false and libellous insinuations in connection therewith.

[The Conservatives have been very active in indiscriminate charges that the Liberal party was instrumental in bringing Mr. Newman into the county for the purpose of arousing feelings of religious rancour, and Mr. McWilliams, it seems, has been specifically charged with being an instrument. The above case will give the Conservatives an opportunity of proving, if they can do so, the charges which they have been so indiscriminately making.

JUNE SESSION OF THE COUNTY COUNCIL.

THE LAST SITTING UNDER THE OLD REGIME.

The Warden's Address—Reply by the Special Committee.

Wednesday, June 10.

The following is the text of the Warden's address, presented at the opening session yesterday:

WARDEN'S ADDRESS.

Mr. Middleton, Warden, then delivered the following address:

To the Members of the County Council of the County of Peterborough:

GENTLEMEN,—It is my painful duty to direct your attention to the fact that shortly after the last session of the County Council our esteemed and highly respected gaol surgeon, Dr. Yelland, died after a very short illness. I am sure that you will all join with me in extending our heartfelt sympathy to the bereaved family for the great loss they have sustained. I trust our loss is his gain.

In consequence of his death it became my duty to at once appoint a medical practitioner to attend the gaol. I therefore requested Dr. Scott to act until such time as I could consult my Advisory Committee. After several physicians had applied to me for the appointment (which applications I have had placed in the Appointment to Office Committee box) I called a meeting of the Advisory and special Bridge Committee to consider this matter and other business.

When the committee met the majority recommended that Dr. Fife be temporarily appointed to fill the vacancy until the June session of the County Council. It will therefore be your duty to appoint a gaol surgeon. The committee made some suggestions as to the duties, salaries, etc., of the gaol surgeon. The minutes of the meeting of this committee will be submitted for your consideration.

During the month of February notice of appeal was given to our solicitor by the municipality of Somerville re Kinmount bridge and he at once took the necessary steps to defend the same. However, during the course of a few weeks the suit was withdrawn. I understood the work of rebuilding that bridge is now being proceeded with.

In consultation with our County Engineer we deemed it advisable to notify the Reeves of the different townships to look carefully after their bridges, as owing to the great depth of snow there would in all probability be great freshets. However, I am pleased to report that our bridges, with the exception of Mud Lake and Pigeon Creek, have suffered very little damage. The two latter bridges will be dealt with more fully in the Engineer's report.

Our Clerk received notice from Mr. Buck, Reeve of Asphodel, asking the County Engineer and myself to visit Steele's Bridge and locality, with a view to having the County build and maintain a new bridge on the concession line, some few rods distant from the aforesaid Steel's Bridge. Although at the time of our visit the water of the river Ouse had overflown its banks we saw no reason to recommend that any change should be made in the proposition to the township of Asphodel in Clause 11 of the report of the Committee on Roads and Bridges of January last.

For some time past a dispute has arisen between the Norwood High School Board and our Council, as to the County's share of expenses of the aforesaid school. As you are aware, the whole matter was referred to our County Solicitor for his opinion, and on April 11th I received from Mr. Stratton his report, from which it appears that the contention of the Norwood High School Board as to the construction of the clauses of the High School law, in relation to this matter is not correct. Mr. Stratton's letter will be submitted for your consideration, and I am sure you will agree with me that he deserves credit for the able and painstaking manner in which he has so thoroughly explained this somewhat difficult problem.

Toward the end of last month I received from Mr. Stephenson, Secretary of the Norwood High School Board, a letter in which he expressed the desire of their board to meet our clerk, the advisory committee and myself with a view to arriving at an amicable settlement. I authorized our clerk in his answer to say, that the matter has been referred to our solicitor, and only in accordance with his statement could we arrive at a settlement. I think in all probability the Board will be represented by a deputation at this session of Council.

No doubt you are aware that a very great change has been made by the Local Government with regard to the County Council's Act. I have the honour of being the last Warden under the old system, and therefore considerable work will fall upon both the clerk and myself. I would therefore ask that permission be given to consult our County Solicitor in all difficult matters pertaining to the same.

Probably you will have noticed that a change has also been made in the school law, whereby no equivalent will be required to meet the Government grant, but each municipality will have to levy and collect for each school section $130 for school purposes instead of $100 as formerly, that is, providing school is kept open during the whole teaching term.

The important matter of the equalization of the Assessment Rolls will have to be dealt with by you, and I trust will receive your due consideration. The county valuation for the term of five years, as required by law, expired last year, but may be renewed for a further term. As this is the last year under the present system of County Council procedure, I would suggest that the same valuation be retained; however, if in your opinion the valuation is too high, owing to the decrease in the value of farm property, you could, without any material effect, lower by a percentage the county valuation.

For some years past the matter of the Mud Lake floating bridge has been a source of constant discussion as to the possibility of filling in or constructing a permanent bridge across that expanse of water. In order to be able to give you my colleagues, some light on the subject, accompanied by our engineer we made measurement of the lengths and different depths of this water way, which in his report will be dealt with fully.

You will find in the papers before the Road and Bridge Committee an invitation to send a delegate to the meeting of the Good Road Association, to be held in the city of Toronto on the eighth day of September, 1896. In this connection I would call your attention to a careful perusal of the pamphlet issued for your instruction on the subject of Good Roads in the county of Hastings, together with hints on the construction and maintenance thereof in general by our county engineer.

In company with the engineer I visited Gannon's Narrow's ferry with a view to inspect the scow, and found the work well advanced. This craft is now a very fine structure, being more permanent than formerly. A new cable will be required as the old one is worthless, which matter will be referred to in detail in the engineer's report.

I would further suggest that you authorize the advisory committee to sell the debentures which are to be issued under the authority of the bylaw passed in the special session of council held to-day.

In conclusion allow me to congratulate you on the bright prospects of a bountiful harvest which, if prices are favourable, will be a great boon to the farmers of our country, especially in these times of such great financial depression.

Signed,

JAMES MIDDLETON,
Warden.

This morning the council went into session.

After routine, Mr. Moloney, chairman, submitted the following report of the committee on the Warden's address:

The special committee on the Warden's address beg leave to report as follows:

1. Your committee take this opportunity to express their regret of the sad and sudden death of the late Dr. Yelland, the highly esteemed and clever young goal surgeon of this county, and recommend that the Warden and Clerk convey to Mrs. Yelland, his Worship Mayor Yelland, his father, and the members of his family in their sad bereavement, the condolence and sympathy of this council.

2. Your committee recommend that the appointment of gaol surgeon be referred to the Committee on Appointments.

3. Your committee approve of the action of the Warden in promptly opposing the appeal taken in re Somerville vs Peterborough, an action in respect of maintenance, etc., of Kinmount bridge, and your committee are very glad to learn that the courts have decided in favour of this county, and that this action has been so speedily and satisfactorily terminated.

4. Your committee are pleased to learn that the bridges in this county have so well stood the spring freshets.

5. Your committee recommend that the consideration of the request of the Reeve of Asphodel that this county build and maintain a new bridge on the concession line some few rods distant from Steele's Bridge, and of the proposition to the township of Asphodel, in clause 11, of the report of the Committee on Roads and Bridges of January last, be referred to the Committee on Roads and Bridges.

6. We also recommend that the consideration of the dispute between the Norwood High School and this County and of the County Solicitor's able and lucid opinion thereon of the 17th of April last be referred to the Finance Committee.

7. Your Committee recommends that the matter of the change in the school law whereby no equivalent will be required to meet the Government grant, but that each municipality will have to levy and collect from each school section $130 for school purposes, instead of $100 as formerly, be referred to the Committee on Schools.

8. Your committee recommend that the matter of equalization of assessment rolls and of expiration of the term of five years from the last valuation upon which the equalization of assessment was based be referred to the Committee on Equalization and Assessments.

9. Your Committee are pleased with the information that has been furnished in the matter of good roads and suggests that further consideration be given to the same by the Road and Bridge Committee.

10. Your Committee are pleased to learn that the Gannon's Narrows Ferry is now in good order.

11. Your Committee recommend that the sale of the debentures which are to be issued under the authority of the by-law passed in special session of this Council, be referred to the Finance Committee.

12. Your Committee are pleased at the prospects of a good harvest in the County being more favourable and trust that the farmers throughout the whole Province will have no reason to complain of the issue of the season's labour and that the hopes of the Warden in respect of a bountiful harvest be abundantly realized.

All of which is respectfully submitted.

JOHN MALONEY,
Chirman.

County Council Chamber,
Peterborough, June 10th, 1896.

A deputation composed of Messrs. Breckenridge, Caldwell and Welsh from Asphodel was present in regard to the appointment of an arbitrator in the matter of taking certain lots from School Section No. 12 of Otonabee, and attaching them to School Section No. 1 of Asphodel. Otonabee, it seems, had refused to appoint an arbitrator in the matter, and the trustees of Asphodel therefore petitioned the council to appoint one as required by statute. The councillors present from Otonabee pointed out that these same lots had been arbitrated upon within five years, and therefore by law could not be again the subjects of arbitration until the expiry of the five years.

The petition of the deputation was withdrawn.

An invitation was received from the Peterborough Navigation Coy. asking the Council to participate in the Farmers' Institute picnic to-morrow. On behalf of the Institute, Mr. Collins endorsed the invitation, which was referred to the Committee on Roads and Bridges, on motion of Councillors Hawthorne and Brown.

FARMERS' INSTITUTE.

The Annual Meeting Held on Tuesday Afternoon.

There was a good attendance at the meeting of the Farmers' Institute on Tuesday afternoon in the Town Council Chamber. Mr. J. Fred Davidson, the president, was in the chair, and Mr. John Davidson read the following report, which was adopted :

SECRETARY'S REPORT.

To the President, Officers and Members of the West Peterborough Farmers' Institute :

GENTLEMEN,—In presenting the annual report for the year ending 30th June, 1896, I am glad to be able to state that more activity and interest is being taken in Institute work. During the year we held four meetings, one at Peterborough, one at North Monaghan, one at Lakefield and one at Selwyn. At all of these attendance was good. The delegation from the College was composed of first-class men, and were : Prof. Shuttleworth, A. H. Petit and Jas. McEwing, and practical addresses were given. George Y. Payne read two valuable papers on "Road Making," and "Science in Connection with Agriculture." Mr. Thomas Brown also read a paper on the "Management of Sheep." At our supplementary meeting held at Selwyn, addresses were delivered by J. Yuill and A. W. Peart on "Dairying, Poultry and Fruit Growing."

Our annual picnic will be held at Jubilee Point on June 11th, at which we expect a larger gathering than usual, weather permitting. Our membership is 108. I am also glad to have to state that the department has supplied us free with a new set of books. This will be a great help to the Secretary, as everything can be kept in better form.

All of which is respectfully submitted.

RE-FITTED AND DOING GOOD WORK.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse, at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

MR. KENDRY'S GRANGE HALL MEETING.

The Remedial Bill to be Forced on Manitoba "With Fixed Bayonets."

A fairly attended meeting in the interests of Mr. Kendry was held at the Grange Hall, Smith, on Tuesday night.

Mr. Hampden Burnham was the first speaker. He tried to show that the farmers of England were so oppressed by free trade that they were forced to leave the country, while the farmers of protected France and Germany were so prosperous that they stayed in the country contented. He piled up the usual figures to show that Canadian farmers were prosperous, though they did not know it by the evidence of their pockets. He came out on behalf of Mr. Kendry and the government flat-footed in favour of the coercion of Manitoba.

At the conclusion of Mr. Burnham's remarks Mr. Stone asked Mr. Burnham to answer the following :

"If Sir Charles Tupper succeeded in passing the Remedial Bill, and Manitoba by a large majority refused to accept it, and carry out its demands, what did the Government and its supporters propose to do, and what would be Mr. Kendry's attitude ?"

Mr. Burnham replied that Mr. Kendry would support the Dominion Government in sending an armed force, with fixed bayonets, as was done in the Riel Rebellion, to bring the obstinate Manitobans to their knees.

Mr. Stone then asked Mr. Kendry if he agreed with what Mr. Burnham had stated as his position, and Mr. Kendry replied unequivocally and vigorously that these were his sentiments, and the people were surprised and supremely astonished at the declaration.

Mr. Stone next spoke. He confuted the arguments of Mr. Burnham, and asked if there was, as Mr. Burnham and his party claimed, a compact as to Separate schools for Manitoba before Confederation, if the Government was not guilty of gross neglect because they did not disallow the Manitoba School Act of 1890. If there was such a compact, the action of the government had thrown the whole responsibility on Canada and relieved Manitoba, and if their contention was correct, the Dominion and not Manitoba, was bound to restore whatever rights had been forfeited.

Mr. Kendry made the usual pro protection address, claiming that the N. P. had made the manufacturers prosperous, but he did not try to show that it had helped the other eight-tenths of the community. He was straight out for Remedial Legislation and the coercion of Manitoba.

The meeting which was not by any means strongly in favour of Mr. Kendry, was concluded by a few remarks from Mr. Burnham in reply, and with the usual cheers for the candidate and the Queen.

A DROP IN BEEF.

Mr. H. P. Kennedy Announces a Reduction of 30 per cent. in the Price of Beef.

Housekeepers will no doubt be interested in the announcement made in another column by Mr. H. P. Kennedy, of Kennedy's Meat Market, of a substantial reduction of 30 per cent. in the price of his beef. During the past month a very marked decline has taken place in the cattle market, occasioned chiefly by the large quantity of butchers' cattle offered for for shipment and which shippers have been unable to ship by reason of the present unfortunate embargo on cattle in the Old Country. The trade in cattle is therefore slow. Selected cattle which, six six weeks ago, brought 5½c per lb. live weight find slow sale to day at 3c to 3½c. While it may be true that this heavy decline is anything but encouraging to farmers and cattle dealers, consumers will not be inclined to find much fault with it. In sympathy with this decline, Mr. Kennedy has adopted the very unusual policy of giving the public the full benefit of the decline in the market by offering a corresponding reduction of 30 per cent. in the price of his beef. Best porter-house and rib roast, which he formerly sold for 12½c. per lb. is now to be sold at 9c. There is to be no deterioration in the quality of his beef, for Mr. Kennedy started out with the determination of supplying prime beef and prime beef only, and he insists in maintaining his high standard whether the markets fall or rise. Whatever Mr. Kennedy's political proclivities may be, it is evident his business policy is not of that grasping, avaricious kind which aims solely at "buying in the cheapest markets and selling in the dearest." The very reverse seems to be the case ; for just now, when cattle are cheap, and when he might be able to make extra money, instead of keeping up his cut beef at the regular retail figure, he lowers the price in accordance with the lowering of the cattle markets. The effect of Mr. Kennedy's efforts to supply a prime quality of butcher's beef has met with approval from the the public. Most of the cattle slaughtered for his meat market have to be brought from a distance at an increased price, and he claims that his customers were quite willing to pay him a cent or two more for his best cuts when he had to pay a higher figure in order to procure selected beef cattle. Now that a drop has taken place, it seems to be treating the public very fair that Mr. Kennedy should be willing to allow a corresponding drop to take place in the retail price of his beef. The new prices go into effect next Saturday.

MR. RICHARD HALL'S TWELFTH MEETING.

A GOOD GATHERING IN TEMPERANCE HALL, SMITH.

Addresses Delivered by Mr. Rogers, Mr. Hall and Mr. Stratton—Mr. Carnegie Champions the Remedial Bill—His Inconsistency Exposed.

A fairly attended meeting of the electors of Smith was held in the Temperance Hall on Tuesday evening.

Mr. Young occupied the chair.

Mr. Roger was the first speaker. He said the campaign in which the country was now engaged was likely to be a momentuous one in the history of Canada. No more momentuous questions could command public attention than those of provincial rights and the national trade policy. It was probable that the former question had been raised purposely to overcome the Government's failure as to the latter, but that made it more than less necessary to face it. A very remarkable feature of the situation was the condition of the two great political parties. The Reformers firm, united and agressive, with a clear-cut policy, the reasonableness and righteousness of which they are confident, are fighting to win. The Conservative party, on the other hand, torn and distracted by internal dissension, quarrelling one with the other, over the spoils of office and the price of power, are maintaining an unstable defence in which the very best men amongst them refuse to join. The defection of such men as Dalton McCarthy, the Hon. Clarke Wallace, the Hon. Peter White, the Speaker of the House, the Hon. Mr. Weldon of Halifax, Sir John Thompson's right hand man, and one of the greatest constitutional lawyers in the country, and innumerable others bear testimony to the momentiousness of the issues at stake and to the deviousness of the course which the Government is attempting to pursue. Its course in reference to the Manitoba School Question has been crooked and uncertain from the beginning, and is as illegal as it is mischievous. Unable to justify that course by argument, our opponents seek to mislead the electors by the argument that the judgment of the Privy Council leaves them no option in the matter but compels them to take the course they are now pursuing. We take issue with them on three points right here :

1st. We claim that intervention is a matter of policy and expediency, and not of law.

2nd. That intervention is unjustifiable without inquiry and investigation, as demanded by Manitoba.

3rd. That conciliation, and not coercion, should be the policy of the Government.

Let us glance at the facts as recited in the judgment of the Privy Council :

"At the time when Manitoba was admitted "to the Union there was no law or regulation "or ordinance with respect to education in "force. There were no public schools in the "sense of State schools, but there existed "throughout the Province a number of denominational schools maintained by school fees or "voluntary contributions, and conducted "according to the tenets of the religious body "to which they might belong. Those schools "were neither supported by grants from the "public funds, nor were any of them in any "way regulated or controlled by any public "official."

The Manitoba Act of union passed in 1870 which, as the Privy Council decides "is the governing enactment" enacts that the Legislature of Manitoba "MAY EXCLUSIVELY MAKE LAWS IN RELATION TO EDUCATION." This is absolute, subject to one exception only, viz : "Nothing in any "such law shall prejudicially affect any "right or privilege with respect to denominational schools which any class of people "have by law or practice in the province at "the time of the union." And besides the ordinary right of resort to the court the same act provides that "An appeal shall "lie to the Governor-General in Council "from any act or decision of the Legislature of the province affecting any right "or privilege of the Protestant or Roman "Catholic minority of the Queen's subjects "in relation to education." And in the event of prejudicial legislation by the Province and of an appeal to the government of the Dominion, it is provided : "IN EVERY SUCH CASE "AND AS FAR ONLY AS THE CIRCUMSTANCES OF EACH CASE REQUIRE, THE "PARLIAMENT OF CANADA MAY MAKE "REMEDIAL LAWS," etc.

In pursuance of such right to make laws in relation to Education, the Province of Manitoba in 1871 passed a law establishing a system of denominational education in the common schools, as they were then called, which system after eighteen years trial, they in 1890 abandoned, establishing in its stead a system of non-sectarian schools, which is the system now in force. Immediately upon the enactment of the latter law, the Roman Catholics resorted to the courts to have it disallowed as a contravention of their rights. The case was carried from Court to Court, and finally decided by the Privy Council that inasmuch as no separate state schools existed at the time of the union. Manitoba had the right to legislate as she had done, and that consequently the Act complained of was good law. The Roman Catholics thereupon appealed to the Government of the Dominion to exercise their powers to redress the grievances complained of, whereupon resort was again had to the courts to ascertain whether or not a right of appeal to the Dominion existed, and what, if any, powers of intervention the Dominion Government had if grievances existed as the appellants complained. The Privy Council has decided the Dominion has jurisdiction to hear the appeal and in its discretion to make remedial orders ; "but the particular course to be pursued must be determined by the authorities to whom it has been committed by the statute. It is not for this tribunal (i. e. the Privy Council) to intimate the precise steps to be taken." In view of this decision it is deliberate deceit to argue that the Dominion Government is compelled to interfere, much more, to pretend that it is bound to coerce Manitoba. We contend that it should be very cautious how it interferes at all. It may have the power, but is it wise ? Great Britain had the constitutional right to impose the tea duties upon her American colonies, but was it wise to do so ? It cost her the loss of those colonies. Take care that the attempt to coerce Manitoba does not lose her to this confederation. All the other provinces where the Catholics are in the minority have managed to settle this question without interference from outside and why not let Manitoba do the same ? Manitoba asked investigation and promises to rectify all injustices. Why not grant it ? Are these men in earnest who raise their hostility and unnecessarily imperil Confederation ? If the Manitoba school act was objectionable why did they assent to it ? If Separate Schools are good for Manitoba why does not Sir Charles Tupper give them to his own province. If the last session of Parliament was called to deal with this question, why did they let it sit from the 2nd of January to March 4th *before* introducing this Remedial Bill ? Why are they now running as many men against the measure as they are now running for it ? Coercion of Manitoba is impossible in any event, and is more likely to break Confederation than to afford relief. It is as much to the interest of the minority as of the majority to have this question ended, and peaceably and judiciously adjusted ? This can best be done by Manitoba herself. In any event conciliation and not coercion should be the policy of all parties.

Mr. Carnegie, who was present on behalf of Mr. Kendry, stated that notwithstanding any position he had taken in the past that he wished the meeting to know that he was taking his present stand conscientiously. (Laughter.) He twisted the decisions of the Privy Council to show, in his way, that they had ordered the Government to pass a Remedial Bill, and that according to the decision of the Privy Council the Government must do so. He consumed his whole hour to prove this point, but by the evident signs of disapproval he failed to convince a single individual, either of his own sincerity or of the soundness of his argument.

At the conclusion of his address, Mr. Carnegie excused himself and retired from the meeting.

Mr. Hall, the Liberal candidate, then made a brief address setting forth clearly and unmistakably his position upon the important public questions at issue in the campaign. In regard to the Manitoba difficulty he was in favour of the policy advocated by the leader of the Liberal party, that of investigation and conciliation. To be a great country, we must be a united country and that end could only be gained by settlement of public questions, not by force, but by friendly agreement.

Mr. Stratton, who followed, opened his remarks by criticising Mr. Carnegie's statements and quoted from the decision of the Privy Council to show that there was no peremptory order involved in any of these decisions ; that the Privy Council did recognize that certain rights and privileges, conferred by Manitoba itself in the legislation of 1871, had been interfered with by the act of 1890 and that accordingly the minority had a grievance, but the Privy Council held at the same time that the act of 1890 which created the grievance complained of was quite within the jurisdiction of the legislative powers of Manitoba. He (Mr. Stratton) could understand the advocacy of Separate Schools for Manitoba by Roman Catholics on the ground of conscientious conviction, which every fair minded man was bound to respect ; and if the Conservative speakers would take the ground of sympathising with these honest convictions and acting accordingly, their position would be more defensible. But the Conservatives could not hope, with the divisions of feeling in their own ranks, with the hostility of the people of Manitoba, with the pronounced condemnation of the party's tactics by hundreds of the most prominent men of their party to make their policy of force against Manitoba a success. The speaker could not think of anything more humiliating, more degrading of honest sentiment, more to be despised, more to shock the public sense of consistency in public men, more calculated to destroy all confidence in the utterances of a public man, than to see a gentleman, who only a few months ago denounced with all his force of speech, Separate Schools in any form, denouncing the heirarchy and the church calling upon the electors to unite in crushing a power whose aggressive attitude and domination of the electorate was a menace to Protestantism and free institutions, and to see that same gentleman now, when there is a great danger of the party being defeated, showing a ready willingness to swallow his honest convictions, or those expressed, and to adopt a directly opposite platform and position in the hope of securing a few votes for Mr. Kendry in the present campaign, in return for the support given to him by Mr. Kendry in his anti separate school campaign. Mr. Roger having in his remarks combated Mr. Carnegie's position, it was unnecessary to

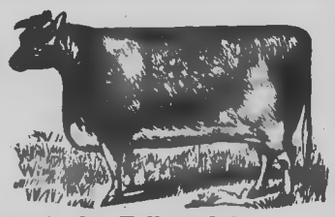
Drop in Beef



In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, fat Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago. As my policy will always be TO SELL AS I BUY, I will commence ON SATURDAY NEXT to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example :—

Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. You can impose on it to a wonderful degree. It is really astonishing how much abuse it will stand before it breaks down. "The last straw" doesn't break it down, but it makes it stop work. Continually put the wrong things into your stomach, and digestion will get weaker and weaker. Before long, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Let it continue, and there is nothing bad that it will not lead to. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sallowness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. You can take them just as freely as you take your food. There is no danger that you will become a slave to their use. They will cure you and then you can stop taking them. Send for free sample package of from 4 to 7 doses. World's Dispensary Medical Association, Buffalo, N. Y.

A GREAT BOOK FREE.

Over 680,000 copies of Dr. Pierce's Common Sense Medical Adviser have been sold at the regular price, $1.50. The profits on this immense sale have been used in printing a new edition of 500,000 copies, bound in strong paper covers, which is to be given away *absolutely free*. NEWS FROM OTTAWA.

Mr. Halkett Going to Watch the Sealers—Those Efficiency Returns Were a Little Mixed.

Ottawa, Ont., June 9.—Mr. Andrew Halkett of the Fisheries Department has been instructed to proceed to British Columbia, whence he will embark upon a sealing vessel and spend several weeks on board watching the methods pursued by the sealers. As already announced, Mr. J. Macoun of the Geological Survey and Prof. D'Arcy Thompson of Dundee are also going to the Behring Sea this year. Their mission is also to collect information regarding sealing methods. Mr. Thompson will spend the summer in one of the United States cruisers, while Mr. Macoun will be assigned to the Pribyloff Islands. These officers leave for Victoria to-morrow, and are being sent out in view of the demand of the United States Government for a revision of the sealing regulations, as agreed upon at the Paris tribunal.

Attention is called to the fact that the comparative efficiency returns for infantry published last week from the different military districts are not prepared on the same basis. The form of return was changed a year or two ago, yet the figures published last week show two forms, one of which, the old kind, was used by Lieut.-Col. Otter in No. 2 district, where the Queen's Own and 13th Batt. were inspected. The other districts used the newer form, which is altogether different. The columns for which points are allowed are different, and the maximum points vary so much that there is no way of figuring how the districts compare with one another. Even in computing their scores at the rifle range, where the column reads "1-2 per cent. score," one form makes this to mean a maximum of 50 points, while the other reads it 16.8. To get over all this difficulty it is understood that there is now in course of preparation by the Militia Department a revised form of return for use by all districts, and that the newly-appointed inspecting officers have agreed upon a standard for each branch of the service. It is said to be quite unlikely that in future these returns will be published in general orders, but rather that they will be confined strictly to the districts. In this way it is hoped that an immense amount of friction now worked up between regiments, together with the opportunity for saying many harsh things, will be avoided.

The Council of the Dominion Rifle Association met to-night to arrange for the annual matches. The period chosen was the week commencing August 31. Matches will be much the same as last year, but will include one extra series aggregate. Major Delamere, Toronto, and Col. Starke of Montreal attended the meeting.

The Liberals have decided to run a candidate in Carleton county.

Mr. Joseph Nelson, an English journalist, who had been in Canada for some months in connection with railway enterprises, died at the Cascades up the Gatineau to-day. Last session he secured a charter for a railway from Calgary to Hudson Bay.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill, druggist.

A TRIPLE HANGING.

Three Murderers Executed on One Scaffold.

NEWGATE PRISON WAS THE SCENE

The Motive in the Cases Was Robbery and Human Life Was Not Allowed to Stand in the Way—Mrs. Dyer Must Die To-Day.

London, June 9.—William Seaman, Henry Fowler and Albert Millsom, who were convicted of murder at the May sittings of the Central Criminal Court, London, were hanged together in Newgate Prison at 9 o'clock this morning. The executions were private, their completion being indicated by the hoisting of a black flag outside the prison. Large crowds gathered in the streets and in the low class saloons in the vicinty of the prison, but tney were orderly. There was some cheering in the crowds when the black flag was hoisted.

William Seaman battered to death an old Jew, John Levy, aged 75, in his house in Whitechapel at 2 o'clock in the afternoon of Saturday, April 4, and afterwards murdered his housekeeper, a woman named Gale, by cutting her throat. Levy, who was a retired leather dealer, kept his money in gold in his house, and Seaman, when he got into the house, thought its inmates would be at the Synagogue. He was seen climbing in the roof, and a cry was raised. He jumped from a wall in trying to escape, and injured himself.

Henry Fowler and Albert Millsom broke into Muswell Lodge, in the northwestern district of London, on the night of February 13, and murdered its owner, Henry Smith, a retired engineer, aged 79, who led the life of a recluse. They got away with £500 in sovereigns, and were not captured until after a police chase of two months. Fowler, a powerful, ferocious ruffian, made a desperate struggle for freedom, and had to be strapped to a stretcher to be taken to the station. At the end of the trial he made a murderous attack on his companion, Millsom, who had made a confession admitting the burglary and blaming Fowler for the murder. Fowler lifted Millsom off his feet by the hair and dashed him to the floor, and almost smashed the dock to pieces before he was overpowered and dragged below by eight policemen. Both men had spent most of their lives in convict prisons, generally for robbery with violence.

Mrs. Annie Dyer, aged 58, who was convicted of having murdered a number of infants, the bodies of some of whom were foun in the river, will be hanged in Newgate to-morrow.

SANDFORD FLEMING SPEAKS.

The Marquis of Lorne Presides at a Meeting of the Colonial Institute Held Last Night.

London, June 9.—The Marquis of Lorne, formerly Governor-General of Canada, presided at a lecture delivered at the Colonial Institute on "Canada and Ocean Highways" by Mr. Sandford Fleming, one of Canada's delegates to the Pacific cable conference and the promoter of the scheme for a fast Anglo-Canadian mail service. Mr. Fleming contended that there would be an abundance of traffic to support a line of first-class steamships between Canada and England.

Among those present were Sir Mackenzie Bowell, ex-Prime Minister of Canada and a member of the cable conference, and Sir Donald Smith, Canadian High Commissioner in London.

Sir Walter H. Wilkin, the Lord Mayor of London, and the Lady Mayoress to-night gave a reception in honor of the delegates to the Mansion House, the official residence of the Lord Mayor. Besides the delegates many prominent men of Great Britain and the colonies were present.

A healthy appetite, with perfect digestion and assimilation, may be secured by the use of Ayer's Pills. They cleanse and strengthen the whole alimentary canal and remove all obstructions to the natural functions of either sex, without any unpleasant effects.

CAMPAIGN MEETINGS.

Sir Richard at Streetsville—McCarthy's Opponent in North Simcoe.

A joint meeting was held in Streetsville last evening. It was called by Mr. James Featherstone, the Liberal candidate, who gave an account of his stewardship during the past five years. Mr. Richard Blain of Brampton spoke for Mr. A. F. Campbell, the Conservative candidate, and Sir Richard Cartwright made a general attack on the policy and action of the Government. Mr. Blain announced that Sir Charles Tupper would speak in Brampton on Monday next.

A large and enthusiastic meeting in the interest of Mr. Haughton Lennox, the Conservative candidate for North Simcoe, took place in Barrie last night. Mr. J. F. Garvin of Peterboro upheld the trade policy of the Government, and Mr. Lennox criticised Mr. D'Alton McCarthy's attitudes for some years past. Mr. Lenhox upheld the Manitoba school policy of Sir Charles Tupper, and pledged himself to vote for Remedial Legislation.

Mr. John Charlton and Hon. G. W. Ross spoke at Tilsonburg last night and had a warm reception. A procession of horsemen and bicycles was one of the features of the day. There was a large attendance of electors and the speeches of Messrs. Charlton, Ross and W. A. Dowler, a local barrister, were well received.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. The New Hats.

Gay and overloaded are the new hats for everything in the way of feathers, flowers and ribbons are piled upon them. Rough straws of eccentric shape are generally worn, with a few lace-like patterns and fine English braids. Some of the plainer turbans are trimmed with straw alone; for seaside wear this is an excellent idea, as the dampness is ruinous to plumes and delicate ribbons.

Wall Decoration.

The fashion of treating walls in other ways than by papering them is a growing one. The higher artistic sense which now exists even in small and remote communities has given a realising sense of the value of the background, and walls receive the first and most careful attention of intending furnishers. A most aesthetic hanging is plain burlaps of the usual cream-brown hue.

Do Not Do This.

Do not be induced to buy any other if you have made up your mind to buy Hood's Sarsaparilla. Remember that Hood's Sarsaparilla cures when all others fail. Hood's Pills are purely vegetable, carefully prepared from the best ingredients. 25c.

BAD BLOOD.

Bad blood courses through the veins and arteries just the same as good blood does, but good blood carries with it health, while bad blood distributes diseases throughout the whole body.

Good blood means vigor. Bad blood sows the seed of scrofula, ulcers, abscesses, boils, blotches, skin diseases, and almost all the ills that flesh is heir to. To get health we must cure the bad blood, and

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $1200 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

Cigarets Caused the Blaze.

Kingston, June 8.—Yesterday the barn on the farm recently occupied by the late Alexander and Patrick McCallum was set on fire by boys smoking cigarets in the building. There were about ten tons of hay stored in the barn, which, with the contents, fell a speedy victim to the flames.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

THE MARKETS.

Flour—Trade is quiet and prices unchanged. Straight rollers are quoted at $3.30 to $3.35 Toronto freight.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

Liberal Rally at Oshawa

Oshawa, June 8.—The large Music hall of this town was crowded this evening with an enthusiastic audience to welcome the Liberal candidate, Mr. Leonard Burnet and Mr. William Paterson, ex-M.P., of Brantford.

Mr. F. L. Fowke, President of the Young Liberal Club, occupied the chair, and on the platform were some of the leading manufacturers of the town. Mr. Burnett explained his position on the various questions now agitating the electors, and declared himself against the coercion of Manitoba, no matter by whom or what party it was introduced. This statement met with much aplause.

Mr. Paterson spoke for two hours, during the course of which he explained the trade policy of the Liberal party, and declared it was tariff for revenue only and equal rights and justice to all, to the manufacturer, farmer and the workingman. The meeting concluded with the usual cheers. Carthyites two

PETERBOROUGH, TORONTO, LINDSAY

MR. RICHARD HALL'S TWELFTH MEETING.

(Continued From Fifth Page.)

further deal with the subject, and Mr. Stratton said he would proceed to make a few general remarks upon public questions at issue in this campaign.

The present campaign in Canada, while probably the most important that has ever taken place in the history of the country, is at the same time one of the most peculiar. We find, said he, a Government with a record of eighteen years, so much afraid of criticism of that record, instead of being proud of it that it has even risked imperilling the integrity of the Dominion, in order to distract public attention and censure from its nearly twenty years of misrule and mismanagement of our public affairs. It has fostered, fomented and encouraged a spirit of dissension between the two great religious creeds of this country, it has kept in active service for this purpose and in its interests a question relating to the legislative functions of a province of the Dominion, which should never have had a place as an issue in the domain of Dominion politics. The Dominion Government has, by its mal-administration of our affairs, and its double dealing, duplicity and bad faith, shaken to a very great extent the loyalty of life-long members of the Conservative party, who are leaving and detaching themselves from old affiliations and seeking new associations more compatible with the instincts of honest and honourable men. It has aroused dissension among the more self-seeking and ambitious elements of the party, till the party which has hitherto presented a comparatively unbroken front,

FINDS ITSELF SPLIT INTO FACTIONS,

each insisting upon its INTERESTS being considered paramount. In this very riding of West Peterborough we find two Conservative candidates, one "the survival of the fittest," or rather the triumphant wire-puller and conqueror of an old war horse, who has been "provided for"—turned out to grass in the moss-grown and secluded corridors of the Senate, or otherwise "provided for," and who has assumed the political sins of the man he ousted from the candidature, and also his policy of coercion of Manitoba. The platform of the other Conservative candidate—Mr. Newman—is protection and no coercion of Manitoba. Then we have the spectacle of Mr. Kendry, who six years ago was fighting to annihilate Separate Schools in Ontario, which were and are guaranteed by Confederation, and which could not be removed by a dozen acts of parliament, now advocating the policy of forcing the then detested Separate Schools upon one of the weaker provinces—containing about one twenty-fifth of the population of the Dominion; and without giving Manitoba a chance to exercise her right of doing justice to the minority. And now we have even Mr. Carnegie, who denounced Separate Schools in any form in his Equal Rights campaign, advocating the coercion of Manitoba and refusing to accept Mr. Laurier's policy of conciliation and investigation. Such are the representatives of the policy or policies upon which the Dominion Government is seeking the votes of the intelligent electors of this country. Can it be that the issue of this contest will show that the people are so lacking in patriotism, so lacking in appreciation of

THE RIGHTS AND PRIVILEGES THEY ENJOY

under responsible government; so indifferent to the legacy of strife they are leaving their children; so lacking in intelligent appreciation of the drift of the Dominion under the evil auspices which a renewal of power to the present effete and scheming goverment, will retain as a menace to our progress and prosperity? as to vote confidence in the present government. I do not believe so. I have more faith in intelligence, honesty and love of country of the electorate of this riding and this Dominion.

It is much to be regretted that party feeling is so ingrained in the minds of a large proportion of honest and intelligent Conservatives, as to prevent their acting as independent electors — to vote as their conscience and better judgment dictate—in assisting by their votes in removing from power a party who in the depths of their hearts they know has forfeited all right to public confidence and whose conduct they would not for a moment tolerate either in municipal or personal business affairs. If the debt of a municipality was increased to an enormous extent and at the proportionate rate at which the Dominion debt has been increased, and without adequate value; if the expenditures involved in the creation of that debt were marked at every step by corrupt and wasteful squandering of the public funds, it would

NOT FOR A MOMENT BE TOLERATED.

Then why tolerate and condone it in Dominion affairs? This great country of Canada, with unlimited possibilities of development and growth, is as dear to you Conservatives as it is to us Liberals; we have a common interest in its prosperity and growth. Any good government that promotes its interests is direct gain to both parties, and anything that injuriously affects its interests is a direct injury to both Liberals and Conservatives. We all pay our share of the expenses of government and we have the same interest in seeing that the money we contribute is wisely expended. Why, then when we see that our public affairs are going wrong cannot we unite in restoring good government? Or if that proposition does not meet the approval of Conservatives why not unite in trying the promising experimant of inaugurating a system of administration that promises to be an improvement? Thousands of Conservatives and Liberals alike will unite in saying that our affairs, the condition of the country, the relation of creeds and races, cannot be wise. Let us honestly then try to to make them better. During the disgraceful scenes that marked the last session of Parliament, when bolting Ministers betrayed their Chief and the legislative halls were turned into a temporary pandemonium. I heard many Comservatives say that their party well deserved the lesson that would be taught them by five years exclusion from power, and by turning over

THE GOVERNMENT OF THE COUNTRY

to the Liberal party, and we see in practical application of this idea thousands of prominent Conservatives throughout the country engaged in schooling their party in this fashion by earnestly supporting the Liberal policy and working for its success in hope of an improvement; they feel if they do not hold any great love for the Liberals that things can't very well be worse and that there is a good chance that they will be better. At any rate they are willing to give the Liberal party a trial, and that is all the Liberal party desires. They feel that the country is badly governed. They have as much of a stake in the country as Conservatives and they are patriotically desirous of giving the country a fair chance with honest, straightforward government. This is not a contest between Mr. Hall and Mr. Kendry. They are both good citizens, both with a large stake in the country and both should have an equal interest in the good government of the country. It is not a question of the supremacy of one party or the other that is at stake in this contest; it is the question of what is best for the country, and that is the question you are called upon to decide.

The tender spot in the average citizen is his pocket and therefore he would begin by addressing a few remarks upon that subject. You are all doubtless aware that

THE ANNUAL EXPENDITURE

has increased under the present Government at an alarming rate—from twenty-three millions a year to thirty-nine millions, an increase of about sixteen million dollars, or nearly a million dollars per year—a pretty good figure for a young country of not quite five millions. Now the question arises, is the money being spent in such a way as to develop the great resources of this country, or is it frittered away very largely in the interests of carrying the constituencies in the interests of the Government? He did not pretend to say that all the money had been spent illegitimately, but there was no doubt that millions had been wasted. If we looked at the scandal of the graving docks at Quebec, Curran Bridges, and canal and railway expenditure, we shall see that it is in the prosecution of these works that the public money is being wrongly spent; and the public mind is becoming polluted with the idea that it is the duty of the Government to keep the electors in employment—with their own money—a process of growing rich very like the attempt of a man to lift himself by his own bootstraps. I could give long arrays of figures to show the most criminal and corrupt waste of the public funds for the purpose of retaining

THE GOVERNMENT'S GRIP ON OFFICE.

In 1878 Sir Leonard Tilley, their finance minister, said that the public service could be very efficiently carried on for a sum of less than 23 million dollars a year. Yet we find that when the Conservative party came into power, on their promises of economy, the annual expenditure was not only almost doubled, but the net debt was increased from 140 millions to 233 millions, with interest charge of 12 millions a year, or about $30,000 a day or over a thousand dollars an hour—for interest alone. Electors may be indifferent as to this condition of affairs, but would a prudent business man, would any business concern, would any householder, would any private gentleman expect to be prosperous by making his annual expenditure largely exceed his income. Then, if a portion of the income be squandered and extravagance and waste run riot in our public expenditure how can the country expect to enjoy prosperity and satisfactory progress, with a mortgage debt of $50 a head? With a debt of

ALMOST TWO MILLION DOLLARS

in each constituency, how can the electors expect that this country will be made prosperous? It is all very well to talk of loyalty to party, but it did seem to him that loyalty to the country is the choice that should be made at the present time. When the public expenditures were being increased we were told that the country would be able to bear it, by the help of the millions that would find homes in our Northwest. But in spite of the fact of the 886,000 of immigrants which, according to the census returns, were brought to Canada, and at an expense of about three million dollars between the years 1881 and 1891, and notwithstanding the natural increase of over one million three hundred thousand, which should have been added to our population, we have only an increase of 500,000, when the actual increase should have been the 886,000 immigrants and the natural increase of 1,300,000, making a total increase of population in ten years of over two millions instead which we had only an increase of half a million. But in the face of these facts, in the face of the facts that our own population is drifting away to the United States, we find that the rate of expenditure had been increasing five times faster than the population, leaving an almost stationary population to grapple with an expenditure and

DEBT THAT WOULD BE BURDENSOME

to a population of ten millions instead of five. It is an easy matter for Canada to borrow money—we have the best country on the face of the earth, with unlimited resources. We have a thoroughly progressive people and therefore our credit is good, but we must remember that good credit has been the ruin of many a business man and private citizen, as it will be the ruin of this country if the splendid credit of Canada is made the plaything of reckless politicians, who exploit it for the sake of carrying on the government in a style of extravagance which their peculiar political methods make the essential conditions of their retaining power.

The increased expenditure has of course necessitated increased taxation and the increased taxation means, of course, increased protection for the benefit of the favoured few at the expense of the many. Owing to the peculiar manner in which the tariff matter is being manipulated, certain classes of manufacturers are receiving special and undue favours, while other classes of

MANUFACTURERS ARE UNFAIRLY TREATED.

For instance the Auburn Mills Company, in which Mr. Kendry, the Conservative candidate, has a large interest, and the Peterborough Lock Company, are specially favoured industries. On the other hand, the William Hamilton Manufacturing Campany and the Peter Hamilton Manufacturing Company are not protected sufficiently to keep out American competition, while they are taxed so heavily on their raw material as to give to the American manufacturer an advantage that largely neutralizes the protection they are crying. The two latter are more important industries than the two former, and he contended that if their raw material were admitted at such a rate of duty as would produce a revenue without being a burden, and the tariff placed sufficiently high to afford them protection, under the changed conditions of lightly taxed raw material he thought it would be a great advantage to both the workman and the employer. At present the tariff is positively no net benefit to both these large establishments, while they are compelled to pay a heavy duty on raw material, and imported machinery, such as they produced, allowed to come into the country so cheaply, consequently

THE CONSUMER IS NOT ABLE

to purchase such products of the local establishment as cheaply under protection as under a rationally arranged revenue tariff. And so all through the list, while some few are favoured, others are injured. It must not be for a moment supposed that the Liberal policy or party was opposed to manufacturing industries; in fact they as a party and individually were very greatly interested in their promotion and advancement and that was one reason why the Liberal policy, which aimed at removing burdens from the manufacturer, both in his interests and that of his employees, advocates a careful remodelling of the present tariff, which worked in many cases the injustice he had just referred to. So far as the other manufacturing industries of the town are concerned, such as the Canadian General Electric Company, the great increase of late years in the application of electricity to industrial development is giving that great concern the prosperity we are all so well pleased to see it enjoying. To say that the National Policy is to be credited with the establishment of this industry, is as preposterous as to claim that the Wm. Hamilton and the Peter Hamilton Manufacturing Companies owe their origin to the N. P.; they were in flourishing condition long before the N.P. And speaking in this connection, it would not be amiss to inquire from the gentlemen representing Mr. Kendry and the high taxation party, where are the customs woollen mills, carriage and waggon making industries, also the cabinet making industries

THAT FLOURISHED IN PETERBOROUGH

before the N.P., and gave employment to hundreds, years ago, where tens are not now employed? These gentlemen will tell you of course that the N.P. is not to blame for this condition, any more than the Government is to blame for the stealing of hundreds of thousands of dollars in connection with the Lachine bridges at Montreal, or for the magnificent wages of $2 a day for man and first-class team on the works of the Trent Valley Canal. That's a way the Government gentlemen have. They won't admit responsibility for anything that goes wrong under their policy or administration, but claim everything that looks good, even to the uttermost farthing. Hon. John Haggart claims that he was not responsible for the stealing that went on in connection with the Curran bridge contracts. He was simply the political head of his department, and left such trifling details as the spending of the money, and seeing that it was not stolen, to his deputies. But Mr. Haggart is exceedingly anxious to assume the responsibility—claim all the credit to himself personally—because the wonderful feat has been accomplished, of a Government work—the Intercolonial Railway—paying expenses.

Then while the N. P. was to be of such great benefit to the working classes we find that the protected industries are not carrying out the principle they pretend to preach—patronizing home industries and Canada for Canadians—but we find them bringing their supplies in from England, Belgium and the United States, thus ignoring the claims to development of the iron industries of Canada while the Canadian workingman is left to shift for himself and bear the blunt of the burden as he will. The farmer is always compelled to do so.

Mr. Stratton then took up the trade policy of the Government and showed that the government had failed to keep the promises made in the name of the N. P. in any material respect. He showed that whatever prosperity we enjoyed was due not to the National Policy, but to the energy of our own people, the blessings of providence and the grand resources of own country fighting against restriction and hampering of the avenues of trade. It was high time there was a change of government, and he urged the electors to assist in that most desirable change by rallying to the support of Mr. Hall, the Liberal candidate.

CITY ORANGE LODGE.

Important Resolutions Adopted.

The semi-annual meeting of West Peterborough County Lodge was held on Tuesday night in the Orange Hall, Lakefield. The attendance was of a type that suggested power and strength. County Master J. B. McWilliams was in the chair. A large amount of business in reference to the coming 12th of July celebration was disposed of and the following resolution was unanimously carried by a standing vote:

Whereas on the occasion of the late visit of our Grand Master, Bro. Clarke Wallace, to Peterborough, Orangemen of all parties unanimously joined in extending a cordial greeting and warm welcome to him.

And whereas the Daily Evening Review in its issue of the 5th inst., and more especially on the 6th inst., endeavours by cowardly insinuations to cast aspersions on the character and motives of our County Master and others.

Be it therefore resolved that this County Lodge hereby expresses its strongest disapproval of the action of said paper (from whom the order deserves better) in endeavouring to traduce for party purposes the motives of brothers, who, through courtesy, although differing from him politically, endeavoured to extend congratulations and welcome to our distinguished head, and that copies of this resolution be sent to the daily press of Peterborough.

REDDY WELLS UNDER ARREST.

Did he Assist Burns in Evading Arrest by the Port Hope Police.

Reddy Wells, who drove Burns, the man suspected of robbing Robertson at the C. P. R. Hotel, to Port Hope, is under arrest on a serious charge, having assisted Burns in evading arrest. The story is told by the Port Hope Guide as follows:

"Last evening Chief Douglas received a telephone message from Peterborough to be on the lookout for two young men who were supposed to be in town from Peterborough with a horse and rig. Their names are Burns and Wells, the former charged with stealing some $70 from a man in Peterborough whom he was taking care of. The chief learned of their being in town shortly after he received the message and went to the G. T. R. station where he found his two men in the waiting room. Going up to the man named Burns upon enquiry the chief received the reply that his name was not Burns, but that he was from Peterborough and that his chum's name (Wells) was Burns. Upon the question being put the chief received the answer from Wells that his name was Burns. He was therefore collared, the real article in the meantime making off. On being searched some $7 was found upon Wells, who is supposed by his clever game to be implicated in the robbery. Chief of Police Roazel, of Peterborough, was in town to-day and will conduct the prisoner back to his native town. Burns is still at large."

Wells has been remanded until Tuesday, having appeared before the magistrate last night.

A ROYAL WELCOME

To the Liberal Leader in the Royal City.

HON. DR. MONTAGUE'S RESIGNATION

Said to be in the Hands of the Premier—Ministers Fighting for Their Lives—Religious Persecution in the Parishes of Quebec.

Guelph, June 10.—As the Liberal leader passes from place to place each succeeding demonstration in his honor seems to excel those which have gone before, great as the success of his tour up to the present time has been. When the train which brought him from Stratford rattled up to the station here this evening Mr. Laurier found waiting his arrival a throng of 1500 people, who greeted him with a mighty cheer of welcome. The demonstration began with his appearance on the platform, and it accompanied his conveyance behind a four-in-hand team of greys to the Royal Hotel. He was received upon alighting from the train by President C. L. Dunbar of the South Wellington Liberal Association; Mr. G. L. Higgins, secretary; Mr. Hugh McMillan, President of the South Wellington Liberal Association; Dr. Stirton, secretary; Mr. James Innes, the Liberal candidate in that constituency, and other prominent Liberals.

In the evening he was escorted to the meeting in the Victoria Rink by a monster procession, which was the admiration of the thousands of spectators who lined the streets. At the head of it was Capt. Mann, the chief marshal, and the 30th Battalion Band; a bicycle corps, composed of the wheelmen of the Royal City came next, and following it was the Erin Band, setting the pace for the sturdy yeomanry of that township afoot; next in line were the carriages containing the leader and other prominent Liberals; the students of the Ontario Agricultural College marched in a body, keeping time to the skirling of the pipes, under the deft manipulation of William Thain and John McNeil. A squad of horsemen followed, then the Hillsburg Band, and finally a large number of citizens on foot. The crowd that jammed itself into the rink was estimated at between 7000 and 8000.

THE GREAT AUDITORIUM.

The decoration of the great Auditorium was elaborate and tasteful. On the balcony overlooking the platform was a bevy of 30 pretty girls, each armed with a bouquet. Among the mottoes were these: "Welcome, Laurier," "The Tory party is doomed; Laurier, Mowat and Victory," "Has the National Policy made you rich?" "Country before party," "The people, Not I, must rule," "Vote for Innes and Honest Government," "Conciliation, not Coercion," "Down with Tupperism." The college boys, from their perch in the gallery, sang out in boisterous chorus a refrain in which the name of Laurier was the beginning and the end. The girls above the platform sent over a sweet smile of approval, whereat the students of the science of agriculture remarked in thunderous tones that "Laurier's all right."

MR. LAURIER'S ARRIVAL.

The Opera House Orchestra, which had a place in the gallery opposite the platform, began a noverture, but it never got to the end of the piece. In the middle of the selection the leadr arrived, and a cheer went up from that mighty crowd such as has never before been heard in Guelph.

The ovation began when Mr. Laurier appeared in the building, and continued with ever-increasing vigor until he had stepped upon the platform and made his bow. The girls in the gallery gave him an old-time Chautauqua salute. In the midst of the demonstration the strains of the "Maple Leaf Forever" were heard, although indistinctly, so great was the volume of cheering by which the people gave expression to their feelings of pleasure and satisfaction at seeing their leader.

President Dunbar well discharged the duties of chairman. At his right hand sat Mr. Laurier and Mr. G. H. Bertram of Toronto; at his left Mr. James Innes, Mr. E. F. B. Johnston, Q.C., of Toronto, and Mr. Hugh McMillan, President of the South Wellington Liberal Association. The chairman made a neat introductory speech, in which he warmly eulogized the Liberal leader. The mere mention of the name of Mr. Laurier provoked the audience to an expression of the greatest enthusiasm.

There was absolutely no limit to the enthusiasm of the people when Mr. Innes, the coming member for South Wellington, was presented to them. Mr. Innes with ability and clearness reviewed the issues now before the people, and was listened to with the closest attention.

Mr. E. F. B. Johnston, Q.C., and Mr. George Bertram made capital speeches, after which Mr. Laurier was introduced.

A mighty burst of enthusiasm greeted the leader when he arose. Amidst the demonstration there came from the gallery above the platform a perfect Niagara of flowers, which fell at the feet of the leader and diffused a sweet redolence through the air. This was the tribute of the bevy above, who followed up the fusilade with a repetition of the handkerchief salute. The bunch of dissentients in the gallery, who had remained quiescent while Mr. Bertram was addressing the audience, was again in evidence, but only momentarily. One of them burst over the railing a handful of the bills announcing Sir Charles Tupper's meeting in Guelph next week. A second shower followed, and then a faint cheer at the mention of the name of the late Sir John Macdonald. Mr. Laurier paid a generous tribute to the memory of the dead chieftain, and after that the only interruptions were those of the vast assemblage cheering the eloquent and patriotic utterances of the leader. The Manitoba school question received the largest share of Mr. Laurier's attention, and his masterly statement of the case against the policy which had been pursued by the Government of Sir Charles Tupper and in favor of the method of settlement advocated by the Liberal party produced no end of enthusiasm.

The leader was followed in an effective speech by Mr. Ballantyne. Cheers for the Queen, for Mr. Laurier and Mr. Innes brought the great meeting to an end.

The horses were taken from Mr. Laurier's carriage by the college boys and the Young Liberals, who in the intensity of their enthusiasm hauled the conveyance between the lines of cheering people to the Royal Hotel.

DR. MONTAGUE RESIONS.

Sir Charles Tupper's Cabinet is in Deep Water and They Know It.

Ottawa, June 10—The resignation of Hon. Dr. Montague as a member of the Cabinet is in the hands of the Premier, who, however, does not think it advisable to accept it at present. The matter was discussed at the Cabinet Council held in Montreal last Friday. The reasons for this course are not known to your correspondent, but the main fact is correct. They are easy to conjecture, however, from certain well-known facts. Dr. Montague and Mr. Haggart are sulking. The former was to accompany Sir Charles Tupper in his present Ontario tour, but he failed to go. Of course his health is not of the best, but it is probably as good as it has been any time since dissolution. The fact is he is sick of the campaign and sees that there is no hope for the Government. He does not wish to identify himself with the Premier's shamelessly open bid for the Catholic vote, as it would spoil his chances for the Conservative leadership, at which he aims. He is also known to fear defeat in Haldimand. Another sign of the private anticipation of defeat present in the minds of Ministers is found in an effort recently made by Hon. G. E. Foster to secure a position under the Grand Trunk Railway Company. Mr. Haggart is keeping close to his constituency and refuses, like Dr. Montague, to endorse Sir Charles Tupper's policy on the stump. He is being hard pressed for his seat, and the latest reports are that he will be defeated. Mr. Wood is holding small eldeline schoolhouse meetings in the townships attached to Brockville electoral district and pursuing a campaign altogether unusual in a Minister in fact unprecedented. His call to Sir Charles Tupper to give him a meeting was undeniably the hoisting of the flag of distress. All the ministers are having their hands full in their constituencies, and appeals are being made to Mr. Foster to come to Ontario, where at present there is no Ontario Minister doing anything at large. Mr. Foster has his work cut out at home.

Four former leading supporters of the Conservative party in New Brunswick have accepted the Liberal programme, and are now running as candidates in support of Laurier—Dr. Lewis in Albert, Mr. Turgeon in Gloucester, Mr. Lebiarc in Kent, and Mr. Laforest in Victoria.

RELIGIOUS PERSECUTION.

What is Going on Privately in Some of the Quebec Constituencies.

Quebec, June 10.—The people in the west have no idea what is occurring politically in the Province of Quebec, if the western people judge only by the collective mandement, or even Bishop Lafleche's political sermon. Conservatives tell you privately that those mold orations are a kind or blind not to frighten the English people and prevent them from turning against the Government. What is going on privately is ten times worse, but without much effect with the exception of a few parishes. It is especially in the County of Portneuf that the priests are operating boldly. In three parishes priests have told their people that it is a mortal sin to vote for a Protestant, and still a greater aggravation to vote for a Liberal. Jules Tessier, the local member for the County of Portneuf, having personally heard Father Rouleau of St. Ubalde giving vent to such threats to the people, immediately set to work to get affidavits, and in a regular manner made a complaint to Archbishop Begin.

Father Caxeau, parish priest, repeated the same language at St. Alban as Cure Rouleau made use of at St. Ubalde. He went further and threatened the members of a religious association called the Tiers Ordre that he would discover who had voted for the Protestant Liberal candidate and he would have them disgraced in the presence of the whole parish, taking away from them their ensign and costume.

This has caused quite a revolution in the county.

Conservatives boast privately that when the collective mandement will be read a second time, that is on the 21st inst., the comment will be terrible and unmistakable, as it would be too late then to become public in the English provinces of the Dominion and obtain from the English Protestants a kind of protection for the French Liberals. All precaution, however, is now being taken against such a trick.

L'Electeur has now a standing offer of a bet of $500 that r. Laurier will carry the Dominion elections. This bet, although publicly open for two days, has not yet been covered. In 1891 Mr. Laurier carried 18 out of 23 constituencies in this district, and the Liberals on the present occasion will not concede the loss of one of the counties out of the 23. They are anguine of going to Ottawa with a solid delegation.

Elections June 23rd.

To Lord Aberdeen, Governor-General of Canada:

MAY IT PLEASE YOUR EXCELLENCY,—

The candidates and agents of the Tupper Government are hawking about the country an order in Council granting over twelve millions of dollars to 50 or 60 railway projects. Is this a genuine document? Have you signed this order in Council? Parliament is dissolved, and the country has a right to ask you that the Treasury shall not be looted to provide campaign funds for a political party. You are well paid for the work you do in Canada and it is not unreasonable that the people should hold you to your duties and responsibilities. Are you protecting the treasury, or are you allowing the public credit to be pledged to the service of a league of desperate political gamesters? You are, under existing circumstances, the natural guardian of the rights and interests of the Canadian people, and they want to know if this order in Council bears your signature, and if this method of despoiling the Treasury has your approval. An answer is respectfully requested.

A FARMER MURDERED.

Shot and Instantly Killed Near Port Hope by a Barnardo Boy of Fifteen Years.

Port Hope, June 10.—A murder occurred near Port Hope about 5 o'clock this evening. Thomas Lingard, a farmer, living near Quay's Crossing, about eight miles north of this town, was shot and instantly killed by a young Barnardo Home lad of 15 named Prentis. Prentiss was rabbit shooting on Lingard's farm. Lingard coming along ordered him off his property. The boy refusing to obey, Lingard said if he did not he would put him off by force and advanced towards Prentiss.

The later raised his gun and said: "If you come another step I will shoot you dead."

Lingard continued to advance, when the young man fired, the charge taking effect in Lingard's neck, killing him almost instantly. Some farmers in the vicinity, hearing of the shooting, promptly arrested Prentiss and brought him to town, where he is now securely locked up.

DROPPED TO HER DEATH.

Mrs. Annie Dyer, Who Murdered Many Babies, Paid the Awful Penalty in London Yesterday.

London, June 10.—Mrs. Annie Dyer, the Reading baby farmer, who presumably murdered scores of infants entrusted to her care, was hanged in Newgate Prison at 9 o'clock this morning. The weather was rainy, but the crowds in the vicinity of the prison were as large as the available space would accommodate. When the black flag was hoisted, indicating that the Reading ogress had paid the penalty of her crimes, the crowd cheered loud and long. Since she was sentenced to death Mrs. Dyer attempted twice to commit suicide in Newgate Prison. Lately she was watched day and night and was deprived of everything except her most necessary clothing, even her hairpins having been taken from her. The woman was completely dazed when she was led to the scaffold this morning, and had to be supported by the wardresses who have had her in charge since she was sentenced to die.

Although Mrs. Dyer was clearly proved to have committed numerous murders of infants, she was tried on a selected case, that of killing a little girl, the child of a barmaid, which she had adopted for the sum of £10. The child was strangled with a piece of tape and its body sunk in the Thames at Reading. The bodies of seven other children, who had been similarly strangled, were found in the river at the time that the body of the barmaid's infant was recovered.

Fitzsimmons in London.

London, June 10.—Robert Fitzsimmons, the Australian pugilist, who is in London giving exhibitions in boxing and wrestling, began his series of performances before the National Sporting Club last evening. He was well received, and his exhibition was in every respect successful.

The London Drawing Room.

London, June 10.—The Princess of Wales, on behalf of the Queen, held a drawing room at Buckingham Palace at 3 o'clock this afternoon. The weather was rainy, but despite that fact quite a large number of persons were present.

Verdict for Defendant.

London, June 10.—The suit for £15,000 damages for breach of promise of marriage, instituted by May Gore, an actress, against Viscount Sudley, heir of the Earl of Arran, was brought to an end to-day, the jury returning a verdict for the defendant.

SPECIMEN SCANDALS.

Conservatives are appealing to the electors for a renewal of power on the ground, as Dr. Montague stated, that the Conservative party had made Canada what it is. They are entitled no doubt to some credit, though it must be admitted that the splendid resources of the country and the noble spirit of its people have brought development in spite of bad government. That we have had corrupt and extravagant government cannot be denied, nor that the public funds in millions have been wasted. While the Conservative government is posing as a patriotic progressive government, it will be wise to remind it occasionally of the corrupt expenditures it has been guilty of. Below is given a list of a few specimen scandals of which the present government have been guilty :

St. Charles' Branch Railway, (14 miles)—Promised cost, $136,000, expended upon it, $1,740,00 ; outstanding claims, $20,719 ; cost of road itself, $822,000 ; cost of land damages, $900,000.

Tay Canal, (6 miles)—Estimated cost, $132,660 ; expended upon it, $476,128 ; revenue for 1894, $126 ; cost of maintenance 1894, $2,458.

Little Rapids Lock—Contract estimate of cost, $86,680 ; paid to contractor, $200,000 ; contractors' claims still unpaid, $61,000 ; no traffic and no receipts from the work.

Galops Rapids Channel, (Cornwall canal) —Contract price, $306,600 ; paid to contractors, $446,500 ; contractors' claims still unpaid, $130,000. The Minister of Canals stated in Parliament after the work was taken over that no one would use it.

Sheiks Island Dam, (Cornwall Canal)—The original contract was cancelled and a work abandoned upon which $155,000 of money was absolutely thrown away. The new work was given to a favoured firm of contractors without tenders, who have been allowed $22,500 over their contract price.

Langevin Block—Estimate of cost, less than $500,000 ; already paid, $781,000 ; outstanding claims, $250,000. Contractor Charlebois had following clause put in the contracts which other contractors on the building had with the Government : "The contractors will agree to bind themselves to buy the right of way from the contractor, Mr. Charlebois."

Connolly-McGreevy Works—Cost to contractors of work, $2,183,239 : cost to country, $3,138,234 ; contractors' profits, $593,-975 ; lost to country after deducting fair profit, $700,000.

Printing Bureau scandal — Senecal's commissions on purchases for supplies and machinery, $50,000.

Curran Bridge—Estimate cost, $123,000 ; Government Commission's estimate of reasonable cost, $160,000 ; actual cost, $430,000 ; stolen from the country, $270,000; Judge Desnoyers decided that Government's contract with Contractor St. Louis was so drawn that he had lived up to it.

Campaign contributions paid by Senator Ross and Mr. Beemer to Sir Adolphe Caron and recouped by subsidy to the Lake St. John Railway, $50,000.

Fredericton and St. Mary's Bridges—Paid up capital of company, $20,000 ; government loan at 4 per cent, $300,000 ; Government bonus, $30,000 ; total cost of bridge, $418,000 ; floating debt of bridge, $10,000 ; interest due the Government upon loan since 1888, $66,000 ; total amount public money sunk in this private speculation, $396,000.

Caraquet Railway—$324,000 of public money has been sunk in this sink hole, hole. The road is not paying running expenses, and the public expenditure which was incurred for election purposes and nothing else is a total loss.

Here are serious facts for the independent elector to study. Let him consider whether it is his duty as a party man to continue to support a Government which has shown itself capable of so betraying the trust imposed in them. Not only has the past Government been corrupt, but there is a grave fear that the future of the country under Conservative government will be even worse. Sir Charles Tupper is known to be a politician of extravagant habits, fertile in promise, regardless of the public interests. He has shown this in the past, and his lavish promise of unlimited expenditure, in the form of subsidies to railways and grants to wild-cat public works schemes, shows that he will be an enormously unsafe man to have at the head of affairs in Canada. He is hawking about the country and showing to contractors, who are to supply contributions to election funds, orders in-council granting some thirteen million dollars in subsidies to some fifty or sixty railways. Honest Conservatives, you can't afford to vote for Tupper; the country can't afford it The end of a corrupt regime is at hand and you should have the satisfaction to your conscience of knowing that you assisted in inaugurating an era of honest government.

THE PREMIER'S DISTRESS.

Sir Charles Tupper's excessively sensitive soul is shocked. There's conspiracy, there's insult to to the Queen. He grows heroically indignant over the base conspiracy among the independent electors of Canada to turn out the government, meaning the Liberals and Patrons. There is no reason why the adherents of these two parties, with an almost identical platform, and that palpably in the interests of the country and against the interests of class legislation should not be opposed to the government. But the virtuous Premier is careful not to refer to the basest conspiracy that ever disgraced the history of Canada. While some ministers of the crown were secretly plotting against the political life of the Premier they were sworn to uphold, Sir Charles Tupper was assisting in the unworthy intrigue, waiting to enjoy the results of the nefarious plot. If he did not institute the plot, he is equally guilty because he practically endorsed it, and was ready to fill the place of the betrayed Premier, Sir Mackenzie Bowell. And yet Sir Charles denounces the harmonious efforts of a large and respectable majority of the Canadian electorate, to oust a Government, founded on conspiracy, headed by the arch-conspirator, and withal behind it a record of extravagance, mal-administration, and corruption including all the sins in the political calendar.

The Liberals have a right and they are right in endeavouring to put out a Government so hostile to every legitimate interest of the country, and the Patrons have a right and are right in trying to accomplish the same object. Their working for the same object is not conspiracy, it is patriotism. As well call it conspiracy for the volunteers of Canada to unite in repelling a foreign invader, because he comes as an open foe. In that case he would receive short shrift and not do the harm which the present unworthy government, which poses as the friend of the country, would do in its reckless mismanagement of the country's affairs, for the spoils of office. The spoils which an invading army would take from the country would not be greater than the stealings that have taken place since the present Government party have been in power. And if we had Sir Charles Tupper at the head of our affairs, the stealings of the past would be as nothing to what would take place under his regime. His promises of aid to railways, since this campaign began, exceed the shameful increase of the public debt of fifteen million dollars since the Tupperites came into power. If Sir Charles does this, when he is simply appealing to the people, what will he not do should the people take the nationally suicidal course of endorsing him and returning him to power?

Sir Charles speaking at Brockville, on Tuesday night, grew eloquent over the "greatest insult ever offered the representative of the Crown in this country." Sir Charles referred to the following, printed in the Globe and reprinted in THE EXAMINER :—

To Lord Aberdeen, Governor-General of Canada :

MAY IT PLEASE YOUR EXCELLENCY,—

The candidates and agents of the Tupper Government are hawking about the country an order-in-Council granting over twelve millions of dollars to fifty or sixty railway projects. Is this a genuine document? Have you signed this order-in-Council? Parliament is dissolved, and the country has a right to ask you that the Treasury shall not be looted to provide campaign funds for a political party. You are well paid for the work you do in Canada, and is is not unreasonable that the people should hold you to your duties and responsibilities. Are you protecting the treasury, or are you allowing the public credit to be pledged to the service of a league of desperate political gamesters? You are, under existing circumstances, the natural guardian of the rights and interests of the Canadian people, and they want to know if order-in-Council bears your signature, and if this method of despoiling the Treasury has your approval. An answer is respectfully requested.

And this involves the simple truth. The Globe claims that its information is correct as was its information in respect to the order in Council giving a two and a half million grant to the Hudson Bay Railway which subsequent events proved was correct. What insult is there in asking His Excellency, the Governor-General, if he is "protecting the treasury against a league of desperate political gamesters?" Of course the government organs say that no money can be paid on an order in Council. Very true. But it is a very simple thing to approach contractors, who have had experience in this sort of thing, and get them to subscribe $10,000 or $20,000 to the bribery fund of the government to help them buy their way into power. And if the government gains power, we know that these subsidies promised by order in Council will be ratified by a slavish majority. A majority, gained by such bribery would not for one second hesitate to back the government in whatever reckless course it might choose to adopt. Speaking of the insult to the Queen's representative; is an appeal to him to do his duty anything like the insult his sworn advisers, the bolting ministers put upon him? They put a speech into his mouth at the last session of parliament, and before parliament could give him the courtesy of a reply the ministers mentioned bolted, betrayed their leader, and practically told His Excellency that his reply must wait till they had carried their plot to success. Bah! the impudence of Sir Charles Tupper or any of his followers talking about insulting Her Majesty. The Tories of former days pelted Her Majesty's representatives with rotten eggs. But they were the rabble, led perhaps by some figure-head, the political prototype of Sir Charles Tupper, who led the sworn ministers of the Crown, representative men, the bolting Ministers, who by that act insulted the Governor General and blackened the fair name of Canada as no man or men in a similar position have done in the history of the country. Is a government built on plots, honey combed with treachery ; reeking with corruption and cemented by the adhesive force of spoil—a fit government to rule the destiny of five million honourable and patriotic Canadians. We answer "No," and we are sure the country will answer "No," also, on June 23rd.

MR. KENDRY's policy in relation to Manitoba and remedial legislation is "an armed force with fixed bayonets," and Mr. Hall's policy is the sunny way of investigation, conciliation, and friendly settlement. Honest electors, which do you prefer?

The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

GENERAL ASSEMBLY.

Rev. Dr. Gordon of Halifax Chosen for Moderator.

DR. ROBERTSON ON HOME MISSIONS

Opening of the Presbyterian General Assembly in Toronto -A Large Attendance of Ministers and Laymen and a Goodly Number of Ladies at the Opening.

Toronto, June 11.

There was a large attendance of ministers and a sufficient number of laymen and ladies to crowd the Central Presbyterian Church when the Presbyterian General Assembly convened last night. The retiring moderator, Rev. Dr. Robertson of Winnipeg, conducted the services and delivered a powerful sermon on home missions.

It would seem that the first duty of Canada was to plant religious institutions among newcomers settling in the province.

Home mission work, Dr. Robertson continued, was twofold—first, to help weak congregations and maintain ordinances; and, second, to care for new or neglected settlements. In some parts of Canada French and Germans were displacing English-speaking people, in others population was diminishing, and from all parts people were removing to the other big and western Canada. These changes must be watched if the church was not to lose her people. Canada was yet young and settlement was proceeding in almost every province. It was incumbent on the church to follow the new settlers with the Gospel.

Hitherto settlement had been disappointingly slow; the causes, in part at least, were artificial, and it was the business of statesmen to discover remedies. But better—far better—that the progress of settlement should be slow, and that the church should keep pace, than that settlement should outpace the church and spiritual and moral decay ensue. The west was the most important mission field.

The home missionaries of the church were preaching in seven different languages, and it was impossible to prevent some overlapping. The evils would, however, be gradually cured if the bane of Separate schools were not fastened on the west by outside interference. Foreigners loved their own language, but they were anxious to learn ours, and many of the rising generation would never know any other. The lack of suitable missionaries had also been a serious hindrance.

The difficulties attending home mission work arose from several causes. The vast extent of the field, sparseness of population, and the presence of two or three denominations doing mission work, with the variety of nationality and language, were serious difficulties.

The necessity of prosecuting home mission work was evident. Settlements left without the Gospel soon showed signs of decay in spiritual life and moral tone. Several instances were given where lack of ordinances had resulted in sad defection from religion. West of the Kansas line only 7.3 of the adult males belonged to a Protestant church. This had induced a condition of things that render municipal government difficult and human life cheap. Last year 10,500 persons were murdered, and over 44,000 during the past seven years. Were homicides as frequent among us according to population Ontario last year would have had 300 and Toronto from 25 to 30.

If our country was to be saved from sinking into a similar condition it would be by cultivating the religious life of the people, not in select sections, but from ocean to ocean.

A number of instances of good results from mission work were given, the conclusion being drawn that the prospects for home mission work were most cheering; there was encouragement in the wide field with its promise of growth and people. The theatre was roomy and the outlook bright.

In closing, the preacher bore testimony to the valuable home mission work done by other denominations, the Methodist and the Anglican churches being especially mentioned as having been most active.

"Some of our sons," said the doctor, "will undoubtedly find a home on the frontier, as the problem of living for many in the east is becoming more difficult of solution. Shall we not help to make their future place of residence clean and sober?

"If the object of mission work is to save souls here and hereafter, where is there a field that promises larger returns, if effectually worked, or that threatens more lamentable ruin if neglected, than this same frontier, where now so many religiously trained in youth are to be found?

"And if the church is to gather strength for work at home and abroad let her not neglect new settlements. Is neglect not writ large over the whole of eastern Canada, from Cape North to Port Arthur? Do we need to write it once more over the fair west?

"And when the Chinese and Japanese come from across the sea they must not be obliged to search for a Christian with a lantern. The influence of our Christianity should be so clear and strong that he who runs may read. So we shall speed the day when the kingdoms of the East shall become the kingdoms of Our Lord and of His Christ.

"For Zion's sake will I not hold my peace, and for Jerusalem's sake I will not rest until the righteousness thereof go forth as brightness and the salvation thereof as a lamp that burneth. And the Gentiles shall see Thy righteousness and all kings Thy glory."

Born and Died in Jail.

Halifax, N.S., June 10.—Last week a child was born in the county jail, the mother being a young and unmarried colored girl named Florence Riley, who had been convicted of perjury. This morning the child was found dead in the mother's bed and the medical examiner decided that it had been suffocated by being overlaid.

A Strange Affair.

Buffalo, N.Y., June 10.—The News today says it has obtained proof conclusive that E. B. Henderson, author of the tragic letter from the Falls, is in fact the pseudo victim George Ibach (not Iback), alias George T. Wilson of Idlewood, N.Y., Lake View, N.Y., North Evans, N.Y., South Bend, Ind., Buffalo, N.Y., more recently of Niagara Falls, N.Y., and at present a resident at large of the Canadian frontier.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

MR. MACDONALD'S DEATH.

The Ex-Lieut.-Governor of Ontario Died in Montreal Yesterday Afternoon —Was Born in 1817.

Montreal, June 10.—(Special.)—As foreshadowed in to-day's issue of The World, Hon. D. A. Macdonald, ex-Lieutenant-Governor of Ontario, and for some years Postmaster-General in the Mackenzie Administration, died here this afternoon at his residence on Sherbrooke-street. He leaves four daughters, Miss Macdonald, Lady Hingston, Mrs. McCarthy and Mrs. Macdougall. Mr. G. F. Macdonald of The Glengarry News is also a son of the deceased. Mr. Macdonald was born in 1817, and although his daughters were very devout Catholics he never evinced a very strong enthusiasm in religious matters. A week or so ago, however, he sent for a clergyman and made all the necessary preparations to die in the Catholic faith.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that it can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

CHASING "DR." JEBB.

The Grulist is a Graduate of Toronto University, But Mr. Wasson Objects

Kingston, June 10.—Two charges of infraction of the Ontario Medical Act were preferred at the Police Court by James McLaughlin to-day against J. H. Jebb, accused of practising medicine without possessing the necessary legal qualification and with using the title "Dr." without having the right to do so. Mr. Whiting asked for an adjournment till Monday to secure the attendance of Detective Wasson of the Medical Council, under whom McLaughlin is acting. Mr. Shaw said his client was compelled to leave town to-night. Similar charges were brought against him and failed at Barrie and other places. An adjournment was granted. Dr. Jebb is a graduate of Toronto University.

BURNS WANTED TO BE FREE.

A Central Prison Convict Made a Daring Dash for Liberty.

Cobourg, June 10.—James Burns, in company with James Darrel and Martin Davis, while being conveyed to Cobourg from the Central Prison for trial on a charge of jail-breaking, succeeded in freeing his legs of the shackles, and made a break for the car door. The train at the time was nearing Bowmanville and running about 20 miles an hour. He was recaptured and lodged in the jail at Cobourg.

An Alliance Among Millionaires.

New York, June 10.—The formal announcement of the engagement of Miss Grace Wilson to Cornelius Vanderbilt, jr., is made. Miss Wilson is the youngest daughter of Mr. and Mrs. Richard T. Wilson. The eldest daughter is the wife of Ogden Goelet; the next daughter, Miss Belle Wilson, about five or six years ago, was married to Michael Henry Herbert of the British Legation, and is now in Belgium. Marshal Orme Wilson, the oldest son of Mr. and Mrs. Richard T. Wilson, married several years ago Miss Caroline Astor, the youngest daughter of Mrs. William Astor. Cornelius Vanderbilt, jr., is the second son of Mr. and Mrs. Cornelius Vanderbilt. He is a graduate of Yale University, about 23 years old.

Could not get Insured.
Rejected by Straight Line and Mutual Companies.
But now insured in both.
"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, $1000 in each. My face was a mass of pimply blotches and my urine did not stand the test. One doctor in examining me said I could not pass, but that my trouble was curable. He advised an alterative medicine, and I commenced taking Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked "I never saw such a change in any man." This is indorsed by Mr. J. Todd, the popular druggist, corner Queen and Crawford Streets, Toronto.
Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from poor or poisoned blood. Of all druggists, $1 per bottle.

Death of Mrs. Christopher Leary.

The sad intelligence was received in town that morning that the wife of Mr. Christopher Leary, a former resident of North Monaghan, near town, and mother of Mr. R. H. Leary, died this morning at Minden. The deceased lady was 70 years of age. Particulars in relation to the funeral, which will take place in Peterborough, will be given to-morrow.

Take them off Monday.

All through the town are to be seen gay colored partizan buttons in the lapels of our citizens' coats. It is not generally known that those who sell buttons, as well as the wearers, are liable to a fine of $100 or three months' imprisonmnt, if such buttons or badges are worn on election day or for eight days previously. The sale in these therefore is likely to fall away soon.

Dead Horses in the Lake.

The dwellers near the Lake shore and points and coves north of Jacob's Islands in south Harvey, would like very much to interview the owners of the dead horses floating and lodging on the shores and polluting the waters and atmosphere for miles inland. The people say that the smell is worse than from forty skunks and that they are tired of our lake being made a dumping place for nuisances from the lake west of Bobcaygeon in Verulam, and would like to have the Verulam board of health officers find out the owners' names so that they may be summarily dealt with as they deserve. Some six or seven dead horses have floated down from the upper lake during the last two years.

YOUNG PARKER ARRESTED.

He Was in Town For About a Month in the Spring Taking Photographs.

H. Parker was arrested in Cobourg, yesterday and was brought to Peterborough last night by Constable Adams on the strength of a warrant, charging him with larceny.

The case is a peculiar one, the arrest of young Parker being occasioned through his taking a rubber coat belonging to Mr. Maitland Boswell from the Grand Central Hotel. The coat in question was hanging in the cloak room of the hotel and was loaned to Parker by the clerk, Mr. Burney, during the afternoon of the 25th of May. It was returned and hung up, but when Parker was leaving for Port Hope in the evening he took the coat with him.

With a companion, Parker is in the photographing busines and will be remembered as doing quite a business in town for about a month.

The two young fellows left here and went to Port Hope, it seems, and afterwards located in Cobourg.

Suspecting that the coat had been taken by Parker, Mr. Burney wrote him several times in reference to its return and also telegraphed but without the desired effect.

The warrant was then issued and arrest promptly followed.

Parker's story is, substantially, that he never intended to keep the coat, as he was again returning to Peterborough and had left some valuable property behind him at the hotel. He had taken the cost to Cobourg and lent it to his partner, who on being through with it hung it up in the hotel. When he went to look for it to return the coat, it was gone.

The Magistrate took a lenient view of the case, judging that there had been no intention on the part of the prisoner to steal the coat. He was therefore allowed go on paying the costs and the price of the coat, amounting in all to $19.50. If the coat can be found and is returned in good order Parker will be refunded eight dollars.

BRAVERY RECOGNIZED.

Our Local United States Consul Receives a Medal.

A medal of honour has been awarded Edward E. Dodds, late sergeant, Co. C, 21st New York Cavalry, "for most distinguished gallantry in action at Ashby's Gap, Virginia, July 19, 1864." This noncommissioned officer, at great personal risk, and in the face of the enemy's guns, rescued his wounded captain and carried him from the field to a place of safety. Mr. Dodds is the local United States Consular Agent.

Rev. Dr. Talmage in his sermon on Sunday, May 31st, referred to Mr. Dodd's brave act as follows: "In a battle during our last war the Confederates were driving back the Federals, who were in swift retreat, when a Federal officer dropped wounded. One of his men stopped at the risk of his life and put his arms around the officer to carry him from the field. Fifty Confederate muskets were aimed at the young man who was picking up the officer. But the Confederate captain shouted: "Hold! Don't fire. That fellow is too brave to be shot." And as the Federal officer, held up by his private soldier, went limping slowly off the field the Confederates gave three cheers for the brave private and just before the two disappeared behind a barn both the wounded officer and the brave private lifted their caps in gratitude to the Confederate captain."

STREET WATERING.

To the Editor of the Examiner:

DEAR SIR,—Will you kindly call the attention of the proper authorities to the miserable style in which the streets in the centre ward—east and west—are watered. The dust is and has been sifting into stores and offices, to say nothing of eyes. We pay enough to have them properly watered, and the Otonabee has not yet dried up.

LACROSSE.

The action of Cobourg in defaulting to Peterborough yesterday, cannot be too strongly condemned. The weak excuse was offered that one of the team was ill. What possible difference this could make is hard to say. By not appearing on the field the game of course is forfeited to Peterborough, and so even if Cobourg had shown up and been beaten the result would have been the same. Preparations had been made for the match and the club had gone to considerable expense. Peterborough will be justified in pressing for Cobourg's retirement from the Association.

THE WHEEL.

Every wheelman should make it a point to take part in the Laurier procession on Saturday. Wheels should be decorated at the rink Friday night, and the bicyclists will form on the market square at 11 a.m. Saturday and proceed to the station.

One bicycle club in Belleville has risen in revolt against the action of the railroad companies in imposing an extra charge upon bicycles whether the traveller has other baggage or not. At the meeting of the Y.M.C.A. road club last night the action of the companies was carefully considered, and a committee was appointed to interview the candidates in the present election in East and West Hastings and endeavour to secure their promise if elected to guard the interest of wheelmen.

A largely attended meeting of the electors of Ennismore was held in O'Reilly's school house in the interests of Mr. Hall last evening.

Mr. Michael Perdue occupied the chair.

Messrs. R. F. McWilliams, G. M. Roger, J. R. Stratton and Richard Hall, the candidate, addressed the electors in support of the policy advocated by Mr. Laurier.

Messrs. John Burnham and W. H. Moore spoke on behalf of the candidature of Mr. Kendry, the coercion of Manitoba and the continuance of the extravagant management of the affairs of the country.

The meeting was a most enthusiastic one and the probabilities are that Mr. Hall will receive the hearty support of the electors of the district as well as that of the entire township.

MR. BURNHAM'S EXPLANATION.

To the Editor of the Examiner:

SIR,—Your issue of June 10th, giving a report of Mr. Kendry's meeting at the Grange Hall, Smith, contains the following:

"At the conclusion of Mr. Burnham's remarks Mr. Stone asked Mr. Burnham to answer the following:

"If Sir Charles Tupper succeeded in passing the Remedial Bill, and Manitoba by a large majority refused to accept it, and carry out its demands, what did the Government and its supporters propose to do, and what would be Mr. Kendry's attitude?

"Mr. Burnham replied that Mr. Kendry would support the Dominion Government in sending an armed force with fixed bayonets, as was done in the Riel Rebellion, to bring the obstinate Manitobans to their knees.

"Mr. Stone then asked Mr. Kendry if he agreed with what Mr. Burnham had stated as his position, and Mr. Kendry replied unequivocally and vigorously that these were his sentiments, and the people were surprised and supremely astonished at the delaration."

This report gives a false impression. I said, then—in answer to a question from Mr. Stone, put, as I knew, with a desire to catch me—and I say now, "that if at any time the Dominion Government, be it Liberal or Conservative, declared that any province was in open rebellion and determined to secede from the Dominion, and that Government called upon me, as a loyal citizen, to do my duty, I should do so. No loyal man could do otherwise. I am loyal to the Queen and Constitution." I submitted THE EXAMINER to the attention of Mr. Cragg, Mr. Stone's brother-in-law, who drove out with him, and he said that he understood my answer to be consistent with the stand which I took upon the constitution, and as a loyal sentiment it was applauded.

With regard to Mr. Kendry's alleged reply, it simply did not occur at all, as Mr. Stone will explain in his letter. No sane man would use the arbitrary language attributed to me.

Yours, &c.,
HAMPDEN BURNHAM.

[Mr. Burnham will permit us to add that we had a call from the Mr. Cragg referred to, and that gentleman states that he was present at the above meeting and heard Mr. Burnham state, in answer to Mr. Stone's question, "That in such case he would adopt any measures to force the law of the land upon them (Manitoba.) Mr. Cragg further states, in answer to a question, that he has not the slightest recollection of Mr. Burnham referring to any "province seceding from the Confederation" in the course of his reply to Mr. Stone's question. Mr. Richard Hall and Mr. G. M. Roger state that in reference to Mr. Burnham's remarks in regard to the extreme resort he and the government would take in reference to forcing the Remedial Bill upon Manitoba, that he made at Frazerville on Friday night, substantially the same statement, namely, "that if Manitoba refused to accept the Remedial Act, he would consider them in a state of rebellion and take measures to force them to do so."

BAY OF QUINTE CONFERENCE.

THE CLOSING SESSIONS—RESOLUTIONS ON THE SCHOOL QUESTION.

Votes of Thanks to Those Who Extended Kindness and Courtesy in Trenton—A Resolution Effecting the Hornerites.

The seventh session of the Bay of Quinte Conference opened at 3 p.m. Monday afternoon, a ministerial session having preceded the general session.

The following resolution was moved by Rev. F. B. Stratton, and seconded by Dr. Crothers:

"Whereas notice of application to parliament has been given by Messrs. Wold and Bradley, barristers at Ottawa, to incorporate a religious body to be known as the Wesleyan Methodist Connection of Canada; and whereas, the Methodist church, by act of parliament, has been incorporated by the union first of the Wesleyan Methodist church and the New Connexion Methodist church, under the name of the Methodist church of Canada, and subsequently by the union of this church with the Methodist Episcopal church, the Bible Christian church and the Primitive Methodist church; and whereas R. C. Horner, formerly a minister of the Methodist church, now seeks through his counsel an act to incorporate a religious body adopting the name of one of the bodies now by act of parliament composing the Methodist church; therefore, resolved (1) that we, the members of the Bay of Quinte Conference of the Methodist church in conference assembled, while admitting the right of any man or body of men to seek such favours from parliament as he or they may desire, would most vigourously protest against the action now proposed asking parliament to give its sanction to the organization of a religious body holding the name of one of the former bodies which by their act has been incorporated in this united church; (2) that a copy of this resolution be sent at once to the conferences now in session, and later to any other conferences yet to meet, asking their action thereon."

REPORTS WERE READ

of the Temperance Committee and Methodist Book Room.

At a memorial service obituaries were read of the departed ministers, as follows:

Dr. W. Jeffers—Born in 1847, died Dec., 1895.

Robert Boynton—Born in the township of Meath, Scotland. He entered upon a course of study for the Presbyterian Church, but, finding that he could not harmonize with the Calvinistic doctrine, he joined the Methodist church.

Rev. J. Hughes — Rev. J. Hughes of Brighton district died Dec. 1, 1895. He was born in the County of Cork, Ireland, in 1827. He was ordained in 1842. His natural wit and good humour made him a charming friend.

Rev. P. Farley of Cobourg district was born Feb. 8, 1824, and ordained in 1866 as deacon in the Methodist church of Illinois. He spent a life of unceasing toil for his Master and was never found absent where duty was to be done.

Rev. Geo. M. Gardiner—Died on Dec. 13, 1895, at the age of 25 years, after having spent his short life in service for the Master. He was converted early and took his course at Albert College.

At a discussion on Separate Schools it was decided to courteously answer the letter from the Anglican church that the Bay of Quinte Conference could not feel justified in complying with their request regarding Separate Schools. The question of remedial legislation and the decision of conference in regard to the matter was next introduced. A committee with Rev. G. Wilson, president, and Dr. Cade, secretary, had been appointed to consider the matte, and Dr. Cade read the resolutions as decided upon by the committee, as follows:

"That we hereby re-affirm our strong attachment and denominational adhesion to the admirable Public School system of this country and trust that no attempt will be made to weaken its efficiency or jeopardize its future as the great educational institution for the people of this Dominion.

"That as a country committed to the principle of separation between church and state we are opposed to the diversion of the public funds to denominational schools.

"That we depreciate in the strongest manner the policy of the Roman Catholic Bishops of Quebec, in a recent mandement to their clergy, dictating to their co-religionists the vote they must give at the approaching general elections, and so by intimidation, which is contrary to our laws, attempting to take forcible possession of next parliament and the government of this country, a policy which, if pursued by denominations equal in numbers and in claims, would be disastrous to the public peace and lead to alarming confusion in the conduct of our affairs.

"That, having already in the Conference last year expressed by majority vote our conviction of the inadvisability of Federal interference with the Prairie Province in the management of her own school system, we see no reason to change our attitude in this regard, but believe that Manitoba should be trusted to make such amendments to her Public school laws which would meet any grievance of the Roman Catholic minority of that province alleged to exist.

"That we most sincerely desire to see this whole question, which has embarrassed all political parties, taken out of Canadian politics and that such reconciliation will take place between the Roman Catholic committees of this country and ourselves that we may work together in harmony to fulfil the destiny God designs for this glorious land.

"That as there is in this whole matter so much of a debatable and political character, the discussion of which on the floor of this Conference at the present time might lead to a long and heated debate, and probably end in no useful issue, we recommend that this question of the Remedial Bill be not now reopened and discussed, and that the committee be discharged."

REV. GEO. WILSON, Chairman.
REV. R. CADE, Secretary.

A resolution was moved and seconded that Conference most heartily adopt the resolution of the committee.

The following resolutions were passed unanimously.

Moved by Wm. Johnson, seconded by Rev. Dr. McDermid—"(1) That the members of this Conference in the heartiest manner desire to express their thanks to the people of all denominations of this town for their preparations for the reception of this Conference, for the enthusiastic welcome given to us and for all kindness they have shown to us in their homes, on the street and elsewhere. (2) That we express our highest appreciation of the arrangements made for the billeting of the Conference, which have never been excelled, and tender our warmest thanks to generous friends of different denominations, who have entertained us at their homes, and to the committee, who spent days and nights in arranging the billets. (3) That a copy of this resolution be transmitted to each Methodist congregation, to other congregations where it may apply, and to the town newspapers, with the request that it be published by them."

It is hoped that parents or guardians who have pupils under their charge will continue to send them to school until the close of the term (Tuesday, June 30th), whether they are to write on one of the examinations or not, as absence interferes very much with the average daily attendance.

The usual half-yearly promotion examinations will be held before school closes. Any pupils absent from part or all of the examinations need not expect promotion.

RE-FITTED AND DOING GOOD WORK.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse, at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

THAT DOURO PICNIC.

Will be held in Douro, in the beautiful maple grove on Mr. John P. Leahy's farm, in close proximity to Douro's Town Hall, on Thursday, June 18th, inst. On account of this being Waterloo Day there will be a battle fought over a gold-headed cane between the armies of Sir Charles Tupper and the Hon. Wilfrid Laurier. The battle will be fought with ballots, not bullets and nobody will get hurt. The Premiership follows the gold-headed cane. Besides the Battle of Waterloo there will be speeches galore by all the prominent men of the town and county. Besides this there will be a baseball match and bicycle race not to mention the usual olympian games and athletic sports. An immense dancing pavilion has also been erected and a first-class orchestra engaged. Dinner will be served at 12, noon. So keep up with the procession, for everybody is coming, because everybody knows that everybody has a good time always at the Douro picnics. Admission to the grounds 50 cents

THE LIBERAL LEADER'S RECEPTION.

Hon. Wilfred Laurier, the Liberal Leader, will honour Peterborough with a visit on Saturday and apart from his party position, his standing, as one of the greatest Canadians, should suggest a welcome worthy of the best town in Canada. The EXAMINER would suggest that our merchants and business men suitably decorate their premises for Saturday. Of course many of our business men and merchants are Conservatives, but they are also Canadians and they are broad-minded enough to extend hospitality to distinguished Canadian who will be our guest on Saturday. While we are Liberals and Conservatives, the town is ours equally, and for the sake of the good name of Peterborough, it is important that we should present to the thousands of outsiders, who will be in town that day, the best possible appearance. Let us adopt the spirit of the welcome of the Poet Laureate to the Danish Princess when she came to England as the wife of the Prince of Wales:

"Norman and Saxon and Dane are we,
But all of us Danes in our welcome to thee,
and say to Mr. Laurier,
Tories and Grits and McCarthyites we.
But Canadians all in our welcome to thee."

And if our Conservative merchants accept our invitation we feel that we can safely promise that we and the Liberal merchants will reciprocate on the occasion of Sir Charles Tupper's forthcoming visit. We Liberals have stood on the shady side of the street adding our little share of welcome to visiting Conservative Premiers for the past eighteen years, and we submit that we are not unreasonable in asking that Conservatives join us in helping to extend a fitting welcome to the coming Liberal Premier, Hon. Wilfred Laurier.

MR. KENDRY'S WAY WITH MANITOBA.

How do the Conservative electors, who have an interest in the harmonious relation of the different creeds of the country, and the peaceful development of our destiny of greatness, like the stand that Mr. Burnham has assumed on behalf of Mr. Kendry in relation to the coercion of Manitoba? At the Grange Hall meeting, Smith, Mr. Burnham, representing Mr. Kendry, declared in effect in answer to a question, that if Manitoba refused to submit to coercion as represented by the Remedial Bill, that he would regard them as in a state of rebellion, and take measures accordingly, as was done with the rebellious Metis in the Riel uprising. Isn't this strong language to use towards the Province of Manitoba, which has repeatedly invited the Government to investigate the circumstances, and declared that that province would be willing and ready to remedy any grievance such investigation might disclose? Hot shot and cold steel are rather drastic remedies to use against a sister province, which is only claiming the right to manage its own affairs in conformity with the spirit of the constitution. Are such language and threats a good way to consolidate Confederation and promote that spirit of harmony that is essential to the peaceful progress of our country. It is claimed that Mr. Kendry is not responsible for Mr. Burnham's utterances on this subject. Mr. Burnham was at the Grange Hall representing Mr. Kendry. Mr. Kendry was present and did not repudiate Mr. Burnham's sentiments, but by his silence accepted those sentiments. Mr. Burnham was speaking on behalf of both the government and Mr. Kendry and both, in default of specific repudiation, are bound by his statements, which, however twisted or glossed or paraphrased, amount to a declaration of the use of armed force, if necessary, to compel Manitoba to accept the Remedial Bill. What do honest, peace-loving Conservatives think of the party's bloodthirsty attitude with respect to the Manitoba question which Mr. Laurier and Sir Oliver Mowat, if given the opportunity, pledge themselves to settle peaceably within a few months?

ONE HONEST MAN.

Dear Editor: Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored of manhood and manly vigor, after years of suffering from Nervous Weakness, night losses and weak, shrunken parts.

I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address, JAS. A. HARRIS, Box 239, Delray, Mich.

Just Received—

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER, Millers.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The two trestle bridges near town will be filled in this summer. A gravel train is now at work.

The Chemong branch of the Grand Trunk system will not be operated this summer, but an occasional excursion will be run over it.

It is thought that the new Grand Trunk timetable to be issued on the 22nd inst., will provide for a much faster train service on some lines, and particularly between Toronto and Montreal.

Business on the Midland continues very good, the movement of grain from Midland keeping a number of specials in commission. When the square timber commences to move business will be very brisk.

Mr. H. Wallis, late mechanical superintendent of the Grand Trunk, left for England last Saturday, where he will in future reside. Previous to his departure he was presented with an illuminated address by the locomotive engineers of the road.

In order to keep the Midland elevator free for the reception of grain constantly arriving from Chicago and Fort William, the elevators at Whitby, Port Hope and Toronto are being utilized. Over seventy carloads of grain passed through to Port Hope yesterday.

The Grand Trunk Railway has had its first trouble with its hands since the road came under the new management. The company has lately been replacing some of the freight handlers at Montreal by new men, and two weeks' notice was given some of the men. One or two of the contemplated dismissals were objected to by the men who went out on strike. General Superintendent McGuigan had a conference with the men, and the result was that company promised to reinstate one of the employees and to consider the dismissal of the remainder, retaining the services of all who were capable of doing the work required of them.

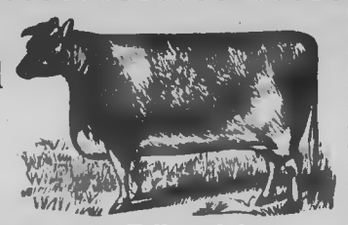
Drop in Beef



In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago. As my policy will always be TO SELL AS I BUY, I will commence ON SATURDAY NEXT to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—

Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

When a Man's Single

He wants to be dressed as well as possible. He wants his clothes as proper as proper can be, strong as strong can be, saving as saving can be.

WHEN A MAN'S MARRIED, he looks towards SAVING more than ever—and right here comes our strong hold on thrifty and economical men.

W. J. GREEN,

Merchant Tailor and Issuer of Marriage Licenses, 145 Hunter Street.

THE sick man knocking at the door of health gets in if he knocks the right way, and, stays out if he doesn't. There are thousand of ways of getting sick. There is only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. A large part of all the diseases that afflict mankind are traceable directly to impurities in the blood, and can be cured by eliminating these impurities. That most dreadful of all diseases, consumption, is a disease of the blood. The disease shows in the lungs because of some inherited or acquired weakness there. If the blood were always pure and without germs, the disease would never develop and in time weakness itself would be overcome. Germs and impurities in the blood float along through the body until they find a weak spot for lodgement. They stick there and develop and people call the disease by the name of the organ afflicted. As a matter of fact, the disease is always a disease of the blood, and if the blood be purified, the disease will be cured. That is a perfectly natural, rational conclusion, endorsed both by common sense and the highest medical authority. It is in accordance with these facts that Dr. Pierce's Golden Medical Discovery works. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites the copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.

If you care to know more about it, and more about your own body, send 21 one-cent stamps to cover cost of customs and mailing *only*, and you will receive *absolutely free* a copy of Dr. Pierce's 1008 page book, Common Sense Medical Adviser. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

THE BOOTHS' FAREWELL.

Hundreds of Enthusiasts Bade the Commandant and Mrs. Booth Good-Bye in the Pavilion Last Night.

Toronto, June 10.

The Pavilion was well filled last evening, the occasion being the farewell meeting of Commandant Booth, before his departure from Toronto. The hall was elaborately decorated with a profusion of bunting, giving evidence of the patriotism of the Salvation Army. On a raised platform at the rear of the chairman was a throng of uniquely costumed lassies and laddies, representing the different army corps of the city. A brief speech was made by Chief Secretary Colonel Holland in opening the meeting. Then followed an address by the Commandant, bristling with humor and satire against those who had been the means of retarding, by their opposition, the progress of the Army in this city. The press, as a rule, were well disposed towards the Salvationists, and had been instrumental in helping them in no small degree. The officers, and notably the commandant had been persecuted even to the extent of the law courts, but the greatest lawyer in Canada, D'Alton McCarthy—(cheers)—had come to the rescue, and they had come out unscathed. The self-sacrifice of the Army officers in the fight was also referred to, and the Commandant concluded with a prediction of final victory. The speech was interspersed with frequent "volleys" by the Army.

The Commandant's accomplished wife rendered in a pleasing manner a farewell song to her comrades, the latter joining in the chorus, and concluded with a brief, touching farewell address.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

THE TRADE CONGRESS

Second Day's Proceedings in Grocers' Hall, London.

THE RESOLUTION OF E. B. OSLER

Considered by the Canadian Delegates—Be Amended as to Produce a Joint Canadian Resolution—An Imperial Conference Proposed—The Annual Dinner.

London, June 10.—The second day's sitting of the Third Congress of the Chambers of Commerce of the Empire was opened in Grocers' Hall at 10 o'clock this morning.

Joseph G. Colmer, secretary to the Canadian High Commissioner in London, announced that the Canadian delegates had considered the resolution offered yesterday by Mr. E. B. Osler of Toronto, in behalf of the Board of Trade of that city, and had also given consideration to the amendment thereto offered by Sir Donald Smith of Montreal. Canadian High Commissioner in London, with the result that they had agreed to amend Mr. Osler's resolution so as to produce a joint Canadian resolution. The motion made by Mr. Osler, he said, recited that it was the opinion of the Congress that the advantages arising from a closer union of the Empire would justify an arrangement as nearly as possible in the nature of a zollverein based upon principles of the freest exchange of commodities within the Empire consistent with tariff requirements incident to the maintenance of local government of each kingdom, Dominion, Province and colony now forming a part of the British family of nations. Sir Donald Smith's amendment to this resolution had set forth that the Congress records its belief in the advisability and practicability of a customs arrangement between Great Britain and her colonies and India on the basis of preferential treatment, and recommending that her Majesty's Government take steps to bring about an interchange of opinions on the subject betwen the Mother Country and the other Governments of the Empire. The amendment, which had been agreed upon by the Canadian delegates, Mr. Colmer said, consisted of the addition of a recommendation that her Majesty's Government take steps to bring about an interchange of opinions between Great Britain and the other Governments comprised in the Empire, omitting the words "as nearly as possible in the nature of a zollverein," which were embodied in Mr. Osler's motion.

Mr. Henry, delegate from Hobart, Tasmania, opposed the resolution. He thought the British Government itself ought to take the responsibility of formulating a scheme of union.

Sir William Des Voeux supported Mr. Colmer's amendment. He admitted that it would be difficult for England to initiate a movement for a commercial union, as the Mother Country was obliged to consider both the masters and the working classes. He suggested the holding of a meeting of the colonial representatives apart from the English to consider the question.

Sir Albert Rollit, President of the London Chamber of Commerce, eventually proposed a resolution, which was seconded by Mr. Osler, affirming that the subject of the establishment of closer commercial relations between the United Kingdom and the colonies demands careful consideration, and the Congress, therefore, respectfully represents to her Majesty's Government that if the suggestion should be made on behalf of the colonies or some of them it would be expedient to promote such consideration and formulate some practical plan by summoning an Imperial Conference, which would be fully representative for the interests involved, or by such other means as her Majesty's Government may be advised to adopt.

The resolution was unanimously adopted amid cheers, and the other resolutions on the subject were withdrawn.

Sir Donald A. Smith withdrew his amendment, remarking that Sir Albert Rollit's resolution did not ask any more than it was entitled to demand. Canada, he said, felt that free trade was impossible so long as the boundary of the United States formed a wall of protection against the Dominion.

The annual dinner of the London Chamber of Commerce was held this evening, and was attended by many guests among them being Sir Mackenzie Bowell, one of the Canadian delegates to the Congress of the Chambers of Commerce of the Empire; Sir Donald Alexander Smith, High Commissioner in London; the Earl of Jersey, the Earl of Selborne, Parliamentary Secretary of the Colonial Office; Right Hon. George N. Curzon, Parliamentary Secretary of the Foreign Office; and delegates to the Chambers of Commerce, and other prominent persons. Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, delivered a speech, in which he reiterated his views upon the subject of free commercial interchange between the component parts of the Empire. Whether the latter perished like the empires of antiquity, Mr. Chamberlain declared, depended less upon the people of the British Isles than upon the possible action of Great Britain binding the parts of the Empire more closely together.

SUSPICIOUS OF THE BRITISH.

Unrest Continues at Praetoria—The Reform Leaders show Gratitude.

London, June 10.—The Times to-morrow will publish a despatch from Praetoria saying that the feeling of unrest in Government circles continues. The movements of the British troops in the north are watched with the greatest suspicion. Several commanders have officially notified their men not to leave their respective districts, and this is considered equivalent to an order to prepare for active service.

The four leaders of the Johannesburg Reform Committee, Col. Francis Rhodes, George Farrar, Lionel Phillips and John Hays Hammond, have offered the Government £40,000 to be used for charitable purposes in exchange for their release. This action on their part has given rise to a slight misunderstanding, which may retard the settlement of their cases a few days.

A healthy appetite, with perfect digestion and assimilation, may be secured by the use of Ayer's Pills. They cleanse and strengthen the whole alimentary canal and remove all obstructions to the natural functions of either sex, without any unpleasant effects.

Biliousness and liver complaint, headache, etc., are cured by Burdock Pills.

Concerning Fine Padding.

A few secrets of the science of padding should be known to every woman who is without natural curves. In getting a corset that is to be padded select one that is a little too large at the bust and hips. Arrange the padding so that the figure is symmetrical, and lace so that the space at the back will be narrow at the waist and broad at the bust and hips. Lace a little below the waist line the corset down so that it fits closely into the waist. A hip-padded corset should be rather long and come well over the hips.

COOLING, REFRESHING, EXHILARATING.

In this warm weather, when the body is losing so much moisture in perspiration, the natural dew and that this loss shall be made good creates what is known as an "exquisite thirst." Many are foolish enough to endeavour to quench it with drinks containing more or less alcohol, but the wiser ones use the juice of ripe fruit. The Island of Montserrat is noted for producing the finest quality of limes, and the juice of these is bottled and known as

TURNING GRAY
AND THREATENED
WITH BALDNESS
The Danger is Averted by Using
AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

FRILLS OF FASHION.

WITH SOME OF THE SOLID EFFECTS SANDWICHED IN BETWEEN.

The Fashionable Summer Hats and Bonnets—Wear for Women's Waists—A Brilliant Chapter of Don'ts—The New Belts and Collars.

The new belts and colars are of ribbon, for such accessories are a fad of the season, says the Ladies' Home Journal. Some girls have as many as ten sets of collars and belts for their summer gowns, and as each set requires two yards and three-quarters of ribbon from four to six inches wide, costing from thirty to seventy-five cents a ward, it is an easy matter to put ten dolars in these becoming trifles as light as air, but stylish and becoming withal. Points or square tabs

VIROT MODELS.

of lace in twos or fours, hang over the tops of collars; then a plaited ruche of lace, tulle, etc., finishes the inside edge of many collars, and all of this is climaxed with a folded band of ribbon tied in two loops and ends at the back. so a fashonably-dressed neck nowadays is, indeed, wonderfully and fearfully constructed. With a flowered dress like organdy the belt and collar ribbons do not, of necessity, match. A tan organdy figured with pink and green has a pink taffeta ribbon collar and a green belt. A new belt becoming to large and small figures is of six-inch ribbon laid in four folds over a pointed girdle of white crinoline lined and well boned. A pretty button is on each fold of ribbon at the point back and front, and serves to keep it in place; the girdle hooks at the back, and it is only an inch and a half wide over the hips, though three inces deep at the point back and front.

If all womankind wears the fashionable summer chapeau, then the garden of girls will be materialized, for every bonnet and every hat this season is heavy with flowers and their foliage. And the hats themselves are of fancy straw, and the fashionable colors are more generally seen than the plain ones. Stem-green, dahlia, dark green, dull rose-pink, violet, dull heliotrope, ecru and dead white are shown. For the small poke bonnets, which will undoubtedly have a special vogue given them, white Neapolitan is liked. These bonnets, much smaller than the poke as we have known it in the past and a little more like the poke as worn during the time of Queen Anne, are, when properly worn, which is slightly forward, very becoming. They do not shade the face—indeed, they show it, allowing the forehead and the front hair to be seen with good effect. Expensive laces are put on these bonnets, and very often the entire brim is studded with paste ornaments.

Plaskin has been added to the list for belts. The popular color is a pinkish tan, and the clasp a jeweled one.

Monkeyskin, clasped with a miniature set in gold, makes one of the latest belts. Heretofore clasps of the sort have been confined to ribbon and silk, but some fresh design seems to spring into life each week.

More novel than either, however, is embroidery of colored beads on a foundation of silk canvas. These are finished with a delicate clasp of gold, and are accompanied by chatelaine bags made of the same material.

To be correct, the belt and tie must match. Colored leathers supply almost endless variety, and one has only to buy with discretion to acquire a series of fetching combinations.

Don't drape your pictures with scarfs or tie bows on the backs of your chairs.

Don't forget that an objectionable closet door can be furnished with an outside curtain in good pattern hung to a gilt pole. It becomes after that a decorative bit of room dressing.

Don't dress your windows too elaborately with curtains. It shuts out the light and is unhealthy.

Don't overcrowd your lounges with pillows of all kinds. A symphony of effect is desirable.

Don't select wall paper in which there are huge bunches of flowers. Your wall covering is a background. It should be a tint, a tone, not a combination of colors.

The covert coat still holds its own, provided it is made by a good tailor.

The belts of the season grow narrower and narrower, but no less costly.

Perfumed flannel in lieu of sachet bags is used to scent bureau drawers and wardrobes.

The woman who never wears her street gown in the house is sure to look dainty both out and in doors.

The summer girl will know what tormenting viciousness lies concealed in an obstinate collar button.

A handsome umbrella handle is of "welchsel," a wod that emits a delicate fragrance when warmed by the hand.

Fashionable Jewelry.

Jewelry was never more exquisite than now. Turquoises and garnets and blue, white, yellow, pink and green enamel are used in many silver articles with dainty effect. Sleeve buttons and studs of silver have an enameled square or circle of white enamel, with a tiny colored flower.

An Up-to-Date Woman.

Mrs. Mary M. Pulsrell, the lady who was recently appointed garbage inspector in the city of Denver, has a project for securing garbage consumers from the east and utilizing the burned garbage as a fertilizer on the poor lands in the vicinity of Denver.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

A Battle With a Wolf.

The author of a book on early Canadian life says that a yung girl was one afternoon on her way to the sping for a pail of water, relates the Youth's Companion, when she heard her pet lamb bleat and saw what she supposed was a large dog worrying it.

Being a brave girl, she dropped the pail, seized a stout stick which lay on the ground and rushing forward began to beat the brute with all her might.

The animal let go the lamb and turned upon the girl, showing his teeth and snarling. She saw then that she had to deal with a wolf instead of a dog. The sharp ears, bushy tail and gaunt figure were convincing. But she was not frightened; excitement and fears for her pet gave her courage, and when the wolf again seized the lamb she valiantly attacked him, and again he released his prey. She used the club vigorously and rained blows upon the wolf, crying for help meantime.

Her brother, hearing her outcry, ran with his gun tword the spring, but the wolf saw the reenforcement coming and fled into the woods.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the *proof*:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

For Weak Backs, Lame Backs, Painful Backs or any kind of Bad Backs, Manley's Celery-Nerve Compound is the Great Back Strengthener.

Wm. Rogers, 5 Ottawa Street, Toronto, Ont., writes:—"For a number of years I have been troubled with a lame back. Some of the doctors I consulted called it Lumbago; others, Kidney Disease. I received no benefit from their treatment. Nine months ago I was lucky enough to try Manley's Celery-Nerve Compound, and, after taking two or three bottles, the pain entirely left me, and I have had no return of it for 8 months now."

Sold in Peterborough by John McKee.

A Four Years' Martyrdom.

Woman's strongest tool in dealing with her own sex is innuendo. The accusation that is brought by the hint, the whisper, the chuckle, is the one that does the greatest harm. There is nothing definite to catch at. You cannot slay rumor. You may live it down, but it takes a long time to do it, and it wears the soul of you. The malicious laugh of a woman often costs another years of suffering. When the victory arrives, it is not much of one—like all triumphs. An old man came to talk with a woman recently. "I want to ask your forgiveness," he said. "Four years ago I heard a good woman say a shameful thing of you. It grew in my mind till I could see no good in you. A week ago I found out that you never once were wrong in any way in your life. The other woman is dead." Dead with her lie upon her heart, with her seed of malice grown to a great tree, with the weight upon her of having caused four years of bitter suffering to an innocent woman! Surely the great God must be in himself an ocean of patience and of mercy!—Kit, in the Mail.

OUR MAIL.

Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some from merchants who want to buy it some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B.B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases.

unfortunate
Cod-liver oil suggests consumption, which is almost unfortunate.
Its best use is before you fear consumption; when you begin to get thin, weak, run n; then is the prudent to begin to take care, and the best way to take care is to supply the system with needed fat and strength. Scott's Emulsion of cod-liver oil, with hypophosphites, will bring back plumpness to those who have lost it, and make strength where raw cod-liver oil would be a burden.
A substitute only imitates the original.

Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

"The whole round world is every way
Bound by gold chains about the feet of God."

Subject of prayer for June:—"For our teachers—*for all teachers of the young* in Sunday Schools, day schools and colleges, that they may see their opportunity and responsibility, and that they may help their pupils to a higher plane of living."

BETHEL—KEENE CIRCUIT.

After consideration of the topic led by Mr. James Shearer, the monthly business meeting was held. The reports presented by the different committees were bright, and in many ways showed progress in the past term. We are now raising our missionary money by the plan of systematic giving.

On June 3rd Mr. Andrew Rennie led the prayer meeting. Miss Armstrong read a very interesting paper on the topic "Ready for Death." We have one new member to report.

SPRINGVILLE Y.P.L.C.E.

The meeting last week was led by Mr. Williamson. The topic "Ready for death." Mr. Williamson said that life was the best preparation for death, that if we lived the way we should live we would look forward to death with joy and not with fear and dread. The attendance was very good and the meeting very profitable. Closed with singing and prayer.

MARK STREET SOCIETY

held its regular meeting. The topic, "Trace of Humility," being taken up by our secretary, Miss E. Smith. Notwithstanding the warm weather our attendance is keeping up and we are pleased to add to our list the names of two new members.

ST. PAUL'S SOCIETY.

Two members were added to the active list on Monday night. A large number of strangers were present at the meeting. The meeting was highly spiritual, not one pause during the hour. Miss Adelaide Pierce presided. The Missionary Committee report more liberal contribution to the scheme adopted by the society. The Executive met at the close of the meeting to discuss business. Mr. Hartman, vice-president, was appointed as representative to the Local Union.

ST. ANDREW'S SOCIETY

Held their regular meeting last Wednesday night. There was a good attendance. Mr. Mulligan occupied the chair. After the opening exercises the topic, "Ready for Death," was ably taken by Miss Fowler, showing the necessity of being ready at all times and of the uncertainty of life, after which the meeting was thrown open and a number took part, emphasizing what had been said by the leader. The meeting was lively. We also received one addition to our active members list, and a proposition for our associate members roll.

CHARLOTTE STREET SOCIETY.

This society held their usual meeting on Monday evening and the first part of the meeting was passed by discussing the progress of the society during the past month. The reports given by the convenors of committees showed an increase in the membership and the work of the society in general being in a prosperous condition. We are sorry to receive the resignation of Miss L. Kennedy, who has been superintendendent of the junior work since its organization. We pray that God may give her His blessing as she enters a new sphere of life. We are glad to receive three beautiful pot flowers as a present from the Women's Christian Temperance Union, to whom we are greatly indebted for their kindness. The topic for the meeting was the "Grace of Humility," which was taken by two of our members and was very interesting. The singing was good and the attendance was encouraging, and altogether a profitable meeting was held.

GEORGE STREET SOCIETY

Spent a very pleasant literary evening this week. After devotional exercises a very interesting debate took place, "Resolved that Home Missions are more important than Foreign." The affirmative was taken by Mr. Alf. Mitchell and Miss Shortly, the negative by Mr. O. R. Dayman and Miss Mark. Both sides brought out some strong points. It resulted in a tie. Mr. Percy Owens contributed an instrumental, Mr. Squires a well rendered solo and Miss Edith Hubbs and Mr. Owens a duet. These literary evening are given once a month and are open to the public.

IT IS ALL TALK.

Yes, but it is Norwood Talk—The Kind That Tells in Norwood.

Talk that tells.
Talk that is endorsed.
Every day talk by people that know.
City talk.
Kidney talk.
Do the kidneys talk?
Well, yes, both loud and long.
You are learning the kidney language.
Backache in kidney language means kidney ache.
Lame back means weak kidneys.
Weak back means weak kidneys.
The kidneys are talking trouble.
Here is some Norwood talk:

Mr. George Taylor, well known in Norwood, has this to say about Doan's Kidney Pills:—

"For a great many years I have been a sufferer from kidney disease. Terrible pain in my side and back made my life a burden. The urine was a dark wine colour, and I was greatly troubled with frequent urination. My sleep was destroyed because of this annoying trouble.

"I have taken scores of medicines, but could get no relief, and thought that I would never be cured. Happily I heard about Doan's Kidney Pills, and got a box at J. C. Moffatt's drug store, and have continued their use for one month.

"I am thankful to say as a result that they have fixed me up. I feel like another person. I do not now have to get up at night, and in fact am entirely cured.

"I think they are the grandest medicine ever placed before the public, and I heartily recommend them to all sufferers from kidney disorder of any kind."

LAKEFIELD.

From our own Correspondent.

Miss Weldon, of Lindsay, who has been visiting Miss Nina Sherin, returned home last week.

Mr. J. W. Elaine, of Orilla, was in the village last week.

Miss Armstrong, of Peterborough, is the guest of Miss Nina Sherin.

Mr. Samuel Nelson, accompanied by his son, Mr. Milton Nelson, went down to Montreal last week to attend the funeral of his daughter, Mrs. Smith.

Mr. C. D. Crawford and wife, were at their cottage at Stony Lake last week.

Miss Arnott, teacher at Haultain school, was in the village on Saturday.

Mrs. Dunn has returned home from Ottawa.

Mr. and Mrs. Lehman, of Pine Orchard, were visiting friends in the village.

Mr. McKenzie, of Brantford, is visiting his brother, Rev. A. W. McKenzie.

Mr. Jas. Edward, of Montreal, was in the village last week.

Rev. Dr. Torrance, of Peterborough, preached the preparatory communion service at the Presbyterian church on Friday of last week.

Miss Keiffer, teacher at the Burleigh south school, was in the village on Saturday.

Miss Eva Gordon has purchased a "Princess" bicycle from Mr. W. M. Graham. They are the most popular of ladies' wheels.

R. Graham & Son are clearing out their stock of millinery, mantles and capes at reduced prices now for the balance of the season. They have also a number of remnants of prints and dress goods, which will be sold very cheap. How is your parasol? do you need one? Now is the time to secure a handsome one cheap.

Miss Maggie LeMay, of Peterborough, was visiting Mrs. W. Dunsford this week.

Miss Maud Carveth has purchased a wheel from Mr. T. H. Benson.

HONOUR TO A LAKEFIELD BOY.

Dr. W. H. Schofield, of Lakefield, and now in Europe, received from Harvard University an additional honour of a second year's "Travelling Fellowship" for distinguished work done. This is not known to have been before conferred on the same individual. Lakefield has reason to be proud of the success of one of her boys and its people will look forward with pleasure to his securing more honours.

NEARLY AN ACCIDENT.

On Monday afternoon last Dr. D. Fraser nearly met with a severe accident. Workmen were engaged in digging a well for Mr. W. Ash in his lot, next to Mr. L. Steel, and had placed a ladder in the well with the bottom of it resting on a ledge about half way down the well. Dr. Fraser was watching the men at work and got on the ladder, when it slipped and he fell off, lighting on top of W. Jarvis, who was in the well with Sam Cook. The doctor escaped with a scratch on the back of the head and a severe shaking up.

The flooring on the bridge has been repaired, and it was badly needed.

Work has at last commenced on Lock No. 1 of the Lakefield section, taking off the top soil on the route of the Canal, through Mr. S. Nelson's and Mr. John Deck's and will continue on through to Mr. Hull's mill.

HONOUR ROLL.

The following is the honour roll for the Lakefield Public Schools for the month of May:—

The semi annual meeting of the County L.O.L. was held here on Tuesday evening, when important business was transacted. A number of brethren from Peterborough, Douro and Smith were present.

The steamer Golden City was up the lakes on Monday. On Tuesday she was towing Mr. Chas. Wynn's drive of logs, and on Wednesday had an excursion of the Independent Order of Foresters from Ballieboro to Stony Lake. Capt. Wm. Reynolds and his crew are very obliging and well liked by the travelling public.

Mr. John Lang will deliver an address to the electors of Lakefield on Monday evening, June 15th. It is expected that several other prominent speakers will be present and deliver addresses on the important questions that are now under discussion. There should be a rousing gathering to hear Mr. Lang's address.

The Rathbun Co. have a large drive running over the dam here on their way to their mills at Deseronto. It is expected that the Rathbun Co will have a large lot of their logs cut in the Lakefield mill, and will keep it running for the most of the summer.

The Mission Band of the Presbyterian church will hold a lawn social at the manse on Tuesday evening, 16th inst. A good programme will be presented and refreshments served.

HARD UP FOR CHARGES.

Tory Campaigners Resurrecting the Dead for Election Purposes.

So hard up are the Tory campaigners for some charge to bring against the Liberal leaders, that they have entered the graveyard and resurrected Mr. Mercier for the purpose of using him in the campaign. Mr Laurier and the Reform party are being charged with complicity in Mercier's corrupt practices. It was by the vote of the Liberals of Quebec that Mr. Mercier was turned out of power. When they found that he had betrayed the confidence that was placed in him, and had violated Liberal principles, they sent him to the right about, while the Liberal press in all parts of the country was as severe in its condemnation of him as was the Conservative press. Corruption and boodling are condemned by Reformers, no matter who may be guilty of such practices.

Sir Charles Tupper's cool receptions continue. In Kingston the meeting held in the City Hall was not by any means an ovation. He met with many interruptions, and his statements were frequently called in question, and that not by Liberals, but by those who up to the present have always been considered Conservatives. His party have at last plucked up sufficient courage to invite him to come to Toronto, but have arranged his meeting at as late a date as possible, so that in the event of his meeting with the same kind of reception that Hon. Mr. Foster had, the news of it may not reach outlying places, to do his party injury before polling day.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentally I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. THE LAWS OF TRADE.

One Code for the Whole Empire Proposed

AND UNIFORM BILLS OF EXCHANGE

The Postal Service, the Pacific Cable Scheme, an Arbitration Resolution and Other Matters Dealt With by the Chambers of Commerce Congress in London.

London, June 11.—The third sitting of the third Congress of the Chambers of Commerce of the Empire was opened at Grocers' Mall at 10 o'clock this morning, Sir Albert Kaye Rollitt, President of the London Chamber of Commerce, presiding. The first matter taken up was a resolution in favor of the codification of the commercial law of the Empire, moved by J. Dove Wilson, Professor of Law at the University of Aberdeen, at the instance of the Aberdeen Chamber of Commerce. This resolution declared "That the Bills of Exchange Act of 1892, the Partnerships Act of 1890, and the Sale of Goods Act of 1893, and other existing statutes have established the practicability and benefits of codifying the British commercial law, and that it is highly expedient that the commercial law of the whole British Empire should now be embodied in a code; and that therefore the Government be memorialized by the Congress to initiate the steps necessary in order to make the appointment, for the purpose of drafting such a code, of a commission on which the United Kingdom and all the colonies and countries embraced in the Empire shall be duly represented."

The resolution was adopted.

Mr. Samuel Montagu, M.P., head of the banking house of Samuel Montagu & Co., submitted on behalf of the London Chamber of Commerce, a resolution, which was adopted, as follows:

"That, in the opinion of this Congress, the laws relating to bills of exchange be made uniform in the British Empire; also that uniformity with the laws of continental powers should, wherever practicable, be established internationally."

The resolution of Mr. Perrault of Montreal, in favor of a cable between Australia and Canada, and also the establishment of postal and telegraph routes between Great Britain and her colonies and between the colonies themselves was also adopted, as was the following resolution of the Montreal Chamber of Commerce: "Whereas, a reduction in postal rates would facilitate and increase the commercial relations of the Mother Country and her many colonies and possessions; and, whereas, the local rates of these several colonies must necessarily vary according to their special conditions of existence, population and transportation; therefore, resolved, that an Imperial postal union be organized on the basis of an extension of the local rates of each of the several governments entering the union to the postal matter addressed respectively to the various portions of the British Empire."

Sir John Lubbock, M.P., submitted a resolution in behalf of the London Chamber of Commerce, in regard to arbitration for international disputes, which excited much interest and a lengthy discussion: "That, in the opinion of this congress, the present gigantic expenditure on military preparations imposes an intolerable burden on national revenues, and an immense adition to human labor; that the settlement of international differences by force of arms is barbarous and unworthy of civilized nations, and that differences or disputes arising between different governments, which can be adjusted by diplomatic agencies should as far as possible be referred to arbitration."

Considerable opposition was manifested toward the opening part of the resolution, and it was so amended as to read: "That differences or disputes arising between different governments, which cannot be adjusted by diplomatic means, should, as far as possible, be referred to arbitration."

Mr. Cockshutt of Toronto moved an amendment to Sir John Lubbock's resolution, favoring arbitration whenwhenever awards are enforceable. He criticized the United States regarding their action in the Behring Sea and Alabama matters, and contended that arbitration was useless unless the awards were enforced.

Mr. Cockshutt's remarks elicited loud protests, and the chairman deprecated his line of argument. Mr. Cockshutt then apologized and Sir John Lubbock's resolution, verbally modified, was adopted.

The Croydon Chamber of Commerce submitted the following, which was adopted: Resolved, That, in view of the difficulties correspondents experienced in preparing closed replies to letters sent to foreign countries and especially the British colonies and dependencies (a facility which exists in regard to open postcards and telegrams), the Council of the London Chamber of Commerce be required, on behalf of this Congress, to communicate with the Imperial and colonial postal authorities for the purpose of recommending that the reply letter-card (used by France and Ceylon for inland correspondence), be adopted by the British Imperial postal service, as a means of facilitating and increasing intercourse through the British Empire; that the reply letter-card is applicable to international communication in the same way as the open reply postcard, and that the recent objections raised in regard to it can be met; that at the Postal Union Congress, to be held at Washington in 1897, the British and colonial postmasters-general be requested to take steps for the extension of the reply letter-card to international postage, as an efficient substitute for the oft-proposed inland postage stamp, and less open to the objections raised on the ground of the financial difficulty involved.

The Congress also adopted resolutions in favor of the formation of a Consultative Imperial Council and of a uniform copyright law throughout the Empire.

The Congress adjourned at 4 p.m.

This evening a reception in honor of the delegates was given at the Grafton Galleries by the President of the Congress and the Council of the London Chamber of Commerce.

The final sitting of the Congress will take place to-morrow. In the evening the delegates will attend a special performance of "Faust" at the Covent Garden Theatre, which will be followed by a reception, given by Sir Augustus Harris, the well-known theatrical and operatic manager, and Lady Harris. On Saturday afternoon the delegates will attend a garden party, given by the Earl and Countess of Jersey at Osterley Park, Isleworth, and in the evening will be present at a reception given at the Imperial Institute, South Kensington, by the Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, and Mrs. Chamberlain. At this reception the delegates will meet the Prince of Wales.

MENIER WANTS TO BE KING.

The French Chocolate Man Chases Canadian Fishermen Off the Island of Anticosti.

Ottawa, June 11.—(Special.)—There is a prospect of trouble in connection with the administration of affairs on Anticosti. The new proprietor, M. Menier, the chocolate king, and his locum tenens, M. Commetant, seem to think that because the island has been purchased by the former that Canadian fishermen have no rights there. Reports which have reached here from the Gulf indicate that our fishermen, who have been accustomed to drying their nets on the island, have been driven off by Commetant's men and have been forbidden to resort there in future. Although the island has passed into the possession of a subject of France, it is still British territory, and the authority of the Canadian Government is still supreme over it. The foreshores are within the jurisdiction of the Dominion, and the opinion is held that our fishermen have every right to land upon them. It is reported that M. Menier intends forbidding our fishermen to fish within the three-mile limit, but if this be so it will be the duty of the Government to bring him to time quickly.

Information has been received at the Department of Agriculture that a large consignment of apples from Tasmania, which were imported by the last Australian steamer, have been seized by the Provincial authorities of British Columbia and ordered to be destroyed because they were infested with an insect pest which it was afraid might reach the apple trees of the Province. This is an unfortunate beginning for the direct shipment of apples from the Antipodes at a time when they were likely to find a good sale in our markets.

Owing to the lateness of season, lobster fishing has been extended in the Maritime Provinces for 15 days, that is, to June 30 and July 15, according to locality.

The first copy of the year book for 1895 was issued from the Printing Bureau to-day. It is several months ahead of the issue of last year, and is, as usual, replete with a vast amount of information relating to Canada. It has been compiled by George Johnson, Dominion Statistician, assisted by Messrs. Wilkins and Skead.

The County Council of Ottawa has decided to issue a writ against the Township of Low to recover the costs of the tax collection expedition which went up to the township last fall.

Mr. J. D. Grace of United Canada has decided to run as an independent Liberal candidate in Carleton County.

The regular term of the Provincial Normal School closed to-day. The new session begins on Aug. 13.

IT TOOK TEN INNINGS.

And Toronto Won Another Game From Wilkes-Barre—Score 11 to 10.

Wilkes-Barre, June 11.—In the game with Toronto to-day Wilkes-Barre had the contest well in hand up to the seventh inning when Keenan gave three men their bases on balls. This, coupled with Lytle's error, enabled the visitors to score seven runs. Wilkes-Barre took the lead again in the eighth and amid great excitement the Canadians tied the score in the ninth. They won out in the tenth by O'Brien being hit by a pitched ball, Delehanty's forced out and Bonner's error. Score:

Totals	10	11	12	30	13	4			
Wilkes-Barre	1	0	0	0	2	3	4	0	0—10
Toronto	0	0	0	0	0	1	7	1	1 1—11

OUR CANDIDATES; FOR

West Peterborough.....RICHARD HALL
East Peterborough.....JOHN LANG
Nominations.....Tuesday, June 16.
Polling.....Tuesday, June 23.

Hon. Wilfrid Laurier, leader of the Liberal party, Hon. G. W. Ross, Messrs. Geo. A. Cox and others, will address the great Liberal Mass Meeting at the Skating Rink to-morrow night. The lower gallery on the west side will be reserved for Ladies. It is certain that the meeting will be one of the greatest and one of the most important ever held in Peterborough. Mr. Laurier is fighting the battle of civil and commercial freedom and may look for a warm welcome at the Premier town of this enlighted and progressive District.

LAURIER AND MOWAT

The Former at the City of St. Catharines.

ONTARIO'S PREMIER AT BERLIN

The Liberal Leaders Greeted by Enthusiastic Crowds at Both Places—Vigorous and Pointed Remarks by Mr. William Gibson—Other News of the Campaign.

St. Catharines, June 11.—The great popular triumph achieved by Hon Wilfrid Laurier all along the line in Western Ontario was repeated here to-night when not less than 8000 of the people of the Niagara Peninsula assembled to do him honor. A large draft was made upon the constituencies of Wentworth and Welland, which succumbed to the magnetic influence of the man whom all Canadians delight to honor. Mr. Laurier would not be human did he not confess a keen sense of gratification at the striking manifestation of kindly feeling towards himself and of confidence in the principles of his party that was given to-night. He must, however, share the satisfaction with his follower and friend, Mr. William Gibson, the representative past and to be of Lincoln.

The demonstration, which was by far the greatest that has ever been held in this part of the country, was a tremendous success.

On the way from Guelph to St. Catharines Mr. Laurier stopped off at Beamsville and spent the afternoon as the guest of Mr. and Mrs. Gibson. Two thousand people awaited his arrival at the St. Catharines station and gave him a cheer of the quality that comes straight from the heart.

As an appropriate accompaniment to this great demonstration in honor of such patriotic Canadians as Mr. Laurier and Mr. Gibson, the Garden City Band played the "Maple Leaf Forever."

Then a monster procession was organized, and in four divisions moved up into the city amid the cheers of the crowds of people who lined the way. The procession, which was organized under the direction of Mr. J. B. McIntyre, was a most imposing affair, creditable alike to the great occasion and to the citizens who participated in it. The first division, marshalled by Mr. John A. Burns, was headed by the Garden City Band. The second division was under the direction of Dr. Harris. The Merritton Band made the music to which it moved forward. In it were the delegates from Merritton, Port Dalhousie and Grantham. The marshal of the third division was Mr. John Phalen, and the pace was set by the Beamsville Band. In carriages were the representatives of the Townships of Louth and Clinton. This division was succeeded by a long line of citizens in conveyances.

IN THE CITY PARK.

The meeting was held in a portion of the city park that formed a natural amphitheatre, and the crowd that attended it was immense. A moderate estimate placed it at 8000 people, many more than could have been squeezed into any building in St. Catharines. Not all of those present were Liberals. On the other hand, there was a large admixture of Conservatives in the throng, yet the entire audience was appreciative and at times intensely enthusiastic. After a brief introductory by the chairman, Mr. McIntyre made a stirring speech, which at once provoked the enthusiasm of the people. In that great crowd Mr. McIntyre saw victory for the Liberal candidate on election day. In days gone by, he said, he used to hear that Mr. Rykert generally carried Lincoln in his breeches pocket. Did he see this throng, he would wonder where his friends had gone.

Still further evidence of the great popularity of Mr. Gibson among the people of St. Catharines and the district was furnished by the ovation that was accorded the coming member for Lincoln when he was presented to the audience. Mr. Gibson never spoke more effectively in his life than he did to-night under the inspiration of the multitude of enthusiastic people, who stood before him. He contrasted the magnificent gatherings that had been held in honor of Mr. Laurier, the orderly receptions and the cheering crowds with those before which Sir Charles Tupper had appeared. The man who had usurped the position of Sir Mackenzie Bowell was meeting with the just reward of his treason to the Prime Minister. Mr. Gibson discussed and replied to the criticisms, many of them absurd, all of them unfair, which have been levelled at him by Mr. Rykert and his campaigners. While discussing the trade question he mentioned a fact to demonstrate the absurdity of the cry raised by the monopolists that Canada's inferiority is so great that her people cannot hold their own in fair competition with the inhabitants of other countries. In open competition with all the world he had secured the contract for the construction of the St. Clair tunnel on the American side of the river. Every pound of cement and every yard of stone required had been supplied by the County of Lincoln, the stone by his own quarries. More than that Canadian workmen from Lincoln had accompanied him there and had per-

BEATEN BEFORE THE FIGHT.

At the last general election the Government had the matchless leadership of Sir John Macdonald, and the inspiration of his name as the victor in a hundred fights.

The party was united and aggressive.

It had the advantage of springing the election suddenly on its opponents.

The shameful scandals which were unearthed in the session 1891 were unknown.

It had not to bear the sins that have since been disclosed—the Curran bridge, the iniquitous order-in-Council giving away $2,500,000 to a buncombe railway company, the Goodwin scandal, involving the payment of $218,000, the gift of $300,000 to the covetous promoters of the Fredericton bridge, the milking of railway subsidies for the campaign fund and the scores of other similar works of corruption, which, it appears, are to be paralleled or outdone by the boldest corruptionist that has appeared in Canadian public life.

It had not to face the damaging stock-taking of the results of the National Policy as disclosed by the census, and the still more convincing facts, that appeal to all men, of the present condition of trade and industry. Depression, we were told, says the Globe, would be impossible under the National Policy. But here the depression is, and it refuses to depart.

It had not to face the fact that in spite of the enormous exactions laid upon the people it cannot make ends meet, but that "ugly-visaged deficits" appear to have come to stay.

It had not to face the fact that, although all the great public works have been finished, the national debt grows as fast as ever, and that another five years of Tupperism will bring us within hail of a net debt of $300,000,000.

The advantages of the Franchise Act and the gerrymander have been largely reduced.

Even with these advantages it came within an ace of being routed in 1891.

It now goes to the country with a discredited leader, whom the Mail declared at the time of Sir John Macdonald's death as wholly unfitted to succeed him, as he was the Prince of Political Cracksmen. A man who has grown enormously rich in public life. A man who usurps the position he now occupies, having reached it by the treacherous knifing of Sir Mackenzie Bowell.

His usurpation has rent the party in twain, and its most respected and prominent members are found among the ranks of the anti-Tupperites. Tupperism is doomed.

CHEATING THE MAILS.

The latest piece of roguery developed during the campaign is the mailing of the Canadian Industrial League's campaign literature from Ottawa at public expense. Mr. Haggart is the Minister who thus abuses his privilege by cheating the mails. The Industrial League claims, says the Globe, to represent many millions of capital, to control many important industries and to have the exclusive right to a fine line of patriotism. Yet its members have not the common honesty to pay their postage. The grotesque rubbish with which they are flooding the country is carried at the expense of the farmer, the mechanic and the labourer, of whom the league is exceptionally solicitous at election times.

In Toronto and other cities people pay two cents on drop letters, while private firms would carry them for half that rate. The excuse for the overcharge is the great yearly deficit in the Postoffice Department. But the members of the Industrial League by using a Tupper Minister can have their prints and pamphlets carried for nothing from one end of the Dominion to the other. The Industrial League enjoys the privilege of special legislation. Its members claim that Mr. Foster prepared the tariff from their brief. The votes of the people virtually entrusted Mr. Foster with power to prepare his tariff as he thought advisable. But the people never gave Mr. Haggart authority to cheat the mails at the solicitation of the Industrial League or any other corporation, however patriotic. If Mr. Haggart is not sufficiently honest to be trusted with a franking stamp, the members of the Industrial League should have at least sufficient decency to pay their postage. We know that times are hard and that the members of the league find it necessary to cut down expenses. But we object to their economizing by defrauding the public. It is not surprising that many manufacturers are abandoning the league.

THE LIBERAL TRADE POLICY.

Speaking in Montreal Hon Mr. Laurier said: "You are told again that the Liberal party are in favour of free trade as it is in England. That is a peculiar rebuke for the Conservative party to make toward me. The Conservative party pride themselves on their loyalty. Old Dr. Johnson used to say that patriotism was the refuge of a scoundrel, and I say that loyalty is the last refuge—I won't say of scoundrels—of a Canadian Tory. So long as the Tories are on top they air their loyalty, but when they go down, down goes their loyalty as well. Much as I admire England, however, I am bound to say that it is not impossible for us under our present condition of things to have free trade at the present time as they have it in England. Free trade must come gradually in Canada. It must come after their eight or forty years, or perhaps more, as my friend Mr. Ros stated. At the present time we must have a revenue tariff, and a decrease of the burdens which now lie so heavily upon the manufacturers as well. (Hear, hear,) I say that the present tariff is an incubus upon the manufacturers of the city of Montreal. This does not apply to the monopolies, but I say that it is an incubus on the manufacturers."

A WOMAN'S LETTER.

"A Woman of Canada" writes:—As Mr. Laurier, in his London speech, has been kind enough to say that the women of Canada may be able to use their influence with good effect just now, let me ask you to direct attention to this, and let us unite in doing our best to bring into power a Government who will have a man as their Premier whose greatest ambition is to form a nation on the evangelical principle of "peace on earth, good-will toward men," not to stir up a strife of religion and nationalities, as the Ministry and their followers are trying to do. On the 23rd of June let us have as our Premier one who

"Wearing the white flower of a blameless life,
Will not make his high place the lawless perch
of wing'd ambition."

May it then be many years before his "eyes close on this fair country he loves so well."

THERE'S a difference of opinion as to whether the Manitoba minority has a grievance. But there's no doubt that Canada will have a decided grievance if Tupper is sustained.

IN 1874 Canada's aggregate trade with Great Britain was $108,033,642, a figure that has never been equalled since; our aggregate trade with Great Britain last year being only $92,958,727.

SIR CHARLES TUPPER says that the N. P. has bestowed untold blessings" upon the people of Canada. Why doesn't he tell them then. There are five million people yet to be told the blessings they owe to the N.P.

THE Canadian Government shipped 577 cwt. of butter to England. It cost twenty cents a pound net and realized fourteen cents. On that account they claim to have established the butter trade. Are you satisfied?

THE Conservative party is hopelessly divided at the national centre, Ottawa. Sir Charles Tupper was hissed, hooted and heckled at Ottawa the other night, but the hissing, hooting and heckling were done by Conservatives. They have two Conservative associations there—one party is for Tupper and the other is death on Tupper. A house divided against itself cannot stand.

A leading broker writes:—If the Reformers are returned with a good working majority the effect upon stocks and general trade will be beneficial, as a factor in the present market is the fear that the Conservatives may be sent back with a small majority, in which case the coercion bill would again be brought up, the Government would be defeated and the state of uncertainty would be considerably prolonged. The tariff is practically in a stable position and any slight changes contemplated in it would have a trifling effect upon the public confidence as compared with that which is to be feared from the continuation, definitely of a bitter controversy over race and religion.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

GENERAL ASSEMBLY.

Presbyterians Got Down to Business Yesterday.

A SKETCH OF THE NEW MODERATOR

Rev. Dr. Somerville Says Restrictions Must be Made in Regard to New Men Entering the Ministry—Dr. Warden Succeeds the Late Dr. Reid Mission Reports.

Toronto, June 12.

The first business sederunt of the twenty-second General Assembly of the Presbyterian Church in Canada was convened yesterday morning in Central Presbyterian Church, St. Vincent and Grosvenor-streets; there being present commissioners to the number of over 400 from every part of the Dominion. Great interest was manifested in the proceedings by a considerable number of visitors, the church being crowded, particularly at the evening sitting.

Each sederunt was opened with devotional exercises by the new Moderator, Rev. Prof. Gordon. The Moderator, it may be added, was born in Pictou, N.S., 51 years ago, and received his education in Scotland, graduating from Glasgow University at an early age, with the degree of M.A. He continued his theological studies in the same place, finally taking the degree of B.D. In 1868 he returned to Canada, his after career being distinguished by great success. In 1894 he was appointed to the chair of systematic theology and apologetics at the Presbyterian College, Halifax. The degree of D.D. was conferred upon him by Glasgow University about a year ago.

The presentation of an overture from Owen Sound Presbytery, protesting against the frequent admission into the Presbyterian ministry of ministers from other churches, was the subject of debate.

Rev. Dr. Somerville of Owen Sound, speaking to the overture, said that while the number of ministers was increasing at the rate of 45 a year, there was no corresponding increase in the superannuation fund, and no greater opening appeared in the foreign mission field. "The time has come," he said, "when we must distinctly say there must be restrictions on the number of new men entering the ministry." He moved the reference of the overture to a special committee.

There was much discussion on the question, many of the speakers taking the ground that the whole student and supply question should be referred to a committee. It was pointed out by the Moderator that the prayer of the overture covered that ground, and the motion referring the question to a committee was carried.

The committee to which had been entrusted the nomination of an Assembly clerk, in succession to the late Dr. Reid, reported in favor of the election of Rev. Dr. In amendment, the Halifax delegates Warden, general agent of the church brought forward the name of Rev. Dr. Sedgwick of that city. A vote being taken, however, the committee's nominee was elected by a practically unanimous vote.

Overtures from several Western Synods, dealing with the question of the unification of Home and Foreign Mission interests were read and taken up. It was held by the overturing Synods that home missionaries should receive their salaries irrespective of any deficit, as is the case with foreign missionaries.

Rev. George A. Wilson, a young minister from Vernon, B.C., was the first spokesman of the home missionaries. He told in graphic language of the difficulties besetting workers in the Western field, and asserted that the reduction of missionary stipends from $1000 to $850 was the imposition of a tax which the missionaries were scarcely able to bear.

Rev. J. C. Herdman, a well-known minister of Calgary, also advocated an increase in the salaries of home missionaries, his remarks, as well as those of Mr. Wilson, being applauded by the audience.

The cause of the aggrieved missionaries was also championed by Rev. Dr. Robertson, Superintendent of Home Missions, who was the last speaker.

The chief business in the evening was the reception of the Home Mission reports. That of the Eastern section was presented by Rev. John McMillan, B.D., of Halifax, in an eloquent speech, and that of the Western section by Rev. Drs. Warden and Robertson. The report of the committee was of a most exhaustive character, dealing with every phase of the work. On the whole, the report was regarded as highly satisfactory, there being a surplus after the payment of all demands, and the amounts promised to the home missionaries had been paid in full. The total amount collected for the Home Missions during the year was $98,147 39. The committee took occasion in the course of its report to register a strenuous objection to Separate schools in Manitoba.

In submitting the report of the Western section, Dr. Warden told of the grand progress made by the Presbyterian Church west of Lake Superior during the last quarter of a century, and compared the favorable report for 1896 with those of former years. And yet, he said, the church had scarcely begun to learn how to give. The work demanded much greater contributions. The twenty-first anniversary of the Presbyterian Church in Canada should be marked by largely increased giving for Home Missions and other works of the church. In moving the adoption of the report, he submitted a resolution advising students to give a full year to mission work before settlement. His deliverance was much applauded.

The resolution was seconded by Dr. Robertson, who said there was not a gloomy note in the report, save in the case of one Presbytery—and the man who struck that note had dyspepsia. He would like to send one or two good men to the church-forsaken Yukon country this season. The ownership of the country was in dispute; he believed it belonged to Canada, and she should take possession of it, with the gospel, at any rate. His address, a most interesting effort, was followed by several brief speeches on the same subject.

The claims of this district, which lies west of Lake Superior, were ably presented by Rev. R. G. McBeth of Winnipeg, a native Manitoban and a forcible speaker.

Elder G. A. Reid of Lacombe, N.W.T., gave the audience a good deal of information about mission interests in that country, and was followed by Rev. G. A. Wilson, who told of the vastness of the territory included in Kamloops Presbytery; Rev. Mr. Herdman spoke with effect for Calgary, and Rev. Principal King of Winnipeg made an earnest address on behalf of the Home Mission work. The resolution was unanimously adopted.

At the evening meeting the Foreign Mission report was presented.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

LET OFF WITH A FINE.

Conditions of the Release of the Four Leaders of the Uprising in the Transvaal.

Praetoria, June 11.—It is announced that the terms imposed upon the four leaders of the Johannesburg Reform Committee, John Hays Hammond, Lionel Phillips, Col. Francis Rhodes and George Farrar, whose release has been decided upon by the Transvaal Executive Council, require that in default of the payment of a fine of £25,000 each they shall suffer banishment from the territory of the South African Republic.

The conditions of their release upon payment of their fines are the same as those required to be observed by the other members of the Reform Committee who were recently set at liberty, namely, that they shall abstain from interference in the politics of the South African Republic.

Corroborated in the House.

London, June 11.—In the House of Commons to-day, Right Hon. Joseph Chamberlain, Secretary of State for the Colonial Department, made an announcement confirming the report from Praetoria, that the leaders of the Johannesburg Reform Committee had been set at liberty upon their payment of a fine of £25,000 each, in default of which they would be subjected to banishment from the Transvaal for a period of 15 years.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

TAKEN OUT AND HANGED.

A Mob, 300 Strong, Break Open the Bryan, Texas, Jail and String Up Three Brutes.

Houston, Texas, June 11.—Louis Whitehead, George Johnson and Jim Reddick, three negroes, were taken from the jail at Bryan, 100 miles north of here, last night and hanged. Whitehead and Johnson were charged with attempting to criminally assault the 12-year-old daughter of Dr. R. H. Wilson, Sunday night. Reddick had been convicted of a crime on an Italian girl and sentenced to hang, but the decision was reversed by the higher court, and he was held awaiting a new trial. The mob was 300 strong and came from Kurten, nine miles west of Bryan, where Dr. Wilson lives.

Because other alleged remedies for piles, scrofula, eczematic eruptions, scald head, chafing, black heads, salt rheum and skin diseases generally have proved useless, don't condemn Dr. Chase's Ointment. It has never been known to fail. For instance, Nelson Simmons, Mayersburg, Ont., writes:

"I used Dr. Chase's Ointment for Itching Piles, and can recommend it highly. Since using it I have had perfect freedom from the disease."

Peter Vanallen, L'Amable, Que., had the eczema for three years. He tried three doctors, but received no benefit. One box of Dr. Chase's Ointment and three boxes of Dr. Chase's Pills cured him completely. Large scales covered his legs and body, but the Ointment soon removed them. He will swear to these facts.

HOW
THE SUN LIFE
FULFILS ITS PROMISES.
A Matured 10 Year Endowment.
Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 19.5 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

RETURNED FROM THE SYNOD.

Local Lay Delegates are Home From Toronto To-day.

Messrs. Robert Fair and R. M. Dennistoun have returned from attending the Anglican Synod, which has been in session in Toronto. Whilst there Mr. Dennistoun was appointed to act on the Mission Board. Rev. J. C. Davidson and Rev. E. V. Stevenson will return on Saturday.

The Committee on the Increase of the Episcopate presented a report which included a valuable paper on the subject by Dr. J. G. Hodgins, but the report itself made no recommendation. In connection therewith the following resolution was moved by Rev. Dr. Pearson and seconded by Rev. W. E. Cooper:—

"That steps be taken at this session of the Synod to give practical effect to the resolution of this Synod in 1873, setting apart the Counties of Peterborough, Haliburton, Northumberland, Durham and Victoria as an eastern diocese, and that the Rural Deans of the proposed diocese and the laymen residing in it, who have been appointed members of the Mission Board, together with the Committee on the Increase of the Episcopate, be authorized to take the necessary steps to have the eastern diocese set apart as soon as arrangements can be made (under Canon IX of the Provincial Synod) to that effect."

MR. HALL'S 14TH MEETING.

It Was Held Last Evening at Bensfort, South Monaghan.

A well attended meeting in the interests of Mr. Hall's candidature was held at Bensfort last night with Mr. John Riddell in the chair.

The meeting was opened by Mr. F. D. Kerr, who dealt with the trade question, showing that the Conservative Government had failed to increase Canada's population and had also failed to provide a home market for the farmers as promised.

Mr. Moore followed in the interests of Mr. Kendry and attempted to prove by figures that the farmers were the most prosperous class in Canada to-day.

Mr. Hall then delivered a forceable address of fifteen minutes' duration, after which Mr. E. B. Edwards easily exploded Mr. Moore's theory regarding the prosperity of Canadian farmers.

During the evening Mr. Moore attempted to excuse the extravagance of the Government by endeavouring to show that the cost of the erection of the Ontario Parliament buildings had greatly exceeded the contract price, but Mr. Riddell, the chairman, in a few affective remarks disabused the minds of those present on this point and flatly contradicted Mr. Moore's statements.

Bensfort seems fully alive to the necessity of returning Mr. Hall and the residents in that section are most enthusiastic over his candidature.

GRAND DEMONSTRATION IN THE LEADER'S HONOUR.

The Town Carbed En Fete.

BANDS OF MUSIC, BUNTING, BANNERS AND TORCHES.

Popular Reception at the C. P. R. Station—A Magnificent Procession—Mass Meetings at the Skating Rink—Addresses by Hon. Wilfred Laurier, Hon. G. W. Ross, Geo. A. Cox, and George Bertram, of Toronto—An Evening Procession — Torchlight Escort of the Leader to His Train—A Great Day for Liberalism—The Key-Note of Victory.

To-morrow will be a great day for Liberalism in Peterborough. The electors of East and West Peterborough will assemble in thousands to meet and greet the great Liberal Leader on the closing stage of his triumphal tour through Ontario. During his recent progress through Ontario,

Hon. Mr. Laurier has been received with unexampled enthusiasm—a spontaneous outburst of popular approval and confidence that has the ring of victory.

And we are sure that Peterborough's magnificent demonstration to-morrow will be of a piece with the grand welcomes that have gladdened the Liberal leader's heart during the past few days.

THE LOCAL ARRANGEMENTS.

The local committee in charge of the demonstration have completed arrangements for making the occasion one of the most conspicuously eminent of the kind that has ever taken place in this district. Never has a Canadian leader shown himself so worthy of being so honoured, and never has the popular feeling so promptly responded to a call upon its loyalty to such a leader. We are glad to see that our citizens have, independently of political sympathies, so generously and heartily responded to THE EXAMINER's invitation to do honour to the credit of the town by decorating their premises, especially on our main thoroughfare. Already banners are blooming on many a shop front, and before ten o'clock to-morrow George street will be a blaze of flapping flags and bright hued decorations, and the walks will be lined on the outside with evergreens, and the walks themselves will be crowded by thousands of people.

Hon. Mr. Laurier and his party, including Hon. G. W. Ross, Ontario Minister of Education, Mr. Geo. A. Cox and Mr. Geo. Bertram, of Toronto, will arrive at the C.P.R. station by the 11.20 express from the west. They will be met by thousands.

A procession will then be formed the order of which has not yet been determined. Its elements will consist of the carriages of citizens, a bicycle corps with wheels decorated with red, white and blue colours, and the riders carrying banners a mounted corps and four bands of music. Hon. Mr. Laurier and party will be escorted to the residence of Mr. Richard Hall, the Liberal candidate, where luncheon will be served.

At 1.30 the speaking will take place at the rink, which has been specially seated (the lower gallery and west side being reserved for ladies) and magnificently decorated and ablaze with suitable mottoes.

At the skating rink the first order of proceedings will be the presentation of an address of welcome and congratulation to the Liberal Leader, read by Dr. Bell, President of the West Riding Reform Association, followed by speeches by the ocal candidate, Mr. Geo. A. Cox, Mr. Geo. Bertram, Hon. Mr. Ross and Hon. Mr. Laurier.

An evening programme, including a torch light procession, will be announced in detail to-morrow.

Workingmen are expected to be prominent figures in the torchlight procession.

THE GRANGE HALL MEETING.

To the Editor of the Examiner:

SIR,—In answer to Mr. Hampden Burnham's letter in THE EXAMINER, yesterday, with reference to Mr. Kendry's meeting in Grange Hall, Smith, on Tuesday evening last, a report of which meeting appeared in the issue of your paper on the 10th inst., I wish to say that at the meeting I asked Mr. Burnham the following question:—"Suppose Sir Charles succeeded in passing the Remedial Bill and making it law, and the Manitoba people refuse to acknowledge or obey it, what will be the attitude of the Government, and what position do you and Mr. Kendry propose to take in such an event?"

Mr. Burnham answered:—"In such an event we would consider the province in rebellion, the same as in the time of Louis Riel, and we would support any measures, even to sending an armed force, if necessary, into the province to enforce the law."

I did not ask Mr. Kendry any questions, neither did he answer any, as Mr. Burnham said he was speaking for Mr. Kendry, and as Mr. Kendry did not repudiate his statements, although present, I considered he agreed with them. It is rather late for him to repudiate now, when he finds out what a mistake he has made. The time for such was when the statement was made, when his repudiation could have been published with the statement.

Yours, etc.,

AT THE SOUTH WARD MISSION.

The First Strawberry Festival of the Season Took Place Last Evening.

Last evening quite a number attended the strawberry festival, which was held in the St. John's Mission. Rev. Carl Smith in his address welcomed all present and wished them a merry evening. There was an excellent programme presented, which was as follows:—

Instrumental duet.....Misses Pollock
Solo.....Mrs Kernegan
Recitation (encored).....Mrs Ed Brown
Instrumental solo.....Miss Staunton
Vocal solo.....Miss Jackson

INTERMISSION.

Reading.....Mr H Burnham
Solo.....Mrs Kernegan
Recitation (encored).....Miss Aggie Patterson
Solo.....Mrs Kernegan

Several of the numbers were encored. Mrs. Ed. Brown proved herself to be a most able and finished elocutionist, as did also Miss McCallum, who most pleasingly recited "Ceptin' Me." In the intermission the tables were largely patronized. The ice cream and strawberries which were sold were excellent and the social all through was an unqualified success. At the close of the programme what was left of the strawberries and cakes were auctioned off and those who bought got first-class bargains.

THE BAND CONCERT.

The Fire Brigade Band will be in the Court House Park to-night and will render the appended programme:

Two Step Handicap.....*G Rosey*
Song, Sunshine of Paradise Alley...*L O DeWitt*
Selection, Maritana.....*Wallace*
Mexican Waltz, Ensuene Seducter.....*Rosas*
Song and dance, Schottische, Lil and Lou.*Hall*
Valse, Le D'Armour.....*Hartman*
Quadrille, Jolly Company.....*Williams*
March, King Cotton.....*Sousa*
God Save the Queen.

A JUNE WEDDING.

Miss Kempt, Daughter of Dr. Kempt, of Peterborough, Married in Lindsay.

(Lindsay Post.)

One of the prettiest weddings seen in Lindsay for many a day took place yesterday afternoon at St. Mary's church, when fully 1,000 of our citizens, among whom were a large number of invited guests, assembled to witness the nuptials of Miss Florence Kempt, eldest daughter of Dr. Wm. Kempt, now of Peterborough, and Dr. Joseph A. Kerrigan, of New York city. "Happy is the bride the sun shines on," runs the old adage, and if the augury has any significance then the fair bride had indeed good reason to be grateful to the clerk of the weather, for the day was simply perfect. The ceremony was performed by Monsignor Laurent, pastor. Miss Kate Burden, of Quebec, was the maid of honour and the Misses Grace, Lena and Genevieve Kempt, sisters of the bride, were the bridesmaids; Dr. Kerrigan was assisted by Mr. George Kempt, late of the Bank of Montreal staff. The bride wore a handsome gown of white silk, with white veil and orange blossoms, and looked very sweet and winsome; she carried a large bouquet of roses. Miss Burden was attired in white silk, with hat to match; the Misses Kempt wore cream, pink and green gowns, and all carried boquets of roses. The ushers for the occasion were Mr. R. J. Fife, of Peterborough, Mr. G. Richardson, Dr. Walters and Mr. Vincent Keenan, who discharged their somewhat trying duties with admirable self possession. Among the guests present from a distance were Miss Richardson, of London, Ont., and Judge Dartnell, of Whitby. After the wedding a reception was held at the residence of the bride's parents, Ridout street. The bride received a large number of gifts, many being exceedingly handsome. The happy couple left on the 6 o'clock express for New York, where they will in future reside, and a large party of friends gathered at the station to bid them adieu.

A NRWOOD WEDDING.

Celebration of the Armstrong-Herring Nuptials.

Christ Church, Norwood, was, on Wednesday, June 3rd, the scene of a very pretty wedding. It took place at 11 o'clock and was the occasion of the marriage of Mr. Thomas Armstrong, of Toronto, to Miss Agnes Eliza Herring, youngest daughter of Mr. Henry Herring, Norwood. The Rev. John Gibson performed the ceremony. The bride entered the church accompanied by her brother, Mr. William Herring, of Peterborough, who also performed the duties of groomsman. She was very prettily attired in a dress of cream cashmere and wore a veil of tulle. At the altar she was assisted by her sister, Miss Anna Herring, who wore a dress of pale blue. The church was decorated with a profusion of flowers which did much to enliven and beautify the scene. A large number of people assembled in the church to witness the ceremony. Mrs. Gibson presided at the organ and played a number of beautiful and appropriate selections. After the wedding breakfast at the house of the bride's father, the happy pair left by the four o'clock train. They were accompanied to the station by a number of friends, who joined in wishing them a happy journey on the voyage of life.

CUPID'S WORK.

The Marriage of Miss Minnie Lang to Mr. James Elliott, of Baillieboro.

A pretty wedding ceremony was celebrated Wednesday afternoon at the home of Mr. C. Hodge, Port Hope, when his niece, Miss Minnie Lang, daughter of Mr. Wm. Lang, of Baillieboro, was united in marriage with Mr. Jas. W. Elliott, also of Baillieboro. The ceremony was performed by Rev. Mr. Hull.

The groom's best man was his cousin, Mr. Jas. Lang, and the bride was assisted by her sister, Miss Rody Lang. Miss Lang was one of the most popular young ladies of Baillieboro and a valued worker in the Methodist church there. The esteem in which she was held was evidenced by a large number of beautiful presents.

Among the guests present were: Mr. and Mrs. Yarwood, Picton; Mr. and Mrs. H. R. Sanders, Mrs. J. P. Sanders, Mr. W. Sanders, Cobourg; Miss Lang, Fairmont; Misses Elliot, Millbrook; Mr. John Elliot, Mr. S. B. Perrin, Misses Maggie and Mabel Wood, Mr. F. Ward, Mr. and Mrs. Geo. Dawson, Baillieboro; Misses Palmer, Miss Fox, Miss Trick, Port Hope.

The young couple went at once to their home near Baillieboro.

FARMERS' INSTITUTE.

The annual meeting of the East Peterborough Farmers' Institute was held in the new concert hall, Norwood, on Tuesday afternoon. The following officers were elected for the coming year:—

President—F. Birdsall.
Vice-President—Mr. Robt. Burgess.
Sec.-Treas.—Mr. C. O'Reilly.

Directors—Asphodel—Messrs. Geo. English, John Knox, James Andrews, Wm. Oakman, James Moore and Thomas Esson. Norwood—Messrs. D. J. McCarthy, J. P. Brown and John Finlay. Otonabee—Messrs. T. Blezard, M.P.P., James Drummond, John Lancaster, J. W. Miller and Hugh Nelson. Dummer—Messrs. E. Hawthorne, W. G. Patterson, Chris. Howson, Chas. Nicoll and A. R. Kidd. Douro—Messrs. J. M. Walsh, John McManus and D. Forsyth. Belmont—Joseph Johnston and Wm. Burgess.

Mr. Birdsall gave a report of the work done by the Institute last year and Mr. O'Reilly read the report of the Executive Committee, which was adopted.

Norwood and Keene were recommended as the most suitable places for holding the regular public meetings and Warsaw and Westwood for supplementary meetings.

Mr. Birdsall was appointed as a delegate to the meeting of the Good Roads Association to be held in Toronto in September.

DR. MONTAGUE'S RETIREMENT.

The statement that Hon. Mr. Montague, Minister of Agriculture in Sir Charles Tupper's ministry, has resigned his portfolio, not having been authentically denied, it may be accepted as correct, together with the further statement that it is not thought advisable to accept his resignation at present. So far as the circumstance of ill health is the reason of the genial doctor's retirement that is a fact much to be regretted. That his health is not good, was shown by a visit to Peterborough, where he complained of an accentuation of the heart trouble with which he is afflicted. But it would seem that that is not the only reason of his retirement. The Government is meeting with so many warnings of doom, the current of the campaign is setting so strongly against the government that an aspirant to the premiership does not wish to lose prestige by being actively identified with the stranded wreck that will be the condition of the present government on the night of the 23rd. The personal ambitions of members of the cabinet, their aspirations for places of preferment, their unseemly struggle for fat places that were elements in precipitating the bolt of last session, have been only subordinated pro tempore—not destroyed. A government founded on conspiracy, butteressed by self-seeking, and ignoring altogether the public interest, cannot be expected to commend itself to the confidence of the public which has too long been tricked, duped and deluded by a government promising prosperity and performing taxation only. This statement is not original, but very much to the point: The handwriting is on the wall. Tupperism is doomed and that all along the line from sounding sea to sounding sea, and West Peterborough is to be redeemed too. All the signs point that way. The local Liberals are in splendid fettle and working under the spur of the hope of certain victory. Will you be on the winning side?

FARMERS' INSTITUTE PICNIC.

A Field Day at Beautiful Jubilee Point.

Yesterday was a great day at Jubilee, being the occasion of the annual picnic of the Farmers' Institute. Excursions to the Point were all well patronized. The first boat to arrive was the North Star, bringing 400 passengers from Keene, Roseneath, Curtis' Point and Harwood. Five minutes later the City of Peterborough steamed into the harbour with 650 excursionists on board from Peterborough and intermediate points. The Beaver brought 450 from Hastings, and had to leave about a hundred, being unable to accommodate them. The little Midgean also came up from Trent Bridge, well loaded with picnicers and last, but not least, the Outlet Queen brought a party over from Idyl Wyld. About five hundred others rowed across the Lake in small boats.

After luncheon had been partaken of the sports began, the first on the programme being a baseball match between the Park Nine from town and a team from Burnley. The game resulted as appended:—

Hop, step and jump—1 Geo. Riley, 2 Jackson.

While the sports were in progress Prof. Paton, of the Guelph Agricultural College, delivered an address.

Dancing was indulged in all day in the pavilion, Sherwood's orchestra and Prof. Crowe's Indian band being in attendance. The village hotels of the county were all represented at the picnic, three being present from Norwood, as well as Phil Elmhurst, of Hastings; Terry Spellman, of Idylwild, and Mick Kennealey, of Keene.

Before the crowd left the grounds three cheers were given for the Park nine, and three more for Harry Nell, under whose personal direction the sports were so successfully run off.

The Farmers' Picnic.

A close observer on the grounds at Jubilee Point remarked the stylish outfits worn by the majority of the excursionists. Upon enquiry it was learned they were turned out in the well-known establishment of P. Simons & Co. This firm are bound to be in front with neat, well-made clothing, and judging from remarks heard on all sides, their reputation is widespread. Drop in and see some of Pete's nobby patterns in light-weight suiting for the coming warm weather. A full line of gents' furnishings always on hand. Don't forget the number, 408 George street.

NORWOOD NEWS NOTES.

From Our Own Correspondent.

Miss E. J. Pearce was visiting friends in Marmora this week.

Miss T. N. Pettigrew is visiting friends in Lindsay.

Next Friday evening a grand promenade concert under the auspices of the High School and band is to be held in the concert hall here. Among those on the programme to take part are Mesdames J. Davidson, F. E. Perney and A. Fraser, and Misses S. E. Pearce, B. J. Roxburgh, and Mr. T. G. Code.

A special meeting of the High School Board was held on Wednesday evening last.

On Monday evening a Reform meeting was held in the skating rink here. The speakers were the candidate, Mr. Lang, Hon. S. H. Blake, Q.C., and T. Blezard, Esq., M.P.P. Mr. P. Ryan was also to have spoken but was unable to be present.

Norwood football club went to Merrickville on Tuesday, and competed with Smith Falls, defeating them by a score of 3—0. Quite a number went out of town with the boys.

A Farmers' Institute meeting was held in the town hall here on Tuesday afternoon, but on account of the weather there were not many present.

We are pleased to notice that Mr. A. J. Raddon has passed his examination for a B. A.

RE-FITTED AND DOING GOOD WORK.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

By Special Request.

A great many customers have asked us to put in another bargain window of Chamber Sets, as they were unable to get one of the last lot. We will therefore fill the south window with a lovely line, worth $5 and $6, and give you your choice on Saturday, June 13th, and until the lot is sold, for $3 50. The first customers get the best assortment to choose from. China Hall, 360 George street.

Ball & Co

The High-Class Tailors,

are selling their Guinea Trousers, worth from $7 00 to $8.00, as fast as they can be made up, because the goods are first-class and all new, and they are also a perfect and stylish fit.

Our Genuine Scotch Tweeds must be sold this month or carried over until next year, and that will not pay. So we invite all to inspect our high-class goods, and they will not be disappointed in the cut and make of the only practical Tailors and Cutter.

Drop in Beef

In the Cattle Markets, to be Followed by a Corresponding Drop at

KENNEDY'S MEAT MARKET.

In sympathy with the falling prices in the Cattle Markets all over, Beef Cattle to-day are selling for fully 30 per cent. less than the prices of six weeks ago. As my policy will always be TO SELL AS I BUY, I will commence ON SATURDAY NEXT to give my customers, as well as the general public, a corresponding 30 per cent. Reduction in the price of Cut Beef. For example:—

Best Porter House and Rib Roasts, former price 12½c, reduced to..... 9c

This reduction in price does not mean any reduction in the quality. I am pledged to supply my customers with Prime Beef no matter how the cattle market may fall or rise, and I am bound to stand by my pledge.

The above substantial reduction will continue so long as the present prices for cattle remain. As I have unequalled facilities for keeping and preserving my beef in first-class condition in my large and newly improved Cooling Rooms, buyers will be consulting their own interests by availing themselves of these very special advantages. Adequate provision will be made for attending to a large crowd on Saturday.

Froebel, the great promotor of the kindergarten system of teaching children said: "Let parents not live *for* their children, but *with* them." The mother who understands this sentiment lives with, even her unborn child. She studies to be wise about herself and the little life she is fostering. She does all she can to give her child a fair start in life, by giving it a strong well developed body. All through babyhood, childhood and youth she lives *with* her son or her daughter. Especially her daughter she will keep near her. She will allow no false modesty to stand in the way of that daughter's knowledge of herself, of her possibilities, of her perils. She will teach her that happy, healthful motherhood is an honor, a blessing. That sickness is a mistake, a breaking of nature's law. But there are times of unavoidable overdoing when the system becomes run-down.

For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots; and builds them up. It is beneficial in any state of the system. A woman who would understand herself will find an able assistant by sending 31 cents to the World's Dispensary Medical Association, Buffalo, N. Y., for Dr. Pierce's Common Sense Medical Adviser. It is a book that has reached its 680th thousand. It contains in its 1008 pages an immense store of information in plain words that any person will readily understand.

MR. O. G. SPEAR, of *Sand Bank, Oswego Co., New York*, testifies in this wise: "Our first child was born before my wife was sixteen years old. Afterward her health was very poor. She tried Dr. Pierce's Favorite Prescription. She gained flesh and strength by using two bottles. During the last few weeks of her second pregnancy she again used the "Prescription." Her confinement was a rapid and easy one, and she got up strong and well."

OTTAWA NEWS NOTES.

Col. Lake's Program—Canada's Trade With British Guiana—Bean Trick Played on Mr. Booth.

Ottawa, June 10.—(Special.)—Col. Lake, Quartermaster-General, will spend the next few days in Montreal military district on official business. It is understood that one of the objects of his mission is to arrange for the resumption of reconnaissance work in the Eastern Townships, which has been going on for the past two or three summers. As usual, cadets of the Royal Military College will be utilized in this survey work.

The Department of Trade and Commerce to-day received the quarterly report of Mr. McLeod, commercial agent for Canada at Georgetown, Demerara. Mr. McLeod states that trade in this colony is somewhat depressed. Canada is exporting to British Guiana considerable quantities of fish and some farm produce, and is taking in return sugar, rum and molasses. Canadian flour, which will find a ready sale there, is not being sent, not a single barrel having reached the colony during the last quarter. The agent considers that Canada is losing a golden opportunity in not endeavoring to improve trade, particularly in breadstuffs, with British Guiana.

Mr. Newcombe, Deputy Minister of Justice, leaves for England to-morrow in connection with the argument in the appeal of the Street Railway Companies against the decision of the Supreme Court regarding the duty on rails.

A dastardly trick was played on Mr. J. R. Booth, the well-known lumberman, last night. While Mr. Booth was addressing a meeting at Hull in Mr. McDougall's behalf, some miscreant removed a nut from the wheel of his buggy, with the result that when Mr. Booth got into the vehicle, the wheel came off and the buggy upset. Fortunately Mr. Booth was not hurt.

The Minister of Marine and Fisheries has received a memorial of the Brant County Rod and Gun Club, protesting against the dumping of sewage into the Grand River. The local fishing overseer has been asked to report upon the matter.

The total amount of Inland Revenue accrued during May was $653,298, a decrease of $29,000 compared with May of last year, but an increase of $75,000 over May, 1894.

Mr. T. Nosse, Consul-General for Japan at Vancouver, who visited Ottawa last winter, has made application on behalf of his Government to be supplied with reports of the different departments in order that they may be forwarded to Japan.

Mr. Hunter Reed, Deputy Superintendent-General of Indian Affairs, has left for an official tour through the Northwest.

Contracts for clothing for the militia have been awarded to S. Shorey of Montreal and the Sanford Manufacturing Company of Hamilton.

The first of the farmers' excursions to the Experimental Farm this season arrived in the city to-day. It was from points along the Canada Atlantic Railway, between Rouse's Point and Ottawa, and comprised about 350 passengers.

Enquiry at the Experimental Farm shows the total rainfall from half past 9 on Saturday evening to yesterday noon was 2.72 inches. The greatest fall during any 12 hours was between 3 o'clock Monday evening and the same hour yesterday morning, when 1.97 inches fell.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Ross and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." MR. GOLDWIN SMITH

Declines the Degree Which it Was Proposed to Confer Upon Him by the University.

This letter has been addressed by Mr. Goldwin Smith to the President of the University of Toronto:

The Grange.

Toronto, June 11th, 1896.

My Dear President Loudon,—When, in pursuance, as you said, of the unanimous vote of the University Senate, you offered me an honorary degree, you were probably not aware that there would be any opposition or manifestation of ill-feeling in other quarters. For myself, accustomed to the manly and generous habits of English gentlemen, who make it their rule to lay aside political enmity in social life, I could not anticipate that in a matter so remote from politics as the bestowal of an academical degree, political antipathy would find an occasion for its display. It is now evident that I was mistaken and that this little compliment paid to me as a scholar is likely to bring to the University more annoyance and disturbance of its proper dignity than anything of the kind can possibly be worth. I will, therefore, beg to withdraw my acceptance of the honorary degree of Toronto University and rest content with that which has already been conferred upon me by my own University of Oxford.

Let me at the same time assure you and the Senate of my undiminished gratitude for the intended honor.

This step, I am aware, is unusual. It is, however, not taken without advice on which I can perfectly rely, both as to the course most considerate and respectful towards the University and as to the dictates of personal propriety and honor. I am, yours faithfully, GOLDWIN SMITH

President Loudon, Toronto University, Toronto.

Mr. T. C. Patteson was asked why he signed the protest against the University of Toronto conferring an honorary degree on Mr. Goldwin Smith. He replied:

"The whole matter involves a lot of sickening toadyism. It seems to me that, as a scholar, Mr. Goldwin Smith must recognize, if Mr. Byron E. Walker, his apologist, does not do so, the difference between politics in the ordinary acceptance of that term, and treasonable opinions, which would defeat any candidate who dare give utterance to them at the present general election. If the question of annexation is within the range of practical politics, why is it not raised at this election? Mr. Smith is the chief advocate of continental union. If it considered that an open and tolerated question of politics, as an officer in the civil service, I should not venture to express an opinion on it; but surely loyalty or disloyalty to the Crown in Canada is not a question—yet—of controversial politics. When, if ever, it becomes one, Mr. Walker and Mr. Smith's other apologists will have an excellent chance to exhibit the courage in which they are lamentably lacking now. They will then, at least, have to call a spade a spade, and declare in which camp they are to be found. Let them come out of hiding now, if they dare—all these gentlemen who pretend to lament the introduction of "politics" into University administration. This question was thrashed out when Mr. Smith retired from membership in St. George's Society, and haven't we had enough of it?"

At the University Senate meeting on Wednesday night, a letter from Mr. Edward Penton was read, and ordered to be filed. This correspondent desires his name to be added to the petition of the eleven graduates in law who protested against the University conferring the degree of LL.D. upon Professor Goldwin Smith.

In connection with the withdrawal of Dr. Burwash's name from the list of those proposed for LL.D., he desires to publicly state that his action in this matter has no connection whatever with the protests made against conferring the degree on Professor Goldwin Smith. Dr. Burwash has no sympathy with the protests in question

MR. WALLACE IN LAMBTON.

Immense Gatherings Addressed at Watford and Sarnia in the Interest of the Independent Candidates.

Sarnia, June 11.—(Special.)—Mr. N. Clarke Wallace spoke here to-night at the Boys' Brigade Hall to the largest and most representative gathering ever assembled within its walls. At Watford in the afternoon he addressed also one of the largest audiences ever seen in the village. Both meetings were splendidly successful, and indicate that Lambton is heart and soul against the coercion of Manitoba. The meetings were held in the interest of Mr. J. E. Armstrong, the independent candidate for East Lambton, and Mr. A. C. Dewar, independent candidate for West Lambton.

Mr. Wallace was received with immense enthusiasm at both meetings and was presented with an address eulogizing him for his stand on the school question. Mr. Wallace dealt with the school question, and ridiculed the Tupper contention that the Dominion Government was committed to Remedial legislation. He concluded by appealing to the electors to vote only for men pledged against the coercion of Manitoba.

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia---Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So Says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

TURNING GRAY

AND THREATENED

WITH BALDNESS

The Danger is Averted by Using

AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

NEW SUMMER GOWNS.

DEVICES OF FASHION WHEREBY THE FAIR SEX MAY KEEP COOL.

The Possibilities of Silk Frocks—Lace and Wash Silks and Their Adaptiveness to the Requirements of the Season.

Adjustment of one's costume to the exigencies of torrid weather is fast becoming a simple problem for women, in view of the wide array of this summer's dress goods and of wonderfully attractive fashions that are now offered them. The ideal summer wardrobe is a happy combination of comfort, coolness and grace, and the wise woman will be rejoiced to find that it has an added possibility, which is economy. As summer trifles have a way of providing to be worth their weight in gold, expense is by no means an unimportant factor in the consideration of midsummer dress.

Silk is the coolest summer material known, a fact which is probably more often dimly realized than directly applied. It has, moreover, so many varieties that no two silk gowns need look alike. The prettiest and most fashionable summer gowns will be made of taffeta, which is seen in the most bewildering shades. One of the daintiest taffeta frocks that have yet been exhibited is shown in the illustration. It is of apple green, woven in the fascinating miroir pattern that makes a light shifting of the material seem like the play of sunlight among fresh foliage. Deep flounces of creamy lace fall from the collar and the shoulders and

A FRENCH SILK MODEL.

fall prettily about the hips and down each side of the front panel of the skirt. This panel is embroidered at the bottom in the most exquisite of pink apple blossoms, and the wide tabs, falling over the shoulders, have the same dainty decorations. Pale green gloves are worn with such a costume and the hat is of rough green straw, trimmed with green and purple bows of ribbons and chiffon and with a small group of black plumes at one side. The silk used for this gown is exceedingly sheen, and it is made so simply as not to be cumbersome on the hottest days.

Light wash silks are also much in demand. These may be obtained in varying qualities costing from 25 cents to $1 a yard, and in any case proving of far more worth than their slight money value. The skirt of such a gown should be cut very full and made up quite without trimming. An adjustable lace collar and yoke is the prettiest decoration for the bodice which may be finished off by a narrow belt and narrow hip ruffle, or by a broad ribbon sash. The sleeves should be a succession of small puffs, ending in a lace frill which partly covers the hand.

Pongee, foulard and India silks are far from expensive and make frocks that are no less serviceable than pretty. Black India silk is an admirable material for a traveling gown, and needs no trimming whatever.

For linens, dimities, organdies, ribbon is always the safe and simple decoration. An especially pretty organdie has an orchid design in lavender and green, and is trimmed with wide green ribbon, just matching the shade in the gown. There are bows about the bottom of the skirt, a wide sash and tiny bows among the puffs and wrinkles of the sleeves. A shirred yoke and collar of lavender chiffon complete the color harmony of an unusually striking gown.

One of the main points in favor of grass linen as a summer material is its adaptability to all occasions. Made simply and worn with a stock collar it is an exceedingly correct shirt waist. With the addition of a little lace, it may be made into a delightfully cool and pretty waist for a summer afternoon and evening. With a modish cut, and a few dressy touches, a grass linen gown may be made to serve one on comparatively dressy occasions. For many economical women the embroidered linen will be a little out of reach, but aplain good quality, though not cheap, is useful enough to compensate for the price.

The good things that may be said of a pure white gown have never half been told. Nothing is so effectual in warding off the scorching rays of summer sunshine, nothing is so dainty and uniformly becoming. White India silk makes a charming evening gown and combines delightfully with chiffon. White mull has a gracefully clinging effect that many slim maidens fancy, and pure white muslin is at once the prettiest and most comfortable gown one could conceive of.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

Signs of Rain.

Salt is a good barometer. When it is damp rain is probable.

A rainbow in the morning foretells rainy weather during the day.

A red sunrise indicates foul weather at some time during the day.

Rats and mice are generally very active and noisy just before a storm.

A rainbow in the afternoon is generally an indication of clear weather.

A new moon falling in summer time between 4 and 6 a.m., betokens rain.

The leaves of the common clover often close upon the approach of a storm.

When dogs are sleepy and appear dull and heavy when roused a storm is near at hand.

A new moon falling between 10 a.m. and 12 a.m. in summer time means very showery weather.

Every fisherman knows that fish bite better just before a shower than at any other time.

The falling of soot from a chimney is a tolerably sure indication of approaching bad weather.

A new moon in winter time coming between 2 and 4 a.m. means storms, with rain and snow.

Parrots are good barometers. Just before a rain the most talkative and gabby parrot becomes silent.

When distant hills, mountains or buildings seem near at hand, the sign is for rain, the air being full of moisture causes these objects to appear nearer than at other times.

Spiders always come out of their holes shortly before a rain, being advised by their instincts that insects then fly low and are most easily taken.

Caged monkeys are tolerably certain to give an indication of coming bad weather, being then more ill-natured quarrelsome than at any other time.

Ducks are more than usually noisy on the approach of a storm, and their loud quacking is considered by farmers to be an almost unfailing sign of rainy weather.—St. Louis Globe-Democrat.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued its use, being completely cured.

Relics of Louis Seize.

The sale of Louis Seize relics has just taken place at Rouen. The articles which formed part of the Cleary inheritance, realized the sum of 20,000 francs. The shirt worn by Louis on January 20, 1793, the night before the execution, was sold for 2,860 francs. The wedding dress of Madame Royale, Duchess of Angouleme, was purchased at 610 francs for a member of the Austrain family. Some of Marie Antoinettes' hair went for 910 francs. None of the actual buyers are known, as they were represented at the sale by their agents.

Council met at 8 p. m. Members all present. Minutes of last meeting were read and on motion adopted. Moved by Messrs. Chapman and Code that the Reeve's application for sidewalk be received and laid over until next meeting. Moved by Messrs. McAuley and Code that the application to repeal the early closing bylaw be laid over until next meeting. Bylaw 71, prohibiting any person running bicycles on the sidewalk, passed its several readings and was signed and sealed. Moved by Messrs. McAuley and Code that we adjourn to meet at a call from the Reeve.

A very pretty event took place at Mount Pleasant Farm, the residence of Mr. Robt. Johnston, on Thursday, when his daughter Wealthy Maud was united in marriage to Rev. Robt. J. Elliott, of Bigelow, Kansas. At eleven o'clock the wedding march was played by Miss Minnie Howson, of Norwood, and the bridal party passed out into the lawn where the bride was given away by her father. The ceremony was performed by Rev. J. E. McCamus, of Norwood, in the presence of about 60 guests. The bride was handsomely attired in cream silk prettily trimmed with silk lace and white pearl trimmings, and wore the customary bridal veil and orange blossoms. She was assisted by Miss Mabel Elliott, sister of the groom, who was richly dressed in a cream cashmere with silk lace and ribbon. The groom was assisted by Mr. Osborne Johnston, brother of the bride. The tables were set in the lawn and before the wedding breakfast was partaken of, Mr. Platt photographed the tables and the guests. The esteem in which the bride was held was shown by a number of handsome and costly presents she received.

Mrs. Young, of Rockdale, was the guest of Mrs. Jos. Rose, on Sunday.

Miss McDonald, of Petrborough, is visiting Miss McNicholl, Ottawa street.

Mrs. James Rogers, of Lindsay, is visiting her daughter, Mrs. Walter Fanning.

Property is booming in Havelock and several changes have been made lately.

Mr. and Mrs. Chas. Fanning have returned home after a prolonged visit to Kingston.

Mr. Wm. Thorpe and family are now comfortably settled in their house on George street.

Mr. John Glenn has recouperated from his recent illness, and is now able to be out again.

Mr. J. M. Harrison returned home on Tuesday, having spent a few days in Westwood visiting friends.

Mrs. W. F. Brown and family left on Thursday morning for a few weeks' visit with friends in Buffalo.

Mr. Fred Spinks is visiting in town. His many friends will be pleased to learn that he is gaining speedily.

The Rev. Dr. Dewart, late editor of the Christian Guardian, was a guest at the Methodist parsonage last week.

Mr. Frank Hooper has returned home from Parry Sound, where he has been engaged on the new railway during the past few months.

Mr. Lang, the Reform candidate for East Peterborough, will address the electors in Drain's Hall, Havelock, on Saturday night, June 20th.

Miss Phillips, of Norwood, who has been ill during the past few months, is now regaining health and is visiting her sister, Mrs. S. S. Joyce.

Havelock has reclaimed one of her old and respected citizens, in the person of Mr. Benjamin Chambers, who has been absent from town some time.

Mr. and Mrs. Jas. Laing left on Saturday for Peterborough, where Mr. Laing has engaged in the baking business. It is their intention to make Peterborough their permanent home, and will remove their household effects there soon.

The difference in opinion was somewhat varied at the Council meeting last Monday night, and some warm words were exchanged over the early closing by-law, the park and pleasure ground grant and the building of a new sidewalk on Ontario street.

Mr. P. Cromar, our obliging operator at the station, has been removed to Smith's Falls, and Mr. M. Minore, who was here a year ago, is now operating on the keys here. This was rather a sudden change for Pete, being entirely unexpected and will no doubt conflict with his long premeditated intention of visiting Ste. Anne's, however, as Pete takes everything for the best, he became quite reconciled before his departure.

CHANDOS.

Council Meeting.

The Court of Revision of the municipality of Chandos on the assessment roll of 1896 was held at the Clydesdale school house on Saturday, May 30th, at 10 o'clock a. m. The Reeve, Mr. Hales, presided and all the members were present.

Appeals were considered in the following order:—Assessment of Mr. John Taylor removed from roll and the same added to the assessment of Mr. Aaron Post. Mrs. M. Bird, assessment confirmed; Mr. Martin Hayes, assessment confirmed. Assessment of cheese factories taken off the roll. Assessment of Mr. Jno. Buskin, confirmed. Resolved on motion of Mr. A. Trotter, seconded by Mr. John Bullied, that the roll as amended be herewith confirmed as the revised assessment roll for the township of Chandos for the year 1896.

After the close of the Court of Revision, a meeting of the municipal council was opened for the transaction of general business.

Minutes of last meeting read and confirmed.

Moved by J. Bullied, seconded by J. Menogue, that Mr. Geo. Bush be allowed the sum of $3 with which to repair road on con. 8, opposite lot 24.—Carried.

Moved by Messrs. A. Trotter and J. Menogue, that Mr. P. Hogan be allowed to do his statute labour opposite lots 24 and 25, con. 15, also work to the amount of his taxes due for 1895, and that Mr. A. Trotter see that the work is properly performed.—Carried.

Moved by Councillors J. Menogue and J. Bullied, that an order be drawn in the favour of Mr. Charles Prouty for the sum of $74, being balance of salary as assessor for 1896.—Carried.

Moved by councillors J. Menogue and A. Trotter, that Charles Prouty receive $2 for his time spent with assessors of adjoining townships in equalization of assessment of school sections.—Carried.

Moved by Councillors J. Menogue and A. Trotter that the clerk shall make a demand upon the treasurer of Wollaston for the school tax for Section No. 3 for years 1894 95, also notify trustees of Section No. 3 that when a satisfactory reply comes from Wollaston they will be settled with.—Carried.

Moved by Councillors Couch and Bullied that the clerk be authorized to procure two road scrapers, one for division No. 13 and one for division No. 5.—Carried.

Moved by Councillors Couch and Bullied that Clerk shall notify assessors of Burleigh and Wollaston as to date of meeting with assessor of Chandos.—Carried.

On motion of council meeting adjourned to meet at school house, section No. 2, at call of Reeve.

GALWAY.

(From Our Own Correspondent.)

Last Saturday evening while Mr. J. Henderson, son of Mr. J. T. Henderson, was engaged in breaking a jam of logs on the High Falls about a mile below Kinmount, had the sad misfortune to have his left leg broken below the ankle. He was immediately removed to Mr. Dunbar's hotel and placed under the care of Dr. Frost. His father will take him home in a few days. It was a very bad break, the bone was protuding through the skin causing it to bleed quite freely. The young man is braving the sad mishap remarkably well.

Mr. W. J. Ritchie has just erected another magnificent frame barn 50x30 on his adjoining farm which he purchased last fall. The barn is well situated, with good basement stable, and will add much to the appearance and accommodation of their numerous outbuildings. The carpenter work was done by Mr. Chas. McMahon, who apparently takes the lead in this line of work in this section.

Mrs. Sullivan received a telegram that her son, Timothy, died last Tuesday at Rainy River, where he was engaged in the lumber business for several years past. The bereaved mother has the sympathy of the community.

Mrs. Terrence McGee, who has been ill for a period of over two months is improving very slowly.

Mrs. Buckley, who has been unwell all spring, is still keeping very poorly, and as she is advancing to the three score and ten years, the hopes of her recovery are not so bright, although she has always been a very healthy person. It is to be hoped she will succeed in shaking off the disease.

Mr. Carr had a steer killed last week on the I. B. O. Railway. He will undoubtedly look to the company for damages, as the fences along some parts of the line are out of repair.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

LAURIER AND MOWAT.

(Continued from First Page.)

formed the work on the Canadian and American sides of the river. The statements that the workshops would be shut if the Liberals were placed in power he had heard ever since the National Policy came into existence. "It is a lie on the face of it," cried Mr. Gibson, and again the people cheered. Mr. Gibson told the audience that Mr. George A. Cox, in speaking at a board meeting the other day, had said that if Mr. Laurier went into power he would increase his stock by $5000 in the lock factory at Peterboro. The Conservative party never had had a policy except the policy of plunder.

"What about Montague?" enquired a listener.

"The doctor always takes sick when there is any fighting to be done," replied Mr. Gibson. The speaker made the assertion, amid great applause, that the Liberals had more money invested in the manufacturing industries of the country than all the Tories put together. Mr. Gibson, as a firm believer in the principle of provincial autonomy, declared himself to be opposed to the coercion of Manitoba. He mentioned the fact that his opponent, Mr. Rykert, is an avowed coercionist.

THE COMING PREMIER.

Amid the din of a perfect volley of cheers, loud and prolonged, the leader was introduced to the people, whose enthusiasm increased with the progress of his masterly exposition of the issues with which he dealt. The first great outburst was subsiding when Mr. McIntyre demanded "Three cheers for our Premier." The crowd responded heartily. "What does this demonstration mean?" asked the leader, and, going on to answer the question, he said: "This is all due to the fact that in this contest I have the honor to stand here as the champion of civil freedom, as the champion of honest government, and as the champion of religious toleration."

It was the Manitoba school question that Mr. Laurier treated chiefly in his brilliant speech, and that his view of the subject accorded with that of the audience was attested by the enthusiastic cheers with which it was received.

A torchlight procession conducted him to the Welland House, where he held a reception, and had the pleasure of meeting personally a large number of those whom he had spoken to from the platform.

CLERICAL THREATS.

A Parish Priest Tells His Flock They May be Struck Dead if They Vote Liberal.

Quebec, June 11.—The parish priest of St. Casimir, County of Portneuf, on Sunday last put his congregation in great fear by telling them from the pulpit "that they might expect to be struck dead at the polls if they voted Liberal, or be buried alive by a landslide, as so many people had already suffered in the adjoining parish of St. Albans."

Liberals from this city are organizing to visit these back parishes and bring every Liberal voter to the two Liberal priests of the county to receive their assurance that if they fall sick they may send for them to receive the sacrament of the church. The names of the two priests are Father Gauthier of St. Basil and Father Ballantyne of Grondines.

The excitement over this question is tremendous in Quebec. A prominent Liberal manufacturer, Mr. Louis Bilodeau, who has subscribed $1200 for a new church on Grand Allee, has notified the authorities that he will not pay his subscription if the church does not stop its war against Mr. Laurier.

SIR OLIVER AT BERLIN.

A Crowded Meeting at the Skating Rink—Conciliation Advocated.

Berlin, June 1.—Sir Oliver Mowat addressed a crowded meeting in the skating rink here this evening. Mr. George H. Bertram of Toronto was with the Premier. Mr. Bertram spoke first, advocating a revenue tariff. He declared that were the Liberal party to come into power and allow foreign goods to enter free he would vote against that party.

Sir Oliver Mowat on being introduced was presented with a beautiful bouquet by Miss Bitzer, who in turn received the customary kiss.

Sir Oliver began by thanking the electors for the support heretofore given him by sending supporters of his Government to the Local Legislature. He next eulogized Hon. Wilfrid Laurier, whom he styled the only hope of the country.

In speaking of the Manitoba schools he said that a grievance was shown to exist, and as Canadians we were bound to remedy that wrong, which, he said, was not to be accomplished by coercion, but by conciliation. Greater difficulties have been heretofore settled, said he, and he saw no reason why the Liberals, if returned, could not settle this question satisfactorily to all concerned without force or coercion.

Touching upon the trade policy, he said the cry raised by their opponents was that the Laurier policy was not definite enough, and he read extracts to show that when Sir John Macdonald issued his manifesto in 1878 he simply advocated a protective tariff, without going into details. The Liberal party's policy, said he, on the trade question, will be one of equality and judiciously estimated. He also dealt with the extravagance of the Government, who he declared, were well paid for their services, and the people of this country looked to them to protect the public chest. He closed by appealing to his audience to vote for Mr. Laurier on the 23rd of June.

Mr. James Young and other speakers followed, setting forth Liberal doctrines.

LEND YOUR EARS

To Your Back and Listen to its Talk—A Peterborough Man Tries It.

Did you know the back could talk;
Tell you why it aches and pains;
Tell you why it's lame and weak;
Warn you of the kidney's ills:
Tell you of Doan's Kidney Pills?
Listen to them when they speak.
Relieve the kidneys, cure the ache.
Bad back, acute pains and kidney ills,
Are quickly cured by Doan's Kidney Pills.

Here is proof of it at home. The testimony of Mr. George N. Graham, the genial host of the Oriental Hotel, Peterborough, is as follows:—

He says:—"I have been a great sufferer for some time with pain across the back, extending up between the shoulders, swelling of the limbs, dizziness, loss of appetite, and in fact felt completely broken up.

"I had lost 17 pounds in three months, and thought that I would never get better. I have taken many kinds of patent medicines, and have also been treated by medical men, but did not seem to get any better at all, in fact was constantly growing worse.

"I saw Doan's Kidney Pills advertisement and got a box of them at Lynch's drugstore, and by the time I had taken one box noticed a marked change for the better.

"I have taken seven boxes altogether, and am now free from pain; the swelling in the limbs has disappeared, and my appetite is good. In fact, I feel that I am completely cured.

"I can heartily recommend Doan's Kidney Pills to those suffering from any form of kidney trouble. They are the best kidney medicine I have ever used.

Signed, GEO. N. GRAHAM.

LASSWADE.

(From Our Own Correspondent.)

On the evening of Tuesday, June 2nd, a meeting in the interests of Mr. John Lang was held in Foster's School House, which was one of the largest and most generally represented by both parties that has ever been held in this place. By a unanimous vote of the meeting J. W. Ratcliff occupied the chair. In introducing Mr. Lang the chairman said that he was not introducing one who was a stranger to those present, as he (Mr. Lang) had appealed to them before and they had given him their generous support, thereby helping to elect him as their representative, which would no doubt be the case at the close of the present contest.

Mr. Lang then addressed the meeting for an hour and a quarter, touching upon all the principal topics of the day, and assuring his hearers that he would vote upon all measures brought before the House according to his own idea of what would be to the best interests of the people of the Dominion without prejudice or party influence.

Mr. J. B. McWilliams then followed with a speech of an hour and half, in which he dealt with the Government under the leadership of Sir Charles Tupper, showing the corruption and unnecessary extravagance carried on, and the hollowness of the pretensions and promises made by them. Mr. McWilliams also gave examples of every statement made by him that had been carried out in our County of Peterborough. Both speakers were warmly applauded. The meeting concluded with votes of thanks to the chairman and cheers for the Queen and Mr. Lang.

Grafton & Co. will put on the Bargain Table a lot of Men's Fine Cambric and Coloured Shirts, worth 75c to $1.25, special price for Friday and Saturday 50c.

FRANKHILL.

From Our Own Correspondent.

Not for a long time has Frankhill been the scene of a larger political gathering than that assembled Thursday evening. About 7.30 the room was crowded, and when Mr. Geo. McHugh entered cheers went up for the Liberal candidate. Francis Kearns occupied the chair, and in a genial manner discharged his duties. Mr. Steers opened the meeting, clearly and concisely defining the fiscal policy and pointing out its great advantage to the farmer.

Next followed the candidate, who laid bare the conduct of the Conservative party at Ottawa during the last session, and regretted being compelled to refer to the religious cry which had worked its way into the campaign.

Mr. William Franks now took the floor, but not the platform, for the opposition, but greatly to his surprise was baffled in every attempt to accuse the Liberals with charges which he has always been accustomed to hear in his own party, though the Conservative veteran won hearty rounds of applause.

Mr. Stewart, the speaker of the evening, succeeded in convincing almost every one that Parliament since the time of Mackenzie has been the scene of extravagance. Mr. Stewart was interrupted in the course of his address by Mr. Robt. Boats, one of Emily's leading men and councillors, who contradicted the speaker in saying Mr. Vrooman pledged himself at the Convention to support the Government in the steps taken for remedial legislation, but when hard pressed told only half his story, and got out of his clutches by admitting that he knew nothing about it.

The hearty reception of Mr. McHugh is a most assuring indication of the Liberal candidate's success.

LIVE STOCK MARKETS.

MONTREAL.

Montreal, June 8.—There were about 475 head of butchers' cattle, 450 calves and 400 sheep and lambs offered for sale at the East End Abattoir to-day. There was a fair attendance of butchers, but trade in cattle was slow, with the prices of good cattle about the same as on last week's markets, but milkmen's strippers and common rough stock are slightly higher in price than they have been for a couple of weeks past. A few of the best butchers' cattle sold at from 3¼ to 3¾c per lb, with pretty good stock at from 3 1-2c to 3¾c per lb., and the common animals at from 2½c to 2 3-4c per lb. Calves sold at from $1 to $5 each; two extra ones brought a little more. Sheep sell at about 3c per lb., and the lambs at from $2.25 to $3.50 each. Fat hogs are not very plentiful and prices continue at from 4c to 4 1-4c per lb. There were a few small pigs sold here at from $1.25 to $2 each.

GENERAL ASSEMBLY.

The Vacant Chairs in Knox College Filled.

REV. DR. ROBERTSON OF BOSTON

Is Now Professor of Old Testament Literature and Exegesis—Rev. James Ballantyne of Ottawa for Apologetics and Church History—Cheering Reports.

Toronto, June 13.

Educational matters were taken up at the morning session of the General Assembly, the report of Manitoba College being the first to come under review. The year had been a prosperous one for the college, save in one particular, it having been found necessary to abandon the summer session, owing to lack of support. The latter question was placed in the hands of a committee, which will try to devise a means for the holding of a session this summer.

Knox College report was presented by the venerable Principal, Dr. Caven. An extension of the class lists was shown, but the report called attention to a great need for increased funds, shrinkage in interest having brought the revenue from investments down to $10,000, having a deficiency of over $6000.

Regarding the vacant chairs in Old Testament Literature and Exegesis and Apologetics and Church History, the board of the college nominated two candidates. For the first-named chair Rev. George L. Robinson, Ph.D., of Roxbury Church, Boston, who was named in the report, was unanimously elected. For the second term the name of Rev. Jas. Ballantyne, pastor of Knox Church, Ottawa, was submitted by the board. In the discussion, however, the name of Rev. James Somerville, D.D., of Owen Sound, was presented and discussion was prolonged until the noon hour.

College matters were under consideration during almost the entire afternoon sederunt. The question of filling the vacant chair of apologetics and church history in Knox College was discussed at considerable length. In amendment to the College Board report, nominating Rev. James Ballantyne, Rev. Dr. McKay moved the remission of the report for further consideration in the light of the recommendations of Presbyteries and expressions of opinion in the Assembly. The debate was rather warm, several speakers expressing the opinion that the nomination of Mr. Ballantyne was in the nature of a compromise. This was combated by Prof. McLaren and Dr. Burns, who stated that the board was unanimous in recommending the nominee. The amendment was defeated by a large vote, and on the nomination being put to the court the board's nominee was unanimously elected to the vacant chair.

Professor-designate Ballantyne, whose attainments were highly spoken of in the Assembly, is 35 years of age, and graduated from Toronto University in 1880 and from Knox College in 1883 with high standing, continuing his studies in the Universities of Edinburgh and Leipsic. He is at present pastor of Knox Church, Ottawa. He is a son of Hon. Thomas Ballantyne, ex-Speaker of the Legislature.

Striking reports were presented on behalf of Queen's University, Kingston; Presbyterian College, Montreal; Morrin College, Quebec; Presbyterian College, Halifax, and Brantford Ladies' College, each showing remarkable results, with comparatively small expenditure, and the speakers who commented on the reports, as well as those who presented them, expressed the utmost gratification at the splendid showing made.

Rev. Dr. Torrance, convener of the Committee on Statistics, presented a report, which showed advancement in almost everything connected with the internal prosperity of the church.

In the number of churches and stations constituting charges—2412—there was an increase over 1894 of 73. The number of families was 96,581, an increase of 3216; and of single persons, 27,209, an increase of 6078; while communicants numbered 188,180, or 3801 more than the preceding year. There was a decrease of 320 on those joining the church on their personal profession of faith; but an increase of 249 on those joining by certificate—7599. The removals by death were 2699, or 179 more than in 1894; by certificate, 6260, 40 fewer; without certificate, 3364, an increase of 262; and by discipline, 162, an increase of 51.

The aggregate number reported as being under "pastoral oversight" was 224,806, an increase of 23,610.

In 1895 the stipend paid was $906,781, an increase of $6533. Home Mission receipts were increased, but for most of the other causes there were slight decreases; the total contributions to the schemes of the church aggregated $579,494, or $15,946 less than in 1894. Payments for all purposes were $2,134,990, an increase of $3003.

There was a crowded attendance in Cooke's Church last evening when the subject for consideration was foreign missions. The reports were on the whole encouraging, and the addresses by Rev. A. B. Winchester, British Columbia; Dr. Buchanan, Central India; and the speakers for West Indies and other fields very stimulating.

MANY HORSES BURNED

In the Blaze Which Destroyed the American Horse Exchange, New York.

New York, June 12.—The American Horse Exchange Building on Broadway, between 50th and 51st streets, was totally destroyed by fire last night. The building was occupied as a boarding livery and sales stable and when the fire started it contained 265 horses. More than half of this number were killed, including the famous horse, Alfred G., with a record of 2.19, and valued at $7500. It is estimated that the loss on the building will be about $200,000. The loss on the stock is estimated at from $75,000 to $100,000.

BRITONS IN THE SOUDAN.

Lord Salisbury Makes an Explanation Regarding the Movements of the Expedition for Dongola.

London, June 12.—In the House of Lords this afternoon, Lord Rosebery asked if the Premier would explain the object of the British Egyptian expedition up the Valley of the Nile into the Soudan.

Lord Salisbury, in reply to the question of the ex-Premier, said that for a long time the Government had been aware that sooner or later an expedition into the Soudan would be necessary for the purpose of recovering the territory which Egypt had lost, and that suddenly they had been confronted with the fact that the Dervishes were menacing Kassala. The expedition was then decided upon. The present objective point of the expedition, he said, was Dongola, and the commander of the expedition, Gen. Sir Herbert Kitchener, had been given a perefctly free hand until he should reach and occupy that place.

The occupation of Dongola alone, he added, was an advantage, and, furthermore, it was on the road to Khartoum.

A Barrel of Oil Explodes.

Pittsburg, June 12.—At 3.20 o'clock this morning a barrel of oil in the basement in a bakery owned by K. Garische at 83 Spring Garden avenue, Alleghany, exploded and scattered flames in every direction. Mrs. Garische, aged 74, leaped from the window and was killed instantly. A grandchild, aged 5 years, was found dead in his crib. Lottie, aged 12 years, was badly burned, and will probably die.

Albany, N.Y., June 12.—Isaac H. Maynard, ex-judge of the Court of Appeals, dropped dead to-day in the Hotel Kenmore. Heart disease was the cause.

ANOTHER FROM WILKES-BARRE.

Toronto Makes it Three Straight in the Pennsylvania Coal Town.

Wilkes-Barre, June 12.—Toronto won the third of the series from Wilkes-Barre to-day. Luckey pitched superb ball for the home team, to the seventh innings, when he was hit hard, the visitors scoring four runs. In the eighth they hit him hard again, and, aided by Bonner's error, succeeded in getting five more men over the plate. The fielding on both sides was sharp and clean. The members of the Toronto team made it very unpleasant for Umpire Gaffney, and he was compelled to fine Wright $10. Score.

Magnificent Liberal Demonstration in Toronto.

THE TWO LARGEST HALLS PACKED

Massey Hall and the Auditorium Filled to Overflowing, and Even Then Thousands Were Turned Away—Ladies Present in Large Numbers.

Toronto, June 13.

Massey Hall was packed to the doors last evening. At 7 o'clock all the seats on the ground floor were occupied and but few vacant chairs remained in the first balcony. Within 15 minutes past 7 every seat in the hall was filled and hundreds were standing in the aisles. The platform, which was reserved for the prominent men of the party, was not sacred from the ladies, who, when the galleries were filled, invaded its precincts and secured a goodly share of the seats. At 7.30, every available seat being taken, the doors were closed, greatly to the disappointment of hundreds who clamored for admission. From that time until the commencement of the proceedings an efficient orchestra rendered a number of choice selections.

The arrival of Mayor Fleming, accompanied by Mr. Lount, Hon. Wilfrid Laurier, Mr. J. D. Edgar and a number of ladies was the signal for the wildest demonstration of enthusiasm by the audience.

The Mayor, who was received with great applause, expressed his pleasure at addressing the largest gathering to hear a political leader ever gathered in Toronto. Thousands had been turned away unable to obtain admission. An overflow meeting was being held in the Auditorium. He was proud to be present, and believed that the magnificent gathering was an augury of success in the coming fight. When elected some four years ago to the office of Mayor, he made up his mind to abstain from interference in political matters. He had taken the chair that evening because he believed there was not a citizen of Toronto who would object to his taking the chair on such an occasion. They had many talented leaders of the Liberal party, but never anyone who had entered so deeply into the hearts of the people, not only of Quebec, but of Ontario as well. They were not ashamed at that meeting to mention the name of their leader. (Loud cheers.)

While the Mayor was speaking Sir Oliver Mowat entered the hall and was received with a great outburst of applause.

The first speaker was Ald. Preston, who was received with three cheers, led by some of the enthusiastic supporters who had performed a similar duty earlier in the evening. Mr. Preston expressed the great pleasure and pride he felt at standing before such an enthusiastic gathering as the candidate of the great Liberal party for one of the ridings of this metropolitan city. He referred to the destitution which he asserted now existed in Toronto at the present time, and although he would not claim that it was entirely due to the National Policy, yet he would say that the National Policy had much to answer for. He appealed to the people of Toronto to say whether the promises of the Conservative party, made in 1878, that if they were returned to power, they would inaugurate a policy which would put an end to the exodus to the United States and foster the industries and build up the country, had been carried out. Every father and mother in the land had an interest in this election, from this reason alone. He asked, where are the boys to-night? Surely among statesmen there must be a happy medium by which the young men might find employment in the country, instead of being driven out. He could not say how it would be done now, but there must be some happy medium of legislation that could be adopted. There must be some change in the administration in order that the boys might be kept at home.

Referring to the Manitoba question, he took it that thre would be no doubt as to the voice of the Province of Ontario. Every candidate in the province would have to declare where he stood upon this question. He denied the slander which had been published concerning himself, that he had given a secret promise to one course of action on this question, with the understanding that he would be permitted to make a different pledge upon the platform. The only pledge he had ever given was the pledge he had given upon the public platform. He challenged the Government to produce the record to show that the Government were in any way compelled by the judgment of the Privy Council to issue a Remedial order or pass legislation to enforce it. The course of Manitoba in reference to the matter was held to be the proper one, and the Government was denounced for its action in arousing the bitter feeling of religious excitement in order to snatch a verdict. Had the Government taken the advice of Hon. Wilfrid Laurier the matter would have long since been settled. The Government had aroused the smouldering fires of religious bigotry in order to secure its return to power, which it could not secure by any other means. The grievance of the minority in Manitoba must be remedied, but it must be remedied by Manitoba alone. He desired to be understood as believing that the minority of Manitoba must not be compelled to suffer under a grievance for one moment longer than is necessary to enable the Province of Manitoba to settle this question calmly and deliberately and not in the heat of religious excitement. It must be settled by a policy of conciliation and negotiation. He was opposed to coercion by the Dominion Parliament, first, last and always. He could not give his support to any government which adopts a policy of coercion. He denounced with vehemence the shameful pledge which had been wrung from a Liberal candidate in Quebec during the past week, which was a disgrace to the name of freedom, and [illegible]

CONSERVATIVE DEAD WALL CARTOONS.

The gaudy rivals of the circus poster, the Conservative placards, that decorate the dead walls of the town, fittingly symbolize by their hue and location on dead walls the hetic flush that portends the passing of the party into the limbo of defunctitude. But the artist has not been altogether happy in his conceptions or his execution.

In one flaming poster there is evidently a "screw loose." It represents Messrs. Laurier and Cartwright, turning the levers of a press that is supposed to be squeezing the life out of a Canadian workingman, who is bound by "free trade" and "tariff reform" ropes. The artist evidently had an idea as brilliant as the colours of the posters, but the result shows that "truth is mighty and will prevail." He represents those dreadful Grits turning the screw to the left, and that, every mechanic knows, relieves the workman, and that is exactly what the Liberal policy means—to help the workingman, through the employer, by giving the latter raw material free, or lightly taxed, thus enabling him to manufacture at a greater profit and putting him in a position to give his employees better wages.

Another cartoon falls short of its aim. It represents the monumental egotist, Sir Charles Tupper, seated on the necks of two workingmen, who are supporting that rare bird, a millionaire, Canadian statesman, upon their shoulders. Verily, the workingman gets it, in the way of high taxes, from the monopolist Government, "where the chicken gets the axe—in the neck." The workingmen and the labourer have in very truth to bear the burden Sir Charles Tupper represents. Sir Charles sits smiling aloft upon the bowed backs of the workingmen, who grunt and sweat and toil under the burden. The workingmen should study these high taxation cartoons. In effect they preach with gaudy eloquence the gospel of Liberalism—relief to the workingmen and all that labour under these tireless taskmasters, the modern Pharaohs who require the same tale of brick without straw—require the same taxes, whether the workingmen gets the employment the N. P. promised him or not, whether he works half time or whole time or doesn't work at all, whether he gets 60 or 50 cents a day or $2 a day for man and team. We thank the concoctor of the great cartoons—he may be an artist but he is no mechanic or he would never represent a man being crushed with a screw turned to the left, nor would he glorify in red ink and bad drawing the workingman and farmer rejoicing under the burden which the heel of Sir Charles Tupper on his neck represents.

MR. HALL'S PROSPECTS.

We write "prospects" but on second thoughts substitute the word "certainties," which the circumstances indicate. The campaign is pretty well on now and there are means of forming an intelligent estimation and that estimate results in indicating that Mr. Hall will be elected on June 23rd over both Conservative candidates. In every part of the riding where he has held meetings he has received the most gratifying assurances that the people are with him, that they are heartily tired of corrupt and extravagant government, wearied of being politically plundered by a band of cabinet robbers, led by "prince of political cracksmen," who do not possess the honour proverbially ascribed to thieves—being ready to betray their confederates and gain access to the source of spoils by treachery and conspiracy. Honest and honourable men feel that they are worthy of more honourable ministers; after eighteen years of misgovernment spoliation and corrupt methods, they feel that they are deserving of a trial of honest government for a change, and they are voting for a change and for Mr. Hall, the standard bearer of Mr. Laurier.

The visit of the distinguished Canadian Liberal Leader to-day, gave an immense impetus to Mr. Hall's candidature, whose eloquent utterances, straightforward and honest, had all the convincing effects inherent in such utterances, and all the moral effect from their tone which had the ring of victory, that is sweeping over the country from sea to sea. Only eight more working days filled with the splendid work that has distinguished the Liberal forces in this riding and all over the country, and Mr. Laurier will have the reins of government in his hands, and Mr. Richard Hall will have redeemed West Peterborough. Liberals can afford to keep up the fight; they are waging a winning battle with their legions presenting a solid and unbroken front, while their opponents are waging a losing warfare, with the desperation that despair inspires.

MR. KENDRY AND THE WORKINGMAN.

In a reference a few days ago to Mr. Kendry as a champion as ready to die for the workingman, as Sir Charles was to die for the bulldozing of Manitoba, the Review said that "Mr. Kendry was a gentleman who would not hesitate to take a stand as a workingman's candidate." Certainly, Mr. Kendry would not hesitate to stand as anybody's or anything's candidate in order to get votes. A gentleman who is able to wobble from one position to another with the facility of Mr. Kendry—from Margaret L. Shepperd's platform in '94, to fixed bayonets in '96, no doubt "would not hesitate to take any stand" to help him in the matter of votes.

Our contemporary claims that Mr. Kendry has done much for the workingman. What has he done for them? What the average employer has done. Got the greatest possible amount of work out of them for the least possible wages they would accept. We don't say that Mr. Kendry is any worse nor any better than any other employer of labour. His own employees know best about that, and we are sure they don't owe him anything. In order to make money he must run his mill, and to do this he must have operatives. They work for him, giving value for their wages, and the account is square.

With what insulting patronage are the relations of employer and employed spoken of! The Review refers to what "Mr. Kendry has done for the working man," as though he had given each one a farm, when he only gives him or her a chance to work ten and one-third hours a day (while he advocate eight hours for the "outside" workman) at from 50 cents to $100 a day (not counting fines.) What Mr. Kendry or any other man has done for the workingman does not count as a merit. The workingman doesn't want things "done" for him. He only demands fair play, a fair-play tariff and he can do for himself. A fair play tariff and a fair play policy to all classes, such as Mr. Laurier will give, is what the workingman wants. The workingman asks no favours—he only asks fair play; and his manhood, brain and muscle will do the rest. For the past eighteen years the present Government has been in power. They have in that time passed volumes and volumes of legislation in favour of the capitalist, the banker, the monopolist, manufacturer and the combinster, but as we have before remarked all the practically beneficial legislation in favour of the working man could be printed on a postage stamp. All the laws to protect capital, and no law nor legislation for the mighty force of labour that creates all capital. This is where the policies of Laurier and Tupper differ, and their candidates must be judged by the position of their parties. Laurier is for fair play for the masses; Tupper stands for special favour to the classes—the wealthy classes, made wealthy by the hands of honest toil, which receives not even justice, not to speak of favours. Tupper is a taskmaster; Laurier is a liberator. Mr. Hall employs labour as well as Mr. Kendry but he doesn't favour giving "outside" labour eight hours a day and working inside labour for his own benefit 10½ hours a day.

The workingman has his eyes open and no false reasoning can blind him. He is able to decide what he wants as well as a protected manufacturer, who gets protection, while his employees gets no protection but a promise of 8 hours a day for "outside" workmen. Mr. Kendry is in favour of the "outside" workman, a very consistent position, for after June 23rd he will be on the side of the "*outside*" politicians and the "outside" party. Vote for Laurier, Mowat and victory, equal rights to all classes, justice to all creeds, Canada for Canadians and fairplay all round.

A DOUBLE TRAGEDY.

M.T. Inspector Godin Shot by a Drunken Halfbreed—Godin Then Killed the Halfbreed.

Calgary, N.W.T., June 12.—(Special.)—At 8 o'clock to-night as Mounted Police Inspector Charles Godin was riding to the Langevin Bridge, Pierre Ducharme, a half-breed, fired at him with a revolver, the shot entering the abdomen, passing out near the backbone. Godin immediately returned the fire, shooting Ducharme dead through the heart. Godin then rode to the barracks and fell off his horse. Medical aid was summoned, and a priest took the dying statement of Godin as above. No cause is assigned, except that Ducharme had been drinking heavily during the afternoon.

THE ADVANCE OF MEDICAL SCIENCE.

Dr. Agnew's Successful Experiments in Heart Disease and Catarrhal Trouble.

The world has been of the opinion that where medical science can master such dreaded disease as diphtheria and hydrophobia, yet when the heart is affected there is no hope for the patient save such as may come from easing his condition. The discoveries of Dr. Agnew have proven once again that there seems no end to the possibilities of science in its treatment of disease—even heart disease.

In what is known as Dr. Agnew's Cure for the Heart i- found a remedy that has practically given back life to those who were supposed to be beyond hope of recovery with heart trouble. One of the virtues of this medicine is its instaneous effect upon the patient. It would not be worth much otherwise, for with heart disease prompt action is an absolute necessity. Mr. Aaron Nichols, of Peterborough, Ont., writes this of Dr. Agnew's Cure for the Heart:—"My wife was troubled for 20 years with heart disease. From the first few doses of Dr. Agnew's Cure for the Heart she obtained relief, and continuing its use she has had more benefit from it than from all the doctoring she ever did. The remedy acts like magic on a diseased heart."

With everyone catsarh is a most unpleasant trouble, and this is especially the case with those whose duties bring them before the public as preachers, or speakers. Among the strongest evidence produced, telling of the peculiarly successful character of Dr. Agnew's Catarrhal Powder is that which has come from prominent citizens, like the Bishop of Toronto, the Right Rev. A. Sweatman, D.D., D.C.L.; from leading members of the faculty of McMaster Hall, the Rev. W. H. Withrow, D.D., a representative Methodist divine; Rev. Mungo Fraser, D.D., of Hamilton, a prominent Presbyterian, and other public men. These gentlemen have all, over their signatures, told of the thoroughly effective character of Dr. Agnew's Catarrhal Powder in dealing with this very prevalent disease. Sold by H. S. Macdonald.

and all wasting diseases, should write to me for advice.

I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians, I investigated the subject deeply and discovered a simple but most remarkably [illegible] Remedy that completely cured me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. It is a personal interest in each case, and no one need hesitate to write me, as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off, but write me fully at once, you will always bless the day you did so. Address,

THE GREATEST LUXURY

a Man can enjoy is a Comfortable, Well Made, Good Fitting Suit, requiring the necessity of visting your tailor, selecting goods, surveying your person, then a tedious delay of two or three weeks result, not always a luxury in reality but always in price.

OAK HALL has made this no longer necessary. We simply ask your judgment in selection of goods, and you can take them away with you as perfect and complete as you could wish. Price about one half what your tailor would ask. This is being demonstrated many times daily.

The above applies to our $3.25, $5.00, $6.00 Suits equally as well as to those of better quality and superior finish, ranging from $9.00 to $15.00.

AN OCEAN MARINER SAVED BY PAINE'S CELERY COMPOUND.

A Well-known Clergyman Strongly Recommended the Medicine That Always "Makes People Well."

Before Using Paine's Celery Componnd Mr. Parks was a Mere Skeleton—Night Sweats, Cold Chills, Slow Fevers and Nervousness Were Wearing Life Away—Wife and Friends Despaired of the Sick Man's Recovery.

Another marvellous proof of the power of Paine's Celery Compound to rescue and save even those who are drawing very near the grave! One more wonderful example of what Paine's Celery Compound can do, when the doctors fail, and when the ordinary, every-day medicines prove useless!

Hundreds of the best people in the Lower Provinces know Mr. George W. Parks, of Inglisville, N.S. They know that for a long time his life was despaired of, that his chances of recovery were exceedingly small.

No wonder that friends and relatives were in deep anxiety. The best physician had done their all for Mr. Parks, and could not stay the hand of his death-dealing disease; the case was one that baffled all their efforts efforts.

At the eleventh hour, when hope had almost faded away, a well known clergyman, Rev. C. M. Tyler, of Weymouth, induced the sufferer to try Paine's Celery Compound. This was the turning point to a new life—advice that saved a dying man.

Rev. Mr. Tyler, in endorsing Mr. Parks' statement, says:

"I have great pleasure in indorsing Mr. Parks' testimonial. The statements of Mr. Park's condition, and of his recovery are not too strongly put; in fact, his very critical condition and his present healty state, would sanction a much stronger wording."

Mr. Parks writes as follows about his cure:—

"While at sea in the summer of 1894, I was taken sick which compelled me to abandon my work and seek home and rest. I consulted the doctors, who pronounced it typhoid or slow fever. I suffered severely from night-sweats and cold chills during the day. Added to this I was extremely nervous, which weakened me and reduced my flesh until I was a mere skeleton. This continued until last winter, when my wife and friends began to despair of my recovery, as the medicines I took produced no good, and I was gradually growing worse.

"Through the influence of Rev. C. M. Tyler, I was induced to give Paine's Celery Comprund a trial, and I can truly say it worked wonders. The first bottle gave me great relief, and five bottles completely cured me. I gained thirty two pounds in three weeks, and am now strong and healthy. I would urge the suffering everywhere to give Paine's Celery Compound a trial."

THE FINAL SITTINGS

Of the Commercial Congress in London.

CANADA'S LOYALTY TO ENGLAND

Dwelt Upon by Sir Donald Smith. Who Asked That the Next Congress be Held in Canada—Mr. Chamberlain Assured of Warm Welcome Here.

London, June 12.—The fourth and final sitting of the third Congress of Chambers of Commerce of the Empire was held in Grocers' Hall to-day. The Congress adopted, by a unanimous vote, resolutions proposed by the Sydney and Melbourne Chambers of Commerce, requesting the London Chamber to arrange a conference with the shipowners with a view of eliminating the clauses from bills of lading, which are virtually contracts that remove shipowners from all liability. In the event of failure to obtain such conference, or failing to secure the relief sought through the medium of a conference, the resolutions provide that the various Chambers shall introduce bills in their respective Parliaments, designed to abolish such clauses from bills of lading.

The Congress also adopted a resolution, proposed by the Liverpool Chamber of Commerce, condemning the sound signals in cases of fog which were proposed by the Washington conference, and urging the Government of Great Britain to endeavor to secure the consent of the foreign powers to the withdrawal of the proposed new sound signals.

Resolutions proposed by the Newcastle Chamber and the British Chamber at Constantinople were also adopted, favoring the abolition of the levying of light dues upon shipping.

Sir Donald A. Smith, Canadian High Commissioner in London, in seconding the Newcastle resolution, said that Canada did not impose light dues. Although the Dominion had 1300 lights and 5000 miles of coast, yet Canada was excluded by the United States from the benefits accorded to those nations which did not charge light dues.

Delegate Arnoldi of Toronto raised a question of privilege and spoke in support of Mr. Cockshutt's amendment to Sir John Lubbock's resolution submitted yesterday favoring arbitration whenever the awards were enforceable and his criticism of the United States regarding their action in the Behring Sea and Alabama matters and the contention that arbitration was useless unless the awards were enforced. Mr. Arnoldi quoted the statement made by the First Lord of the Treasury in the House of Commons on Feb. 17, 1891, that a large sum of the Alabama claim award was still undistributed, but that it was the policy of Great Britain not to ask for the return of any part or it. Mr. Arnoldi's remarks were received with cheers.

Mr. Daly, delegate from the Winnipeg Chamber of Commerce, moved a resolution, which was adopted, asking that the Government use every means to encourage emigration to the colonies. In the course of his remarks, Mr. Daly said that the new colonists would be heartily welcomed. He advocated, however, a selection of emigrants from the better classes.

The chairman, Sir Albert Rollit, made a brief speech, highly complimentary to Mr. Daly and the idea he had put before the Congress.

Sir Donald A. Smith supported the resolution offered by Mr. Daly, and in the course of his remarks made especial reference to the loyalty of the people of Canada to the Empire.

Delegate Perrault of Montreal moved a resolution advocating a decimal system of weights and measures. The resolution was carried unanimously.

Mr. Perrault also moved a resolution in favor of a decimal coinage system, but the motion was strenuously opposed by Mr. Firth of the Halifax Chamber of Commerce, and the resolution was withdrawn.

The agenda of the Congress having been gone through with, thus completing the business of the session, Sir Albert Kaye Rollit, President of the London Chamber, Chairman of the Congress, moved a resolution thanking Hon. Joseph Chamberlain, Secretary of State for the Colonies, for his services. Mr. Chamberlain, he said, had thrown himself heart and soul into the work of making the Congress a useful reality.

Sir Donald A. Smith seconded the resolution. The colonies, he said, felt that Mr. Chamberlain was a friend whom they could trust.

Sir Donald suggested that the next Congress of the Chambers of Commerce of the Empire be held in Canada. If the Congress should be held there and Mr. Chamberlain attended its sittings he would meet with a welcome in Canada such as was only given to statesmen who lived in the hearts of the people.

Sir Albert Rollit's motion was carried.

Sir Mackenzie Bowell, ex-Prime Minister of Canada, moved a resolution of thanks to Sir Albert Rollit, which was unanimously carried.

Sir Albert Rollit expressed the thanks of the Congress to the editors of the newspapers throughout the world for giving prominence in their columns to the debates of the Congress.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally health. The mad pursuit of place, power, and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer in it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency, and fatigue add their mournful notes to the "still sad music of humanity." Tired! Tired! Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increased virgils! Health and rest are the alternatives from decay and death.

Coca, combined with Maltine, affords that staff. It will give tone to the nervous system, strength to the shattered nerves, sleep to the weary eyes and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated.

COL. RHODES WOULDN'T SIGN

And Was Banished From the Transvaal for Life—Gone to Capetown.

Praetoria, June 12.—The fines of £25,000 each which were imposed upon the Johannesburg Reform Committee leaders—Phillips, Farrar, Rhodes and Hammond, were paid yesterday, and Phillips, Farrar and Hammond signed a document pledging themselves to abstain from interference in Transvaal politics, after which their banishment was cancelled. Col. Rhodes refused to sign the agreement to abstain from interference in politics and was banished for life. He started for Capetown last night. Hammond, Phillips and Farrar left in the afternoon for Johannesburg. Prices in Johannesburg have risen greatly.

The Unspeakable Turk.

Constantinople, June 12.—The Turks have seized a Greek vessel conveying munitions of war and provisions to the insurgents in Crete. The seizure was made in Cretan waters.

Canea, June 12.—Reports have been received here that the Turks have pillaged and burned 20 hamlets in the interior of the island.

He will take no Risks.

Shrewdness of a wellknown City Merchant.

HE KNEW WHAT WAS GOOD FOR HIM.

In winter when Canadians spend a large portion of their time indoors and cannot have the same variety of fresh food as in summer and fall, indigestion and dyspepsia afflict a majority. "If anybody will tell me that dyspepsia in its advanced stages is perfectly curable," said a Toronto merchant, "I will take his word. Personally I run no risks. As soon as I feel a sense of weight in the stomach, after a meal, I know that my blood is sluggish in circulation. In my business I cannot take much exercise, and I fight the first sign of stomach troubles with Scott's Sarsaparilla. It has never failed me, and has saved me many a doctor's bill."

Scott's Sarsaparilla possesses medicinal properties superior to all other so-called sarsaparillas made. As a remedy for indigestion, rheumatism, pimples, scrofula and all blood diseases, physicians state that its equal was never known. Sold at $1 per bottle, of all dealers.

Strawberry Festival.

A strawberry festival will be held in St. John's church grounds, on Tuesday evening, under the auspices of the Women's Auxiliary and King's Daughters. Fire Brigade Band in attendance. Electric lights on grounds. Admission 10 cents.

Protecting the Beef Eaters.

Did you notice the drop in the cattle market? Live stock has gone down in price and H. P. Kennedy follows suit with a corresponding drop in his prime porter house and rib roasts to 9c a pound, formerly 12½. This is the right kind of protection to consumers. "We sell as we buy." That's the platform at Kennedy's Meat Market, Opera House Block, George street. Order to-night and live right up to your privileges.

Salvation Army.

Cadet J. Mendell Greene, formerly bandmaster of the S. A. brass band, Peterborough, now stationed at Kingston, arrived home last night from Toronto, where he has been attending the farewell meetings of Commandant and Mrs. Booth and the reception of Commissioner Eva Booth, who has just arrived from England and who has been appointed by the General to take charge of Canada and Newfoundland. Cadet Greene is visiting his parents and friends in town before he leaves for Nova Scotia, to which point he has received orders to proceed, July 1st, to take charge of a brass and string band, for a four months' tour in the lower provinces. He left to-day for Port Hope and Cobourg.

Magnificent Reception--Splendid Popular Ovation.

ENTHUSIASTIC THOUSANDS

Acclaim the Honoured Liberal Leader.

A PRESTIGE OF VICTORY.

The Streets Ablaze With Loyal Colours.

BANDS, BUNTING AND BANNERS.

Enthusiastic Reception at the C. P. R. Station.

A Splendid Procession — All Classes Represented—The Luncheon at Mr. Hall's—The Magnificent Gathering at the Rink—Packed With Exultant Thousands — Addresses in French and English to the Leader.

To-day broke beautifully bright and clear. The blue sky hung high and clear over the earth luxuriating in the fresh leafage of June, and over all the sun shone with all his brightness, an omen of the brighter political day that will dawn a few days hence for Canada, when Hon. Wilfred Laurier, the honoured leader of the Liberal party, shall have been returned as Premier of the Dominion. There was a feeling of expectancy in the air, which was not disappointed as the circumstances and incidents of the occasion developed.

The town was dressed in festival garb in honour of the occasion, the business portion of George street being a brilliant blaze of colour. That most glorious bit of bunting on earth, the everlasting and all-pervading Union Jack, was everywhere in evidence. The business portion of George street and the vicinity on Simcoe, Hunter and Brock streets, were alive with flapping flags and waving bunting. It is a great pleasure to bear tribute to the generally profuse and tasty character of the decorations. For the good name of the town and in evidence that in spite of party divisions we are Canadians all, Conservatives vied with Liberals in the profusion and taste of their decorations, and it is a question if some establishments controlled by Conservatives were not better and

MORE BRILLIANTLY DECORATED

than those under Liberal control. In a word the spontaneous co-operation of the citizens in dressing the town in the garb of festivity, was attended with magnificent results that matched the popular demonstration in the Premier's honour that ensued.

It is safe to say that every conveyance in the town was brought into use in the procession and to these were added the hundreds from the country which had come in during the morning. Every incoming morning train and boat brought big relays of people to swell the great crowds that by eleven o'clock thronged the streets. The Norwood contingent from the East Riding, consisting of a large number, arrived at the usual time and the number would have been added to tenfold if the committee of the East Riding Liberals would have made satisfactory arrangements with the C. P. R. Railway.

At eleven o'clock the carriages and other vehicles and bands made rendezvous at the Reform Committee rooms, and preceded by the Fire Brigade Band proceeded to the station where thousands were assembled awaiting the arrival of the distinguished Liberal Leader and his party who was received with grand enthusiasm.

An immense procession was at once formed, marshalled by Mr. J. B. McWilliams and Mr. J. P. Hurley on horseback. First came the splendid parade of the bicycle corps, with the wheels gorgeously decorated with the intermingled colours, red, white and blue, and bearing minature Union Jacks, and suitable mottos, such as "Lang for the East," "Hall for the West," "Laurier," "On to "Victory." Then came the Fire Brigade Band, discoursing inspiriting strains. Then came the carriage of state, so to speak, a four-in-hand of spanking greys, in which were seated the Liberal leader, Hon. Wilfred Laurier, Mr. Hall and Mr. Lang, candidates for West and East Peterborough, respectively, Mr. N. T. Leplant and Dr. Bell, president of the West Riding Reform Association. Behind him came the car-carriages containing Hon. Mr. Ross, Messrs. Cox and Bertram, the other distinguished visitors, and leading prominent Liberals; behind them came the carriages of citizens, the long line stretching out and at intervals were placed the following bands:—The Sons of England Band, the High Park Band, North Monaghan, and the Fourth Line Smith Brass Band. As the procession passed along the streets, which were lined with spectators, the

HON. WILFRED LAURIER.

Liberal leader and his colleagues were greeted with enthusiastic cheers.

During the line of march the procession passed under the following mottoes, which spanned the street:—

The first motto in the route which greeted the eyes of the distinguished visitors was

"Canada's Coming Premier."
"Welcome."
"Laurier the Farmers' Friend."
"Welcome."
"A Revenue Tariff, ore Factories, More Employment, More Wages."
"More Protection for Labour."
"Vote for Hall and Laurier."
"The People Demand a Change."
"Laurier, Mowat and Victory."
Etc., Etc.

At Brock street about a score of lady cyclists joined the wheel contingent, and with their pretty, fresh young faces, their graceful bearing and gaily decorated wheels, they presented a most attractive spectacle.

Arrived at Mr. Hall's residence, the cyclists lined the drive on either side, and as the Liberal leader and his party passed in he was greeted with enthusiastic cheers. In acknowledgment, Mr. Laurier gave a brief address in his usual graceful style, and assured the cyclists that if they worked and voted as enthusiastically for him as they had cheered he had no doubt their wheels would bear him on to victory.

Shortly after one o'clock the skating rink, which had been arranged to accommodate about 7000 persons, began to fill, and before the hour for speaking arrived the immense space

WAS PACKED WITH THE PEOPLE.

The galleries reserved for ladies were crowded as well as the upper galleries.

The rink had been very elaborately and tastefully decorated for the occasion. The speakers' platform at the northern end was well raised and filled with a large number of prominent Liberals, besides the distinguished visitors. It was neatly carpetted and beautifully adorned with hot house exotics and other flowers. The

HON. G. W. ROSS.

galleries were draped and festooned with flags and bunting and a number of stirring mottoes were in evidence.

"God Save the Queen" occupied the place of honour above the platform and at other points were displayed with fine effect the following mottoes:

"Welcome."
"Bienvenu."
"Laurier and Mowat"—the team that wins."
"Conciliation, not Coercion."
"Canada for Canadians."
"The People Must Rule."
"Vote for Hall and Honest Government."
"British Connection."
"Fair Play to all Classes."
"Death to Corruption."
"Fair play to Workman and Wage-earner."
"No Fixed Bayonets for Canadian Subjects."

At 1.30 the Liberal Leader and his party drove down from Mr. Hall's residence to the rink and as the party entered and occupied their places on the platform, the Liberal Leader was greeted with an outburst of enthusiasm such as the walls of the rink in the palmiest days of hockey victory never echoed before.

As soon as order was restored four little girls advanced and successively made a graceful presentation of bouquets.

Miss Marty Hall, daughter of Mr. Richard Hall, presented a beautiful bouquet to Hon. Mr. Laurier; Miss Alberta Gooding, niece of Mr. J. R. Stratton, M. P. P., made a like presentation to Hon. Mr. Ross; Miss Allison Hamilton, daughter of Mr. Peter Hamilton, made a like gift to Mr. Geo. A. Cox; and Miss Ruby Clegg, daughter of Mr. S. Clegg, made a beautiful floral gift to Mr. Bertram. The gallant and graceful osculatory acknowledgement made by the Liberal Leader was loyally imitated to the other recipients of the little misses' floral favour.

Dr. Bell, President of the West Riding Reform Association, presented the following address on behalf of the Liberals of East and West Peterborough:

Hon. Wilfred Laurier, B.C.L., Q.C., P.C.:

DEAR SIR,—On behalf of the citizens of the Town and County of Peterborough, we desire to extend to you a most cordial welcome on this your second visit to the good town of Peterborough. All classes of our citizens, irrespective of creed or political faith, join in our welcome to you as the foremost Canadian of our time, as one who, while placing his native country in the highest place in his affections and political aspirations, still remains a staunch and worthy representative of five millions of Canadians in their unalterable devotion to British connection; and we are glad, believe that, while on behalf of the Liberals of Peterborough, town and county, we most cordially welcome you, we voice the sentiments of very large numbers of Conservatives who, putting patriotism before party, are attracted to your support by the great policy you represent; by your untiring and self-sacrificing labour for the country's welfare; by your broad-minded patriotism; by your statesmanlike grasp of public questions; by your persuasive eloquence and, above all, by your stainless political and personal record, which stands forth conspicuously by contrast, in an age prolific of the existence of opposite characteristics.

We would take this opportunity of expressing our entire and complete confidence in you as our leader, and our unreserved endorsation of your policy in relation alike to the material, moral, civic and religious interests of the nation. We congratulate you on the splendid fight you and your political colleagues are making in the interests of good government, harmony of Canadian citizenship, and the peace of the community, and we look forward confidently to your triumph in the present contest.

We most heartily congratulate you upon the splendid enthusiasm with which you have been received during your western tour, and hail such popular demonstrations as a hopeful omen of the reins of government being placed in your hands by the verdict of the 23rd of June.

In such an event we would express our perfect confidence that, under your statesmanlike rule, the interests of the country will be safe and that nothing will be by you left undone to promote national development in all directions; that all classes and creeds will receive equal justice at your hands; that nothing will be done to discredit the record of your past political career; that under your rule, not only will the foundations of confederation not be disturbed by dividing issues, but the superstructure of national greatness will rise in proud and harmonious symmetry and that the meteor flag will float from ocean to ocean over a peaceful and united people, undivided by hostile sentiment, ignoring race and creed in relation to national progress, and all working with the common aim of making Canada in material growth and national unification the home of Canadians and still more worthy of the rank she holds as the first on the honour roll of British dependencies.

We recognize that the great party we belong to and which you so creditably lead, has a common interest, with all patriotic Canadians, in the advancement of our national progress and that it will be the most cherished ambition of the Liberal party under your leadership, to protect Canadian interests, with a just and equal hand and to develop our inexhaustible resources with prudence and liberality of action best suited to accomplish such ends.

Again permit us, sir, to give you the most hearty welcome possible to the good town and county of Peterborough.

Signed on behalf of West and East Riding Reform Associations:

MR. LAURIER'S COMPATRIOTS' ADDRESS.

Mr. N. T. LePlante on behalf of the French Canadian fellow citizens, presented the following address in French to their distinguished compatriot.

A L'Honorable Wilfred Laurier, B.C.L., Q.C., P.C.

HONORABLE MONSIEUR:—Vos compatriotes Canadiens Francais de Peterborough desirent vous presenter leurs respects sincere a l'occasion de votre visite en cette ville ou nous sommes fieres et tres hereux de vous recevoir.

La haute position atteinte par vous est pour nous une source de gratification et de gloire; votre habilite, comme homme d'etat, votre eloquence et vos vertues eleves nous assurent pour le pays la remais ance des affaires dans le nouveau gouvernement; votre loyaute a notre race, a notre religion et a notre patrie, et l'exemplification de tout ce qui est honorable et eminent dans votre vie privee et publique, rend votre nom cher a nos coeurs.

Nous avons suivi avec beaucoup d'interet votre vie publique et nous avons aussi remarque la position que vous prenez sur les questions du jour, et nous savons que la chevalerie et l'honneur que vous avez manifestes dans votre vie passee seront vos guides pour l'avenir. Nous esperons donc que bientot vous remplirez cette position ou vous serez la gloire de notre patrie, de notre nation et de notre religion; et nous desirons de tout coeur que cette position, si bien meritee, placera le nom de l'honorable Wilfrid Laurier dans l'histoire de notre beau Canada parmi ceux qui ont servi leur pays avec honneur et justice.

Nous vous disons encore, "Bien venue a notre ville" en assurance de notre admiration et respect pour vous.

TRANSLATION.

Hon. Wilfred Laurier, B. C. L., Q. C., P. C.

SIR—Your French compatriots resident in Peterborough desire to tender to you their respect on the occasion of your visit to this town where they have found happy and comfortable homes.

The high position acquired by you is to us a source of gratification and pride. Constantly hearing as we do of your great ability, charming eloquence and lofty virtues, we have learned to look to you for the accomplishment of great and eminent results in the government and the management of the affairs of our country. Your loyalty to our race and our religion and the exemplification of all that is lofty and deserving in your public or private life endears your name to us and though in this community of mixed origin and creed, we have ever found generous and fair treatment and we find ourselves in the strict sense of the word, Canadians amongst Canadians, yet to us our language, our religion and our history are dear. Your loyalty to all that is peculiar to French Canadians, whilst loyal to the flag that floats over us, brig before us the ideal citizen of our grand Dominion. We have with much interest followed your public life and noticed the position you now take in reference to the leading questions of the day and confident that the chivalry and honour manifested in your past life will guide you on the same lines in the years to come. We tender you our sympathy and hope that you may attain to such a position as will enable you to revive your country so that in the after days of its history the glory of your name shall appear on its records amongst the golden and great names of the many eminent men who have well and faithfully served their country.

We welcome you to our town and again assure you of our admiration and respect.

Signed on behalf of the French Canadians of Peterborough:

A DELIGHTFUL FAMILY RE-UNION.

Mrs. Duncan Cameron Celebrates Her Eighty-Third Birthday.

On Friday last Mrs. Duncan Cameron, of 19 Elm street, reached the venerable age of 83 years. The occasion was celebrated by a family re-union involving all the pleasant associations that such a gathering involves. The members of the family present were Mr. Duncan Cameron, of Bolival, N. Y., wife and two children; Mrs. D. S. Sanderson, North Baltimore, Ohio; with three daughters, Mrs. George Lancaster, town, and also the youngest son and daughter, who still remain under the parental roof. It was a delightful experience to Mrs. Cameron to have her children and the children God had given her, gather again about her and cheer her declining years with both sentimental and practical evidences of their love. The mother heart grows too old to not beat more warmly under the stimulus of reminiscences such an occasion arouses.

MISS QUINN'S DEPARTURE.

What Dr. Barnardo's Journal Says About her in His Last Issue.

The June issue of Ups and Downs, the Barnardo Home organ, contains the following reference to Miss Quinn's departure from the local Home:

"Tell it out among the nations that the Lord is King;
Tell it out! Tell it out!
Tell it out among the nations; bid them shout and sing;
Tell it out! Tell it out!

Many of our girls have made the acquaintance of Miss Quinn, who for more than four years has filled the position of assistant secretary at Russel Brae. To many it may be a surprise to hear that she left Peterborough last month, having, she believed, received her orders from the Master, Who said to His disciples: "Go ye into all the world and preach the gospel to every creature"; having also heard the cry of needy souls, says, "Come over and help us."

Miss Quinn has entered on a term in a training Institute in New York, in order to be more fitted, if the way is opened, to go into the mission field.

Truly sorry as we are to lose her, she goes with our heartiest good wishes that she may be blessed and made a blessing.

Curative power is contained in Hood's Sarsaparilla than in any other similar preparation It costs the proprietor and manufacturer more. It costs the jobber more and it is worth more to the consumer. More skill is required in its preparation and in combines more remedial qualities than any other preparation. Hood's Sarsaparilla is the best medicine to buy because it is an honest medicine and thousands of testimonials prove that it does actually and permanently cure disease.

Goodness is the Test.

Goodness is always the first aim of H. P. Kennedy in the selection of prime beef for his customers. Goodness first—then follows the lowest price the market can afford. Both are now strongly represented on the hook at Kennedy's meat market, Opera House Block. Think of only 9c. a pound for prime porter house roasts, that formerly sold for 12½c. The drop in the cattle market affords a drop in Kennedy's Meat Market. "We sell as we buy."

THE REVIEW LIBEL CASE.

It Has Been Enlarged Until Wednesday Afternoon Next.

There was a big crowd in the police court yesterday afternoon, when Magistrate Dumble took the bench preparatory to taking evidence in the preliminary hearing of the libel case against the Review brought by Mr. J. B. McWilliams.

The information was read as follows:

Province of Ontario, Town of Peterborough, County of Peterborough, to wit:

To Francis H. Dobbin, of the Town of Peterborough:

Whereas, information on oath has this day been laid before me, David William Dumble, Esquire, Police Magistrate of the Town and County of Peterborough, one of Her Majesty's Justices of the Peace in and for the said County, for that you, at the Town of Peterborough, in the County of Peterborough, on the sixth day of June, 1896, being then the managing director of a certain incorporated company known as the Peterborough Review Printing and Publishing Company (limited,) proprietors of a certain newspaper named "The Daily Review" did print and publish in the said newspaper of and concerning the informant, John Bannon McWilliams, a defamatory libel in the words following:—"We think that a prominent Mowat official from Peterborough (meaning the informant) who has suddenly renewed his interest in the Orange Order and who gave Mr. Wallace strong support at the time of his recent election in Grand Lodge, could give a great deal of information about Mr. Wallace's visit. However it was worthy of note that this Mowat official, while his name appeared on the address presented to Mr. Wallace was absent from town on the night of the rally and did not appear with his candidate in the opera house," meaning thereby that the informant although ostensibly a supporter of the Liberal party and of the Liberal candidate in the election of a member of the House of Commons of Canada, for the West Riding of the County of Peterborough was secretly and in fact supporting the candidature of Mr. Newman in the said election whereby the informant is likely to be injured in his reputation by his being exposed to contempt or ridicule.

These are therefore to command you, in Her Majesty's name to be and appear on Friday, the twelfth day of June, 1896, at four o'clock in the afternoon, at the police court in the said town, before me or such other justice or justices of the peace as may then be there, to answer to the said complaint and to be further dealt with according to law.

Given under my hand and seal, this tenth day of June, in the year of our Lord one thousand eight hundred and ninety-six, at the town of Peterborough aforesaid. (Signed) D. W. Dumble, Police Magistrate.

Mr. Dennistoun appeared for Mr. Dobbin, and before pleading took two objections to the information. He argued that the article in question was couched in plain English, as to the meaning of which there could be no doubt. No such inuendo as was referred to could be implied. It was impossible to connect Mr. Newman with the statement, which referred to the candidature of Mr. Wallace for Grand Master, and not to that of Mr. Newman. No other grammatical construction could be placed on the words, as Newman's name was not mentioned,

Mr. Dennistoun's second contention was that the article in question was only fair comment and did not go any further, and was therefore covered by the provisions of section 293 of the criminal code.

Mr. Poussette, counsel for the prosecution, pointed out that the law of libel was such that the objections could not possibly lie. The article from which the extract was taken showed clearly and distinctly that Mr. Newman was referred to as a candidate who was secretly supported by Mr. McWilliams, whilst he openly supported Mr. Hall. This was an imputation which his client could not have cast upon him, hence the suit. Whether the article could be called "fair comment" or not was not for the magistrate to decide. That question came within the province of the jury.

Mr. Dennistoun argued that the court knew nothing of the whole article, but had nothing further to proceed upon than the extract in the information.

Mr. Poussette pressed for the taking of evidence, but Mr. Dennistoun asked for an enlargement and as the magistrate thought that several very nice points of law had been raised which he wished consider, an enlargement was granted until Wednesday afternoon next.

MR. LANG'S DOURO MEETING.

A Highly Successful Gathering.

Mr. Lang's meeting last night in Douro town hall was of a most encouraging character, not a dissentient voice was raised, and the hall well filled. Messrs. J. B. McWilliams, R. R. Hall, Geo. Ball, W. J. Devlin and J. W. Fitzgerald from town were present.

Mr. Wm. Moher having been moved to the chair, Mr. Lang opened the meeting by a strong and vigorous speech, in which he graphically described the misrule of Canada by the cabal yet sitting at Ottawa, and denounced high taxation.

He was followed by Mr. J. B. McWilliams, who delivered a bold and manly speech, showing up the rottenness and boodling of the Government generally, and referred especially to the long list of Peterborough pensioners and Government heelers who are sucking out the life-blood of the country. In this connection he mentioned several names, and predicted for them a speedy defeat.

Mr. R. R. Hall followed in a closely reasoned argument explaining the huge indebtedness of Canada, caused largely by the pilferings of the Government, its officials and friends througout the country, and the wanton extravagance reigning in all departments of the Government.

Mr. J. W. Fitzgerald was the next to speak. He regretted the absence of any representative of Mr. Burnham, as he had something to say of a rather personal nature about that gentleman. Mr. F. declared that was the first time in East Peterborough he took a position in opposition to the Conservative party. This was entirely due to his regard and long-standing friendship for the late Sir John Macdonald, and not for anything else Conservative. He related how some ten years ago Mr. John Burnham, in order to injure him, had told Sir John Macdonald that he had worked against him (Mr. B.) in this riding. Mr. Fitzgerald gave Sir John as his authority, and denied the story as a flagrant slander. Mr. F. was not yet done with Mr. Burnham or with the cliques who lock up to him. Mr. Fitzgerald concluded by urging the electors of Douro to stand true to their nationality and to cast their votes in favour of Mr. Laurier and Mr. Mowat, the late colleagues of Hon. Edward Blake, who was now fighting the battles of Ireland, against the party that Sir Charles Tupper stood by.

The speech of the evening, however, was from Mr. George Ball, who, in telling but playful language, depicted the condition of well paid officialism, as contrasted with the scanty and insufficient wages paid to the mechanic and labour man who in this country have to toil, during half the year, to support themselves and families the whole year. Never in Canada had employment been so scarce for working men and never had land values and the product of the farm been so low as under the unfortunate N.P., which he hoped on the 23rd inst., with its supporters would be buried and a real National Policy take its place. After three cheers for the Queen and for Mr. Lang the meeting, which was a most successful one, wound up with the determination of giving Mr. Lang a large majority in Douro.

D. E. HOPKINS, ASSISTANT. Opera House Block

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. He isn't capable of continuous and vigorous effort. His bodily discomfort affects his mind. Even when he knows just what is the matter, he neglects the simplest precautions and the simple treatment that would cure him. Most of dyspepsia starts with constipation, and constipation can be cured. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are quick, but not violent in their action. There is nothing about them that will give the system any shock. They not only relieve immediately, but if taken according to directions, they will absolutely cure. "You do not become a slave to their use." They are different and better than any other pill or preparation offered for the same purpose. Almost all druggists understand this, and are conscientious enough to tell you so. The druggist who tries to sell you a substitute is not a safe man from whom to buy medicine. If you will send your address, we will send you a sample package, containing from 4 to 7 doses, and you can see exactly what the "Pellets" will do for you.

If you will send 21 one-cent stamps to cover cost of customs and mailing *only*, we will send you FREE the most useful medical book ever presented to the public. This is Dr. Pierce's Common Sense Medical Adviser, in Plain Language; a book of 1008 pages, profusely illustrated, the great expense of preparing which has been covered by a sale of 680,000 copies at the regular price, $1.50 per copy. Address, World's Dispensary Medical Association, Buffalo, N. Y.

LAURIER, MOWAT AND VICTORY.

(Continued from First Page.)

his disapproval of the interference of the priests in political affairs.

The reception given Mr. Lount was such as to satisfy the most enthusiastic of his supporters. He rejoiced at the clear clarion note of victory which had cheered the great leader of the party. He paid a tribute to Mr. Laurier as the man of splendid courage, the statesman of unsullied honor, as one whose name would, when written upon the pages of history, stand out bold and prominently as that of a man who never left behind him the mark of disgrace. "What," he asked, "is the policy of the Tuppers? (A voice—Fraud.) Fraud is the word. Their whole policy is fraud, in their career of the past from the time they took office down to the present time; fraud in all the offers he has made travelling through the country. Bribery and corruption have marked his course right and left, front and rear. Wherever he has gone he has made every endeavor to bribe the honest electors of the country to give their votes in his favor. The poor man who takes the $5 for his vote is sent to jail as a criminal, while this man goes from end to end of the country bribing the community."

The poor, old, respectable gentleman, Mr. Howell, had been kicked out and the great Sir Charles Tupper had come over here from the position of High Commissioner, where he had been shelved out of the way, where he could do no harm, and shortly after they found Sir Mackenzie Bowell out and the Tuppers in. He formed a great trinity, "Tupper father, Tupper son, and nobody else." (Laughter.) And there will be little left for anybody else after the trinity get their share. In this Province they are trying to keep down coercion, to submerge it, keep it quiet. It is the National Policy that is to be supported. In 1878 Sir John A. Macdonald, with his far-seeing wisdom, saw that there was a chance of obtaining again the reins of power, at a time when, owing to the distress then prevalent, the electors were susceptible to the promises of industrial progress. The time has come when those pampered industries should stand alone or fall. If, after 18 years of constant feeding, they can't stand alone, when they are almost of age, they ought to be allowed to die.

The Liberal Government will take away from the doorstep the hungry wolf of want and destitution. The action of the Government is raising up religious discord, sectarian strife, unhappiness and misery, which it was hoped had been buried in this country never to rise again. Now that it had been raised, it would have to be fought out at the polls, and he hoped that on the 23rd of June it would be buried with the Tuppers forever. He rejoiced that out from the great Conservative party had come thousands upon thousands of honest, well-meaning Conservatives who would not allow Sir Charles Tupper, out of his selfishness, to pass a coercion bill to the detriment of a certain Province of the Dominion. This stand he would take and stand or fall by, no matter what the consequences were. He paid a glowing tribute to his leader, a Catholic, for his courage in resisting the attempt of the Protestant leader of the Government. Personally, he would surrender his judgment to no man, and if returned to Parliament he would claim the right to exercise his private judgment, no matter what the policy of his leader might be. He would oppose any coercion bill, and the Government which introduced it as long as it remained upon the platform of that Government, and if his leader were returned to power and introduced a bill to take by coercion from the people of Manitoba their liberties with respect to education he would vote against, and withhold from him his confidence and support as long as that gentleman retained it as a plank in his platform.

The Mayor introduced Mr. Laurier as the hope of Canada. Mr. Laurier, on rising, received an ovation, and "Three cheers for the coming Premier." He commenced by asking whether he was in the great Conservative city of Toronto. He declared that hundreds and thousands of Conservatives throughout the country, while retaining the political convictions of their lives, felt that the time had come for a change of Government, that the Government which had bribed and debauched the country should be swept from power. He repudiated the charges made by Mr. Foster against the Liberal party with respect to corruption, and in reply contrasted the action of Alex. Mackenzie in standing guard over the public Treasury with the conduct of Sir Charles Tupper and the present Government, who had slept at their post. He discussed at length the Curran Bridge, Tay Canal and other scandals. He pointed to English history upon the struggle for the control of the expenditure of the public money through the Parliament of the land, and charged the present Government with having violated the salutary principle of responsible government, that all moneys should be controlled by Parliament, by making almost daily appropriations in secret in order to hawk them about the country in order to raise money for the Government election fund. Statements had been made in the past in reference to such secret votes by the Government, and had been denounced by the Government press as "Grit lies," but it had afterwards turned out that they were Ministerial truths. Referring to the alleged orders-in-Council for the Hudson Bay and other railway bonuses, which had been denied by the Government press, he doubted not athat these would afterwards be found to be Ministerial truths.

He would not discuss the merits of the Hudson Bay Railway. The proper place for that discussion was on the floor of Parliament, where all the information on the matter was to be obtained. If the report had obtained currency in England that the Government of the day had made secret appropriations under such circumstances there would have been an immediate demand for an explanation, and the Government would have been denounced. He had been accused of disloyalty, but loyalty to the Queen and to the constitution that has made England the great country which it is to-day demanded that the Government of the day be brought to account for its action in this matter. During the course of his progress throughout the Province of Ontario the had found that the people wanted to have a change of Government, and a change they would have. In Quebec the Government have appealed to the religious prejudices of the people, but he rejoiced to say that there is every prospect of a substantial majority being returned against the Government in both Ontario and Quebec.

He would not discuss the National Policy, but would leave it to the electors to pronounce their opinions by their votes. He would simply ask them, "Has it benefited you very much?" "Has it made you rich?" In Ontario he was charged with being a free trader. The position he had taken upon the tariff question was justified by the declaration of Mr. Chamberlain in the recent Congress in which he foreshadowed that the people of England were ready to in a measure abandon free trade principles in order to promote the welfare of the Empire. The requirements of the country demanded a revenue of $40,000,000 per year, which must be raised from the customs duties. The Liberal party would so rearrange the customs duties as to produce a maximum of revenue with a minimum of taxation. He looked upon taxation as an evil. He had reason to believe that Sir Charles Tupper did not so look upon it. He could understand that the Premier, after dining with Emperors and Kings in Europe and enjoying his salary of $12,000, and bearing in mind the good offices his family were filling, believed that the National Policy was making the Canadian people rich. Outside the Tupper family he wanted to know how many there are who think the National Policy has made them rich. He agreed with Sir Charles Tupper in the desirability of preferential trade within the Empire. When England at the time of the emancipation of her colonies seemed to have been reduced to the lowest ebb she had ever reached, when she had lost those colonies composed of her own kith and kin, it was he was proud to say her newly-acquired French colony that stood by her. England has introduced into her colonies the system of self-government, and in the estimation of the speaker, proclaimed a principle which will become perhaps the greatest of all principles she has given to the world and which will shine forth in her history. It had been said that the result would be that the colonies would drift into independence, but instead the connection with the Mother Land had become dearer to the hearts of Canadians as years went by. The policy of protection Sir Charles Tupper declared must be maintained, but the policy of the Liberal party is to have free trade as far as possible by means of a revenue tariff. The Government were advocating preferential trade with England and at the same time insisted on retaining a protective policy. They must abandon one or the other, they could not have both.

There was another question upon which he desired to speak, the Manitoba school question. He proposed giving a history of the course he had pursued in the past, and his policy for the future. His position on the matter was well known. He had declared it over and over again. Why was it, he enquired, that this question had been brought before Parliament, and before the people? For six long years it had been before the people of the country, and the Government hadn't yet mustered up the courage to deal with it in the manner in which it should. The Government had aroused sectarian strife and had gone to one province with one cry, and to another with a different cry. This question would never be settled until there was at the head of affairs a man who had courage enough to do right in the matter without fear of consequences, no matter what they may be. The question had gone to England because there was in the constitution a clause which was in direct contradiction to the basis upon which Confederation was arrived at—the recognition of the sovereign rights of the Provincial Legislatures in their own local affairs. He charged the Government with pursuing a double-faced policy; with one policy for Ontario and another for Quebec—a face for Quebec and another for Ontario, a good honest Roman Catholic face for Quebec and a Protestant face for Ontario. In Quebec they appealed to the French Roman Catholic to vote for the Government, because they are pledged to Remedial legislation, as soon as the elections are over. All the Liberal candidates have been asked to sign a pledge to support coercion.

In the Province of Quebec he was today being denounced as a traitor to his race and religion, because he refused to vote for the coercion of Manitoba. His answer to the charge was that he was true to Canada, and being true to Canada he was at the same time true to his race. He was free to say that if returned to power with the assistance of his friend, Sir Oliver Mowat, he would be able to settle this question by giving justice to the minority, not by invoking the religious prejudices of Protestants and Catholics, but on the broad principle of truth and justice. The only way to settle the question was by placing themselves on the broad principle of British-Canadian citizenship and do justice to all, irrespective of race or creed. As a French-Canadian Roman Catholic, his strong sympathies were with the minority, and he wished to see them get their rights, but the remedying of their grievance is a matter which belonged to the province and to the province alone. "I will not be coerced by anybody, and I will not enforce coercion upon Manitoba," said Mr. Laurier, and his statement was received with loud cheers. It is the duty of the Government to investigate the matter, and he was sure that if it is found that an injustice has been done to the minority, he would come to Toronto and appeal to Protestant and English electors that justice might be done. He came with confidence, as a French-Canadian Roman Catholic, as a British subject and Canadian citizen, for their support. He stood before them as the leader of the Liberal party, representing the cause of religious freedom and toleration, of pure and honest government, and in that cause he enlisted their sympathies.

Sir Oliver Mowat was next introduced, but his speech was at first inaudible, owing to the noise made by people leaving the hall. He expressed his pleasure at fighting under the leadership of the gentleman who had addressed them. It was cheering to him to see the indications which Mr. Laurier's reception in Ontario gave that the people of the country were awakening to the wrongdoing in high places.

At the overflow meeting in the Auditorium, the house was packed, and many were turned away, even before 8 o'clock.

COOLING, REFRESHING, EXHILARATING.

In this warm weather, when the body is losing so much moisture in perspiration, the natural demand that this loss shall be made good creates what is known as an "exquisite thirst." Many are foolish enough to endeavour to quench it with drinks containing more or less alcohol, but the wiser ones use the juice of ripe fruit. The Island of Montserrat is noted for producing the finest quality of limes, and the juice of these is bottled and known as

"Montserrat"

LIME FRUIT JUICE.

Taken with water it makes a most delightful drink. It is cheaper than lemons and more conveniently prepared.

"LIMETTA CORDIAL" will be found the finest article of its kind in the market.

WITH BALDNESS

The Danger is Averted by Using

AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

If the real live woman could stand like the pictures in the fashion plates, some modes would look well that are unfortunately selected without regard for practical use.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

THE MATTER OF MANURES.

Soil Enrichment by Means of Coarse Manures or Slow Processes.

There is considerable loss in manure in summer, due to heating, and it is essential to the absorbent materials be fine. Dry dirt is one of the best substances to use with manure, and if the weather is very dry cold water may be applied to manure heaps if the heating of the materials is too great. Attention is called to this matter because there is a great loss of ammonia from all manure heaps that are neglected, and this loss occurs more rapidly during periods of drought and heat, than in winter. Rains serve to prevent loss because water absorbs ammonia, but when the heap is densely packed and the rains run off not enough moisture enters the heap to prevent heating. When the heap is forked over and additional absorbent material added it is not only loosened and cooled, but more air and moisture also enters, and the disintegration of the materials occurs more perfectly and more slowly. It is an advantage to have all the matter composing the heap to decompose, but this process should be controlled, if possible, so as to avoid "fire-fanging."

When coarse manure is spread on the soil the benefits are not received until the next season, as it is necessary for the substances composing the manure to thoroughly decompose before they can become available; therefore the manure heap of this year is really the preparing of the plant food for next season. When fresh manure, however, is spread on the land, and then worked into the soil with a cultivator, it may be ready for use before the crop manures, and thus assist in filling out the grain, but any coarse material in the manure will remain in the ground until next year. The soil absorbs and hold ammonia, thus preventing loss, and especially if the manure is intimately incorporated with the soil. The amount of rainfall and warmth will also affect the decomposition of manure in the soil, while lime also assists in hastening its conversion into plant food. It is necessary when using manure to keep in view the fact that it must be in proper condition to immediately supply the plants with available materials for growth.

Fertilizers can be used in connection with manure to advantage, as they are easily applied and supply soluble plant food to crops with every rain, which forces growth from the start and enables the roots to more completely utilize the manure later on in the season. Farmers who have large amounts of manure have contented themselves with the use of the stable refuse alone, but if they will use both manure and fertilizers they will secure better results than from the use of either alone. Where a farmer has been careful to preserve his manure and prevented loss of ammonia, from overheating or the leaching of rains, he will have available plant food, but the majority apply it in a coarse and crude condition, the process of decomposition occurring in the soil instead of in the heap, and in such cases fertilizers will always pay, as they force the plants ahead from the start and fortify them to withstand droughts and other drawbacks.

THE TRIUMPHANT TRIO.

The Three Great South American Remedies—Absolute Cures for Kidney, Rheumatic and Stomach Diseases—Thousands of Grateful Citizens all Over Canada Bear Testimony.

Not one medicine doing the work of the other, but each doing its own work, without a single failure. The keynote of the success of the South American Remedies is that they strike at the seat of disease in every case.

Take South American Kidney Cure. It is not a medicine that trifles with the patient, as is done in many cases where pills and powders are prescribed. Kidney disease arises from the clogging of the filter-like parts of the system that constitute the kidneys. Only a liquid can dissolve these obstructions, and such is South American Kidney Cure. Adam Soper, of Burke's Falls, Ont., suffered terribly from kidney disease, and treated with the most skilled physicians. His words are: "I did not obtain any relief until South American Kidney Cure was used. It fitted my case exactly, giving immediate relief. I am now a cured man, and believe one bottle of the remedy will convince any one of its great work."

Many false notions prevail in regard to rheumatism. Outside applications may temporarily relieve the pain, but the blood must be purified if a permanent cure is to be effected. This is what South American Rheumatic Cure does. Mrs. Phillips, sr., Hamilton, was completely crippled with rheumatism. She procured a bottle of South American Rheumatic Cure, and says "It is without doubt the quickest relief for rheumatism that I have ever seen, and I heartily recommend it to all sufferers of the disease."

It is a scientific fact that many derangements of the system emanate from the nerve centres at the base of the brain. South American Nervine cures stomach and nervous troubles because it acts immediately on the nerve centres. J. W. Dinwoodie, of Campbellford, Ont., says: "I do not hesitate to say that South American Nervine is the best medicine I have ever taken; it completely cured me of nervous prostration and the attendant diseases of the liver and stomach that follow this weakness.

Electrical Massage.

One of the newest developments of the practical applications of the electric current is in the production of the characteristic effects produced by massage. By suitably applying the different forms of electric current muscular stimulation is produced.

Children Cry for Pitcher's Castoria.

The Delineascope.

Lieutenant Colonel P. Neville has invented an instrument for military and topographical surveying called the delineascope. This consists of a small portable camera having a lens with a fixed focus. The lens is directed downward at an angle of 45 degrees to the axes of the lens. This throws a picture of the landscape with right and left reversed on the tracing paper on a horizontal object glass. By using a focusing glass the main features of the landscape are traced on the paper, which is then reversed on a card ruled in squares similar to those in the note-book into which the sketch is to be copied and recorded. The details can then be added by eye and the more exact numerical data entered on the margin of the page. The bearing of the centre line of the picture, taken with a prismatic compass furnishes a base line from which the bearing of other lines can be scaled.—Philadelphia Record.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old-fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

SKIN DISEASES

Spring firstly from impure blood, and are aggravated by a morbid condition of the system, and by local causes of irritation, etc. The real cause is impure blood, and there is no skin disease which Burdock

BLOOD BITTERS

does not cure if taken internally and applied externally according to directions. It heals up the skin and drives out the disease. Salt Rheum, Tetter, Shingles, Scurf, Erysipelas, Scrofula, Scrofulous Sores, Ulcers, Abscesses and all similar diseases are invariably cured by the intelligent use of Burdock Blood Bitters.

FORTNIGHTLY CLUB COLUMN.

No. LXVI.

A Public Half Holiday.

[The Editor F. C. C. invites correspondence either through this column or in the ordinary way upon this subject.]

At a recent political meeting in Peterborough, one of the candidates for parliamentary honours was asked whether he favoured an eight hours day of labour. To which he gave a reply in the affirmative. The workingman and the politician, the philanthropist and the political economist are all interested in the advantages or disadvantages of a shorter working day. The opposition of such men as Mr. John Morley, and others to the eight hours movement in England is a sufficient guarantee that the question has two sides, but those who favour the shorter day are steadily gaining up their opponents and according to some writers it has where tried been found successful.

* * *

However it is not to the consideration of a shorter working day that we are devoting this week's column, but to a kindred subject, viz., a public half holiday during the months of July and August. In the month of July very many of our citizens have left the town for the cool retreats of Stony Lake or Chemong. Others more fortunate are speeding across the ocean, and all of us are considering the question of the most enjoyable place whereat to spend our holidays, long or short as the case may be. By the middle of July one hears that "everyone is out of town," an expression very far from the truth, which means that everyone that can manage to spare the time and expense is out of town. This annual rush from the hot, dry and dusty town to the cool waters of our lakes and the leafy shades of our forests testifies to a craving for real recreation, and the craving testifies to its need.

And yet after all it is, comparatively speaking, the few who enjoy these advantages, and it does not speak well for our human nature, that of those who do, so few seem to care whether the bulk of the population have holidays or not. Bishops and lesser ministerial lights, judges and lawyers, merchants great and small, manufacturers and members of Parliament, so soon as July comes, doff surplices and black coats, gowns and wigs, ledgers are filed on their shelves. Remedial Legislation and the N.P. are forgotten in the joys of old European cities, or the newly occupied woods of new America. "Everyone is out of town." Well, not quite everyone. In hot, grimy and dusty factories and mills there are scores who are in town on Monday and Tuesday and so on to Saturday. Behind shop counters and in close offices are others. They too are not out of town, but in town. Decidedly everyone is not out of town.

* * *

But say you "We cannot help this. It must be so. Would you stop those factories and shut up the shops for six weeks at a stretch?" Certainly not. You, my protesting friend, are quite right. These things must be so. I do not expect the day when any but a small percentage of the population can get away for weeks at a time. Only you need not call this small percentage "Everyone." I am afraid what you mean is "Everyone I care about." And I think if we all cared about everyone only a very little bit, a good many things that are wrong might possibly be improved even though they could not be set altogether right.

* * *

Now would not a weekly half holiday be a great boon to hundreds of our citizens? And would it, supposing every shop was closed, interfere with business? I am not a business man, and do not wish even to pretend to know as much about other people's business as my own. There may be many ways in which such a radical change (alas that it should be so) would interfere with business. To me it seems that if all the stores were closed one afternoon the people would spend their money the next. I don't suppose they would spend their half-holiday in shopping at Port Hope or Lindsay. So the question seems a simple one, and the answer obvious, but one has so often found that upon inquiry, questions that seem to be simple are found to be exceedingly complex, and that the wheels within wheels are decidedly complicating. Of this one feels sure, that we need more recreation, and that did we but put our heads all together and our shoulders to the wheel the question of how it could be accomplished would be solved.

* * *

This is a question in which the clergy should especially interest themselves. Because it has an intimate connection with the Sunday question. The outcry that the bicycle is revolutionizing the observance of Sunday is beginning to arise. From time to time we hear the lament that we are growing more and more lax in the observance of the Sabbath. Especially frequent in summer are Sunday outings. But how can we expect it to be otherwise! On the other hand, if the clergy banded themselves together, discussed this question amongst themselves, talked it over with the business community, preached it to their congregations, urged it upon the municipality, and at last won for the town a public weekly half holiday during the summer months, they might then appeal, not only to one part of the members of their congregation, but to the whole town, to honour and respect and sanctify the Lord's Day, and their words would not fall on deaf ears.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill, druggist.

THE TURNING OF THE LANE.

To the Editor of the Examiner:

DEAR SIR—You have hitherto accorded me a space in your valuable paper the few times I have wrote, but now I feel almost like intruding when you have so much that is of importance in this election. No doubt there are many with myself that can say with one long ago, "My heart was hot within me; while I was musing the fire burned." Many of your readers will remember the late T. Fairbairn, M. P. P. At one of his public meetings he was very much interrupted by Mr. Lane generally known as Long Lane. Some were for putting him out by force. Mr. Fairbain very quietly said let him alone, its a Long Lane that has no turning, it had its effect, he sat down and remained quiet. Just so, I think it will be the same with the N. P. It has had its long day, but the turn is in view. Many will remember when the N.P. was brought up to do battle, (it was a lucky hit for the Tories), what hard fighting this was to keep the Reform Government in office with Mackenzie at its head, one whom we could all trust. The times was very discouraging then, money was scarce and at a high rate men were in want of employment. But somehow those that wanted employment thought a change of the government would make it all right. How many Reformers were lured into voting against themselves? I know what a struggle it was to many they could not be convinced, nor even persuaded and I believe that if not with tears in their eyes, it was with sorrow in their hearts that they cast their vote at that election. They have been kept under the yoke a long time; it is very cheering to see them casting it off. They have had enough of coercion and are stepping out again into liberty. Then we had to row against wind and tide, now under a fair wind we can rest our oars and under full sail be carried into port. Has not the present government wrought its own destruction? I believe we shall do our part in sending one that will uphold righteous government. It certainly can be no fault if he claims independence, I cannot understand the Reformer without independence and if Mr. Hall should not speak as much as some others, he will be able to do as good work as any when his vote is wanted. I would wish in the future government, that it should be one that will render to Cæsar the things that are Cæsar's, and unto God, the things that are God's. We must not think that when the vote is given that our part is done. Will there not be a very great work for the professed followers of the once crucified but now risen Lord, to pray for those sit in power over us, that wisdom may be given to enact laws and judgement to execute the same. It is said the Queen of Great Britain was asked wherein consisted its great power she said "the Bible." I believe it is rather the God-fearing men and women in its midst. Thanking you for this space,

I remain, J. BABB.

LEND YOUR EARS

To Your Back and Listen to its Talk—A Peterborough Man Tries It.

Did you know the back could talk;
Tell you why it aches and pains;
Tell you why it's lame and weak;
Warn you of the kidney's ills;
Tell you of Doan's Kidney Pills?
Listen to them when they speak.
Relieve the kidneys, cure the ache.
Bad back, acute pains and kidney ills,
Are quickly cured by Doan's Kidney Pills.

Here is proof of it at home. The testimony of Mr. George N. Graham, the genial host of the Oriental Hotel, Peterborough, is as follows:—

He says:—"I have been a great sufferer for some time with pain across the back, extending up between the shoulders, swelling of the limbs, dizziness, loss of appetite, and in fact felt completely broken up.

"I had lost 17 pounds in three months, and thought that I would never get better. I have taken many kinds of patent medicines, and have also been treated by medical men, but did not seem to get any better at all, in fact was constantly growing worse.

"I saw Doan's Kidney Pills advertisement and got a box of them at Lynch's drugstore, and by the time I had taken one box noticed a marked change for the better.

"I have taken seven boxes altogether, and am now free from pain; the swelling in the limbs has disappeared, and my appetite is good. In fact, I feel that I am completely cured.

"I can heartily recommend Doan's Kidney Pills to those suffering from any form of kidney trouble. They are the best kidney medicine I have ever used.

Signed, GEO. N. GRAHAM.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse, at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

THE REPUBLICANS

Are Gathering at St Louis for the Convention.

THE CITY DRAPED IN BUNTING

McKinley, Reed, Morton and Allison Have Their Headquarters at the Same Hotel—The Maine People Ahead in the Matter of Display—Delegates Arriving.

St. Louis, June 14.—St. Louis now looks like a convention city. It has hung out its bunting in tasteful profusion to bid welcome to the big Republican gathering.

All four of the leading candidates—McKinley, Reed, Morton and Allison—have their headquarters at the Southern Hotel. McKinley's headquarters are designated by an allegorical representation of "Protection."

While it appears to be conceded that McKinley has the votes, it is quite certain that the Maine people have made the finest display in behalf of the man of their choice. The Reed quarters are in the parlors of the Southern, a magnificent suite of rooms, that have been elaborately decorated.

The largest room on the parlor floor at the head of the stairs and in normal times the "Ladies Ordinary," is the temple sacred to the Governor of New York. The walls and ceiling are profusely draped with bunting.

Downstairs, on the office floor, and close to one of the four large entrance doors of the hotel, another room is fitted up for those who are attached to the political fortunes of Senator Allison of Iowa. The Allison boom is not developing the proportions that were expected of it. The terminal railroad officials to-day received notification from the superintendent of the Wabash line that the special convention trains scheduled to start from the Hawkeye State loaded with Allison boomers had been countermanded. One of them was expected to bring 1000 Allison rooters from Des Moines alone.

In the spacious and decorated halls, corridors and public rooms of the Southern, the friends and adherents of the several Presidential candidates meet as on neutral ground without the slightest exhibition of political animosity.

The rush of incoming delegates today has been continuous, but though their increased numbers added largely to the volume of sound no change was indicated in the trend of sentiment. It still ran strongly for McKinley for first place and with no very marked choice for second place.

ENTERTAINED THE DELEGATES.

Hon. Joseph Chamberlain Gives a Reception in London—British Princes Present.

London, June 12.—Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, tendered a reception tonight to the delegates in attendance on the Trade Congress of the Chambers of Commerce of the Empire. Among those present were the Prince of Wales and the Duke and Duchess of York. A large number of the nobility, several members of Parliament and a number of society leaders were also present. The hall was handsomely decorated. The guests were entertained with an elaborate supper and music.

MR. CHAMBERLAIN

Has Sown the Seed for an Imperial Zollverein.

LIBERAL PRESS ARGUE AGAINST IT

Imperial Federation is One Name Suggested, But Others Dub the Movement as One Looking to Protection—Six Hundred Armenians Arrested.

New York, June 14.—In his weekly special from London to The Tribune Mr. Isaac N. Ford says: Free trade hostility to McKinley will be embittered by the knowledge that Mr. Chamberlain has dealt Cobdenism a staggering blow in his proposals for an Imperial Zollverein. Mr. Asquith lost no time in condemning the plan of a customs union, with free trade within and protection without the Empire, as unsound in principle, unworkable in practice and as chimerical as ideal; and the Liberal press generally has denounced Mr. Chamberlain as a protectionist playing with fire. Mr. Asquith was even so frantic as to predict the ruin of the colonial manufacturers if his zollverein system were adopted. This was hardly logical from Cobden's point of view, for Mr. Chamberlain merely purposes to subject colonial manufacturers to that unrestricted competition with British manufacturers which free traders have always affected to consider helpful and invigorating and by no means destructive to foreigners. The Liberal press finds a more adroit argument against the scheme in the increased cost of living in England which would follow the imposition of duties upon and American and Russian corn. The Congress of Chambers of Commerce found it impracticable to agree upon any precise project for a zollverein, and ended by adopting a compromise resolution in favor of an Imperial Council for discussing the whole subject.

Mr. Chamberlain has sown seed which will be scattered broadcast over the Empire. He has had the courage to risk being called a protectionist and to substitute for the usual meaningless platitudes about imperial federation a practical scheme for binding the colonies to the Mother Country by bonds stronger than sentiment. Moreover, he has furnished the farmers, who have been ruined by free trade, and the manufacturers and merchants, who are feeling the tremendous weight of German competition, an alternative policy for Cobdenism, with a name less trying to English ears than protection.

F. C. Gould hits off the situation well in The Westminster Gazette's cartoon, representing a group of resurrectionists exhuming the remains of protection. The Duke of Devonshire and Mr. Chaplin are discussing how the body shall be named when once dug up. "Let's call it Imperial Federation," remarks Mr. Chamberlain, with a smirk, but Mr. Lowther prefers to be truthful. "I'm going to call it Protection," he exclaims, with decision.

New York, June 14.—Harold Frederic, cabling from London to The Times, says: Americans seem to have taken Chamberlain's Imperial Zollverein speeches too seriously. As to whether he himself believes in the scheme I would not like to hazard a guess, but it is certain that nobody else does, either here or in the colonies, whose assent would be necessary. The explanation of his fervency on the subject lies in the fact that his Transvaal sensation has miserably petered out, and he finds it insufferable to lapse into the background for even the briefest period.

THE NEXT ROYAL WEDDING

Will be That of Princess Maud of Wales This Month—Very Few Invitations Issued.

New York, June 14.—The Sun's London correspondent says: After much tribulation and many conferences of the Queen, the Prince of Wales and the great officers of state, it finally has been decided that only 150 invitations can be issued for the marriage of Princess Maud of Wales at the end of this month in the chapel of Buckingham Palace. As these must include the Ambassadors and their wives, it is appalling to think how many high and mighty folks must be left out in the cold. Compensation for a good many of these may be found in giving them standing room in the corridors of the palace, whence they may view the wedding procession; but even then there will be left a residue or rank and fashion of the very first water. The time for intrigue is past. The guests have been bidden, and only death or disablement will cause any vacancies now. Upon the occasion of this wedding the Queen will make one of her very infrequent visits to London; more remarkable still, she will be three days in residence in Buckingham Palace, solely for the good of languishing trade, so it is said, for she still wears deep mourning for her late son-in-law, and cares less than ever for court ceremonies and the loyal shouts of the metropolitan crowds.

ARRESTED 600 ARMENIANS.

The Turkish Authorities Are Also Adopting Assassination to Get Rid of Armenian Agitators.

Constantinople, June 14.—The representative of the United Press is informed on reliable authority that 600 Armenians have been arrested in this city since June 9. A majority of the prisoners are from Rodosto. The members of the Armenian Revolutionary Committee, who on Monday last assassinated an Armenian spy in this city, and who was shot and killed by the patrol while trying to escape, was a native of Rodosto. Two hundred of the prisoners were shipped to Anatolia yesterday. The Government is using the occasion of the assassination to expel possible agitators.

THEY ARE GIVING WAY.

Physicians Commence to Realize the Value of Dodd's Kidney Pills.

OTTAWA, June 15—The inveterate reluctance to admit the success of patent medicine, usually evinced by physicians is is rapidly giving way so far as Dodd's Kidney Pills are concerned. The cases of Dr. Rose and Dr. McCormick, who published details of their recovery from diabetes and Bright's disease, through the agency of this remedy, were the first attacks on the citadel of their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been transmitted to the press, would complete what has been so auspiciously begun. The published interviews with Mr. and Mrs. Kent and the sworn statement of the former leaves no foothold for disbelief.

Li Hung Chang and the Kaiser.

Berlin, June 14.—Emperor William to-day gave an audience to Li Hung Chang, who represented the Chinese Emperor at the coronation of the Czar and who is now returning to China. In his address to the Emperor, Li Hung Chang said that China's relations with Germany were more friendly than with any other power. Li Hung Chang will make an inspection of the dockyards and the leading industries of Germany.

THE LEADER AT MONTREAL.

Program for the Week—The Church's Battle Against the Liberals.

Montreal, June 14.—Mr. Laurier arrived here this morning thoroughly pleased with his brief tour through Ontario, and ready to begin his final appeal to the Province of Quebec. Sir Oliver Mowat will be here to-morrow evening, and it was at first intended to have a grand demonstration in honor of him and Mr. Laurier on the historic Champ de Mars, but Sir Oliver is unwilling to speak in the open air, and it has therefore been decided to hold the meeting in Cochrane's Auditorium, which will easily hold 7000 people. Provision has been made for an overflow evening meeting in the open lot adjoining.

Clerical bulldozing on behalf of the Conservative party was never carried to such an outrageous extent as during the present campaign in connection with the Manitoba school question. From the beginning previous decisions have been reversed, and the instructions of Rome itself regarding the conduct to be observed by the clergy in elections have been thrown to the winds in the efforts to return Sir Charles Tupper's candidates. The church, in its eagerness to secure the election of Conservatives, is riding rough-shod over all opposition, and trampling under foot the most elementary notions of British freedom.

BOUNCED BY A PATRON.

Grand Secretary L. A. Welch, Strathroy, who for some years occupied a confidential position in the Patron order and to whom all correspondence on matters pertaining to the business of the organization was directed, has proved himself to be more than a match for some members of the Tupper Cabinet. Some days ago Hon. John Haggart announced that a great exposure of the intention of the electors of the country to defeat the Tupper Government would be made. Shortly after this great announcement there appeared a speech by Secretary Welch of the Patrons of Industry, which showed that he (Welch) was in collusion with the Tupperite party and had betrayed the interests of the order whose money he was receiving as pay for acting as secretary. The exposure is having an opposite effect to what was anticipated, and now the Government newspapers have ceased to make any reference to it. They find that since the publication of this letter no less than seven constituencies have righted their local differences and have got rid of three-cornered contests, and thus made sure the defeat of the Tupper candidates. More exposures, of course, was promised, but here is where Patron Welch bunooed the Ministers of the Crown. In the stack of letters and correspondence which he had received, the Ministers of the Crown expected to find letters from leading Liberals. Secretary Welch merely raised the corner sident Mallory's letter to him. With this as a bait, the Government readily took Patron Welch to their arms, but it is a "greenoods" game. There was nothing more in the pile but President Mallory's letter, which is a powerful factor in the hands on independent electors throughout the province in aiding the solution of local differences and coming to a union on one candidate, and not dividing the forces as Tupper and his friends had wished they should do. Patron Welch is scarcely so skilled as those who connived with him; he has not yet fallen to the depth of writing anonymous letters and signing the Queen's name to them. Had he done this on the start, he would have been more warmly embraced by the Tupper Government.

HOW IT AFFECTS BUSINESS.

A leading broker, referring to the effect of the election contest on business, states that if the Liberals are returned with a good working majority, the effect upon stocks and general trade will be beneficial. The present condition of the market is affected by the possibility that the Government may have a small majority, in which case the Remedial Bill would again come up. The Government would be defeated on it, and the state of uncertainty respecting the final issue would be prolonged. He says further, that the tariff question does not affect the position to any extent, as any changes possible in the present state of the revenue would have a trifling effect upon public confidence, as compared with the coercion question.

JOHNSON'S AWFUL DEATH.

A Terrible Gunning Accident on Saturday on the Six Nations Reserve While Plover Shooting.

Caledonia, Ont., June 14.—A most distressing accident occurred on the Six Nations Reserve about 3 o'clock yesterday afternoon, by which Mr. Festus Johnson, one of the most enterprising merchants of the village of Ohsweken, was instantly killed while out plover hunting, by the accidental discharge of his gun. Yesterday the No. 2 team of the 37th Battalion were firing at their series in the Dominion League Match at Ohsweken Pond. Mr. Johnson was a member of the team, being Color-Sergeant of No. 7 Co., and in the afternoon drove out to the targets in company with Lieut. Elliott, intending to fire his round at each range, taking with him his sporting gun, with the intention of putting in the spare time by hunting plover, which are very numerous in this vicinity. On arriving at the ranges, he decided to go and hunt in a marsh near by. It would appear that after having shot a plover, he was in the act of loading the discharged barrel of his gun, when the other barrel discharged, the whole contents entering just above the left eye, completely tearing off the whole left side of the head. It is surmised that he neglected to let down the hammer of the loaded barrel previous to reloading the discharged one, and that he struck the hammer with his knee. His hat and a portion of the skull were found about 50 feet from where his body was lying. There is not the slightest doubt but that this was purely accidental.

Mr. Johnson was one of the most popular young men in the district, and was in politics a staunch Conservative, being for the past five years president of the Conservative Association of the Six Nations Reserve. The sad accident has cast a gloom over the entire reserve, as well as in the adjoining townships, where he was well and favorably known.

BIG FIGHT IN CUBA.

An Important Battle Lasting Forty-Two Hours Fought at Najasa—Five Hundred Rebels Reported Killed.

Havana, June 14.—Incomplete details have been received of an important battle at Najasa. Unofficial reports state that Gomez was in command of the rebels, who numbered 5000 men. He made a manœuvre with the intention of leading the Spanish commander to believe he intended to surround the troops who were camped on the plains of Saratoga. The manœuvre failed of the desired effect, which was to compel the Spanish force to retreat. The rebels then attacked the troops with machetes, but the latter repulsed the charges. The battle is said to have lasted 42 hours. Gen. Godoy, with a strong Spanish force, arrived on the scene, and with his assistance the troops succeeded in forcing the rebels to retire. The rebel loss is said to have been 500, while the troops lost only four killed and two officers and 32 soldiers wounded. Later details may place the engagement in an entirely different aspect. The battle is said to have been similar to that which took place at Guasimas in the last war.

Last night dynamite explosions occurred under two bridges on the road leading to Cerro and Jesus Delmonte, suburbs of Havana. The explosions caused a panic among the people in the neighborhood. The damage done to the bridges was slight.

BRITAIN STANDS BY.

A Spanish Gunboat After the Laurada in the British Waters of Jamaica.

Kingston, Jamaica, June 13.—The alleged filibustering steamer Laurada, which arrived at Port Antonio some days ago after, it is said, having landed a large quantity of munitions of war on the Cuban coast, sailed to-day. As soon as she left port she was followed by a Spanish warship which had been awaiting her departure. Abreast of the Spanish vessel was a British gunboat. It is reported that the captain of the Laurada intends to keep within a marine league of the Jamaican coast until his vessel, which is a speedy one, outruns the Spanish warship, when he will stand out to sea. If the Spaniard fires on his ship when he is in British waters he will have the British gunboat to deal with.

EXEMPTION SCHOLARSHIPS.

The Board of Governors of McGill Decides to Abolish Them.

Montreal, June 14.—(Special.)—The Board of McGill University have decided to abolish all exemption scholarships in the several faculties. It is understood, however, that the Board has been promised a very large donation upon the distinct understanding however that the scholarships be not abolished. The donor in this instance is one of Montreal's best known citizens, and one who has already been exceedingly lavish in his gifts to old McGill. The amount which this gentlema nis said to be willing to give is close upon a million dollars, a sum which properly invested will yield a handsome revenue to the university.

Another Scandal in Berlin.

Berlin, June 14.—A scandal which has long been the talk of society has now become public property. The eminent German painter, Franz Von Lenbach, has brought a suit for divorce from his wife, who was the Countess Von Moltke, accusing her of infidelity. In order that Von Lenbach may be enabled to marry again he has left the Catholic Church, and it is his intention to wed the Countess Von Hornstein when he secures his decree of separation. Frau Von Lenbach also expects to be married again as soon as the decree of divorce is made absolute to Dr. Schweninger, who is Prince Bismarck's physician.

To Relieve the Destitute.

St. John's, Nfld., June 14.—The Government despatched the revenue cruiser Hope yesterday with a store of provisions to relieve the destitute people at White Bay. The steamer Portia, sailing from Halifax for New York this morning, took 150 emigrants. The present immigration exceeds anything in recent years.

THE WOMEN TOO.

Back Talk Not Man's Monopoly.

Mrs. Jemima Cole, Havelock, told the following wonderful story:—"For a great many years I have suffered from disease of the kidneys. The pains in my back and side were sometimes excruciating.

"My limbs were so swollen that I could scarcely lift my feet from the floor, and I was in great agony nearly all the time. I thought that I would surely die from the pain.

"I have taken dozens of advertised remedies, aut got no better during their use. I was also treated by several doctors, but am sorry to say they did me little or no good. In fact they stated that they could do me no good, which made me despair of ever getting better.

"When I saw Doan's Kidney Pills advertised I sent to W. H. Jeff & Co's. drugstore and got a box thinking I would try them as a last resort.

"The change from the start was very great and now after one month I am free from all pain. The swelling has gone down and I feel quite strong and healthy.

"I was also troubled with rheumatism and neuralgia which have completely disappeared, thanks to the use of Doan's Kidney Pills. In fact I do not think there is a medicine in the world that in such a short time could have taken me from the almost dying condition in which I was to the healthy and vigorous state that I am in now.

"I recommend Doan's Kidney Pills for their wonderful virtues in curing kidney troubles."

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely, (Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

POINTERS FOR HORSE DEALERS.

New Regulations Issued Regarding the Importation and Exportation Ports of Entry Into Canada.

Ottawa, June 14.—(Special.)—The Department of Customs has sent out a circular calling the attention of collectors to the regulations respecting the importation and exportation of horses. The importation of horses from Great Britain and the Continent of Europe is prohibited, except at Montreal, Quebec, St. John, Halifax and Charlottetown, and such other points as may hereafter be designated by the Minister of Agriculture. All horses imported from Great Britain or the Continent of Europe destined for Montreal must be inspected at Quebec during summer navigation. Horses from the United States may enter into Canada in bond at ports of Sarnia, Windsor, Amherstburg, Sault Ste. Marie, Rouse's Point, St. Armand's Station, Island Pond, Suspension Bridge (Niagara Falls), International Bridge (Fort Erie), Prescott, Lacolle, Potton, Alberoorn, Newport, Beecher's Falls, Agnes and Megantic, for transit through Canada to Montreal, Three Rivers, Quebec, St. John, N.B., Halifax, and such other ports as the Minister of Agriculture may hereafter indicate for exportation to Great Britain, Europe or elsewhere. Inspection is compulsory, whether before importation or exportation, and a certain scale of fees is provided.

A WATFORD MAN'S FATE.

Gets on a Spree at Port Huron, Spends His Money and Winds Up as a Suicide.

Port Huron, Mich., June 13.—William Saunders, an egg shipper of Watford, Ont., committed suicide here last evening by taking laudanum. Saunders came to this city Friday morning with Arthur Mandeville of Glenroy, Ont. He had a cheque for $125. In a few hours Mandeville and Saunders had spent all the money. Saunders then went to the proprietor of the Hotel Vendome, with whom he was acquainted, and borrowed $50. The two visited several houses of ill-repute and by night were again broke. During the evening Saunders borrowed 50 cents of Fred Klench, a saloonkeeper, and bought laudanum at Knill's drug store. The clerk learned that Saunders had taken some laudanum a few hours before and told him that if he wanted to live to go to a doctor. Saunders went immediately to Dr. Giffen's office. The doctor worked over him all night, but at 8 o'clock this morning Saunders died. He became very despondent after losing his money. The police are investigating the matter and a sensation will probably be unearthed. Warrants have been issued for the arrest of the proprietors of several saloons and houses of ill-repute, and Mandeville is being held by the police as a witness.

SEALS AND LOBSTERS.

The Catch This Season Not Up to Last—To Keep Canned Lobsters From Blackening.

Ottawa, June 14.—(Special.) — The Fisheries Department has received returns of the spring catch of seals by Canadian schooners taken off the coast of Washington and British Columbia. The returns show a falling off of nearly one thousand skins, the figures being 8923 this year, as against 9853 last spring. The schooner Favorite is the top-liner of the fleet, with a catch of 844, the nearest approach to her being the Dolphin and Libby, each with 502. The present is the holiday season for the sealers, as from May 1 to July 31 they are debarred from entering Behring Sea. The returns for vessels which wintered in Japan and have been following the coast seals up the coast to Behring Sea have not yet been received. It is not a little singular that two schooners owned by Indians failed to secure a single skin the whole season. An important feature of the return this year is the number of seals killed according to sex, showing that females are greatly in the minority.

The news published by The Canadian Grocer that Dr. MacPhail, professor of bacteriology at McGill, who was commissioned by the Fisheries Department to endeavor to find a remedy for the blackening of canned lobsters has been successful, gives great satisfaction here. If the lobsters are handled by a certain process which Dr. MacPhail has discovered, they will keep their color for an indefinite period without turning black or smutty. It is estimated that this process will save the Canadian lobster packers nearly a million dollars a year. The greater portion of the lobster pack is sold in England, but during the last year or two many of the best firms would not handle the Canadian product because of the tendency to turn black.

HAVE YOU CATARRH?

But One Sure Remedy—Obtain It for 25 Cents, Blower Included, and be Cured.

Catarrh is a disagreeable and offensive disease. It usually results from a cold and often ends in consumption and death. The one effective remedy so far discovered for it is Dr. Chase's Catarrh Cure.

Physicians failed to cure Geo. Belfrey, toll-gate keeper, Holland Landing road. Chase's Catarrh Cure did it.

One box cured William Kneeshaw and two boxes James T. Stoddard, both of West Gwillimbury.

Division Court Clerk Joel Rogers, Robert J. Hoover and Geo. Taylor, all of Beeton, voluntarily certify to the efficacy of Chase's Catarrh Cure.

J. W. Jennison, of Gilford, spent nearly $200 on doctors, but found no permanent relief until he tried a 25-cent box of Chase's.

Miss Dwyer, of Alliston, got rid of a cold in the head in 12 hours.

Henry R. Nicholls, 176 Rectory street, London, tried a box with excellent effect.

Dr. Chase's Catarrh Cure is for sale by any dealer, or by Edmanson, Bates & Co., Toronto. Price 25 cents including Blower.

Coughs, colds and bronchial troubles readily cured by the latest discovery, Chase's Linseed and Turpentine. Pleasant and easy to take. 25 cents.

BASEBALL SCORES.

Results of the Games Played in Two Leagues on Saturday.

Springfield, Mass., June 13.—Dineen was an enigma to the Springfields this afternoon, five scattered hits being all they could get. He was somewhat wild, however, hitting two men and giving several bases on balls. That accounted for three runs, and Smith's two-bagger, with Gilbert's scratch single, was responsible for the other. The Canucks had no trouble in finding Coughlin, who went to pieces in the first innings. Score:

MR. GORDON BROWN DEAD.

A Much Esteemed Citizen and Long Time Journalist Dies at the Age of 68.

Toronto, June 15.

Mr. J. Gordon Brown is dead. He died on Saturday morning at Guelph, whither he had gone to visit his sister and for a short rest. He was the brother of Hon. George Brown, who was murdered by an employe some years ago, and succeeded him as editor of The Globe. Fourteen years ago he retired from journalism and became Registrar of the Surrogate Court, a position that he held at the time of his death. Mr. Brown's health had been failing for years, and only diligent care and attention on the part of his family and medical advisers enabled him to keep up. No man was more esteemed than Mr. Brown. Possibly without the rude vigor of his brother, he yet wielded a trenchant, but, at the same time, a considerate and far-seeing pen. Born in Alloa, Clackmannanshire, Scotland, Nov. 16, 1827, about 6 years after his famous brother, he was educated in Edinburgh and New York. At 16 years of age he joined The Globe, remaining with that paper for 39 years, excepting for a short time, when he filled the position of editor of The Quebec Gazette, and traveled in Europe as correspondent of several journals.

VICTORIA DISASTER.

Railway People to Blame for the Loss of Fifty-Five Lives.

Victoria, B.C., June 13.—After careful investigation into the circumstances of the recent Point Elice bridge disaster, the coroner's jury has rendered a verdict holding the Consolidated Railway Company directors responsible for 55 lives. The City Council was arraigned as guilty of contributory neglect, and the officials of the corporation were absolved of personal responsibility.

It was found that the bridge was safe for ordinary traffic, and the accident would not have occurred but for the improper crowding of the cars which went through the structure. The bridge was found not to have been constructed according to original specifications.

ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.

WINNIPEG, June 1.—The effects of the regular wave of sickness which sweeps over this portion of the Dominion in the spring, are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well known under the name of Dodd's Kidney Pills. The recovery from Bright's disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households; its fame having penetrated into the remotest parts of the province and Northwest Territories.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses 25 cents. Sold in Peterborough by Wm. Madill, druggist.

MR. LONGLEY IS OPTIMISTIC.

The Attorney-General of Nova Scotia Says the Liberals Will Win.

Halifax, June 13.—Attorney-General Longley is in the city to-day, having come from Annapolis County to close up business of the department and resign the office, when he will return to the contest for the Commons in Annapolis. In an interview, speaking of the situation in western Nova Scotia, he said: "It is a pretty well assured fact that the Liberals will carry every seat west of Halifax. The indications are distinctly and decidedly in favor of a change. My advices from the upper provinces point more distinctly every day to an overwhelming victory there; I have no more doubt of Mr. Laurier's success than I have of the sun rising to-morrow. I say this in no boasting spirit, because prophecy is cheap and boasting vain, but a man must be blind who cannot see that there is to be a great and overwhelming victory for the Liberals."

Some people are constantly troubled with pimples and boils, especially about the face and neck. The best remedy is a thorough course of Ayer's Sarsaparilla, which expels all humors through the proper channels, and so makes the skin become soft, healthy and fair.

Norway Pine Syrup strengthens the lungs and cures all throat troubles, colds, etc.

LAURIER AND HALL

The Evening Demonstration

THE NIGHT CROWNS THE AFTERNOON.

Another Great Meeting.

ADDRESSES BY HALL, COX, BERTRAM AND LAURIER.

A BOOMING BON VOYAGE.

The Leader's Send-off Amidst Wild Enthusiasm.

GRAND FINALE TO A GRAND DEMONSTRATION.

A Brilliant Torch-Light Procession—Cheering Thousands Surround the Station — Enthusiasm at Concert Pitch to the Last—Finis Opus Coronat.

For twelve magnificent hours—from 11.20 in the morning till 11.45 midnight—there was no pause in the flow of the tidal wave of enthusiasm that swept over the town in honour of Hon. Wilfred Laurier. Never in the history of this town has a great public man received a more magnificent reception. It would have been thought that the splendid enthusiasm of the morning culminating in the immense mass meeting at the skating rink would have exhausted the resources of Liberal loyalty to the Liberal leader, but those who thought so reckoned without the knowledge of the deep and fervent admiration for Laurier, which, deep and fervent as it is, that admiration of his grand statesmanship and magnetic personality and political record was intensified into affection by personal contact with the great Canadian and under the spell of his matchless eloquence. While the Liberal leader has reason to be proud and gratified with his magnificent reception in Peterborough, in a personal sense the practical results are still more gratifying. His presence has given a mighty impulse to the Liberal campaign and developed an enthusiasm and presage of triumph that will last, till it culminates in both East and West Peterborough and the Dominion, in rejoicings on our signal victory. It is to be remarked that in a strictly Conservative riding, in a town where political feeling is tuned high, not one discordant note mingled with the chorus of acclamation that greeted Mr. Laurier during his twelve hours in Peterborough. He is a leader of whom we may well be proud. While others have to apologize for their leader and his record, Liberals have nothing but praise for the man they are proud to follow.

At the close of the evening meeting Mr. Laurier was given a "send-off," heartier, if possible, than his reception. The enthusiasm which greeted his coming was intensified by half a day's personal contact with the great Canadian, and the current of popular approval swept on, gathering strength as it flowed.

Hon. Mr. Laurier was escorted by a score of carriages from the rink to the Central Park, where a magnificent torch-light procession was organized. The Bicycle Corps led, each wheelman carrying a blazing torch. These were followed by enough torch-bearers on foot to swell the number to four hundred. These were followed by the Fire Brigade and Sons of England Bands, then the Leader and his entourage, followed by a long line of carriages. The scene, looked at from Brock street, down the long slope of George street, was a most brilliant one—a channel of waving flame flowing between living banks of cheering people. On arriving at the station, Mr. Laurier was encompassed hundreds deep with enthusiastic thousands, who made him welcome with vociferous cheers, and during the fifteen minutes' wait for the train there was not a minute's cessation in the applause that filled the air. When Mr. Laurier boarded the train the bands struck up Auld Lang Syne, and then a final burst of applause that drowned the roar of the train, were the last sounds that fell on his ears as he closed the final stage of his triumphant Ontario tour.

Following is a report of the addresses at the afternoon and evening meetings:

The Liberal mass meeting at the rink on Saturday was by far the largest and most enthusiastic assemblage of the electors which ever took place in the district.

As Mr. Laurier entered the rink the audience rose en masse, and cheer after cheer was given for the Liberal leader, whilst the ladies in the galleries gave the graceful handkerchief salute, which was gallantly acknowledged. As the popular Leader of the Liberals ascended the platform, Mr. J. R. Stratton led three cheers for "Laurier, Mowat and Hall," and they were given with a vim which made the hall ring again.

Dr. R. W. Bell opened the meeting by announcing the programme of the afternoon. At the mention of

SIR WILFRID LAURIER'S NAME

the enthusiasm of the audience overflowed all bounds and the big building fairly shook with applause.

Amongst those seated on the platform were Messrs. Robert Walton, J. W. Fitzgerald, John Moloney, R. R. Hall, G. Larmour, J. Logan, Geo. Millan, E. B. Stone, Wm. Eyres, Wm. Young, D. Kennedy, Chas. Smith, L. T. Young, D. H. Douglas, W. Mather, Jacob Scott, Chas. McGill, Mayor Yelland, J. W. Crosby, Rev. Wm. Beer, Rev. J. J. Rae, L. O. Legendre, A. Latelliar, — Moffat, Macfarlane Wilson, G. K. Martin, E. B. Edwards, Joseph Kidd, G. J. Horkins, Dr. Carmichael, Dr. McGrath, D. Belleghem, J. B. McWilliams, J. R. Stratton, Wm. Radkins, W. A. Stratton.

Mr. Peter Hamilton, who occupied the chair, was the first speaker and in his opening remarks criticised the Dominion Government severely for not revising the voters' list up to the present year, instead of going to the country on a list upon which were the names of men who had been dead for ten and twelve years. He hoped that the young men who were disfranchised would remember that this injustice should be laid at the door of the Conservative Government.

As a representative manufacturer of agricultural implements he stated that the N.P. did not give impartial protection to all industries. In his own case the protection was not of a nature which was

AT ALL RELISHED.

In 1878 the duty on pig iron, from which his implements were worked up, was 17½ per cent., but in order to protect the pig iron industry in Canada, the tariff had been raised to 45 per cent. Thus while the pig iron industry was protected, it was at the expense of the manufacturers of agricultural implements. Discrepancies such as these existed in the present tariff list in hundreds of cases, partiality being shown to those industries which would contribute to the greatest extent to the party funds. In consequence of the increased tariff which had thus to be paid, the manufacturer was unable to pay as high wages as he would otherwise be able to do. The action of the Conservative Government therefore reacted upon the labouring classes.

At the conclusion of his lucid remarks on this point, Mr. Hamilton was loudly applauded.

When

HON. G. W. ROSS

was introduced to those assembled it was a signal for another outburst of enthusiasm. In speaking he laboured under the disadvantage of a weak voice, occasioned by the yeoman service which he is doing on the stump for the Reform party. He stated in opening that though he had addressed many audiences in Peterborough he thought that on this occasion the town had excelled itself in its efforts to pay tribute to the great Liberal leader. (Cheers.) He had been with Mr. Laurier on a portion of his trip, and the interest in the meetings had steadily grown from the start, the Liberals rallying around him in a manner to make the party proud. Wherever Mr. Laurier had appeared he had spoken with the one voice. He had the one policy for all, for the manufacturer and for the labouring man.

Compare these methods, said the speaker, with those of Sir Charles Tupper, the leader of the Ministerialists, though not of the better class of Conservatives, who would not countenance his tactics. (Cheers.) Whatever Sir Charles Tupper goes, continued Mr. Ross, he considers his duty to offer a bribe to the locality which he is addressing. In Winnipeg he pledged the Conservative party

TO GIVE A GRANT

of four millions to the Hudson Bay Company. In Halifax the Government was to subsidize a fast Ocean steamship line, and in Trenton the Trent Valley Canal's completion to that town was promised. He stated, further, that it was he who had invented the canal. He had discovered and made Canada. Without him anything that was made was nothing.

If he had invented the canal in 1873, Mr. Ross queried, as to what he had been doing ever since that it was not completed. Although Sir Charles was able to find plenty of money for boodling and for lining his own nest, he was not able to find more than a dollar a day for the workingmen in this same Trent Valley Canal. (Hear! hear!) The working men on the Curran Bridge had received three dollars per day, four dollars for over-time, and five dollars for Sundays. The teams were worth five dollars a day, $7.50 for overtime and $10.00 for Sundays.

Ask him, him, continued Mr. Ross, when he comes here on Thursday, how it is that he cannot pay the hard-working men of Peterborough two, four or six dollars a day, as was done in the Curran Bridge, instead of a

PITTANCE OF ONE DOLLAR AND $2 FOR MAN AND TEAM.

Sir Charles had gone through the country making the most lavish promises, which he would never be able to fulfil, as on the 23rd of June Wilfred Laurier would be elected premier, to do justice to all parties (prolonged cheers.)

The biggest day Canada has ever known will be when the government has been placed in the hands of honest men, who will act for the benefit of the country without consideration for race or creed.

Mr. Ross then took up the tariff question and stated in opening that the Liberals had been charged with being the enemies of the manufacturers. No man, said he, can nail one statement of the Liberals to prove it. As Mr. Hamilton had already stated the manufacturers, with the exception of a favoured few, fared better under the Liberal regime than under that of the present government.

At present the Finance Minister had too much power. He had it within his prerogative to alter and amend the tariff to such an extent as to directly benefit those who were willing to share their gains with the Conservative party. This was

CERTAINLY INFAMOUS.

What we want is a tariff, said he, which will not discriminate against me for the benefit of another, but a tariff which will be of equal benefit to all and protect all industries without partiality.

The Conservatives state that they protect the industries, continued he, and we have shown that they do not and besides what do they do for the workingmen to protect him against American and European labour?

The Liberals have no quarrel with the manufacturers and by the introduction of a revised tariff do not intend to injure them. Look at England, said he, where they have no National Policy and can you point at a country in the world that is so prosperous. To all climates and countries under the sun she has free trade. This, of course, would be impossible to Canada as she has a revenue to raise, but the masses should be relieved of the burden by such a revision of the tariff as would make the duty on silks and satins higher instead of lower, as at present, than that on all the cheaper imported goods. The present tariff was most unreasonable and the policy of the Liberals was to

RELIEVE THE MASSES

of the country and transfer the burden to the shoulders of the rich, who were better able to bear it. At present the tariff was so arranged that on the rich man's jewelry the duty was 25 per cent. and on the poor man's spade 35. On champagne it was only 35 per cent., whilst on rice it was as high as 60 and 68. Nails, without which no man could even build a henroop, were taxed to the extent of 70 per cent.

We have no quarrel with the manufacturer, explained Mr. Ross, and will admit raw material free as far as a revenue tariff can reserve the market for them. It is not the manufacturer we are after but the combines.

The speaker then took up the question of the expenditure which the country suffers under a Tupperian Government. He promised that the audience would be delighted to know that Peterborough county only carried a debt of $2,000,000 and that every resident owed just $50 and a man having a family of ten carried a debt of $500. An increased debt of $113,000,000 had accumulated during the last 17 years. Notwithstanding the hard times the Conservative Government had

RECKLESSLY INCREASED THE DEBT

to this extent. In England, John Bull had paid off a debt of $500,000,000 in this time while little Canada had plunged deeper into the abyss.

The Protectionists claimed that Canadian manufacturers could not hold their own in the markets of the world unless protected. Mr. Ross did not believe this. Mr. Hamilton had shown that he was taxed instead of being protected and yet he had prospered. See, said he, what we did with our unprotected horses, poultry, cattle, cheese and honey and our school system in Chicago (cheers). Why, we beat the world,—(Cheers.) Tell me after this that you want to put Canada into a cradle—no, Canadians are made of better stuff than that. Theirs is the strongest

BLOOD AND SINEW

in the world. It comes from England, France and Germany and we should be able to hold our own against the universe, with fairplay.—(Cheers.)

In commenting on the reckless extravagance of the government the speaker stated that in consequence of it $300,000 in gold had to be shipped to the old country as interest every Saturday night. Don't you like that? said he. Isn't it a splendid thing to have our pockets rifled every Saturday night like that? The Mowat Government had $1000 a day interest coming in through their wise investments. So don't you think it would be a good thing to send Sir Oliver to Ottawa to teach them economy there.—(Prolonged cheers.)

Don't you think that it is possible, asked he, to place more debt on the town than you can afford to carry?

The Liberals would not object to the borrowing of money to people the Northwest, but it is entirely different when it is spent in bonusing the Hudson Bay Railway or in building Tay Canals, Curran Bridges or Langevin Blocks and overpaying the contractors so as to get a refund for the election fund.

A Voice—How about the Trent Valley Canal?

Mr. Ross—The country is canalled from one end of the country to the other with corrupt practices! (laughter.)

CONTINUING HIS REMARKS

anent the extravagances, Mr. Ross stated that in Mackenzie's regime $882,000 had been paid per year to the departmental clerks. This, however, was not sufficient for the present government which had increased the staff until $1,423,000 was paid annually in wages.

When Tupper comes ask him if he can justify this.

Can you afford it? I can't. They have already borrowed $113,000,000 and last year there was a deficit of $4,000,000. In face of these facts the annual expenditure has increased by fifteen million dollars. It came out of you, gentlemen, and out of the taxpayers.

It cost $1,700,000 to run the post office in Mackenzie's time; now it costs $3,739,000.

Can you afford it?

Mr. Ross then took up the pension list and criticized it in detail and concluded his statements by urging that there be a rebellion against such extravagance. A quiet, peaceable but intense rebellion, not by bullets or bayonets but at the ballot box.

We want reform, said he, and we have it represented in the distinguished gentleman we have on the platform to-day (cheers.)

This appeal to passion, race and prejudice which Sir Charles Tupper is conducting, is unworthy, said he in conclusion, of the leader of a great country. We make no such appeal, but are confident that we can go to the polls on the 23rd of June, and vindicate the policy of the Liberal party. (Cheers.

MR. LAURIER'S ADDRESS.

Dr. Bell then stepped forward and read the Honourable Mr. Laurier an address from the ridings of Peterborough, at the conclusion of which Mr. D. O. Legendre read an address written in French to Mr. Laurier. Mr. Laurier said he would make a reply to the address in French in the evening. In the meantime he wished to thank the citizens of Peterborough for their very kind address in English. If he had any fault to find with their address it was that it flattered himself too much. The French address was presented to him by a gentleman who was a native of the town from which he (Mr. Laurier) had come. He had known the gentleman who read the address from childhood.

"This is my second visit to your city," said Mr. Laurier, "I was here some ten years ago. If I understand the address rightly I am welcomed, not only by the Liberals, but by the Conservatives as well, and I feel highly honoured indeed." He said, "I am a Liberal and have been one all my life, and I did not come here to press my convictions upon any one, nor to find fault, but I respect all that agree with me. I am willing to say what I think is truth. The Conservatives are as truthful as the Liberals, but perhaps I may be warranted in saying that whilst the Conservatives do not deny their convictions, still in their hearts there are convictions that the man at Ottawa (the Hon. Mr. Tupper) does not represent the Conservatives' convictions. This is my second visit, as I said before, to the city of Peterborough. Some ten years ago, when I was less known to the public than now, I have some peculiar recollections that the editor of the ministerial paper of that time had given me such a character, had represented me in such colours, that when the people of the town saw me they were almost astonished to see that I had no horns and no tail and no cloven foot and that I did not

SMELL OF SULPHUR.

Now sir, I once more beg to tender my thanks to the Canadian people who have known me for some ten years. I am really a man, the same as everyone else. I intend to do better than the men who have been in power at Ottawa. I am pleased with the practical speech of the worthy chairman, Mr. Hamilton, in which he spoke of the National Policy and also the Dominion Franchise Act. There are names of men on the voter's list who have been dead and in their graves for years. Well they have no right to vote. They cannot bring the dead to vote. This is a very strange thing but I do not know where they are to come from. I do not think they came from the realms above, because they were in favour of the Tupper government (cheers) but after the 23rd they shall remain forever sleeping in their graves. We shall take care that the Dominion Franchise Act shall be wiped out existence. If I get in power the Government will have a great task before it, that of doing away with the infamous Franchise Act. We shall give a better government and better times. Sir Charles Tupper says we are having good times. I never discuss that question. I leave it to yourselves to judge.

You all know Sir Charles Tupper. Surely of Sir Charles Tupper there is no occasion to say anything, because he never misses an opportunity of speaking for himself. It would be in vain for one to attempt to

GIVE HIM A CHARACTER

or to attempt to let you know something of him which you do not know already. Anyone who has read Sir Charles Tupper's speeches knows what a great and what a big man he is. Of course we knew it before, but we never knew it as we know it now, since we have had the opportunity of perusing the speeches that he has delivered during the last three or four weeks since he became the Premier. We thought that there had been some great men in Canada, but we know now that all the great men who have figured in the history of the country are simply pigmies in comparison with Sir Charles Tupper. We thought there were some great men who had something to do in making the history of Canada. We know now that all that has been done by anyone was only a shadow in the light of what had been done by Sir Charles Tupper himself. We thought that Sir John Macdonald for one and Mr. George Brown for another had something to do with Confederation. We know now that the work of Sir John Macdonald and Mr. Geo. Brown in forming the Confederation was simply the shadow, and that the real work was done by Sir Charles Tupper himself. And we know now that

THE CREATION OF THE C. P. R.

was the work of Sir Charles Tupper—and not of such men as Sir John Macdonald and others. We have it on the authority of Sir Charles Tupper himself that the history of Canada is the history of Sir Charles Tupper. (Great laughter.) He uses the very words. You who have been studying the history of Canada have been under the impression that the country was discovered by Jacques Cartier. It is all a mistake;—Sir Charles Tupper discovered Canada. (Laughter.) Sir Charles Tupper says that in a political career extending over forty years he was never guilty of telling a falsehood! (Laughter.) Now, Sir Charles Tupper has favoured us at the opening of this campaign with quite an antidote when he says he has been so truthful. He says the Government has established cold storage centres. Are they in Montreal or in Toronto? I cannot find them. This cannot be called a falsehood, as Sir Charles Tupper never stated a falsehood. It is not a falsehood, but still it is not altogether according to the truth. Again, he says the National Policy has made the country prosperous. Whether the country is prosperous or not is a question which, for my part, I never discuss when I appear before an audience like this, or any audience, because what is the

USE OF DISCUSSING

a question like that? If the people are prosperous they have the answer in their pocket, and it is there I refer them for the proof of that.

Are you prosperous or not?

Has the National Policy made you rich? Sir Charles Tupper says it has made you rich. I leave it to the Canadian people whether they are satisfied with the present government or whether they want a change. When Sir Charles Tupper was in England he received a salary of $10,000, with an addition of $2,000, and when he was enjoying that salary no doubt he would have said the people of Canada

LAURIER AND HALL.

Continued from Fourth Page.

must be pretty well off to pay me such a salary. (Laughter.) When Sir Charles Tupper was in England receiving his $12,000, he had a son at Ottawa, who, because he was the son of his father chiefly, not that I want to say he is void of ability, receiving $7,000. If the people of Canada can do so much for the Tupper family they must be prosperous. When he reflected that he had another son, Mr. Stuart Tupper, an able lawyer, I admit, who received a salary of $10,000 from the Canadian Pacific Railway, not because he is an able lawyer, but because he is the son of his father, and when

SIR CHARLES REFLECTED

that he had a son-in-law receiving a salary of some $5,000 a year, he (Sir Charles) had good reason to think the country was prosperous; if the people of Canada could do so well for his sons and his son-in-law, without counting their sisters, cousins and aunts, he had good reason to think so.

I assert that the people need and want a change in the government. The Liberal Government does not believe in the National Policy. We believe in the policy of a revenue tariff. The government impose certain duties, not with a view of collecting a revenue, but simply with the view of favouring special interests. The policy we believe in is the policy of levying a customs duty, first of all, for the purpose of finding the revenue of which we stand in need. That is to say, to levy a customs duty with the view of collecting a maximum of revenue with the minimum of taxation. Now, I want to point out to you upon this occasion that, in addition to the many reasons which we had up to the present time, there is now another reason, which must strongly appeal to the Canadian people—preferential trade.

And now the principle is proclaimed that there shall be

PREFERENTIAL TRADE

within the Empire at large; that is to say, that England and her colonies should trade upon a footing of preference over other nations. Imagine what would be the consequence if the products of Canada—the wheat, the barley, the oats, the butter and the cheese—which we are sending to England, were to be accepted in the British market on terms of preferance over the products of the United States, of Russia, of all the other countries which are competing with us in that market. The advantages are obvious, so obvious that the moment I saw the idea I jumped at it and immediately delared myself in favour of it. But this boon can never be accepted on the basis proposed by Sir Charles Tupper. Sir Richard Cartwright and Senator Scott were said by Sir Charles Tupper to have scoffed and laughed at the idea of preferential trade. That was not correct, but they had laughed to scorn the idea of preferential trade as proposed by Sir Charles Tupper; and there is a great deal indeed to laugh at in that, for in his manifesto he insists that the

NATIONAL POLICY

is to be maintained. Well, the National Policy, if it means anything, means tariff against not only the products of other nations but against those of England herself. The labour of Europe is to be shunned and our own labourers are to be protected against the pauper labour of Europe and of England. So, after an experience of eighteen years Sir Charles Tupper tells the Canadian people that the basis of his appeal for the suffrages of the Canadian people is the maintenance of the National Policy. Mark the words, "the maintenance of the National Policy"—the maintenance of the protective principle not only against foreign nations but against England herself. Now, sir, I have this to say to Sir Charles Tupper and to the Conservative party at large, that if we want to obtain preferential trade, if we want to have our products admitted to England in preference to those of other countries, we must be prepared to give something in return for

THAT GREAT BENEFIT.

What is it that we should do now? We have been told by Mr. Chamberlain, who is the father of the idea to-day, and we have been told by the Times newspaper, the greatest of all the expositors of public opinion in England, that the only way that we can obtain a preference for our products in the English market over the products of foreign countries is that we must sacrifice in so far as England is concerned the policy of protection. Sir Charles Tupper says the principle of protection is to be maintained, not only against foreign nations but against England herself, and the only basis upon which we can have preferential trade is by adopting a revenue tariff.

Mr. Laurier then quoted the statement of Mr. Chamberlain that if the principle of a revenue tariff were to be adopted by the colonies there will be a reason for calling a council of the empire, and he could not but think that something like a satisfactory and workable arrangement might be arrived at. He also quoted the London Times as follows:—"Tariff for revenue is to be accepted as a fundamental principle for that agreement. It is only

TARIFF FOR PROTECTION

as between different parts of the empire which must be abolished. If you want to have preferential trade, a tariff for revenue must be adopted, but you cannot have preferential trade, as long as you have protection."

Mr. Laurier went on to say that Sir Charles Tupper had said that he (Mr. Laurier) had apparently misunderstood Mr. Chamberlain's remarks in reference to protection. Mr. Chamberlain only meant that one colony could not have protection against another, but that one colony could have protection against the motherland. Mr. Laurier said that the principle laid down by Mr. Chamberlain was that there must be no protection between the members of the empire, whereas Sir Charles Tupper had said that there must be no protection between one colony and another, though there might be protection between one colony and the mother country. Mr. Chamberlain had further said: "The principle which I claim must be accepted, if we are to make any, even the slightest, progress, is that within the different parts of the empire protection must disappear, and that the duties must be revenue duties and not protective duties in the sense of protecting the products of one part of the empire against those of another part." Mr. Laurier thought that it was Sir Charles Tupper and not he that had misunderstood the language of Chamberlain.—(Cheers.)

The Conservative party like to tell the workingman we are his enemy, and here is a cartoon bill which I happened to get hold of, which represents me as screwing down the labouring man. It is meant to so represent me, but in this case I am working the screw from right to left, thereby unscrewing the press and giving the workingman his liberty. (Loud and continued applause.) Do you remember the case of Balaam, in the Sacred Book, where he was on his way to persecute the people of God, and suddenly the ass upon which he was riding found speech and said, "You are a greater ass than the ass upon which you are riding if you persecute the people of God;" and Balam went and did all he could to help the people of God. In reference to the cartoon poster I would be very thankful if they would distribute them all over the land, as it is indeed a case of what was intended to persecute has turned out a blessing.

THE SCHOOL ISSUE.

Mr. Laurier then turned to a consideration of the school question, and prefaced his remarks with the statement that he ban only to repeat what he had stated before, both on the floor of the house and elsewhere. The Government had not the courage to deal with the question in a frank and open manner, and it would never be settled until there was at the head of affairs a man who had courage enough to do right.—(Cheers.) The principle of Provincial rights is the basis of Confederation.—(Cheers.) But, strange to say, an old idea, not in accordance with that principle, lingers in the constitution; and since it is there, it should be met in a statesmanlike manner. The Government have adopted a double-faced policy, having a face for each province; a good, pious Roman Catholic face for the Province of Quebec, and a stern Protestant face for the Province of Ontario. (Cheers and laughter.) Day after day he was proclaimed as a traitor to his race and religion because he had refused to vote for the Remedial bill. (Cheers.) He had only this answer to make:—That he was

TRUE TO CANADA,

because being true to Canada he was at the same time true to his race. In Ontario the Conservatives say that if Laurier comes into power he will bring in a more drastic measure of coercion. In Winnipeg, at the meeting held by Sir Charles Tupper and Mr. Hugh John Macdonald, it was said that whichever party triumphed the Greenway Government would probably settle the question after the election. That statement was never heard from the Conservatives in the Province of Quebec. The inducement held out there was that the question is to be settled by the Tupper Government. In Winnipeg the qualification was added that if Mr. Laurier triumphed Mr. Greenway would do more for the Roman Catholics than he would if Sir Charles Tupper triumphed. In Quebec Sir Charles said, Will you turn out the Government to put in power a French-Canadian Roman Catholic Premier who is a traitor to his race and religion. (Cries of "shame" and hisses.) That was a criminal statement of Sir Charles Tupper, and against it he, Mr. Laurier, desired to secure the sentiment, not of his own people of Quebec, but of the English-speaking people of Ontario. He was there to say not that he would give either a large or a small

AMOUNT OF RELIEF

to the minority, but that, assisted by his friend, Sir Oliver Mowat, he would settle the question, not by appeal to any class, but by appeal to the sense of justice which was implanted in everyone by the Creator. He was a Roman Catholic and a French-Canadian, and there might have strong sympathy for the minority. But as he himself would not be coerced by anybody, so he would not consent to force coercion on anybody. (Prolonged cheering.) He knew at the time that he accepted the leadership that Sir Charles Tupper and others of his ilk would make political capital out of the fact that he was a Roman Catholic and a French-Canadian, at the expense of the Liberal party. But it was not to Tupper but to the citizens of Canada that he was appealing. (Cheers.) He was a British subject and a Canadian citizen, and as such he stood upon a footing of equality with Sir Charles Tupper. And he had never appealed to the religious prejudices of any man. (Cheers.) In conclusion Mr. Laurier said that his heart was filled with the kindness and cordiality which had been accorded him everywhere in Ontario, and nowhere perhaps more so than in the good town of Peterborough. In conclusion I ask you to vote for Mr. Hall and Mr Lang. (Cheers.)

The meeting closed with cheers for the Queen, Mr. Laurier and Mr. Hall, while the band played "God Save the Queen."

LAURIER AT MR LEPLANTE'S.

At the conclusion of the afternoon meeting, Mr. Laurier and several citizens:—Mr. J. R. Stratton, Mr. Richard Hall, Mr. J. P. Hurley, Dr. Bell, and about a score of the French Canadian citizens, drove to the residence of Mr. N. T. Leplante, where an elegant luncheon was served. After luncheon the party assembled on the lawn, where Mr. Laurier entertained his friends with a recital of the chief incidents of his Ontario tour. Later in the evening the band came down and discoursed several selections. At 7.45 the party entered carriages and proceeded to the rink, being met on the way by a large detachment of the bicycle corps.

THE EVENING MEETING.

Again in the evening there was an immense attendance, especially when it was taken into consideration that it was the second meeting of the afternoon. While the men were abundantly represented there was a very large attendance of the ladies who listened with evident interest and whose presence was gracefully recognized by the gallant Mr. Laurier. The attention was excellent all through and the applause that greeted the Liberal Leader's rising was repeated frequently and warmly during the evening.

Dr. Bell occupied the chair. After references to the afternoon meeting his suggestion that the contest would result in a Liberal victory was echoed with ringing cheers. He was highly pleased with the attendance, which was especially large considering the great numbers that attended the afternoon meeting. He was sure the meetings would have good results. He referred to the personal benefit that Sir Charles Tupper and his family had received at the hands of the Canadian people. Though Sir Charles had made a big haul on the public treasury Mr. Laurier would make a bigger Hall on the 23rd of June. In introducing Mr. Geo. Bertram, of Toronto, Dr. Bell said he was a manufacturer who was strongly in favour of the trade policy of the Liberal leader. (Cheers.)

MR. GEO. BERTRAM.

Mr. Bertram on coming forward to speak was very warmly received. Referring to the different creed and race cries raised by Sir Charles Tupper, the speaker said that such an agitation was hostile to the best material interests of the country. If we had hope of prosperity in this country we must sink all feelings of passion and prejudice and he believed that the people would take this view on the 23rd of June. His remark that Hon. Wilfred Laurier possessed the qualities of character and the confidence of the people of the country to the extent that he did, was the most calculated to restore harmony, was received with ringing cheers. Speaking of the trade question, the speaker said that an unsettled fiscal policy and lack of stability of the tariff, was extremely injurious to the public interests. He deprecated the imposition of taxes for the benefit of one class at the expense of another. The speaker spoke in favour of a revenue tariff as something that would raise money for public purposes, and at the same time afford protection to the native manufacturer, as against foreign importations. The question of free trade was principally a question of geography, and the local conditions were what decided the question. What was best for Canada was what we wanted. The speaker maintained that

FREE TRADE WAS NOT AN ISSUE

in this contest. Our peculiar position precluded that policy. There was no difference between the two parties as to the means of raising a revenue. The requirements of the public service prevented us giving back to the Mackenzie tariff of 17½ per cent.—we would have to have a higher tariff, and our taxes would be dependent upon our rate of expenditure and that meant that our tariff must be at least be at least 25 per cent., so that the manufacturers of the country would be amply protected and that is why so many Liberal manufacturers were supporting the platform of the Liberal party. A Canadian manufacturer who could not compete with a foreign competitor at a rate of 25 or 30 per cent. did not deserve the name of Canadian. (Cheers.) Taking agricultural implements, the speaker maintained that the agricultural manufacturers under a tariff of 20 per cent. were practically carrying on business under a revenue tariff. Half the manufactories of this country were in the hands of Liberals, and they were not such fools as to support a suicidal policy—one that would hurt their own business. The speaker spoke of a cotton factory in Dundas, costing $150,000, and employing a thousand hands in Mackenzie's time, shut down and putting one thousand out of work, and it was still—thanks to the combine—paying a dividend. The N. P. was a positive injury to manufacturing establishments such as the Electric Works and the Peter and Wm. Hamilton Works. The latter enjoyed a protection of only 27½ per cent., while the tax on pig iron, a prime necessity, was 50 per cent. on the invoice price of this raw material. This was a great handicap to the manufacturer in such lines, and the speaker asserted that a revenue tariff, such as Mr. Laurier would introduce after the 23rd of June, was the best for the manufacturer. (Loud cheers.) The speaker instanced

ABSURDITIES OF THE TARIFF

—such as steel plate of ¼ inch being taxed 12½ per cent., while the same kind of plate, 3/16 of an inch thick, was 50 per cent. (Laughter.) The tariff of the N.P. bristled with such absurdities as this, and we were told that the N. P. was a sacred thing that must not be touched. The National Policy had failed to keep its promises of retaining the population of the country, not to speak of increasing it. What this country needed was population. We should have fifty millions, instead of five millions. (Cheers.) To accomplish this we must have a policy that would attract population from abroad—a policy that would give equal privileges to all and special privileges to none. (Cheers.) There was no use in discussing the question whether we were prosperous, each one could tell that for himself. The speaker asserted that merchants and business men had more difficulty in making ends meet than they had in the time of Mr. Mackenzie. The depression in trade was something to be very greatly deplored. In closing he paid an eloquent tribute to Hon Mr. Laurier, whose place in the popular affections was a high one. He was not only trusted and admired but he was loved (cheers), and in supporting him in the present contest the people would not only be benifitting themselves but doing a service to the country.

MR. HALL.

Mr. Hall, on coming forward, was received with three hearty cheers, and said at this late hour he did not intend to more than appeal to the meeting for their support on behalf of Mr. Laurier. He was sure that the principles of his party were right, and that they would triumph in this contest. Mr. Hall has great reason to be intensely gratified with the grand enthusiasm of his reception which portends that he will receive a great support and redeem West Peterborough.

MR. GEORGE A. COX

was most cordially received. He said that he would not attempt a speech, for he had not made one since he had tried to attempt to represent West Peterborough several years ago, but he had since been trying to do all in his power to build up the town of Peterborough. (Cheers). The speaker said that thirty-eight years ago he had come to Peterborough, and the most of what he had made was invested in bricks and mortar in Peterborough and in manufacturing enterprises and he asked if it were reasonable to suppose he would support a policy that would injure his business and that of his friends and leave his stores and houses vacant.—(No, no and applause). He believed in his heart that it would be for the benefit of the country—and a great benefit too—to adopt the policy of the Liberal party (cheers) and one that would commend itself to the good sense of the electorate on the 23rd of June. Mr. Cox closed his remarks by making a strong appeal to the electorate to give Mr. Hall their enthusiastic support. He had great respect for both Mr. Hall and Mr. Kendry personally, but he opposed Mr. Kendry on account of his political platform and associates.

THE LEADER.

When Mr. Laurier stepped to the front of the platform the ovation which was accorded him, as in the afternoon, was absolutely without limit in its enthusiasm. Every man and woman in that vast concourse of people arose, cheered and wildly waved hats and handkerchiefs in the air. The prolonged demonstration partially subsided, but it broke forth again and again, and only came to an end when three mighty cheers had been given for the coming premier.

Mr. Laurier explained that he had been requested to speak a few words to his French Canadian fellow-citizens in their own language. He thanked them for the warm welcome they had given him, and the beautiful words of their address. He asked them to stand firm by the principles of their race, and to remain firm to the principles of right and justice. He would not ask them to vote for him simply because he was a French-Canadian, and of the same religion of themselves. He was a French-Canadian and a Roman Catholic, and was proud of both, but he loved his British friends as well, and he wished to impress this fact upon his hearers. He was confident that there would be a

CHANGE OF GOVERNMENT,

and that the change would be for the benefit of the country. In conclusion he asked their support, and promised to do his best to protect their rights as well as those of any other creed or nationality.

Resuming English Mr. Laurier said he desired once more to tender to all the gratitude which filled his heart at the enthusiasm which was evinced in the present election by the supporters of the Liberal party. It had been the characteristic of all the demonstrations that the last had always seemed the best. He did not wish to flatter when he stated that it had never been his privilege to address a more intelligent audience than that which was now assembled.

Another characteristic of his meetings was that they were all graced by a large attendance of the fairest and best portion of the community. In all places they had done the Liberals the honour of coming amongst them. Being French, Mr. Laurier prided himself in coming from a gallant race and was therefore pleased to see the ladies of Canada taking such an interest in the affairs of the country. If they had no vote yet they knew the benefits of good government and by their visits to the millinery shops knew what tariff reform was needed. The women do not vote in Quebec, but they rule

ALL THE SAME

and the privilege of deciding which way the head of the family votes is freely claimed and as freely given. Now, ladies, continued Mr. Laurier, I appeal to you to see that your husbands, your fathers and your lovers all vote right on the 23rd of June. (Cheers).

I come here, continued the speaker, to preach to you the dogma, doctrine, or I might even say the gospel of tariff reform. We must have it, as at present there is not a man who can say from his heart that he is satisfied with the present condition of affairs. If the promises made by the Conservatives in 1878 had been fulfilled the land would have been flowing with milk and honey, and our bread would have been buttered on both sides. Sir Charles, doubtless, if asked about this would say that our bread was buttered on both sides and that we didn't know butter when we saw it.

The policy of the Liberal party would be beneficial, not injurious, to the workingman. We have no quarrel with the manufacturers, but we have one with the combinesters. Mr. Hamilton's remarks in the afternoon, so admirable for their clearness, simplicity and lucidity, had shown that the National Policy did not benefit the manufacturers or the workingman. What class did it benefit then? The monopolists. The class which includes the millionaires who have grown rich at the expense of the masses.

REGARDING THE SCHOOL QUESTION

he might say that he was a French Canadian and naturally sympathized with the minority in Manitoba, still he realized that the only way of permanently settling the question was by investigation and conciliation. If the Remedial Bill was passed without investigation there would most assuredly be trouble, and if the minority were told, without investigation, that there was no remedy for them, the injustice would be always ranking in their breasts. The two great races, the French and the English, had been brought to Canada to be welded together, and by arousing these questions of race and creed the country was being continually torn asunder. The Manitoba Government, if appealed to for British fair play, would without doubt give it. Mr. Laurier believed in generosity to the minority but at the same time not granting more than was perfectly acceptable to the majority.

On leaving Quebec on June 2nd, Mr. Laurier felt sure he would have a majority of 25 seats from that province but since that time the government had grown desperate and resorted to desperate means. The French Canadians had prejudices and the government had been doing its best to inflame these prejudices. Up to June 2nd these appeals had been in vain, but since then the papers had announced that the creed and race cry had been raised to such an extent as to place the matter in a different light. He still hoped for the best, however, and was confident of getting a larger majority in Ontario on this account.

The Conservatives claimed that they would sweep Quebec, but the speaker premised that in case there was a sweeping, the broom would be in the hands of the Liberals and not the Conservatives. He would have an arduous fight in Quebec during the next week. If his pleasure of addressing the present assemblage was great, it would be still greater when he was advocating the same principles to his own people in the face of the bitterest opposition. (Cheers).

He was led to believe by the enthusiasm manifested that he would have supporters sent to him from the two Peterboroughs this year (cheers) and in conclusion begged his audience to remember that though he was of a different race from them, yet with them he was for Canada first, last and all the time.

Health and strength carry us through dangers and make us safe in the presence of peril. Disease germs do no harm in a healthy body. A germ is not a big thing, and it is only physical weakness that makes it dangerous. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. Nature is continually working to throw off any impurities that may come into the body, but if there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, they quickly fill the whole body. The only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists in the digestion of food and puts the digestive organs in a perfect condition. It stimulates the secretion of digestive fluids, so promoting assimilation and nutrition. It fills the blood full of healthy red corpuscles. It purifies and enriches every drop of blood in the whole body and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

Nine-tenths of all human ailments come from the same cause—impurity in the blood. Take almost any disease you please and trace the cause of it—you will find it in the blood. Purify and enrich the blood and you remove the cause, and so you cure the disease inevitably and infallibly. Dr. Pierce's Golden Medical Discovery cures all diseases depending upon poor, impoverished, thin impure blood.

MOTHER AND AUTHOR.

Mrs. Amelia E. Barr Overflowing With Vitality at Three Score.

Here is a woman who has been the mother of fourteen children, has written thirty-two brilliantly successful books, prepared a professor for Princeton college, and at three score years of age is a superb picture of vitality—as fresh and sweet of heart as a maid. A model truly for all her sex, not an old woman, or a new woman, but the woman when at her best.

Although Mrs. Amelia E. Barr is no longer young, and though her life has been one of the busiest that a woman ever knew she still devotes nine hours daily to her work when a story or novel is promised her publishers, and boasts that her health and high spirits would do credit to a girl in her teens.

All the year round she lives in a pretty house, well known as Cherry Croft at Cornwall-on-the-Hudson, set

MRS AMELIA E. BARR.

well up on the hill overlooking the loveliest stretch of the river. Here she has found that the calm and quiet of the country give her the proper surroundings for her best work. Now, when there is a book to be written, plotted, and completed from cover to cover, Mrs. Barr gives herself up almost entirely to the duty in hand. Unlike most authors she never writes at night, and prefers the very early morning for deciding the fates of lovers, working out graceful counterparts and rounding out situations.

By 5 o'clock she has breakfast, on the veranda, if the weather permits, for like Queen Victoria the author of Jan Vedder's wife dearly loves to eat in the open air. The breakfast is a modest meal of dishes easily digested and accompanied by fruit and coffee, but the real morning bracer for the long hours of desk work, is a cold plunge bath taken directly on rising. Winter mornings the ice is often broken to permit of this constitutional and while the sun is coming up over the opposite shore of the river Mrs. Barr is at her manuscripts, arrayed in an easy gown and always without the confiding clasps of any stays.

Her father was a clergyman in the established church of England, yet in spite of this fact and that her family were ardent royalists, she married a staunch Scotch presbyterian.

Looking back on her childhood's days Mrs. Barr remembers how as a tiny girl she went fishing with the great Wordsworth who, she says, was no hero to his neighbor.

THE PASSOVER IN PALESTINE.

How the Feast Was and Is Celebrated in the Holy Land.

The Passover, as I saw it in Jerusalem, differed in some minor usages from the forms observed in the days of our Savior, and the forms prevalent then were a divergence from the laws prescribed by Moses. The original command ran to the effect that the Passover should be eaten by the participants in a standing posture. Feet, usually bare within the house, were to be sandaled; flowing robes were to be gathered into a girdle; and each person, male and female, child and slave, was to be furnished with a staff. The provision of "unleavened bread" indicated also hasty preparation for a journey. The flesh of the lamb, roasted whole, was plucked by their fingers from the carcass, and they ate the Passover with dramatic haste, as in the night when their fathers fled from Egypt.

In the time of Jesus Christ these usages had disappeared, and the Jews reclined on couches, after the fashion of the Romans, and protracted the meal into a solemn ceremony. At sunset all the members of the household gathered around the table. Women were allowed to join the circle, though it was not legally demanded that they should eat the Paschal lamb. Even slaves and foreigners, if circumcised, sat down with the rest. Not a bone of the lamb was to be broken, under a penalty of forty stripes. The lamps were lighted, and the master began by seeking the benediction of God upon the feast. A cup of wine, mixed with water, was filled for each. Further prayer was offered; then all present washed their hands in a bowl of water provided, and they were ready to partake. In addition to the roasted lamb, the unleavened bread and the bitter herbs, there was another dish, named Charoseth, regarded as the emblem of the mortar with which their father had worked in Egypt.

Charoseth was a mixture of dates, raisins and other fruits, with vinegar, and worked into a substance to resemble Egyptian clay. After partaking of the bitter herbs dipped in the Charoseth the master of the feast again gave thanks to God, and a second cup of wine was drunk. Then the son of house, or, failing him, the youngest present, asked the meaning of the ceremony, and the story of the deliverance was repeated year after year in every household in Israel. After a second washing of hands, and further thanksgiving, the Paschal lamb was eaten. It was the custom to take pieces of the unleavened bread, or of the bitter herbs, and dip them in the Charoseth, and so partake. To this system the reference in Scripture is made, when Jesus marked out the traitor in the well-known words, "He it is to whom I shall give a sop when I have dipped it." The ceremony closed by chanting the Great Hallelujah, i.e., the inspired Davidic Psalms, 113 to 118.

By the gracious courtesy of our friends in Jerusalem, we were invited to seats at the Passover table. We felt it would be more seemly to decline, but gladly availed ourselves of seats in the background. The room was spacious and lofty, finely proportioned, and embellished with a valuted ceiling. For some days prior to the feast every part of the house is scrupulously searched for every particle of leaven. Before noon of the feast day every crumb of bread and all liquid that may ferment are carefully removed. In a sanitary sense, this cleansing of the house is an unspeakable blessing. In the center of this fine room stood a long table, capable of accommodating twenty persons, and quite this number were seated as for a prolonged and pleasurable feast. —Quiver.

Various Broiled Greens.

The "new cook" has displayed some excellent methods of treating the various sprouts and greens of springtime, and she manages to cook them without having them turn that objectionable dark, almost black color. They are put over the fire in plenty of salted boiling water, boiled until until tender, then quickly drained and rinsed with cold water, allowing the cold water to run through them in the colander. This method of cooking greens will preserve both color and flavor. They should be drained immediately from the cold water and quickly heated with any good sauce, or with salt, pepper and butter, and served as soon as they are hot. They will not lose color unless by continued exposure to the heat. Brussels sprouts, spinach, dandelions, chickory, and all of the field and garden greens may be treated in the same way with good results.

A Convenient Mucilage.

A mother of several little tots who find scrap book making one of their most fascinating of pastimes, has accidentally discovered a convenient mucilage. At this season quantities of gummy sap oozes from cherry trees, and the children bringing some of it into the house one day with no special object in view, left it soaking in a glass of water, where it soon formed a strong, good mucilage. It is needless to state that the mother took advantage of the fact for reducing mucilage bills on future scrap books.

Atmospheric Dust.

Lecturing at the Institution of Civil Engineers on atmospheric dust, Mr. Fridlander said that observations show that at an elevation of 6700 feet there are 950 dust particles in a cubic centimeter, while at 8,400 feet there are only 513, and at 12,600 feet only 157. Over the Indian Ocean the average number of dust particles to a cubic centimeter was less than 500 for seven out of nine days, and on five days was less than 400. During a thick fog in the Atlantic, the air contained 3,120 dust particles to a cubic centimeter, while in the clear region just beyond the fog there were only 230 dust particles.—Westminster Gazette.

Byron used a great deal of hair-dressing, but was very particular to have only the best to be found in the market. If Ayer's Hair Vigor had been obtainable then, doubtless he would have tested its merits, as so many distinguished and fashionable people are doing now-a-days.

What Puzzled Estelle.

Our little Estelle
Was perplexed when she found
That this wonderful world
That we live on is round.

How 'tis held in its place
In its orbit so true
Was a puzzle to her,
With no answers in view.

"It must be," said Estelle,
"Like a ball in the air,
That is hung by a string—
But the string isn't there!"

"It is a Great Public Benefit."

These significant words were used in relation to Dr. Thomas' Eclectric Oil, by a gentleman who had thoroughly tested its merits in his own case—having been cured by it of lameness of the knee, of three or four years standing.

Hagyard's Pectoral Balsam cures coughs, colds, asthma, bronchitis, and all throat and lung troubles.

B B B FOR THE BLOOD

B. B. B. Turns Bad Blood Into Rich Red Blood.

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. A LOST OPPORTUNITY.

Why the Young Husband Was Sad at the Birth of His Firstborn.

It was their first baby. The young mother was in a perfect rapture. It was, without a doubt, an ugly baby, but she did not know it. Happy young mother! All of them are like her.

But the father had dark misgivings. His salary was only £2 per week, and babies are expensive luxuries.

Her father was rich, but he had frowned upon their union, and had heterodox and heretical notions as to supporting a son-in-law.

One day, when the baby was a month old, the father came home from his office and found his wife radiant.

She was even happy when the baby was out of her sight.

"What is it, Jennie?" asked her husband, gloomily, for he was yet uncertain as to the blessing conferred by the baby. He was also sleepy.

"Oh, Charlie," she chirruped, "I heard from papa to-day."

Charlie looked gloomier than ever.

"Don't say anything, dear," she pleaded, for she knew her husband's opinion of her father. "He has heard of our baby, and, though he as not yet determined to forgive us, he sent us £100 for dear baby's sake."

At first the young husband's face showed a gleam of pleasure.. and then it shadowed again.

"Aren't you glad, Charlie?" she asked, with a quivering lip.

Then he smiled joyfully.

"Yes, darling," he whispered. "but we should have had twins."—London Tit-Bits.

AN EXCEPTIONAL SALE.

St. John is Much Interested in the Recent Medical Discovery.

ST. JOHN, N.B., May 25.—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodds Kidney Pills, is obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

Old-Fashioned Strawberry Shortcake.

It is difficult to improve on the old-fashioned strawberry shortcake of our grandmothers. None of the newer recipes seem to quite equal it. Plenty of good cream is absolutely necessary for it. Make a good soda biscuit dough with buttermilk, sour milk and cream, or sour milk alone; using soda with the sour milk, or cream and buttermilk and baking powder, or soda and cream of tartar is sweet milk is used. Roll about one inch thick and bake in a quick oven. When nicely browned slip in on a large platter, and with a very slim, sharp knife divide the cake horizontally into three layers; butter the bottom piece liberally and put on a thick layer of berries, sprinkle on plenty of sugar and moisten well with sweet cream; then butter the middle layer of the under side and place over the berries, butter the top of this, cover with berries, sugar and cream as before, and put on the buttered top crust. Unless this is very tender moisten the top with cream, or cover it with sweetened whipped cream.

The Pearl of Great Price

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot entirely unless the additional grace, beauty of teeth, adds its charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath fragrant as flowers.

MALARIAL SOIL.

Investigation Proves Current Belief Respecting Malaria Unfounded.

The opinion is expressed by Dr. Bachman, an accepted authority in such investigations, that the long current belief that the source of malaria is in the air is erroneous. The germ, he says, which is of soil origin, is strictly a protoza, reaching its highest development in low, moist ground, with a favorable temperature. Surrounded by the proper soil conditions, this protoza passes from one stage of life into another with considerable rapidity so that in the present state of experimental knowledge it is impossible to identify it. Further, this protoza passes through so many forms or stages of life, that in none of these stages it is light enough to float and be transported by the moist air of low grounds, but in this state is comparatively harmless, except under extraordinary conditions. Not until the surface water is used does any real mischief begin, when by reason of higher development it has become much more virulent than that floating in the air, and a very short period of incubation is sufficient to develop a severe case of malarial fever in the new comer who uses the surface water. From personal observation, Dr. Bachman declares that the exclusive use of pure, deep-seated water affords entire immunity against malaria in sections of country where no white man would dare to live using the surface water.

The Earth Pyramids of Tyrol.

One of the most curious effects of the erosive power of water is witnessed in the so-called earth pyramids near Bozen and Meran, in Tyrol. The scientific explanation of this phenomenon is very interesting. During the glacial period the enormous glaciers of the Adige River filled with immense quantities of ice the canons and valleys of that part of Southern Tyrol. After the glacial period the ice melted gradually away, the rivers and rivulets burrowing new beds much lower down than the old ones, but the deposits from the glaciers remained on the sides and slopes of the valleys in varying thicknesses. Upon slopes not protected by vegetation the falling rain and the waters flowing into the valley formed numerous furrows and gullies branching out in different directions and uniting again. Wherever in this deposit large stones were contained the underlying soft conglomerate was protected from the falling rain above, and in the course of time pyramids and columns were formed, which in their irregularity cause that picturesque view now seen in those valleys. The further down the slope such pyramids are situated, the higher they are, and pyramids measuring 100 feet and over are quite frequent.

The Vitascope.

Edison's vitascope was exhibited for the first time at Koster & Bial's last night, and was received with great applause. It is a development of the kinetoscope, the pictures being colored and thrown on a white screen on the stage. Several views were shown, the best being the surf, an umbrella dance, serpentine dance, and a scene from a recent farce comedy. The most successful of all was the surf scene. It represents a long pier extending out into the ocean, with the waves beating against it and dashing on the sand. In the distance the breakers, covered with white caps, come rolling in towards the land; as they near the shore the mass of green water rises high, combs with sparkling green and white, and pounds upon the shingle; the white foam and spray fly into the air, the water rushes up the beach, to recede and meet the next wave, while one instinctively listens for the roar of the sea beach. It was a remarkable exhibition, indicative of the great possibilities of the vitascope. The dances were pretty, and it seemed as if the dancers were actually upon the stage.—New York Post.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too, it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops. Working in this way has manifold evils. The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

ABOUT THE LIVER.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dullness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:—

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle and at the end of the sixth bottle I discontinued the use, being completely cured.

How an Actress Died.

New York, June 12.—Miss Lenora Cousins, an actress, died last night in a boarding house at 44 West 27th-street, kept by Mrs. George Wickes. An autopsy made by a coroner's physician showed that death was due to a criminal operation. The physician who attended her will be summoned. Miss Cousins was 22 years old and was born at West Newton, Mass., where her parents reside. She was engaged at the 14th-street Theatre as one of the Vera Quartette up to the time of her death. Two years ago Miss Cousins played with the Robin Hood Company, acting the part of Allen Dale.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P O. Box 388, London, Ont.

Trouble in the North End.

As the result of a family quarrel in the North End on Saturday night a wife almost knocked her husband's brains out with a flat iron. His head is reported to be badly cut by the blows inflicted. The interference of the neighbours stopped the row which looked at one time as if it would end even more seriously.

Purely Vegetable.

First the bud, then the blossom, then the perfect fruit. These are the several stages of some of the most important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of sold substitutes.

Goodness is the Test.

Goodness is always the first aim of H. P. Kennedy in the selection of prime beef for his customers. Goodness first—then follows the lowest price the market can afford. Both are now strongly represented on the hook at Kennedy's meat market, Opera House Block. Think of only 9c. a pound for prime porter house roasts, that formerly sold for 12½c. The drop in the cattle market affords a drop in Kennedy's Meat Market. "We sell as we buy."

SERMON ON THE EUCHARIST.

Rev. Father Fitzpatrick Preaches on the "Real Presence"—Liberal Collection in aid of the Funds of the St. Vincent de Paul Society.

At St. Peter's Cathedral, on Sunday evening, there was a good congregation in attendance to listen to a special sermon preached by Rev. Father Fitzpatrick. His Lordship and Ven. Archdeacon Casey were present. Vespers was sung by Rev. Father Scanlan. The subject of the address by Rev. Father Fitzpatrick was the Eucharist—the "real presence." The address was an eloquently delivered and closely reasoned deliverance, and space prevents the publishing of more than a brief summary. The Eucharist, the real presence, dwarfed into insignificance all other manifestations of God's power. As to the Catholic doctrine in reference to this sacrament the Council of Trent had declared, that inasmuch as Christ had said that in it the real body and blood of Christ were present, there was a change called transubstantiation. It was not as declared in the 28th article of the Church of England by simple belief. The preacher said he would not go to the church, the accredited teacher of truth, but to the word of God itself. To "eat the body of Christ" was to be interpreted literally and not in the figurative sense of belief, and the preacher quoted numerous passages to show that the words "to eat," except when used literally, always meant to calumniate or injure, but never to express belief in. Christ, who was anxious to win the Jews, would never have used language which would so strongly offend their prejudices. When Christ said "Unless ye eat my flesh and drink my blood ye have not life in you," the Jews accepted his words literally, and Jesus did not rebuke them as he always did when he was misinterpreted. Therefore He must have meant his real flesh and blood. Many passages of Scripture were quoted to show that Christ never lost any time in correcting the erroneous impressions arising from what he said, the only exception being His reference to the destruction of the temple as typifying his resurrection, because the accomplishment followed so closely after the prediction. Christ never reproved when his words were rightly interpreted, and again several texts of Holy Scripture were cited in proof of this position. In the sixth chapter of St. John's Gospel it is stated explicitly—"Unless ye eat the flesh of the Son of Man, and drink His blood, ye have not life in you." This explicit statement was in this chapter related no less than six times in different connections. The Jews understood Christ literally, and He did not reprove them, showing that He meant the eating and drinking of His actual body and blood. The words of Christ, used at the institution of the Holy Sacrament—"Take, eat, this is my body," etc.—meant what they expressed. The argument that the doctrine of the real presence was repugnant to reason, was not to be entertained, for it involves the destruction of our belief in the many miracles recorded in the pages of the Word of God, from beginning to end. Nothing was possible to God's omnipotent power. Faith, the preacher said, was the great foundation of our religion. Even in natural things there were mysteries that we could not explain. When God said "This is my body" we could in faith accept the truth and believe it. When Christ says "This is my body" his disciples believed because he said it, for they had witnessed all his many miracles. Was it reasonable to suppose that Christ would have used the words he did in reference to the Eucharist if he had not expected his disciples to believe it. To illustrate the preacher used the figure of a father leaving in his will properties to his sons. It was not the type or picture of the property he meant, but the property itself. When Christ says "This is my body," etc., we believe it. St. Paul spoke of those unworthily eating this sacrament as guilty of the body and blood of Christ. How could there be guilt if there were no real body. The paschal lamb was eaten by the Jews and that was the liveliest type of the body of Christ. For 1600 years the church had taught the doctrine of the real presence. Christ had said it and if he, according to some, was in error the church was willing to be in error with him.

The speaker then made an eloquent appeal on behalf of the funds of the St. Vincent de Paul Society, which was doing Christ's work in relieving and assisting the poor.

Whether you Win or Lose.

Kennedy is bound to supply prime beef at prices down at the bottom of the market. Whether you win or lose on the elections, Kennedy will protect you with cheap beef of the best quality. If you want to encourage the man who buys in the cheapest markets and sells as he buys, buy your beef at Kennedy's Meat Market, Opera House Block, George street.

By Special Request.

A great many customers have asked us to put in another bargain window of Chamber Sets, as they were unable to get one of the last lot. We will therefore fill the south window with a lovely line, worth $5 and $6, and give you your choice on Saturday, June 13th, and until the lot is sold, for $3.50. The first customers get the best assortment to choose from. China Hall, 300 George street.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blend of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER, Millers.

STURGEON POINT HOTEL BURNED

Entirely Consumed this Morning.

(Special to the Examiner.)

LINDSAY, June 15.—The hotel at Sturgeon Point caught fire by the upsetting of a lamp this morning at 10.30, and was quickly consumed. The building was owned by Wm. Simpson, of Lindsay, and was to have been opened for the season to-morrow.

A SERIOUS ACCIDENT.

George Dormer Cut in the Groin.

This morning George Dormer, son of Mr. John Dormer, Brown street, Ashburnham, who is employed in the Auburn Woollen Mills, was using a sharp knife in cutting some bands; it slipped, and the point penetrated the groin, making a bad cut through the abdominal walls. Dr. Clarke was at once summoned and staunched the bleeding, which was very profuse. The young man, who is about 17 years of age, was removed to his home, where he is now resting comfortably. It is rather early for his medical attendants to give a positive opinion, but it is hoped that the case will terminate favourably.

EAST PETERBOROUGH.

Mr. Lang at Indian River.

On Saturday evening Mr. Lang addressed the electors of Douro and Otonabee at Smith's Hall, Indian River. Mr. Whibbs occupied the chair and the attendance was the largest ever held at Indian River. Mr. Lang opened the meeting amid the greatest enthusiasm and was followed by Mr. Ball, who spoke on the N. P. as it affected the mechanic and labourer. Mr. J. B. McWilliams closed the meeting which was one of the most successful and enthusiastic yet held in the interest of Mr. Lang's candidature.

Mr. Lang's Meeting at Villiers.

Mr. Thos. Blezard, M. P. P., and Mr. Stratton, M. P. P., addressed the electors of Otonabee at Villier's school house on Saturday evening in the interest of Mr. Lang. The school was comfortably filled and the prospects for Mr. Lang's success in Otonabee are of the brightest.

THE ROORBACK FALLS TO THE GROUND.

The Action of O'Shaughnessy vs. Quinn Dismissed With Costs.

On Thursday last in the case of O'Shaughnessy vs. Quinn re the charges made in respect to the recent provincial election campaign in which the plaintiffs claim certain sums of money which they alleged they advanced, the judge made an order that the plaintiffs appear for examination at their own expense to answer the charges laid in their statements of claim, in default of the action being dismissed with costs.

Messrs. Conroy and O'Shaughnessy, the plaintiffs, failed to appear for examination, therefore the action stands dismissed with costs.

Thus comes down with a dull thud the stick of the election roorback rocket that was sent up a few weeks ago in the hope of prejudicing Mr. Lang's campaign in East Peterborough.

RE-FITTED AND DOING GOOD WORK.

Meldrum & McAllister Prepared to Take Orders for Chopping, Etc.

Messrs. Meldrum & McAllister, in order to accommodate their custom, have had their storehouse, at the corner of Simcoe and Bethune streets, fitted up with an entirely new electrical plant of the most improved modern patent and are now again prepared to fill all orders for gristing and chopping.

The new apparatus, replacing that which was destroyed in the recent destruction of their mills by fire, was placed in position in the storehouse last week and has been operating since Saturday. The work done has been pronounced to be of a most satisfactory quality. Farmers and others requiring chopping done will bear in mind that their orders will receive prompt attention at the hands of Meldrum & McAllister, at the corner of Simcoe and Bethune streets.

PERSONAL.

Mr. Charles Hendricks left for Toronto to day, where he will spend a week or so visiting his sister.

Mrs. (Dr.) Ward, of Montreal, is visiting with her parents, Mr. and Mrs. John Delaney, corner Brock and Downie streets.

Col. Deacon and daughter, Mrs. Wilford, of Cookshire, Quebec, are in town to day. Mrs. Wilford, who has been visiting her parents at Lindsay, is returning home via C.P.R.

Mr. John Gilchrist, of the firm of Hall, Gilchrist & Co., left to-day for Europe, to make the purchases of fall goods. Mr. Gilchrist sails on Wednesday on the "Teutonic."

Mr. and Mrs. E. F. Walter left for Montreal this morning, en route for Germany. They sail from New York on Saturday, 20th. They have just completed a visit with Mrs. Walters' parents, Mr. and Mrs. Wm. Lech.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that its feeding shall be regular and right. While he is doing this, it is as likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good, pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can obtain no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong and assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

Very Attractive.

A sideboard in A. Clegg's window seems to attract the attention of large numbers to-day. It is certainly one of the handsomest pieces of furniture we have ever seen. All who appreciate artistic furniture will want to see it.

IT WAS MAGNIFICENT

Montreal's Welcome to the Liberal Leaders.

THREE OVERFLOW MEETINGS HELD

After About Twelve Thousand People Had Been Packed Into the Principal Gathering—Sir Oliver Mowat Eulogizes Mr. Laurier Amidst the Wildest Enthusiasm.

Montreal, June 15.—One of the greatest political demonstrations, if not the greatest that Montreal has ever known, was that which was held tonight in honor of Hon. Wilfrid Laurier, the coming Premier of Canada, and of Sir Oliver Mowat, Ontario's Grand Old Man. The scene of this tremendous affair was Cochrane's Auditorium, a building capable of holding 12,000 people if they are well packed together, which stands under the shadow of Mount Royal. It is not a convenient place to get at, and that circumstance caused some friends to fear and some enemies to hope that the attendance at the meeting would not be large. But it seems that nothing can counteract the magnetic power of the Liberal leader and of his respected colleague, the veteran Premier of Ontario. The electors began to arrive before 7 o'clock, and presently a stream of people began to pour in through the doors. The tens swelled to hundreds and hundreds to thousands. Still the people came, and jammed the building so full that there was no room for 4000 or 5000 others who were behind them in the race for the auditorium. While the multitude within were cheering the leader and his colleague three overflow meetings were in progress without the building. The rostrum of one was a cab, of another a butcher's cart, and of the other a high platform. A regular cyclone of enthusiasm swept over the multitude when the leader and Sir Oliver Mowat appeared upon the already crowded platform. The ovation which was accorded them was sustained at a high pitch for several minutes. "With such meetings as these," remarked a man, "how can the Liberals help but win?"

As Mr. Laurier advanced to the front of the platform the enthusiasm was unbounded. Such a magnificent, hearty and spontaneous reception was never before accorded a public man. He felt that Quebec would give him a majority not less strong than Ontario. (Cheers.) He believed that, with the possible exception of New Brunswick, the Liberals would have a majority in every province. (Cheers.) To the intense amusement of the audience he replied to the charge that Liberal success would mean destitution to the workingmen by producing a Conservative cartoon which purported to represent him and Sir Richard Cartwright as putting the screws on manufacturers and crushing them to death, but which really showed them as turning the screw in an opposite direction from right to left, and thus relieving the oppressed. The audience was largely composed of workingmen and they quickly caught the point and applauded uproariously. Turning to the Manitoba school question, he exposed prejudices made by Sir Charles Tupper, and pointed out that the Conservatives had one language for Ontario, but quite another for Quebec. He did not come to Montreal to say that he would give more or give less than some one else, but if he were elected he would, with the assistance of Sir Oliver Mowat—(cheers)—settle this question so as to secure justice for the minority without estranging the majority. (Applause.) In conclusion, Mr. Laurier predicted that the whole eight seats on the Island of Montreal would go Liberal on June 23rd. Having spoken about 15 minutes, he resumed his seat amidst another splendid outburst of applause.

SIR OLIVER MOWAT.

In presenting Sir Oliver Mowat to the multitude the Chairman mentioned the fact that he had been 24 years Premier of the Province of Ontario, and that that Province was out of debt.

The enthusiasm of the reception accorded the distinguished Premier was absolutely without limit. Sir Oliver said that it gave him great pleasure to find himself in Quebec taking part in a meeting of the electors of that province. He had given his attention almost exclusively hitherto to provincial affairs, having enjoyed the confidence of the fellow-citizens of his own province. During that time he had the satisfaction of knowing that he had had the confidence of every section of the electors, and he believed he had had the support of as large a proportion of the French-Canadians of Ontario as of the English population. He was sorry that he was not able to address the great audience in the French language. If it had been his lot to have been associated with Mr. Laurier in an earlier period he should probably have acquired a knowledge of the language sufficient to address the audience. As it was he might be a colleague of Mr. Laurier in a very short time—(cheers)—and he would have the advantages he would have had if the association had come earlier. He knew of no greater honor than to be a colleague of Mr. Laurier. His fellow-citizens of Ontario had manifested that they also shared that feeling. He had no doubt the people of Quebec had heard of the receptions Mr. Laurier had met with in western Ontario. He had captured his (Sir Oliver's) fellow-citizens there. (Cheers.) He confessed the attraction the Liberal leader had for him, and now that attraction extended to the whole people of Ontario. The manifestations of favor which had been given to him exceeded those ever given to any other political leader. They exceeded anything known to any Liberal leader or any Conservative leader, either. There never had been such triumphs achieved by other men; there had been great enthusiasm for other Liberal leaders, but the enthusiasm for Mr. Laurier exceeded that which had been manifested for any other leader. (Cheers.) He was very glad that this was the case. He rejoiced that this enthusiasm had been manifested in the Province of Ontario for a gentleman from the Province of Quebec. He rejoiced that a French-Canadian had been received in this way, and he rejoiced also that that enthusiasm had been manifested by Protestat Ontario towards a Roman Catholic. (Cheers.) He felt a great interest in whatever might unite the two provinces together. He rejoiced in every new tie that might be discovered for the purpose, and he ventured to think that what had taken place will bind the two provinces together more closely than they had been bound before. We claim Mr. Laurier now as our leader," declared Sir Oliver, amid a veritable storm of applause. "We prefer him to any other man in public life. I rejoice that there is a prospect that he will so soon become the Premier of Canada. He will be the first French Canadian Premier that we have had since Confederation. Protestant as I am, I must say that he is a better man than any Protestant Premier we have ever had."

Sir Oliver proclaimed his intense love for Canada, and his pride because of her greatness. He emphasized the immense responsibility that rests upon the people to see that the country is well governed. At present the country had bad laws and a bad Government, a wasteful and a corrupt Government. "We must change all that," said Sir Oliver, and another wave of enthusiasm swept over the crowd. Somebody demanded three cheers for the Grand Old Man, and they were rousers. "If that is the character of the Government," he went on, "it is our duty to change that Government and to place there a man of such ability and such honesty of purpose, and such integrity of character, as Mr. Laurier. The manifestation of good feeling towards him at this meeting constitutes a tribute to his solid worth and indicates that the time is coming when things will be greatly improved through his instrumentality."

Ald. Penny, Mr. McShane and others made speeches, and the remarkable meeting broke up with the usual cheers.

THE COMING CABINET.

A Forecast Showing the Probable Composition of the Liberal Government.

Toronto, June 16.

It may be considered by some a little premature to nominate Mr. Laurier's colleagues in the Cabinet, which he is sure to be called upon to form when Parliament meets in July, but the people have a right to know who are likely to be their rulers in order that they may intelligently decide between the two parties at the election. The following will doubtless be in the Cabinet:

From Ontario—Sir Oliver Mowat, Sir Richard Cartwright, Messrs. Mills and Patterson.

From Quebec—Mr. Henri Joly, Mr. Geoffrion, Senator Pelletier.

From the Maritime Provinces—Messrs. Davies, Mclf, Longley and Borden.

And a representative or two from the Western Provinces, probably Mr. Martin.

There is not a man in this list but is superior in ability to any one in the present Cabinet, excepting possibly Sir Charles Tupper and Mr. Foster, and they are far more honest than these two.

Some idea of the enthusiasm among the Liberals throughout the country may be gathered from the fact that in the Tory town of Gananoque, in the Tory riding of South Leeds, the home of the chief Tory whip, George Taylor, it took two halls to hold the people who gathered to a political meeting. There was no prominent Liberal announced to speak, so that there was nothing special to draw the crowd beyond the important questions to be decided by the electors in the present contest. Things are beginning to look rather blue for Mr. Taylor, and he is kept busy in his own constituency. Mr. Fredenburgh is going to make a splendid run.

Mr. A. D. McCallum has returned to the city, after spending some days in North Victoria, South Victoria and North and South Ontario. There is every prospect of the Liberals carrying the whole four ridings. With reference to South Victoria, Mr. McHugh has a dead sure thing. Mr. McCallum goes to the County of Dundas this week, and speaks at Iroquois on Wednesday evening, and Dixon's Corners on Thursday evening.

It speaks volumes for Mr. Laurier's popularity, that in Toronto two of the largest halls in the city were filled to hear him, and there were enough people left on the street anxious to get in to have made two more meetings. The same night the Pavilion was crowded as an anti-Tupper meeting, held in John Ross Robertson's interest. Toronto is redeeming its record.

One of the latest converts to Liberalism is Mayor Jameson of Winnipeg. From being a warm supporter of the late Sir John A. Macdonald he has become just as warm an advocate of Liberalism and a supporter of Mr. Martin.

News of the most cheering character continues to come from British Columbia. It looks as if the Liberals were going to make a clean sweep of that province. The only constituency of which there is any reasonable doubt is one in Victoria.

It has already been stated that Mr. Foster was preparing a soft spot on which to fall after the 23rd, in the shape of a position on the Grand Trunk. It is now said that three other Cabinet Ministers are on the look-out for similar positions, as they expect to be out of a job very shortly.

As the campaign progresses Mr. Carruthers' chances of carrying South Grenville are rapidly growing brighter. At one time this was a Liberal riding, but for many years it has returned a Conservative. It looks as if it was coming back to its old allegience on this occasion.

WANT BIBLE INSTRUCTION.

The Anglican Synod of the Territories Desire it to be Made Compulsory in Their Public Schools.

Winnipeg, Man., June 15.—In his charge opening the Diocesan Synod of Qu'Appelle, N.W.T., Bishop Burn recommended that the Anglican Church have a conference with the other denominations with the object of having Bible instruction made compulsory in the Public schools of the Territories. The Synod endorsed the suggestion, and requested the Bishop to take steps in that direction.

GENERAL GOSSIP FROM OTTAWA.

New Regulations for the Manning of Ships —Exchequer Court Judgments— Personal Notes.

Ottawa, June 15.—(Special.)—Mr. William Smith, ex-Deputy Minister of Marine and Fisheries, has received from Mr. Bullock, Secretary of the Imperial Board of Trade Committee on the Manning of British Ships, which has been sitting for some time in London, and on which Mr. Smith was the Canadian representative, a copy of the committee's report. This report, among its recommendations, contains a scale showing the number of men which must be employed as members of the crew on British steamers and sailing ships, there being a separate scale for each. The new regulations, when approved, will apply to Canadian vessels when clearing from the United Kingdom. As soon as the President of the Board of Trade has officially sanctioned the changes, they will be communicated to the shipping interests of Canada.

Mr. Justice Burbidge delivered judgment in the Exchequer Court this morning in the following cases: MacKay's Sons & St. Lawrence Sugar Refining Company, v. the Queen; claim arising out of damage to S.S. Acadia in the Morrisburg Canal. Judgments for claimants upon the question of law, with a reference to the Registrar to ascertain the damage.

Stuart & Co. v. the Queen—This was a customs case in Montreal, arising out of the question of valuation of certain importations of shoe thread by the claimants. Judgment upon the question of law in favor of the claimants, with a reference to the Registrar to ascertain the exact amount in controversy.

The Auer Incandescent Light Company v. the Queen—Motion for sample of fluid used in preparation of defendants' light and for a sample of the fluid the defendants alleged to have prepared according to the plaintiff's specification in their patent and failed to arrive at the result claimed by plaintiff. Judgment granting first part of motion and reserving latter until the trial.

Mr. Justice Burbidge sits to-morrow as a commissioner under the great seal to determine certain questions in dispute between the Government and Messrs. N. K. Connolly, in relation to the Kingston Graving Dock.

Hon. N. C. Wallace left for Eastman's Springs this afternoon to attend the County Orange Lodge of Russell County, after which he proceeded to Bell's Corners to speak against Mr. Hodgins, who, although he voted against Remedial Legislation, did not, in Mr. Wallace's opinion, oppose it strongly enough.

Mr. G. C. Vaux of the Imperial Board of Trade arrived in the city to-day from England. He is on a holiday trip through Canada.

The Government steamer Stanley went into commission to-day.

MR. GORDON BROWN BURIED.

Many Friends and Prominent Citizens Were at the Obsequies.

Toronto, June 16.

The funeral of the late John Gordon Brown, Registrar of the Surrogate Court of York, took place yesterday afternoon, from the residence of deceased's son, 16 Admiral-road. The remains were interred at the Necropolis. A large number of sorrowing friends were in attendance.

The funeral services were conducted at the house by Dev. Dr. Greig of Knox College. Rev. Dr. W. S. Ball, brother-in-law of deceased, conducted the burial service at the cemetery.

The pallbearers were Mr Justice Maclennan, Mr. J. Martland, Mr. D. Blain, Mr. T. Shortiss, Mr. Hugh Miller, J.P., Mr. W B. McMurrich, Q.C., Sheriff Mowat, Mr. Ed. Armour and Mr. C. W. Taylor.

The chief mourners were Mr. E. B. Brown, son of deceased; Mr. Peter Ball, Mr. Alfred Ball of Woodstock, Mr. George Ball and Mr. Kenneth Maclean of Guelph, nephews, and Mr. James Brown and Mr. Charles Brown, cousins.

The attendance included a large number of old and prominent residents of the city and country.

EXPANDING CONFEDERATION.

Sir Charles Tupper indulges in tremendous flapdoodle promises of the great things he is going to do, but he promises what he can't perform. He promises preferential trade and at the same times high protection policy. England says that to secure preferential trade "every vestige of protection must disappear." Thus is Sir Charles Tupper's promise of preferential trade stamped bogus the moment it is uttered. Preferential trade and the admission of Newfoundland are planks in his platform and the latter is as impossible under his policy as the favoured trade planks. If Mr. Laurier is victorious on June 23rd the entry of Newfoundland into the Dominion will be hastened. Sir William Whiteway, the premier of Newfoundland, who failed in his negotiations with the Bowell Government, declared that the hope of the "confederation' movement in Newfoundland was based upon the return of Mr. Laurier and the Liberals. If Canada pronounced in favour of a tariff for revenue there can be little doubt, the Montreal Witness asserts, that Newfoundland and Canada could then come to a satisfactory agreement as to the terms of the entry of Newfoundland as a province of the Dominion. What Newfoundland fears is an extreme protection tariff making living costly for her fishermen, and handicapping her fishermen in the world's markets. In view of the immense burdens protection would lay upon her people, Newfoundland's statesmen were obliged to ask terms so high that Sir Mackenzie Bowell would not grant them. With a tariff for revenue assured, Newfoundland could well afford to accept reasonable terms. Sir Charles Tupper is inconsistent. He does not hesitate to risk wrecking Confederation, by bulldozing a province, while at the same time he brags of his intention of adding another province that is hostile to his policy. Mr. Laurier's policy is wider than that. Instead of disrupting the federal pact, he aims to solidify Confederation by just treatment of the provinces, and at the same time to expand Confederation by adopting a policy that will induce Newfoundland to cast her lot in with us. Choose ye this day whom ye will serve, Pharaoh Tupper or Moses Laurier—one rivitting firmer the fetters of bondage, and the other leading the way to the promised land.

TUPPER'S LESSON EASILY LEARNED.

At the Fraserville meeting of Mr. Kendry, on Friday evening, and in replying to the ardent eulogy by a Liberal speaker, of Hon. Wilfred Laurier, Mr. Stevenson stated that a Liberal Cabinet would be no better under a French leader, as Mr. Laurier was, as Sir John Thompson had told him (Mr. Stevenson) that "all Frenchmen are thieves." Mr. Stevenson must not judge his French neighbours in Peterborough by his French associates in the Government and on the Government side of the House at Ottawa. Mr. Kendry seems to be particularly unfortunate in having friends who put their feet into it badly. It does not seem enough that one of his speakers should thirst for the blood of Manitobians, but another is anxious to put all our French-Canadian citizens in jail. The party must be desperate that will resort to such desperate means to secure support. Mr. Stevenson and Mr. Kendry learn their lesson from Sir Charles Tupper very aptly. At Winnpeg Sir Charles denounced Mr. Laurier as a Frenchman and a Roman Catholic, and now all Frenchmen are denounced as "thieves." This is Conservative loyalty, to solidify Confederation and harmonize our people by making scurrilous abuse of one race of our population a stepping stone to office. Mr. Laurier stands for equal justice to all classes without distinction of race or creed. Sir Charles Tupper stands for tyranny and resort to any cry, however base, to gain support, and put his greedy hands into the public chest.

WE DO THINGS DIFFERENTLY.

Henry Ballen, ex-city treasurer of Omaha, for default in his office has been sentenced to imprisonment for 19 years. As he is 55 years of age this practically means a life sentence for him. In Canada we do things differently—McGreevy, the Tory boodler, to wit. After he was sentenced to a short term of imprisonment he was pardoned out on the excuse that confinement did not agree with his health (!) and promptly elected to parliament. If Ballen had been a Canadian Tory boodler instead of an Omaha boodler he might now have been serving a term in parliament instead of in jail. By virtue of his great personal magnitude, Sir Charles Tupper is very successful in attracting kindred spirits.

HASN'T Tupperism made you tired?

THE London, England, Statist remarks that private advices received on the other side show no ground for confidence that Sir Charles Tupper can hold on to power. The Statist is one of the best informed papers in England.

OUR good Tory friends boast that they are going to eclipse the bicycle feature of the Liberal demonstration. Seeing that slow wheeling involves considerable "wobbling," our Conservative fellow citizens are especially fitted to shine in a parade of wheelmen.

THE London Free Press (Conservative) says that the N. P. "never sought to fix the rates of wages, which is a thing beyond the range of Parliament." The workingman has discovered that fact before the confession was made. The goods are protected; labour must compete in the open market for what it can get—and pay the N. P. rate of taxation.

IT is a very popular plea with the Conservatives, that although the Conservative Government may have misapplied public moneys, may have restricted the growth of our population, may have raised the price of our clothing and all manufactured articles, yet it is better to suffer these misfortunes than to risk the unknown ills of a Liberal Administration.

THERE are 7,206 less farmers and their sons in the Dominion in 1891 than in 1631; and the Montreal Star professes to see in this fact an evidence of the greater prosperity of the lesser number. We are not aware, says the Montreal Herald, what class of farming the Star has gained its experience in, but, would suggest, in view of the sanguinary opinions it holds, that it must have been baby farming.

SIR CHARLES TUPPER is a man of great energy for his age. He is cutting out some work for himself if he is elected. The Tory Toronto World says that there are thirty-four Conservative candidates pledged against coercion if elected. Sir Charles Tupper will be kept busy bringing them into line. There were forty of them in the last Parliament, and Sir Charles managed to persuade the most of them by the gift of fat offices and other considerations to swallow their convictions.

AN OLD-TIME MASON DEAD.

Mr. John A. Stearns of Port Rowan Succumbs After Two Years' Illness.

Port Rowan, June 15.—John A. Stearns, one of the oldest residents of this village, died last evening, after a lingering illness of over two years. He was born in Port Rowan nearly 77 years ago, and has been a constant resident. He was well known to the travelling public as proprietor of the Stearns Hotel, which was destroyed by fire over two years ago. He leaves a widow, to whom he had been married 53 years, and two sons, William and Austin, and three daughters, Mrs. J. R. Doan, Mrs. Dr. Stewart and Miss Mary Stearns. He was one of the oldest members of Walsingham Lodge, A.F. & A.M., and will be buried with Masonic honors on Wednesday, on arrival of train from Simcoe.

WITHOUT WARNING!

Men and Women Drop Off Every Day From Heart Disease.

Paine's Celery Compound Cures This Prevalent and Terrible Trouble.

Testimony of a Lady Who Suffered for Long Years.

Day after day the newspapers give accounts of very sudden deaths from heart disease. The trouble is a common and a prevalent one in this busy and rushing age, but too often lightly regarded by those who experience the symptoms daily.

Symptoms may be summed up as follows: The nervous system is usually out of condition; there are sharp pains in the heart; it is impossible to take a long and deep breath; the pulse is irregular; there is palpitation; very often a dry irritable cough, and the sufferer is full of gloomy thoughts.

In order to cure heart disease, every one of the symptoms must be forever banished. The medicine to cure must possess the virtues and powers to strengthen the entire nervous system. Paine's Celery Compound is the only medicine that can build up and tone the nerves, and give to the life-stream—the blood—that purity and richness that guarantees freedom from all disease. Hundreds of physicians are prescribing Paine's Celery Compound every day for all forms of heart trouble, and their success is marvellous and encouraging.

Those who experience all the awful symptoms of heart disease, those who are brought to the verge of the grave by nervous debility, mental depression, sleeplessness, dyspepsia, liver and kidney affections, find in Paine's Celery Compound a true friend and life-giving agency.

Mrs. E. Rankin, of Courtright, Ont., writes:

"With great pleasure I beg to inform you of the good I have received from the use of Paine's Celery Compound. For a number of years I have been in very poor health owing to various causes, and lately I was advised to try your medicine. I used three bottles, and received a world of good. My severe headaches are completely banished, and the heart disease from which I suffered for thirty years, has almost disappeared, and altogether I am vastly improved. I am fully convinced that Paine's Celery Compound is all that it is recommended to be."

Signs of worms are variable appetite, itching at the nose, etc. Dr. Low's Worm Syrup is the best worm expeller.

Mr. Legate, traveller for McCormack & Co., London, says:—"Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill, druggist.

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am positively cured after using four boxes.

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. THE REMEDIAL BILL

Presbyterian Assembly on the School Question.

OPPOSITION TO SEPARATE SCHOOLS

The Members Say it is Wrong to Apply Public Funds for Sectarian Purposes—Favor Adjustments Which May Satisfy the Minority in Manitoba.

Toronto, June 16.

The decided stand taken by the Presbyterian Church on the question of Separate schools was shown by the enthusiastic cheers with which the General Assembly yesterday greeted the resolution submitted by Principal Caven and Principal King. The text of the deliverance is as follows:

"This General Assembly, while, in common with former Assemblies, attaching great importance to the religious character of public education, is strongly opposed to the restoration of Separate schools in Manitoba, as involving the application of public funds to sectarian purposes, a thing deemed both inexpedient and wrong in principle.

"The Assembly expresses disapproval of any legislative or governmental action in the matter of education which is intended to confer privileges upon one section of the community that are not accorded to all. In particular, the Assembly disapproves of any attempt to remove alleged grievances connected with the establishment of National schools in Manitoba by remedial action of the Dominion, and especially by Remedial Legislation, such as has been proposed. Legislation of this character, while competent, according to the letter of the Constitution, is not required by it, is at variance with its spirit, and is almost certain to be followed by very hurtful consequences. The Assembly cannot, indeed, regard the establishment of Separate schools as, in any case, a satisfactory solution of the educational problem occasioned by diversity in religious belief.

"In the interest of civil and religious liberty the General Assembly deems it its duty at this time to lift up its testimony against all procedure which confuses temporal and spiritual authority, thus inevitably impairing the sanctions of both. Whilst the fullest expression of opinion on educational and other public questions which involve moral elements is always competent to churches, and may become their distinct duty, the General Assembly would earnestly deprecate any attempt on the part of any church to place itself above the state in the civil sphere, or to dictate to its adherents (members) in the exercise of a public trust.

"The Assembly still hopes that conference between the Dominion and the Province of Manitoba may remove existing difficulties on the subject of public education, by such adjustments as, while preserving the principle of National schools, may satisfy any reasonable claims of the minority."

It was ordered that the resolution be printed and sent to the Committee on Bills and Overtures.

METHODIST CONFERENCE

Discusses the Remedial Bill and the Prohibition Question

Toronto, June 16.

Feeling is evidently running high in the Methodist Conference over Remedial Legislation. Yesterday two separate but vain attempts were made to precipitate the discussion of the question, which has been standing for some days, on the conference program. At the morning session, Mr. J. J. Maclaren, Q.C., moved that the order of business be suspended for the purpose of immediately considering the matter. This attempt was baulked, however, when Rev. Dr. Pearson stated that the special committee which had been appointed to draft a resolution for submission to the Conference was not ready with its report. After some discussion, it was decided to place the receipt of the committee's report first on the order of business for 3 o'clock this morning.

Again, late in the afternoon, just before the hour of adjournment, when the attendance had become pretty well thinned out, Rev. Dr. Pearson moved for a suspension of the order paper and immediate consideration of the subject. This motion, it is said, was sprung with a view to disposing of the question in the absence of Rev. Dr. Potts and Mr. N. W. Rowell, the men who are looked upon as taking the strongest position among the two factions—Remedial and anti-Remedial—which compose the Conference. The proposition, however, was defeated as being unfair to those absent members, who were expecting the debate to take place this morning.

The special committee has completed its work and the report which it will bring in this morning will occasion surprise in certain quarters. The resolution to be submitted, though the members of the committee maintain pretty strict silence as regards their decision, partakes of the nature of a compromise. It affirms, it is understood, that the Conference opposes the coercion of Manitoba, either by the passage of the present Government's Remedial Bill, "or by any other means." In the last clause lies the compromise, it being intended to indicate that the Conference objects likewise to the proposal espoused by Hon. Wilfrid Laurier and Sir Oliver Mowat, of sending a commission to Manitoba.

A bomb was exploded in the Conference yesterday morning—a resolution brought in by the Committee on Temperance. Some of the members thought the report evidenced a political bias, and the consequence was that for a time the air was filled with hot words.

The report, after reciting that the temperance question had been overshadowed in the pending elections by other important matters, and that all legislators who shirked their duty in regard to it should be rebuked, both by the press and at the polls, went on to submit the following resolutions for the approval of the Conference:

(1) That this Conference requests all its ministers to urge upon their congregations the question of prohibition and that on the 21st inst. they will press on the voters to whom they minister the duty of electing only such men to Parliament as will vote for a prohibitory law.

(2) That, in view of the recent decision of the Privy Council, as touching local option, we impress upon our ministers and people the imperative duty of introducing and bringing into operation the Local Option Act.

(3) Your committee rejoices that the leader of one of our political parties has publicly promised that in the event of his succeeding to power he will cause a plebiscite of yea or nay to be taken on the question of Dominion prohibition, and that if the answer be yea the submission of a Dominion prohibitory law. As yet neither of the political parties has made prohibition a plank in its platform, but, in view of this contingency, which cannot be far off, no matter which party is in power, we would urge upon our ministers and people the necessity of preparing the public mind in every way for a last, and we trust victorious, struggle in this long and terrible war.

Resolutions one and two were quickly passed, but the third proved a stumbling block. One member cried out: "That's simply a mandate from this Conference, calling on Methodists to vote Liberal," and then the fun began.

Rev. Dr. Pearson supported the resolution.

Mr. J. J. Maclaren, Q.C., asked him if he were willing to accept the promise of the Liberals made with an "if" in it. He himself did not greatly favor the idea of a plebiscite, but if the Conference did all right.

Rev. Arthur Browning stated that Hon. Mr. Laurier had declared himself to him to be personally in favor of prohibition, but this did not mean that the party he led was in favor of it.

Rev. J. Dowler said he had been fighting for prohibition for 50 years, but he placed no value on the word of a Jesuit who was governed by the hierarchy and made promises with mental reservations. He, as a Methodist, could not vote for Laurier, no matter what came up.

Mr. G. A. Cox, Rev. W. F. Wilson and others called out, "Take it back," but Mr. Dowler stuck to his guns.

Rev. Dr. Blackstock said it was a mistake to rely on a political party. If the Methodists did so they would be placing themselves in the position of the Roman Catholics. He did not believe in relying on a civil power to obtain what they could not gain themselves.

Rev. A. B. Chambers did not like the idea of the Conference attaching itself to any party, and moved in amendment the following resolution:

"That as yet neither of the political parties has made prohibition a plank in its platform. * * * We demand that this question receive the immediate and favorable attention of the Federal Government."

Rev. Elliott S. Rowe, who was one of the McCarthy nominees in West Toronto, supported the committee's resolution, as did also Mr. N. W. Rowell, a member of the Toronto Liberal Executive.

Rev. Dr. Pearson, again speaking, said the Conference devoted too much time to the discussion of political and other questions and too little to the work of saving souls. He said he placed very little faith in politicians, and instanced Hon. George E. Foster as a man who had made prohibition promises.

After some further warm discussion, and on adjournment for lunch, when the debate was at its hottest, to allow the members to "cool off," as the President put it, the committee's resolution, as printed above, was finally carried.

Laid Low by Indigestion.

I was so run down I had to give up work.

Scott's Sarsaparilla the kind that cures.

Indigestion or dyspepsia is the bane of thousands, and is one of the most depressing of afflictions. It arises from an impure or impoverished condition of the blood, which weakens the digestive and assimilative organs, rendering them incapable of performing their natural functions, and if neglected, the sufferer loses flesh, complains of exhaustion after slight exertion, and becomes rapidly debilitated.

Mr. Wm. W. Thompson, a prominent resident of Zephyr, Ont., in a letter dated Aug 12th, 1895, says: "It gives me great pleasure to testify to the fact that Scott's Sarsaparilla has caused a most remarkable change in my condition. I was so much run down I had to give up work and felt as if life were not worth living. Mr. Dafoe induced me to try Scott's Sarsaparilla, and after taking four bottles I am now feeling as I formerly did years ago, and I want to say for the benefit of those suffering from indigestion and feeling, to use slang phrase, 'completely knocked out,' don't despair until you give Scott's Sarsaparilla a fair trial."

Scott's Sarsaparilla is a blood food, it stimulates all vital organs to healthy normal action, enabling them to throw off all poisonous and debilitating humors. Sold by druggists at $1, but there is only one Scott's. The kind that cures.

Mrs. Liscumbe Makes a Statement for the Benefit of Others.

Mrs. Liscumbe is well known in Havelock and this is how she spoke to our representative:—

"I have been troubled for some time with severe pains in the side and back. I took many medicines of various kinds, but got no relief.

"The box of Doan's Kidney Pills which I got at W. H. Jeff & Co's. drugstore gave me wonderful relief from the start. The improvement in my general health is not the least of the benefits which I have derived from the use of this remarkable kidney remedy.

"I can recommend them very highly to anyone troubled with any form of kidney disease."

For sale by James Lynch, druggist, 168 Hunter Street, Peterborough.

ON A CHARGE OF FORGERY

Henry Barton Beecher, Son of the Famous Brooklyn Preacher, Must Now Stand His Trial in New York.

New York, June 15.—Henry Barton Beecher, son of the late famous preacher of Brooklyn, was put on trial today before Justice Fursman in the criminal branch of the Supreme Court, on a charge of forgery. The charge grew out of the collapsing of the American Casualty Insurance and Security Company in 1893. The business was to insure railroads against losses by collisions and other accidents. It is alleged that the company received $7,000,000 from various railroads. It failed for $1,700,000, with assets of $250,000. William E. Midgley, Henry B. Beecher and Vincent R. Solench were indicted for forgery, grand larceny and misdemeanor. Midgley was tried for forgery two months ago and acquitted.

Do You Tire Quickly?

Fatigue is the natural sequence of labour. If, however, it follows moderate or slight exertion it is the sign and evidence that the nervous system has lost tone and vigor and requires assistance. Suicidal is a resort to stimulants, since these only increase the enervation. Aid cannot be obtained in this way, but through medication, judiciously employed in restoring through the nervous system the digestive function, upon which primarily, health depends. The whole range of medicine fails to produce a preparation possessing in equal degree the tonic and nutritive qualities of Maltine with Coca Wine. By the action of Maltine with Coca Wine upon the nervous system all the important functions of the body are stimulated and increased; the digestive process is performed efficiently and without discomfort, insuring the proper nourishment of the body. Tone takes the place of lassitude; vivacity dissipates depression, forbodings and despondency, and soon the quickening impulses of renewed health are experienced. Maltine with Coca Wine is sold by all druggists.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 289 George Street.
